Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 1990

NOTICE

- 1 This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission. Bureau of accounts, Washington, D.C 20423, by March 31 of the year following that for which the report is made. One copy should be retained in respondent's files. Attention is specially directed to the following provisions of Part 1 of the Interstate Commerce Act
 - (49) U.S.C. 11145, Reports by carriers, lessors, and associations
 - (a) The Interstate Commerce Commission may require—
- (1) carriers, brokers, lessors, and associations, or classes of them as the Commission may prescribe, to file annual, periodic, and special reports with the Commission containing answers to questions asked by it, and
- (2) a person furnishing cars or protective services against heat or cold to a rail or express carrier providing transportation subject to this subtitle, to file reports with the Commission containing answers to questions about those cars or services.
- (b)(1) An annual report shall contain an account, in as much detail as the Commission may require, of the affairs of the earner, broker, lessor, or association for the 12-month period ending on the 31st day of December of each year. However, when an annual report is made by a motor carrier, a broker, or a lessor or an association maintained by or interested in one of them, the perion making the report may elect to make it for the 13-month period accounting year ending at the close of one of the last 7 days of each calendar year if the books of the perion making the report are kept by that perion on the basis of that accounting year.
- (2) An annual report shall be filed with the Commission by the end of the 3rd month after the end of the year for which the report is made unless the Commission extends the filing date or changes the period covered by the report. The annual report and, if the Commission requires, any other report made under this section, shall be made under oath.
- (c) The Commission shall streamline and simplify, to the maximum extent practicable, the reporting requirements applicable under this subchapter to motor common carriers of property with respect to transportation provided under certificates to which the provisions of section 10922(b)(4)(E) of this title apply and to motor contract carriers of property with respect to transportation provided under permits to which the provisions of section 10923(b)(5) of this title apply. Pub L. 95-473, Oct. 17, 1978, 92 Stat. 1427; Pub. L. 96-296. § 5(b), July 1, 1980. 94 Stat. 796.
- (49) U.S.C. 11901. (g) A person required to make a report to the Commission, answer a question, or make, prepare, or preserve a record under this subtitle concerning transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title, or an officer, agent, or employee of that person that (1) does not make the report does not specifically, completely, and truthfully answer the question, (3) does not make, prepare, or preserve the record in the form and manner prescribed by the Commission, or (4) does not comply with section 10921 of this title, is liable to the United States Government for a civil penalty of not more than \$500 for each violation and for not more than \$250 for each additional day the violation continues. After the date of enactment of this sentence, no penalties shall be imposed under this subsection for a violation relating to the transportation of household goods. Any such penalties that were imposed prior to such date of sentences shall be collected only in accordance with the provisions of subsection (h) of this section.

The term "carner" means a common carrier subject to this part, and includes a receiver or trustee of such carner, and the term "lessor" means a person owning a railroad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor, * * *

The respondent is further required to send to the Bureau of Accounts immediately upon preparation, two copies of its latest annual report to stockholders. See schedule B, page 2.

2 The instructions in this Form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries If any inquiry, based on a preceding inquiry in the present report form is, because

- 3 Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.
- 4. If it be necessary or desirable to unsert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the Form. Inserted theets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.
- 5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parenthesis
- 6. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.
- 7 Railroad corporations, mainly distinguished as operating companies and leasor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; a lessor company, the property of which being lessed to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts.

Operating compenses are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$50,000,000 or more For this class, Annual Report Form R-1 is provided.

Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000.

Class III companies are those having annual operating revenues of \$10,000,000 or less.

All switching and terminal companies will be designated class III railroads.

8. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings stated below:

Commission means the Interstate Commerce Commission. Respondent means the person or corporation in whose behalf the report is made. Your means the year ended December 31 for which the report is made: The Close of the Year means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. The Beginning of the Year means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. The Proceeding Year means the year ended December 31 of the year next preceding the year for which the report is made. The Uniform System of Accounts for Raikroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.

ellations, arbitrary entire answers to at form is, because	year ended December 31 of the year next preceding the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.

SPECIAL NOTICE

Docket No. 38559 Railroad Classification Index, served January 20, 1983, modified the reporting requirements for class. II. III and all Switching and
terminal companies. These carriers will notify the Commission only if the calculation results in a different revenue level then its current classification.

The dark border on the schedules represents data that are captured for processing by the Commission

It is estimated that an average of 800 burden hours per response are required to complete this collection of information. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be directed to the Section of Administrative Services, Interstate Commerce Commission and the Office of Information and Regulatory Affairs, Office of Management and Budget.

A. SCHEDULES OMITTED BY RESPONDENT

- The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not applicable.
 Show below the pages excluded and indicate the schedule number and title in the space provided below.

B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 on this page have taken place during the year covered by this report, they should be explained in full detail.

- I Give in full the exact name of the respondent. Use the words "The and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision. If the report is for a consolidated group, pursuant to Special Permission from the Commission, Accounting and Valuation Board, indicate such fact on line. I below and list the consolidated group on page 4.
- If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organizations; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date which such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.
- 3. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact name of common carrier making this report Florida East Coast Railway Company
2. Date of incorporation May 28, 1892
3. Under laws of what Government, State, or-Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates
of beginning of receivership or trusteeship and of appointment of receivers or trustees
Florida East Coast Railway Company was organized under the general
corporation laws of the State of Florida and was reorganized as of 12:01 a.m., January 1, 1961, under the original charter.
12:01 a.m., January 1, 1901, under the original charter.
4 If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give
full particularsNONE
·
STOCKHOLDERS REPORTS
5. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stock-holders.

NOTES AND REMARKS

200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES (Dollars in Thousands)

The notes listed below are provided to disclose supplementary information on matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none", and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

Amount (estimated, if necessary) of net income of retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts									
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made									
3. (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year N/A									
(b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund									
(c) is any part of pension plan funded? Specify. Yes No									
(i) If funding is by insurance, give name of insuring company									
If funding is by trust agreement, list trustee(s)									
Date of trust agreement or latest amendment									
If respondent is affiliated in any way with the trustee(s), explain affiliation:									
(d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement									
(e) (i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify. Yes No									
If yes, give number of the shares for each class of stock or other security									
(ii) Are voting rights attached to any securities held by the pension plan? Specify. Yes No If yes, who determines how stock is voted?									
4. State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610). Yes No _X									
5. (a) The amount of employers contribution to employee stock ownership plans for the current year was \$									
6. In reference to Docket No. 37465 specify the total amount of business entertainment expenditures charged to the non-operating expense account. S None

240. STATEMENT OF CASH FLOWS

(Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers as cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If direct method is used complete lines 1-41: indirect method complete lines 10-41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller: obtaining an asset by entering into a capital lease; and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash; only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of

SCHEDULE 250 - PART 8

Determination of Monrail Taxes

tale is designed to facilitate the calculation of taxes that are <u>not</u> rail-related, the amount to be reported on Schedula 250, Line

DETERMINE TAXES ON MONRATUROAD INCOME FOR ALL COMBINED/CONSOLIDATED RATUROADS (EXCLUDES ALL RATU-RELATED AFFILIATES)

Determine Combined/Consolidated Adjusted income from continuing operations (before taxes) for all affiliated income from continuing operations (before taxes) for all affiliated incomes for all classes). Do not include rail-related affiliates that are not railroads in this part. This represents include consolidated amounts for all items listed below for all railroads in the reporting entity.

Income from continuing operations (before taxes) should be the equivalent of the numbers contained in the R-1 Schedule 210, Line 46 adjusted to include all railroads in the reporting entity	45,975
Equity in undistributed earnings, which represents the total of Schedule 210. Line 26 for all railroads in the reporting entity.	-0-
Pividends in affiliated companies. (if the affiliate is 80% or more controlled by the parent railroad, then deduct 100% of the affiliate's dividend. If the affiliate is 'ess than 80% controlled by the parent railroad, then deduct 80% of the affiliate's dividend)	
Adjusted income from continuing operations (before taxes). This represents "A" in item (3) below	. 45 <u>. 975 </u>
Faine Combined/Consolidated Adjusted Pre-tax MSCI for all railroads in the reporting entity ined/Consolidated Pre-tax MSOI for the entire entity, which equals the amount shown on Schedule 250. Line 1	5,787
**Current Provision for taxes, which represents the consolidated amounts of Schedule 210. Line 51 for call railroads in the reporting entity, within figure includes both Account 555. Income Taxes on Orbinary lineage and Account 557, Provision for Deferred Taxes	15,879
Interest income on working capital allowance. Which represents the total consolidated interest income relative to the working capital component of the net investment base and should equal the amount shown in Schedule 250. Line 2 for all railroads in the reporting entity	706
Release of oreminas on funded debt, which represents the consolidated total of release of premium on funded debt as shown on Schedule 210. Line 22 for all railroads in the reporting entity	-0-
local fixed charges, which represents the consolidated total of fixed charges as shown on Schedule 210. Line 42 for all railroads in the reporting entity	241
Railroad-related income from affiliates other than railroads) which was included in consolidated SROI [Schedule 250, Line 1)	366
Combined/Consolidated Pro-Tax Adjusted 1901 for all railroads. This represents "3" in Item (3) below	21,765
Date the railroad-related tax ratio : "8/A"	47.34%
wite_the nonrailroad-related complement: (1 - 3)) road-related income ratio) which equals the railroad-related tay ratio.	52.66%

FEC YEAR 1990

Compute the nonrailroad portion of the total provisions for taxes. This equals:

The Honrailroad-related tax ratio (Item (4) above) times the total current income taxes accrued on ordinary income (Account 556) which represents the consolidated amounts of Schedule 210. Lines 47, 48, and 49 for all railroads in the reporting entity	6,530
Any non-rail cortion of deferred taxes (Account 557) which may exist for all railroads in the reporting	1,939
Equals Total income taxes on nonrailroad income for all railroads in the reporting entity	8,469_
CIL-DETERMINE NONRAILROAD-RELATED TAXES FOR RAIL-RELATED AFFILIATES (EXCLUDES ALL AFFILIATED RAILROADS)	
This is calculated by dividing the nonrailroad-related income for combined rail-related affiliates by the total taxes for all combined rail-related affiliates and multiplying this result by the total taxes (current issue deferred). This equals the taxes on nonrailroad income for all affiliated companies	137
TILE DETERMINE TOTAL MONRAILEGAD-RELATED TAXES	
Limisais determined as follows:	
Total income takes on monrailroad-related income for all railroads in the reporting entity (Item 5 above)	8,469
Total Nonrailroad-related taxes for rail-related affiliates (Item 6 above)	137
Equals Total nonrailroad-related taxes (This amount should be transferred to Schedule 250. Part A. Line 3)	8,606

SCHEDULE 250 - PART 8

Determination of Monrail Taxes

This table is designed to facilitate the calculation of taxes that are <u>not</u> rail-related, the amount to be reported on Schedule 250. Line 3.

Part I - DETERMINE TAXES ON MONRAILROAD INCOME FOR ALL COMBINED/CONSOLIDATED RAILROADS (EXCLUDES ALL RAIL-RELATED AFFILIATES)

(1) Determine Combined/Consolidated Adjusted income from continuing operations (before taxes) for all affiliated railroads (all classes). Do <u>not</u> include rail-related affiliates that are not railroads in this part. This represents the total combined /consolidated amounts for all items listed below for all railroads in the reporting entity.

	Income from continuing operations (before taxes) should be the equivalent of the numbers contained in the R-1 Schedule 210, Line 46 adjusted to include all railroads in the reporting entity	45,975
	- Equity in undistributed earnings, which represents the total of Schedule 210. Line 26 for all railroads in the reporting entity	-0-
	- Dividends in affiliated companies. (If the affiliate is 80% or more controlled by the parent railroad, then deduct 100% of the affiliate's dividend. If the affiliate is less than 80% controlled by the parent railroad, then deduct 80% of the affiliate's dividend)	
	= Adjusted income from continuing operations (before taxes). This represents "A" in item (3) below	45 <u>.975</u>
(2)	Determine Combined/Consolidated Adjusted Pre-tax NSSI for all railroads in the reporting entity Combined/Consolidated Pre-tax NSOI for the entire entity, which equals the amount shown on Schedule 250. Line 1	5,787
	* Current Provision for taxes, which represents the consolidated amounts of Schedule 210. Line 51 for all railroads in the reporting entity. (1913 figure includes both Account 555, Income Taxes on Ordinary Income and Account 557, Provision for Deferred Taxes	15,879
	* Interest income on working capital allowance, which represents the total consolidated interest income relative to the working capital component of the net investment base and should equal the amount shown in Schedule 250. Line 2 for all railroads in the reporting entity	706
	. • Release of oremines on funded debt. which represents the consolidated total of release of premium on funded debt as shown on Schedule 210. Line 22 for all railroads in the reporting entity	-0-
	- Total fixed charges, which represents the consolidated total of fixed charges as shown on Schedule 210. Line 42 for all railroads in the reporting entity	241
	- Railroad-related income from affiliates Tother than railroads) which was included in consolidated NROI (Schedule 250. Line 1)	366
	= Combined/Consolidated Pre-Tax Adiusted VROI for all railroads. This represents "3" in Item (3) below	21,765
(3)	Calculate the railroad-related tax ratio : "B/A"	47.34%
(41	Compute the nonrailroad-related complement: (1 - Paulroad-related income ratio) which equals the	52.66%
	Monrailroad-related tay ratio	

FEC YEAR 1990

(5) Compute	the nonrailroad portion of the total provisions for taxes. This equals:	
	The Nonrailroad-related tax ratio (Item (4) above) times the total current income taxes accrued on ordinary income (Account 556) which represents the consolidated amounts of Schedule 210. Lines 47, 48, and 49 for all railroads in the reporting entity	6,530
	• Any non-rail cortion of deferred taxes (Account 557) which may exist for all railroads in the reporting entity	1,939
	Equals Total income taxes on nonrailroad income for all railroads in the reporting entity	8,469
(6) This is ore-tax net	RMINE NONRAILROAD-RELATED TAXES FOR RAIL-RELATED AFFILIATES (EXCLUDES ALL AFFILIATED RAILROADS) calculated by dividing the nonrailroad-related income for combined rail-related affiliates by the total income for all combined rail-related affiliates and multiplying this result by the total taxes (current us deferred). This equals the taxes on nonrailroad income for all affiliated companies	137
	ETERMINE TOTAL NONRAILROAD-RELATED TAXES	
(/) ints is	determined as follows:	8 460
	Total income takes on monrailroad-related income for all railroads in the reporting entity (Item 5 above)—	8,469
	+ Total Nonrailroad-related taxes for rail-related affiliates (Item 6 above)	137
	Equals Total nonrailroad-related taxes (This amount should be transferred to Schedule 250. Part A. Line 2) =	8,606

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

- 1. Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments and advances; affiliated companies," in the Uniform System of Accounts for Railroad Companies.
 - 2. Last the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
 - (A) Stocks
 - (1) Carriers-active
 - (2) Carners-inactive
 - (3) Noncarners-active
 - (4) Noncamers-mactive
 - (B) Bonds (including U.S. Government Bonds)
 - (C) Other secured obligations
 - (D) Unsecured notes
 - (E) Investment advances
 - 3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).
- 4 The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
t	Agriculture, forestry, and fishenes
n	Mining
Ш	Construction
(V	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
ΙX	Government
X	All other

- 5 By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parior cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
 - 8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.
 - 9 Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
 - 10. Do not include the value of securities issued or assumed by respondent.
- 11 For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

- respondent, included in accounts Nos. 715, "Sinking Funds"; 716, "Capital Funds"; 721, "Investments and Advances Affiliated Companies"; and 717, "Other Funds." 1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 18, classifying the investments by means of letters, figures, and symbols is columns (a), (b), and (c).
- 3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.
- 4. Give totals for each class and for each subclass and a grand total for each account.

 5. Entries in column (d) should show date of manurity of bonds and other evidences of indebtodness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19____" to 19____" Abbreviations in common use in standard financial publications may

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property," and Account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.
- 2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies for such items.
- 3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
- 4. In column (c) and (e) should be included all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
 - 5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.
- 6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 7. If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes," state in a footnote the cost, location, area, and other details which will identify the property.
- 8. Report on line 29 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

changes to the printed stub or column headings without specific authority from the Commission. 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving location and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear. 10. If an amount of less than \$2,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

332. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS (Dollars in Thousands)

1 Show in columns (b) and (e), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for and equipment accounts, respectively, ascertained by applying the primary account composite rates or the depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefore are included in the rent for equipment Accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-23-00, 36-23-00, and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such

3. Show in columns (e), (f), and (g) data applicable to Lessor property, when the rest therefore is included in Account Nos. 31-11-00, 31-12-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves.

Authority for the discontinuance of accruals should be shown in a foomote indicating the account(s) effected.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

335. ACCUMULATED DEPRECIATION—ROAD AND EQUIPMENT OWNED AND USED (Doilars in Thousands)

- 1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated Depreciation: Road and Equipment Property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rems are included in the "Lesse Rentals—Credit—Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rems are included in "Lesse Rental—Debit—Equipment" account and "Other Rents—Debit—Equipment" accounts. (See Schedule 351 for the accumulated depreciation to road and equipment owned and lessed to others.)
 - 2. If any data are included in columns (d) or (f), explain the entries in detail.
 - 3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."
- 4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.
- 5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on lines 29 and 39.

340. DEPRECIATION BASE AND RATES—IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

- 1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to Account 732, "Improvements on Leased Property" The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any charges in rates were effective during the year, give full particulars in a footnote.
- 2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property
- 3 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.
- 4. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 41, Grand Total, should be completed.

342. ACCUMULATED DEPRECIATION—IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

- 1 Enter the required information concerning debits and credits to Account 733. "Accumulated Depreciation—Improvements on Leased Property," during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent.
- 2. If any entries are made for column (d) "Other credits" or column (f) "Other debits, ' state the facts occasioning such entries on page 35. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."
 - 3. Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained on page 35.
 - 4 Show in column (e) the debits to the reserve arising from retirements. These debits should not exceed investment, etc.
- 5. Details in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line:39. Grand Total, should be completed.

350. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

- 1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-21-00, 32-21-00, 32-21-00.
- 2 Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leaved to others, the depreciation charges for which are not includible in operating expenses of the respondent. But for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given
- 3. In column (d) show the composite rates used to compute the depreciation for the month of December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.
- 4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.
- 5 If total road leased to others is less than 5% of total road owned, omit. If total equipment leased to others is less than 5% of total equipment owned, omit. However, Line 39, Grand Total, should be completed.

351. ACCUMULATED DEPRECIATION—ROAD AND EQUIPMENT LEASED TO OTHERS

(Doitars in Thousands)

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32:11-00, 32:12-00, 32:13-00, 32:12-00, 32:23-00.

2. Disclose credits and debits to Account 735. "Accountated Depreciation—Road and Equipment Property." Juring the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent. (See Schedule 330 for the reserve relating to road and equipment owned and used by the respondent).

3. If any entries are made for "Other credits" and Other debits," state the facts occasioning such entries. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."

4. Details in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company) (Dollars in Thousands)

- 1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes (a) the investment reported in Accounts 731 "Road and Equipment Property," and 732 "Improvements on Leased Property," of the respondent, less any "31 or "32 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.
- 2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company (P), and other leased properties-(O)
- 3 In column (a) to (e), inclusive, first show the data requested for the respondent (R), next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies, followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company in column (d) and (e). Then show, as deductions, data for transportation property leased to carriers and others.
 - 4 In column (c), line-haul carriers report the males of road used in line-haul service. Report miles in whole numbers
- 5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carners segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 24, on the asset side of the comparative general balance sheet of each individual railway, should be explained in a footnote. Book value included in Accounts 731 or 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers. should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is appli-

CZ	ble to t	he property of the carriers whose names are listed in column (b), regi	ardiess of w	here the reserves the	refor are recorded.

352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Accounts) (Dollars in Thousands)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 44 herein, should correspond with the amounts for each class of company and properties shown in Schedule 332A. Commung records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where cost of property leased from other carriers is not ascertainable, identify non-carrier owners, and briefly explain on page 37

methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 30 amounts not includible in the accounts shown, or in line 29. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

- 1. Report freight expenses only.
- Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general).
- 3. Report in column (b) net repair expense excluding the cost to repair damaged equipment.

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows:

- (a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202, 203 plus 216 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 204.
- (b) Freight Cars, line 24 plus line 39 compared to the sum of Schedule 410, lines 221, 222 plus 235 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
- (c) Sum of Highway Equipment (line 32), Floating Equipment (line 35), Passenger and Other Revenue Equipment (line 36), Computer and Data Processing Equipment (line 37), Machinery-Other Equipment (line 40), plus Work and Other Non-Revenue Equipment (line 41) compared to Schedule 410, the sum of lines 302 through 307, inclusive, plus line 320 (excluding wreck repairs). Do not report in Schedule 415. Equipment Damaged from Schedule 410, line 308.

Note: Lines 216, 235 and 320 of Schedule 410 are credit amounts.

The allocation of freight car repair expense reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201.

Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d). For improvements on leased property,
Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342.

Depreciation charges reported on columns (c) and (d) will balance to Schedule 410, column (f), as follows:

- a. Locomotives, line 5 plus 38 compared to Schedule 410, line 213
- b. Freight Cars, line 24 plus line 39 compared to Schedule 410, line 232
- c. Sum of Highway Equipment (line 32); Floating Equipment (line 35); Passenger and Other Revenue Equipment (line 36); Computer and Data Processing Equipment (line 37); Machinery-Other Equipment (line 40); and Work and Other Non-Revenue Equipment (line 41) compared to Schedule 410, line 317.
- 5. Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item; the net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 38, column (c), of Schedule 335.
- 6. Lease/Rentals reported in column (f) should balance to column (f) of Schedule 410 as follows:
 - a. Locomotives, line 5 plus 38 compared with Schedule 410, lines 207, 208, 211 and 212.
 - b. Freight Cars, line 24 plus line 39 compared with Schedule 410, lines 226 plus 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414 and are not to be included in Schedule 415).
 - (c) Sum of Lease/Rentals for All Other Equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing Lease/Rentals Other Equipment to Schedule 410. Do not report in Schedule 415 the Trailer and Container rentals reported in Schedule 414.
- 7. Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of Equipment Used But Not Owned when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the Cost of Equipment Owned and Leased to Others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 36-21-00, 36-22-00 and 36-23-00.

Property Used But Not Owned should also be included when the rent is included in Account Nos. 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h), of Schedule 415.

Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j). The grand total of each equipment reserve
account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415.

'The data to be reported on lines38, 39 and 40 in columns (g) and (h) is the investment recorded in Property Account 44, allocated to Locomotives, Freight Cars, and Other Equipment.

The depreciation to be reported on lines 38, 39, and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for Property Account 44, and then adding or subtracting the adjustment reported in column (e). This calculation should equal the amount shown in column (c). Schedule 335.

Year 1990 Road instals FEC NOTES AND REMARKS

417. SPECIALIZED SERVICE SUBSCHEDULE — TRANSPORTATION (Dollar in Thousands)

Report freight expenses andy

Report in lines 1, 2, 3, 4, and 10 the total of those natural expenses (salanes and wages, material, tools, supplies, fuels and lubricants, purchased services, and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or within specialized service facilities

3 When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they

4 Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up, delivery or highway interchange service Report in column (b), line 3, the expenses incurred in operating facilities for handling traiters and/or containers, including storage expenses. See schedule 755, note R support. The total expenses in column () should balance with the respective line items in Schedule 410. Ratiway Operating Expenses.

5 The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be 6 Reput in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tra-level auto rack cars. Report on line 2, column (g), the expense reported in column (c), line 3

incurred by the railroad in moving automobiles, etc. between bi-level and in-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves

8 Reput in culuiin (i) total expenses incurred in performing rail substitute service, wher highway tevenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal 7 Report on line 4. column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (total debits and credits). The expenses on line 4, column (h), relate to refrigerator cars only uperations and livestock feeding operations only

Schedule 418

instruction:

This schedule will show the investment in capitalized leases in road and equipment by primary account.

Column

- (a) = primary account number and title for which capital lease amounts are included therein.
- (b) = the total investment in that primary account.
- (c) = the investment in capital leases at the end of the year.
- (d) = the current year amortization
- (e) = the accumulated amortization relating to the leased properties

B. Adjustments to Federal Income Taxes

- 1. In column (a) are listed the perticulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption Other (Specify), including State and other taxes deferred if computed separately. Minor stems, each less than \$100,000, may be combined in a single entry under Other (Specify).
- 2. Indicate in column (b) the beginning of the year total of Accounts 714, 744, 762 and 786 applicable to each particular item in column (a).

 3. Indicate in column (c) the net change in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.
- 4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.
- 5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes - Extraordinary Items, for the current year.
 - 6. Indicate in column (e) the cumulative total of columns (b), (c), and (d). The total of column (e) must agree with the total of Accounts 714, 744, 762 and 786.

502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS (Dollars in Thousands)

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

- 1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
- 2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
- 3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
- 4. Compensating belances included in Account 703, Special Deposits, and in Account 717, Other Funds, should also be separately disclosed below.
- 5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
- 6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Ratiroad Annual Report R-;

SCHEDULE 510 SEPARATION OF DEBTHOLDINGS BETWEEN ROAD PROPERTY AND EQUIPMENT (Dollars in Thousands)

The principal use of this schedule is to determine the average embedded rate of debt capital.

I. Debt Outstanding at End of Year:

Line #	Account No.	Title	Source	Balance at Close of Year
1	751	Loans and Notes Payable	Sch. 200, L. 30	-0-
2	764	Equipment Obligations and Other Long Term Debt due Within One Year	Sch. 200, L. 39	-0-
3	765/767	Funded Debt Unmatured	Sch. 200, L. 41	-0-
4	766	Equipment Obligations	Sch. 200, L. 42	-0-
5	766.5	Capitalized Lease Obligations	Sch. 200, L. 43	-0-
6	768	Debt in Default	Sch. 200, L. 44	-0-
7	770.1/770.2	Unamortized Debt Premium	Sch. 200, L. 46	-0-
8		Total Debt	Sum L. 1-7	-0-
9		Debt Directly Related to Road Property	Note I.	-0-
10		Debt Directly Related to Equipment	Note 1.	-0-
11		Total Debt Directly Related to Road & Equipment	Sum L. 9 and 10	-0-
12		Percent Directly Related to Road	L. 9 - L. 11 (2 decimais)	-0-
13		Percent Directly Related to Equipment	L. 10 - L. 11 (2 decimais)	-0-
14	1	Debt Not Directly Related to Road or Equipment	L. 8 minus L. 11	-0-
15		Road Property Debt	(L. 12 × L. 14) plus L. 9	
16		Equipment Debt	(L. 13 × L. 14) plus L. 10	-0-

II. Interest Accrued During the Year:

Line#	Account No.	Title	Source	Baiance at Close of Year
17	546-548	Total Interest and Amortization (Fixed Charges)	Sch. 210, L. 42	241
18	546	Contingent Interest on Funded Debt	Sch. 210, L. 44	-0-
19	517	Release of Premiums on Funded Debt	Sch. 210, L. 22	-0-
20		Total Interest	Sum of Lines (17 + 18) less 19	241
21		Interest Affiliated Company Debt	Note 2.	235
22		Net Interest Expense	L. 20 minus L. 21	6
23		Interest Directly Related to Road Property Debt	Note 3.	-0-
24		Interest Directly Related to Equipment Debt	Note 3.	-0-
25		Interest Not Directly Related to Road or Equipment Property Debt	L. 22 - (L. 23 + L. 24)	6
26	Į	Interest Road Property Debt	L. 23 + (L. 25 × L. 12)	-0-
27		Interest Equipment Debt	L. 24 + (L. 25 × L. 13)	-0-

- Note I. Directly related means the purpose which the funds were used when the debt was issued.
- Note 2, Line 21 includes interest on debt in Account 769—Account Payable; Affiliated Companies.
- Note 3. This Interest relates to debt reported in Lines 9 and 10, respectively.

Ratirond Annual Report R-I

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 512

I Furnish the information called for below between the respondent and the affiliated companies or persons althused with the respondent, including officers, directors, stockholders, owners, partners or their wives and decomming, purchasing or other type of service including the furnishing of materials, supplies, purchase of other close relatives, or their agents. Examples of fransactions are, but are not restricted to, management, legal, equipnient, leasing of structures, land and equipment, and agreements relating to allocation of officers alaries and other common costs between affiliated companies.

to be excluded are payments for the following types of services.

Payments to or from other carriers for unterline services and interchange of equipment (a) Lawful tariff charges for transportation services (b) Payments to or from other carriers for interline is

(c) Payment to or from other carriers which may reasonably be regarded as ordinarily connected with couling operation or maintenance, but any special or unusual transactions should be reported.

or provided services aggregating \$50,000 or more for the year. If an affiltated company provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, has all the afishates included in the agreement and describe the allocation of charges. If the respondent provides services 2 In column (a) enter the name of the affiliated company, person, or agent with which respondent received to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, reference to this fact should be made and the detail as to the affocation of charges should be stated. For those affiliates (d) Payments to public utility companies for rates or charges fixed in conformity with government authority. providing services to the respondent, also enter in column (a) the percent of affiliate's gross income derived from transactions with respondent

aliernatively, attach a "Pro forma" balance sheet and income statement for that portion or entity of each The respondent may be required to furnish as an attachment to Schedule 512 a balance sheet and income statement for each affiliate with which respondent carrier had reportable transactions during the year, or

affiliate which furnished the agreed to services, equipment, or other reportable transaction. The statements, if required, should be prepared on a calendar year basis in conformity with the prescribed schedules for the balance sheet and income statement in Annual Report Form R-1, and should be noted (1) to indicate the method used for depreciating equipment or other property furnished the carrier, and (2) whether the affiliate's Federal income tax return for the year was filed on a consolidated basis with the respondent carrier

3. In column (b) indicate nature of relationship or control between the respondent and the company or serson identified in column (a) as follows:

(a) If respondent detectly controls affiliate, insert the word "directl"

(b) If respondent controls through another company, insert the word "indirectl"

(c) If respondent is under common control with affiliate, insert the word "common" (d) If respondent is controlled directly or indirectly by the company listed in column (s), insert the word "controlled"

"controlled"

(e) If control is exercised by other means such as a management contract or other arrangement of whatever and, insert the word "other" and footnote to describe such arrangements

purchase of material, etc. When the affiliate fisted in column (a) provides more than one type of seriver in column (c), his each type of service separately and show total for the affiliate. When services are both provided sease of building, and received between the respondent and an affiliate they should be listed separately and the amounts shown 4. In column (c) fully describe the transactions involved such as management fees, separately in column (e)

f In column (d) report the dollar amounts of transaction shown and the effect of any change in the method of establishing the terms from that used in the preceding period

6. In column (c) report the dollar amounts due from or to related parties and, if not otherwise apparent, the terms and manner of settlement. fasert (P) paid and (R) received by the amount in column (c)

SERVICES RECEIVED ON PROVIDED Unitar amounts of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions of transactions		 آي	_1	Ţ]	I		1-	J.	آي	آر		٦	آہ		اے	2	-	1_	~ ·	-	\neg	7	_1	7	× -	<u> </u>

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

- (i) Line owned by respondent
- (2) Line owned by proprietary companies
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent
- (4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent
 - (5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes,

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings: i e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distances between termini of single or first main track), and in the following columns the lengths of second main track; all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks: and yard switching tracks. These classes of tracks are defined as follows:

Running tracks. Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points

Way switching tracks. Station, team, industry and other switching tracks for which no separate service is maintained

Yard switching tracks. Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarties, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rest in a corporation controlled by or controlling the respondent, but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3), except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also, all main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them, but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class, and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (I) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

702. MILES OF ROAD AT CLASE OF YEAR – BY STATES AND TERRITORIES (SINGLE TRACK)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in columns (b), (c), (d), or (e), as may be appropriate. The remainder of jointly operated mileage should be shown in column (h) as may be appropriate. Mileage which has been permanently abandoned should not be included in column (h).

Mileage should be reported to the nearest WHOLE mile adjusted to accord with footings, 1 e., counting one-half mile and over as a whole mile and disregarding any fraction leas than one-half mile.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 710

Instructions for reporting incommive and passenger-train car data

- i Give particulars of each of the various classes of equipment which respondent owned or leased during the
- 2 In column (c) give the number of units purchased new or built in company shaps. In column (d) give the number of new units leased from others. The term "new" incans a unit placed in service for the first time on any radional.
- 3 Units feased to others for a period of one year or noure are reportable in column (1). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i).
- 4 For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of which bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead for unities unit. A "B" unit as well with the structure of the most equipped with hoster controls for independent operation at terminals.
- may be equipped with matter controls for interpretation operation in committee.

 5. A "self-propelled cat" is a rail mater say propelled by electric materia receiving power from a third rail or overhead, or internal combastion engines located on the car itself. Trailers equipped for use only in trains of cars that are self propelled are to be included as self propelled equipment.
- A diesel' unit includes all units propelled by diesel internal combustion engines irrespective of final direct or whether power includes all units periodical from an external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be udentified in a fronting the number and a brief description. An electric, unit includes all units which receive electric power from an overhead contact wire or athird rail and use the power to drive one or more electric, notions that propel the vehicle. An other self-provered unif, includes all units other than diesel or electric, e.g., steam gas turbine. Show the type of unit, service and number as appropriate, in a bited description sufficient to positive identification. An "auxiliary unit" includes all units used in conjunction with laciniously. But which diaw their power from the "mother" unit, e.g.,

boosters, slugs, etc. For reporting purpuses, indicate radio-controlled self-powered diesel units on lines. I through 8, as appropriate, Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "auxilitary units."

- to revenue service, counting one passenger to each borsepower (the maximum continuous power output from the deset engine or engities the maximum continuous power output from the deset engine or engines delivered to the man generator or generators for fractive purposes) Exclude capacity data for steam is contained.
- in revenue service, comming one passenger to each comming anciping one.

 8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in the Otheral Ruthway Equipment.
- 9 Cross-checks

Road inmais: FEC

710. INVENTORY OF EQUIPMENT — Continued

Instructions for reporting freight-train car data.

- 1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
- 2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.
- 3. Units leased to others for a period of one year or more are reportable in column (n). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i). Units rented from others for a period less than one year should not be included in column (j).

710. INVENTORY OF EQUIPMENT - Continued

4 Column (m) should show aggregate capacity for all units reported in columns (k) and (i), as follows. For freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

NOTES AND REMARKS

710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR (Dollars in Thousands)

- 1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S) including units acquired through capitalized leases (L).
- 2. In column (a) list each class or type of locomotive unit, car, or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminam-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show type of equipment as enumerated in Schedule 710.
 - 3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.
 - 4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.
- 5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, tloating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.
- 6. All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULES 720, 721, 723, AND 726

. For purposes of these schedules, the track categories are defined as follows

- A Freight density of 20 million or nare gross for makes per fresh mile per year forchaste passing fracks, turnais and crossingers)
- B Freight density of less than 20 million gross for miles per track mile per year, but at least 5 million (include passing tracks, turnsuts and crosswers) C - Freight density of less than 5 million gress for miles per frack mile per year, but at least I million (melade passing tracks, turnants and crossovers)

 - D Freight density of less than I million gens, ton-notes per track unte per year (nochade passing tracks, turnsoms and erossovers)
- F Track over which any passenger service is provided (inher than potential abandomnents). Mileage should be included within frack categories A through E unless there is deducated entirely to passenger E - Way and yard switching starts (passing starks, crossivers and surresults shall be included in category A. B. C. D. F. and Potential abandoments, as appropriate)

Pocenial abandonnens - Route segments identified by ratiroads as potentially subject to abandonment as required by Section 10904 of the Interstate Commerce Act

- This schedule should include all class 1, 2, 3, or 4 track from schedule 700 that is maintained by the respondent (class 5 is assumed to be maintained by others)
- 3 If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year 4 Traffic density related to passenger service shall not be included in the determination of the track category of a line segment.

728. TRACK AND TRAFFIC CONDITIONS

1 Disclose the requested information pertaining to track and traffic conditions

No Line	Track category	Mileage of tracks at end of period (whole numbers)	Average annual traffic density in multons of gross ton-miles per track-mile* (use two decimal places) (c)	Average funtung speed limit (use two decimal places) (d)	Thuck males under slow orders at end of period (e)	à 35 3€

8	Potential abandonments	-0-				80

., ".

*To determine average density, total track inites (route miles times number of tracks) rather than route miles shall be used

721. TIES LAID IN REPLACEMENT

- Furnish the requested information concerning ties laid in replacement
- 2 In column (1), report the total board feet of switch and bridge ties laid in replacement
 3 The term "sput maintenance" in column (1) means repairs to track components during routing inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks "Percent of The term" sput maintenance" in column (1) incans repairs to track components during routing inspections.
- 4 In No 9, the average cost per tie should include transportation charges on foreign lines, the trains, fooding, inspection, and the cost of handling ties in general supply storage and seasoning yards, and in the ease of training plants and the cost of training the cost of unitoding, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in sput maintenance" refers to the percentage of total ties or board feet land in replacement considered to be sput maintenance

connection with loading or treatment should not be included in this schedule

722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS (Dollars in Thousands)

Give particulars of ues laid during the year in new construction during the year in column (a) classify the ues as follows.

U -- Wooden ues untreated when applied.

T -- Wooden ues treated before application

S -- Ties other than wooden (steel, concrete, etc.) Indicate type in column (h)

In columns (d) and (g) show the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of bandling lies in general supply, storage, and seasoning yard. In the case of including at training plants and the cost of training plants and the cost of training plants and the cost of training plants. Report new and second-hand (relay) ues separately, indicating in column (h) which tes are new connection with loading or treatment, should not be included in this schedule

724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

- 1. Give particulars of all rails applied during the year in connection with the construction of new track. In column (a) classify the kind of rail applied as follows:
 - (1) New steel rails. Bessemer process
 - (2) New steel rails, open-hearth process
 - (3) New rails, special alloy (describe more fully in a footnote)
- (4) Relay rails.
- 2. Returns in columns (c) and (g) should be reported in WHOLE numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.
- 3. The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier shown lines, and placing the rails in tracks and of train service in connection with the distribution of the rail should not be included in this schedule.

Railroad Annual Report R-I

725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail," the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under Items 2, 3, 4, 6, and 12 shall be obtained from conductor's wheel reports (freight) or similar records. Unit train service is a specialized scheduled shuttle type service in equipment (Railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way Trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through Trains are those trains operated between two or more major concentration or distribution points. Do not include Unit Train statistics in Way and Through Train statistics. A Work Train is a train operated solely or preponderantly for the purpose of trainsporting company freight, work equipment or company employees. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, and 8-04 and 8-05 as instructed in notes, I, K, and L.

- (A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks, and sidings.
- (B) A train-mile is the movement of a train a distance of 1 mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as 1 mile. Train Miles—Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the official time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars.
 - (C) A motorcar is a self-propelled unit of equipment designed to carry freight or passenger traffic, and is not considered a locomotive.
- (D) A locomotive is self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of 1 mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
- (E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instructions (B) regarding fractions and official time tables for computing locomotive-miles.
- (F) Train switching locomotive-miles shall be computed at the rate of 6 miles per hour for the time actually engaged in such service. Include miles allowed train locomotives for performing switching service at terminals and way stations.
- (G) Yard switching locomotive-miles shall be computed at the rate of 6 miles per hour for the time actually engaged in yard switching service. Include miles allowed to yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
- (H) Use car designations shown in Schedule 710. Under Railroad Owned and Leased cars, Items 4-01 and 4-11, report both foreign cars and respondents' own cars while on the line of the respondent railroad. In Items 4-13 and 4-15 report the private-line categories, miles for private-line cars (whether or not under railroad control) and shipper-owned cars. A car-mile is a movement of a unit of car equipment a distance of 1 mile. Report miles made by flatcars carrying loaded highway trailers or empty highway trailers moving under revenue billings as loaded freight car-miles miles made by flatcars carrying other empty highway trailers as empty freight car-miles. Exclude miles made by motorcars and report miles made by business cars of other than reporting carrier as sleeping car-miles in Item 5-03. Report mail, express baggage cars and combination cars other than 5-02 combination cars, in Item 5-05.
- (1) Exclude from Item 4-01, 4-11, 4-13, and 4-15 car-miles of work equipment, cars carrying company freight and no-payment cars moving in transportation trains. Include such car-miles in Item 4-17, 4-18, and 4-19. No payment car-miles are miles made by private-line cars (other than railroad controlled) and shipper-owned cars for which the railroad does not reinburse the owner on a loaded and/or empty mile basis. If the payment for the loaded miles includes the empty miles, the loaded and empty miles should not be considered no-payment car miles.
- (J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express; miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe, and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars; and miles run by other passenger-train cars where services are combined such as baggage, express and mail.
- (K) From conductors' or dispatchers' train reports or other appropriate source, compute weight in tons (2,000 pounds. Item 6-01 includes weight of all locomotive units moved 1 mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles). Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight (and their contents). Use 150 lbs. as the average weight per passenger, and 4 tons as the average weight of contents of each head-end car.
- (L) From conductors' train reports or other appropriate source, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and non-revenue freight moved one mile in transportation train. Include net ton-miles in motorcar trains. Exclude I.c.I. shipment of freight handled in mixed baggage express cars. Total Ton-Miles Revenue Freight should correspond to the Ton-Miles reported on Form CBS.
- (M) Road service represents etapsed time of transportation trains (both ordinary and light) betwen the time of leaving the initial terminals and the time at the final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02 train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755—Concluded

- (N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including terminal switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.
- (O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for railway Commissioners for which no revenue is received; trains running special with fire apparatus to save carrier's property from destruction; trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains; trains run solely for the purpose of transporting company material; trains run for distributing material and supplies for use in connection with operations; and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.
- (P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four, two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondents lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
- (Q) Report vehicle (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
- (R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroads' expense. (Performed at railroads' expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service). Do not include those trailers/containers which are picked up or delivered by a shapper or motor carrier etc. when a tariff provision requires the shapper-motor carrier etc. and not the railroad to perform that service. Note: The count should reflect the trailer/containers for which expenses is reported in Schedule 417 Line 2 Column (b).
 - (S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
- (T) Report the total number of foreign per diem cars on line at end of year. Foreign Per Diem Cars refers to freight cars other than cabooses owned by other railroads, whose interline rental is settled on a per diem basis under the code of per diem rules.

Carners will be governed by local conditions in determining whether a car at an interchange point should be considered "on line." Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yard (excluding cars which are to be repaired in train yard without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.

Surplus cars are cars which are in serviceable condition available for loading at the initial count on the last day of the year, but which have not been placed for loading within 48 hours. A record shall be made of all such cars on hand at 12:01 a.m. of the day following the last day of each year and a count of the same cars made 48 hours later to ascertain those still not placed for loading. The count of surplus cars shall include cars assembled in advance to meet loading requirements of more than one day; cars which have not been moved because of infrequent train service as on branch lines; cars set aside or stored for special or future loading, such as perishables, grain, autos, rough freight, etc.; and cars stored because of seasonal decline in traffic, such as coal cars, ore cars, etc. The count of surplus cars shall not include cars out of service in connection with repairs, cars actually moving en route to owners, cars moving on car service order, or cars in transit to loading points on holding round or to another road. The phrase "placed for loading" refers to (1) physical switching of a car into position for loading, (2) physical switching of a car into position for loading, (2) physical switching of a car into position for loading, (2) physical switching onto tracks at a freighthouse, pier, etc., for the purpose of being loaded.
