Class I Railroad Annual Report

| TRUNK CORPORATION GAUCHETIERE STREET WEST (FINANCIAL REPORTING) AL, QUEBEC (CANADA) |
|--|
| ull name and address of reporting carrier |
| ull name iling labe |

To The Surface Transportation Board

For the Year Ending December 31, 2008

NOTICE

- This report is required for every class I railroad operating within the United States. Three copies of this Annual Report should be completed. Two of the copies must be filed with the Surface Transportation Board. Office of Economics. Environmental Analysis. and Administration. The Mercury Building. 1925 K St. N.W., Suite 500, Washington, DC 20423. by March 31 of the year following that for which the report is made. One copy should be retained by the carrier.
- 2. Every inquiry must be definitely answered. Where the word "none" truly and completely states the fact, it should be given as the answer. If any inquiry is inapplicable, the words "non applicable" should be used.
- 3. Wherever the space provided in the schedules is insufficient to permit a full and complete statement of the requested information, inserts should be prepared and appropriately identified by the number of the schedule.
- 4. All entries should be made in a permanent black ink or typed. Those of a contrary character must be indicated in parenthesis. Items of an unusual character must be indicated by appropriate symbols and explained in footnotes.
- 5. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.
- 6. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the following meanings:
 - (a) Board means Surface Transportation Board
 - (b) Respondent means the person or corporation in whose behalf the report is made.
 - (c) Year means the year ended December 31 for which the report is being made.
 - (d) Close of the Year means the close of business on December 31 for the year in which the report is being
 - made. If the report is made for a shorter period than one year, it means the close of the period covered by the report. (e) Beginning of the Year means the beginning of business on January 1 of the year for which the report is
 - being made. If the report is made for a shorter period than one year, it means the beginning of that period. (f) Preceding Year means the year ended December 31 of the year preceding the year for which the report
 - is made.

(g) The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49. Code of Federal Regulations, as amended.

- The ICC Termination Act of 1995 abolished the Interstate Commerce Commission and replaced it with the Surface Transportation Board. Any references to the Interstate Commerce Commission or Commission contained in this report refer to the Surface Transportation Board.
- 8. Any references to the Bureau of Accounts or the Office of Economics contained in this report refer to the Office of Economics, Environmental Analysis, and Administration of the Surface Transportation Board.
- 9. NOTE An additional line has been added to Schedule 755 (Line 134) effective with the 2004 R-1. Also note that the instructions for completion of Schedule 755 now have two additional items (Instructions U and V).
- 10. NOTE The columns in Schedule 710-Distribution of Locomotive Units In Service of Respondent At Close Of Year, Disregarding Year of Rebuilding have been revised to reflect new five year periods.
- 11. NOTE The following supplemental information about STB information collections is provided in compliance with OMB requirements and pursuant to the Paperwork Reduction Act of 1995. 44 U.S.C. 3501 et seq.:

Supplemental Information about the Annual Report (R-1)

This information collection is mandatory pursuant to 49 U.S.C. 11145.

The estimated hour burden for filing this report is less than 800 hours.

Information in the Annual Reports is used to monitor and assess railroad industry growth. financial stability, traffic. and operations and to identify industry changes that may affect national transportation policy. In addition, the Board uses data from these reports to more effectively carry out regulatory responsibilities, such as acting on railroad requests for authority to engage in Board regulated financial transactions (for example, mergers, acquistions of control, consolidations, and abandonments); conducting investigations and rulemakings; conducting rail revenue adequacy proceedings; developing rail cost adjustment factors; and developing the URCS, which is a cost measurement methodology. URCS was developed by the Board pursuant to 49 U.S.C. 11161 and is used as a tool in rail rate proceedings to calculate the variable costs associated with providing a particular service in accordance with 49 U.S.C. 10707(d). The Board also uses URCS to analyze the information that it obtains through the annual railroad industry waybill sample, see 49 CFR 1244, and in railroad abandonment proceedings to measure off-branch costs, pursuant to 49 U.S.C. 10904(a) and in accordance with 49 CFR 1152.32(n).

The information in this report is ordinarily maintained by the agency in hard copy for 10 years, after which it is transferred to the National Archives, where it is maintained as a permanent record. These reports are also maintained by the agency indefinitely on microfiche. In addition, some of this information is posted on the Board's website. <u>www.stb.dot.gov</u>, where it may remain indefinitely. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0009. The display of currently valid OMB control number is required by law.

Supplemental Information about the Quarterly Condensed Balance Sheet (CBS)

This information collection is mandatory under 49 CFR 1243.2.

The estimated hour burden for filing this report is six hours per report.

The Board uses the information in this report to ensure competitive, efficient, and safe transportation through general oversight programs that monitor and forecast the financial and operating condition of railroads, and through specific regulation of railroad-rate and service issues and rail-restructuring proposals, including railroad mergers, consolidations, acquisitions of control, and abandonments. Information from the reports is used by the Board, other Federal agencies, and industry groups, including the Association of American Railroads, to assess industry growth and operations, detect changes in carrier financial stability, and identify trends that may affect the national transportation system.

Information from these reports is compiled by the Board and published on its website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. The compilation report is entitled <u>Class I Railroads</u>, <u>Selected</u> <u>Earnings Data</u>. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The display of a currently valid OMB control number for this collection is required by law.

Supplemental Information about the Quarterly Report of Revenues, Expenses and Income (Form RE&I)

This information collection is mandatory pursuant to 49 U.S.C. 11164 and 49 CFR 1243.1.

The estimated hour burden for filing this report is six hours per report.

The Board uses the information in this report to ensure competitive, efficient, and safe transportation through general oversight programs that monitor and forecast the financial and operating condition of railroads, and through regulation of railroad rate and service issues and rail restructuring proposals. including railroad mergers, consolidations, acquisitions of control, and abandonments. Information from the reports is used by the Board, other Federal agencies and industry groups to monitor and assess industry growth and operations, detect changes in carrier financial stability, and identify trends that may affect the national transportation system. Individual and aggregate carrier information is needed in our decision making process.

Information from these reports is compiled by the Board and published on its website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. The compilation report is entitled <u>Class I Railroads</u>, <u>Selected</u> <u>Earnings Data</u>. In addition, paper copies of individual reports are maintained by the Board for ten years. after which they are destroyed. All information collected through this report is available to the public.

The display of a currently valid OMB control number for this collection is required by law.

Supplemental Information about the Report of Railroad Employees, Service, and Compensation (Wage Forms A & B)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1245.2.

The estimated hour burden for filing this report is 30 hours per quarterly report and 40 hours per annual report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. The information is also used by the Board to evaluate proposed regulated transactions that may impact rail employees. These transactions include mergers and consolidations, acquisitions of control, purchases and abandonments. Other Federal agencies and industry groups, including the Railroad Retirement Board, the Bureau of Labor Statistics, and the Association of American Railroads, depend on the information contained in the reports to monitor railroad operations.

Certain information from the reports is compiled and published on the Board's website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0004. The display of currently valid OMB control number is required by law.

Supplemental Information about the Monthly Report of Number of Employees of Class I Railroads (Wage Form C)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1246.1.

The estimated hour burden for filing this report is 1.25 hours per monthly report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. The information is also used by the Board to evaluate proposed regulated transactions that may impact rail employees, including mergers and consolidations, acquisitions of control, purchases, and abandonments. Other Federal agencies and industry groups, including the Railroad Retirement Board, the Bureau of Labor Statistics, and the Association of American Railroads, depend on the information contained in the reports to monitor railroad operations.

· - -

The information in this report is compiled and published on the Board's website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0007. The display of a currently valid OMB control number is required by law.

Supplemental Information about the Annual Report of Cars Loaded and Cars Terminated (Form STB-54)

This information collection is mandatory pursuant to 49 U.S.C. 11162 and 49 CFR 1247.

The estimated hour burden for filing this report is four hours per report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. Information in this report is entered into the Board's URCS. In addition, many other Federal agencies and industry groups, including the Department of Transportation and the Association of American Railroads (AAR), depend on Form STB-54 for information regarding the number of cars loaded and terminated on the reporting carrier's line.

All information collected through this report is available to the public. Paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed.

The OMB control number for this collection is 2140-0011. The display of a currently valid OMB control number is required by law.

Supplemental Information about the Quarterly Report of Freight Commodity Statistics (Form QCS)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1248.

The estimated hour burden for filing this report is 217 hours per report.

Information in this report is entered into the Board's URCS.

All information collected through this report is available to the public. Paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed.

The OMB control number for this collection is 2140-0001. The display of a currently valid OMB control number is required by law.

SPECIAL NOTICE

Docket Number 38559 Railroad Classification Index. (ICC served January 20, 1983), modified the reporting requirements for Class II. Class III, and Switching and Terminal companies. These carriers will notify the Board only if the calculation results in a different revenue level than its current classification.

The dark border on the schedule represents data that are captured for processing by the Board.

It is estimated that an average of 800 burden hours per response are required to complete this collection of information. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be addressed to the Office of the Secretary, Surface Transportation Board.

A. SCHEDULES OMITTED BY RESPONDENT

1. The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not applicable.

2 Show the pages excluded, as well as the schedule number and title, in the space provided below.

3. If no schedules were omitted indicate "NONE".

| | Gains | Losses |
|------------|-------|--------|
| Current | - | - |
| Noncurrent | - | |

A net unrealized gain (loss) of S_____N/A____on the sale of marketable equity securities was included in net income for 2008.

The cost of securities sold was based on the _____ N/A ____ (method) cost of all the shares of cach security held at time of sale

Significant net realized and net unrealized gains and losses arising after date of financial statements but prior to filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below.

NOTE: 12/31/2008 - Balance Sheet date of reported year unless specified as previous year.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - CONSOLIDATION AND PRESENTATION

Grand Trunk Corporation and all subsidiaries, collectively "GTC" or "the Company", are engaged in the rail and related transportation business GTC's revenues are derived from the movement of a diversified and balanced portfolio of goods, including petroleum and chemicals, grain and fertilizers, coal, metals and minerals, forest products, intermodal and automotive

These consolidated financial statements include the accounts of Grand Trunk Corporation and all of its subsidiaries.

US Companies consolidated in this report include:

Grand Trunk Corporation Grand Trunk Western Railroad Company Duluth, Winnipeg and Pacific Railway Company Illinois Central Corporation Illinois Central Railroad Company Mississippi Valley Corporation Waterloo Railway Company CN WorldWide North America (USA) Inc. IC Financial Services Corporation IC Leasing Corporation I IC Leasing Corporation II IC Leasing Corporation III CN WorldWide Distribution Services (USA) Inc. Stellar Distribution Services Inc. CCP Holdings Inc. Chicago Central and Pacific Railroad Company Cedar River Railroad Company Iron Horse Properties Inc. Missouri River Bridge Company Wisconsin Central Transportation Corporation Wisconsın Central Ltd. Wisconsin Chicago Link Ltd. Sault Ste. Marie Bridge Company Bessemer and Lake Erie Railroad Duluth, Missabe and Iron Range Railway Company The Pittsburgh and Conneaut Dock Company GLT Management Co Cuyahoga Dock, Inc. CN WorldWide Ground (USA) Inc. CN Customs Brokerage Services (USA) Inc. CN Financial Services II (Nova Scotia) Corporation CN Financial Services III, LLC CN Financial Services V, LLC

All non-U.S. subsidiaries and non-rail U.S. subsidiaries are accounted for using the equity method

NOTES TO FINANCIAL STATEMENTS

(Dollars in Thousands)

NOTE 2 - PENSIONS

Pension costs are determined using actuarial methods. Net periodic benefit cost is charged to income and includes;

(1) the cost of pension benefits provided in exchange for employees' services rendered during the year,

- (11) the interest cost of pension obligations,
- (iii) the expected long-term return on pension fund assets,
- (iv) the amortization of prior service costs and amendments over the expected average remaining service life of the employee group covered by the plans, and
- (v) the amortization of cumulative net actuarial gains and losses in excess of 10% of, the greater of the beginning of the year balances of the projected benefit obligation or market-related value of plan assets, over the expected average remaining service life of the employee group covered by the plans.

The pension plans are funded through contributions determined in accordance with the projected unit credit actuarial cost method.

Accounting Change

On January 1, 2007, pursuant to SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106. and 132(R)," the Company early adopted the requirement to measure the defined benefit plan assets and the projected benefit obligation as of the date of the fiscal year-end statement of financial position for its U.S. plans. The Company elected to use the 15-month transition method, which allows for the extrapolation of net periodic benefit cost based on the September 30, 2006 measurement date to the fiscal year-end date of December 31, 2007. As a result, the Company recorded a reduction of \$2,603 thousand to Retained earnings at January 1, 2007, which represented the net periodic benefit cost pursuant to the actuarial valuation attributable to the period between the early measurement date of September 30, 2006 and January 1, 2007 (the date of adoption).

Information about the Company's defined benefit pension plans

The following disclosures in relation to the Company's defined benefit pension plans are made pursuant to SFAS No. 158 requirements. (a) Change in benefit obligation

| 2013 | | 17,237 |
| Years 2014 to 2018 | | 78,782 |

NOTES TO FINANCIAL STATEMENTS

NOTE 3 - CONTINGENT LIABILITIES

The Company becomes involved, from time to time, in various legal actions seeking compensatory, and occasionally punitive damages, including actions brought on behalf of various purported classes of claimants and claims relating to personal injuries, occupational disease, and property damage, arising out of harm to individuals or property allegedly caused by derailments or other accidents

Employee work-related injuries, including occupational disease claims, are compensated according to the provisions of the Federal Employers' Liability Act (FELA), which requires either the finding of fault through the U.S. jury system or individual settlements, and represent a major liability for the railroad industry. The Company follows an actuarial-based approach and accrues the expected cost for personal injury and property damage claims and asserted and unasserted occupational disease claims, based on actuarial estimates of their ultimate cost.

In 2008, 2007 and 2006, the Company recorded net reductions to its provision for U.S. personal injury and other claims pursuant to the results of external actuarial studies of \$23 million, \$93 million and \$54 million, respectively. The reductions were mainly attributable to decreases in the Company's estimates of unasserted claims and costs related to asserted claims as a result of its ongoing risk mitigation strategy focused on prevention, mitigation of claims and containment of injuries, lower settlements for existing claims and reduced severity relating to non-occupational divease claims.

Due to the inherent uncertainty involved in projecting future events related to occupational diseases, which include but are not limited to, the number of expected claims, the average cost per claim and the legislative and judicial environment, the Company's future obligations may differ from current amounts recorded

At December 31, 2008, 2007, and 2006, the Company's provision for U.S. personal injury and other claims was as follows

| In millions | | 2008 | 2007 | 2006 |
|---------------------|----|------|-----------|-----------|
| Balance January 1. | S | 252 | \$ 349 | \$ 388 |
| Accruals and other | | 3 | (51) | (6) |
| Payments | | (37) | (46) | (33) |
| Balance December 31 | \$ | 218 | \$ 252 | \$ 349 |

Although the Company considers such provisions to be adequate for all its outstanding and pending claims, the final outcome with respect to actions outstanding or pending at December 31, 2008, or with respect to future claims, cannot be predicted with certainty, and therefore there can be no assurance that their resolution will not have a material adverse effect on the Company's financial position or results of operations in a particular quarter or fiscal year.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - RELATED PARTY_TRANSACTIONS

Canadian National Railway Company (CN) is the Parent Company of GTC.

Amounts owed to or receivable from related parties as at December 31, 2008 and 2007 are as follows:

| Party | Classification in the Company's consolidated financial statements | 2008 | 2007 |
|----------------------|---|------------------|-------------|
| Parent Company | Receivables from affiliated companies (Acct 708 5) (a) | \$ 414,006 \$ | 188,622 |
| | Payables to affiliated companies (Acct 757) (a) | (1,110) | - |
| | Accounts payable to affiliated companies (Acct 769) | (1,034,604) | (1,022,289) |
| Affiliated companies | Receivables from affiliated companies (Acct 708 5) (a) | 678 | 1,428 |
| | Advances from affiliated companies (Acct 721) | (104,991) | (143,551) |
| | Payables to affiliated companies (Acct 757) (a) | (61) | • |
| | Accounts payable to affiliated companies (Acct 769) | (2,658,000) | (2,488,000) |

The following transactions affecting the shareholder's equity were concluded with related parties.

| Party | Classification in the Company's consolidated financial statements | | 2008 | 2007 | |
|----------------|--|----|----------------------|------------------|--|
| Parent Company | Total Capital Stock (Acct 791) Additional capital (Acct 794, 795) | \$ | (10) \$ (102,114) | (10) (91,525) | |

The following transactions were concluded with related parties in the normal course of business and are measured at the exchange amount of the consideration established and agreed to in the contractual arrangements between the related parties:

| Party | Nature of transaction with the related party | Classification in the Company's consolidated financial statements | 2008 | 2007 |
|----------------------|---|---|---------|---------|
| Parent Company | Interest expense on long-term debt | Interest expense (Acct 546a) | 66,183 | 31,536 |
| Affiliated companies | Interest expense on long-term debt | Interest expense (Acct 546a) | 161,944 | 189,335 |

(a) Advances to and from affiliates relating to the collection of GTC's portion of the inter-line move bear no interest and no specific repayment terms.

(b) From time to time, the Parent Company issues 3rd party debt to fund its financing requirements for general and specific business purposes. Cash funds are made available to GTC and its subsidiaries by the Parent Company or its affiliates by way of additional investments in GTC or through long term advances. These advances bear various interest rates and have specific repayment terms.

(c) The Parent Company charges a fee for management services it performs on behalf of GTC. As a result, GTC incurred management fees totalling \$73,563 and \$55,658 for 2008 and 2007, respectively. Road Initials: GTC Y

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - ACQUISITIONS

Acquisition of Elgin, Joliet and Eastern Railway Company (EJ&E) - Subsequent event In September 2007, the Company and U.S. Steel Corporation (U.S. Steel), the indirect owner of the EJ&E, announced an agreement under which the Company would acquire the principal lines of the EJ&E for a purchase price of approximately U.S. \$300 million. Under the terms of the agreement, the Company would acquire substantially all of the railroad assets and cquipment of EJ&E, except those that support the Gary Works site in northwest Indiana and the steelmaking operations of U.S. Steel.

The Company has received all necessary regulatory approvals, including the U.S. Surface Transportation Board (STB) ruling rendered on December 24, 2008. On January 31, 2009, the Company completed its acquisition of the EJ&E for a purchase price of U.S. \$300 million, paid with cash on hand.

Over the next few years, the Company has committed to spend approximately U.S. \$100 million for infrastructure improvements and over U.S. \$60 million under a series of mitigation agreements with individual communities, as well as under a comprehensive voluntary mitigation program that addresses municipalties' concerns raised during the regulatory approval process. Expenditures for additional STB-imposed mitigation are being currently evaluated by the Company.

The Company accounted for the acquisition using the purchase method of accounting pursuant to SFAS No. 141 (R), "Business Combinations," which became effective for acquisitions closing on or after January 1, 2009.

NOTES AND REMARKS FOR SCHEDULES 210 AND 220

Schedule 220 Notes and Remarks

Account 616, other debits to retained earnings (Line 8), represents amounts related to Other comprehensive income. See Schedule 460, Line (3) and (4).

Dividends (Line 11 column (c)) represents dividends from equity investments and are reversed in column (b) since there is no impact on consolidated retained earnings.

-

.

220 - RETAINED EARNINGS

(Dollars in Thousands)

- 1. Show below the items of retained earnings accounts of the respondent for the year, classified in accordance with the Uniform System of Accounts for Railroad Companies.
- 2. All contra entries hereunder should be shown in parentheses.
- 3. Show in lines 22 and 23 the amount of assigned Federal income tax consequences for accounts 606 and 616.
- 4. Segregate in column (c) all amounts applicable to the equity in undistributed earnings (losses) of affiliated companies based on the equity method of accounting.
- 5. Line 3 (line 7 if debit balance), column (c), should agree with line 26. column (b). Schedule 210. The total of columns (b) and (c), lines 3 and 7, should agree with line 61 column (b), Schedule 210.
- 6. Include in column (b) only amounts applicable to retained earnings exclusive of any amounts included in column (c).

240. STATEMENT OF CASH FLOWS

(Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers and cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If direct method is used complete lines 1 - 41 indirect method complete lines 10 - 41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity, acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a morgage to the seller: obtaining an asset by entering into a capital lease, and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash, only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of Cash Flows, for further details.

| 28 | TOTAL WORKING CAPITAL | Line 24 + line 27 | 43,651 | 28 |

NOTES:

(A) Use common carrier portion only. Common carrier refers to railway transportation service.

(B) Rent income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expenses.

(C) If result is negative, use zcro.

NOTES AND REMARKS

(THIS PAGE INTENTIONALLY LEFT BLANK)

Railroad Annual Report R-1

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

- 1 Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721. "Investments and Advances Affiliated Companies", in the Uniform System of Accounts for Raihoad Companies.
- 2 List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order-
 - (A) Stocks
 - Carriers active
 - (2) Carriers inactive
 - (3) Noncarriers active
 - (4) Noncarriers inactive
 - (B) Bonds (including U S. Government bonds)
 - (C) Other secured obligations
 - (D) Unsecured notes
 - (E) Investment advances
- 3 The subclassification of classes (B), (C), (D) and (E) should be the same as that provided for class (A).
- 4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporation, the symbols and industrial classification to be as follows:
 - Symbol Kind Of Industry
 - I Agriculture, forestry, and fisheries
 - II Mining
 - III Construction
 - IV Manufacturing
 - V Wholesale and retail trade
 - VI Finance, insurance, and real estate
 - VII Transportation, communications, and other public utilities
 - VIII Services
 - IX Government
 - X All other
- 5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, during cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire Telegraph and telephone companies are not meant to be included.
- 6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 7 By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs. If it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises
- 8. Combine, in one account, investments in which the original cost or present equity in total assets is less than \$10,000.
- 9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
- 10. Do not include the value of securities issued or assumed by respondent
- 11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, disclose in fooinotes the name and extent of control of the other controlling entities.

310 - INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

(Dollars in Thousands)

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, from accounts 715 (sinking funds), 716 (capital funds), 721 (investments and advances affiliated companies), and 717 (other funds).

2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 25, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).

3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered. Give names and other important particulars of such obligations in footnotes

4. Give totals for each class and for each subclass and a grand total for each account.

5. Entries in column (d) should show date of maturity of bonds and other evidence of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially ______ to _____." Abbreviations in common use in standard financial publications may be used to conserve space.

Railroad Annual Report R-1

(Dollars in Thousands)

6 If any of the companies included in this schedule are controlled by respondent, the percent of control should be shown in column (e) In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In case of joint control, give names of other parties and particulars of control.

7. If any advances reported are pledged, give particulars in a footnote

Year 2008

8 Investments in companies in which neither the original cost or present equity in total assets are less than \$10,000 may be combined in one figure.

9. Also include investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis)

10. This schedule should not include securities issued or assumed by respondent.

11 For affiliates which do not report to the Surface Transportation Board and are jointly owned, give names and extent of control by other entities by footnotes.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

- Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property", and Account No. 732, "Improvements on Leased Property" classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (g) should be the net of the amounts in columns (c) through (f). Column (h) is the aggregate of columns (b) through (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods, if not, a full explanation should be made in a tootnote.
- In column (c). show disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension
 of old lines, as provided for in Instruction 2-1, :"Items to be charged" in the Uniform System of Accounts for Railroad Companies for such
 items.
- 3. In column (d), show the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
- Columns (c) and (c) should include all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
- 5. All credits representing property sold, abandoned, or otherwise retired should be shown in column (f).
- 6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included. Also, the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 7. If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes", state the cost, location, area, and other details which will identify the property in a footnote.
- 8. Report on line 29, amounts not included in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving location and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$5,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state the amount used in a footnote.

NOTES AND REMARKS

* In 2008, CN (including its subsidiary, Grand Trunk Corporation) undertook a review of the classification of its asset categories. The review revealed that certain assets were misclassified. As a result, GTC reclassified the assets in question and adjusted the gross property and accumulated depreciation values. In addition, depreciation expense was calculated based on the adjusted gross property values. The net impact was considered immaterial

332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

(Dollars in Thousands)

1 Show in columns (b) and (c), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-22-00, 35-21 (0), 35-22-00 and 35-25-00. It should include the cost of equipment owned and leased to others when the rents thereform are included in the rent for equipment. Account Nos. 32-21-00, 32-23-00, 32-23-00, 36-21 (0), 36-23-00, 36-23-00, 36-23-00, 36-23-00, 36-23-00, 36-23-00, and 36-25-00, inclusive. The composite rates used should be those presented of otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote

2 All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3 Show in columns (e), (f) and (g) data applicable to lessor property, when the rent therefore is included in Account Nos 31-11-00, 31-12-00, 31-21-00, 31-22-00, and 31-223-00, inclusive

4 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s)

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively

335. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT OWNED AND USED

(Dollars in Thousands)

Disclose the required information regarding credits and debits to Account No. 735, "Accumulated Depreciation Road and Equipment Property" during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and "Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" accounts and "Other Rents - Debit - Equipment" accounts (See Schedule 351 for accumulated depreciation to road and equipment owned and leased to others)
 If any data are included in columns (d) or (f), explain the entries in detail

3 A debit balance in columns (b) or (g) for any primary account should be designated "Dr '

4 If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5 Enter amounts representing amortization under an authorized amortization program other than for defense projects on lines 29 and 39

** Column (d) represents salvage relating to closed projects.

*** Column (f) represents dismantling charges relating to closed projects.

339. ACCRUED LIABILITY - LEASED PROPERTY

(Dollars in Thousands)

i Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property", during the year concerning road and equipment leased from others

2 In column (c), enter amounts charged to operating expenses. In column (e), enter debits to account arising from retirements. In column (f), enter amounts paid to lessor

3 Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained

4 Required disclosure may be omitted if leased road and equipment property represents 5% or less of total property owned and used

5 If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account No 772 are made by the accounting company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof

Year 2008

340. DEPRECIATION BASE AND RATES - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732. "Improvements on Leased Property" The composite rates used should be those prescribed or otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s)

4 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of the total road owned or total equipment owned, respectively However, line 41, Grand Total, should be completed

NOTES AND REMARKS FOR SCHEDULE 342

(THIS PAGE INTENTIONALLY LEFT BLANK)

350. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT LEASED TO OTHERS (Dollars in Thousands)⁻

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00 and 32-23-00.

2 Show in columns (b) and (c), for each property account, the deprectation base used in computing the deprectation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the deprectation charges for which are not included in operating expenses of the respondent, but for which the deprectation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3 In column (d) show the composite rates used to compute the depreciation for December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the effected account(s)

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively However, line 39, Grand Total, should be completed

(Dollars in Thousands)

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00

2 Disclose credits and debits to Account 735, "Accumulated Depreciation - Road Equipment Property", during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent (See schedule 330 for the reserve relating to road and equipment owned and used by the respondent)

3. If any entries are made for column (d) "Other credits" or column (f) "Other debits", state the facts occasioning such entries on page 39 A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr".

4 Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

Railroad Annual Report R-1

-

I

/

Year 2008

Road Initials: GTC

(Dollars in Thousands)

1 In columns (b) through (c) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on Line 44 herein, should correspond with the amounts for each class of company and property shown in Schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in this schedule.

3 Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by noncarrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain on page 39 the methods of estimating value of property on noncarriers or property of other carriers

4 Report on line 30 amounts not includible in the accounts shown, or in line 29 The items reported should be briefly identified and explained. Also included here those items after permission is obtained from the Board for exceptions to prescribed accounting Reference to such authority should be made when explaining amounts reported Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.

412. WAY AND STRUCTURES

(Dollars in Thousands)

i Report irright expenses only.

2 The total depreciation expense reported in column (b), line 29, should balance to the sum of the depreciation expense reported in schedule 410, column (f), lines 136, 137, and 138.

3 Report in column (c) the lease/rentals for the various property categories of Way and Structures The total net lease/rental reported in column (c), line 29, should balance the net amount reported in schedule 410, column (f), lines 118 through 123, plus lines 130 through 135. If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases for all categories of depreciable leased property. Use Schedule 352B of this report to obtain the depreciation bases of the categories of leased property.

4 Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item. The net adjustment on line 29 shall equal the adjustment reported on line 29 of schedule 335

5 Report on line 28, all other lease rentals not apportioned to any category listed on lines 1 through 27

6 Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of schedule 415

NOTES AND REMARKS

(THIS PAGE INTENTIONALLY LEFT BLANK)

Year 2008

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

1 Report freight expenses only

- 2 Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general)
- 3 Report in column (b) net repair expense, excluding the cost to repair damaged equipment

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows

- (a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202, 203 and 216 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 204
- (b) Freight Cars, line 24 plus line 39 compared to the sum of Schedule 410, lines 221, 222 and 235 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223
- (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), plus work and other non-revenue equipment (line 41) compared to Schedule 410, the sum of lines 302 through 307, inclusive, plus line 320 (excluding wreck repairs). Do not report in Schedule 415, equipment damaged from Schedule 410, line 308

Note Lines 216, 235 and 320 of Schedule 410 are credit amounts

The allocation of freight car repair expense reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201

4 Deprectation expense for each class of equipment by car type shall be reported in columns (c) and (d) For improvements on leased property, Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342

Depreciation charges reported in columns (c) and (d) will balance to Schedule 410, column (f), as Follows.

(a) Locomotives, line 5 and 38, compared to Schedule 410, line 213

(b) Freight cars, line 24 and 39, compared to schedule 410, line 232.

- (c) Sum of highway equipment (line 32). floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41) compared to Schedule 410, line 317.
- 5 Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item. The net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335

6. Lease/rentals reported in column (f) should balance to column (f) of Schedule 410 as follows.

- (a) Locomotives, line 5 and 38, compared to Schedule 410, lines 207, 208, 211 and 212.
- (b) Freight cars, line 24 and 39, compared to Schedule 410, lines 226 and 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414, and are not included in Schedule 415).
- (c) Sum of lease/rentals for all other equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing lease/rentals other equipment to Schedule 410. Do not report in Schedule 415, the trailer and container rentals reported in Schedule 414.
- 7 Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of equipment used but not owned when rents therefore are included in the rent for equipment and Account Nos 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the cost of equipment owned and leased to others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00, and 36-23-00.

Property used but not owned should also be included when the rent is included in Account Nos 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h) of Schedule 415

8. Accumulated deprectation for each class of equipment shall be reported in columns (1) and (j) The grand total of each equipment reserve account in column (g). Schedule 335, shall equal the combined aggregate total accumulated deprectation for line items constituting the corresponding equipment accounts reported in columns (1) and (j), on Schedule 415

(1) Data to be reported on lines 38, 39 and 40 in columns (g) and (h) are the investment recorded in property account 44, allocated to locomotives, freight cars, and other equipment.

(2) Depreciation to be reported on lines 38, 39 and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for property account 44, and then adding or subtracting the adjustment reported in column (e) This calculation should equal the amount shown in column (c), Schedule 335.

Report in lines 1, 2, 3, 4, and 10 the total of those natural expenses (salaries and wages, material, tools, supplies, fuels and lubricants, purchased services, and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or within specialized service facilities. When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable to the respondent and only to the services they support. The total expenses in columin (j) should balance with the respective line in Schedule 410, Railway Operating Expenses. | Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up. delivery, or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See Schedule 755, note R. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area should be reported in column (c) has 3. | Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2, column (g), the expenses incurred by the railroad in moving automobiles, etc., between and tri-level auto rack cars. Report on line 2, column (g), the expenses incurred by the railroad in moving automobiles, etc., between bi-level loading and unloading facilities over the highway to shippers, receivers, or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves. | Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (total debits and credits). The expenses on line 4, column (n), relate to reingenator cars only. 418. SUPPORTING SCHEDULE - CAPITAL LEASES (Dollars in Thousands)

Instruction.

This schedule will show the investment in capitalized leases in road and equipment by primary account

Column

;

- (a) = primary account number and title for which capital lease amounts are included therein.
- (b) = the total investment in that primary account
- (c) = the investment in capital leases at the end of the year.
- (d) = the current year amortization

(e) = the accumulated amortization relating to the leased properties

| | | | Capital Leases | |
|-------------------------|------------------|---------------|----------------|--------------|

| 11 | | Total - Railway Taxes | 324,556 | 11 |

B. Adjustments to Federal Income Taxes

- 1 In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income Other particulars which cause such a differential should be listed under the caption "Other (Specify)," including state and other taxes deferred if computed separately Minor items, each less than \$100,000, may be combined in a single entry under "Other (Specify)."
- 2. Indicate in column (b) the beginning of year totals of Accounts 714, 744, 762 and 786 applicable to each particular item in column (a).
- 3. Indicate in column (c) the net changes in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period
- 4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or loss carry-back
- 5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes Extraordinary litems, for the current year
- 6 Indicate in column (c) the cumulative total of columns (b), (c) and (d) The total of column (e) must agree with the total of Accounts 714, 744, 762, and 786.

450. ANALYSIS OF TAXES (Dollars in thousands)

*Footnotes:
1 If flow-through method was elected, indicate net decrease (or increase) in tax accrual because of investment tax credit
N/A
If deferral method for investment tax credit was elected:
(1) Indicate amount of credit utilized as a reduction of tax hability for current year
(2) Deduct amount of current year's credit applied to a reduction of tax hability but deferred for accounting purposes
(3) Balance of current year's credit used to reduce current year's tax accrual
(4) Add amount of pitor year's deferred credits being amortized to reduce current year's tax accrual
(5) Total decrease in current year's tax accrual resulting from use of investment tax credits
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made

Year 2008

460. ITEMS IN SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS FOR THE YEAR

(Dollars in Thousands)

Give a brief description of all items, regardless of amount, included during the year in Account 555, Unusual or Infrequent Items, 560, Income or Loss from Operations or Discontinued Segments, 562, Gain or Loss on Disposal of Discontinued Segments, 570, Extraordinary Items; 590, Income Taxes on Extraordinary Items; 592, Cumulative Effect of Changes in Accounting Principles; 603, Appropriation Released, 606, Other Credits to Retained Earnings, 616, Other Debits to Retained Earnings, 620, Appropriations for Sinking and Other Funds, and 621, Appropriations for Other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.

For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10% of net income before extraordinary items, describe the three largest items in the account and any other items in excess of 10% of net income.

Railroad Annual Report R-I

Year 2008

502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

(Dollars in thousands)

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements Footnote disclosure is required even the arrangement is not reduced to writing

I Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings that are outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.

2 Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed

3. Compensating balance arrangements need only be disclosed for the latest fiscal year

4. Compensating balances included in Account 703, Special Deposits and in Account 717, Other Funds, should also be separately disclosed below

5 Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15% or more of liquid assets (current cash balances, restricted and unrestricted, plus marketable securities)

6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed, along with stated and possible sanctions, whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

GTC. GTW, ICRR and WCL have access to \$185 million of the credit facility discussed in schedule 501.

The maximum amount of outstanding borrowings during 2008 was nil.

At December 31, 2008, there was no outstanding borrowings on the credit facility.

The Companies do not have any compensating balances.

Year 2008

k

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

de la constante de la constant

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

- (1) Line owned by respondent
- (2) Line owned by proprietary companies
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.
- (4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation. or (B) independent or not
- affiliated with the respondent.
- (5) Line operated under trackage rights

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings: i.e., counting one-half mile or over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the above list of classifications.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian milcage should be segregated and identified on separate lines in the various groupings. For each listing, in Column (d) give its entire length (the distances between terminals of single or first main track), and in the following columns the lengths of second main track; all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks: and yard switching tracks. These classes of tracks are defined as follows:

RUNNING TRACKS: Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points. WAY SWITCHING TRACKS Station, team, industry and other switching tracks for which no separate service is maintained. YARD SWITCHING TRACKS: Yard where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e. one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent. But in the case of any such inclusion, the facts of the relationship to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs. If it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3), except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also, on main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be the entire length of the portion jointly held. The class symbol should have the letter (j) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedulc.

NOTES AND REMARKS

.

(THIS PAGE INTENTIONALLY LEFT BLANK)

| TIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 710 | boosters, slugs, etc. For reporting purposes, indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under | "auxiliary units". | Column (k) should show aggregate capacity for all units reported in column (j). as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous neuror output from the discelenging or ensures delivered to the main. | generators porce on the relation of the number of participant of the number of participant of the number of passenger available for revenue service, counting one passenger to each berth in sleeping cars. | Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register. Cross-checks | Schedule 710 Schedule 710 Line 5, column (1) = Line 11, column (1) Line 6, column (1) = Line 12, column (1) Line 7, column (1) = Line 13, column (1) |
|---|---|---|--|---|---|--|
| INSTRUCTIONS CONCERNING RETURN Instructions for reporting locomotive and passenger-train car data. | Give particulars of each of the various classes of equipment which respondent owned or leased during the year | In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a | | (1). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i). | 4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operation at terminals. | 5. A "self-propelled car" is a raul motor car propelled by electric motors receiving power from a third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment. |

Railroad Annual Report R-1

turbine, steam. Show type of unit, service and number, as appropriate, in a brief description units which receive electric power from an overhead contact wire or a third rail, and use conjunction with locomotives, but which draw their power from the "mother" unit, e g., in a footnote giving the number and a brief description. An "electric" unit includes all conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified 6. A "diescl" unit includes all units propelled by diesel internal combustion engines regardless of final drive or whether power may at times he supplied from an external sufficient for positive identification. An "auxiliary unit" includes all units used in the power to drive one or more electric motors that propel the vehicle. An "other self-powered unit" includes all units other than diesel, or electric, e.g., gas

When data appear in columns (k) or (l) lines 36 thru 53, and 55, column (m) should

have data on same lines.

When data appear in column (J) lines 1 thru 8, column (k) should have data on

same lines.

Railroad Annual Report R-1

710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight-train car data

_

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year

2 In column (d) give the number of units purchased or built in company shops In column (e) give the number of new units leased from others The term "new" means a unit placed in service for the first time on any railroad.

3 Units leased to others for a period of one year or more are reportable in column (n) Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i) Units rented from others for a period less than one year should not be included in Column (j).

710. INVENTORY OF EQUIPMENT - Continued

4 Column (m) should show aggregate capacity for all units reported in columns (k) and (l) as follows. For freight-train cars, report the nominal capacity (in tons of 2.000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to customarily carry. 5 Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line hauf mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad

Year 2008

710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

(Dollars in thousands)

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside rathroad shops (C), or built or rebuilt in company or system shops (S), including units acquired through capitalized leases (L).

2. In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710 Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show the type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2.000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

1 Give particulars of all rails applied during the year in connection with the construction of new track

In column (a) classify the kind of rail applied as follows

(1) New steel rails, Bessemer process

(2) New steel rails, open-hearth process

(3) New rails, special alloy (describe fully in a footnote)

(4) Relay rails

2. Returns in columns (c) and (g) should be reported in WHOLE numbers Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.

3 The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid to foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks as well as train service in connection with the distribution of the rail should not be included in this schedule

Railroad Annual Report R-1

Road Initials: GTC 725. WEIGHT OF RAIL Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail", the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held

under any form of lease (granting exclusive possession to the lessee) should be included.

Railroad Annual Report R-1

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under Items 2, 3, 4, 6, and 12 shall be obtained from conductors wheel reports (freight) or similar reports Unit train service is a specialized scheduled shuttle type service in equipment (Railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way Trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through Trains are those trains operated between two or more major concentration or distribution points. Do not include Unit Train statistics in Way or Through Train statistics. A Work Train is a train operated solely or preponderantly for the purpose of transporting company freight, work equipment or company employees. Statistics for Work Trains should he reported under Item 11 only. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, 8-04 and 8-05, as instructed in notes, I, K, and L

- (A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks, and sidings.
- (B) A train-mile is the movement of a train a distance of one mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as one mile. Train Miles-Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the official time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars
- (C) A motorcar is a self-propelled unit of equipment designed to carry freight or passengers, and is not considered a locomotive.
- (D) A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of one mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
- (E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instruction (B) regarding fractions and official time tables for computing locomotive-miles.
- (F) Train switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in such service. Include miles allowed for train locomotives for performing switching service at terminals and way stations.
- (G) Yard switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in yard switching service. Include miles allowed for yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
- (H) A car-mile is a movement of a unit of car equipment a distance of one mile. Use car designations shown in Schedule 710. Under Railroad Owned and Leased cars, Items 4-01 and 4-11, report both foreign cars and respondents' own cars while on the line of the respondent railroad. In Items 4-13 and 4-15, report private-line cars and shipper owned cars. Loaded and empty miles should be reported whether or not the railroad reimbursed the owner on a loaded and/or empty mile basis Report miles made by flatcars carrying empty highway trailers that are not moving under revenue billings as empty freight car-miles. Do not report miles made by motorcars or business cars
- Exclude from Item 4-01, 4-11, 4-13, and 4-15, car-miles of work equipment, cars carrying company freight, and non-revenue private line cars moving in transportation trains Include such car-miles in Item 4-17, 4-18, and 4-19. If private line cars move in revenue service, the loaded and empty miles should not be considered no-payment or non-revenue car-miles.
- (J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express, miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe, and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars; and miles run by other passenger-train cars where services are combined such as baggage, express and mail.
- (K) From conductors' or dispatchers' train reports or other appropriate sources, compute weight in tons (2,000 lbs) Item 6-01 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles) Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight and their contents Use 150 lbs as the average weight per passenger, and four tons as the average weight of contents of each head-end car.

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - (Concluded)

- (L) From conductors' train reports or other appropriate sources, compute ton-miles of freight. Ton-nules represent the number of tons of revenue and non-revenue freight moved one mile in a transportation train. Include net ton-miles in motorcar trains. Exclude l.c l shipment of freight handled in mixed baggage express cars. Total Ton-Miles Revenue Freight should correspond to the Ton-Miles reported on Form CBS.
- (M) Road service represents elapsed time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports Include time of motorcar service performed by train locomotives at terminals and way stations Report in Item 9-02 train switching hours included in Item 9-01 Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained A train hour is independent of the number of locomotives in the train
- (N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used
- (O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for Railway Commissioners for which no revenue is received, trains running special with fire apparatus to save carrier's property from destruction, trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains, trains run solely for the purpose of transporting company material, trains run for distributing material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.
- (P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four: two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondents lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
- (Q) Report vehicle (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
- (R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroads' expense. (Performed at railroads' expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service.) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc., when a tariff provision requires the shipper or motor carrier, etc., and not the railroad perform that service. Note the count should reflect the trailer/containers for which expenses are reported in Schedule 417 Line 2 Column (b)
- (S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
- (T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below) Foreign railroad Cars refers to freight cars owned by other railroads, whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the code of car hire rules.

Carriers will be governed by local conditions in determining whether a car at an interchange point should be considered "on line". Unserviceable cars include cars on repair tracks undergoing or awaiting repairs They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting movement to repair tracks held in train yards (excluding cars which are to be repaired in the train yard without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.

Surplus cars are cars which are in serviceable condition for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.

- (U) Flat-TOFC/COFC Car miles reported in lines 25 (4-020), 41 (4-120), 57 (4-140) and 75 (4-160) will be computed using cars rather than constructed container platforms For example, an articulated car consisting of five platforms moved one mile will be counted as one car-mile, not five car-miles.
- (V) The intermodal Load Factor reported on Line 134 will be calculated for the average number of intermodal (TOFC/COFC) units loaded on the average intermodal car Units are to be calculated in the same manner as Line 123 (13 TOFC/COFC - No of Revenue Trailers & Containers Loaded and Unloaded (Q)). Intermodal cars will be calculated in accordance with instruction U for reporting Flat-TOFC/COFC Car-miles. Both intermodal (TOFC/COFC) units and intermodal cars are to be calculated using actual units and not constructed intermodal (TOFC/COFC) units or cars

1. Total number of loaded miles and empty miles by roadrailer reported above.

Note: Line 88, total car miles, is equal to the sum of lines 30, 46, 64, 82, 83 and 84. Accordingly, the car miles reported on lines 83 and 84 are to be allocated to lines 85, 86 and 87, and included in the total shown on line 88.

SCHEDULE 250 - PART B

۰,

Determination of Nonrail Taxes

This table is designed to facilitate the calculation of taxes that are not rail-related. The amount to be reported on Schedule 250, Line 3.

| | PART I · DETERMINE TAXES ON NONRAILROAD INCOME FOR ALL COMBINED / CONSOLIDATED RAILROADS (EXCLUDES ALL RAIL-RELATED AFFILIATES) | |
|-----|---|----------------|
| (1) | Determine Combined / Consolidated Adjusted income from continuing operations (before taxes) for all affiliated railroads (all classes). Do not include rail-related affiliates that are not railroads in this part. This represents the total combined / consolidated amounts for all items listed below for railroads in the reporting entity. | |
| | Income from continuing operations (before taxes) should be the equivalent of the numbers contained in the R-1 Schedule 210, Line 46, adjusted to include all railroads in the reporting entity. | 560,011 |
| | - Equity in undistributed earnings, which represents the total of Schedule 210, Line 26, for all railroads in the reporting entity | 3,046 |
| | - Drudends in affiliated companies. (If the affiliate is 80% or more controlled by the parent railroad, then deduct 100% of the affiliate's dividend. If the affiliate is less than 80% controlled by the parent railroad, then deduct 80% of the affiliate's dividend. | <u>.</u> |
| | = Adjusted income from continuing operations (before taxes). This represents "A" in item (3) below. | 556,965 |
| (2) | Determine Combined / Consolidated Adjusted Pre-tax NRO! for all railroads in the reporting entity | |
| | Combined / Consolidated Pre-Tax NROI for the entire entity, which equals the amount shown on Schedule 250, Line 1. | 576,974 |
| | + Current provision for taxes, which represents the consolidated amounts of Schedule 210, Line 51, for all railroads in the reporting entity. (This ligure includes both Account 556, income Taxes on Ordinary income and Account 557, Provision for Deferred Taxes. | 190,476 |
| | + Interest income on working capital allowance, which represents the total consolidated interest income relative to the working capital component of the net investment base and should equal the amount shown in Schedule 250, Line 2, for all railroads in the reporting entity. | |
| | + Release of premiums on funded debt, which represents the consolidated total of the release of premium on funded debt as shown on Schedule 210, Line 22, for all railroads in the reporting entity. | <u> </u> |
| | - Total fixed charges, which represents the consolidated total of fixed charges as shown on Schedule 210, Line 42 for all railroads in the reporting entity | 188,910 |
| | - Railroad-related income from affiliated (other than railroads) which was included in consolidated NROI (Schedule 250, Line 1). | 51,821 |
| | - Combined / Consolidated Pre-tax Adjusted NROI for all railroads. This represents "B" in item (3) below. | 526,719 |
| (3) | Calculate the railroad-related tax ratio: "B/A" | 94.57% |
| (4) | Compute the nonrailroad-related complement (1 - Railroad-related income ratio) which equals the Nonrailroad-related tax ratio. | 5.43% |
| (5) | Compute the nonralizoad portion of the total provision for taxes. This equals: | |
| | The Nonraliroad- related tax ratio (Item (4) above) times the total current taxes accrued on ordinary income (Account 556) which represents the consolidated amounts of Schedule 210, Line 47, 48 and 49 for all railroads in the reporting entity. | 7,311 |
| PAR | T II - DETERMINE NONRAILROAD-RELATED TAXES FOR RAIL-RELATED AFFILIATES (EXCLUDES ALL AFFILIATED RAILROADS) | ····· |
| (6) | This is calculated by dividing the nonrailroad-related income for combined rail-related affiliates by the total pre-tax net income for all combined rail-related affiliates and multiplying this result by the total taxes (current provision plus deferred). This equals the taxes on nonrailroad income for all affiliated companies. | 3,456 |
| | PART III - DETERMINE TOTAL NONRAILROAD-RELATED TAXES | |
| (7) | This is determined as follows: | |
| | Total income taxes on nonraliroad-related income for all railroads in the reporting entity (Item (5) above). | 7,311 |
| | + Total Nonrailroad-related taxes for rail-related affiliated (item (6) above) | 3,456 |
| | Equals total nonrailroad-related taxes. (This amount should be transferred to Schedule 250, Part A, Line 3). | 10,7 67 |
