Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 1978

NOTICE

- 1. This Form for annual report should be filled out in triplicate and two popies returned to the Interstate Commerce Commission, Bureau of Accounts. Washington, D.C. 20423, or March 31, of the year following that for which the report is made. One copy should be retained in respondent's film. Attention is specially directed to the following provisions of Part I of the leterstate Commerce Act:
- Sec. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessons, * * * (as defined in this section), to prescribe the moner and form in which such reports shall be made, and to require from such carriers, lessons, * * * specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, * * * as it may deem poper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, * * * in such form and detail as may be prescribed by the Commission.
- (2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission as its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission.
- (7)(b) Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed. * * or shall knowingly or withfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: * * *
- (7)(c) Any carrier or lessor, " " " or any officer, agent, employee or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred de-llars for each and every day it shall continue to be in default with respect thereto.
- (8) As used in this section * * * the ham "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier, and the term "lessor" means a person owning + tailroad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such tessor, * * *
- The respondent is further required to send to the Bureau of Accounts immediately upon preparation, two copies of its latest annual terract to stockholders. See schedule B, page 2.
- 3. Every annual report should, in all particulars, he complete in Itself, and references to the returns of foreser years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.
- 4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practitable, on sheets not larger than a page of the form. Inserted sheets should be securely attached, preferably of the inner margin; attachment by plus or clips is tomicfleient.
- 5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parentness;

- 6. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand Jolians and amounts of less than \$500 should be lowered.
- 7. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; and, a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. In making reports, lessor companies use Armual Report Form R-4.
- Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions
- Class I companies are those having annual operating revenues of \$50,000,000, or more. For this class, Annual Report Form R-1 is provided.
- Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000. For this class, Annual Report Form R-2 is provided.
- Class III vanies are those having annual operating revenues of \$10,000,000. A For this class. Annual Report Form R-3 is provided.
- In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railroads, the sum of the annual railway operating revenues, the joint facility rent income, and the returns to joint facility credit accounts in operating expenses, shall be used in determining its class.
 - Switching and terminal componies are further classified as:
- Class S1. Exclusively switching. This class of companies includes all those performing switching service only, whether for joint account or for revenue.
- Class S2. Exclusively terminal. This class of companies includes all companies furnishing terminal trackage or terminal facultiva only, such as union passenger or freight stations, stockyards, etc., for which a charge is made, whether operated for joint account or fer revenue. In case a bridge or ferry is part of the facilities operated by a terminal company, it should be included under this heading.
- Class S3. Both switching and terminal. Companies which perform both a switching and a terminal service. This class of companies includes all companies whose operations cover botts switching and terminal service, as defined above.
- Class S4. Bridge and ferry. This class of comparaes is confined to those whose operations are limited to bridges and ferries exclusively.
- Class S5. Mixed. Companies performing primardy a switching or a terminal service, but which also conduct a regular freight or passenger traffic. The revenues of this class of companies include, in addition to switching or terminal revenues, those derived from local passenger service, local freight service, participation in through monoment of freight or passenger traffic, other transportation operations, and operations other than transportation.
- Except where the context clearly indicates some other meaning, the following terms when used in this Form hav: the meanings below stated:

Commission means the Interstate Commerce Commission. Respondent means the person or corporation in whose behalf the report is made. The Year means the year Ended December 31 for which the report is made. The Close of the Year means the close of business of December 31 of the year for which the report is made, or, in case the terror is made for a shorter period than one year, it means the close of the period covered by the report. The Beginning of the Year means the beginning of business on January 1 of the year for which the report I made, or, in case the report is made for a shorter period than one year it means the braining of the period covered by the report. The Preceding Year means the year ended December 31 of the year near precediting the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49. Code of Federal Regulations, as amended.

ROBERT W. MESERVE, BENJAMIN H. LACY, TRUSTEES

TO THE

INTERSTATE COMMERCE COMMISSION

FOR THE

YEAR ENDED DECEMBER 31, 1978

Name, official title, segarding this report.	elephone number, and office address of	officer in charge of correspondence with the Commission
(Name)	P. W. Carr	(Title) Vice President and Comptroller
(Telephone number)	617 (Atca code)	227-6000 Ext. 345
(Civing a library)	150 Causeway Street, Boston	, Massachusetts 02114

SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year. It should be understood that mention is not made of necessary substitutions of dates or, in general, such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

This form is revised to (1) improve the disclosure of information for both ratemaking and financial reporting purposes, (2) eliminate unnecessary reporting, and (3) conform with the new Uniform System of Accounts for Railroads, effective January 1, 1978. Other significant modifications include revisions to conform with reporting under generally accepted accounting principles and the rearrangement of schedules in a more orderly fashion to make them easier to complete and use.

Revisions to this report resulted from the following Commission's decisions copies of which were served on all railroads:

Docket	Title	Decision Date
36141	Corporate Disclosure Regulations	5/13/77 1/19/78 3/23/78
36367	Revision to the Uniform System of Accounts for Railroads	6/13/77
36604	Accounting for leases	10/12/77
36557	Reporting Railroad Track Maintenance	4/14/78
36725	Revision to the Annual Report Forms for Class I and Class II Railroads	7/18/78
36767	Accounting for Certain Government Transfers by Railroads and Motor Carriers of Passengers	6/30/78

ESTIMATE OF REPORTING BURDEN

In order to monitor carrier reporting burden and to satisfy GAO requirements pursuant to Section 409 of Public Law 93-153, it is requested that you voluntarily furnish your best estimate of the number of hours required to complete this report.

In making this estimate, please include the number of hours attributable to preparing the report and for any special compilations contained in this report that would not generally be maintained or used by management for purposes other than reporting to this Commission.

Total hours (1-stimated)

A. SCHEDULES OMITTED BY RESPONDENT

- 1. The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not
- Show below the pages excluded and indicate the schedule number and title in the space provided below.
 If no schedules were omitted indicate "NONE".

applicable. Page Title Schedule No. NONE

B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 on this page have taken place during the year covered by this isport, they should be explained in detail.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision.

2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.

State the occasion for the reorganization, whether by reason
of foreclosure of mortgage or otherwise, according to the fact. Give
date of organization of original corporation and refer to laws under

which organized.

1. Exact name of common carrier making this report Robert W. Meserve and Benjamin H. Lacy, Tr. Boston and Maine Corporation, Debtor	rustees of
2. Date of incorporation	
3. Under laws of what Government, State, or Territory organized? If more than one, name all. If in bankruptcy, give court of j dates of be inning of receivership or trusteeship and of appointment of receivers or trustees. See page 4.	urisdiction and
4. If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a give full particulars. Not applicable.	fifferent name,
Class of switching and terminal company [See section No. 7 on inside of front cover]	9
STOCKHOLDERS REPORTS	
6. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annua holders.	d report to stock
Check appropriate box:	
☐ Two copies are attached to this report.	
☐ Two copies will be submitted(date)	
No annual report to stock bolders is prepared.	

C. VOTING POWERS AND ELECTIONS

- 1. State the par value of each share of stock. Common, \$ 1.00/ser share; 5% preferred, \$ 100 per share; second preferred, \$ ___ per share; debenture stock, \$ ___ per share.

 2. State whether or not each share of stock has the right to one vote; if not, give full particulars in a footnote ____ Yes ___ If not, state in a footnote the relation between holdings and corresponding voting rights.
- 4. Are voting rights attached to any securities other than stock? NO If so, name in a footnote each security, other than stock to which voting rights are attached (as of the close of the year), and state in detail the relation between holdings and corresponding voting rights, stating whether voting rights are actual or contingent, and if contingent showing the contingency.
- 5. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method? Yes If so, describe Yully in a footnote each such class or issue and give a succincumstatement showing clearly the character and extent of such privileges. (See note on page 4.)
- 6. Give the date of the latest closing of the stock book prior to the actual filling of this report, and state the purpose of such closing Stock books were not actually closed. Record date for voting at Annual Meeting was 3-17-69.
- 7. State the total voting power of all security holders of the respondent at the date of such closing, if within one year of the date of such filing; if not, state as of the close of the year.

 966,073 votes, as of December 31, 1978
 - 8. State the total number of stockholders of record, as of the date shown in answer to inquiry No. 7. ________stockholders.
- 9. Give the names of the thirty security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent (if within 1 year prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each his address, the number of votes which he would have had a right to c ust on that date had a meeting then been in ordes, and the classification of the number of votes to which he was entitled, with respect to securities held by him, such securities being classified as common stock, second preferred stock, first preferred stock, and other securities, stating in a footnote the names of such other securities (if any). If any such heider held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements give, as supplemental information the names and addresses of the thirty largest holders of the voting trust certificates and the amount of their individual holdings. If the stock book was not closed or the list of stockholders compiled within such year, show such thirty security holders as of the close of the year.

Noncurren!

(c) A net unrealized gain (loss) of \$ ______ on the sale of marketable equity securities was included in net income for _____ (year). The cost of securities sold was based on the ______ (method) cost of all the shares of each security held at time of sale.

Significant net realized and net unrealized gains and losses arising after date of the financial statements but prior to their filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below.

NOTE: / / - date - Balance sheet date of the current year unless specified as previous year.

NOTES AND REMARKS

Page 7, 3(a)

All monies are deposited to an Immediate Participation Guarantee contract with New England Mutual Life Insurance Company. The pension fund assets are accounted for by New England Mutual Life Insurance Company. The Boston and Maine Corporation is funding the plan by payment of normal cost plus amortization of past service cost over a 40-year period which began in 1976. Costs have been computed on a Dasis consistent with that of the prior year and charged to appropriate operating expenses.

1. Disclose in column (a) the particulars of the various issues of capital stock of the expondent, distinguishing separate issues of any general class, if different in any respect.

2. Present in column (b) the par or stated value of each issue. If none, so state,

3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.

4. For the purposes of this report, capital took and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They

are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as required them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

5. If stock is being held subject to an exchange for the outstanding securities of constituent companies, then include such stock as outstanding stock, and disclose the details in footnotes.

6. Report dollars in thousands.

301. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

- 1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
 - 2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.

3. Compensating balance arrangements need only be disclosed for the latest fiscal year.

- 4. Compensating balances included in account 763, Special deposits, and in account 717, Other funds, should also be separately disclosed below.
- 5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
- 6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Lease Agreement with Greyhound Leasing & Financial Corporation dated July 24, 1974, covering lease of 72 lightweight trucks (cost \$425,143.50) for three years, and 31 heavyweight trucks (cost \$504,103.79) for five years. Compensating balance arrangement provides for deposit of 50 percent of total cost in the form of Certificates of Deposit with The National Shawmut Bank of Boston, as escrow agent, upon commencement of the lease term. Interest earned on Certificates of Deposit to be paid direct to Lessee.

At such time as the Stipulated Loss Value of the trucks equals 50 percent of the total cost of the trucks, the Bank will rebate portions of such deposit in such amounts that at all times thereafter the amount on deposit will equal the Stipulated Loss Value of the trucks then on lease. Balance of deposit to be rebated by the Bank upon expiration of the lease provided Lessee is not then in default. Balance, December 31, 1978, \$249,091.64.

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A and 315

- 1. Schedules 310 and 315 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year. Specifically, the disclosures should include the investments in the obligations of Federal, state and local governments, and the obligation of individuals. Also, disclose the investments made, disposed of, and written down during the year, and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments in a filiated companies." in the Uniform System of Accounts for Railroad Companies.
- 2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
 - (A) Stocks:

B&M

- (1) Carriers active.
- (2) Carriers inactive
- (3) Noncarriers active
- (4) Noncarriers inactive.
- (B) Bonds (including U.S. Government Bonds):
- (C) Other secured obligations:
- (D) Unsecured notes:
- Investment advances:
- 3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).
- 4. The kinds of industry represented by respondene's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
1	Agriculture, forestry, and fisheries
11	Mining
III	Construction
IV	Manufacturing
v /	Wholesale and retail trade
Vi /	Finance, insurance, and real estate
VII	Transportation, communications, and other pub-z utilities
VIII	Services
IX /	Government
X	All other

- 5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, deeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affair. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property neg administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
 - 8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.
 - 9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
 - 10. Do not include the value of securities issued or assumed by respondent.
- 11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.
 - 12. Report dollars in thousands.

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

- 1. Give particulars of investments in stocks, bonds, other secured obligations, unsecused notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking funds"; 716, "Capital funds"; 721, "Investments advances in affiliated companies", and 717, "Other funds."
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).
- 3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged,

or otherwise encumbered, giving names and other impertant particulars of such obligations in footnotes.

B&M

- Give totals for each class and fer each subclass and a grand total for each account.
- 5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Scrially 19__ to 19__." Abbreviations in common use in standard financial publications may be used to conserve space.
- 6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 130 AND 330A

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If account No. 732 for road or for equipment is less than 5% of account. No. 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.
- 2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new tines, and for the extension of old lines, as provided for in Instruction 2-3, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.
- In column (d) is to be shown the cost of a railway or portion thereof, acquired as a operating entity or system by purchase, merger, consol-dation, reorganization, receivership sale or transfer, or otherwise.
- In columns (c) and (e), should be included all entries covering expenditures for additions and betterments, as defined, whether replacing other property or not.
- In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.
- Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially

- included, also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer Ajustment, or clearance should be fully explained when in excess of \$10%,000.
- 7. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.
- 8. Report on line 34 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$2000 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.
 - 11. Show dollars in thousands.

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated depreciation: road and equipment property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and Other Resits - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" account and "Other Rents - Debit - Equipment" accounts (See Schedule 342 for the accumulated depreciation relating to road and equipment owned but not used by respondent.)

2. If any data are included in columns (d) or (i), explain the entries in detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5. Foter amounts representing amortization under an authorized amortization program other than for defense projects on line 27.

6. Thousand dollar Reporting Rule.

335 A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondant and used in the respondent's transportation service. Such property includes: (a) the investment reported to accounts 731. "Road and equipment property", and 732, "Improvements to leased property", of the respondent less any 721 or 732 property leased to others for their exclusive use of road, tracks, or tridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of companies' 731 or 732 property (including equipment for other railway property covered by the contract). This excludes leased equipment from operating roads, tracks, or feldges (including equipment or other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent company (P), and other lease properties (O).

seased properties (13).

3. In columns (a) to (e), inclusive, first show the data requested for the respondent (R), next the data for companies whose entire properties are used in transportation service of the respondent of the

of all tracks owned.

5. In column (d), show the amount applicable in accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts is shown in column (c), line 33, on the asset side of the comparative general balance sheet of each individual railway should be explained in a footnote. Blook value included in accounts 731 and 732 of the owner should be reported in column (d) in reference to the in-estiment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in accounts 735, 736, and 785, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

7. Report dollars in thousands.

335B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Accounts)

1. In columns (b) through (c) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 50 herein, should correspond with the amounts for each class of company and properties shown in schedule 335. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 32 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where

cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 33 amounts not includible in the accounts shown, or in line 32. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribe accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

5. Report dollars in thousands.

2. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is offset than the original cost or estimated original cost as found by the Commission's Bureau Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used in computing

the depreciation for the month of the ember and on lines 25 and 36 of this column show the composite percentage. In road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used in comparing the depreciation for December and dividing the total so computed by the depreciation base.

4. If the depreciation base for secounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

 If total road leased to others is less than 5% of total road owned; omit. If total equipment leased to others is less than 5% of total equipment owned; omit.

42. ACCUMULATED DEL SCIATION-ROAD AND EQUIPMENT LEASED TO OTHERS

- 1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom it included in accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.
- 2. Disclose credits and debits to Account 735, "Accumulated depreciation-road and equipment property," during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent. (See Schedule 350 for the reserve relating to road and equipment owned and used by the respondent).
- 3. If any entries are made for "Other credits" and "Other debits," state the facts occasioning such entries. A debit balance in columns (b) or (2) for any primary account should be shown in parenthesis or designated "Dr."
- 4. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road parted or total equipment owned, respectively.
 - 5. Thousand dollar Reporting Rule.

1. Show in columns (b) and (e), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (c) and (f) show the depreciation base used in computing the depreciation charges the month of December; in solumns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December; and on lines 28 and 36 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the jents therefor are included in the rent for equipment and account Nos. 31-22-00, 31-23-00, 31-23-00, 31-21-00, 35-21-00, 35-21-00, 35-22-00, and 35-25-00. It should include the cost of equipment owned and leased to others when the rents thereform are included in the rent for equipment accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-23-00, 36-23-00, and 36-25-00 inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any langes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be

included for each such property.

 Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 31-11-00, 31-12-00, 31-21-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.

6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

351. DEPRECIATION BASE AND RATES-IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS

1. Show in column (b) for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in column (c) show the depreciation base used in computing the depreciation charges for the month of December; in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 29 and 37 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732, "Improvements on leased property." The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any charges in rates were effective during the year, give full particulars in a footnote.

 All improvements to leased properties may be combined and one composite rate computed for each primary account or a separate schedule may be included for each such property.

If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

366. LEASES-GENERAL INSTRUCTIONS AND DEFINITIONS

A. General Instructions

Disclose in the following schedules the required information concerning leases of the respondent:

Schedule 361 - Capitalized Capital Leases

362 - Noncapitalized Capital Leases

363 - Operating Leases

364 - Lessee Disclosures

Under Docket No. 36604. "Accounting for Leases," the Commission established guidelines for capitalizing all leases entered into after 1/1/77, which meet the criteria of a capital lease. (See 49 CFR 1201, Instruction 2-26). These leases shall be properly disclosed in Schedule 361, "Capitalized Capital Leases," However, for all leases in effect on 12/31/76, respondents may either capitalize these leases immediately or phase in the capitalization requirements through 12/31/80. Thereafter, all capital leases must be capitalized. Noncapitalized capital leases, if any, for this reporting year shall properly be disclosed in Schedule 362, "Noncapitalized Capital Leases."

A general description of the lessee's leasing arrangements shall be included to effect full and complete disclosures. Among the items to be disclosed are:

- The basis on which o tingent rental payments are determined.
- The existence and terms of renewal or purchase options and escalation clauses.
- Restrictions imposed by lease agreements, such as those concerning dividends, additional debt, and further leasing.

These and other disclosures shall be included in Schedule 364 and attachments thereto, if necessary.

B. Definitions

- (1) Capital Leases are those leases which meet one or more of the following four criteria:
 - The lease transfers ownership of the property to the lessee by the end of the lease term.
 - The lease contains a bargain purchase option,
 - The lease term is equal to 75 percent or more of the estimated economic life of the property, and
 - The present value at the beginning of the lease term of the minimum lease payments equals or exceeds 90 percent of the fair value of the leased property to the lessor at the inception of the lease less any related investment tax credit retained by the lessor.
- (2) Operating leases are those leases which do not meet any of the four criteria pertaining to capital leases.
- (3) Minimum lease payments are the payments that the lessee is obligated to make or can be required to make in connection with the leased property. Executory costs such as insurance, maintenance and taxes in connection with the leased property shall be excluded from minimum lease payments.
- (4) Present value minimum lease payments are lease payments that the lease is obligated to make or can be required to make, exclusive of executory cost. Moreover, these payments are reduced by amounts representing interest, calculated at the companies' incremental borrowing rate or the implicit rate computed by the lessor.
- (5) Noncancelable lease/sublease is one that has an initial or remaining term of one year or more and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.
- (6) Contingent rentals, for the purposes of this report, are rentals paid during the reporting year which depend on some factor other than the passage of time such as rentals based on asage or sales.

explanation indicating how the rate of interest was derived for computing present value shall be

PART I. PRESENT VALUE OF MINIMUM LEASE PAYMENTS

Disclose total lease payments for the years shown. Then, disclose amounts representing (1) executory costs and (2) interest to derive the mesent value of minimum lease payments. An

Later Years Total Current year Year 3 Year 4 Year 5 Item Year 2 Line (g) (h) (d): (e) (f) (a) (5) (c) No. \$ 10,765 16,890 \$ 1.225 Lease payments Less: Executory costs: - Taxes - Maintenance - Insurance ~ Other Total executory costs (2-5) 10,765 16,890 1,225 1,225 Minimum lease payments (1, 6) Less: Amount representing interest __ 10,576 Present value of minimum lease payments (line 7, 8) ___

PART II. TOTAL RENTAL EXPENSES

Complete this part if gross rental expense in the most recent reporting year exceeds one percent of operating revenue. Otherwise, show total rental expenses reduced by rentals received from sub-

leases for the current year. Also, show amounts expected to be received on all noncancelable sublease rentals for the year beginning after the current year as required.

included in Schedule 364. Report dollars in thousands.

362. NONCAPITALIZED CAPITAL LEASES-Communed

PART III. INCOME IMPACT

1. If the impact on net income is less than three percent of the average net income for the avoit recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line

basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

2. In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

412. WAY AND STRUCTURES

1. Report freight expenses only.

2. Furnish in column (b) the depreciation expenses and in column (c) the retirements pertaining to Way and Structures.

3. Report in column (d) the lease/tentals for the various property categories of Way and Structures. The total net lease/rentals presented on line 35 should balance with the total of the following accounts:

31-11-00	32-11-00
31-12-00	32-12-00
31-13-00	32-13-00
35-11-00	36-11-00
35-12-00	36-12-00
35-13-00	36-13-00

If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases (or property bases for nondepreciable property) to the sum of (1) the depreciation bases for all categories of depreciable leased property plus (2) the property bases for nondepreciable leased property. Use Schedule 350 of this report for obtaining the depreciation bases of the categories of leased property.

4. Report on line 34 all other lease rentals not apportioned to any category listed on lines 1-33.

5. Report dollars in thousands.

413. RENT FOR LEASED ROADS AND EQUIPMENT

1. This schedule may be omitted if total rent is less than 10% of an income before extraordinary items. Otherwise, give particulars called for with respect to roads and equipment leased from others during the year, the rent for which is includible in account No. 31-00-00.

2. Rents payable which are not classifiable order one of the three headings provided should be explained in a footnote. 3. If the respondent held under lease during all or any part of the year any read upon which no rent payable accrued, or a any portion of the charge shown hereunder is for construction on a line in which the respondent's leasehold interest will soon expire, give full particulars in a footnote.

4. Show the hree largest items regardless of the dollar amount and all other items amounting to 10% or more of total

rent for the year. (Dollars in thousands)

Line No.			Classifica	ition of Amount C	olumn (b)

^{*} Covers use and occupancy expense for the period March 13, 1970 to December 31, 1978.

414. RENTS FOR INTERCHANGED FREIGHT TRAIN CARS AND OTHER FREIGHT CARRYING EQUIPMENT

1. Report freight expenses only.

2. Report in this supporting schedule rental information by car type and other freight carrying equipment relating to the interchanged of railroad equipment, privately owned equipment and

equipment leased for less than 30 days.

3. The gross amounts receivable and payable for freight-train cars should balance with Account 35-33-00 (debits) and 36-22-00 (credits). Trailer and container rentals in this schedule are included in Accounts 35-23-00 (debits) and 36-22-00 (credits) but will not balance with these accounts since rents for "Other revenue equipment" (excluding locomotives and freight-train cars) are also chargeable to these accounts.

4. Repose in Columns (b) and (f) rentals for private-line cars (whether under railroad cor trol or

not) and supper owned cars.

5. Report in Columns (c), (d), (g), and (h) rentals for railroad owned cars prescribed by the Commission in Ex Parte No. 334, for which rentals are settled on a combination mileage and time basis (basic per diem). Include railroad owned per diem tank cars on line 17

6. Report in Columns (e) and (i) the incentive per diem payments for Box and Gondola General Service—Unequipped cars prescribed by the Commission in Ex Parte No. 252. Basic per diem payments for these cars are to be reported in Columns (c), (d), (g), and (h).

NOTES: Mechanical designations for each car type are shown in Schedule 710.

7. Thousand dollar reporting rule.

Raviroad Annual Report R-1

SCHEDULE 415. SUPPORTING SCHEDULE: EQUIPMENT

- 1. Report freight expenses only
- 2. Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchases services, and general).
- 3. Report in column (b) the detail for functions 40 through 47 for the items listed in column (a). Freight car repair expenses shall be assigned directly to the various car types on the basis of job order records whenever possible. When it is necessary to apportion car repair expenses, the apportionment shall be made on the most equitable basis available to the carriers. The following list provides a basis for apportioning freight car repair expenses to car types: a. AAR Car Repair Billing (CRB) Standards; b. A carrier conducted study to determine car repair expenses by car types; and c. Other available standards valid for the respondent carrier. Some useful references in completing column (b) are: (1) Locomotives: Function 41-all natural expenses and account 40-21-41, (2) Freight Cars: Function 42-all natural expenses and account 40-22-42, (3) Highway Equipment: Function 43-all natural expenses and account 40-23-43, (4) Floating Equipment: Function 44-all natural expenses and account 40-23-44, (5) Passenger and Other Revenue Equipment: Function 45-all natural expenses and account 40-23-46, (7) Machinery-Locomotives: Accounts xx-21-40 and 40-21-40, (8) Machinery-Freight Cars: Accounts xx-22-49 and 40-23-40, (9) Machinery-Other Equipment: Accounts xx-23-40 and 40-23-40, and (10) Work and Other Non-Revenue Equipment: Function 47-all natural expenses and account 40-23-47.
- 4. Depreciation charges shall be reported in column (c), and some useful references are Locomotives: 62-21-00; Freight Cars: 62-22-00; Highway Equipment, Floating Equipment, Passenger and Other Revenue Equipment, Computer and Data Processing Equipment, Machinery-Other Equipment, Work and Other Non-Revenue Equipment: 62-23-00; Machinery-Locomotives: 62-21-00; Machinery-Freight Cars: 62-22-00.
- 5. Retirement charges shall be made on the basis of the actual units retired from service during the reporting period where the service value has been determined, based on the ledger value of salvage and insurance recovered. Report retirement charges in column (d). These charges, however, will not balance with those reported in Schedule 410. Retirement charges are included in, but not limited to, the following accounts: Locomotives: 61-21-99; Car Types: 61-22-99; Other Retirements: 61-23-99.
- 6 Lease/Rentals (net) shall be reported in column (e). Locomotives would balance to the net of 31-21-00, 32-21-00, 35-21-00 and 36-21-00. Car types would balance to the net of 31-22-00, 32-22-00 and rents for interchanged freight cars reported on Schedule 414. All other subschedule lease/rentals (net) would, in total balance to the net of 31-23-00, 32-23-00 and 36-23-00; however, rents for interchanged trailers must be added from Schedule 414.

417. SPECIALIZED SERVICE SUBSCHEDULE - TRANSPORTATION

Instructions

- 1. Report freight expenses only.
- 2. Report in lines 1, 2, 3, 4, and 10, the total of those natural expenses (salaries and wages; material, tools, supplies, fuels and lubricants; purchased services; and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crows in connection with or within specialized service facilities.
- 3. When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410, Railway Operating Expenses.
- 4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up, delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers including storage expenses.

- 5. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c), line 3.
- 6. Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2, column (g), the expense incurred by the railroad in moving automobiles, etc., between bi-level and tri-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (F) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves.
- 7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (net debits and credits). The expenses on line 4, column (h) relate to refrigerator cars only.
- 8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations and livestock feeding operations only.
 - 9. Thousand dollar Reporting Rule.

419. REMUNERATIONS FROM NATIONAL RAILROAD PASSENGER CORPORATION

This schedule should be completed by carriers participating in the National Railroad Passenger Corporation (NRPC) agreement, as required by order of the Commission, January 30, 1973, No. 35344 (Sub-No. 2). Classify by accounts the amounts credited for remunerations for intercity passenger service performed by respondent on behalf of NRPC. All contra entries should be indicated in parenthesis, (Dollars in thousands.)

450. ANALYSIS OF FEDERAL INCOME TAXES

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferted if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year total of accounts 714, 744, 762 and 786 applicable to each particular item in column (a).

Indicate in column (c) the net change in accounts 714, 744,
 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5." The total of line 10 in columns (c) and (d) should agree with the total of the contra charges (credits) to account 557, provision for deferred taxes, and account 591, provision for deferred taxes—extraordinary items, for the current year.

Indicate in column (e) the currulative total of columns (b),
 (c), and (d). The total of column (e) passt agree with the total of accounts 714, 744, 762 and 786.

470. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate to \$50,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:

(a) Payments to employees of the respondent shall be

reported in Schedule 900.

(b) Payments for services rendered by affiliates.

(c) Payments for accounting and sudit fees must be reported in full regardless of the \$50,000 limitation. These fees must not be included with management fees paid to parent cond-mes.

2. The apprepate of payments to be reported in column (c) shall include amounts paid and/or accrued during the year which are

applicable to the year.

3. When contributions under \$50,000 are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the pacticular service is equal to the sum of \$100,000 or more.

4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax-advice. All carriers, whether payments aggregate more or less than \$50,000, shall answer the following question.

Did the independent accountant reporting on the respondent's annual report provide any management services other

Specify, Yes_

5. To be included are, among others, payments, directly or for legal, medical, engineering, advertising, valuation

accounting, statistical, financial, educational, entertainment, charitable, advisory defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

Road Initials

6. To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$50,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.

7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. When the respondent is reporting on a system basis, audit fees must be reported separately for each individual railroad included in the system.

8. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

500. CONTINGENT ASSETS AND LIABILITIES

1. Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with Instruction 5-6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the accounts of the respondent.

Disclose all items amounting to \$100,000, or more. If an actual monetary amount is not known and an estimate of the amount of any item involved is not feasible, disclosure should be made describing the contingency and explaining why an estimate is not determinable.

Examples of contingent liabilities are items which may become obligations as a result of pending or threatened litigation,

assessments or possible assessments of additional taxes and agreements or obligations to repurchase securities or property.

Information concerning the guaranties and suretyships are to be shown in other schedules provided for those items and not in this schedule.

3. In column (a) give a description of each item of contingent ass: " and liabilities under an inserted caption "CONTINGENT ASSETS" or "CONTINGENT LIABILITIES," as appropriate, and in column (b) show the amount of each item.

(Dollars in thousands)

	1) The Supreme Judicial Court of Massachusetts rendered a decision in	
2	November 1977 with respect to litigation initiated by the Trustees	
3	against the Massachusetts Bay Transportation Authority. The Court	
4	affirmed an earlier decision and awarded interest in the amount of	
5	\$2.2 million in connection with the sale of so-called Reading Line	
6	in September 1973. The timing and manner in which this amount may	
7	ultimately be realized cannot be determined, accordingly, no amount	
8	has been recorded in the accounts.	Para
9		
0 1	2) In October 1975, the State of New Hampshire took by eminent domain	
1	the Respondent's rail line between Concord and Lincoln, New Hamp-	
2	shire, with a book value of approximately \$3,047,000. The Trustees	
3	have brought an action for damages against the State by reason of	
4	this taking and the State has deposited in the registry of the	
5	New Hampshire Superior Court in which the action is pending the sum	
6	of \$1,000,000 as a pro tanto payment with respect to this taking.	
7	It is the position of the Trustees that the damages sustained by	
8	the Respondent's estate by reason of this taking are substantially	
9	in excess of \$1,000.300. It is expected that this matter will be	
0	heard by eminent domain commissioners in the fall of 1979. The	
11	decision of these commissioners is not conclusive, either party	
22	being entitled to claim a trial by jury on the issue of damages in	
13	the New Hampshire Superior Court.	
4		
5	3) The indenture trustees of First Mortgage and Income Bondholders are	
16	asserting that additional interestis due on overdue and unpaid	
7	interest installments. It is the opinion of Trustees and counsel	
8	that bondholders are not entitled to additional interest which	
9	approximates \$10.6 million at December 31, 1978.	-
0	N D -in- 1070 anti-colly prosticted concentrate wars reached with	
490000	During 1978, nationally negotiated agreements were reached with many rail unions providing for retroactive wage increases to	
2	January 1, 1978. If a party to the nationally negotiated agreements	**************************************
3	the Respondent would have a liability of approximately \$2,600,000	•
4	for wages not paid in 1978. However, the Respondent is not a party	
15	to the foregoing agreements and is presently conducting negotiations	
6	locally under the auspices of the National Mediation Board, a brand	
7	of the United States Department of Labor. Since no contractual	
8	obligation exists, no liability has been recorded as of December 31	
9		
0	1978.

INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

(1) Line owned by respondent;

(2) Line owned by proprietary companies;

(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;

(4) Line operated under contract or agreement for contingent real, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent:

(5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order fisted above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings, i.e.: counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distances between termini of single or first main track), and in the following columns the lengths of second main track; all other main tracks; passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

Running tracks. -Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.

Way switching tracks. - Station, team, industry and other switching tracks for which no separate service is maintained.

Yard switching tracks. - Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc., not classifiable under "branch lines" as defined below. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

In classifying the line between main and branch (column (c)), use the distinction usually followed by respondent. Branch lines are distinguished from industrial tracks or yard tracks and sidings in that branch lines serve one or more stations beyond the point of junction with the main line or another branch line and to or from which stations train service, or its equivalent, is performed.

Class (2) includes each line full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rest in a corporation controlled by or controlling the respondent; but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional tent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is

immaterial in this connection. Class (4) is the same as class (3) except that the tent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights but only the rights of a licencee. Include in this class, also, all main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by the respondent as joint or common owner of a joint lessee of under any joint arrangement should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (I)

attuched.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

Switching and terminal companies leave column (c) (Miles of Branch Lines) blank. They should prepare also the following schedule for tracks operated at cost for joint benefit.

TRACKS OPERATED AT COST FOR JOINT BENEFIT (For Switching and Terminal Companies Only)

705. CHANGES DURING THE YEAR

Hereunder state the matters called for Nake the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact i may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest whole mile adjusted to accord with footings, i.e. counting one-half rule and over as a whole mile and disregarding any fraction less than one-half mile.

 For each railroad property used in respondent's transportation service, show all increases and decreases in mileage, classifying the changes in the tables below as follows:

(Class I) Line owned by respondent.

(Class 2) Line owned by proprietary companies.

(Class 3) Line operated under lease for a specified sum.

(Class 4) Line operated under contract or agreement for contingent rent.

(Class 5) Line operated under trackage rights.

2. For changes in miles of road, give dates of beginning or abandonment of operations. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket number or otherwise, as may be appropriate.

3. All consolidations, mergers, and reorganizations effected,

giving porticulars.

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

 Other important changes not eisewhere provided for involving more than \$50,000, giving full particulars.

If returns under Inquiry No. I above include any first main track owned by respendent or its proprietary companies representing new construction or permanent abandonment give the following particulars:

Owned by respondent:

Miles of road constructed None Miles of road abandoned None

Owned by proprietary companies:

Miles of road constructed Nines Miles of road abandoned NODE

The item "miles of road constructed" is intended to show the mileage of first wain track laid to extend respondent's road, and should not include tracks relocated and tracks laid to should not between two points, without wrying any new territory.

By road abandoned is meant "permanently abandoned," the cost of which has been or is to be written out of the investment accounts.

* Correction of records and minor reclassification of records.

NOTES AND REMARKS

1. Give particulars of each of the various classes of equipment which respondent owned or lessed during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (1); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h); units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostier controls for independent operating at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.

6. A "Diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power from an overhead contact wire or third rail, and use the power to drive one or more electric motors that propei the vehicle. An "Other self-powered unit" includes all units other than diesel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "Auxiliary unit" includes all units used in conjunction with locomotives but which draw their power from the "mother" unit, e.g., boosters,

slugs, etc. For reporting purposes indicate radio-controlled self-powered diesel units on lines I through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "Auxiliary units".

- 7. Column (k) should show aggregate capacity for all units reported in column (i), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.
- 8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.

710. INVENTORY OF EQUIPMENT-Continued

Instructions for reporting freight-train car data:

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year

2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (a); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i), units rented from others for a period less than one year should not be included in column (j).

710. INVENTORY OF EQUIPMENT-Continued

4. Column (m) should show algregate capacity for all units reported in columns (k) and (l), as follows: for freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in futerchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

NOTES AND REMARKS

710-S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by Respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the

following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased, (P): built or rebuilt or contract in outside railroad shops, (C): or built or rebuilt in company or system shops, (S).

2. In column (a) list each class or type of locomotive unit, car, or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads; and should include physical characteristics requested by Schedule 710, locomotive units should be identified at to power source, wheel arrangement, and horsepower per unit, such as Multiple purpose diesel locomotive A units (B-B), 2500 HP; and cars should be identified as to special construction or service characteristics such as Aluminum covered hopper cars, LO; Steel boxcars-special service, XAP, etc., for TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger train cars and company service cars, columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Diaclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the Respondent's accounts. The term "new" as used herein shall refer to and mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or in part with incentive per diem fund

Report dollars in thousands.

NOTES AND REMARKS

715. HIGHWAY MOTOR VEHICLE OPERATIONS

Give particulars of highway motor vehicles operated by respondent in revenue and nonrevenue service and of revenue traffic handled for the respondent by others under contractual arrangements.

In reporting highway motor vehicle miles in line-haul service, show the mileage of buses and combination bus-trucks on line 5, the mileage of trucks and of bogies, trailers and semitrailers with trucks on line 6; and the mileage of tractors and of bogies, trailers and semitrailers with tractors on line 7. Vehicle miles in terminal service should be reported on line 8 and 9.

In reporting traific carried and traffic handled 1 mile on lines 10 to 15, and on lines 20 to 23, both inclusive, show the total number of tons and ton-miles of revenue freight in column (i) and the total number of passengers car; ed and passenger-miles in column (c), regardless of the class of vehicle used to perform the transportation service.

Road Instiais

In reporting highway motor vehicles in nonrevenue service include those used in maintenance, shops, and storehouses, and transportation of company material: also buses used for transportation of company employees. Exclude automobiles used by officials and employees.

Track category

- A 20 million or more gross ton-miles per mile per year (including track over which passenger service is provided—see Category F).
- B. Less than 20 million gross ton-miles per mile per year but at least 5 million (does not include track over which passenger service is provided—see Category F).
- C Less than 5 million gross ton-miles per mile per year but at least 1 million (does not include track over which passenger service is provided—see Category F).
- D-Less than I million gross ton-miles per year (does not include track over which passenger service is provided-see Category F).
- E-Way and yard switching tracks (passing tracks, crossovers and turnouts shall be

included in appropriate Category A, B, C, D, F, and Potential Abandonments, as appropriate).

F-Track over which any passenger service is provided (other than potential abandonments); however, if annual traffic density is greater than 20 million gross ton-miles per mile per year, the track shall be included in Track Category A.

Potential Abandonments - Roule segments identified by railroads as potentially subject to abandonment as required by Section 1a(5)(a) of the Interstate Commerce Act.

- 2. These schedules shall only include those lines maintained by the reporting carrier. It shall not include track maintained by others over which the reporting carrier has trackage rights.
- 3. If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year.

720. TRACK AND TRAFFIC CONDITIONS

- 1. Disclose the requested information pertaining to track and traffic conditions.
- Average speed reduction per slow order mile in column (e) shall be based on reduction from the maximum authorized timetable train speeds.
- 3. Miles under slow order in column (f) shall not include those due to ongoing maintenance, or other temporary track conditions such as floods or derailments.

724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

Give particulars of all rails applied during the year in connection with the construction of new track.

In column (a) classify the kind of rail applied as follows:

New steel rails, Bessemer process.
 New steel rails, open-hearth process.

(3) New rails, special alloy (describe more fully in a footnote).

(4) Relay rails.

Returns in columns (c) and (g) should be reported in whole numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more reckoned as one.

The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of hand ing rails in general supply and storage yards. The cost of unloading, bauling over carrier's own lines, and placing the rails in tracks and of train service in connection with the distribution of the rules, should not be included in this schedule. In these columns, "total cost" is to be reported in thousands.

745. SWITCHING AND TERMINAL TRAFFIC AND CAR STATISTICS

(For switching and terminal companies only)

1. Give particulars of can handled during the year. For decriptions of kinds of services included in switching operations, and in terminal operations, reference is made to the "Notice" on the inside of the front cover of this form. With respect to the term "cars handied" it should be observed that, when applied to switching operations, the movement of a car from the point at which a switching company receives it, whether loaded or empty, to the paint where it is loaded or unloaded or delivered to another connecting line is to be counted as one car handled. The return of a car, whether loaded or empty, from the point where it is loaded or unloaded, to the point of delivery is to be counted as one car handled. No incidental movement is to be considered, unless such incidental movement involves the receipt of additional revenue. When applied to terminal operations, such as union station, bridge, ferry, or other joint facility terminal operations, the term "cars handled" includes all cars for which facilities are furnished.

Road Initials:

2. The number of locomotive-miles in yard switching service should be computed in accordance with account No. 815, "Yard Switching Locomotive-miles."

No.	Item	Switching operations	Terminal operations	Total

6 Work Train

750. CONSUMPTION OF FUEL BY MOTIVE POWER UNITS

Show hercunder the amounts of the various kinds of fael consumed by locomotive units and motors or other self-propelled rail cars in the service of the respondent during the year, and the number of kilowatt-hours for such tractive equipment as was propelled by electricity. The ton of 2,000 pounds should be used.

Kilowatt hours, for entry in column (c) of action A, and column (h) of section B, are to be figures at high tension taps (point of production or point of purchase), and divided among the several classes of service, the division being made on the respondent's best estimate if actual figures are not available.

		A. LOCOMOTIVES			
		Diesel	Electric	Other (Steam, C	Gas Turbine, Etc.)

^{*}Show cost of fuel charged to train and yard service (Functions 67-Loco, Fuels and 68-Electric Power Purchased/Produced for Motive Power). The cost stated for the various kinds of fuel should be the total charges in the accounts specified, including freight charges and handling expenses. The cost stated for electric current should be the total charges in the accounts enumerated. Fuel and power consumed by mixed and special trains that are predominantly freight should be included in freight service, but where the service of mixed or special trains is predominantly passenger, the fuel and power used should be included in passenger service. (Dollars in thousands)

760. GRADE CROSSINGS A-Railroad With Railroad

1. A crossing of a railroad with a railroad means the intersection of all the tracks or one right-of-way with all of the tracks on another right-of-way, whether or not owner, or operated by the same company; thus, the intersection of one double-track line with another double-track line shall be reported as the crossing. Each such crossing shall be reported only by the carrier who performs the actual maintenance of the signal or interlocking protection, if so provided, or by the carrier who maintains the crossing frogs where no protection exists. The carrier which actually performs the maintenance shall be the reporting carrier, even though other party. or parties, assume a part or all of the expense of such manytenance. Where portions of the apparatus are maintained by two at more companies, as for example-the condition where one crossing frog is maintained by one company and the second frog by the other company, agreement should be made between carriers as to which shall report. Report should be made of each crossing, whether man line, branch line, or switching tracks are involved, so long as separate rights-of-way are involved, regardless of whether or not the

rights-of-way involved are owned or leased by the same company. A cross-over from one track to another on the same right-of-way, or the use of a crossing frog for the intersection of two tracks in the same right-of-way, is not to be considered as a crossing in this connection. If one right-of-way intersects two or more rights-of-way in the same vicinity a separate crossing shall be reported for each such intersection, even though all are controlled by one interlocking plant. In such case, this fact should be explained in a footnote in order that the interlocking plant may not be counted more than once.

2. The term "Protection" as used in this connection should include all signalling or derailing devices which may restrict the use of the crossing by either carrier. It shall not include stationary or other cautionary signs which merely indicate the proximity of a crossing. Where crossings are protected by more than one of the types of protection shown in columns (b) to (i) inclusive, the kind of protection, etc., should be reported in only one classification and that of the more elaborate type.

Line No.	Number of crossings (a)	Inter- locking	Auto- matic signals (auto- matic in- locking) (c)	Derails on one line, no protec- tion on other (d)	Hand- operated signals, without inter- locking (e)	Gates (f)	specially	Total not specially protected (h)	Grand total

760. GRADE CROSSINGS-Continued B-Railroad With Highway

1. A highway grade crossing is to be regarded as a single crossing of all of the tracks within the adjacent u ened or leased right(s) of way of the railroad(s) at the point of intersection with a publicly maintained highway, street or avenue at the same grade to the extent that the tracks are rested within the limits of a single set of grade crossing signs or protective devices having an integrated set of actuating circuits.

2. Not to be included are crossings of tracks with private roads leading to or within in justrial p ants, or with other roads o driveways not dedicated to public use. All crossings of tracks at grade w. U. public roads and streets should be included if any railroad operations are conducted thereover

by he reporting company whether or not the track is located on railroad right-of-way.

A private grade crossing which becomes public during the year should be reported as a new grac's crossing. A grade crossing of a dual or multi-lane highway should be reported as one crossing. In the Massification of protection, a crossing having more than one of the classes of protection listed below should be reported once only, using the furthest left column that applies. To avoid

duplicate reporting of jointly owned, jointly maintained or jointly used crossings, one railroad shall be designated the reporting road by mutual agreement of the interested parties.

4. In columns (b) and (c) include grade crossings with or without audible signals. In columns (d) and (e) include grade crossings with or mishout any type of audible or visible supplemental device. Exclude from columns (5) and (2) those crossings where train movement is protected only by a member of the train crew. Audible signals reportable in column (h) include any train-actuated bell, whistle, siren or other andible device located adjacent to the crossing. Other automatic signals reportable in column (i) include wigwags, Highway Traffic Signals or special types of train-activated devices with or w thout audible supplements. Include in column (1), in addition to "Railroad Crossing" crossbuck, any other static sign (except "Number of Tracks" sign) or any non-train-actuated signal such as amber continuous-flashing lights. In column (m) report other than railroad crossbuck. Totals in column (o), lines 9 and 10 should be equal, resulting in no change in the total number of crossings.

761. GRADE SEPARATIONS Highway-Railroad

I. (a) A highway-railroad grade separation is to be regarded as a sixtle crossing of all of the tracks within the owned or leased right-of-way or contiguous rights-of-way of the railroad(s) at the point of intersection with a publicly maintained highway, street or

avenue at separate grades.

(b) Not to be included are structures which serve some major purpose other than the avoidance of conflict of milway movements with highway Lovements and which contain no design features acquired for accommodation of the intersecting traffic flow as in the case of major tunnels.

(c) In order to avoid doplicate reporting and possible confusion, in reporting grade separations used or maintained by more than one raflroad, the interested parties in each case should designate one line

to be the reporting railroad.

2. All separated crossings of tracks with public reads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not the track is located on railroad owned right-of-way.

3. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads not

dedicated to public use.

4. A private crossing which becomes public during the year should be reported as a new crossing.

5. A crossing of a dual or multi-lane highway should be reported as one crossing.

800. CONTRACTS, AGREEMENTS, ETC.

I Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, together with important revisions, modifications, terminations, and other changes thereof, which became effective during the year, and concerned in any way the transportation of persons or things at other than tariff rates, or the purchase of equipment under conditional sales plans without the issuarce of securities by respondent, making such statements in the following order:

(a) Freight r transportation companies or lines.

(b) Other railway companies.

(c) Steamboat or steamship companies.

(d) Telegraph companies.

(e) Telephone companies.

(f) Equipment purchased under conditional sales contracts.

(g) Routing traffic of affiliated companies.

(h) Other contracts.

2. Under item 1(b), include particulars of joint facility arrangements entered into during the year by the respondent, including those maintained or operated by other carriers as well as those maintained or operated by respondent. For each joint facility, give a brief statement of the basis or bases on which revenues, expenses, taxes, interest on investment, and other items, if any, related to the facility are apportioned among the carriers using the facility or otherwise deriving benefit therefrom.

3. Under item 1(f), give perticulars of conditional sales agreements, lease or rental contracts, and other similar instruments, entered into by respondent for the purchase of equipment, which provide for payment in installments and do not involve the issuance of securities by respondent. State the names of the parties to the contracts or agreements, the number of units of each class of equipment covered, and the terms and conditions of payment.

4. Under item 1(g), give particulars of arrangements, written or

oral with affiliated companies for routing v, traffic. Through route arrangements for handling of traffic inter-honged with carrier affiliates should not be reported.

5. Under item 1(h), Other contracts, describe briefly the porticulars of all contracts or agreements, including estimated amounts receivable, under which a government agency, or instrumentality thereof seeks to assist respondent with grants or aid for providing passenger commuter or other passenger-train services.

 Information concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$50,000 per year, and which, by its terms, is otherwise unimportant.

In lieu of giving abstrac's, copies of contracts may be filed.
 Every copy of a contract furnished in connection with the foregoing requirement should be listed hereunder.

8. The basis for computing excepts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

 Compliance with the requirements of this schedule does not relieve the respondent of the duty placed upon common carriers by section 6(5), Part I, of the Interstate Commerce Act, which reads as follows:

"Every common carrier subject to this part shall also file with said Commission copies of all contracts, agreements, or arrangements with other common carriers in relation to any traffic affected by the provisions of this part to which it may be a party. Provided, however, that the Commission, by regulations, may provide for exceptions from the requirements of this paragraph in the case of any class or classes of contracts, agreements, or arrangements, the filing of which, in its opinion, is not necessary in the public interest."

1. (a), (c), (d), (e), (g) - NONE

(b) Jetween and Among Railroads

Agreement for the establishment and adjustment of per diem or mileage rates dated May 15, 1978.

Green Mountain Railroad Corporation

Lease of Boston and Maine's Yard in Keene, New Hampshire, dated January 18, 1978. Amendment dated September 15, 1978.

(f) General Motors Corporation, Unilease No. 23, Inc., Girard Trust Bank Conditional Sale Agreement covering 18 diesel electric locomotives. Agreements and assignments dated December 1, 1977.

(h) General American Transportation Corporation

Lease agreement covering 10 airslide cars dated June 12, 1977.

General American Transportation Corporation

Lease agreement covering 10 airslide cars dated September 18, 1978. Amendment dated December 6, 1978.

Fruehouf Corporation

Lease agreement covering 364 semi-crailer vans dated January 19, 1979.

American Refrigerator Transit Company

Furnishing of mechanical protective service dated September 30, 1977.

Fruit Growers Express Company

Service lease agreement covering 10 refrigerator cars dated Oecember 14,

North American Car Corporation

Car lease agreement covering 8 pressure differential cement cars, Rider #4, dated April 26, 1978.

BOC. CONTRACTS, AGREEMENTS, ETC. - CONCLUDED

(h) Witt-Armstrong Equipment Co.

Lease purchase agreement covering 4 caterpillar 950 wheel loaders, dated April 24, 1978, and amendments dated May 8 and December 6, 1978.

Witt-Armstrong Equipment Co.

Amendment dated December 6, 1978 to lease purchase agreement of July 7, 1977.

Tamper

Lease purchase agreement covering electromatic tamper Mark II, dated March 22, 1978.

Automation Industries, Inc., Sperry Division

Agreement covering testing of rails dated April 27, 1978.

Automation Industries, Inc., Sperry Division

Agreement covering testing of rails dated April 27, 1978.

Automation Industries, Inc., Sperry Division

Agreement covering testing of rails dated May 9, 1978.

The New Hampshire Transportation Authority

Agreement for the rehabilitation of railroad facilities dated May 1, 1978.

The New England Regional Commission

Amendment to agreement for the rehabilitation of railroad facilities dated June 30, 1977.

The New England Regional Commission

Extension of agreement with amendments for the rehabilitation of railroad facilities dated November 1, 1976.

North American Car (Canada) Limited

Car lease agreement covering 10 hopper cars dated September 19, 1977.

B&M

Section 10 of the Clayton Antitrust Act (15 U.S.C. 20) states that "no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, is any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, form, partnership or association, unless and

except such purchases shall be made from, or such dealings shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission." The specification for competitive bids is found in the Code of Federal Regulations, Part 1010-Competitive Bids through Part 1010.7 - Carriers Subject to the Interstate Commerce Act.

In column (g), identify the company awarded the bid by including company name and address, name and title of respondent officers, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.

900. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name of a position of each of the persons named in Schedule 110 of this report to whom the respondent paid the largest amount during for year as compensation for current of past service over and alone necessary expenses incurred in discharge of duries. In addit to, list all other officers, directors, pensioners or employees, if any to whom the respondent paid \$75,000 or more in total compensation during the year.

2. The salary per amount to be effected in column (c) is the annual rate at which an employee is said rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the class, those salary before each

change as well as at close of year.

3. If an officer, director, etc., eceives compensation from one or more of the affiliated companies listed in Schedule 112 reference to this fact should be made if the aggregate compensation from all companies amounts to \$75,000 cc more.

4. Report in column (d) //se total amount of compensation other than annual salary paid in each listed employee during the year. This includes forms of nonmonetary compensation given which directly benefits each of notion of Examples.

Fair value of proper/s given, such as exclusive use of an

automobile;

Amounts poid for membership of the employee in nonbusiness associations, private clubs, etc.;

Commissions, bonuses, shares to profits;

Contingent compensation plans;

Monies paid or accrued for any pension, retirement, savings, retirement amulties, deferred compensation, or similar plan; Premiums on life insurance where the respondent is not the beneficiary. Do not report premiums on group life insurance for benefits less than \$75,000.

for benefits less than \$75,000.

Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or

provisions dade during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entirled to be purchased by each officer, director, etc. (Dollars in thousands)
