to the Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 19_73

NOTICE

1. This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D. C., 20423, by March 31 of the year following that for which the report is made. Attention is specifically directed to the following provisions of Part I of the Interstate Commerce Act:

SEC 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, * * * (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, * * specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, * * as it may do m proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, * * in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission. * * *

(7) (b). Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, * * * or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment. * *

(7) (c). Any carrier or lessor, * * * or any officer, agent, employee, or representative ther of, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of ore hundred dollars for each and every day it shall continue to be in default with respect thereto.

(8) As used in this section * * * the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier; and the term "lessor" means a person owning a railroad, a water line or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor,

The respondent is further required to send to the Bureau of Accounts, immediately upon publication, two copies of its latest printed annual report to stockholders. See schedule 108, page 5.

2. The instructions in this Form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page —, schedule (or line) number — " should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates. 3. Every annual report should, in ail particulars, be complete in

itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Th.

of a contrary character should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

Money items (except averages) throughout this annual report form should be shown in units of dollars adjusted to accord with footings.

6. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

7. Provision is made in this Form for the returns of both operating and lessor companies. By an operating company should be understood one whose officers direct a business of transportation and whose books contain operating as well as financial accounts. For such a company an Operating Report should be rendered. By a lessor company should be understood one which, although merged in an operating system by means of a lease, or an operating contract or agreement, yet maintains separate accounts and an independent organization for financial purposes. For such a company a Financial Report should be rendered. Companies of both classes should make returns in the various schedules of this Form as they may be applicable. Operating companies are further divided into Classes I, II, and III, according to the amounts of their operating revenues, as provided in the Uniform System of Accounts for Electric Railways, and alternative schedules of operating expense accounts are correspondingly provided on pages 303 to 305. Each operating company should make its returns for operating expenses on the pages provided for companies of its class, I, II, or III, as indicated by the amount of its annual operating revenues, notwithstanding the fact that it may, for its own purposes, keep its accounts according to the list provided for companies of a higher class.

8. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the Interstate Commerce Commission. RESPOND-ENT means the person or corporation in whose behalf the report is made. THE YEAR means the year ended December 31 for which the report is made. THE CLOSE OF THE YEAR means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. THE BEGINNING OF THE YEAR means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. THE PRECEDING YEAN means the year ended December 31 of the year next preceding the year for which the report is made. THE UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC RAILWAYS means the system of accounts in Part 1203 of Title 49, Code of Federal Regulations, as amended.

FOR THE INDEX SEE THE INSIDE OF BACK COVER

MCGLADREY, HANSEN, DUNN & COMPANY CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors Iowa Terminal Railroad Co. Mason City, Iowa

The accompanying financial statements and supplementary data have not been audited by us and we express no opiniou on them. They have been prepared solely for your use in submitting required information to the Interstate Commerce Commission, in the form prescribed by them and, therefore, do not include all of the disc! sures, including a statement of changes in financial position, that might be required for a fair presentation.

Mc Gladrey, Hansen, Dunn & Company

Mason City, Iowa March 18, 1974

ANNUAL REPORT

OF

TOWA TERMINAL RAILROAD CO.

MASON CITY, IOWA

FOR THE

YEAR ENDED DECEMBER 31, 1973

Name, official title, telephone number, and office address of officer in charge of correspondence with the Commission regarding this report:

(Name)ROG	ER CORNER	(Title) GENERAL MANAGER
(Telephone number	JF.	423-5333 (Telephone number) Mason City, Iowa 50401 (Street and number, City, State, and EIP code)

SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year. It should be understood that mention is not made of necessary substitutions of dates or, in general, such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

Page 35: Schedule 418. Compensation of Officers, Directors, Etc.

Minimum dollar smount has been increased to \$40,000, and instructions clarified as to what compensation must be reported.

101. IDENTITY OF RESPONDENT

Answers to the questions acted should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 or 5, on this page, have taken place during the year covered by this report, they should be explained in detail on page 38.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification" (p. 39). If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision.

2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other posses-

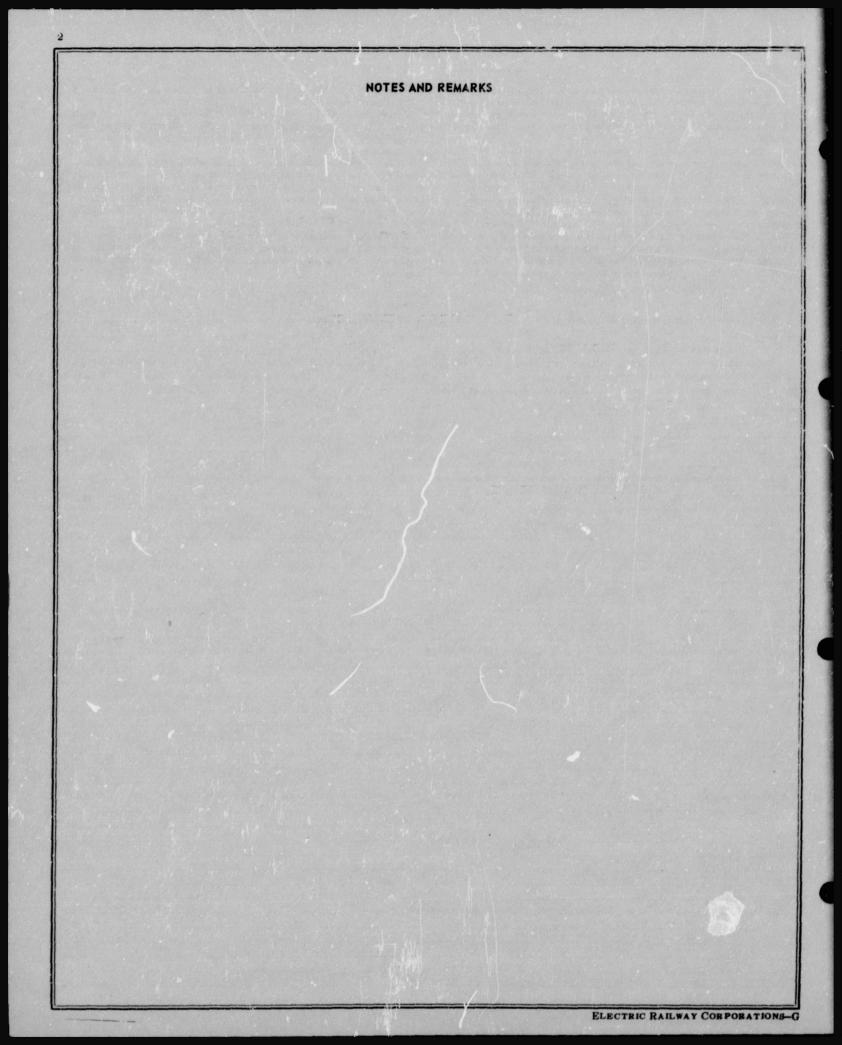

sion began. If a partnership, give date of formation and also names in full of present partners.

3. Give specific reference to laws of each State or Territory under which organized, citing chapter and section. Include all grants of corporate powers by the United States, or by Canada or other foreign country; also, all amendments to charter.

4. Give specific reference to special or general laws under which each consolidation or merger or combination of other form was effected, citing chapter and section. Specify Government, State, or Territory under the laws of which each company consolidated or merged or otherwise combined into the present company was organized; give reference to the charters of each, and to all amendments of them.

5. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact name of common carrier making this report IOWA TERMUNAL RATLEOAD
 Date of incorporation
4. If the respondent was formed as the result of a consolidation or merger during the year, name all constituent and all merged companies NO MERGER OR CONSOLIDATION
5. If respondent was reorganized during the year, give name of original corporation and state the occasion for the reorganization
NO REORGANIZATION
6. State whether or not the respondent during the year conducted any part of its business under a name or names other than that shown in response to inquiry No. 1, above; if so, give full particulars
NONE
7. Give name of operating company, if any, having control of the respondent's property
NONE
ELECTRIC RAILWAY CORPORATIONS-G

1. Give particulars of the various directors and officers of the respondent at the close of the year.

2. State in column (e) of Schedule No. 102 and column (d) of Schedule No. 103, the number of voting shares of the respondent, other than directors' qualifying shares, that were beneficially owned, directly or indirectly, by each director or principal general officer at the close of the year. This includes shares owned of record, shares owned through holding companies, trusts or other mediums, and shares owned but held in the names of brokers or other nominees. Insert the word "None" where applicable.

3. In schedule No. 103 give the title, name, and address of the principal general officers having system jurisdiction by departments, as follows: Executive, Legal, Fiscal and Accountine, Purchasing, Operating (including heads of Construction, Maintenance of Way, Mech-anical, and Transportation departments), and Traffic. If there are receivers, trustees, or committees, who are recognized as in the controlling management of the carrier or of some department of it, give also their names and titles, and the location of their offices.

3

4. If the duties of an officer exicad to more than one department, or if his duties are not in accordance with the customary acceptance of his given title, state the facts briefly in a note attached to this page.

102. DIRECTORS

ELECTRIC RAILWAY CORPORATIONS-G.

106. VOTING POWERS AND ELECTIONS

2. State whether or not each share of stock has the right to one vote; if not, give full particulars in a footnote ____YES

5. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method? <u>NO</u> If so, describe fully (in a footnote) each such class or issue and give a succinct statement showing clearly the character and extent of such privileges.

8. State the total number of stockholders of record, as of the date shown in answer to inquiry No. 7. APPROXIMATELY 50 stockholders.

9. Give the names of the 30 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent (if within 1 year prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each his address, the number of votes which he would have had a right to cast on that date had a meeting then been in order, and the classification of the number of votes to which he was entitled, with respect to se urities held by him, such securities being classified as common stock, second preferred stock, first preferred stock, and other securities, stating in 1 footnote the names of such other securities (if any). If any such holder held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements give, as supplemental information on page 204, the names and addresses of the 30 largest holders of the voting trust certificates and the amount of their individual holdings. If the stock book was not closed or the list of stockholders compiled within such year, show such 30 security holders as of the close of the year.

211. ROAD AND EQUIPMENT

Give particulars of changes in accounts for investment in road | and equipment, classified in accordance with the Uniform System of Accounts for Electric Railways.

In column (c) are to be shown disbursements made for the

specific purposes of purchasing, constructing, and equipping new lines and extensions of old lines. In case the respondent's records are such that the amounts stated for road and equipment in "Investment to December 31, 1908," in the summary at the foot of this table include items

ρ	
	LECTRIC RAILWAY CORPORATIONS-G.

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218

1. Schedules 217 and 218 should give particulars of stocks, bonds, notes, advances, and miscellaneous securities of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments; investments made or disposed of during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definitions of affiliated companies, see the rules governing account No. 405, "Investments in affiliated companies," in the Uniform System of Accounts for Electric Railways.

2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 405, "Investments in affiliated companies," and 406, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other funds" include the par value of securities recorded in accounts Nos. 402, "Sinking funds"; 403, "Deposits in lieu of mortgaged property sold"; and 414, "Insurance and other funds."

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

(A) Stocks:

- (1) Carriers-active.
- (2) Carriers-inactive.
- (3) Noncarriers-active.
- (4) Noncarriers-inactive.
- (B) Bonds (including U.S. Government Bonds):
- (C) Notes:
- (D) Advances:
- (E) Miscellaneous securities:
- 4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. By carriers, as the term is here used, is meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cors, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

6. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

8. In case any adjustments in book values thereof have been made during the year, a detailed statement thereof should be given on page 408 of this form.

9. Classify the securities according to the classification given above, showing the subclass by means of letters and figures in columns (a) and (b). Indicate by means of an arbitrary mark in column (c) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

10. Entries in column (c) should show date of maturity of bonds and other evidences of indebtedness. Obligations of the same designation which mature serially may be reported as "Serially 19...... to 19......"

11. For nonper stock, show the number of shares in lieu of the par value in columns (e), (f), (g), (h), (j), and (l) of schedule No. 217 and in columns (d), (e), (f), (g), (i), and (k) of schedule No. 218. In reporting advances, the columns mentioned should be left blank. If any advances are pledged, give particulars in a footnote.

12. If the cost of any investment made during the year differs from the book value reported, explain the matter in a footnete. By "cost" is meant the consideration given minus accrued interest or dividends included therein.

13. Give totals for each class and for each subclass, and a grand total for each account.

14. These schedules should not include any securities issued or assumed by respondent.

15. In the case of jointly-owned companies show names and percentages of other owners.

		ELECTRIC RA	LWAT CO	PORATIO	ND-Q.

251. CAPITAL STOCK

Give particulars of the various issues of capital stock of the respondent.

In case any "Preferred" or "Debenture" stock is outstanding the rate of dividend requirements should be shown in column (a) and it should be stated whether the dividends are cumulative or noncumulative.

ELECTRIC RAILWAY OF PORATI

tive or noncumulative. In stating the date of an authorisation the date of the latest assent or ratification necessary to its validity should be shown; e.g., in case an authorisation is required to be ratified by stockholders after action by the board of directors, but is not required to be approved by any State or other governmental board or officer, give the date of approval by stockholders; if the assent

of a State railroad commission or other public board or officer is necessary, give the date of such assent, or if subsequent to such assent notice has to be filed with a secretary of state or other public officer and a tax or other fee has to be paid as a *condition precedent* to the validity of the issue, give the date of such payment. In case some *condition precedent* has to be con plied with after the approval and ratification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith.

Entries in column (d) should include stock nominally issued, nominally outstanding, and actually outstanding. For the purposes of this report, capital stock and other securities are con-

sidered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

Give particulars of the various bonds and other evidences of funded debt of the respondent which were in existence at the close of the year under accounts 427 and 434, respectively, showing a total for each account.

In column (a) show the name of each bond or other obligation as it is designated in the records of the respondent, classifying each obligation under the appropriate subhead as defined in the Uniform System of Accounts for Electric Railways under account 427. In case obligations of the same designation mature serially or otherwise at various dates, enter in column (c) the latest date of maturity and explain the matter in a footnote.

Column (d) calls for the par value of the amount of debt authorized to be incurred, as determined by the final authority whose assent is necessary to the legal validity of the issue. In case such final authority is some public officer or board, state in a footnote the name of such officer or board and the date when assent was given.

ELECTRIC RAILWAY CORPORATIONS-G.

Entries in column (e) should include funded debt nominally issued, nominally outstanding, and actually outstanding. Entries should conform to the definitions of "nominally issued," "actu-

Entries should conform to the definitions of "nominally issued," "actually issued," etc., as given in the fourth paragraph of instructions on page 15.

If the items of interest accrued during the year as entered in columns (l)and (m) do not aggregate the total accrual for the year on any security, explain the discrepancy. Entries in these columns should include interest accrued on funded debt reacquired or retired during the year although no portion of the issue is actually outstanding at the close of the year. In determining the entries for column (n), do not treat any interest as paid unless the liability of the respondent in respect to it is extinguished. Deposits of cash with banks and other fiscal agents for the payment of interest coupons should not be reported as payments of such interest until actually paid to coupon holders or others under such circumstances as to relieve the respondent from further liability. In accordance with the Uniform System of Accounts for Electric Railways, interest falling due on January 1 is to be treated as matured on December 31.

ELECTRIC RAILWAY CORPORATIONS-O.

350. TAXES ASSIGNABLE TO TRANSPORTATION OPERATIONS

Give the various particulars called for with respect to the taxes secrued assignable to trans-

Taxes are those annual or other payments exacted by governments (Federal, State, county, municipal, school, and other tax-district authorities) for the purpose of raising funds for public taxes. They do not include payments exacted for special benefits conferred on the payor, such as special assessments for street improvements, etc. Railway properties on which taxes are paid should be classified and grouped as follows:

(A) All railway properties owned by the respondent and its proprietary companies (showing have as a whole or in detail as the respondent may prefer);
 (B) Properties held under any form of lease from other than proprietary companies and upon

which respondent is required to pay the taxes in addition to the stipulated rent, showing such properties in detail;

(C) Properties held under any form of lease from other than proprietary companies and upon which the respondent is required to pay the taxes as a part of the stipulated rent, showing such properties in detail. With respect to each of the groups or detailed properties above specified show in the upper

metion:

(a) The name of the road (or group),

(b) The State (or States or Federal Government) to which taxes are paid,

(c) Taxes accrued which were levied on the carrier by State Governments (or governments other than the United States) on the basis of a percentage of the compensation of employees, such as

taxes for unemployment insurance under State Social Security Acts. (d) Taxes of all other kinds accrued which were levied on the carrier by State Governments (or governments other than the United States)

(e) The sum of the returns in columns (c) and (d).

In the lower section, show separately the various kinds of U.S. Government taxes. In column (c), include taxes accrued which are payable to the U.S. Government for old-age retirement and unemployment insurance. Taxes of all other kinds accrued, such as income tax, surtax on undistributed profits, stamp tax on sale or issue of capital stock, etc., should be included in column (d). Enter totals in column (c).

This schedule should, so far as possible, be restricted to taxes on properties used in transporation operations.

This schedule should not include any taxes on joint facilities not maintained by the respondent.

397. GRADE CROSSINGS A-RAILWAY WITH RAILWAY

A croming with a railway is to be regarded as comprising all the tracks within the right-of-way of the respondent, owned or leased, that are crossed by the track or tracks either of its own lines or of another steam or electric railway at a definite point of intersection. Crossings on jointly operated tracks ahould be reported only by the companies maintaining them.

The term "protection", as related to the table, should be so applied as: (1) To include automatic and interlocking devices

and derailing appliances at crossings of electric with other railways, hand-operated signals (not interlocking), and gates and/or watchmen; and (2) To exclude stationary signs and other cautionary fixtures that simply signify the proximity of a crossing, without regard to the approach of trains or cars, as crossings having only such safety equipment are includible in returns as "unprotected." In the classification, crossings protected by an interlocking device or by a derailing appliance on an electric line, with or without additional protection, should be included only with "interlocking devices" or "derailing appliances on electric lines", as the case may be.

A crossing should be assigned to but one of the classes listed for enumeration, although it may have more than one of the kinds of protection defined above. Observe "Nore" at foot of table.

(j) __; Col. (j) ___; Col. (j) __; Col. (j) _; Col. (j) _; Col. (j) __; Col. (j) _; Col.

B-RAILWAY WITH HIGHWAY

A highway crossing is to be regarded as a crossing comprising all the tracks within, or immediately adjacent to, the right-ofway of the respondent, owned or leased, at a definite point of intersection with a highway. The returns pertain to crossings with streets, avenues, and highways and should relate to public crossings only. Private crossings (such as farm lanes, or roads leading to or within industrial plants) are to be excluded. Highway crossings with industrial tracks, not owned or leased by the

respondent, over which it does switching should not be reported. The general terms for signals on lines 15 to 17 are intended to cover devices that indicate the approach of trains or cars. Special fixed signs or barriers, includible on line 18, are such as "approach" or "distance" signs, special "stop" signs, and "island" or similar fixed barriers. Standard fixed signs, includible on line 19, are the common roadside signs of the simple "railway-crossing" type. On line 20 there should be entered

the number of reportable crossings, if any, without protection (as defined in sec. A), stationary signs, or other cautionary fixtures.

In the classification, a crossing should be assigned to but one of the classes listed for enumeration, although it may have more than one of the classes of protection defined. Observe "Nore" at foot of table.

Line No.	Kind of protection, etc. (a)	Number at beginning of year (b)	Number added during year (c)	Number eliminated during year * (d)	Number at end of year (e)	Remarks (f)

15 19	Special fixed signs or barriers, with or without standard fixed signs Standard fixed signs only	51			51	
20	Otherwise unprotected	52	NONE	NONE	52	

Notz -- Supplementary items applicable to total irrespective of any question of protection: NEW CROSSINGS ADDED during year; CROSSINGS EXISTING on January 1, eliminated during year

411-A. MILEAGE OPERATED AT CLOSE OF YEAR

Give particulars of all tracks operated by the respondent at termini named, two or more tracks lying in the same street being considered parts of the same portion of road and the length of

Classify the roads as follows:

- (1) Line owned by the respondent—(A) main line, (B) branches and spurs;
- (2) Line operated by the respondent but owned by the respondent's proprietary corporations and not formally leased to the respondent:
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;
- (4) Line operated under contract or agreement, or where the real is contingent upon earnings or other consideration, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent:
- (5) Line operated under trackage rights.

Name all the roads of each class before any of a later class, and insert in column (a) before the name of each road the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the name of the road as it is designated on the records of the respondent. For each road name its termini, and $g! \forall a$ its entire length (single or first track) and the lengths of second main track, all other main tracks, sidings, turn-outs, switches, spurs, etc. The mileage to be returned in column (d) hereunder is the single-track mileage or distance between the

termini named, two or more tracks lying in the same street being considered parts of the same portion of road, and the length of but one track being used as the length of road. If the same tracks were placed in different streets, the length of each should be taken in determining the length of road. Give also subtotals for the several numbered classes, as well as the total for all classes.

The spurs mentioned under (1B) include only those used for traffic purposes, as, e. g., a spur running from a main line to a quarry or a factory. Spurs in the nature of sidings should be shown under the head of sidings, in column (g).

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity. Class (2) includes every line full title to which is in a proprietary

Class (2) includes every line full title to which is in a proprietary corporation of the respondent (i. e., one all of whose capital stock is owned, either directly or indirectly, by the respondent), and which the respondent has seized and still holds wholly by virtue of such ownership of stock in the proprietary corporation and without any formal or express grant of the road, and which is operated by the respondent without any accounting to the said proprietary corporation. It may also include such line where the title is in a merely controlled corporation if there is no formal or express grant and no accounting to the controlled corporation, but in case of any such inclusion the facts of tille and a statement showing the extent and character of the respondent's interest in the controlled corporation in which is the actual legoi tille to the road should be attached as a memorandum to this schedule. Class (3) includes all road operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3) except that the rent reserved is conditioned upon earnings or other fact.

Class (5) includes every line operated and maintained by another company but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights but only the rights of a licensee. Include in this class, also, all main tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Lengths should be stated to the nearest hundredth of a mile. Road held by the respondent as *joint* or common owner or a *joint lessee* or under any *joint arrangement* should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached, and full particulars showing all of the joint or common title holders and the extent of their respective interests should be shown in a memorandum attached to the schedule.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

Line No.	Class (a)	Name of road or track (b)	Termini bet	ween which road named (c)	extends		Miles of (d)		Miles of second main track (e)	Miles of all other main tracks (f)	Miles of sidings and turn-outs (E)	Miles of track in car houses, shops, etc. (h)	Tote

411-B. MILES OF ROAD AT CLOSE OF YEAR-BY STATES AND TERRITORIES (SINGLE TRACE)

(For companies making operating reports)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a der of jointly operated mileage should be shown in columns (g).

Respondent's proportion of road jointly owned, not operated, should be shown in columns (i) and (j), as may be appropriate. Lengths should be stated to the nearest hundredth of a mile.

416. REVENUE FREIGHT CARRIED DURING THE YEAR

Include all commodities carried by the respondent during the year, the revenue from which is includible in account No. 107, "Freight Revenue." In stating the number of tons received from connecting carriers, include all connecting carriers, whether rail or water, and whether the freight is received directly or indirectly (as through elevators).

Include forwarder traffic and traffic moved in lots of less than 10,000 pounds.

Tons of revenue freight	Number of tons (2,000 lb. each)
Originating on respondent's road	51 046
Received from connecting carriers	118 215
Total carried	

416A. REVENUE FREIGHT CARRIED DURING THE YEAR-LARGE ELECTRIC RAILWAYS

NOTE: Copies of Schedule 416A, Revenue Freight Carried During the Year-Large Electric Railways, are supplied carriers unbound for use in reporting as provided by order of September 13, 1963 as arearded December 20, 1963, Docket No. 34206, Commodity Classification for Reporting Purposes and by order of August 10, 1964, Docket No. 34, , Commodity Statistics Reporting-Extent and Declosure.

416B. STATISTICS OF RAIL-LINE OPERATIONS-LARGE ELECTRIC RAILWAYS

Carriers by electric railway which reported more than 1,000,000, freight, mail, and express car-miles in rail-line operations during the year 1946 should show hereunder the details of rail-line operating statistics recorded for the year in accordance with the provisions of the Interstate Commerce Commission's Order of November 25, 1946, in the Matter of Freight Commodity Statistics and Operating Statistics of Electric Railways, effective on January 1, 1947.

"Freight train-miles" include miles run by all trains between terminals or stations for the transportation of revenue and company freight; also miles run by trains consisting of empty freight cars, and by trains consisting of a locamotive and caboose running light in connection with such service. Trains which contain passenger-train cars shall be classed as freight trains whenever the number of freight-train cars is in excess of the number of passenger-train cars in them. Freight train-miles should be subdivided as follows: Ordinary freight train-miles which includes miles run by trains consisting of a locomotive, with or without caboose, with other equipment; light freight train-miles which includes miles run by trains consisting of a locomotive and caboose, running light in connection with freight-train service. Motorcar train-miles should be included.

"Freight locomotive-miles" include miles run by locomotives in freighttrain service. Miles of motorcars (propelling units) should not be classed as locomotive-miles. Locomotive-miles should be subdivided as follows: Principal freight locomotive-miles, including miles run by locomotives principal to the train, between terminals or stations, with freight trains; also miles run by locomotives between terminals or stations, with cabooses, going to or returning from such service; and miles run in hauling the second cut of freight trains doubled over grades; helper freight locomotive-miles, including miles run by locomotives as helpers over the division or that portion covered by the run, or on important grades including double-headers, triple-headers, and pushers, regardloss of whether on the head end, in the middle, or on the rear of the train; light freight locomotive-miles, including miles run by locomotives light between terminals or stations in connection with freight-train service on account of unbalanced traffic; miles run light for hauling second cuts of trains doubled; miles run light between freight trains and next coaling station or water tank for coal or water; miles run light to pick up or assist freight trains between terminals; miles run light by grade helpers in returning from assisting freight trains as pushers or double-headers; and miles run light by locomotives coming from or going to engine houses or turntables from freight-train service.

"Freight-train car-miles" include the miles run by freight-train cars (including caboose cars) in transportation service. Such car-miles should be subdivided as follows: Loaded, empty, and caboose. The mileage of company service equipment, designed exclusively for work service and moved in transportation trains, should be classed as loaded freight carmiles. Car mileage of motorcar trains should be included.

METHODS OF OBTAINING AVERAGES INDICATED BY NUMBERED ITEMS

100. Miles per revenue ton .- Divide "60. Tons of revenue freight carried one mile" by "50. Number of revenue tons carried."

101. Ton-miles per car-mile.-Divide "62. Total tons of freight carried one mile" by "40. Loaded freight-train car-miles."

102. Revenue per ton .- Divide "70. Freight revenue" by "50. Number of revenue tons carried."

103. Revenue per ton-mile .- Divide "70. Freight revenue" by "60. Tons of revenue freight carried one mile."

104. Revenue per loaded car-mile .- Divide "70. Freight revenue" by "40. Loaded freight-train car-miles."

417. EMPLOYEES

This table should show the average number of employees of each class in service based on monthly counts and the aggregate of salaries and wages paid for the year covered by the payroll period containing the 12th day of each month and dividing by 12. Every count should cover not only employees on the payroll in each of the stated classes during also employees use on the payroll in each of the stated classes during the organized of the current year. The average number of employees on the payroll period of the court, but also employees on the payroll is payable under labor awards of the current year, include the amount applicable to the current year in column (c) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of wages Boards and voluntary awards by the respondent incident thereto. This schedule does not include old-age retirement, and unemployment insurance taxes. See schedul- 350

ELECTRIC RAILWAT COL VORATIONS-O.

418. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

In columns (a) and (b) enter the name and position of each of the five persons named .n Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary exponses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 174, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more. The detail as to division of the compensation should be reported in Sched de 564.

4. Other compensation to be entered in column (a) includes, but is not limited to, commissions; bonuses; shares in profits; contingent compensation; moneys paid, set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year. 5. Also include in column (a) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

419. PAYMENTS FOR SERVICES NOT RENDERED BY EMPLOYEES

In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate to \$0,000 or more during the year to any corpora-tion, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in schedule 418, or management fees and expenses covered in schedule 326 in this annual report) for services or as a donation. In the case of contributions of under \$5,600 which are made in common with other carriers under a joint arrangement in pay-ment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributions for the per-formance of the particular service is equal to the sum of \$5,000 or more. To be included are, are 'ng others, payments, directly or infiretly, or legal, medical, engi-menting, advertising, valuation, accounting, statistical, financial, educational, registration, purchasing, architectural, and hospital services payments for expert testimony and for bandling wage disputes; and payments for services of banks, bankers, trust companies, insurance com-

panies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railway associations should also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below. To be excluded are: Rent of buildings or other property, taxes payable to the Federal. State, or local governments; payments for heat, light, power, telegraph, and telephone services; and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. If more convenient, this schedule may be filed out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

416. REVENUE FREIGHT CARRIED DURING THE YEAR

Include all commodities carried by the respondent during the year, the revenue from which is includible in account No. 107, "Freight Revenue." In stating the number of tons received from connecting carriers, include all connecting carriers, whether rail or water, and whether the freight is received directly or indirectly (as through elevators).

Include forwarder traffic and traffic moved in lots of less than 10,000 pounds.

Tons of revenue freight	Number (2,000 18	r of tons os. each)	
Originating on respondent's road		51	046
Received from connecting carriers		11.8	215
Total carried	 		2.61

416C. GRADE CROSSINGS A-RAILWAY WITH RAILWAY

A crossing with a railway is to be regarded as comprising all the tracks within the right-of-way of the respondent, owned or leased, that are crossed by the track or tracks either of its own lines or of another steam or electric railway at a definite point of intersection. Crossings on jointly operated tracks should be reported only by the companies maintaining them.

The term "protection", as related to the table, should be so applied as: (1) To include automatic and interlocking dovices and derailing appliances at crossings of electric with other raiways, hand-operated signals (not interlocking), and gates and/or watchmen; and (2) To exclude stationary signs and other cautionary fixtures that simply signify the proximity of a crossing, without regard to the approach of trains or cars, as crossings having only such safety equipment are includible in returns as "unprotected." In the classification, crossings protected by an interlocking device or by a derailing appliance on an electric line, with or without additional protection, should be included only with "interlocking devices" or "derailing appliances on electric lines", as the case may be.

A crossing should be assigned to but one of the classes listed for enumeration, although it may have more than one of the kinds of protection defined above. Observe "Nore" at foot of table.

	NUMBER		IBER AT BEGINNING OF YEAR		NUMBE	NUMBER ADDED DURING YEAR			NUMBER ELIMINATED DURING YEAR			NUMBER AT END OF YEAR		
Line No.	Kind of protection, etc.	With electric, interurban, or street railways (b)	With steam railways (c)	Total (d)	With electric, interurban, or street railways (e)	With steam railways (f)	Total (g)	With electric, interurban, or street railways (h)	With steam railways (1)	Total•	With electric, interurban, or street railways (k)	With steam railways (1)	Total (m)	
1	Interlocking devices		2	2								2	2	
2	Derailing appliances on electric lines													
3	Automatic crossing signals													
	Hand-operated signals (not interlocking).													
5	Gates and watchmen													
	Watchmen alone													
7	Total protected		3		in -							3	3	
8	Total unprotected			NONE			NONE			NONE			NONE	

NOTE -Supplementary items applicable in total irrespective of any question of protection: NEW CROSSINGS ADDED during year; CROSSINGS EXISTING on January 1, eliminated during year

B-RAILWAY WITH HIGHWAY

A highway crossing is to be regarded as a crossing comprising all the tracks within, or immediately adjacent to, the right-ofway of the respondent, owned or leased, at a definite point of intersection with a highway. The returns pertain to crossings with streets, avenues, and highways and should relate to public crossings only. Private crossings (such as farm lanes, or roads leading to er within industrial plants) are to be excluded. Highway crossings with industrial tracks, not owned or leased by the

respondent, over which it does switching should not be reported. The general terms for signals on lines 15 to 17 are intended to cover devices that indicate the approach of trains or cars. Special fixed signs or barriers, includible on line 18, are such as "approach" or "distance" signs, special "stop" signs, and "island" or similar fixed barriers. Standard fixed signs, includible on line 19, are the common roadside signs of the simple "railway-crossing" type. On line 20 there should be entered

the number of reportable crossings, if any, without protection (as defined in sec. A), stationary signs, or other cautionary fixtures.

In the classification, a crossing should be assigned to but one of the classes listed for enumeration, although it may have more than one of the classes of protection defined. Observe "Nore" at foot of table.

ine	Kind of protection, etc.	Number at beginning	Number added	Number eliminated	Number at end	Remarks
NO.	(a)	of year (b)	during year (c)	during year • (d)	of year (e)	(f)
11	Gates, with or without other protection, operated 24 hours per day	1			1	
2	Gates, with or without other protection, operated less than 24 hours per day.					
13	Watchmen, alone or with protection other than gates, on duty 24 hours per day					
	Watchmen, alone or with protection other than gates, on duty less than 24 hours per day					
,	Both audibie and visible signals, without other protection					
.	Audible signals only					
	Visible signals only					
.]	Special fixed signs or barriers, with or without standard fixed signs					
	Standard fixed signs only	51			51	
h	Otherwise unprotected					
11					52	

Total includes crossings eliminated by separation of grades.
