Class I Railroad Annual Report

GRAND TRUNK WESTERN RAILROAD INC.
935 DE LA GAUCHETIERE STREET WEST
FLOOR 4 (FINANCIAL REPORTING)
MONTREAL, QUEBEC (CANADA)
H3B 2M9

Correct name and address if different then shown

Full name and address of reporting carrier (Use mailing label on original, copy in full on duplicate)

To The Surface Transportation Board

For the Year Ending December 31, 2001

NOTICE

- 1. This report is required for every class I railroad operating within the United States. Three copies of this Annual Report should be completed. Two of the copies must be filed with the Surface Transportation Board, Office of Economics, Environmental Analysis, and Administration, The Mercury Building, 1925 K St. N.W., Suite 500, Washington, DC 20423, by March 31 of the year following that for which the report is made. One copy should be retained by the carrier.
- ? Every inquiry most be definitely answered. Where the word "none" truly and completely states the fact, it should be given as the answer. If any inquiry is inapplicable, the words "not applicable" should be used.
- 3. Wherever the space provided in the schedules in insufficient to permit a full and complete statement of the requested information, inserts should be prepared and appropriately identified by the number of the schedule.
- 4. All eraries should be made in a permanent black ink or typed. Those of a contrary character must be indicated in parenthesis. Items of an unusual character must be indicated by appropriate symbols and explained in footnotes.
- 5. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.
- 6. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the following meanings:
 - (a) Board means Surface Transporte ion Board.
 - (b) Respondent means the person or corporation in whose behalf the report is made.
 - (c) Year means the year ended December 31 for which the report is being made.
- (d) Close of the Year means the close of business on December 31 for the year in which the report is being made. If the report is made for a shorter period than one year, it means the close of the period covered by the report.
- (e) Beginning of the Year means the beginning of business on January 1 of the year for which the report is being made. If the report is made for a shorter period than one year it means the beginning of that period.
- (f) Preceding Year means the year enaed December 31 of the year preceding the year for which the report is made.
- (g) The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.
- 7. The ICC Termination Act of 1995 abolished the Interstate Commerce Commission and replaced it with the Surface Transportation Board. Any references to the Interstate Commerce Commission or Commission contained in this report refer to the Surface Transportation Board.
- 8. Any references to the Bureau of Accounts or the Office of Economics contained in this report refer to the Office of Economics, Environmental Analysis, and Administration of the Surface Transportation Board.

SPECIAL NOTICE

Docket Number 38559 Railroad Classification Index, (ICC served January 20, 1983), modified the reporting requirements for Class II, Class III, and Switching and Terminal companies. These carriers will notify the Board only if the calculation results in a different revenue level than its current classification.

The dark border on the schedule represents data that are captured for processing by the Board.

It is estimated that an average of 800 burden hours per response are required to complete this collection of information. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maints is g the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be addressed to the Office of the Secretary, Surface Transportation Board.

A. SCHEDULES OMITTED BY RESPONDENT

- 1. The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not applicable.
- 2. Show below the pages excluded and indicate the schedule number and title in the space provided below.
- 3. If no schedules were omitted indicate "NONE".

age	Schedul: Number	Title	
		None

(date)

Two copies will be submitted on:

No annual report to stockholders is prepared.

X

C. VOTING POWERS AND ELECTIONS
1. State the par value of each share of stock: Common \$ 1.00 per share; first preferred \$ per share; second preferred \$ per share; debenture stock \$ per share.
2. State whether or not each share of stock has the right to one vote; if not, give full particulars in a footnote. Common: Yes, Class A: No
3. Are voting rights proportional to holdings? Yes X No If no, state in a footnote the relationship between holdings and corresponding voting rights.
4. Are voting rights attached to any securities other than stock? Yes_No_X If yes, name in a footnote each security, other than stock to which voting rights are attached (as of the close of the year), and state in detail the relationship between holdings and corresponding voting rights, indicating whether voting rights are actual or contingent and, if contingent, showing the contingency.
5. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method? Yes see below No If yes, describe fully in a footnote each such class or issue and give a succinct statement showing clearly the character and extent of such privileges.
 Give the date of the latest closing of the stock book prior to the actual filing of this report, and state the purpose of such closing. Not closed.
7. State the total voting power of all security holders of the respondent at the date of such closing, if within one year of the date of such filing; if
not, state as of the close of the year. 26 votes, as of December 31, 1001 (date)
8. State the total number of stockholders of record, as of the date shown in answer to Inquiry 7.
9. Give the names of 30 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent (if within one pear prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each, his or her address, the number of votes he or she would have had a right to cast on that date had a meeting then been in order, and the classification of the number of votes to which he or she was entitled, with respect to securities held by him or her, such securities being classified as common stock, second preferred stock, first preferred stock, and other securities (stating in a footnote the names of such other securities, if any). If any such holder held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements, give as supplemental information the names and addresses of the 30 largest holders of the voting trust certificates and the amount of their individual holdings. If the stock book was not closed or the list of stockholders compiled within such year, show such 30 security holders at the close of the year.

Item 7: Contingent liabilities

Various legal actions, general claims, and governmental proceedings (including administrative orders from the Environmental Protection Agency) are

Litigation is subject to many uncertainties: the outcome of the individual litigated matters is not predictable with assurance and it is possible that some of the foregoing matters may be decided unfavorably to GTW. The financial statements reflect a provision for the aggregate amount of liability which maragement of GTW, in consultation with legal counsel, believes has probably been incurred. While it is possible that some of the foregoing matters may be settled at a cost greater than that provided for, it is the opinion of management that the ultimate liability, if any, with respect to these matters will not materially affect the financial position of GTW.

220 - RETAINED EARNINGS

(Dollars in Thousands)

- Show below the items of Retained Earnings Accounts of the respondent for the year, classified in accordance with the Uniform System
 of Accounts for Railroad Companies.
- 2. All contra entries hereunder should be shown in parentheses.
- 3. Show in lines 22 and 23 the amount of assigned Federal income tax consequences for Accounts 606 and 616.
- 4. Segregate in column (c) all amounts applicable to the equity in undistributed earnings (losses) of affiliated companies based on the equity method of accounting.
- 5. Line 3 (line 7 if debit balance), column (c), should agree with line 26, column (b), Schedule 210. The total of columns (b) and (c), lines 3 and 7, should agree with line 61 column (b), Schedule 210.
- 6. Include in column (b) only amounts applicable to retained earnings exclusive of any amounts included in column (c).

Line No.	Cross Check	Item	Retained Earnings -	Equity in Undistributed Earnings (Losses) of
			Unappropriated	Affiliated Companies
		(a)	(b)	(c)

22		Account 606		
23		Account 616		

NOTE:

The amount indicated on line 11 column c represents a dividend that RAILEASE ASSOCIATES LLC (GTW investment accounted for on the equity basis) paid to GTW. As this dividend does not impact the Retained Earnings of GTW as a whole, the amount is offset in line 11 column b.

230. CAPITAL STOCK

PART I. CAPITAL STOCK

(Dollars in . housands)

- 1 Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.
- 2 Present in column (b) the par or stated value of each issue. If none, so state.
- 3 Disclose in columns (c), (d), (e), anf (f) the required information concerning the number of shares authorized, issued, in treasury, and outstanding for the various issues.
- For purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent, and not canceled or retired, they are considered to be nominally outstanding.

PART II. SUMMARY OF CAPITAL STOCK CHANGES DURING YEAR

- 1 The purpose of this part is to disclose capital stock changes during the year.
- 2 Column (a) presents the items to be disclosed.
- 3 Columns (b), (d), and (f) require disclosure of the number of shares of preferred, common, and treasury stock applicable to the items in column (a).
- 4 Columns (c), (e) and (g) reuire the disclosure of the book value of preferred, common, and treasury stock.
- 5 Disclose in column (h) the additional paid in capital realized from changes in capital stock during the year.
- 6 Unusual circumstances arising from changes in capital stock shall be fully explained in footnotes to this schedule.

1 By footnote on page 17, state the purpose of the issue and authority.

240. STATEMENT OF CASH FLOWS

(Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers and cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If direct method is used complete lines 1 - 41; indirect method complete lines 10 - 41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity, acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller; obtaining an asset by entering into a capital lease; and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash; only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of

NOTES

- (A) Use common carrier portion only. Common carrier refers to railway transportation service.
- (B) Rent income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expenses.
- (C) If result is negative, use zero.

					-

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

- Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments and Advances Affiliated Companies", in the Uniform System of Accounts for Railroad Companies.
- 2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
 - (A) Stocks
 - (1) Carriers active
 - (2) Carriers inactive
 - (3) Noncarriers active
 - (4) Noncarriers inactive
 - (B) Bonds (including U.S. Government bonds)
 - (C) Other secured obligations
 - (D) Unsecured notes
 - (E) Investment advances
- 3. The subclassification of classes (B), (C), (D) and (E) should be the same as that provided for class (A).
- 4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporation, the symbols and industrial classification to be as follows:

Syr	mbol	Kind Of Industry
	I	Agriculture, forestry, and fisheries
	II	Mining
	III	Construction
	IV	Manufacturing
	V	Wholesale and retail trade
	VI	Finance, insurance, and real estate
,	VΠ	Transportation, communications, and other public utilities
١	/III	Services
	IX	Government
	X	All other

- 5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs. If it maintains an organization it does so only for the purpose of corruptying with legal requirements and maintaining title to property or franchises.
- 8. Combine, in one account, investments in which the original cost or present equity in total assets is less than \$10,000.
- 9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
- 10. Do not include the value of securities issued or assumed by respondent.
- 11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

310 - INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

(Dollars in Thousands)

- 1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, from accounts 715 (sinking funds), 716 (apital funds), 721 (investments and advances affiliated companies), and 717 (other funds).
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 25, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).
- 3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered. Give names and other important particulars of such obligations in footnotes.
- 4. Give totals for each class and for each subclass and a grand total for each account.
- 5. Entries in column (d) should show date of maturity of bonds and other evidence of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially _____ to ____." Abbreviations in common use in standard financial publications may be used to conserve space.

(Dollars in Thousands)

- 6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be shown in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In case of joint control, give names of other parties and particulars of control.
- 7. If any advances reported are pledged, give particulars in a footnote.
- 8. Investments in companies in which neither the original cost or present equity in total assets are less than \$10,000 may be combined in one figure.
- 9. Also include investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis).
- 10. This schedule should not include securities issued or assumed by respondent
- 11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, give names and extent of control by other entities by footnotes.

310A. - INVESTMENTS IN COMMON STOCK OF AFFILIATED COMPANIES

(Dollars in Thousands)

Undistributed Earnings From Certain Investments in Affiliated Companies

- 1. Report below the details of all investments in common stock included in Account 721, Investments and Advances Affiliated Companies.
- 2. Enter in column (c) the amount necessary to retroactively adjust those investments. (See Instruction 5-2, Uniform System of Accounts).
- 3. Enter in column (d) the share of undistributed earnings (i.e., dividends) or losses
- 4. Enter in column (e) the amortization for the year of the excess of cost over equity in net assets (equity over cost) at date of acquisition.
- For definitions of carrier and noncarrier, see general instructions.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property", and Account No. 732, "Improvements on Leased Property" classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (g) should be the net of the amounts in columns (c) through (f). Column (h) is the aggregate of columns (b) through (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts and 732 for the respective periods; if not, a full explanation should be made in a footnote.
- 2. In column (c), show disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, :"Items to be charged" in the Uniform System of Accounts for Railroad Companies for such
- 3. In column (d), show the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, receivership sale or transfer, or otherwise.
- 4. Columns (c) and (e) should include all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
- 5. All credits representing property sold, abandoned, or otherwise retired should be shown in column (f).
- 6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included. Also, the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 7. If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes", state the cost, location, area, and other details which will identify the property in a footnote.
- 8. Report on line 29, amounts not included in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving location and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$5,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state the amount used in a footnote.

Railroad Annual Report R-1

332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

(Dollars in Thousands)

1. Show in columns (b) and (e), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December, in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 31-25-00, 35-21-00, 35-23-00,35-22-00 and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00 and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote. 2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

- 3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos. 31-11-00, 31-12-00, 31-21-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.
- 4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.
- 5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned

335. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT OWNED AND USED

(Dollars in Thousands)

1. Disclose the required information regarding credits and debits to Account No. 735, "Accumulated Depreciation: Road and Equipment Property" during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and "Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" accounts and "Other Rents - Debit - Equipment" accounts. (See Schedule 351 for accumulated depreciation to road and equipment owned and leased to others).

2. If any data are included in columns (d) or (f), explain the entries in detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated Dr.

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should

5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on lines 29 and 39.

339. ACCRUED LIABILITY - LEASED PROPERTY

- 1. Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property", during the year concerning road and equipment leased from others.
- 2. In column (c), enter amounts charged to operating expenses. In column (e), enter debits to account arising from retirements. In column (f), enter amounts paid to lessor.
- 3. Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained.
- 4. Required disclosure may be omitted if leased road and equipment property represents 5% or less of total property owned and used.
- 5. If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account No. 772 are made by the accounting company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof.

340. DEPRECIATION BASE AND RATES - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all charges for December and dividing the total so computed by applying the primary account composite rates to the depreciation base used in computing the to leased property charged to account 732, "Improvements on Leased Property". The composite rates used should be those prescribed or otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary the year, give full particulars in a footnote.

2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

4. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of the total road owned or total equipment owned, respectively. However, line 41, Grand Total, should be completed.

342. ACCUMULATED DEPRECIATION - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

1. Enter the required information concerning debits and credits to account 733, "Accumulated Depreciation - Improvements on Leased Property", during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent.

2. If any entries are made for column (d) "Other credits" or column (f) "Other debits", state the facts occasioning such entries on page 39. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "D:".

3. Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained on page 39.

4. Show in column (e) the debits to the reserve arising from retirements. These debits should not exceed investment, etc.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39 Grand Total, should be completed.

350. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT LEASED TO OTHERS (Dollars in Thousands)

- 1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00 and 32-23-00.
- 2. Show in columns (b) and (c), for each property account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not included in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.
- 3. In column (d) show the composite rates used to compute the depreciation for December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.
- 4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s).
- 5. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

351. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.

- 2. Disclose credits and debits to Account 735, "Accumulated Depreciation Road Equipment Property", during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent. (See schedule 330 for the reserve relating to road and equipment owned and used by the respondent).
- 3. If any entries are made for column (d) "Other credits" or column (f) "Other debits", state the facts occasioning such entries on page 39. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr".
- 4. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (by Company)

(Dollars in Thousands)

- 1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by respondent and used in the respondent's transportation service. Such property includes (a) investment reported in Accounts 731, "Road and Equipment Property", and 732 "Improvements on Leased Property" of respondent, less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment or other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.
- 2. In column (a), classify each company in this schedule as: "R" for respondent, "L" for lessor railroad, "P" for inactive or proprietary company, or "O" for other leased properties.
- 3. In column (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of respondent. Show a total for each class of company in columns (d) and (e). Then show, as deductions data for transportation property leased to carriers and others.
- 4. In column (c), line-haul carriers report the miles of road used in line-haul service. Report miles in whole numbers.
- 5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companion whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, an explanation should be provided. Differences between amounts shown in column (d) of this schedule and column (c), line 24, on the asset side of the general balance sheet of each individual railway should be explained in a footnote. Book values included in Accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of respondent in securities of the owner unk is a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are record

352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Account)

- 1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.
- 2. The amounts for respondent and for each group or class of companies and properties on Line 44 herein, should correspond with the amounts for each class of company and property shown in Schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in this schedule.
- 3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by noncarrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain on page 39 the methods of estimating value of property on noncarriers or property of other carriers.
- 4. Report on line 30 amounts not includible in the accounts shown, or in line 29. The items reported should be briefly identified and explained. Also included here those items after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.

410. RAILWAY OPERATING EXPENSES

(Dollars in thousands)

State the railway operating expenses on respondent's road for the year, classifying them in accordance with the Uniform System of Accounts for Railroad Companies, and allocate the common operating expenses in accordance with Board's rules governing the separation of such expenses between freight and passenger services.

412. WAY AND STRUCTURES

(Dollars in Thousands)

- 1. Report freight expenses only.
- 2. The total depreciation expense reported in column (b), line 29, should balance to the sum of the depreciation expense reported in schedule 410, column (f), lines 136, 137, and 138.
- 3. Report in column (c) the lease/rentals for the various property categories of Way and Structures. The total net lease/rental reported in column (c), segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the obtain the depreciation bases of the categories of leased property.
- 4. Amortization adjustment of each road property which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item. The net adjustment on line 29 shall equal the adjustment reported on line 29 of schedule 335.
- 5. Report on line 28, all other lease rentals not apportioned to any category listed on lines 1 through 27.

6. Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of schedule 415.

- 1. Report freight expenses only.
- 2. Report in this supporting schedule rental information by car type and other freight-carrying equipment relating to the interchange of railroad owned or leased equipment and privately owned equipment. (Reporting for leased equipment covers equipment with the carrier's own railroad markings.)
- 3. The gross amounts receivable and payable for freight-train rs (line 19, columns (b) through (d), and line 19, columns (e) through (g), respectively) should balance with Schedule 410, column (f) lines 231 (credits) and 230 (debits). Trailer and container rentals in this schedule are included in Schedule 410, column (f) lines 315 and 316. However, the trailer and container rentals in this schedule will not balance to lines 315 and 316 of Schedule 410 because those lines include rents for "Other Equipment" which is reported in Schedule 415, column (e). The balancing of Schedules 410, 414, and 415 "Other Equipment" is outlined in note 6 to Schedule 415.
- 4. Report in columns (b) and (e) rentals for private-line cars (whether under railroad control or not) and shipper-owned cars.
- 5. Report in columns (c), (d), (f), and (g) rentals for railroad owned cars prescribed by the Board in Ex Parte No. 334, for which rentals are settled on a combination mileage and time basis (basic per diem). Include railroad owned per diem tank cars on line 17.

 NOTE: Mechanical designations for each car type are shown in Schedule 710.

NOTES AND REMARKS

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

- 1. Report freight expenses only.
- 2. Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general).
- 3. Report in column (b) net repair expense, excluding the cost to repair damaged equipment.

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows:

- (a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202, 203 and 216 (excluding wreck repairs). Do not report in Sciedule 4.5, Equipment Damaged from Schedule 410, line 204.
- (b) Freight Cars, line 24 plus line 39 compared to the sum of Schedule 410, lines 221, 222 and 235 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
- (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), plus work and other non-revenue equipment (line 41) compared to Schedule 410, the sum of lines 302 through 307, inclusive, plus line 320 (excluding wreck repairs). Do not report in Schedule 415, equipment damaged from Schedule 410, line 308.

Note: Lines 216, 235 and 320 of Schedule 410 are credit amounts.

The allocation of freight car repair expense reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201.

 Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d). For improvements on leased property, Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342.

Depreciation charges reported in columns (c) and (d) will balance to Schedule 410, column (f), as Follows:

- (a) Locomotives, line 5 and 38, compared to Schedule 410, line 213.
- (b) Freight cars, line 24 and 39, compared to schedule 410, line 232.
- (c) Surn of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41) compared to Schedule 410, line 317.
- 5. Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item. The net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335.
- 6. Lease/rentals reported in column (f) should balance to column (f) of Schedule 410 as follows:
 - (a) Locomotives, line 5 and 38, compared to Schedule 410, lines 207, 208, 211 and 212.
 - (b) Freight cars, line 24 and 39, compared to Schedule 410, lines 226 and 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414, and are not included in Schedule 415).
 - (c) Sum of lease/rentals for all other equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing lease/rentals other equipment to Schedule 310. Do not report in Schedule 415, the trailer and container rentals reported in Schedule 414.
- 7. Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of equipment used but not owned when rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the cost of equipment owned and leased to others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00, and 36-23-00.

Property used but not owned should also be included when the rent is included in Accour: Nos. 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h) of Schedule 415.

8. Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j). The grand total of each equipment reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts 1 ported in columns (i) and (j), on Schedule 415.

(1) Data to be reported on lines 38, 39 and 40 in columns (g) and (h) are the investment recorded in property account 44, allocated to locomotives, freight cars, and other equipment.

(2) Depreciation to be reported on lines 38, 39 and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for property account 44, and then adding or subtracting the adjustment reported in column (e). This calculation should equal the amount shown in column (c), Schedule 335.

Notes:

Railroad Annual Report R-1

- (1) Columns (c) + (f) + (i) = Column (l) Columns (d) + (g) + (k) = Column (m)
- (2) The base grand total for owned and used, improvements to leased property and capitalized leases should equal the sum of Accounts 3, 8, 9 and 11 shown at year end on Schedule 330.

NOTES AND REMARKS

4.7. SPECIALIZED SERVICE - TRANSPORTATION

- 1. Report freight expenses only.
- 2. Report in lines 1, 2, 3, 4, and 10 the total of those natural expenses (salaries and wages, material, tools, supplies, fuels and lubricants, purchased services, and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or within specialized service facilities.
- 3. When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410, Railway Operating Expenses.
- 4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up, delivery, or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See Schedule 755, note R.
- 5. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c) line 3.
- 6. Report in column (g), line 3, the expenses incurred by the rail oad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2, column (g), the expenses incurred by the railroad in moving automobiles, etc., between bi-level and tri-level toading and unloading facilities over the highway to shippers, receivers, or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves.
- 7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (total debits and credits). The expenses on line 4, column (h), relate to refrigerator cars only.
- 8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations, and livestock feeding operations only.

418. SUPPORTING SCHEDULE - CAPITAL LEASES

(Dollars in Thousands)

Instruction:

This schedule will show the investment in capitalized leases in road and equipment by primary account.

Column

- (a) = primary account number and title for which capital lease amounts are included therein.
- (b) = the total investment in 'hat primary account.
- (c) = the investment in c_pital leases at the end of the year.
- (d) = the current year amortization.
- (e) = the accumulated amortization relating to the leased properties.

D.:		Capital Leases				
Primary Account No. and Title (a)	Total Investment At End of Year (b)	Investment at End of Year (c)	CurrentYear Amortization (d)	Accumulated Amortization (e)		
(53) Freight-train cars	183,980	7,456	45	5,25		
TOTAL	183,980	7,456	45	5,257		

450. ANALYSIS OF TAXES

(Dollars in thousands)

A. Railway Taxes

No.	Cross Check	Kind of Tax	Amount	Line
1		Other than U.S. Government Taxes	5,353	1
		U.S. Government Taxes Income Taxes:	0,000	Ė
2		Normal Tax & Surtax	5,336	2
3		Excess Profits		3
4	•	Total Income Taxes (ln. 2 + 3)	5,336	4
5		Railroad Retirement	20,922	5
6		Hospital Insurance	1,610	6
7		Supplemental Annuities	776	7
8		Unemployment Insurance	477	8
9		All Other United States Taxes	30,644	0
10		Total - U.S. Government Taxes	59,765	10
11		Total Railway Taxes	65,118	11

B. Adjustments to Federal Income Taxes

- 1. In column (a) are 'isted the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other (Specify)," including state and other taxes deferred if computed separately. Minor items, each less than \$100,000, may be combined in a single entry under "Other (Specify)."
- 2. Indicate in column (b) the beginning of year totals of Accounts 714, 744, 762 and 786 applicable to each particular item in column (a).
- 3. Indicate in column (c) the net changes in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.
- 4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or loss carry-back.
- 5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 537, Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes Extraordinary Items, for the current year.
- 6. Indicate in column (e) the cumulative total of columns (b), (c) and (d). The total of column (e) must agree with the total of Accounts 714, 744, 762, and 786.

Line No.	Particulars (a)	Beginning of year balance (b)	Net credits (charges) for current year (c)	Adjustments (d)	End of year balance (e)	Line No.

450.	ANALYSIS	OF	TAXE
------	----------	----	------

Foot	

Flow-through method was elected, indicate net decrease (or increase) in tax accrual because of investment tax credit.	
If deferral method for investment tax credit was elected:	
(1) Indicate amount of credit utilized as a reduction of tax liability for current year	
(2) Deduct amount of current year's credit applied to a reduction of tax liability but deferred for accounting purposes	
(3) Balance of current year's credit used to reduce current year's tax accrual	
(4) Add amount of prior year's deferred credits being amortized to reduce current year's tax accrual	
(5) Total decrease in current year's tax accrual resulting from use of investment tax credits	
timated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made	

460. ITEMS IN SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS FOR THE YEAR

(Dollars in Thousands)

Give a brief description of all items, regardless of amount, included during the year in Account 555, Unusual or Infrequent Items; 560, Income or Loss from Operations or Discontinued Segments; 562, Gain or Loss on Disposal of Discontinued Segments; 570, Extraordinary Items; 590. Income Taxes on Extraordinary Items; 592, Cumulative Effect of Changes in Accounting Principles; 603, Appropriation Released; 606, Other Credits to Retained Earnings; 616, Other Debits to Retained Earnings; 620, Appropriations for Sinking and Other Funds; and 621, Appropriations for Other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.

For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10% of net income before extraordinary items, describe the three largest items in the account and any other items in excess of 10% of net income.

MEMORANDA RELATING TO SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS

501. GUARANTIES AND SURETYSHIPS

(Dollars in thousands)

1. If the respondent was under obligation as guarantor or surety for the performance by any other corporation or other association of any agreement or obligation, show the particulars of each contract of guaranty or suretyship in effect at the close of the year or entered into and expired during the year. This inquiry does not cover the case of ordinary commercial paper maturing on demand or not later than 2 years after the date of issue. Items of less than \$50,000 may be shown as one total.

502. COMPENSATING BALANCES AND SHORT-TERM BORROWING AGREEMENTS

(Dollars in thousands)

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

- 1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings that are outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
- 2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
- 3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
- 4. Compensating balances included in Account 703, Special Deposits and in Account 717, Other Funds, should also be separately disclosed below.
- Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15% or more of liquid assets (current cash balances, restricted and unrestricted, plus marketable securities).
- 6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed, along with stated and possible sanctions, whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Grand Trunk Western Railroad Inc. (the "Company") has access either directly or indirectly through its parent company, Grand Trunk Corporation, to credit lines of US \$400 million and CA \$100 million.

The maximum amount of outstanding borrowings during 2001 was \$ 22 million, excluding non-interest bearing loans from Canadian National Railway Company, at an average rate of 6.75 %.

The Company does not have any compensating balances.

510. SEPARATION OF DEBTHOLDINGS BETWEEN ROAD PROPERTY AND EQUIPMENT

(Dollars in Thousands)

The principal use of this schedule is to determine the average rate of debt capital.

I. Debt Outstanding at End of Year

Line	Account	Title	Source	Balance	Line
No.	No.			Close of Year	No.
	(a)	(b)	(c)	(d)	1
1	751	Loans and notes payable	Sch 200, Line 30	(0)	1
2	764	Equipment obligations and other long-term de at due within one year	Sch 200, Line 39	1,871	2
3	765/767	Funded debt unmatured	Sch 200, Line 41	1,071	3

13		Percent directly related to road	Line 10 /Line 12	1,071	13
			Whole % + 2 decimals		
14		Percent directly related to equipment	Line 11 /Line 12	100.00%	14
			Whole % + 2 decimals	100.0070	
15		Debt not directly related to road and equipment	Line 9 - Line 12	100,000	15
16		Road property debt (Note 2)	(Line 13 x Line 15) + Line 10		16
17		Equipment debt (Note 2)	(Line 14 x Line 15) + Line 11	101,871	17

II. Interest Accrued During the Year

No.	Account No.	Title	Source	Balance Close of Year	Line
	(a)	(b)	(c)	(d)	No.
18	546-548	Total interest and amortization (fixed charges)	Sch 210, Line 42	7.383	18
19	546	Contingent interest on funded debt	Sch 210, Line 44	7,505	19
20	517	Release of premium on funded debt	Sch 210, Line 22		20
21		Total interest (Note 3)	(Line 18 + Line 19) - Line 20	7,383	
22		Interest directly related to road property debt	Note 4	1,505	22
23		Interest directly related to equipment debt	Note 4	146	
24		Interest not directly related to road or equipment property debt	Line 21 - (Lines 22 + 23)	7,237	
25		Interest on road property debt (Note 5)	Line 22 + (Line 24 x Line 13)	- 1,257	25
26		Interest on equipment debt (Note 5)	Line 23 + (Line 24 x Line 14)	7,383	
27		Embedded rate of debt capital - road property	Line 25 / Line 16	7,505	27
28		Embedded rate of debt capital - equipment	Line 26 / Line 17	7.25%	_

Note 1: Directly related means the purpose which the funds were used for when the debt was issued.

Note 2: Line 16 plus Line 17 must equal Line 9.

Note 3: Line 21 includes interest on debt in Account 769 - Accounts Payable; Affiliated Companies.

Note 4: This interest relates to debt reported on Lines 10 and 11, respectively.

Note 5: Line 25 plus Line 26 must equal Line 21

Road Initials:

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 512

1. Furnish the information called for below between the respondent and the affiliated companies or persons affiliated with the respondent, including officers, directors, stockholders, owners, partners or their wives and other close relatives, or their agents. Examples of transactions are, but are not restricted to, management, legal, accounting, purchasing or other type of service including the furnishing of materials, supplies, purchase of equipment, leasing of structures, land and equipment, and agreements relating to allocation of officers' salaries and other common costs between affiliated companies.

To be excluded are payments for the following types of services:

- (a) Lawful tariff charges for transportation services
- (b) Payments to or from other carriers for interline services and interchange of equipment.
- (c) Payment to or from other carriers which may reasonably be regarded as ordinarily connected with routine operation or maintenance, but any special or unusual transactions should be reported.
- (d) Payments to public utility companies for rates or charges fixed in conformity with government authority.
- 2. In column (a) enter the name of the affiliated company, person, or agent with which respondent received or provided services aggregating \$50,000 or more for theyear. If an affiliated company provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, list all the affiliates included in the agreement and describe the allocation of the charges. If the respondent provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, reference to this fact should be made and the detail as to the allocation of charges should be stated. For those affiliates providing services to the respondent, also enter in column (a) the percent of affiliate's gross income derived from transactions with the respondent.

The respondent may be required to furnish as an attatchment to Schedule 512 a balance sheet and income statement for each affiliate with which respondent carrier had reportable transactions during the year, or alternatively, attatch a "Pro forma" balance sheet and income statement for that portion or entity of each affiliate which furnished the agreed to services, equipment, or other reportable transaction. The statements, if required, should be prepared on a calendar year basis in conformity with the prescribed schedules for the balance sheet and income statement in Annual Report Form R-1, and should be noted (1) to indicate the method used for depreciating equipment or other property furnished the carrier, and (2) whether the affiliate's Federal income tax return for the year was filed on a consolidated basis with the respondent carrier.

- 3. In column (b) indicate nature of relationship or control between the respondent and the company or person identified in column (a) as follows:
 - (a) If respondent directly controls affiliate, insert word "direct".
 - (b) If respondent controls through another company, insert the word "indirect".
 - (c) If respondent is under common control with affiliate, insert the word "common".
 - (d) If respondent is controlled directly or indirectly by the company listed in column (a), insert the word "controlled".
 - (e) If control is exercised by other means such as a management contract or other arrangement of whatever kind, insert the word "other" and footnote to describe such arrangements.
- 4. In column (c) fully describe the transactions involved such as management fees, lease of building, purchase of material, etc. When the affiliate listed in column(a) provides more than one type of service in column (c), list each type of service separately and show total for the affiliate. When services are both provided and received between the respondent and an affiliate they should be listed separately and the amounts shown separately in column (e).
- 5. In column (d) report the dollar amounts of the transaction shown and the effect of any change in the method of establishing the terms from that used in the preceding period.
- 6. In column (e) report the dollar amounts due from or to related parties and, if not otherwise apparent, the terms and manner of settlement. Insert (P) paid or (R) received by the amount in column (e).

Road Initials:

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

(1) Line owned by respondent

(2) Line owned by proprietary companies

(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.

(4) Line operated under contract or agreement for condingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with the respondent.

(5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one-half mile or over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the above list of classifications.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in Column (d) give its entire length (the distances between terminals of single or first main track), and in the following columns the lengths of second main track; all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

RUNNING TRACKS: Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.

WAY SWITCHING TRACKS: Station, team, industry and other switching tracks for which no separate service is maintained.

YARD SWITCHING TRACKS: Yard where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e. one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent. But in the case of any such inclusion, the facts of the relationship to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs. If it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3), except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also, on main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be the entire length of the portion jointly held. The class symbol should have the letter (j) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

	1	or track included in preceding grand total	N/A							36

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's portion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in columns (b), (c), (d), or (e), as may be appropriate. The remainder of jointly operated mileage should be shown in column (f). Respondent's proportion of road jointly owned, not operated, should be shown in column (h), as may be appropriate. Mileage which has been permanently abandoned should not be included in column (h). Mileage should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

Instructions for reporting locomotive and passenger-train car data.

- Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
- In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.
- 3. Units leased to others for a period of one year or more are reportable in column (1). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i).
- 4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operation at terminals.
- 5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from a third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.
- 6. A "diesel" unit includes all units propelled by diesel internal combustion engines regardless of final drive or whether power may at times be supplied from an external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "electric" unit includes all units which receive electric power from an overhead contact wire or a third rail, and use the power to drive one or more electric motors that propel the vehicle. An "other self-powered unit" includes all units other than diesel, or electric, e.g., gas turbine, steam. Show type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "auxiliary unit" includes all units used in conjunction with locomotives, but which draw their power from the "mother" unit, e.g.,

boosters, slugs, etc. For reporting purposes, indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "auxiliary units".

- 7. Column (k) should show aggregate capacity for all units reported in column (j), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars, report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.
- 8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.
 - 9. Cross-checks

Schedule 710	Schedule 710
Line 5, column (j)	= Line 11, column (1)
Line 6, column (j)	= Line 12, column (1)
Line 7, column (j)	= Line 13, column (1)
Line 8, column (j)	= Line 14, column (1)
Line 9, column (j)	= Line 15, column (I)
Line 10, column (j)	= Line 16, column (1)

When data appear in column (j) lines 1 thru 8, column (k) should have data on same lines.

When data appear in columns (k) or (l) lines 36 thru 53, and 55, column (m) should have data on same lines.

710. INVENTORY OF EQUIPMENT - Continued

4. Column (m) should show aggregate capacity for all units reported in columns (k) and (l), as follows. For freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to customarily carry.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

NOTES AND REMARKS

710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

(Dollars in thousands)

- 1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S), including units acquired through capitalized leases (L).
- 2. In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of Arnerican Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show the type of equipment as enumerated in Schedule 710.
 - 3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

- 5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.
- 6. All unequipped boxcars acquired in whole or part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULES 720, 721, 723, AND 726

1. For purposes of these schedules, the track categories are defined as follows:

- A Freight density of 20 million or more gross ton-miles per track mile per year (include passing tracks, turnouts, and crossovers)
- B Freight density of less than 20 million gross ton-miles per track mile per year, but at least 5 million (include passing tracks, turnouts, and crossovers)
- C Freight density of less than 5 million gross ton-miles per track mile per year, but at least 1 million (include passing tracks, turnouts, and crossovers)
- D Freight density of less than 1 million gross ton-miles per track mile per year (include passing tracks, turnouts, and crossovers)
- E Way and yard switching tracks (passing tracks, crossovers and turnouts shall be included in category A, B, C, D, F, and potential abandonments, as appropriate).
- F Track over which any passenger service is provided (other than potential abandonments). Mileage should be included within track categories A through E unless there is dedicated entirely to passenger service F.

Potential abandonments - Foute segments identified by railroads as potentially subject to abandonment as required by Section 10903 of the ICC Termination Act of 1995.

- 2. This schedule should include all class 1, 2, 3, or 4 track from schedule 700 that is maintained by the respondent (class 5 is assumed to be maintained by others).
- 3. If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year.
- 4. Traffic density related to passenger service shall not be included in the determination of the track category of a line segment.

720. TRACK AND TRAFFIC CONDITIONS

1. Disclose the requested information pertaining to track and traffic conditions.

Line No.	Track category	Mileage or tracks at end of period (whole numbers)	Average annual traffic density in millions of gross ton-miles per track-mile* (use two decimal places)	Average running speed limit (use two decimal places)	Track miles under slow orders at the end of period	No.
	(a)	(b)	(c)	(d)	(e)	
-	A (a)	633	27.76	24.00	1.50	1
-	A D	192	12.02	20.00	34.10	2
2	C	6	1.40	13.00		3
3	<u>C</u>	43	0.60	10.00		4
4	<u>D</u>	514	xxxxxxxxx	XXXXXXX		5
3	TOTAL	1,388			35.60	6
0	TOTAL	1,300	XXXXXXXXX	XXXXXXX		7
8	Potential abandonments					8

^{*} To determine average density, total track miles (route miles times number of tracks) rather than route miles shall be used.

721. TIES LAID IN REPLACEMENT

- 1. Furnish the requested information concerning ties laid in replacement.
- 2. In column (j), report the total board feet of switch and bridge ties laid in replacement.
- 3. The term 'spot maintenance' in column (k) means repairs to track components during routing inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. 'Percent of spot maintenance' refers to the percentage of total ties or board feet laid in replacement considered to be spot maintenance.
- 4. in No. 9, the average cost per tie should include transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply storage and seasoning yards, and in the case of treating ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in connection with loading or treatment should not be included in this schedule.

Railroad Annual Report R-1

722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

Give particulars of ties laid during the year in new construction during the year. In column (a) classify the ties as follows:

- U Wooden ties untreated when applied.
- T Wooden ties treated before application.
- S Ties other than wooden (steel, concrete, etc.). Indicate type in column (h).

Report new and second-hand (relay) ties separately, indicating in column (h) which ties are new.

In columns (d) and (g) show the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage, and seasoning yard. In the case of treated ties, also show the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines and placing the ties in tracks, and of train service, other

723. RAILS LAID IN REPLACEMENT

- 1. Furnish the requested information concerning rails laid in replacement.
- 2. The term 'spot maintenance' in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. 'Percent of spot maintenance' refers to the percentage of total rails laid in replacement considered to be spot maintenance.
- 3. In No. 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foriegn lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines and placing rails in tracks and of train service in connection with the distribution of rails should not be included in this schedule.

724. RAILS LA'D IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

- 1. Give particulars of all rails applied during the year in connection with the construction of new track. In column (a) classify the kind of rail applied as follows:
- (1) New steel rails, Bessemer process
- (2) New steel rails, open-hearth process
- (3) New rails, special alloy (describe fully in a footnote)
- (4) Relay rails.
- 2. Returns in columns (c) and (g) should be reported in WHOLE numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.
- 3. The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks and of train service in connection with the distribution of the rail should not be included in this schedule.

725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail", the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under Items 2, 3, 4, 6, and 12 shall be obtained from conductor's wheel reports (freight) or similar reports Unit train service is a specialized scheduled shuttle type service in equipment (Railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way Trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through Trains are those trains operated between two or more major concentration or distribution points. Do not include Unit Train statistics in Way or employees. Statistics for Work Trains should be reported under Item 11 only. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, 8-04 and 8-05, as instructed in notes, I, K, and L.

- (A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks, and sidings.
- (B) A train-mile is the movement of a train a distance of one mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as one mile. Train Miles-Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the official time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars.
- (C) A motorcar is a self-propelled unit of equipment designed to carry freight or passengers, and is not considered a locomotive.
- (D) A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of one mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
- (E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instructions (B) regarding fractions and official time tables for computing locomotive-miles.
- (F) Train switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in such service. Include miles allowed for train locomotives for performing switching service at terminals and way stations.
- (G) Yard switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in yard switching service. Include miles allowed for yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
- (H) Use car designations shown in Schedule 710. Under Railroad Owned and Leased cars, Items 4-01 and 4-11, report both foreign cars and respondents' own cars while on the line of the respondent railroad. In Items 4-13 and 4-15, report the private-line categories, miles for private-line cars (whether or flatcars carrying loaded highway trailers or empty highway trailers moving under revenue billings as loaded freight car-miles. Report miles made by flatcars carrying other empty highway trailers as empty freight car-miles. Exclude miles made by motorcars and report miles made by business cars of other than reporting carrier as sleeping car miles in Item 5-03. Report mail, express baggage cars and combination cars other than 5-02 combination cars,
- (I) Exclude from Item 4-01, 4-11, 4-13, and 4-15 car-miles of work equipment, cars carrying company freight and no-payment cars moving in transportation trains. Include such car-miles in Item 4-17, 4-18, and 4-19. No payment car-miles are miles made by private-line cars (other than railroad controlled) and shipper -owned cars for which the railroad does not reimburse the owner on a loaded and/or empty miles basis. If the payment for the loaded miles includes the empty miles, the loaded and empty miles should not be considered no-payment car miles.
- (J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express; miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe, and other cars where services are combined such as baggage, express and mail.
- (K) From conductors' or dispatchers' train reports or other appropriate sources, compute weight in tons (2,000 lbs). Item 6-01 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles). Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight and their contents. Use 150 lbs. as the average weight of contents of each head-end car.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - (Concluded)

- (L) From conductors' train reports or other appropriate sources, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and non-revenue freight moved one mile in transportation train. Include net ton-miles in motorcar trains. Exclude l.c.l. shipment of freight handled in mixed baggage express cars. Total Ton-Miles Revenue Freight should correspond to the Ton-Miles reported on Form CBS.
- (M) Road service represents elapsed time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02 train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.
- (N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.
- (O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for Railway Commissioners for which no revenue is received, trains running special with fire apparatus to save carrier's property from destruction, trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains, trains run solely for the purpose of transporting company material, trains run for distributing material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.
- (P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four: two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondents lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
- (Q) Report vehicle (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
- (R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroads' expense. (Performed at railroads' expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service.) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc., when a tariff provision requires the shipper-motor carrier, etc., and not the railroad to perform that service. Note: the count should reflect the trailer/containers for which expenses are reported in Schedule 417 Line 2 Column (b).
- (S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
- (T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below). Foreign railroad Cars refers to freight cars owned by other railroads, whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the code of car hire rules.

Carriers will be governed by local conditions in determining whether a car at an interchange point should be considered "on line". Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yard (excluding cars which are to be repaired in train yard without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.

Surplus cars are cars which are in serviceable condition for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.

In the space provided, please list all railroads and rail-related affiliated companies which are being reported in this consolidated report, along with the nature of the business for each company.

Name of Affiliate	Nature of Business
Grand Trunk Corporation	Railroad-related
Grand Trunk Western Railroad	Railroad
Duluth, Winnipeg & Pacific Company	Railroad
Saint-Clair Tunnel Company	Tunnel operator, Railroad-related
Illinois Central Corporation	Railroad-related
Illinois Central Railroad Company	Railroad
Kensington and Eastern Railroad Company	Railroad
Waterloo Railway Company	Railroad
Mississipi Valley Corporation	Railroad-related
Chicago, Central & Pacific Holdings, Inc.	Railroad-related
Chicago, Central & Pacific Railroad Company	Railroad
Cedar River Railroad Company	Railroad
Iron Horse Properties, Inc.	Raliroad-related
Missouri River Bridge Company	Bridge operator, Railroad-related
IC Financial Services Corporation	Rail Equipment Leasing
IC Leasing Corporation !	Rail Equipment Leasing
IC Leasing Corporation II	Rail Equipment Leasing
IC Leasing Corporation III	Rail Equipment Leasing
Wisconsin Central Transportation Corporation	Railroad-related
Fox Valley & Western, Ltd.	Railroad
Sault Ste. Marie Bridge Company	Railroad
Wisconsin Chicago Link Ltd.	Railroad
Wisconsin Central Ltd.	Railroad
WCL Railcars, Inc.	Rail Equipment Leasing

NOTICE

Wisconsin Central Transportation Corporation (WC) was consulidated effective October 9, 2001, the date the Company acquired control of WC.

toad Initials : GTC Year: 2001

SCHEDULE 250 - PART B

Determination of Nonrail Taxes

This table is designed to facilitate the calculation of taxes that are not rail-related. The amount to be reported on Schedule 250, Line 3.

PART I - DETERMINE TAXES ON NONRAILROAD INCOME FOR ALL COMBINED / CONSOLIDATED RAILROADS (EXCLUDES ALL RAIL-RELATED AFFILIATES)

(1)	Determine Combined / Consolidated Adjusted income from continuing operations (before taxes) for all affiliated railroads (all classes). Do not include rail-related affiliates that are not railroads in this part. This represents the total combined / consolidated amounts for all items listed below for railroads in the reporting entity.	
	Income from continuing operations (before taxes) should be the equivalent of the numbers contained in the R-1 Schedule 210, Line 46, adjusted to include all railroads in the reporting entity.	154,088
	- Equity in undistributed earnings, which represents the total of Schedule 210, Line 26, for all railroads in the reporting entity	1,586
	- Dividends in affiliated companies. (If the affiliate is 80% or more controlled by the parent railroad, then deduct 100% of the affiliate's dividend. It'the affiliate is less than 80% controlled by the parent railroad, then deduct 80% of the affiliate's dividend.	
	= Adjusted income from continuing operations (before taxes). This represents "A" in item (3) below.	152,502
(2)	Determine Combined / Consolidated Adjusted Pre-tax NRO! for all railroads in the reporting entity	
	Combined / Consolidated Pre-Tax NROI for the entire entity, which equals the amount shown on Schedule 250, Line 1.	199,813
	+ Current provision for taxes, which represents the consolidated amounts of Schedule 210, Line 51, for all railroads in the reporting entity. (This figure includes both Account 556, Income Taxes on Ordinary Income and Account 557, Provision for Deferred Taxes.	76,759
	 Interest income on working capital allowance, which represents the total consolidated interest income relative to the working capital component of the net investment base and should equal the amount shown in Schedule 250, Line 2, for all railroads in the reporting entity. 	39
	+ Release of premiums on funded debt, which represents the consolidated total of the release of premium on funded debt as shown on Schedule 210, Line 22, for all railroads in the reporting entity.	٠.
	 Total fixed charges, which represents the consolidated total of fixed charges as shown on Schedule 210, Line 42 for all railroads in the reporting entity 	105,036
	- Railroad-related income from affiliated (other then railroads) which was included in consolidated NROI (Schedule 250, Line 1).	48,166
	= Combined / Consolidated Pre-tax Adjusted NROI for all railroads. This represents "B" in item (3) below.	123,409
(3)	Calculate the railroad-related tax ratio: "B/A"	80.92%
(4)	Compute the nonrailroad-related complement (1 - Railroad-related Income ratio) which equals the Nonrailroad-related tax ratio.	19.08%
(5)	Compute the nonrallroad portion of the total provision for taxes. This equals:	
	The Nonraliroad- related tax ratio (Itam (4) above) times the total current taxes accrued on ordinary income (Account 556) which represents the consolidated amounts of Schedule 210, Line 47, 48 and 49 for all railroads in the reporting entity.	(3,227)
PAR	T II - DETERMINE NONRAILROAD-RELATED TAXES FOR RAIL-RELATED AFFILIATES (EXCLUDES ALL AFFILIATED RAILROAD	S)
(6)	This is calculated by dividing the nonrailroad-related income for combined rail-related affiliates by the total pre-tax net income for all combined rail-related affiliates and multiplying this result by the total taxes (current provision plus deferred). This equals the taxes on nonrailroad income for all affiliated companies.	91
	PART III - DETERMINE TOTAL NONRAILROAD-RELATED TAXES	
(7)	This is determined as follows:	
	Total income taxes on nonraliroad-related income for all railroads in the reporting entity (item (5) above).	(3,227)
	+ Total Nonrailroad-related taxes for rail-related affiliated (item (6) above).	91
	Equals total nonrailroad-related taxes. (This amount should be transferred to Schedule 250, Part A, Line 3).	(3,136)
