## Surface Transportation Board Monitoring Impacts of Hurricane Delta

The Surface Transportation Board today announced that it is actively monitoring any rail service disruptions caused by Hurricane Delta. The National Hurricane Center forecasts hurricane conditions, especially along the coasts of Louisiana and Mississippi, beginning on Friday.

The Board is prepared to utilize its emergency service authorities pursuant to 49 U.S.C § 11123 if a “failure of traffic movement exists which creates an emergency situation of such magnitude as to have substantial adverse effects on shippers, or on rail service in a region of the United States.”

Rail carriers, shippers and other stakeholders experiencing rail service disruptions that create an emergency situation are asked to contact the Board’s Rail Customer and Public Assistance office. To request assistance, interested persons may email [RCPA@stb.gov](mailto:RCPA@stb.gov) or call (202) 245-0238 or (866) 254-1792.
