Environmental Condition No. 11 of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 401-02), requires Applicants (including Consolidated Rail Corporation (CR), which administers the CSX/NS Shared Assets Areas), with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments. Environmental Condition No. 11 further provides that: "Applicants shall certify compliance with this condition within 2 years of the effective date of the Board's final decision. This condition shall not apply to those communities that have executed Negotiated Agreements with Applicants that satisfy the communities’ environmental concerns." Environmental Condition No. 11 requires compliance with this provision within 2 years of the effective date of Decision No. 89, or by August 22, 2000.

By letter received on August 11, 2000, CSX, on behalf of CSX and CR, has requested a 1-year extension of the deadline provided for in Environmental Condition No. 11, until August 22, 2001. CSX states that it has worked diligently to comply with Environmental Condition No. 11, and has submitted to the Board 22 Negotiated Agreements, all of which either have been approved by the Board or are pending. CSX expects to be able to submit additional Negotiated Agreements to the Board by August 22, 2000, and that new agreements will be reached thereafter.

1 In Decision No. 89, served July 23, 1998, the Board approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc. and CR, and the division of their assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX, NS, and CR are referred to collectively as Applicants for purposes of this decision.
CSX further advises that it has consulted with all of the responsible local governments for the noise-sensitive receptors identified in Environmental Condition No. 11. It states that some local governments may still be in the process of deciding how they wish to proceed as of August 22, 2000, and that the public interest would be served by allowing these communities additional time to respond to CSX’s proposals. In this regard, CSX states that it has been informed by a few other local governments that they would like CSX to contact individual property owners. CSX advises that, in light of the Board’s general preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153, and the specific requirement of Environmental Condition No. 11 for concurrence by responsible local governments, CSX has to date focused its efforts on negotiations with communities. CSX states that an extension to August 22, 2001, would allow it to complete implementation of the condition through additional settlements with communities and an individualized noise mitigation program.2

The request for a 1-year extension to August 22, 2001, is reasonable and will be granted.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. The compliance deadline for CSX and CR in Environmental Condition No. 11 of Appendix Q of Decision No. 89 is extended 1 year until August 22, 2001.

2. This decision is effective on the date of service.

By the Board, Vernon A. Williams, Secretary.

Vernon A. Williams
Secretary

---

2 In its August 11, 2000 letter, CSX adds that, with respect to one of the communities located on the sole shared assets line segment (C-020) identified for mitigation in Environmental Condition No. 11, an agreement was reached and approved by the Board, see Decision No. 152, served April 18, 2000, and that discussions have been undertaken with other communities located on that line segment. CSX advises that CR joins in the request for an extension of time because it is possible that additional agreements could be reached if more time is made available for this purpose.

SURFACE TRANSPORTATION BOARD

STB Finance Docket No. 33388

CSX CORPORATION AND CSX TRANSPORTATION, INC.,
NORFOLK SOUTHERN CORPORATION AND
NORFOLK SOUTHERN RAILWAY COMPANY
— CONTROL AND OPERATING LEASES/AGREEMENTS —
CONRAIL INC. AND CONSOLIDATED RAIL CORPORATION

Decision No. 165

Decided: August 17, 2000

Environmental Condition No. 11 of Appendix Q of Decision No. 891 (Decision No. 89, slip op. at 401-02), requires Applicants, with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments. Environmental Condition No. 11 further provides that: “Applicants shall certify compliance with this condition within 2 years of the effective date of the Board’s final decision. This condition shall not apply to those communities that have executed Negotiated Agreements with Applicants that satisfy the communities’ environmental concerns.”

On July 11, 2000, CSX provided us with a copy of a Negotiated Agreement between CSX and the Borough of Fayette City, PA, dated June 6, 2000, and accepted by the Borough of Fayette City on June 14, 2000. According to CSX, this Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. CSX requests that Environmental Condition No. 11 be amended to reflect the parties’ Negotiated Agreement by deleting the Borough of Fayette City2 from the list of communities on the Sinns, PA, to Brownsville, PA line segment (C-085), and that the Negotiated Agreement between CSX

---

1 In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.

2 In Environmental Condition No. 11 of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 402), Fayette was listed as one of the communities on the Sinns, PA, to Brownsville, PA line segment. The correct name for this community should have been shown as Fayette City.
and the Borough of Fayette City be added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q in Decision No. 89, which requires CSX to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. The Borough of Fayette City concurs with the request.

In view of the Negotiated Agreement between CSX and the Borough of Fayette City, we will: (1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete the Borough of Fayette City because the noise mitigation for that community has been superseded by the CSX/Borough of Fayette City Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between CSX and the Borough of Fayette City, PA, dated June 6, 2000, and accepted by the Borough of Fayette City on June 14, 2000, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In addition, Environmental Condition No. 11 of Appendix Q of Decision No. 89 is amended to delete the noise mitigation applicable to the Borough of Fayette City, PA, because it has been superseded by the Negotiated Agreement.

4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burke, and Commissioner Clyburn.

Vernon A. Williams
Secretary

Records: 357
In Decision No. 89, served July 23, 1998, we required applicants to negotiate with the State of Ohio (by and through the Ohio Attorney General, the Ohio Rail Development Commission (ORDC), and the Public Utilities Commission of Ohio (PUCO)) regarding highway/rail at-grade crossing improvements. In Decision No. 129, served June 16, 1999, we accepted the Railroad Corridor Agreement (Agreement) dated May 17, 1999, entered into by CSX, PUCO, and ORDC. In that decision, the Agreement was added to the list of Negotiated Agreements entered into by CSX in Environmental Condition No. 51 of Appendix Q of Decision No. 89 (slip op. at 420), and superseded Environmental Condition No. 8(A) with respect to the 20 highway/rail at-grade crossings located in the State of Ohio which are listed under “CSX” (slip op. at 395-96).

By letter filed July 10, 2000, CSX advises that the parties request Board approval of an amendment to the Agreement with respect to a crossing in Tontogany, OH. The Agreement had provided that the Washington Street crossing in Tontogany (155798S) would be evaluated for closure and, if the parties decided that the crossing would not be closed, the crossing would be upgraded to flashing lights and gates. CSX states that the Village of Tontogany did not agree to close the Washington Street crossing, but in lieu of upgrading that crossing to flashing lights and gates.

In Decision No. 89, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail, Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as applicants.

The original deadline to complete negotiations was within 120 days of the effective date of our decision or by December 20, 1998. At the request of CSX and the State of Ohio, this date was extended several times.
gates, it has requested that the Broad/Wall Street crossing (155796D) in Tontogany be upgraded to flashing lights and gates. CSX advises that PUCO and ORDC concur in the request, and that it does not object.

The parties' request is reasonable and will be granted. Accordingly, we approve an amendment to the Agreement to provide that the Broad/Wall Street crossing in Tontogany, OH (155796D), will be upgraded to flashing lights and gates in lieu of the Washington Street crossing (155798S).

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. The Railroad Corridor Agreement dated May 17, 1999, is amended to provide that the Broad/Wall Street crossing in Tontogany, OH (155796D), will be upgraded to flashing lights and gates in lieu of the Washington Street crossing (155798S).

3. This decision shall be effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary

---

In its July 10, 2000 submission to the Board, CSX enclosed a letter dated November 22, 1999, from the Village of Tontogany to ORDC confirming that, because of the limited funding available to improve the safety conditions in Tontogany, the Village has determined that the Broad/Wall Street crossing has more traffic volume and visibility, and would therefore appear to have a higher priority for improvement than the Washington Street crossing.

CSX enclosed with its July 10, 2000 submission, the following letters concerning the parties' request for an amendment to the Agreement: (1) letter from Susan J. Kirkland (ORDC) to Honorable Melvin Mehring, Mayor, Village of Tontogany, dated November 1, 1999; and (2) letter from William S. Tompos (ORDC) to Hugh Hopkins (CSX), dated January 25, 2000. CSX adds that it has been authorized to represent that PUCO concur in the parties' request for an amendment to the Agreement.

Records: 358
Environmental Condition No. 11 of Appendix Q of Decision No. 891 (Decision No. 89, slip op. at 401-02), requires Applicants, with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments. Environmental Condition No. 11 further provides that: “Applicants shall certify compliance with this condition within 2 years of the effective date of the Board’s final decision. This condition shall not apply to those communities that have executed Negotiated Agreements with Applicants that satisfy the communities’ environmental concerns.”

On May 17, 2000, CSX provided us with a copy of a Negotiated Agreement between CSX and the Township of Forward, Monongahela, PA, dated April 14, 2000, and accepted by the Township of Forward on May 4, 2000. According to CSX, this Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. CSX requests that Environmental Condition No. 11 be amended to reflect the parties’ Negotiated Agreement by deleting the Township of Forward receptors from those

---

1 In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.
identified on the Sinns, PA to Brownsville, PA line segment (C-085), \(^2\) and that the Negotiated Agreement between CSX and the Township of Forward be added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q in Decision No. 89, which requires CSX to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. The Township of Forward concurs with the request.

In view of the Negotiated Agreement between CSX and the Township of Forward, we will: (1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete the Township of Forward receptors from those identified on the Sinns, PA to Brownsville, PA line segment because the noise mitigation for that community has been superseded by the CSX/Township of Forward Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between CSX and the Township of Forward, Monongahela, PA, dated April 14, 2000, and accepted by the Township of Forward on May 4, 2000, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In addition, Environmental Condition No. 11 of Appendix Q of Decision No. 89 is amended to delete the receptors that meet wayside noise mitigation criteria applicable to the Township of Forward receptors from those identified on the Sinns, PA to Brownsville, PA line segment because such receptors/noise mitigation have been superseded by the Negotiated Agreement.

\(^2\) Environmental Condition No. 11 does not specifically reference the Township of Forward. However, the communities of Bunola, Elkhorn, East Monongahela, Manown, Gallatin, Sunny Side, and Milesville, PA, located within the Township of Forward, are specifically referenced in Environmental Condition No. 11, and are included in the Negotiated Agreement between CSX and the Township of Forward.
4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary

ID-30494
This decision relates to certain of the conditions that the Board imposed in approving the “CSX/NS/Conrail” transaction in its Decision No. 89, served July 23, 1998. The original proposal that the private parties negotiated among themselves divided Conrail’s assets in a way that enhanced competition in several respects. Further, in approving the transaction, the Board imposed conditions that mitigated potential competitive harm and provided other public benefits.

One of these conditions made possible new competitive service for many New York City shippers and receivers that could formerly receive rail service only from Conrail. To permit that new competitive service, the Board granted trackage rights to Canadian Pacific Railway Company and its affiliates (collectively, CP) over the lines of CSX from Albany, NY, to Oak Point Yard in Queens, NY. These Board-imposed trackage rights made competitive rail service available to these shippers for the first time since the creation of Conrail more than two decades ago.

Of course, in crafting conditions to permit this new competition, the Board was careful not to create an unsafe, inefficient, or operationally infeasible railroad operating environment in the congested New York City area. For that reason, the Board placed certain restrictions on the new operating rights granted to CP, most notably that shippers be accessed by CP only through a cost-based switching service performed by CSX into and out of Oak Point Yard, rather than having CP

---

1 The parties to that transaction were CSX Corporation and CSX Transportation, Inc., and their wholly owned subsidiaries (collectively, CSX); Norfolk Southern Corporation and Norfolk Southern Railway Company, and their wholly owned subsidiaries (collectively, NS); and Conrail Inc. and Consolidated Rail Corporation, and their wholly owned subsidiaries (collectively, Conrail).
itself also operate trains throughout this area. The Board imposed these restrictions because of its concern that giving CP physical access to all of the tracks and facilities used by CSX in the affected area could produce congestion and compromise safety within New York City, where rail freight operations must share limited track and other facilities with heavy commuter and other rail passenger operations. Further, property values in the city preclude the construction of the additional facilities that the evidence presented in the case indicated would be necessary to accommodate a second major freight carrier providing service directly to all shippers.

THE ISSUES RAISED

In a petition filed on July 27, 1999, CP asked the Board to direct CSX to permit CP to exercise two rights that it states derive from the conditions that the Board imposed in approving the transaction. First, arguing that the Oak Point Yard switching operations using CSX are inefficient for certain movements, CP asks that the Board direct CSX to permit CP to handle traffic to or from Harlem River Yard directly. Second, CP asks that the cost-based switching service that CSX was required to provide for CP at Oak Point Yard be construed as including certain traffic that moves through a CSX transload facility located at Hunts Point Terminal.  

In its reply statement filed on August 16, 1999, CSX states that CP’s petition is in substance one to expand the rights that the Board previously gave to CP, rather than one to enforce existing rights. CSX also argues that the new Harlem River Yard operations that CP seeks to conduct could produce operational problems, and that the Hunts Point Terminal operations in which CP wants to participate are not the type of operations that were contemplated by the conditions giving CP access to shippers located within Hunts Point Terminal.

RESOLUTION

The Board is prepared to decide this matter promptly if necessary. In letters dated September 17, 1999, and September 20, 1999, however, counsel indicated that CP and CSX are engaging in negotiations in an effort to resolve the issues privately, and asked that Board action be withheld until November 1, 1999, in order to facilitate negotiations. Because the Board generally supports private resolution of disputes, and because cooperation among carriers is particularly critical to any venture, such as this one, in which track and terminal facilities are shared, the request to withhold action will be granted.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

---

It is ordered:

1. Action on CP's petition will be withheld until at least November 1, 1999.

2. This decision will be effective immediately.

By the Board, Linda J. Morgan, Chairman.

Vernon A. Williams
Secretary

SURFACE TRANSPORTATION BOARD

STB Finance Docket No. 33388

CSX CORPORATION AND CSX TRANSPORTATION, INC., NORFOLK SOUTHERN CORPORATION AND NORFOLK SOUTHERN RAILWAY COMPANY — CONTROL AND OPERATING LEASES/AGREEMENTS — CONRAIL INC. AND CONSOLIDATED RAIL CORPORATION

Decision No. 162

Decided: July 25, 2000

Environmental Condition No. 11 of Appendix Q of Decision No. 891 (Decision No. 89, slip op. at 401-02), requires Applicants, with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments. Environmental Condition No. 11 further provides that: “Applicants shall certify compliance with this condition within 2 years of the effective date of the Board’s final decision. This condition shall not apply to those communities that have executed Negotiated Agreements with Applicants that satisfy the communities’ environmental concerns.”

On May 17, 2000, CSX provided us with a copy of a Negotiated Agreement between CSX and the Village of Wellington, OH, dated March 24, 2000, and accepted by the Village of Wellington on April 17, 2000. According to CSX, this Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. CSX requests that Environmental Condition No. 11 be amended to reflect the parties’ Negotiated Agreement by deleting the Village of Wellington from the list of communities on the Berca, OH to Greenwich, OH line segment (C-061), and that the Negotiated Agreement between CSX and the Village of Wellington be added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q in Decision No. 89, which requires CSX to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. The Village of Wellington concurs with the request.

1 In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.
In view of the Negotiated Agreement between CSX and the Village of Wellington, we will: (1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete the Village of Wellington because the noise mitigation for that community has been superseded by the CSX/Village of Wellington Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between CSX and the Village of Wellington, OH, dated March 24, 2000, and accepted by the Village of Wellington on April 17, 2000, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In addition, Environmental Condition No. 11 of Appendix Q of Decision No. 89 is amended to delete the noise mitigation applicable to the Village of Wellington, OH, because it has been superseded by the Negotiated Agreement.

4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary

Records: 359
Environmental Condition 8(A) of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 393-99) requires applicants to upgrade existing warning devices at 86 highway/rail at-grade crossings, 9 of which are located on NS line segments in Ohio (Decision No. 89, slip op. at 398). Environmental Condition 8(A) further provides: "If Applicants execute a Negotiated Agreement with the affected local jurisdiction and the state department of transportation, they may implement alternate safety improvements in the vicinity of these identified highway/rail at-grade crossings that achieve at least an equivalent level of safety enhancement." Decision No. 89, slip op. at 393.

Environmental Condition 51 of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 420-21) provides that applicants shall comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction.

NS has advised us that on February 10, 1999, it entered into a "Railroad Corridor Safety Agreement" with the Ohio Rail Development Commission (ORDC) and the Public Utilities

1 In this decision as in Decision No. 89: CSX Corporation and CSX Transportation, Inc., and their wholly owned subsidiaries, and also Consolidated Rail Corporation's wholly owned New York Central Lines LLC subsidiary, are referred to collectively as CSX; Norfolk Southern Corporation and Norfolk Southern Railway Company and their wholly owned subsidiaries, and also Consolidated Rail Corporation's wholly owned Pennsylvania Lines LLC subsidiary, are referred to collectively as NS; Conrail Inc. and Consolidated Rail Corporation, and also their wholly owned subsidiaries other than New York Central Lines LLC and Pennsylvania Lines LLC, are referred to collectively as Conrail; and CSX, NS, and Conrail are referred to collectively as applicants.
Commission of Ohio (PUCO) regarding grade crossing safety improvements in Ohio. NS has provided a copy of the Agreement and has explained that ORDC and PUCO concur that the Agreement satisfies NS’s obligations under Environmental Condition 8(a) of Appendix Q of Decision No. 89 with respect to the provision of grade crossing safety upgrades by NS in Ohio.  

In accordance with our usual practice, we will acknowledge the adoption of the NS/ORDC/PUCO Railroad Corridor Safety Agreement: (a) by adding that agreement to the NS Subsection of Environmental Condition S1; and (b) by deleting the 9 NS crossings in Ohio from Environmental Condition 8(A) because the parties’ agreement supersedes NS’s obligations under Environmental Condition 8(A) regarding grade crossing safety upgrades in Ohio.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Railroad Corridor Safety Agreement among NS, ORDC, and PUCO, executed on February 10, 1999, the following is added to the NS Subsection of Environmental Condition 51 of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 420-21):

   3. In addition, Environmental Condition 8(A) of Appendix Q of Decision No. 89 (Decision No. 89, slip op. at 398) is amended by deleting therefrom the 9 NS crossings in Ohio.

---

3 See, e.g., Decision No. 129.
4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Clyburn, and Commissioner Burkes.

Vernon A. Williams
Secretary

Records: 362
In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively Conrail) and the division of Conrail's assets by CSX Corporation and CSX Transportation, Inc. (collectively CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively NS)\(^1\). As pertinent here, Environmental Condition No. 11 of Appendix Q in Decision No. 89 requires applicants, with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments.

On June 24, 1999, CSX provided us with the following: (1) a copy of a Negotiated Agreement between CSX and the Village of New London, OH (New London), dated May 26, 1999, and accepted by New London on June 15, 1999; and (2) a copy of a Negotiated Agreement between CSX and the City of Plymouth, IN (Plymouth), dated June 16, 1999, and accepted by Plymouth on June 17, 1999. CSX explains that the Negotiated Agreements are intended to supersede the noise mitigation conditions imposed by us in Decision No. 89, Appendix Q, Environmental Condition No. 11, with respect to New London and Plymouth. CSX states that New London is one of several communities located on the rail segment between Berea and Greenwich, OH (C-061), and that Plymouth is one of the communities located on the rail line segment between Warsaw and Tolleston, IN (C-026). CSX requests that Environmental Condition No. 11 be amended to reflect the parties' Negotiated Agreements, and that the Negotiated Agreement between CSX and New London and the Negotiated Agreement between CSX and Plymouth be added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q in Decision No. 89, which requires CSX to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. New London and Plymouth concur with the requests.

---

\(^1\) CSX and NS are referred to as applicants.
In view of the Negotiated Agreement between CSX and New London, we will: (1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89; and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete New London because the noise mitigation for that community has been superseded by the CSX/New London Negotiated Agreement.

In view of the Negotiated Agreement between CSX and Plymouth, we will: (1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89; and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete Plymouth because the noise mitigation for that community has been superseded by the CSX/Plymouth Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between CSX and the Village of New London, OH, executed on June 15, 1999, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In accordance with the Negotiated Agreement between CSX and the City of Plymouth, IN, executed on June 17, 1999, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

4. In addition, Environmental Condition No. 11 of Appendix Q of Decision No. 89 is amended to delete the noise mitigation applicable to New London, OH, and Plymouth, IN, because it has been superseded by the Negotiated Agreements.
5. This decision shall be effective on July 9, 1999. 

By the Board, Chairman Morgan, Vice Chairman Clyburn, and Commissioner Burkes.

Vernon A. Williams
Secretary

Records: 362
Environmental Condition No. 8(A) of Appendix Q of Decision No. 89¹ (Decision No. 89, slip op. at 393-94), requires Applicants, in order to address potential safety impacts at highway/rail at-grade crossings, to upgrade existing warning devices at 86 public highway/rail at-grade crossings listed in the decision. Environmental Condition No. 8(A) further provides that: "To the extent practicable, Applicants shall prioritize for improvement those highway/rail at-grade crossings that have the greatest level of projected train traffic increases. If Applicants execute a Negotiated Agreement with the affected local jurisdiction and the state department of transportation, they may implement alternate safety improvements in the vicinity of these identified highway/rail at-grade crossings that achieve at least an equivalent level of safety enhancement. Applicants shall complete these upgrades or improvements within 2 years of the effective date of the Board's decision, and shall certify to the Board such completion on a quarterly basis during this 2-year period."

On April 28, 2000, NS submitted a signed Negotiated Agreement with the Indiana Department of Transportation (INDOT) and the Tippecanoe County Board of Commissioners, West Point, IN. The Negotiated Agreement was dated and signed August 12, 1999, by NS and INDOT, and accepted and approved by the Tippecanoe County Board of Commissioners on September 8, 1999.

As pertinent here, Environmental Condition No. 8(A) specifically requires that NS install "Flashing Lights" at the CR 400 South at-grade crossing in Tippecanoe County, West Point, IN.

¹ In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail's assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.
NS advises that, in accordance with Environmental Condition No. 8(A), the Negotiated Agreement provides for the closure of the NS at-grade crossing at CR 400 South, superseding the requirement that flashing lights be installed at this crossing.  

According to NS, the Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. In view of the Negotiated Agreement with INDOT and the Tippecanoe County Board of Commissioners, NS requests that Environmental Condition No. 8(A) of Appendix Q of Decision No. 89 be amended by deleting the requirement that NS install “Flashig Lights” at the CR 400 South at-grade crossing in Tippecanoe County, West Point, IN, and that Environmental Condition No. 51 of Appendix Q of Decision No. 89 be amended by adding the Negotiated Agreement signed by NS, INDOT, and the Tippecanoe County Board of Commissioners to the list of Negotiated Agreements entered into by NS. Environmental Condition No. 51 requires NS to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. INDOT and the Tippecanoe County Board of Commissioners concur with the request.

NS’ request will be granted. Accordingly, we will: (1) add the Negotiated Agreement signed by NS and INDOT on August 12, 1999, and approved and accepted by the Tippecanoe County Board of Commissioners on September 8, 1999, to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) delete the reference to the installation of “Flashig Lights” at the CR 400 South at-grade crossing in Tippecanoe County, West Point, IN, from Environmental Condition No. 8(A) of Appendix Q of Decision No. 89, because the application of that particular condition to this crossing has been superseded by the parties’ Negotiated Agreement.

---

NS and INDOT explain in the Negotiated Agreement that they have been concerned about crossing safety and, for this reason, have been discussing a highway-rail corridor project with the Tippecanoe County Highway Department (County). To reduce the number of redundant crossings in the area with little traffic, NS, INDOT, and the County developed a proposal to close the crossings at County Roads 400 South and 575 West. The County would then construct a connecting road north of the tracks between CR 400 South and CR 500 West, which would allow traffic on CR 400 South to detour with minimal inconvenience and prevent the creation of a dead-end road. NS and INDOT advise that, if both crossings can be closed, INDOT would fully fund the installation of gates and lights at the CR 500 West crossing. As described in the Negotiated Agreement, in recognition of the County’s consent to close the two crossings, NS would provide a grant to the County which could be used to fund a significant part of the connecting road construction. In addition, NS states that its Real Estate Department will also work with the County towards granting an easement for the connecting road so that property acquisition costs can be kept to a minimum.
This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement signed by NS and INDOT on August 12, 1999, and approved and accepted by the Tippecanoe County Board of Commissioners on September 8, 1999, the following is added to the NS Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

18. Indiana Department of Transportation (INDOT) and the Tippecanoe County Board of Commissioners Negotiated Agreement, signed by NS and INDOT on August 12, 1999, and approved and accepted by the Tippecanoe County Board of Commissioners on September 8, 1999.

3. In addition, Environmental Condition No. 8(A) of Appendix Q of Decision No. 89 is amended to delete the reference to the installation of “Flashing Lights” at the CR 400 South at-grade crossing in Tippecanoe County, West Point, IN, because the application of that condition to this particular crossing has been superseded by the parties’ Negotiated Agreement.

4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary

SURFACE TRANSPORTATION BOARD

STB Finance Docket No. 33388

CSX CORPORATION AND CSX TRANSPORTATION, INC.,
NORFOLK SOUTHERN CORPORATION AND
NORFOLK SOUTHERN RAILWAY COMPANY
— CONTROL AND OPERATING LEASES/AGREEMENTS —
CONRAIL INC. AND CONSOLIDATED RAIL CORPORATION

Decision No. 160

Decided: June 19, 2000

Environmental Condition No. 8(A) of Appendix Q of Decision No. 89\(^1\) (Decision No. 89, slip op. at 393-94), requires Applicants, in order to address potential safety impacts at highway/rail at-grade crossings, to upgrade existing warning devices at 86 public highway/rail at-grade crossings listed in the decision. Environmental Condition No. 8(A) further provides that: “To the extent practicable, Applicants shall prioritize for improvement those highway/rail at-grade crossings that have the greatest level of projected train traffic increases. If Applicants execute a Negotiated Agreement with the affected local jurisdiction and the state department of transportation, they may implement alternate safety improvements in the vicinity of these identified highway/rail at-grade crossings that achieve at least an equivalent level of safety enhancement. Applicants shall complete these upgrades or improvements within 2 years of the effective date of the Board’s decision, and shall certify to the Board such completion on a quarterly basis during this 2-year period.”

On April 20, 2000, NS submitted a signed Negotiated Agreement, Draft of August 16, 1999, with the Indiana Department of Transportation (INDOT), which was approved by INDOT on September 15, 1999, regarding a highway/rail at-grade crossing improvement project in Indiana. NS states that this Negotiated Agreement provides that flashing lights with gates, bells, and track circuit upgrades be installed at the NS grade crossing at Anthony Boulevard in Allen County, Fort Wayne, IN. Subsequently, NS advises, the Railroad Section of the Office of Intermodal Transportation of INDOT issued an order, dated September 20, 1999, requiring NS to comply with the terms of the Negotiated Agreement for the installation of flashing light signals.

---

\(^1\) In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.
with gates and bells, and upgrade the track circuits at Anthony Boulevard, Allen County, Fort Wayne, IN, AAR-DOT 478 226 J, Project No. STP-F016 (011).

As pertinent here, Environmental Condition No. 8(A) specifically required that NS install “4-Quadrant Gates, or Alternative Mitigation such as Median Barriers” at the Anthony Boulevard grade crossing. NS advises that, in accordance with Environmental Condition No. 8(A), INDOT and NS agreed that the Anthony Boulevard grade crossing was not conducive to the installation and operation of either 4-quadrant gates or median barriers, due to the physical layout of the highway/railroad intersection, a nearby highway intersection, and vehicular traffic patterns. NS and INDOT agreed to an alternative package of grade crossing safety enhancements for the Anthony Boulevard crossing, including: (1) installation of additional 12" flashing lights on a separate mast in the southwest quadrant of the grade crossing; (2) replacement of the existing 8" flashing lights with 12" flashing lights; (3) extension of the gate tips to approximately 26', such that the tips will extend beyond the centerline of the roadway; and (4) installation of the most recently upgraded constant warning time circuitry.

According to NS, the Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. In view of the Negotiated Agreement with INDOT, NS requests that Environmental Condition No. 8(A) of Appendix Q of Decision No. 89 be amended by deleting the reference to the installation of “4-Quadrant Gates, or Alternative Mitigation such as Median Barriers” at the Anthony Boulevard grade crossing in Allen County, Fort Wayne, IN, and that Environmental Condition No. 51 of Appendix Q of Decision No. 89 be amended by adding the Negotiated Agreement and the September 20, 1999 Railroad Section Order of the Office of Intermodal Transportation of INDOT to the list of Negotiated Agreements entered into by NS. Environmental Condition No. 51 requires NS to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. INDOT concurs with the request.

Given the physical layout of the Anthony Boulevard grade crossing, and the parties’ determination that this makes the mitigation in Environmental Condition No. 8(A) inappropriate for that particular grade crossing, NS’ request will be granted. Accordingly, we will: (1) add the Negotiated Agreement between NS and INDOT and the September 20, 1999 Railroad Section Order of the Office of Intermodal Transportation of INDOT to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) delete the reference to the installation of “4-Quadrant Gates, or Alternative Mitigation such as Median Barriers” at the Anthony Boulevard grade

---

2 NS enclosed a copy of the Railroad Section Order signed by Ron Thomas, Section Manager, as well as a letter dated September 17, 1999, from Larry J. Shaw, P.E., Rail Projects Manager, INDOT, authorizing NS, effective September 17, 1999, to purchase the necessary materials and proceed with the work set out in the Negotiated Agreement.
This crossing in Allen County, Fort Wayne, IN, from Environmental Condition No. 8(A) of Appendix Q of Decision No. 89, because the application of that particular condition to this crossing has been superseded by the parties’ Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between NS and INDOT, Draft of August 16, 1999, and approved by INDOT on September 15, 1999, the following is added to the NS Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In addition, Environmental Condition No. 8(A) of Appendix Q of Decision No. 89 is amended to delete the reference to the installation of “4-Quadrant Gates, or Alternative Mitigation such as Median Barriers” at the Anthony Boulevard grade crossing in Allen County, Fort Wayne, IN, because the application of that condition to this particular crossing has been superseded by the parties’ Negotiated Agreement.

4. This decision is effective on the date of service.

   By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary

Environmental Condition No. 11 of Appendix Q of Decision No. 89\(^1\) (Decision No. 89, slip op. at 401-02), requires Applicants, with the concurrence of the responsible local governments, to mitigate train wayside noise (locomotive engine and wheel/rail noise) at noise-sensitive receptor locations on certain rail line segments. Environmental Condition No. 11 further provides that: “Applicants shall certify compliance with this condition within 2 years of the effective date of the Board’s final decision. This condition shall not apply to those communities that have executed Negotiated Agreements with Applicants that satisfy the communities’ environmental concerns.”

On April 12, 2000, CSX provided us with a copy of a Negotiated Agreement between CSX and the Village of Grafton, OH, dated March 20, 2000, and accepted by the Village of Grafton on March 22, 2000. According to CSX, this Negotiated Agreement effectuates the Board’s preference for privately negotiated solutions stated in Decision No. 89, slip op. at 153. CSX requests that Environmental Condition No. 11 be amended to reflect the parties’ Negotiated Agreement by deleting the Village of Grafton from the list of communities on the Berea, OH to Greenwich, OH line segment (C-061), and that the Negotiated Agreement between CSX and the Village of Grafton be added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q in Decision No. 89, which requires CSX to comply with the terms of all Negotiated Agreements developed with states, local communities, and other entities regarding environmental issues associated with the Conrail transaction. See Decision No. 89, slip op. at 420-21. The Village of Grafton concurs with the request.

\(^1\) In Decision No. 89, served July 23, 1998, we approved, subject to certain conditions, including environmental mitigation conditions, the acquisition of control of Conrail Inc., and Consolidated Rail Corporation (collectively, Conrail) and the division of Conrail’s assets by CSX Corporation and CSX Transportation, Inc. (collectively, CSX), and Norfolk Southern Corporation and Norfolk Southern Railway Company (collectively, NS). CSX and NS are referred to as Applicants.
In view of the Negotiated Agreement between CSX and the Village of Grafton, we will:
(1) add the Negotiated Agreement to Environmental Condition No. 51 of Appendix Q of Decision No. 89, and (2) amend Environmental Condition No. 11 of Appendix Q of Decision No. 89 to delete the Village of Grafton because the noise mitigation for that community has been superseded by the CSX/Village of Grafton Negotiated Agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. This proceeding is reopened.

2. In accordance with the Negotiated Agreement between CSX and the Village of Grafton, OH, executed on March 22, 2000, the following is added to the CSX Subsection of Environmental Condition No. 51 of Appendix Q of Decision No. 89:

3. In addition, Environmental Condition No. 11 of Appendix Q of Decision No. 89 is amended to delete the noise mitigation applicable to the Village of Grafton, OH, because it has been superseded by the Negotiated Agreement.

4. This decision is effective on the date of service.

By the Board, Chairman Morgan, Vice Chairman Burkes, and Commissioner Clyburn.

Vernon A. Williams
Secretary
