## Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 1978

# NOTICE

1. This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C., 20423, by March 31, of the year following that for which the report is made. One copy should be retained in respondent's files. Attention is specially directed to the following provisions of Part I of the Interstate Commerce Act:

Sec. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, \* \* \* (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, \* \* \* as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, \* \* \* in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission as its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission.

(7)(b) Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, \* \* \* or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States or competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: \* \* \*

(7)(c) Any carrier or lessor, \* \* \* or any officer, agent, employee or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto.

(8) As used in this section \* \* \* the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier; and the term "lessor" means a person owning a railroad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor, \* \* \*

The respondent is further required to send to the Bureau of Accounts immediately upon preparation, two copies of its latest annual report to stockholders. See schedule B, page 2.

2. The instructions in this form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry to the present report form is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page \_\_\_\_\_, schedule (or line) number \_\_\_\_\_" should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the return of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, drawings or other, in a report, they should be legibly made on flexible paper and, wherever practicable, on sheets not larger than a page of the form. Inserted sheets should be securely attached, preferably at the inner margin, attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parentheses.

6. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amount of less than \$500 should be lowered.

7. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An *operating company* is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts, and a *lessor company*, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. In making reports, these companies use Annual Report Form R-4.

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$50,000,000, or more. For this class, Annual Report Form R-1 is provided.

Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000. For this class, Annual Report Form R-2 is provided.

Class III companies are those having annual operating revenues of \$10,000,000, or less. For this class, Annual Report Form R-3 is provided.

In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railroads, the sum of the annual railway operating revenues, the joint facility ten income, and the returns to joint facility credit accounts in operating expenses, shall be used in determining its class.

Switching and terminal companies are further classified as:

Class S1. Exclusively switching. This class of companies includes all those performing switching service only, whether for joint account or for revenue.

Class S2. Exclusively terminal. This class of companies includes all companies furnishing terminal trackage or terminal facilities only, such as union passenger or freight stations, stockyards, etc., for which a charge is made, whether operated for joint account or for revenue. In case a bridge or ferry is part of the facilities operated by a terminal company, it should be included under this heading.

Class S3. Both switching and terminal. Companies which perform both a switching and a terminal service. This class of companies includes all companies whose operations cover both switching and terminal service, as defined above.

Class S4. Bridge and ferry. This class of companies is confined to those whose operations are limited to bridges and ferries exclusively.

Class S5. Mixed. Companies performing primarily a switching or terminal service, but which also conduct a regular freight or passenger traffic. The revenues of this class of companies include, in addition to switching or terminal revenues, those derived from local passenger service, local freight service, participation in through movement of freight or passenger traffic, other transportation operations, and operations other than transportation.

8. Except where the context clearly indicates, some other meaning the following terms when used in this form have the meanings below:

Commission means the Interstate Commerce Commission. Respondent means the person or corporation in whose behalf the report is made. The Year means the year ended December 31 for which the report is made. The Close of the Year means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. The Beginning of the Year means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. The Preceding Year means the year ended December 31 of the year next preceding the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part I of Title 49, Code of Federal Regulations, as amended.

## SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year. It should be understood that mention is not made of necessary substitutions of dates or, in general, such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

This form is revised to (1) improve the disclosure of information for both ratemaking and financial reporting purposes, (2) eliminate unnecessary reporting, and (3) conform with the new Uniform System of Accounts for Railroads, effective January 1, 1978. Other significant modifications include revisions to conform with reporting under generally accepted accounting principles and the rearrangement of schedules in a more orderly fashion to make them easier to complete and use.

Rewvisions to this report resulted from the following Commission's decisions copies of which were served on all railroads:

<u>Docket</u>	<u>Title</u>	<u>Decision Date</u>
36141	Corporate Disclosure Regulations	5/13/77 1/19/78 3/23/78

## B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any *changes* of the nature referred to under inquiry 4 on this page have taken place during the year covered by this report, they should be explained in detail.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision.

2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.

3. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact name of common carrier making this report	Burlington Northern Inc.
2. Date of incorporation	January 12, 1961
3. Under laws of what Government, State, or Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership or trusteeship and of appointment of receivers or trustees	<u>Organized under the provisions of the General Corporation Law of the State of Delaware.</u>
4. If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give full particulars.	<u>Not applicable</u>
5. Class of switching and terminal company [See section No. 7 on inside of front cover]	<u>Not a switching or terminal company.</u>

## STOCKHOLDERS REPORTS

6. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders.

Dear Mr. Ashton:

This will acknowledge receipt of your letter of February 8, 1979 requesting information as to the procedures followed by Brown Brothers Harriman & Co. in the voting of corporate securities.

As a bank, we serve as a custodian for clients securities which are generally registered in the name of Brown Brothers Harriman & Co. as nominee or in the name of one of its nominees. In our practices with regard to the voting of corporate securities, we are governed by the rules of the New York Stock Exchange. The rules require that we provide our clients with the proxy material issued by corporations and we must receive specific instructions from our clients to vote on matters set forth in the proxy statement. The only general exception to this rule is provided under the so called "10 Day Rule."

In light of the foregoing, we would respond to your inquiry that as a custodian bank we have no voting authority and all proxies are mailed to the beneficial owners.

If you require anything further, please do not hesitate to advise me.

Sincerely yours,

Gentlemen:

As a railroad subject to the Interstate Commerce Commission, this Company is required to file an Annual Report R-1. Schedule 109, of that report, requires disclosure with respect to voting rights of security holders. The Interstate Commerce Commission has advised that in furnishing the required information the voting rights should be disclosed as follows:

"Sole voting rights - The institution alone is responsible for voting shares. The names of the institutions will be adequate disclosure.

"Shared voting rights - The institution shares the voting responsibilities with a co-trustee or co-executor. In such instances, the names of the co-trustees or co-executors must be shown.

"No voting rights - The institution has no voting authority and all proxies are mailed directly to the beneficial owners or the parties exercising investment control. In these circumstances, those exercising investment control should be shown."

As of December 31, 1978, our records show 72,000 shares of common stock registered in your various nominee names.

In order that we may comply with the demands of the Interstate Commerce Commission, will you please advise voting rights, with respect to the above shares, in accordance with the above.

Yours very truly,

*John C. Ashton*

## NOTES AND REMARKS

## 250. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

The notes listed below are provided for the purpose of disclosing supplementary information concerning matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none"; and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes explanatory

statements explaining (1) service interruption insurance policies and indicate the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock, purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements. (Dollars in thousands)

1. Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deed of trust, or other contracts \$ 1 125

See Note (1) below.

2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made \$ None

3. (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year: See Note (2) page 8.

(b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund \$ 68 970

(c) Is any part of pension plan funded? Specify. Yes X No \_\_\_\_\_

(i) If funding is by insurance, give name of insuring company \_\_\_\_\_

(ii) If funding is by trust agreement, list trustee(s) First Trust Company of St. Paul

Date of trust agreement or latest amendment March 2, 1970 (as amended January 19, 1976)

If respondent is affiliated in any way with the trustee(s), explain affiliation: Not affiliated

(d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement See Note (3) on page 8.

(i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify. Yes X No \_\_\_\_\_

If yes, give number of the shares for each class of stock or other security: See Note (4) on page 8A.

(ii) Are voting rights attached to any securities held by the pension plan? Specify. Yes X No \_\_\_\_ If yes, who determines how stock is voted? Trustee

4. State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610). YES X NO \_\_\_\_\_

5. State separately amounts of deferred maintenance and delayed capital improvements as reported to the Commission in Ex Parte No. 305 as of close of year:

(a) Deferred maintenance See Note (5) on page 8A.

\$ 15 330

(b) Delayed capital improvements See Note (5) on page 8A.

\$ 357 464

Note (1) Refers to Explanatory Note 1.

Under sinking fund provisions of respondent's General Mortgage Series N, O, P and Q Bonds respondent is required annually as of December 31st to appropriate (dependent on income for the respective year) this amount, presently, to be paid to the Trustee of the General Mortgage on July 1st in the subsequent year (See Schedule 220, page 11, Col. (b), line 9 for 1978 appropriation). In lieu of cash payment respondent, in order to satisfy the sinking fund requirement, delivers to the Trustee, on or before that date, a like par amount of General Mortgage Bonds that have been redeemed by cash prior to their maturity.

Significant net realized and net unrealized gains and losses arising after date of the financial statements but prior to their filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below:

NOTE: / / - date - Balance sheet date of the current year unless specified as previous year.

## NOTES AND REMARKS

Note (2) Refers to Explanatory Note 3(a).

The accounting for pension funds and recording in the accounts the current and past service pension costs is consistent with prior years data except that the amortization base for past service cost was changed from 40 years to 15 years effective January 1, 1977 based on the recommendation of the actuary. As in past years, data is based on an annual actuarial valuation.

Note (3) Refers to Explanatory Note 3(d).

Trailer Train Company) Face Amount \$830(000)

Note (5) Refers to Explanatory Note 5

Reporting of the above amounts is accomplished on blank forms provided by the ICC, with captions preprinted. The Company distinguishes between "deferred maintenance" reporting thus called for and delayed maintenance expenditures needed to improve service and increase capacity. Respondent's maintenance policy is to maintain its physical plant, including track structure, at a level which will allow it to carry out its obligations as a common carrier and to upgrade and modernize its plant and facilities to enable it to meet competition and provide for future traffic requirements.

Note (6) Respondent carries a services interruption policy with the Imperial Insurance Company; Limited, under which it will be entitled to \$1,634(000) daily indemnity for certain work stoppage losses. In the event such losses are sustained by other railroads holding similar policies, respondent may be obligated to pay the maximum amount of twenty times the daily indemnity.

Note (7) During 1978, subsidies amounting to \$763(000) were received from the Illinois D.G.T. Grant Program covering capital expenditures for improvements to Chicago Suburban Territory Station Facilities.

## 230. CAPITAL STOCK

## PART I. CAPITAL STOCK

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.
2. Present in column (b) the par or stated value of each issue. If none, so state.
3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.
4. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.
5. If stock is being held subject to an exchange for the outstanding securities of constituent companies, then include such stock as outstanding stock, and disclose the details in footnotes.

Notes to Schedule 230, Page 13.**\$10 PAR VALUE 5½% PREFERRED STOCK**

The Company is required to retire annually, through redemption at par or cancellation of shares theretofore purchased at or below par, 4% of the \$10 Par Value Preferred shares originally outstanding and optionally may so redeem or cancel an additional 4% of such shares annually. In addition, the Company may redeem, in whole or in part, shares of \$10 Preferred Stock, at 103% of par in 1979 and thereafter at prices declining to par in 1985. The authorized shares have been reduced for shares redeemed or cancelled during 1978. During 1978 and 1977, 162,615 shares and 201,405 shares, respectively, were purchased and 123,458 shares were cancelled during 1978, pursuant to 1977 sinking fund requirements. Certificate of Reduction of Capital, in the amount of \$1,234,580, the par value of the 123,458 shares cancelled was filed December 8, 1978, with the Secretary of the State of Delaware.

**NO PAR VALUE PREFERRED STOCK**

On June 4, 1976, the Company issued 344,850 shares of No Par Value Preferred Stock in exchange for certain trackage serving coal mining operations. The Preferred Stock, designated "Series A", has a stated value of \$30 per share, voting rights, and 7½% cumulative dividends. The Company has voluntary redemption privileges at 102% of stated value in 1978 and thereafter at prices declining to the stated value in 1980 and is required to redeem, at stated value, 25% of the outstanding shares annually beginning in 1983 and continuing to 1986. In addition, the Preferred Stock is convertible at any time into 287,375 shares of common stock. The Company did not redeem any shares, nor were any converted into common stock during 1978.

On May 12, 1977, the stockholders of the Company approved an amendment to the Company's Restated Certificate of Incorporation to authorize 10,000 Redeemable Preference Shares having a par value of \$10,000 per share. The Redeemable Preference Shares may be issued and sold only to the Secretary of Transportation pursuant to the Railroad Revitalization and Regulatory Reform Act of 1976. The shares may be issued from time to time in series, each series to have such rights and preferences as may be fixed by the Board of Directors in the resolution creating such series. No Redeemable Preference Shares have been issued, and the Company has no present plans to issue such shares.

On July 7, 1977, the Company marketed two million shares of a \$2.85 Convertible Preferred Stock at a selling price of \$50 per share. The shares rank prior to the Common Stock and to any Redeemable Preference Shares which may be issued and equal to the outstanding \$10 Par Value Preferred Stock and the No Par Value Preferred Stock as to cash dividends, which shall be cumulative. The Company may redeem shares at its option in whole at any time or in part from time to time upon not less than 30 days notice at a price equal to 105.7% of the selling price during the twelve month period ending June 30, 1979, and thereafter at prices declining to the selling price in 1988 and beyond.

At December 31, 1978, the Company has authorized and available for issuance, 2,655,150 of No Par Value Preferred Stock. The Company's Board of Directors has the authority to provide for the issuance of such Preferred Stock from time to time in series and to fix before issuance the number of shares, preferences, rights and other restrictions and qualifications of each series, subject to a maximum liquidating value of \$200,000,000 for shares outstanding.

**240. STATEMENT OF CHANGES IN FINANCIAL POSITION**

Give the information as requested concerning the source and application of funds during the year. Funds for the purpose of this schedule shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for invest-

ment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

**301. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS**

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
4. Compensating balances included in account 703, Special deposits, and in account 717, Other funds, should also be separately disclosed below.
5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

**Item 1 Compensating balances not legally restricted: \$17,044,000**

Lines of credit used and unused:

A revolving credit agreement dated 9/1/75, amended June 1, 1977, providing for borrowings up to \$100,000,000. The terms of the agreement are a commitment fee of 1/2 of 1% annually on unused portion and a compensating balance of 10% on total commitment plus 5% additional on used portion. The maximum amount borrowed was \$10,000,000 at prime interest rate.

The average interest rate of short-term borrowings outstanding at balance sheet date was 10.25%

The maximum amount of outstanding short-term borrowings during the year was \$28,848,000. The weighted average rate of the borrowings was 7.66%

Items 2 thru 6 Do not apply.

**GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A and 315**

1. Schedules 310 and 315 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year. Specifically, the disclosures should include the investments in the obligations of Federal, state and local governments, and the obligation of individuals. Also, disclose the investments made, disposed of, and written down during the year, and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.

2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

- (A) Stocks:
  - (1) Carriers - active.
  - (2) Carriers - inactive.
  - (3) Noncarriers - active.
  - (4) Noncarriers - inactive.
- (B) Bonds (including U.S. Government Bonds):
- (C) Other secured obligations:
- (D) Unsecured notes:
- (E) Investment advances:

3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
I	Agriculture, forestry, and fisheries
II	Mining
III	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other

5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be clasped as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.

9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.

10. Do not include the value of securities issued or assumed by respondent.

11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

12. Report dollars in thousands.

## 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking funds"; 716, "Capital funds"; 721, "Investments advances in affiliated companies"; and 717, "Orner funds."

2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).

3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged,

or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

4. Give totals for each class and for each subclass and a grand total for each account.

5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19\_\_ to 19\_\_." Abbreviations in common use in standard financial publications may be used to conserve space.

6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in

4. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

5. Give totals for each subclass and a grand total for each account.

6. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation matured serially, the date in column (d) may be reported as "Serially 19\_\_ to 19\_\_." In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

7. If any advances reported are pledged, give particulars in a footnote.

8. Report dollars in thousands.

## 325. PROPERTY USED IN OTHER THAN CARRIER OPERATIONS

1. This schedule may be omitted unless (a) gross property used in other than carrier operations is more than 5% of total assets, or (b) net profit from noncarrier operations for the year amounts to 10% or more of income before extraordinary items.

2. Show separately (a) the three properties with the greatest asset value, and (b) the three properties with greatest revenues. Show also each property whose gross value exceeds 5% of total assets or whose net profit from noncarrier operations exceed 10% of income before extraordinary items. Other items may be combined on one line.

3. If any of the individual items of property shown in column (a) were acquired in consideration of stocks, bonds, and other evidence of debt, or in exchange for other property, enter in column (e) only the amount at which carried in respondent's books and in a footnote give a full description of the consideration actually paid. Also if the actual money cost to respondent is different from that shown in column (e), give particulars in a footnote.

4. In section B include in column (f) the gross amount of revenue or income included in account 506; in column (g), the gross amount of expenses (including depreciation) charged to accounts

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330 AND 330A

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If account No. 732 for road or for equipment is less than 5% of account No. 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.

2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.

3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.

4. In columns (e) and (f), should be included all entries covering expenditures for additions and betterments, as defined, whether replacing other property or not.

5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.

6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially

included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.

7. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.

8. Report on line 34 amounts not includable in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.

10. If an amount of less than \$2000 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

11. Show dollars in thousands.

## 332. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT - OWNED AND USED

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated depreciation; road and equipment property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" account and "Other Rents - Debit - Equipment" accounts (See Schedule 342 for the accumulated depreciation relating to road and equipment owned but not used by respondent.)
2. If any data are included in columns (d) or (f), explain the entries in detail.
3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."
4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.
5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on line 27.
6. Thousand dollar Reporting Rule.

## 335A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes: (a) the investment reported in accounts 731, "Road and equipment property"; and 732, "Investments in leased property", of the respondent less any 731 or 732 property leased to others for their exclusive use of road, tracks, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property; (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment or other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.

2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company (P), and other leased properties (O).

3. In columns (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company. Then show, in deductions, data for transportation property leased to carriers and others.

4. In column (c), line-haul carriers report the miles of road used in line-haul service, and switching and terminal companies should report the miles of all tracks owned.

5. In column (d), show the amount applicable in accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 33, on the inner side of the comparative general balance sheet of each individual railway should be explained in a footnote. Book value included in accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in accounts 735, 736, and 785, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

7. Report dollars in thousands.

**335B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE**  
 (By Property Accounts)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 50 herein, should correspond with the amounts for each class of company and properties shown in schedule 335. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 32 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where

cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 33 amounts not includable in the accounts shown, or in line 32. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribe accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

5. Report dollars in thousands.

## 340. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.

2. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includable in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used in computing

the depreciation for the month of December and on lines 28 and 36 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used in computing the depreciation for December and dividing the total so computed by the depreciation base.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

6. If total road leased to others is less than 5% of total road owned; omit. If total equipment leased to others is less than 5% of total equipment owned; omit.

## 342. ACCUMULATED DEPRECIATION-ROAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.
2. Disclose credits and debits to Account 735, "Accumulated depreciation-road and equipment property," during the year relating to road and equipment leased to others, the depreciation charges for which are not includable in operating expenses of the respondent. (See Schedule 350 for the reserve relating to road and equipment owned and used by the respondent).
3. If any entries are made for "Other credits" and "Other debits," state the facts occasioning such entries. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "T-".
4. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively.
5. Thousand dollar Reporting Rule.

## 350. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

1. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (e) and (f) show the depreciation base used in computing the depreciation charges for the month of December; and in columns (d) and (g) show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefor are included in the rent for equipment and account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, 35-22-00, and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.

6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represent less than 5% of total road owned or total equipment owned, respectively.

1. Show in column (b) for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in column (c) show the depreciation base used in computing the depreciation charges for the month of December; in column (d) show the composite rates used in computing the depreciation charges for the month of December; and on lines 29 and 37 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732, "Improvements on leased property." The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized

rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All improvements to leased properties may be combined and one composite rate computed for each primary account or a separate schedule may be included for each such property.

3. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

## 360. LEASES—GENERAL INSTRUCTIONS AND DEFINITIONS

### A. General Instructions

Disclose in the following schedules the required information concerning leases of the respondent:

- Schedule 361 — Capitalized Capital Leases
- 362 — Noncapitalized Capital Leases
- 363 — Operating Leases
- 364 — Lessee Disclosures

Under Docket No. 36604, "Accounting for Leases," the Commission established guidelines for capitalizing all leases entered into after 1/1/77, which meet the criteria of a capital lease. (See 49 CFR 1201, Instruction 2-26). These leases shall be properly disclosed in Schedule 361, "Capitalized Capital Leases." However, for all leases in effect on 12/31/76, respondents may either capitalize these leases immediately or phase in the capitalization requirements through 12/31/80. Thereafter, all capital leases must be capitalized. Noncapitalized capital leases, if any, for this reporting year shall properly be disclosed in Schedule 362, "Noncapitalized Capital Leases."

A general description of the lessee's leasing arrangements shall be included to effect full and complete disclosures. Among the items to be disclosed are:

- The basis on which contingent rental payments are determined.
- The existence and terms of renewal or purchase options and escalation clauses.
- Restrictions imposed by lease agreements, such as those concerning dividends, additional debt, and further leasing.

These and other disclosures shall be included in Schedule 364 and attachments thereto, if necessary.

### B. Definitions

(1) **Capital Leases** are those leases which meet one or more of the following four criteria:

- The lease transfers ownership of the property to the lessee by the end of the lease term.
- The lease contains a bargain purchase option.
- The lease term is equal to 75 percent or more of the estimated economic life of the property, and
- The present value at the beginning of the lease term of the minimum lease payments equals or exceeds 90 percent of the fair value of the leased property to the lessor at the inception of the lease less any related investment tax credit retained by the lessor.

(2) **Operating leases** are those leases which do not meet any of the four criteria pertaining to capital leases.

(3) **Minimum lease payments** are the payments that the lessee is obligated to make or can be required to make in connection with the leased property. Executory costs such as insurance, maintenance and taxes in connection with the leased property shall be excluded from minimum lease payments.

(4) **Present value minimum lease payments** are lease payments that the lessee is obligated to make or can be required to make, exclusive of executory cost. Moreover, these payments are reduced by amounts representing interest, calculated at the companies' incremental borrowing rate or the implicit rate computed by the lessor.

(5) **Noncancelable lease/sublease** is one that has an initial or remaining term of one year or more and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

(6) **Contingent rentals**, for the purposes of this report, are rentals paid during the reporting year which depend on some factor other than the passage of time such as rentals based on usage or sales.

## 361. CAPITALIZED CAPITAL LEASES

## PART I. PRESENT VALUE OF MINIMUM LEASE PAYMENTS

Disclose total lease payments for the years shown. Then, disclose amounts representing (1) executory costs and (2) interest to derive the present value of minimum lease payments. An

explanation indicating how the rate of interest was derived for computing present value shall be included in Schedule 364. Report dollars in thousands.

## 362. NONCAPITALIZED CAPITAL LEASES

## PART I. PRESENT VALUE OF MINIMUM LEASE PAYMENTS

Disclose total lease payments for the years shown. Then, disclose amounts representing (1) executory costs and (2) interest to derive the present values of minimum lease payments. An ex-

planation indicating how the rate of interest was derived for computing present value shall be included in Schedule 364. Report dollars in thousands.

## 362. NONCAPITALIZED CAPITAL LEASES—Continued

## PART III. INCOME IMPACT

1. If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line

basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

2. In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases (or property bases for nondepreciable property) to the sum of (1) the depreciation bases for all categories of depreciable leased property plus (2) the property bases for nondepreciable leased property. Use Schedule 350 of this report for obtaining the depreciation bases of the categories of leased property.

4. Report on line 34 all other lease rentals not apportioned to any category listed on lines 1-33.
5. Report dollars in thousands.

## 413. RENT FOR LEASED ROADS AND EQUIPMENT

1. This schedule may be omitted if total rent is less than 10% of net income before extraordinary items. Otherwise, give particulars called for with respect to roads and equipment leased from others during the year, the rent for which is includable in account No. 3140-00.

2. Rents payable which are not classifiable under one of the three headings provided should be explained in a footnote.

3. If the respondent held under lease during all or any part of the year any road upon which no rent payable accrued, or if any portion of the charge shown hereunder is for construction on a line in which the respondent's leasehold interest will soon expire, give full particulars in a footnote.

4. Show the three largest items regardless of the dollar amount and all other items amounting to 10% or more of total rent for the year. (*Dollars in thousands*)

**414. RENTS FOR INTERCHANGED FREIGHT TRAIN CARS AND OTHER FREIGHT CARRYING EQUIPMENT**

1. Report freight expenses only.
  2. Report in this supporting schedule rental information by car type and other freight carrying equipment relating to the interchanged of railroad equipment, privately owned equipment and equipment leased for less than 30 days.
  3. The gross amounts receivable and payable for freight-train cars should balance with Account 35-33-00 (debits) and 36-22-00 (credits). Trailer and container rentals in this schedule are included in Accounts 35-23-00 (debits) and 36-22-00 (credits) but will not balance with these accounts since rents for "Other revenue equipment" (excluding locomotives and freight-train cars) are also chargeable to these accounts.
  4. Report in Columns (b) and (f) rentals for private-line cars (whether under railroad control or not) and shipper owned cars.
  5. Report in Columns (c), (d), (g), and (h) rentals for railroad owned cars prescribed by the Commission in Ex Parte No. 334, for which rentals are settled on a combination mileage and time basis (basic per diem). Include railroad owned per diem tank cars on line 1.
  6. Report in Columns (e) and (i) the incentive per diem payments for Box and Gondola General Service-Unequipped cars prescribed by the Commission in Ex Parte No. 252. Basic per diem payments for these cars are to be reported in Columns (c), (d), (g), and (h).
- NOTES: Mechanical designations for each car type are shown in Schedule 710.

**SCHEDULE 415. SUPPORTING SCHEDULE: EQUIPMENT**

1. Report freight expenses only.
2. Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchases services, and general).
3. Report in column (b) the detail for functions 40 through 47 for the items listed in column (a). Freight car repair expenses shall be assigned directly to the various car types on the basis of job order records whenever possible. When it is necessary to apportion car repair expenses, the apportionment shall be made on the most equitable basis available to the carriers. The following list provides a basis for apportioning freight car repair expenses to car types: a. AAR Car Repair Billing (CRB) Standards; b. A carrier conducted study to determine car repair expenses by car types; and c. Other available standards valid for the respondent carrier. Some useful references in completing column (b) are: (1) Locomotives: Function 41—all natural expenses and account 40-21-41, (2) Freight Cars: Function 42—all natural expenses and account 40-22-42, (3) Highway Equipment: Function 43—all natural expenses and account 40-23-43, (4) Floating Equipment: Function 44—all natural expenses and account 40-23-44, (5) Passenger and Other Revenue Equipment: Function 45—all natural expenses and account 40-23-45, (6) Computer and Data Processing Equipment: Function 46—all natural expenses and account 40-23-46, (7) Machinery-Locomotives: Accounts xx-21-40 and 40-21-40, (8) Machinery-Freight Cars: Accounts xx-22-40 and 40-22-40, (9) Machinery-Other Equipment: Accounts xx-23-40 and 40-23-40, and (10) Work and Other Non-Revenue Equipment: Function 47—all natural expenses and account 40-23-47.
4. Depreciation charges shall be reported in column (c), and some useful references are: Locomotives: 62-21-00; Freight Cars: 62-22-00; Highway Equipment, Floating Equipment, Passenger and Other Revenue Equipment, Computer and Data Processing Equipment, Machinery-Other Equipment, Work and Other Non-Revenue Equipment: 62-23-00; Machinery-Locomotives: 62-21-00; Machinery-Freight Cars: 62-22-00.
5. Retirement charges shall be made on the basis of the actual units retired from service during the reporting period where the service value has been determined, based on the ledger value of salvage and insurance recovered. Report retirement charges in column (d). These charges, however, will not balance with those reported in Schedule 410. Retirement charges are included in, but not limited to, the following accounts: Locomotives: 61-21-99; Car Types: 61-22-99; Other Retirements: 61-23-99.
6. Lease/Rentals (net) shall be reported in column (e). Locomotives would balance to the net of 31-21-00, 32-21-00, 35-21-00 and 36-21-00. Car types would balance to the net of 31-22-00, 32-22-00 and rents for interchanged freight cars reported on Schedule 414. All other subschedule lease/rentals (net) would, in total balance to the net of 31-23-00, 32-23-00, 35-23-00 and 36-23-00; however, rents for interchanged trailers must be added from Schedule 414.

## 417. SPECIALIZED SERVICE SUBSCHEDULE - TRANSPORTATION

## Instructions:

1. Report freight expenses only.
2. Report in lines 1, 2, 3, 4, and 10, the total of those natural expenses (salaries and wages; material, tools, supplies, fuels and lubricants; purchased services; and general) incurred in the operation of each type of specialized service facility. This schedule *does not* include switching services performed by train and yard crews in connection with or within specialized service facilities.
3. When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410, Railway Operating Expenses.
4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up, delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers including storage expenses.
5. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c), line 3.
6. Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2, column (g), the expense incurred by the railroad in moving automobiles, etc., between bi-level and tri-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (F) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves.
7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (net debits and credits). The expenses on line 4, column (h) relate to refrigerator cars only.
8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations and livestock feeding operations only.
9. Thousand dollar Reporting Rule.

## 450. ANALYSIS OF FEDERAL INCOME TAXES

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year total of accounts 714, 744, 762 and 786 applicable to each particular item in column (a).

3. Indicate in column (c) the net change in accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5. The total of line 10 in columns (c) and (d) should agree with the total of the contra charges (credits) to account 557, provision for deferred taxes, and account 591, provision for deferred taxes—extraordinary items, for the current year.

6. Indicate in column (e) the cumulative total of columns (b), (c), and (d). The total of column (e) must agree with the total of accounts 714, 744, 762 and 786.

## 470. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate to \$50,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:

(a) Payments to employees of the respondent shall be reported in Schedule 900.

(b) Payments for services rendered by affiliates.

(c) Payments for accounting and audit fees must be reported in full regardless of the \$50,000 limitation. These fees must not be included with management fees paid to patent companies.

2. The aggregate of payments to be reported in column (c) shall include amounts paid and/or accrued during the year which are applicable to the year.

3. When contributions under \$50,000 are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$100,000 or more.

4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax-advice. All carriers, whether payments aggregate more or less than \$50,000, shall answer the following question.

Did the independent accountant reporting on the respondent's annual report provide any management services other than auditing?

Specify Yes  No

5. To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation,

accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

6. To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$50,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.

7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. When the respondent is reporting on a system basis, audit fees must be reported separately for each individual railroad included in the system.

8. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

## 500. CONTINGENT ASSETS AND LIABILITIES

1. Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with Instruction 5-6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the accounts of the respondent.

Disclose all items amounting to \$100,000, or more. If an actual monetary amount is not known and an estimate of the amount of any item involved is not feasible, disclosure should be made describing the contingency and explaining why an estimate is not determinable.

Examples of contingent liabilities are items which may become obligations as a result of pending or threatened litigation.

assessments or possible assessments of additional taxes and agreements or obligations to repurchase securities or property.

2. Information concerning the guarantees and suretyships are to be shown in other schedules provided for those items and not in this schedule.

3. In column (a) give a description of each item of contingent assets and liabilities under an inserted caption "CONTINGENT ASSETS" or "CONTINGENT LIABILITIES," as appropriate, and in column (b) show the amount of each item.

## INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 700

State particulars of all tracks *operated* by the respondent at the close of the year, according to the following classification:

- (1) Line owned by respondent;
- (2) Line owned by proprietary companies;
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;
- (4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;
- (5) Line operated under *tackage rights*.

Give subtotal for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings, i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distances between termini of single or first main track), and in the following columns the lengths of second main track, all other main tracks; passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

*Running tracks.* — Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.

*Way switching tracks.* — Station, team, industry and other switching tracks for which no separate service is maintained.

*Yard switching tracks.* — Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (b) and (d) should include tracks serving industries, such as mines, mills, smelters, factories, etc., not classifiable under "branch lines" as defined below. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

In classifying the line between *main* and *branch* (column (c)), use the distinction usually followed by respondent. Branch lines are distinguished from industrial tracks or yard tracks and sidings in that branch lines serve one or more stations beyond the point of junction with the main line or another branch line and to or from which stations train service, or its equivalent, is performed.

Class (2) includes each line full title to which is in an inactive proprietary corporation of the respondent (i.e., one *all* of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rest in a corporation controlled by or controlling the respondent; *but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a footnote.* An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3) except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others but over which the respondent has the right to operate some or all of its tracks. In the road of this class the respondent has no proprietary rights but only the rights of a licensee. Include in this class, also, all main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by the respondent as *joint or common owner* or a *joint lessee* or under any *joint arrangement* should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

Switching and terminal companies leave column (c) (Miles of Branch Lines) blank. They should prepare also the following schedule for tracks operated at cost for joint benefit.

**702. MILES OF ROAD AT CLOSE OF YEAR—BY STATES AND TERRITORIES (SINGLE TRACK)**  
 (For other than switching and terminal companies)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in columns (b), (c), (e), or (f), as may be

appropriate. The remainder of jointly operated mileage should be shown in column (g). Respondent's proportion of road jointly owned, not operated, should be shown in columns (i) and (j), as may be appropriate. Tracks which have been permanently abandoned should not be included in columns (i) and (j).

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings, i.e.: counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

## 705. CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest whole mile adjusted to accord with footings, i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

1. For each railroad property used in respondent's transportation service, show all increases and decreases in mileage, classifying the changes in the tables below as follows:

(Class 1) Line owned by respondent.

(Class 2) Line owned by proprietary companies.

(Class 3) Line operated under lease for a specified sum.

(Class 4) Line operated under contract or agreement for contingent rent.

(Class 5) Line operated under trackage rights.

2. For changes in miles of road, give dates of beginning or abandonment of operations. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specify reference to such authority should in each case be made by docket number or otherwise, as may be appropriate.

3. All consolidations, mergers, and reorganizations effected, giving particulars.

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

4. Other important changes not elsewhere provided for involving more than \$50,000, giving full particulars.

If returns under Inquiry No. 1 above include any first main track owned by respondent or its proprietary companies representing new construction or permanent abandonment give the following particulars:

Owned by respondent:

Miles of road constructed None Miles of road abandoned 108 (see page 86)

Owned by proprietary companies:

Miles of road constructed None Miles of road abandoned None

The item "miles of road constructed" is intended to show the mileage of first main track laid to extend respondent's road, and should not include tracks relocated and traces laid to shorten the distance between two points, without serving any new territory.

By road abandoned is meant "permanently abandoned," the cost of which has been or is to be written out of the investment accounts.

## INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 710

Instructions for reporting locomotive and passenger-train car data.

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (1); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h); units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operating at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.

6. A "Diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductors. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power from an overhead contact wire or third rail, and use the power to drive one or more electric motors that propel the vehicle. An "Other self-powered unit" includes all units other than diesel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "Auxiliary unit" includes all units used in conjunction with locomotives but which draw their power from the "mother" unit, e.g., boosters,

slugs, etc. For reporting purposes indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "Auxiliary units".

7. Column (k) should show aggregate capacity for all units reported in column (j), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.

## 710. INVENTORY OF EQUIPMENT--Continued

Instructions for reporting freight-train car data:

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (n); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i); units rented from others for a period less than one year should not be included in column (j).

4. Column (m) should show aggregate capacity for all units reported in columns (k) and (l), as follows: for freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

## NOTES AND REMARKS

## 710-S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by Respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased, (P); built or rebuilt by contract in outside railroad shops, (C); or built or rebuilt in company or system shops, (S).

2. In column (a) list each class or type of locomotive unit, car, or TDFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads; and should include physical characteristics requested by Schedule 710: locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit; such as Multiple purpose diesel locomotive A units (B-B), 2500 HP; and cars should be identified as to special construction or service characteristics such as Aluminum covered hopper cars, LO: Steel boxcars-special service, XAP, etc., for TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710; columns (c) and (e) for locomotive units, passenger train cars and company service cars; columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the Respondent's accounts. The term "new" as used herein shall refer to and mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

7. Report dollars in thousands.

## 715. HIGHWAY MOTOR VEHICLE OPERATIONS

Give particulars of highway motor vehicles operated by respondent in revenue and nonrevenue service and of revenue traffic handled for the respondent by others under contractual arrangements.

In reporting highway motor vehicle miles in line-haul service, show the mileage of buses and combination bus-trucks on line 5; the mileage of trucks and of bogies, trailers and semitrailers with trucks on line 6; and the mileage of tractors and of bogies, trailers and semitrailers with tractors on line 7. Vehicle miles in terminal service should be reported on line 8 and 9.

In reporting traffic carried and traffic handled 1 mile on lines 10 to 15, and on lines 20 to 23, both inclusive, show the total

number of tons and ton-miles of revenue freight in column (d) and the total number of passengers carried and passenger-miles in column (c), regardless of the class of vehicle used to perform the transportation service.

In reporting highway motor vehicles in nonrevenue service include those used in maintenance, shops, and storehouses, and transportation of company material; also buses used for transportation of company employees. Exclude automobiles used by officials and employees.

## GENERAL INSTRUCTIONS FOR PREPARING SCHEDULES 720, 721, 723, 726, 727, and 728

1. For purposes of these schedules, the track categories are defined as follows:

## Track category

- A - 20 million or more gross ton-miles per mile per year (including track over which passenger service is provided—see Category F).
- B - Less than 20 million gross ton-miles per mile per year but at least 5 million (does not include track over which passenger service is provided—see Category F).
- C - Less than 5 million gross ton-miles per mile per year but at least 1 million (does not include track over which passenger service is provided—see Category F).
- D - Less than 1 million gross ton-miles per year (does not include track over which passenger service is provided—see Category F).
- E - Way and yard switching tracks (crossing tracks, crossovers and turnouts) shall be

Included in appropriate Category A, B, C, D, F, and Potential Abandonments, as appropriate.

F - Track over which any passenger service is provided (other than potential abandonments); however, if annual traffic density is greater than 20 million gross ton-miles per mile per year, the track shall be included in Track Category A.

Potential Abandonments - Route segments identified by railroads as potentially subject to abandonment as required by Section 1a(5)(a) of the Interstate Commerce Act.

2. These schedules shall only include those lines maintained by the reporting carrier. It shall not include track maintained by others over which the reporting carrier has trackage rights.

3. If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year.

## 720. TRACK AND TRAFFIC CONDITIONS

1. Disclose the requested information pertaining to track and traffic conditions.
2. Average speed reduction per slow order mile in column (e) shall be based on reduction from the maximum authorized timetable train speeds.

3. Miles under slow order in column (f) shall not include those due to ongoing maintenance, or other temporary track conditions such as floods or derailments.

\* Main Track Only

## 721. TIES LAID IN REPLACEMENT

(1) Disclose the requested information concerning ties laid in replacement.

(2) The term "spot maintenance" in column (j) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "% of Spot Maintenance" refers to the percentage of total ties laid in replacement considered to be spot maintenance.

Remarks Treated Switch and Bridge Ties replaced in 1978 were 5 204 445 Foot Board Measure and are not included above.

## 722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

Give particulars of ties laid during the year in new construction during the year.

In column (a) classify the ties as follows:

(U) Wooden ties untreated when applied.

(T) Wooden tie treated before application.

(S) Tie other than wooden (steel, concrete, etc.). Indicate type in column (b).

Report new and second-hand (relay) ties separately, indicating in column (b) which ties are new.

In columns (d) and (g) should be shown the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage, and seasoning yards, and, in the case of treated ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines and placing the ties in tracks, and of train service, other than that necessary in connection with loading or treatment, should not be included in this schedule. In these columns, "total cost" is to be reported in thousands.

## 723. RAILS LAID IN REPLACEMENT

(1) Furnish the requested information concerning rails laid in replacement.

(2) The term "spot maintenance" in column (g) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "% of Spot Maintenance" refers to the percentage of total ties laid in replacement considered to be spot maintenance.

## 724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

Give particulars of all rails applied during the year in connection with the construction of new track.

- In column (a) classify the kind of rail applied as follows:
- (1) New steel rails, Bessemer process.
  - (2) New steel rails, open-hearth process.
  - (3) New rails, special alloy (describe more fully in a footnote).
  - (4) Relay rails.

Returns in columns (c) and (g) should be reported in whole numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more reckoned as one.

The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks, and of train service in connection with the distribution of the rails, should not be included in this schedule. In these columns, "total cost" is to be reported in thousands.

## 725. WEIGHT OF RAIL

Give the particulars below called for concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly-owned mileage should be included. Under "Weight of rail," the various weights of rails should

be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

## 750. CONSUMPTION OF FUEL BY MOTIVE POWER UNITS

Show hereunder the amounts of the various kinds of fuel consumed by locomotive units and motors or other self-propelled rail cars in the service of the respondent during the year; and the number of kilowatt-hours for such tractive equipment as was propelled by electricity. The ton of 2,000 pounds should be used.

Kilowatt-hours, for entry in column (c) of section A, and column (h) of section B, are to be figures at high tension taps (point of production or point of purchase), and divided among the several classes of service, the division being made on the respondent's best estimate if actual figures are not available.

**760. GRADE CROSSINGS**  
A—Railroad With Railroad

1. A crossing of a railroad with a railroad means the intersection of all the tracks on one right-of-way with all of the tracks on another right-of-way, whether or not owned or operated by the same company; thus, the intersection of one double-track line with another double-track line shall be reported as one crossing. Each such crossing shall be reported only by the carrier who performs the actual maintenance of the signal or interlocking protection, if so provided, or by the carrier who maintains the crossing frogs where no protection exists. The carrier which actually performs the maintenance shall be the reporting carrier, even though other party, or parties, assume a part or all of the expense of such maintenance. Where portions of the apparatus are maintained by two or more companies, as for example—the condition where one crossing frog is maintained by one company and the second frog by the other company, agreement should be made between carriers as to which shall report. Report should be made of each crossing, whether main line, branch line, or switching tracks are involved, so long as separate rights-of-way are involved, regardless of whether or not the

rights-of-way involved are owned or leased by the same company. A cross-over from one track to another on the same right-of-way, or the use of a crossing frog for the intersection of two tracks in the same right-of-way, is not to be considered as a crossing in this connection. If one right-of-way intersects two or more rights-of-way in the same vicinity a separate crossing shall be reported for each such intersection, even though all are controlled by one interlocking plant. In such case, this fact should be explained in a footnote in order that the interlocking plant may not be counted more than once.

2. The term "Protection" as used in this connection should include all signalling or derailing devices which may restrict the use of the crossing by either carrier. It shall not include stationary or other cautionary signs which merely indicate the proximity of a crossing. Where crossings are protected by more than one of the types of protection shown in columns (b) to (f) inclusive, the kind of protection, etc., should be reported in only one classification and that of the more elaborate type.

## 760. GRADE CROSSINGS—Continued

## B—Railroad With Highway

1. A highway grade crossing is to be regarded as a single crossing of all of the tracks within the adjacent owned or leased right(s) of way of the railroad(s) at the point of intersection with a publicly maintained highway street or avenue at the same grade to the extent that the tracks are located within the limits of a single set of grade crossing signs or protective devices having an integrated set of actuating circuits.

2. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads or drives (ys not dedicated to public use). All crossings of tracks at grade with public roads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not the track is located in railroad right-of-way.

3. A private grade crossing which becomes public during the year should be reported as a new grade crossing. A grade crossing of a dual or multi-lane highway should be reported as one crossing. In the classification of protection, a crossing having more than one of the classes of protection listed below should be reported once only, using the furthest left column that applies. To avoid

duplicate reporting of jointly owned, jointly maintained or jointly used crossings, one railroad shall be designated the reporting road by mutual agreement of the interested parties.

4. In columns (b) and (c) include grade crossings with or without audible signals. In columns (d) and (e) include grade crossings with or without any type of audible or visible supplemental device. Exclude from columns (f) and (g) those crossings where train movement is protected only by a member of the train crew. Audible signals reportable in column (h) include any train-actuated bell, whistle, siren or other audible device located adjacent to the crossing. Other automatic signals reportable in column (i) include wigwags, Highway Traffic Signals or special types of train-activated devices with or without audible supplements. Include in column (j), in addition to "Railroad Crossing" crossbuck, any other static sign (except "Number of Tracks" sign) or any non-train-actuated signal such as amber continuous-flashing lights. In column (m) report other than railroad crossbuck. Totals in column (o), lines 9 and 10 should be equal, resulting in no change in the total number of crossings.

## 760. GRADE CROSSINGS-Continued

## B-Railroad With Highway

1. A highway grade crossing is to be regarded as a single crossing of all of the tracks within the adjacent owned or leased right(s) of way of the railroad(s) at the point of intersection with a publicly maintained highway, street or avenue at the same grade to the extent that the tracks are located within the limits of a single set of grade crossing signs or protective devices having an integrated set of actuating circuits.

2. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads or driveways not dedicated to public use. All crossings of tracks at grade with public roads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not the track is located on railroad right-of-way.

3. A private grade crossing which becomes public during the year should be reported as a new grade crossing. A grade crossing of a dual or multi-lane highway should be reported as one crossing. In the classification of protection, a crossing having more than one of the classes of protection listed below should be reported once only, using the furthest left column that applies. To avoid

duplicate reporting of jointly owned, jointly maintained or jointly used crossings, one railroad shall be designated the reporting road by mutual agreement of the interested parties.

4. In columns (b) and (c) include grade crossings with or without audible signals. In columns (d) and (e) include grade crossings with or without any type of audible or visible supplemental device. Exclude from columns (f) and (g) those crossings where train movement is protected only by a member of the train crew. Audible signals reportable in column (h) include any train-activated bell, whistle, siren or other audible device located adjacent to the crossing. Other automatic signals reportable in column (i) include wigwags, Highway Traffic Signals or special types of train-activated devices with or without audible supplements. Include in column (j), in addition to "Railroad Crossing" crossbuck, any other static sign (except "Number of Tracks" sign) or any non-train-activated signal such as amber continuous-flashing lights. In column (m) report other than railroad crossbuck. Totals in column (o), lines 8 and 10 should be equal, resulting in no change in the total number of crossings.

**761. GRADE SEPARATIONS**  
**Highway-Railroad**

1. (a) A highway-railroad grade separation is to be regarded as a single crossing of all of the tracks within the owned or leased right-of-way or contiguous rights-of-way of the railroad(s) at the point of intersection with a publicly maintained highway, street or avenue at separate grades.

(b) Not to be included are structures which serve some major purpose other than the avoidance of conflict of railway movements with highway movements and which contain no design features required for accommodation of the intersecting traffic flow as in the case of major tunnels.

(c) In order to avoid duplicate reporting and possible confusion, in reporting grade separations used or maintained by more than one railroad, the interested parties in each case should designate one line to be the reporting railroad.

2. All separated crossings of tracks with public roads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not the track is located on railroad owned right-of-way.

3. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads not dedicated to public use.

4. A private crossing which becomes public during the year should be reported as a new crossing.

5. A crossing of a dual or multi-lane highway should be reported as one crossing.

## 800. CONTRACTS, AGREEMENTS, ETC.

1. Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, together with important revisions, modifications, terminations, and other changes thereof, which became effective during the year, and concerned in any way the transportation of persons or things at other than tariff rates, or the purchase of equipment under conditional sales plans without the issuance of securities by respondent, making such statements in the following order:

- (a) Freight or transportation companies or lines.
- (b) Other railway companies.
- (c) Steamboat or steamship companies.
- (d) Telegraph companies.
- (e) Telephone companies.
- (f) Equipment purchased under conditional sales contracts.
- (g) Routing traffic of affiliated companies.
- (h) Other contracts.

2. Under item 1(b), include particulars of joint facility arrangements entered into during the year by the respondent, including those maintained or operated by other carriers as well as those maintained or operated by respondent. For each joint facility, give a brief statement of the basis or bases on which revenues, expenses, taxes, interest on investment, and other items, if any, related to the facility are apportioned among the carriers using the facility or otherwise deriving benefit therefrom.

3. Under item 1(f), give particulars of conditional sales agreements, lease or rental contracts, and other similar instruments, entered into by respondent for the purchase of equipment, which provide for payment in installments and do not involve the issuance of securities by respondent. State the names of the parties to the contracts or agreements, the number of units of each class of equipment covered, and the terms and conditions of payment.

4. Under item 1(g), give particulars of arrangements, written or

oral with affiliated companies for routing of traffic. Through route arrangements for handling of traffic interchanged with carrier affiliates should not be reported.

5. Under item 1(h). Other contracts, describe briefly the particulars of all contracts or agreements, including estimated amounts receivable, under which a government agency, or instrumentality thereof, seeks to assist respondent with grants or aid for providing passenger or other passenger-train services.

6. Information concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$50,000 per year, and which, by its terms, is otherwise unimportant.

7. In lieu of giving abstracts, copies of contracts may be filed. Every copy of a contract furnished in connection with the foregoing requirement should be listed hereunder.

8. The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

9. Compliance with the requirements of this schedule does not relieve the respondent of the duty placed upon common carriers by section 6(5), Part I, of the Interstate Commerce Act, which reads as follows:

"Every common carrier subject to this part shall also file with said Commission copies of all contracts, agreements, or arrangements with other common carriers in relation to any traffic affected by the provisions of this part to which it may be a party. Provided, however, that the Commission, by regulations, may provide for exceptions from the requirements of this paragraph in the case of any class or classes of contracts, agreements, or arrangements, the filing of which, in its opinion, is not necessary in the public interest."

1/ Includes Director and Other Fees, Incentive Compensation Bonus and Life Insurance in excess of \$50,000.

2/ Includes moving costs.

3/ Includes Personal Service Income from the difference between the Option Price and Market Value for Stock Options Incentive plan options exercised.

4/ In 1978 the Board of Directors of Burlington Northern adopted a Non-discriminatory Incentive Pay Plan for selected officers and key employees who, because of their position and responsibility, have a direct impact on operations or profitability.

Each year the Compensation Committee of the Board of Directors establishes a threshold of net income that must be exceeded before any incentive payments can be made. The amount of any annual payments made is based on the level of pre-tax net income above the threshold, achievement of corporate goals, and achievement of each individual participant's goals and objectives. Payments are included under other compensation during the year.

{a} Pension

{b} Premium for Life Insurance coverage in excess of \$50,000

{c} Director and Other Fees - Various Companies

## 900. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the persons named in Schedule 110 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$75,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 112 reference to this fact should be made if the aggregate compensation from all companies amounts to \$75,000 or more.

4. Report in column (d) the total amount of compensation other than annual salary paid to each listed employee during the year. This includes forms of nonmonetary compensation given which directly benefits each employee. Examples:

Fair value of property given, such as exclusive use of an automobile;

Amounts paid for membership of the employee in nonbusiness associations, private clubs, etc.;  
Commissions, bonuses, shares in profits;  
Contingent compensation plans;  
Money paid or accrued for any pension, retirement, savings, retirement annuities, deferred compensation, or similar plan;  
Premiums on life insurance where the respondent is not the beneficiary. Do not report premiums on group life insurance for benefits less than \$75,000.

Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc. (*Dollars in thousands*)

## 230. CAPITAL STOCK

## PART I. CAPITAL STOCK

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.
2. Present in column (b) the par or stated value of each issue. If none, so state.
3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.
4. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They

are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as required them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

5. If stock is being held subject to an exchange for the outstanding securities of constituent companies, then include such stock as outstanding stock, and disclose the details in footnotes.

6. Report dollars in thousands.

## PART II. SUMMARY OF CAPITAL STOCK CHANGES DURING YEAR

1. The purpose of this part is to disclose capital stock changes during year.
2. Column (a) presents the items to be disclosed.
3. Columns (b), (d) and (f) require disclosures of the number of preferred, common and treasury stock, respectively, applicable to the items presented in column (a).
4. Columns (c), (e) and (g) requires the applicable disclosure of the book values of preferred, common and treasury stock.

5. Disclose in column (h) the additional paid-in capital realized from changes in capital stock during year.

6. Unusual circumstances arising from changes in capital stock changes shall be fully explained in footnotes to this schedule.

7. Report dollars in thousands.

<sup>1</sup> By footnote state the purpose of the issue and authority.

Notes to Schedule 230, Page S-9.**\$10 PAR VALUE 5½% PREFERRED STOCK**

The Company is required to retire annually, through redemption at par or cancellation of shares theretofore purchased at or below par, 4% of the \$10 Par Value Preferred shares originally outstanding and optionally may so redeem or cancel an additional 4% of such shares annually. In addition, the Company may redeem, in whole or in part, shares of \$10 Preferred Stock, at 103% of par in 1979 and thereafter at prices declining to par in 1985. The authorized shares have been reduced for shares redeemed or cancelled during 1978. During 1976 and 1977, 162,615 shares and 201,405 shares, respectively, were purchased and 123,458 shares were cancelled during 1978, pursuant to 1977 sinking fund requirements. Certificate of Reduction of Capital, in the amount of \$1,234,330, the par value of the 123,458 shares cancelled was filed December 8, 1978, with the Secretary of the State of Delaware.

**NO PAR VALUE PREFERRED STOCK**

On June 4, 1976, the Company issued 344,850 shares of No Par Value Preferred Stock in exchange for certain trackage serving coal mining operations. The Preferred Stock, designated "Series A", has a stated value of \$30 per share, voting rights, and 7½% cumulative dividends. The Company has voluntary redemption privileges at 102% of stated value in 1979 and thereafter at prices declining to the stated value in 1980 and is required to redeem, at stated value, 25% of the outstanding shares annually beginning in 1983 and continuing to 1986. In addition, the Preferred Stock is convertible at any time into 287,375 shares of common stock. The Company did not redeem any shares, nor were any converted into common stock during 1978.

On May 12, 1977, the stockholders of the Company approved an amendment to the Company's Restated Certificate of Incorporation to authorize 10,000 Redeemable Preference Shares having a par value of \$10,000 per share. The Redeemable Preference Shares may be issued and sold only to the Secretary of Transportation pursuant to the Railroad Revitalization and Regulatory Reform Act of 1976. The shares may be issued from time to time in series, each series to have such rights and preferences as may be fixed by the Board of Directors in the resolution creating such series. No Redeemable Preference Shares have been issued, and the Company has no present plans to issue such shares.

On July 7, 1977, the Company marketed two million shares of a \$2.85 Convertible Preferred Stock at a selling price of \$50 per share. The shares rank prior to the Common Stock and to any Redeemable Preference Shares which may be issued and equal to the outstanding \$10 Par Value Preferred Stock and the No Par Value Preferred Stock as to cash dividends, which shall be cumulative. The Company may redeem shares at its option in whole at any time or in part from time to time upon not less than 30 days notice at a price equal to 105.7% of the selling price during the twelve month period ending June 30, 1979, and thereafter at prices declining to the selling price in 1988 and beyond.

At December 31, 1978, the Company has authorized and available for issuance, 2,655,150 of No Par Value Preferred Stock. The Company's Board of Directors has the authority to provide for the issuance of such Preferred Stock from time to time in series and to fix before issuance the number of shares, preferences, rights and other restrictions and qualifications of each series, subject to a maximum liquidating value of \$200,000,000 for shares outstanding.

1. 5,650 Common Shares issued for stock option incentive plan.
  2. Includes Stock Liability for conversion of predecessor's companies as follows:

## 240. STATEMENT OF CHANGES IN FINANCIAL POSITION

Give the information as requested concerning the source and application of funds during the year. Funds for the purpose of this schedule shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for invest-

ment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

## 311. SPECIAL FUNDS AND OTHER INVESTMENTS

1. Complete this schedule if the amount in account 722, "Other Investments" is greater than 1% of total assets.

2. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of other than affiliated companies, included in accounts Nos. 715, "Sinking funds", and 717, "Other funds." Investments included in

accounts Nos. 715, 716, and 717 held by trustees in lieu of cash deposits required under the governing instrument are not to be reported.

3. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in column

(a), (b), and (c). Investment in U.S. Treasury obligations may be reported as one item. Items where original cost is less than \$500,000 may be combined as one item.

4. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

5. Give totals for each subclass and a grand total for each account.

6. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation matured serially, the date in column (d) may be reported as "Serially 19\_\_ to 19\_\_." In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

7. If any advances reported are pledged, give particulars in a footnote.

8. Report dollars in thousands.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330 AND 330A

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Fixed Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If account No. 732 for road or for equipment is less than 5% of account No. 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.

2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.

3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.

4. In columns (c) and (e), should be included all entries covering expenditures for additions and betterments, as defined, whether replacing other property or not.

5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.

6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially

included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.

7. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.

8. Report on line 34 amounts not includable in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.

10. If an amount of less than \$2000 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

11. Show dollars in thousands.

## 332. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT - OWNED AND USED

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated depreciation; road and equipment property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" account and "Other Rents - Debit - Equipment" accounts (See Schedule 342 for the accumulated depreciation relating to road and equipment owned but not used by respondent).
2. If any data are included in columns (d) or (f), explain the entries in detail.
3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."
4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.
5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on line 27.
6. Thousand dollar Reporting Rule.

## 350. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

1. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in column (c) and (f) show the depreciation base used in computing the depreciation charges the month of December; and in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December; and on lines 28 and 36 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefor are included in the rent for equipment and account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, 35-22-00, and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.

6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

## 900. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the persons named in Schedule 110 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$75,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 112 reference to this fact should be made if the aggregate compensation from all companies amounts to \$75,000 or more.

4. Report in column (d) the total amount of compensation other than annual salary paid to each listed employee during the year. This includes forms of nonmonetary compensation given which directly benefits each employee. Examples:

Fair value of property given, such as exclusive use of an automobile;

Amounts paid for membership of the employee in nonbusiness associations, private clubs, etc.;  
Commissions, bonuses, shares in profits;  
Contingent compensation plans;  
Monies paid or accrued for any pension, retirement, savings, retirement annuities, deferred compensation, or similar plan;  
Premiums on life insurance where the respondent is not the beneficiary. Do not report premiums on group life insurance for benefits less than \$75,000.

Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc. (*Dollars in thousands*)

## B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 on this page have taken place during the year covered by this report, they should be explained in detail.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision.

2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.

3. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact name of common carrier making this report	<u>Spokane, Portland and Seattle Railway Company (lessor company controlled 100% by Burlington Northern Inc.)</u>
2. Date of incorporation	<u>August 23, 1905</u>
3. Under laws of what Government, State, or Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership or trusteeship and of appointment of receivers or trustees	<u>Incorporated under the laws of the State of Washington.</u>
4. If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give full particulars.	<u>Not applicable</u>
5. Class of switching and terminal company	<u>Not applicable</u>
[See section No. 7 on inside of front cover]	

## STOCKHOLDERS REPORTS

6. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders.

Check appropriate box:

- Two copies are attached to this report.
- Two copies will be submitted \_\_\_\_\_ (date)
- No annual report to stockholders is prepared.

## C. VOTING POWERS AND ELECTIONS

1. State the par value of each share of stock: Common, \$ 100 per share; first preferred, \$ — per share; second preferred, \$ — per share; debenture stock, \$ — per share.
2. State whether or not each share of stock has the right to one vote; if not, give full particulars in a footnote Yes
3. Are voting rights proportional to holdings? Yes If not, state in a footnote the relation between holdings and corresponding voting rights.
4. Are voting rights attached to any securities other than stock? No. If so, name in a footnote each security, other than stock to which voting rights are attached (as of the close of the year), and state in detail the relation between holdings and corresponding voting rights, stating whether voting rights are actual or contingent, and if contingent showing the contingency.
5. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method? No. If so, describe fully in a footnote each such class or issue and give a succinct statement showing clearly the character and extent of such privileges.
6. Give the date of the latest closing of the stock book prior to the actual filing of this report, and state the purpose of such closing Stock book not closed.
7. State the total voting power of all security holders of the respondent at the date of such closing, if within one year of the date of such filing; if not, state as of the close of the year. 400 000 votes, as of December 31, 1978  
(Date)

## 350. DEPRECIATION BASE AND RATES-ROAD AND EQUIPMENT OWNED AND USED AND LEASSED FROM OTHERS

1. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (e) and (f) show the depreciation base used in computing the depreciation charges the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December; and on lines 28 and 36 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefor are included in the rent for equipment and account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 33-23-00, 34-22-00, and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.
2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.
3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.
4. If the depreciation base for accounts 1, 3, 4, 5, and 79 includes nondepreciable property, a statement to that effect should be made in a footnote.
5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.
6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.
