1. This Form for annual report should be filled out in triplicate and two copies returned to the *Interstate Commerce Commission, Bureau of Accounts*, Washington, D.C., 20423, by *March 31 of the year following that for which the report is made*. Attention is especially directed to the following provisions of Part III of the Interstate Commerce Act:

SEC. 313 (a). The Commission is hereby authorized to require annual periodical, or special reports from water carriers, lessors \* \* \* (as defined in this section), and to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary. Such annual reports shall give an account of the affairs of the carrier, lessor \* \* \* in such form and detail as may be prescribed by the Commission. Said annual reports shall contain all the required information for the period of 12 months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within 3 months after the close of the year for which the report is made, unless additional time be granted in any case by the Commission. \* \* \*

SEC. 317 (d). Any water carrier or other person, or any officer, agent, employee, or representative thereof, who shall willfully fail or refuse to make a report to the Commission as required by this part, or to make specific and full, true, and correct answer to any question within 30 days from the time it is lawfully required by the Commission so to do, or to keep accounts, records, and memoranda in the form and manner prescribed by the Commission, or shall willfully falsify, destroy, mutilate, or alter any report, account, record, memorandum, book, correspondence, or other document, required under this part to be kept, or who shall willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions as required under this part, or shall willfully keep any accounts, records, or memoranda contrary to the rules, regulations, or orders of the Commission with respect thereto, or shall knowingly and willfully file with the Commission any false report, account, record, or memorandum, shall be deemed guilty of a misdemeanor, and upon conviction thereof in any court of the United States of competent jurisdiction within the district in which such offense was in whole or in part committed, be subject for each offense to a fine of not more than \$5,000. As used in this subsection, the word "keep" shall be construed to mean made, prepared, or compiled, as well as retained.

SEC. 302 (c). The term "water carrier" means a common carrier by water or a contract carrier by water.

SEC. 313 (h). As used in this section \* \* \* the term "lessor" means a lessor of any right to operate as a water carrier; and the term "water carrier" or "lessor" includes a receiver or trustee of such water carrier, lessor, \* \* \*.

2. The instructions in this Form should be carefully observed and each question should be answered fully and accurately, except where otherwise noted to the contrary, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like, should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page —, schedule (or line) number —" should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are

called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper, and wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margins; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink, except those of a contrary character, which should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

Money items (except averages) throughout this annual report form should be shown in units of dollars adjusted to accord with footings.

6. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

7. The respondent is further required to send to the Bureau of Accounts, immediately upon publication, two copies of its latest printed annual report to stockholders. See page 2.

8. Water carriers are, for the purpose of report to the Interstate Commerce Commission, divided into three classes in accordance with the following definitions:

Class A carriers are those carriers by water having average annual operating revenues exceeding \$500,000.

Class B carriers are those carriers by water having average annual operating revenues exceeding \$100,000 but not more than \$500,000.

Class C carriers are those carriers by water having average annual operating revenues of \$100,000 or less.

The annexed Form is prescribed for use by water carriers of Classes A and B. Class B carriers are permitted to use the condensed schedules of operating revenues and operating expenses appearing on pages 302 and 313, respectively. In other respects the requirements of the Form are identical for water carriers of both Classes A and B.

A separate Form, designated "Form K-C," is provided for water carriers of Class C.

9. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the *Interstate Commerce Commission*. RESPONDENT means the *person or corporation in whose behalf the report is made*. THE YEAR means the *year ended December 31 for which the report is made*. THE CLOSE OF THE YEAR means the *close of business on December 31 of the year for which the report is made*; or, in case the report is made for a shorter period than one year, it means the *close of the period covered by the report*. THE BEGINNING OF THE YEAR means the *beginning of business on January 1 of the year for which the report is made*; or, in case the report is made for a shorter period than one year, it means the *beginning of the period covered by the report*. THE PRECEDING YEAR means the *year ended December 31 of the year next preceding the year for which the report is made*. THE UNIFORM SYSTEM OF ACCOUNTS means the *system of accounts published as Part 1209 of Title 49, Code of Federal Regulations, as amended*. WATER CARRIERS as referred to herein means *Carriers by Inland and Coastal Waterways*.

10. Should there be doubt as to the reporting of any item or items or parts thereof, or advice is desired relative to the preparation of this report, address an inquiry to the Bureau of Accounts for consideration and decision.

Schedule 217, on pages 212 and 213, provides for corporations controlled by respondent through title to securities.

2. By "control" is meant *ability to determine the action of a corporation*. Attention is specifically directed to Section 1 (3) (b) of Part I of the Interstate Commerce Act which provides that, "For the purposes of sections 5, 12 (1), 20, 204 (a) (7), 210, 220, 304 (b), 310, and 313 of this Act, where reference is made to control (in referring to a relationship between any person or persons and another person or persons), such reference shall be construed to include actual as well as legal control, whether maintained or exercised through or by reason of the method of or circumstances surrounding organization or operation, through or by common directors, officers, or stockholders, a voting trust or trusts, a holding or investment company or

companies, or through or by any other direct or indirect means; and to include the power to exercise control.

(b) Right to foreclose a first lien upon all or a major part in value of the tangible property of the controlled corporation;

(c) Right to secure control in consequence of advances made for construction of the operating property of the controlled corporation;

(d) Right to control only in a specific respect the action of the controlled corporation.

7. Indirect control is that exercised through an intermediary. When an intermediary is a holding company or any other corporation (or an individual) not making an annual report to the Commission, the names of all its controlled corporations should be entered with the name of such intermediary. For corporations indirectly controlled, the entries in schedule 104B, columns (b), (c), (d), and (e) should show the relationship between the corporation named in column (a) and that named in column (f). If an intermediary files an annual report with the Commission, its controlled corporations need not be listed on this page.

8. Corporations should be grouped in the following order:

1. Transportation companies—active.
2. Transportation companies—inactive.
3. Nontransportation companies—active.
4. Nontransportation companies—inactive.

9. An *inactive corporation* is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises. All other corporations are to be regarded as *active*.

# GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218

1. Schedules 217 and 218 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments including obligations of the United States, of a State or local government, or of an individual, so held; investments made, disposed of, or written down during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing account No. 130, "Investments in affiliated companies," in the Uniform System of Accounts.

2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 130, "Investments in affiliated companies," and 131, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other special funds" include the par value of securities recorded in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; and 124, "Other special funds."

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

(A) Stocks:

- (1) Carriers—active.
- (2) Carriers—inactive.
- (3) Noncarriers—active.
- (4) Noncarriers—inactive.

(B) Bonds (including U. S. Government Bonds):

(C) Other secured obligations:

(D) Unsecured notes:

(E) Investment advances:

4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

<i>Symbol</i>	<i>Kind of industry</i>
I	Agriculture, forestry, and fisheries.
II	Mining.
III	Construction.
IV	Manufacturing.
V	Wholesale and retail trade.
VI	Finance, insurance, and real estate.
VII	Transportation, communications, and other public utilities.
VIII	Services.
IX	Government.
X	All other.

6. By carriers, as the term is here used, is meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

7. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

8. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

## 217. INVESTMENTS IN AFFILIATED COMPANIES

Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; 124, "Other special funds"; and 130, "Investments in affiliated companies."

Entries in this schedule should be made in accordance with the definitions and general instructions given on page 211, classifying the investments by means of letters, figures, and symbols in columns (a), (b) and (c).

Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise

encumbered, giving names and other important particulars of such obligations in footnotes.

Give totals for each class and for each subclass, and a grand total for each account.

Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19..... to 19....." In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

217. INVESTMENTS IN AFFILIATED COMPANIES—Concluded

If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.

For nonpar stock, show the number of shares in lieu of the par value in columns (f), (g), (h), (i), (k), and (m).

In reporting advances, columns (f), (g), (h), (i), (k), and (m) should be left blank. If any advances are pledged, give particulars in a footnote. Particulars of investments made, disposed of, or written down during

the year should be given in columns (k) to (o), inclusive. If the cost of any investment made during the year differs from the book value reported in column (l), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments was other than cash, describe the transaction in a footnote. Identify all entries in column (n), which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

This schedule should not include securities issued or assumed by respondent.

## 286. ACQUISITION ADJUSTMENT

Give particulars of all changes included in account No. 151, "Acquisition adjustment," during the year and citation of the Interstate Commerce Commission's authority therefor.

In column (b) show the account number to which the entries in column (c) were credited and the account number to which the entries in column (d) were charged. If more than one contra account is involved in an

item, the amount applicable to each account and total for the item should be shown.

Items amounting to less than \$50,000 for class A carriers by water or less than \$5,000 for class B carriers by water may be combined in a single entry designated "Minor items, ..... in number each less than \$50,000 or \$5,000," as may be appropriate to the class of carrier.

## 287. INVESTMENTS IN NONCARRIER PHYSICAL PROPERTY

Give particulars of all investments of the respondent in physical property other than its waterway lines and other than property used in auxiliary (or "outside") operations collateral to its waterway operations. This schedule should include all such direct investments in physical property as are includible in account No. 160, "Noncarrier physical property," in the Uniform System of Accounts. The description of the property in column (a) should give the location and other identification of it with a reasonable degree of particularity.

Each item amounting to \$5,000 or more should be stated, items less than \$5,000 may be combined in a single entry designated "Minor items, each less than \$5,000."

If any of the property herein provided for was acquired in consideration of stocks, or of bonds or other evidences of debt, or in exchange for other property, enter in column (c) only the actual cash or money paid, and in a note attached to this sheet describe fully the consideration actually given.

In column (e) give an analysis of the amounts included (in respect of the properties in this schedule) in the item shown on the Balance Sheet as of the close of the year against account No. 161, "Depreciation reserve—Noncarrier physical property."

If any property of the character provided for in this schedule, amounting to \$50,000 or more, was disposed of during the year, give particulars in a footnote.

3. For creditors whose balances were severally less than \$5,000, a

single entry may be made under a caption "Minor accounts, each less than \$5,000."

Entries in this schedule should be confined to those includible in accounts Nos. 211, "Funded debt unmatured," and 212, "Receivers' and trustees' securities."

2. In column (a) show the name of each bond or other obligation as it is designated in the records of the respondent, classifying each obligation under the appropriate following subheadings as they are defined in the Uniform System of Accounts:

1. Mortgage Bonds
2. Collateral Trust Bonds
3. Income Bonds

4. Miscellaneous Obligations Maturing More Than One Year After Date of Issue

5. Receipts Outstanding for Funded Debt\*

6. Equipment Obligations (details on p. 228)

7. Receivers' and Trustees' Securities

Show a total for each subheading.

3. In case obligations of the same designation mature serially or otherwise at various dates, enter in column (c) the latest date of maturity and explain the matter in a footnote.

4. Column (d) calls for the par value of the amount of debt authorized to be incurred, as determined by the final authority whose assent is necessary to the legal validity of the issue. In case such final authority is some public officer or board, attach a footnote showing such officer or

board and the date when assent was given. In all cases where any issues, whether actual or merely nominal, were made during the year, state on page 229 the purposes for which such issues were authorized, as expressed in the resolution of the final authority passing on the matter.

5. Entries in column (e) should include funded debt nominally issued, nominally outstanding, and actually outstanding.

6. Entries in columns (f), (g) and (h) should be appropriately foot-noted to show (1) Total par value nominally but not actually issued, and (2) Total par value reacquired after actual issue and held alive at close of year.

7. Entries should conform to the definitions of "nominally issued," "actually issued," etc., as given in the fifth paragraph of instructions on page 230.

8. If the items of interest accrued during the year as entered in columns (l) and (m) do not aggregate the total accrual for the year on any security, explain the discrepancy. Entries in these columns should include interest accrued on funded debt reacquired or retired during the year although no portion of the issue is actually outstanding at the close of the year.

9. In determining the entries for column (n), do not treat any interest as paid unless the liability of the respondent in respect to it is extinguished. Deposits of cash with banks and other fiscal agents for the payment of interest coupons should not be reported as payments of such interest until actually paid to coupon holders or others under such circumstances as to relieve the respondent from further liability. Interest falling due on January 1 is to be treated as matured on December 31.

## 263. EQUIPMENT OBLIGATIONS

Give the particulars of each series of unmatured obligations issued or assumed by the respondent and outstanding at the close of the year, the sole security for which is a first lien on equipment.

In column (a) show the name by which the obligation is designated on the respondent's records.

In column (c) show the number of years from the nominal date of issue to the date of maturity of the latest maturing obligation in the particular series.

If the payments required in the contract are unequal in amount or are to occur at unequal intervals, attach a reference mark to the entry in column (d) and show full particulars in a footnote.

In column (e) show classes and numbers of units, and other matters of identification.

If the obligations bear no interest prior to maturity, the entry in column (i) should show the rate applicable after maturity, and

reference should be made to a footnote explaining that no interest accrues on the obligation prior to date of maturity.

For definitions of "actually issued," "actually outstanding," etc., see the fifth paragraph of instructions on page 230.

If any equipment obligations were redeemed or retired during the year, particulars of them and of interest thereon should be given in a footnote.

# 265. FUNDED DEBT AND OTHER OBLIGATIONS (MATURED AND UNMATURED) CHANGES DURING THE YEAR

1. Give particulars of changes during the year in funded debt and other obligations included in accounts Nos. 211, "Funded debt unmatured," and 212, "Receivers' and trustees' securities." List entries under captions giving account numbers and titles and insert total for each account. In column (c) state whether issued for construction of new properties, for additions and betterments, for purchase of vessels, boats, or other property, for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. Also give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. In column (e) include as cash all money, checks, drafts, bills of exchange, and other commercial paper payable at par on demand.

For nominally issued securities, show returns in columns (a), (b), (c), and (d) only.

2. For each class of securities actually issued, the sum of the entries in columns (e), (f), and (h), plus discounts or less premiums in column (g), should equal the entry in column (d). For definition of expense, reportable in column (h), see Special Instruction No. 27, "Discount, expense, and premium on long-term debt," in the Classification of Balance Sheet Accounts.

3. Particulars concerning the reacquirement of securities that were actually outstanding should be given in columns (a), (i), and (j).

1. Give particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.

2. In the second section list particulars of the various issues on the same lines and in the same order as in the first section.

3. Identify the entries in columns (m) to (s), inclusive, in a manner which will indicate whether par value or the number of shares is shown.

4. In stating the date of an authorization the date of the latest assent or ratification necessary to its validity should be shown; e. g., in case an authorization is required to be ratified by stockholders after action by the board of directors, but is not required to be approved by any State or other governmental board or officer, give the date of approval by stockholders; if the assent of a State railroad commission or other public board or officer is necessary, give the date of such assent, or if subsequent to such assent notice has to be filed with a secretary of state or other

public officer and a tax or other fee has to be paid as a condition precedent to the validity of the issue, give the date of such payment. In case some condition precedent has to be complied with after the approval and ratification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith.

5. For the purposes of this report, capital stock and other securities are considered to be *nominally issued* when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be *actually issued* when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be *actually outstanding*. If reacquired by or for the respondent under such circumstances

as require them to be considered as held alive, and not canceled or retired, they are considered to be *nominally outstanding*.

6. Column (d) refers to the initial preference dividend payable before any common dividend; columns (k) and (l) to participations in excess of initial preference dividend; at a specified percentage or amount (nonpar stock) (column (k)) or a percentage or proportion of the profits (column (l)).

7. "Authenticated" as applied to column (n) of this schedule means the total par value of certificates of par value stock or total number of shares of nonpar stock that have been signed and sealed and placed with the proper officer of the carrier for sale or other disposition. The amount stated in this column is the sum total of the amounts stated as nominally issued and actually issued stock.

8. In column (v) show the actual consideration received for the stock whether in cash or other property.

Give full particulars of stocks actually or nominally issued (either original issues or reissues) and of stocks reacquired or canceled during the year.

In the second section of the schedule show the particulars of the several issues on the same lines and in the same order as in the first section.

In column (c) state whether issued for construction of new properties, for additions and betterments, for purchase of vessels, boats, or other property, for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. If an issue of securities was authorized for more than one purpose, state amount applicable to each purpose. Also

In column (e) include as cash all money, checks, drafts, bills of exchange, and other commercial paper payable at par on demand. For nominally issued stock, show returns in columns (a), (b), (c), and (d) only. For each class of par stock actually issued the sum of the entries in columns (e), (f), and (h), plus discounts or less premiums in column (g), should equal the entry in column (d).

Particulars concerning the reacquirement of stock that was actually outstanding should be given in columns (a), (i), and (j).

Also show amounts by which account 532 was decreased and net income correspondingly increased in the current year because of carryback and carryover of losses. In the event provision has been made in the accounts through appropriation of income or otherwise for the contingency of increase in future tax payments, the amount thereof for the year and the accounting performed should be shown. If the carrier has nothing to report insert the word "none."

# SCHEDULE 541. FREIGHT CARRIED DURING THE YEAR

## INSTRUCTIONS

Under the Commission's order of September 13, 1963, effective January 1, 1964, all carriers by water subject to the provisions of Parts I and III of the Interstate Commerce Act assigned to Classes A and B are required to classify commodities transported on the basis of commodity codes named in 49 C.F.R. 123.52, and make annual reports thereof. The reports shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D. C. 20423, by March 31 of the year following that for which the report is made.

Tonnage and revenue should be on a billed basis. Classify the commodities carried by the respondent in its water-line and motortruck operations and for the respondent in the vessels and motortrucks of other companies (carriers) under contract, in revenue service, the domestic revenues from which are includible in accounts No. 301, "Freight revenue" and 351, "Motor-Carrier revenue" in accordance with the order of this Commission dated September 31, 1963. Maritime carriers should classify commodities the revenues from which are includible in account No. 605, "Freight-Coastwise and Intercoastal". Separate the tonnage and revenue for each commodity code between "Joint rail and water traffic" and "All other traffic". The separation as to joint rail and water traffic and all other traffic may be omitted for commodity code 471, "Small packaged freight shipments".

Include under "Joint rail and water traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are being transported partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment such as traffic moving on joint rail-water and rail-motor-water rates.

Include under "All other traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are transported from point of origin to point of destination solely by water, solely by truck, partly by water and partly by truck, or by any other combination which does not involve the interchanging of traffic with a railroad company; also, shipments moving on water rates when the carrier by water absorbs out of its port-to-port rates certain charges for switching, terminal, drayage, or other services within a port terminal district.

"Passenger cars, assembled" is confined to vehicles carried as revenue freight on freight rates and does not include those carried as an adjunct to passenger business.

Fuel and stores carried on any vessel for the purpose of operating and maintaining it should not be included in this schedule.

Include under "Joint rail and water traffic" and "All other traffic", the revenues that are applicable to the tonnage.

"Gross freight revenue" means reporting carriers's gross revenue from freight without adjustment for absorption or corrections.

In the "Note" on page 500-K show the extent of joint motor-water traffic included in columns (c) and (f).

Commodity codes 01 through 462 shall include shipments weighing 10,000 pounds or more. Shipments of less than 10,000 pounds of one commodity shall be reported under commodity code 471, "Small packaged freight shipments" unless the reporting carrier elects to distribute all revenue freight among the other designated classes.

"Classify" means to assign an article of freight to its appropriate commodity class which may be a 3, 4, or 5-digit number. Always classify an article in the highest digit level possible. Use a 5-digit code if the article may be properly assigned to it. If there is no applicable 5-digit code, use a 4-digit code if available. If there is no applicable 4-digit code, then the article is classified at the 3-digit level.

For a 5-digit code, report the sum of all freight classified thereunder. For a 4-digit code, report the sum of all freight classified thereunder plus the sum of all 5-digit codes where the first four digits match. For a 3-digit code, report the sum of all 4-digit code numbers where the first three digits match, plus 5-digit code numbers where the first three digits match (provided they are not included in 4-digit codes), plus any articles classified at the 3-digit level. Generally the 3-digit codes are used as summaries. The 2-digit level is a summary of 3-digit codes where the first two digits match.

Commodities should not be classified direct to the codes with a "T" designation as these commodities are always classifiable at a higher digit level. Codes at the 2 and 3 digit level followed by a "T" always are totals of the related higher level codes shown on the report form; codes not so designated may include commodities classified directly thereunder and may not total.

"Piggyback traffic" is classified in the applicable commodity code if the commodity can be identified; where the commodity cannot be identified, classify in code 461 and summarize in code 46.

Codes 44 and 441, "Freight Forwarder Traffic" includes freight traffic shipped by or consigned to any forwarder holding a permit under Part IV of the Interstate Commerce Act.

"Shipper Association or Similar Traffic" Codes 45 and 451, include freight traffic shipped by a non-profit shipper association where the commodity cannot be identified; where the commodity can be identified, classify in the applicable commodity code.

REMARKS

## 542. FREIGHT AND PASSENGERS CARRIED DURING THE YEAR (DOMESTIC AND FOREIGN)

1. Give particulars called for hereunder with respect to domestic and foreign freight and passengers carried during the year. Tonnage and revenue should be on a billed basis.

2. The term "regulated" in column (c) refers to traffic transported by the respondent in service subject to the Interstate Commerce Act. (See instruction 9 of "Notice.")

3. The terms as herein used, (a) "Foreign traffic" means traffic transported by water between a United States port and a foreign port without transshipment at a United States port, and (b) "Domestic traffic" means traffic transported by water between two United States ports, including transshipped traffic contemplated by section 302 (1) and (3) of the Interstate Commerce Act.

## 561. EMPLOYEES, SERVICE AND COMPENSATION

1. Give particulars of persons employed by the respondent during the year (or during any portion thereof) in connection with its common and/or contract carrier operations, including incidental construction and auxiliary operations.

2. In classifying employees among the classes listed in column (a), where any individual is properly classifiable in two or more classes, assign him to that class in which the principal portion of his service was rendered at the time of the count. If any persons in the regular service of the respondent were serving without compensation, they should nevertheless be included in the returns in column (b) and the matter should be fully explained in a footnote.

3. In column (b) show, properly classified with respect to occupation, the average number of employees in the service of the respondent during the year for classes in service the year round, and during the period of navigation for classes in service only during that period. Under "Remarks" state the methods by which these averages are determined. The numbers shown in this

column should include only persons directly employed by the respondent; it should not include employees of a company or person with whom the respondent has contracts for certain classes of work, as, for example, stevedoring at a given port, etc.

4. In column (c) show the total number of hours worked (or held for work) by employees compensated on an hourly basis. This number should be accurately stated and should exclude time allowed for lunch hours, half holidays, holidays, vacations, sick leave, etc., even though full compensation or part compensation is allowed for such time. It should include all overtime actually spent in work for the respondent even though no additional compensation is paid for such work. If the duties of certain general officers, traveling agents, solicitors, and other classes of employees compensated on other than an hourly basis are of such a nature that it is impracticable to record accurately the number of hours during which they are on duty, such number may

be fairly estimated and the estimate number included in the return, in which case the basis for the estimate for each class is to be shown in a footnote.

5. In column (d) include the total compensation paid employees for the work represented in column (c). If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto.

6. If any person is employed by two or more carriers jointly, he should be reported in column

(b) by the carrier on whose payroll he is carried; if on the payrolls of more than one of the joint employers he should be reported by each carrier on whose payroll he was, and full particulars should be given in order to permit the elimination of duplications. If an officer serves two or more corporations and receives no salary from any of them he should be reported in column (b) only by the controlling or highest ranking of such corporations reporting to the Commission.

7. This return need not include any employees engaged solely on the construction of new property; if any such are included, that fact should be stated and particulars should be given in a footnote.

8. This schedule does not include old-age retirement, and unemployment insurance taxes. See schedule 350 for such taxes.

## 562. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

Give the name, position, salary, and other compensation, such as bonus, commission, gift, reward, or fee, of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year covered by this report as compensation for current or past service over and above necessary expenses incurred in discharge of duties, and in addition, all other officers, directors, pensioners, or employees, if any, to whom the respondent similarly paid \$20,000 or more. If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies. Any large "other compensation" should be explained

in a footnote. If salary of an individual was changed during the year, show salary before each change as well as at close of year. If an officer, director, etc., receives compensation from more than one transportation company (whether a subsidiary or not) or from a subsidiary company, reference to this fact should be made if his aggregate compensation amounts to \$20,000 or more and the detail as to division of the salary should be stated. By salary (column (c)) is meant the annual rate at which an employee is paid, rather than the amount actually paid for a part of a year when the salary is changed. Also, when a 10 percent (or other percent) reduction is made, the net rate and not the basic rate should be shown.

## 563. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES

In the form below give information concerning fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions allowance for expenses, or other amounts payable aggregating \$10,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in Schedule 562 in this annual report) for services or as a donation. In the case of contributions of under \$10,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespectively of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$10,000 or more.

To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solici-

tors, consultants, actuaries, investigators, inspectors, and efficiency engineers. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a water line, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

Information concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$1,000 per year, and which by its terms is otherwise unimportant.

The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

Instead of giving statements as above directed, the respondent may, if it so desires, furnish copies of the contracts, agreements, etc., in which case the titles thereof should be listed hereunder in the order above indicated.

## 592. IMPORTANT CHANGES DURING THE YEAR
