FOR THE YEAR ENDED DECEMBER 31, 1978

NOTICE

1. This form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C. 20423, by March 31 of the year following that for which the report is made. Attention is specially directed to the following provisions of Part I of the Interstate Commerce Act:

SEC. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, *** (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, *** specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, *** as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, *** in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission. ***

(7) (b). Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, *** or shall knowingly or willfully file with the Commission any false report or other document shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: ***

(7) (c). Any carrier, or lessor, *** or any officer, agent, employee, or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto. ***

(8) As used in this section *** the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier; and the term "lessor" means a person owning a railroad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor. ***

Each respondent is further required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders.

2. The instructions in this form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page _____, schedule (or line) number _____" should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, type-written or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the form. Inserted sheets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

6. Money items, except averages, throughout the annual report form should be shown in Whole dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the form are supplied.

8. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; and a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. (In making reports, lessor companies use Annual Report Form R-4).

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$50,000,000, or more. For this class, Annual Report Form R-1 is provided.

Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000. For this class, Annual Report Form R-2 is provided.

Class III companies are those having annual operating revenues of \$10,000,000 or less. For this class, Annual Report Form R-3 is provided.

In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the sum of the annual railway operating revenues, the joint facility rent income, and the returns to joint facility credit accounts in operating expenses, shall be used in determining its class.

9. Except where the context clearly indicates some other meaning, the following terms when used in this form have the meanings below stated:

Commission means the Interstate Commerce Commission. Respondent means each person or corporation in whose behalf the report is made. The year means the year ended December 31 for which the report is made. The close of the year means the close of business on December 31 of the year for which the report is made; or, in the case the report is made for a shorter period than one year, it means the close of the period covered by the report. The beginning of the year means the beginning of business on January 1 of the year for which the report is made; or, in the case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. The preceding year means the year ended December 31 of the year next preceding the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.

SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year. It should be understood that mention is not made of necessary substitutions of dates or, in general, such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

This form is revised to (1) improve the disclosure of information for both ratemaking and financial reporting purposes (2) eliminate unnecessary reporting and (3) conform with the new Uniform System of Accounts for Railroads, effective January 1, 1978. Other significant modifications include revisions to conform with reporting under generally accepted accounting principles and the rearrangement of schedules in a more orderly fashion to make them easier to complete and use.

Revisions to this report resulted from the following Commission's decisions copies of which were served on all railroads:

Docket	Title	Decision Date
36367	Revision to the Uniform System of Accounts for Railroads	6/13/77
36767	Accounting for Certain Government Transfers By Railroads and Motor Carriers of Passengers	6/30/78

ESTIMATE OF REPORTING BURDEN

In order to monitor carrier reporting burden and to satisfy GAO requirements pursuant to Section 409 of Public Law 93-153, it is requested that you voluntarily furnish your best estimate of the number of hours required to complete this report.

In making this estimate, please include the number of hours attributable to preparing the report and for any special compilations contained in this report that would not generally be maintained or used by management for purposes other than reporting to this Commission.

INSTRUCTIONS REGARDING THE USE OF THIS REPORT FORM

This annual report is arranged in columnar form so that it may include returns for a single lessor company, or for several lessor companies whose properties are leased to the same operating railway, provided that the books of account are under the general supervision of the same accounting officer.

Separate returns are required to be shown for each lessor, the name of the reporting company to be entered in the box heading or in the column on the left of the several schedules, as may be applicable.

If the report is made for a single company, the exact corporate name should appear on the cover, title page, page 2, and in the oath and supplemental oath.

A report made for a number of lessor companies may show an appropriate designation, such as "Lessors of the _____ Railroad Company" on the cover and title page, but the oath and supplemental oath must be completed for each corporation, except as provided therein.

Reports filed under the designation "Lessors of the _____ Railroad Company" should contain hereunder the names of the lessor companies that are included in this report, and the names of those that file separately.

STOCKHOLDERS REPORTS

1. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders.

Check appropriate box:

- ☐ Two copies are attached to this report.
- ☐ Two copies will be submitted _____ (date)
- ☒ No annual report to stockholders is prepared.

In completing the various schedules in this report form, list the information concerning the lessor companies in the order in which their names appear on the balance sheet. Such additional pages as may be necessary will be furnished by the Commission on request.

A. IDENTITY OF LESSOR COMPANIES INCLUDED IN THIS REPORT

Give hereunder the exact corporate name and other particulars called for concerning each lessor company included in this report. The corporate name should be given in full, exactly as it appears in the articles of incorporation, using the words "The" and "Company" only when they are parts of the corpo-

rate name. Be careful to distinguish between railroad and rail-way.

If receivers, trustee, or a committee of bondholders are in possession of the property of any of the lessor companies, state their names and the court of jurisdiction in column (a) and give the date when such receivership, trusteeship, or other posses-

sion began, in addition to the date of incorporation, in column (b).

If a consolidation or merger was effected during the year, particulars should be given in Schedule 705, "Changes during the year."

230. CAPITAL STOCK

18

Part I.

1. Disclose in column (a) the name of each lessor company in this report. Show separately the information required for each.

2. Disclose in column (b) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.

3. Present in column (c) the par or stated value of each issue. If none, state so.

4. Disclose in columns (d), (e), (f), and (g) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.

5. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale

and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

6. If stock is being held subject to an exchange for the outstanding securities of constituent companies, then include such stock as outstanding stock, and disclose the details in footnotes.

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A and 315

1. Schedules 310 and 315 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year. Specifically, the disclosures should include the investments in the obligations of Federal, state and local governments, and the obligation of individuals. Also, disclose the investments made, disposed of, and written down during the year, and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.

2. Enter the name of a reporting lessor company in the body of the schedule and give, thereunder, particulars of its investments before listing those of a second lessor. These names should be listed in the order in which they appear on the balance sheet.

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

- (A) Stocks:
 - (1) Carriers - active.
 - (2) Carriers - inactive.
 - (3) Noncarriers - active.
 - (4) Noncarriers - inactive.
- (B) Bonds (including U.S. Government Bonds):
- (C) Other secured obligations:
- (D) Unsecured notes:
- (E) Investment advances:

4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
I	Agriculture, forestry, and fisheries
II	Mining
III	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other

6. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

7. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

8. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

9. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.

10. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.

11. Do not include the value of securities issued or assumed by respondent.

12. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking funds"; 716, "Capital funds"; 721, "Investments advances in affiliated companies"; and 717, "Other funds."

2. Enter the name of a reporting lessor company in the body of the schedule and give thereunder particulars of its investments in affiliated companies before listing those of a second lessor. These names should be listed in the order in which they appear on the balance sheet.

3. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).

4. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

5. Give totals for each class and for each subclass and a grand total for each account.

6. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19__ to 19__." Abbreviations in common use in standard financial publications may be used to conserve space.

7. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in

315. SPECIAL FUNDS AND OTHER INVESTMENTS—Continued

(a), (b), and (c). Investment in U.S. Treasury obligations may be reported as one item. Items where original cost is less than \$500,000 may be combined as one item.

5. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

6. Give totals for each subclass and a grand total for each account.

7. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation matured serially, the date in column (d) may be reported as "Serially 19__ to 19__." In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

8. If any advances reported are pledged, give particulars in a footnote.

NOTES AND REMARKS

330. ROAD AND EQUIPMENT PROPERTY

1. Give particulars of changes during the year in accounts 711, "Road and equipment property," and 712, "Improvements on leased property," classified in accordance with the Uniform System of Accounts for Railroad Companies. Enter the names of the lesser companies in the column headings.

2. Gross charges during the year should include disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, extensions of old lines, and for additions and betterments. This column should also include both the debits and credits involved in each transfer, adjustment, or clearance between road and equipment accounts and all adjustments apply

ing to expenditures for new lines and extensions and additions and betterments. Adjustments in excess of \$100,000 should be explained. Net charges is the difference between gross charges and credits for property retired. All charges made during the year should be analyzed by primary accounts.

3. If during the year an individual charge of \$100,000 or more was made to account No. 1, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.

330. ROAD AND EQUIPMENT PROPERTY—Continued

4. If during the year property was acquired from some other company, state in a footnote the name of the company, the mileage acquired, and the date of acquisition, giving terms and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.

5. Notes referring to entries in this schedule should be shown on page 22.

6. Report on line 35 amounts not includable in the primary road accounts. The items reported

should be briefly identified and explained in a footnote on page 22. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

Show the ledger value of all equipment owned by each lessor company included in this report. The totals of columns (c) and (j) should correspond with the carrier's investment in equipment as carried in the accounts, as of the beginning and close of the

year, respectively. If the depreciation base is other than the ledger value a full explanation should be given, together with a statement by primary accounts reconciling the

difference between the figures used as the depreciation base and those carried in the ledger as investment in equipment.

Finance Docket No. 28496

DEC 30 1977

DES MOINES UNION RAILWAY COMPANY AND DES MOINES TERMINAL COMPANY--
EXCHANGE OF RAILWAY PROPERTIES--IN THE CITY OF DES MOINES,
IOWA

By an application filed June 28, 1977, as amended December 8, 1977, under section 5(2) of the Interstate Commerce Act, Des Moines Union Railway Company and Des Moines Terminal Company (applicants), both common carriers by railroad, seek authority to exchange certain properties within the city of Des Moines, Iowa, whereby Des Moines Union Railway Company (Railway) will convey to Des Moines Terminal Company (Terminal) 1.931 miles of right-of-way and railway facilities situated thereon, and Des Moines Terminal Company will convey to Des Moines Union Railway Company 2.497 miles of right-of-way and railway facilities situated thereon, the properties having been determined, by independent appraisal, to be of equal value. As a related matter, the applicants request approval of an operating agreement by which Railway will operate over Terminal and will pay \$1.20 per car to Terminal. This will be in lieu of the present arrangement calling for a \$12,000 minimum payment or \$18,000 maximum payment per year. A protest to said application was filed by Railway Labor Executives' Association on the ground that the application, if approved, may have an adverse effect on railway employees.

The transaction will involve merely an exchange of properties of equal value, with no further consideration. The operating agreement is merely to modify the existing arrangement between the parties to reflect changes in property and rental. The Board finds, that a hearing is not necessary in the public interest; that the interests of railway employees will be protected by the imposition of appropriate conditions; that no other railroad has requested to be included in the transaction; that the transaction will not result in the guarantee or assumption of the payment of dividends or fixed charges and that no increase in fixed charges will result; that the transaction is within the scope of section 5(2); that the terms of the agreements between the parties, submitted as part of the application, are just and reasonable; that the transaction will permit a more efficient operation of the properties in the interest of the general shipping public due to the change in circumstances and style of warehousing; that the transaction otherwise will be consistent with the public interest; and that the decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

It is ordered, That, (1) subject to the same conditions for the protection of employees as those enunciated in Oregon Short Line R. Co.--Abandonment--Goshen, 354 I.C.C. 76 (1977), the exchange of rail properties between the applicants, as described above, and operation by Des Moines Terminal Union Railway Company over Des Moines Terminal Company is approved and authorized;

(2) this order shall take effect on the date of service hereof; and (3) unless the transaction herein authorized is consummate within one year from the effective date hereof, this order shall be of no further force and effect; (4) within 15 days after consummation, Des Moines Union Railway Company and Des Moines Terminal Company shall give the Commission written notice of the date the properties were exchanged and within 60 days after consummation these applicants shall submit to the Commission the journal entries required to record the transaction; (5) within 15 days after Des Moines Union Railway Company begins to operate over the property of Des Moines Terminal Company pursuant to the authority granted in this proceeding, Des Moines Union Railway Company shall give the Commission written notice of the date these new operations commenced; (6) if Des Moines Union Railway Company establishes rates and charges applicable to the line which it will operate over, or if either railroad makes changes in its tariffs because of the property exchange, that railroad shall refer to this order by the docket number and date of decision; & (7) the terms and conditions approved by this order shall not be modified without prior approval of this Commission.

Decided December 9, 1977.

By the Commission, Review Board Number 5, Members Krock, Pohost, and Taylor (Board Member Pohost did not participate).

H. G. HOMME, JR.
Acting Secretary.

(SEAL)

NOTE: The strict time constraints imposed by the Railroad Revitalization and Regulatory Reform Act of 1976 make it necessary to expedite all proceedings concerning common carriers by railroad. Accordingly, requests for extensions or postponements of due dates for filing an appeal will be scrutinized closely and will be granted only upon a showing of extraordinary circumstances. Any appeal must be filed within 20 days after service of this order or within such further period (not to exceed 20 days) as may be authorized.

360A. ABSTRACT OF TERMS AND CONDITIONS OF LEASES

Give brief abstracts of the terms and conditions of the leases under which the above stated rents are derived, showing particularly (1) the name of lessor, (2) the name of lessee, (3) the date of the grant, (4) the chain of title (in case of assignment or subletting) and dates of transfer connecting the original parties with the

present parties, (5) the basis on which the amount of the annual rent is determined, and (6) the date when the lease will terminate, or, if the date of termination has not yet been fixed, the provisions governing the termination of the lease. Also give reference to the Commission's authority for the lease, if any. If none, state

the reasons therefor.

Copies of leases may be filed in lieu of abstracts above called for. References to copies filed in prior years should be specific.

NOTE.—Only changes during the year are required.—Indicate the year in which reference was made to the original lease, and also the years in which any changes in lease were mentioned.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE F 380

Give particulars of the various issues of securities in accounts Nos. 765, "Funded debt unmatured," 768, "Debt in default," 767, "Receivers' and Trustees' securities," 766, "Equipment obligations," and 764 "Equipment obligations and other debt due within 1 year," at the close of the year, together with interest accrued and interest paid during the year and total amount of matured interest in default. Include receipts outstanding for funded debt with their respective issues.

In column (a) enter the name of a reporting lessor company and give, thereunder, the name of each of its bonds or other obligations before listing those of a second lessor. The names of the lessors should be listed in the order in which they appear on the balance sheet. Classify the funded debt and securities of each lessor by accounts and according to the following designations in the numerical order given:

- (1) Mortgage bonds:
 - (a) With fixed interest
 - (b) With contingent interest
- (2) Collateral trust bonds:
 - (a) With fixed interest
 - (b) With contingent interest
- (3) Unsecured bonds (Debentures):
 - (a) With fixed interest
 - (b) With contingent interest
- (4) Equipment obligations (Corporation):
 - (a) Equipment securities
 - (b) Conditional or deferred payment contracts
- (5) Miscellaneous obligations
- (6) Receivers' and trustees' securities:
 - (a) Equipment obligations
 - (b) Other than equipment obligations
- (7) Short-term notes in default

Give totals for each group and subgroup of bonds or other obligations. Columns (f), (g), (h), (i), and (j) are intended further to classify the obligations of the company and are to be answered "Yes" or "No."

If an issue is a serial issue, the last date of maturity should be shown in column (c) preceded by the letter "S." If the payments required in the contracts for equipment obligations are unequal in amount (except for the last payment) or are to be made at irregular intervals, show a symbol against the entry made in column (c) opposite the name of such obligation and give particulars in a footnote.

If the issue is an income bond, the entry in column (d) should be the annual maximum rate of interest specified by the indenture. In column (k) show the approximate number of miles of road on which the mortgage is a direct first lien and in column (l) the approximate number of miles of road on which the mortgage is a direct junior lien. Do not consider any road or other property indirectly subject to either a first or junior lien through the pledge of collateral, leaseholds, or other contractual rights in making the returns required in columns (i), (j), (k), and (l).

In column (n) enter the amount of bonds both nominally and actually issued up to the date of the report and not the amount authorized.

Matured obligations amounting to less than \$50,000 which have not been presented for payment may be combined into a single entry designated "Minor items of matured obligations, each less than \$50,000," and the total of such items shown in a footnote.

No entries shall be made in this schedule with respect to issues of matured obligations nominally issued or nominally outstanding when no parts of such issues are actually outstanding.

For definitions of "nominally issued," "nominally outstanding," "actually issued," and "actually outstanding," see Schedule 230.

Entries in columns (v) and (w) should include interest accrued on funded debt reacquired, matured during the year, even though no portion of the issue is outstanding at the close of the year.

In column (y) enter the total in account No. 781, "Interest in default," at the close of the year.

In schedule 380, give particulars of changes during the year in funded debt and other obligations, following the same order in which they appear in the prior pages of this schedule.

In column (z) state whether issued for construction of new properties, for additions and betterments, for purchase of railroad or other property for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. Also give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. For nominally issued securities, show returns in columns (z) and (aa) only.

For each class of securities actually issued, the sum of the entries in columns (bb) and (cc), plus discounts or less premiums, such discounts or premiums to be shown in a footnote applicable to each issue, should equal the entry in column (aa). For definition of expense, reportable in column (cc), see Definition 10 in the Uniform System of Accounts for Railroad Companies.

Particulars concerning the reacquisition of securities that were actually outstanding should be reported in columns (a), (dd), and (ee).

Include those securities that have been called for payment during the year for which liability has been transferred to account No. 763, "Other current liabilities."

C. Analysis of Federal Income Taxes

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year total of accounts 714, 744, 762 and 786 applicable to each particular item in column (a).

3. Indicate in column (c) the net change in accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5. The total of line 10 in columns (c) and (d) should agree with the total of the contra charges (credits) to account 55, Provision for deferred taxes, and account 591, Provision for deferred taxes - extraordinary and prior period items, for the current year.

6. Indicate in column (e) the cumulative total of columns (b), (c), and (d). The total of column (e) must agree with the total of accounts 714, 744, 762 and 786.

470. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate to \$50,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:

(a) Payments to employees of the respondent shall be reported in Schedule 900.

(b) Payments for services rendered by affiliates.

(c) Payments for accounting and audit fees must be reported in full regardless of the \$50,000 limitation. These fees must not be included with management fees paid to parent companies.

2. The aggregate of payments to be reported in column (c) shall include amounts paid and/or accrued during the year which are applicable to the year.

3. When contributions under \$50,000 are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$100,000 or more.

4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax advice. All carriers, whether payments aggregate more or less than \$50,000, shall answer the following question:

Did the independent accountant reporting on the respondent's annual report provide any management services other than auditing?

Specify, Yes ☐ No ☒ X

5. To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation,

accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

6. To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$50,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.

7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. When the respondent is reporting on a system basis, audit fees must be reported separately for each individual railroad included in the system.

8. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

700. TRACKS OWNED AT CLOSE OF YEAR
(For lessors to other than switching and terminal companies)

Give particulars of the mileage owned by each lessor company included in this report. If a company of this class controls any mileage by lease, and, in turn, subleases such mileage to another company, give particulars in a footnote. In giving "Miles of road", column (c), state the actual single-track distance between termini.
The classes of tracks are defined as follows:

Running tracks.—Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.
Way switching tracks.—Station, team, industry, and other switching tracks for which no separate switching service is maintained.
Yard switching tracks.—Yards where separate switching service is maintained, including classification, house, team, industry, and other

tracks switched by yard locomotives.

In the lower table, classify the mileage of road owned at close of year by States and Territories. The figures should apply to single-track mileage only. Enter names of States or Territories in the column headings. Lengths should be stated to the nearest WHOLE mile adjusted to accord with footings, i.e. counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

705. CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest hundredth of a mile.

- All increases and decreases in mileage, classifying the changes in the tables below as follows:
(Class 1) Line owned by respondent.
(Class 2) Line owned by proprietary companies.

- For changes in miles of road, give dates of beginning or abandonment of operation. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket number or otherwise as may be appropriate.
- All consolidations, mergers, and reorganizations effected, giving particulars.
This statement should show the mileage, equipment, and cash value

of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

- Adjustments in the book value of securities owned, and reasons therefor.
- Other financial changes of more than \$50,000, not elsewhere provided for, giving full particulars.

The item "miles of road constructed" is intended to show the mileage of first main track laid to extend respondent's road, and should not include tracks relocated and tracks laid to shorten the

distance between two points, without serving any new territory. By "road abandoned" is meant permanently abandoned, the

cost of which has been or is to be written out of the investment accounts.

Schedule 850.—COMPETITIVE BIDDING — CLAYTON ANTITRUST ACT

Section 10 of the Clayton Antitrust Act (15 U.S.C. 20) states that "no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, in any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, firm, partnership or association, unless and except such purchases shall be made from, or such

dealings shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission." The specification for competitive bids is found in the Code of Federal Regulations, Part 1010-Competitive Bids through Part 1010.7 Carriers Subject to the Interstate Commerce Act.

In column (g), identify the company awarded the bid by including company name and address, name and title of respondent officer, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.

900. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

Give the name, position, salary, and other compensation, such as bonus, commission, gift, reward, or fee, of each officer, director, pensioner, or employee to whom the lessor companies included in this report paid \$50,000 or more during the year as compensation for current or past services over and above necessary expense incurred in discharge of their duties.

If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road of the system with a reference thereto in this report. Any large "Other compensation" should be explained.

902. EMPLOYEES AND COMPENSATION

1. Give the average number of employees in the service of the lessor companies included in this report and the total compensation paid to them. General officers who served without compensation or were carried on the payrolls of another company, and pensioners rendering no service, are not to be included.

2. Averages called for in columns (b), (c), and (d) should be the average of 12 middle-of-month counts.

3. This schedule does not include old-age retirement, and unemployment insurance taxes. See schedule 450 for such taxes.
