If the name and address on the mailing label are incorrect, insert your correct name and address in the space provided to the left. The carrier mailing address is the company address where correspondence regarding accounting and reporting matters is to be directed, but not the address of an independent auditor or CAP.

2. All conferences, bureaus, committees, or other organizations, subject to Section 5a, or Section 5b (49 U.S.C. §10706) Part I of the Interstate Commerce Act, are required to file annual report Form RBO. This Form for annual report should be filled out in triplicate and 2 copies, the original of which must be the copy containing the mailing label, returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C. 20423, by March 31 of the year following the year for which the report is made. Class II rate bureaus are those with annual operating revenues of less than \$100,000. Class I rate bureaus shall file the full report, Annual Report Form RBO. Class II rate bureaus shall file only the carrier statistics (ITEMS 1-9) and certification (page 4) portions of the Annual Report Form RBO.

4. The instructions in this Form should be carefully observed, and each question should be answered fully and accurately. If any inquiry does not apply to the respondent, such fact should be shown on the inquiry by the words "Not applicable." Where the word "None" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of any inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

5. If it is necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper, on sheets not larger than a page of the Form. The inserts should be securely bound in the report.

6. All entries must be made in permanent black ink. Those of a contrary and unusual character must be indicated by use of parentheses.

7. Throughout this report the Commission means the Interstate Commerce Commission; the respondent means the rate bureau or organization in whose behalf the report is made; the year ended December 31 for which the report is made; the close of the year means the close of business on December 31 of the year for which the report is made or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report; the beginning of the year means the beginning of business on January 1 of the year for which the report is made or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report.

STATEMENT
(As of January 1, 1979)

The Association of American Railroads (AAR) itself has no protection under Section 5b of the Interstate Commerce Act, and it is not considered to be a "rate bureau or organization" operating under that section of the Act.

There are two committees within the Association of American Railroads which when dealing with matters covered by the Section 5b Agreement, referred to below, do have the protection afforded by the Commission's approval of that Agreement. The Agreement is entitled, "Agreement Between and Among Railroads Under Section 5b of the Interstate Commerce Act Relating to Procedures for the Establishment and Modification of Compensation for the Use of Foreign Line and Non-Shipper Furnished Freight Cars and Other Transportation Equipment, Freight Cars and Other Transportation Equipment Furnished by Shippers, and Demurrage & Storage Rates and Charges, and Rules and Regulations Pertaining Thereto", dated June 15, 1977 (revised - December 20, 1978). The original form of this Agreement was submitted and approved as Section 5a Application No. 7. The title to the Agreement clearly indicates the matters with which it deals. One AAR group, specifically referred to in the Agreement, is a standing Committee within the Operations and Maintenance Department, AAR, known as the General Committee, Operating-Transportation Division; the second AAR group, referred to in the Agreement, is the Committee on Compensation, Operating-Transportation Division. Both the General Committee and the Committee on Compensation consist of seventeen members each, one member being selected by the American Short Line Association, and sixteen others being territorially representative. Generally speaking, the General Committee consists of the chief operating officers and the Committee on Compensation consists of chief traffic officers of the larger railroads of the United States and Canada.

Neither AAR Committee has any revenues, cash on hand or other assets. There are no membership fees, dues or assessments, and neither group employs any officers or other employees. Both Committees are administered by a Secretary which has other functions and is an employee of the AAR.

The "proposals" that are submitted to the two committees are very seldom concrete proposals for a particular change in a rate or rule. There generally are requests that the respective Committee undertake a study of a proposed rate or rule in order that it may determine whether it should be submitted to the Subscribers to the Section 5b Agreement for vote by letter ballot. Such "proposals" are initiated by railroads, private car owners or others. The General Committee does not have a "public docket" for the matters it considers under the Agreement. However, when a demurrage matter is under consideration by the Committee on Compensation, it appoints a special hearing committee with instructions to hold a public hearing on the proposals. When requested by an interested party, a public hearing is also held on mileage allowance matters by a special hearing committee appointed by the Committee on Compensation. Studies are conducted by subsidiary committees at the direction of the respective Committee following which a recommendation may be made to the Subscribers that a proposed change in a rate or rule be voted upon by letter ballot.

The O-T General Committee and Committee on Compensation meet every second month. Only a minor part of the activities of the General Committee are concerned with matters falling under the Section 5b Agreement, whereas most of the activities of the Committee on Compensation do pertain to the Agreement.

STATEMENT

(As of January 1, 1979)

The Association of American Railroads (AAR) itself has no protection under Section 5b of the Interstate Commerce Act, and it is not considered to be a rate "bureau or organization" operating under that section of the Act.

There is a standing committee (known as the O-T General Committee) within the Association of American Railroads which when dealing with matters covered by the Section 5b Agreement, referred below, does have the protection afforded by the Commission's approval of that Agreement.

The Agreement is entitled, "Agreement Between and Among Railroads Under Section 5b of the Interstate Commerce Act Relating to Procedures for the Consideration, Initiation or Establishment and Adjustment of Per Diem or Mileage Rates, and Rules and Regulations Pertaining Thereto, with Respect to Trailers and Containers", dated May 15, 1978. The original form of this Agreement was submitted and approved as Section 5a Application No. 97. The title to the Agreement clearly indicates the matters with which it deals.

The O-T General Committee consists of seventeen members, one being selected by the American Short Line Railroad Association, and sixteen being territorially representative; one-fourth such territorially representative membership being elected each year for a term of four years by majority vote of members of the Association of American Railroads. Generally speaking, the General Committee consists of the chief operating officers of the larger railroads of the United States and Canada.

The O-T General Committee does not have any revenue, cash or other assets. There are no membership fees, dues or assessments for the Committee, and it does not employ any officers or other employees. The Committee is administered by a Secretary which has other function and is an employee of the AAR.

The "proposals" which are submitted to the General Committee in the field of per diem or mileage rates are very seldom concrete proposals for particular change in a rate or rule. There generally will be requests that the O-T General Committee undertake a study of a rate or rule in order that it may determine whether it should recommend to the Subscribers that a particular change in a rate or rule should be voted upon by letter ballot. Such "proposals" may be initiated by railroads or others. The General Committee does not have a "public docket" for matters considered under this Agreement. Studies are conducted by subsidiary committees at the direction of the General Committee.

The O-T General Committee meets every second month. Only a minor part of the activities of that Committee are concerned with matters falling under the Section 5b Agreement.
