# NOTICE

1. This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C. 20423, by March 31 of the year following that for which the report is made. Attention is specially directed to the following provisions of Part I of the Interstate Commerce Act:

Sec. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, \* \* \* (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, \* \* \* as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, \* \* \* in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington, within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission.

(7) (b). Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under the section to be filed, \* \* \* or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment. \* \* \*

(7) (c). Any carrier or lessor, \* \* \* or any officer, agent, employee, or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any questions within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto.

(8). As used in this section \* \* \* the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier, and the term "lessor" means a person owning a railroad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor. \* \* \*

The respondent is further required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders. See schedule D, page 7.

2. The instructions in this Form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page , schedule (or line) number " should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margin, attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parentheses. Items of an unusual character should be indicated by appropriate symbol and footnote.

6. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

8. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; and, a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. In making reports, lessor companies use Annual Report Form R-4.

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$50,000,000 or more. For this class, Annual Report Form R-1 is provided.

Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000. For this class, Annual Report Form R-2 is provided.

Class III companies are those having annual operating revenues of \$10,000,000 or less. For this class, Annual Report Form R-3 is provided.

In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the sum of the annual railway operating revenues, the joint facility rent income, and the returns to joint facility credit accounts in operating expenses, shall be used in determining its class.

Switching and terminal companies are further classified as:

Class S1. Exclusively switching. This class of companies includes all those performing switching service only, whether for joint account or for revenue.

Class S2. Exclusively terminal. This class of companies includes all companies furnishing terminal trackage or terminal facilities only, such as union passenger or freight stations, stockyards, etc., for which a charge is made, whether operated for joint account or for revenue. In case a bridge or ferry is a part of the facilities operated by a terminal company, it should be included under this heading.

Class S3. Both switching and terminal. Companies which perform both a switching and a terminal service. This class of companies includes all companies whose operations cover both switching and terminal service, as defined above.

Class S4. Bridge and ferry. This class of companies is confined to those whose operations are limited to bridges and ferries exclusively.

Class S5. Mixed. Companies performing primarily a switching or a terminal service, but which also conduct a regular freight or passenger traffic. The revenues of this class of companies include, in addition to switching or terminal revenues, those derived from local passenger service, local freight service, participation in through movement of freight or passenger traffic, other transportation operations, and operations other than transportation.

9. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the Interstate Commerce Commission. RESPONDENT means the person or corporation in whose behalf the report is made. THE YEAR means the year ended December 31 for which the report is made. THE CLOSE OF THE YEAR means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. THE BEGINNING OF THE YEAR means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. THE PRECEDING YEAR means the year ended December 31 of the year next preceding the year for which the report is made. THE UNIFORM System in Part 1201 of Title 49, Code of Federal Regulations, as amended.

10. Railroads and all companies considered to be carriers under Section 5(3) of the Interstate Commerce Act having gross carrier operating revenues of \$20 million or more shall file the Annual Report Supplement Corporate Disclosure. This supplement is an integral part of the annual report and shall be submitted concurrently. Subject railroads are not required to file Schedules 380, 381, and 390.

Railroads with carrier operating revenues less than \$20 million shall complete all applicable schedules in this report.

## SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year. It should be understood that mention is not made of necessary substitution of dates, or in general, such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

This form is revised to (1) improve the disclosure of information for both rate making and financial reporting purposes, (2) eliminate unnecessary reporting, and (3) conform with the new Uniform System of Accounts for Railroads, effective January 1, 1978. Other significant modifications include revisions to conform with reporting under generally accepted accounting principles and the rearrangement of schedules in a more orderly fashion to make them easier to complete and use.

Revisions to this report resulted from the following Commission's decisions copies of which were served on all railroads:

<u>Docket</u>	<u>Title</u>	<u>Decision Date</u>

## NOTES AND REMARKS

## 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

The notes listed below are provided for the purpose of disclosing supplementary information concerning matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none"; and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes explanatory statements explaining (1) service in-

terruption insurance policies and indicate the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements. (Dollars in thousands)

1. Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts \$ None

2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made \$ None

3. (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year: See Note 3(a) Page 11

(b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund. For all the affiliated participating companies 1 Billion

(c) Is any part of pension plan funded? Specify. Yes X No       

(i) If funding is by insurance, give name of insuring company       

(ii) If funding is by trust agreement, list trustee(s) United States Steel & Carnegie Pension Fund

Date of trust agreement or latest amendment 8/31/50 & 2/15/51 both amended 1/1/75

If respondent is affiliated in any way with the trustee(s), explain affiliation: M.S. Toon, President, member of Board of Directors United States Steel & Carnegie Pension Fund.

(d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement: See list Page 10(a). Basis for allocating charges is percent of eligible payroll.

(e)(i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify.

Yes X No       

If yes, give number of the shares for each class of stock or other security: Approximately 6.2 million of railroad mortgage bonds.

(ii) Are voting rights attached to any securities held by the pension plan? Specify. Yes        No X If yes, who determines how stock is voted?       

4. State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610). Yes X No

## NOTES AND REMARKS

## NOTE 3(a)

Non-contributory pension provisions of the U.S. Steel Plan for Employee Pension Benefits cover substantially all employees and, in addition, participating salaried employees are also covered by the contributory pension provisions.

Pension costs under this plan are determined by an independent actuary based upon an acceptable actuarial method and various actuarial factors which, from time to time, are adjusted in light of actual experience. Pension costs reflect current service and a 25-year amortization of unfunded past service. The funding policy provides that payments to the pension trusts shall be equal to the minimum funding requirements of ERISA plus additional amounts which may be approved from time to time.

Pension costs were \$778,818 in 1978 and \$602,332 in 1977.

## 210. RESULTS OF OPERATIONS

1. Disclose the requested information for the respondent pertaining to the results of operations for the year.

2. Report total operating expenses from Schedule 410 of this report. Any disparities in expense amounts shown in this schedule and expense amounts reported in Schedule 410 must be fully explained.

3. List dividends from investments accounted for under the

cost method on the appropriate line for Account No. 513, "Dividend income." List dividends accounted for by the equity method on the appropriate dividend line under the "Income from Affiliated Companies" subsection of this schedule.

4. All contra entries hereunder should be indicated in parenthesis.

## PART I. CAPITAL STOCK

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.
2. Present in column (b) the par or stated value of each issue. If none, so state.
3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.
4. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They

are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as required them to be considered as held alive, and not cancelled or retired, they are considered to be nominally outstanding.

5. If stock is being held subject to an exchange for the outstanding securities of constituent companies, then include such stock as outstanding stock, and disclose the details in footnotes.

# 240. STATEMENT OF CHANGES IN FINANCIAL POSITION

Give the information as requested concerning the source and application of funds during the year. Funds for the purpose of this schedule shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for investment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

**301. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS**

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
4. Compensating balances included in account 703, Special deposits, and in account 717, Other funds, should also be separately disclosed below.
5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A and 315

1. Schedules 310 and 315 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year. Specifically, the disclosures should include the investments in the obligations of Federal, state and local governments, and the obligation of individuals. Also, disclose the investments made, disposed of, and written down during the year, and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 72: "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.

2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

- (A) Stocks:
  - (1) Carriers - active.
  - (2) Carriers - inactive.
  - (3) Noncarriers - active.
  - (4) Noncarriers - inactive.
- (B) Bonds (including U.S. Government Bonds):
- (C) Other secured obligations:
- (D) Unsecured notes:
- (E) Investment advances:

3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
I	Agriculture, forestry, and fisheries
II	Mining
III	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other

5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.

9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.

10. Do not include the value of securities issued or assumed by respondent.

11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

12. Report dollars in thousands.

## 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking funds"; 716, "Capital funds"; 721, "Investments advances in affiliated companies"; and 717, "Other funds."

2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).

3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged,

or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

4. Give totals for each class and for each subclass and a grand total for each account.

5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19\_\_ to 19\_\_." Abbreviations in common use in standard financial publications may be used to conserve space.

6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in

7. If any advances reported are pledged, give particulars in a footnote.

8. Investments in companies in which neither the original cost or present equity in total assets is less than \$10,000 may be combined in one figure.

9. Also included should be investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis).

## NOTES AND REMARKS

## 315. SPECIAL FUNDS AND OTHER INVESTMENTS

1. Complete this schedule if the amount in account 722, "Other Investments" is greater than 1% of total assets.

2. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of other than affiliated companies, included in accounts Nos. 715, "Sinking funds", and 717, "Other funds." Investments included in

accounts Nos. 715, 716, and 717 held by trustees in lieu of cash deposits required under the governing instrument are not to be reported.

3. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 23, classifying the investments by means of letters, figures, and symbols in column

(a), (b), and (c). Investment in U.S. Treasury obligations may be reported as one item. Items where original cost is less than \$500,000 may be combined as one item.

4. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

5. Give totals for each subclass and a grand total for each account.

6. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation matured serially, the date in column (d) may be reported as "Serially 19\_\_ to 19\_\_." In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

7. If any advances reported are pledged, give particulars in a footnote.

## 325. PROPERTY USED IN OTHER THAN CARRIER OPERATIONS

1. This schedule may be omitted unless (a) gross property used in other than carrier operations is more than 5% of total assets, or (b) net profit from noncarrier operations for the year amounts to 10% or more of income before extraordinary items.

2. Show separately (a) the three properties with the greatest asset value, and (b) the three properties with greatest revenues. Show also each property whose gross value exceeds 5% of total assets or whose net profit from noncarrier operations exceed 10% of income before extraordinary items. Other items may be combined on one line.

3. If any of the individual items of property shown in column (a) were acquired in consideration of stocks, bonds, and other evidence of debt, or in exchange for other property, enter in column (e) only the amount at which carried in respondent's books and in a footnote give a full description of the consideration actually paid. Also if the actual money cost to respondent is different from that shown in column (e), give particulars in a footnote.

4. In section B include in column (f) the gross amount of revenue or income included in account 506; in column (g), the gross amount of expenses (including depreciation) charged to accounts

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330 AND 330A

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If account No. 732 for road or for equipment is less than 5% of account No. 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.

2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.

3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.

4. In columns (c) and (e), should be included all entries covering expenditures for additions and betterments, as defined, whether replacing other property or not.

5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.

6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially

included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.

7. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.

8. Report on line 34 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving terms and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.

10. If an amount of less than \$2000 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

11. Show dollars in thousands.

## 332. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT - OWNED AND USED

1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated depreciation: road and equipment property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and "Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" account and "Other Rents - Debit - Equipment" accounts (See Schedule 342 for the accumulated depreciation relating to road and equipment owned but not used by respondent.)

2. If any data are included in columns (d) or (f), explain the entries in detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on line 27.

6. Thousand dollar Reporting Rule.

Railroad Annual Report R-2

## 335A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes: (a) the investment reported in accounts 731, "Road and equipment property", and 732, "Improvements on leased property", of the respondent less any 731 or 732 property leased to others for their exclusive use of road, tracks, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property. (b) the investment of other companies' 731 or 732 property (including operating and leased railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment or other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.

2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company (P), and other leased properties (O).

3. In columns (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company. Then show, as deductions, data for transportation property leased to carriers and others.

4. In column (c), lessor carriers report the miles of road used in line-haul service, and switching and terminal companies should report the miles of all tracks owned.

5. In column (d), show the amount applicable in accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by schedule or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 33, on the asset side of the comparative general balance sheet of each individual railway should be explained in a footnote. Book value included in accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in accounts 735, 736, and 785, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

7. Report dollar, in thousands.

### 335B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Accounts)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 50 herein, should correspond with the amounts for each class of company and properties shown in schedule 335. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

3. Report on line 32 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where

cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 33 amounts not includible in the accounts shown, or in line 32. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribe accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

5. Report dollars in thousands.

## 340. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in accounts 207 and 221.

2. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used in computing the depreciation for the month of December and on lines 28 and 36 of

this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used in computing the depreciation for December and dividing the total so computed by the depreciation base.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

6. If total road leased to others is less than 5% of total road owned; omit. If total equipment leased to others is less than 5% of total equipment owned; omit.

## 342. ACCUMULATED DEPRECIATION-ROAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in accounts 207 and 221.

2. Disclose credits and debits to Account 735, "Accumulated depreciation-road and equipment property," during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent. (See Schedule 350 for the reserve relating to road and equipment owned and used by the respondent).

3. If any entries are made for "Other credits" and "Other debits," state the facts occasioning such entries. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."

4. Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively.

5. Thousand dollar Reporting Rule.

### 350. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

1. Show in columns (b) and (e), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (c) and (f) show the depreciation base used in computing the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December; and on lines 28 and 36 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefor are included in the rent for equipment and account Nos. 218 and 221. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment accounts Nos. 218 and 221. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.
2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.
3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 207 and 221.
4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.
5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.
6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

1. Show in column (b) for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in column (c) show the depreciation base used in computing the depreciation charges for the month of December; in column (d) show the composite rates used in computing the depreciation charges for the month of December; and on lines 29 and 37 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732, "Improvements on leased property." The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized

### 352. ACCUMULATED DEPRECIATION-IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS

1. Enter the required information concerning debits and credits to Account 735, "Accumulated depreciation-improvements on leased property," during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent.

2. If any entries are made for column (d) "Other credits" or column (f) "Other debits," state the facts occasioning such entries. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."

3. Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained.

4. Show in column (e) the debits to the reserve arising from retirements.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

## 360. LEASES—GENERAL INSTRUCTIONS AND DEFINITIONS

## A. General Instructions

Disclose in the following schedules the required information concerning leases of the respondent:

- Schedule 361 — Capitalized Capital Leases
- 362 — Noncapitalized Capital Leases
- 363 — Operating Leases
- 364 — Lessee Disclosures

Under Docket No. 36604, "Accounting for Leases," the Commission established guidelines for capitalizing all leases entered into after 1/1/77, which meet the criteria of a capital lease. (See 49 CFR 1201, Instruction 2-26). These leases shall be properly disclosed in Schedule 361, "Capitalized Capital Leases." However, for all leases in effect on 12/31/76, respondents may either capitalize these leases immediately or phase in the capitalization requirements through 12/31/80. Thereafter, all capital leases must be capitalized. Noncapitalized capital leases, if any, for this reporting year shall properly be disclosed in Schedule 362, "Noncapitalized Capital Leases."

A general description of the lessee's leasing arrangements shall be included to effect full and complete disclosures. Among the items to be disclosed are:

- The basis on which contingent rental payments are determined.
- The existence and terms of renewal or purchase options and escalation clauses.
- Restrictions imposed by lease agreements, such as those concerning dividends, additional debt, and further leasing.

These and other disclosures shall be included in Schedule 364 and attachments thereto, if necessary.

## B. Definitions

(1) **Capital Leases** are those leases which meet one or more of the following four criteria:

- The lease transfers ownership of the property to the lessee by the end of the lease term.
- The lease contains a bargain purchase option.
- The lease term is equal to 75 percent or more of the estimated economic life of the property, and
- The present value at the beginning of the lease term of the minimum lease payments equals or exceeds 90 percent of the fair value of the leased property to the lessor at the inception of the lease less any related investment tax credit retained by the lessor.

(2) **Operating leases** are those leases which do not meet any of the four criteria pertaining to capital leases.

(3) **Minimum lease payments** are the payments that the lessee is obligated to make or can be required to make in connection with the leased property. Executory costs such as insurance, maintenance and taxes in connection with the leased property shall be excluded from minimum lease payments.

(4) **Present value minimum lease payments** are lease payments that the lessee is obligated to make or can be required to make, exclusive of executory cost. Moreover, these payments are reduced by amounts representing interest, calculated at the companies' incremental borrowing rate or the implicit rate computed by the lessor.

(5) **Noncancelable lease/sublease** is one that has an initial or remaining term of one year or more and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

(6) **Contingent rentals** for the purposes of this report, are rentals paid during the reporting year which depend on some factor other than the passage of time such as rentals based on usage or sales.

NOTES AND REMARKS

## 361. CAPITALIZED CAPITAL LEASES

## PART I. PRESENT VALUE OF MINIMUM LEASE PAYMENTS

Disclose total lease payments for the years shown. Then, disclose amounts representing (1) executory costs and (2) interest to derive the present value of minimum lease payments. An

explanation indicating how the rate of interest was derived for computing present value shall be included in Schedule 364. Report dollars in thousands.

## 362. NONCAPITALIZED CAPITAL LEASES—Continued

## PART III. INCOME IMPACT

1. If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line

basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

2. In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

### 380. FUNDED DEBT UNMATURED

Give particulars of the various issues of securities in accounts Nos. 764, "Equipment obligations and other debt due within one year" (excluding equipment obligations), and 765, "Funded debt unmatured," at close of the year. Funded debt, as here used, comprises all obligations maturing later than one year after date of issue in accordance with the instructions in the Uniform System of Accounts for Railroad Companies. Show each issue separately, and

make all necessary explanations in footnotes. For the purposes of this report, securities are considered to be *actually issued* when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities *actually issued* and not reacquired by or for the respondent are considered to be *actually outstanding*. It should be noted that section 20a of the Interstate Commerce Act makes it unlawful for a

carrier to issue or assume any securities, unless and until, and then only to the extent that, the Commission by order authorizes such issue or assumption. Entries in columns (k) and (l) should include interest accrued on funded debt reacquired, matured during the year, even though no portion of the issue is outstanding at the close of the year.

### 381. RECEIVERS' AND TRUSTEES' SECURITIES

Give particulars of evidences of indebtedness issued and payment of equipment obligations assumed by receivers and trustees under orders of a court as provided for in account No. 767, "Receivers' and trustees' securities." For definition of securities actually issued and actually outstanding, see instructions for schedule.

## 390. AMOUNTS PAYABLE TO AFFILIATED COMPANIES

Give full particulars of amounts payable by the respondent to affiliated companies, as defined in connection with account No. 769, "Amounts payable to affiliated companies," in the Uniform System of Accounts for Railroad Companies. If such amounts are evidenced by notes, each note should be separately shown in column (a). Entries in columns (e) and (f) should include interest

accruals and interest payments on debt retired during the year, even though no portion of the debt remained outstanding at the close of the year. Show, also, in a footnote, particulars of interest charged to cost of property.

## 410. RAILWAY OPERATING EXPENSES

## 450. ANALYSIS OF FEDERAL INCOME TAXES

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year total of accounts 714, 744, 762 and 786 applicable to each particular item in column (a).

3. Indicate in column (c) the net change in accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5. The total of line 10 in columns (c) and (d) should agree with the total of the contra charges (credits) to account 557, provision for deferred taxes, and account 591, provision for deferred taxes—extraordinary items, for the current year.

6. Indicate in column (e) the cumulative total of columns (b), (c), and (d). The total of column (e) must agree with the total of accounts 714, 744, 762 and 786.

## NOTES AND REMARKS

## 705. CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest whole mile adjusted to accord with footings, i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

1. For each railroad property used in respondent's transportation service, show all increases and decreases in mileage, classifying the changes in the tables below as follows:

(Class 1) Line owned by respondent.

(Class 2) Line owned by proprietary companies.

(Class 3) Line operated under lease for a specified sum.

(Class 4) Line operated under contract or agreement for contingent rent.

(Class 5) Line operated under trackage rights.

2. For changes in miles of road, give dates of beginning or abandonment of operations. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket number or otherwise, as may be appropriate.

3. All consolidations, mergers, and reorganizations effected, giving particulars.

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

4. Other important changes not elsewhere provided for involving more than \$50,000, giving full particulars.

If returns under Inquiry No. 1 above include any first main track owned by respondent or its proprietary companies representing new construction or permanent abandonment give the following particulars:

Owned by respondent:

Miles of road constructed N/A Miles of road abandoned N/A

Owned by proprietary companies:

Miles of road constructed N/A Miles of road abandoned N/A

The item "miles of road constructed" is intended to show the mileage of first main track laid to extend respondent's road, and should not include tracks relocated and tracks laid to shorten the distance between two points, without serving any new territory.

By road abandonment is meant "permanently abandoned," the cost of which has been or is to be written out of the investment accounts.

# INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 710

## Instructions for reporting locomotive and passenger-train car data.

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (i); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h); units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operating at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.

6. A "Diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power from an overhead contact wire or third rail, and use the power to drive one or more electric motors that propel the vehicle. An "Other self-powered unit" includes all units other than diesel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "Auxiliary unit" includes all units used in conjunction with locomotives but which draw their power from the "mother" unit, e.g., boosters,

slugs, etc. For reporting purposes indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "Auxiliary units".

7. Column (k) should show aggregate capacity for all units reported in column (j), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.

## 710 INVENTORY OF EQUIPMENT—Continued

Instructions for reporting freight-train car data:

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (n); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i); units rented from others for a period less than one year should not be included in column (j).

4. Column (m) should show aggregate capacity for all units reported in columns (k) and (l), as follows: for freight-train cars, report the nominal capacity (in tons of 2,000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

## NOTES AND REMARKS

## 710-5. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by Respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote. Give details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased, (4) built or rebuilt by contract in outside railroad shops, (C) or built or rebuilt in company or system shops, (5).

2. In column (a) list each class or type of locomotive unit, car, or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish type of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710; locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit; such as Multiple purpose diesel locomotive A units (B-B), 2500 HP; and cars should be identified as to special construction or service characteristics such as Aluminum covered hopper cars, LO: Steel boxcars-special service, XAF, etc., for TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger train cars and company service cars; columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the Respondent's accounts. The term "new" as used herein shall refer to and mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

7. Report dollars in thousands.

## 730. REVENUE FREIGHT CARRIED DURING THE YEAR (For Road Haul Traffic Only)

1. Give the particulars called for concerning the commodities carried by the respondent during the year, the revenue from which is includible in account No. 101, *Freight*, on the basis of the 2-digit codes named in 49 C.F.R. 123.52, by Order of September 13, 1963. In stating the number of tons received from connecting carriers (c), include all connecting carriers, whether rail or water and whether the freight is received directly or indirectly (as through elevators).

2. Under Order of December 16, 1964, traffic involving less than three shippers reportable in any one commodity class may be excluded from this schedule, but must be submitted unbound in a separate schedule supplemental to this one and marked *Supplemental*. Extra copies of Schedule 2602 may be obtained upon request to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C., 20423. If a supplemental schedule is filed, check the space provided at the bottom of this schedule. Supplemental reports will be withheld from public inspection.

3. Particulars for Codes 01 to 46 inclusive, should include all traffic moved in lots of 10,000 pounds or more. Forwarder traffic includes freight traffic shipped by or consigned to any forwarder holding a permit under part IV of the Interstate Commerce Act. Code 47 should include all traffic moved in lots of less than 10,000 pounds.

4. *Gross freight revenue* means respondent's gross freight revenue without adjustment for absorption or corrections.

## 745. SWITCHING AND TERMINAL TRAFFIC AND CAR STATISTICS

(For switching and terminal companies only)

1. Give particulars of cars handled during the year. For descriptions of kinds of services included in switching operations, and in terminal operations, reference is made to the "Notice" on the inside of the front cover of this form. With respect to the term "cars handled" it should be observed that, when applied to switching operations, the movement of a car from the point at which a switching company receives it, whether loaded or empty, to the point where it is loaded or unloaded or delivered to another connecting line is to be counted as one car handled. The return of a car, whether loaded or empty, from the point where it is loaded or

unloaded, to the point of delivery is to be counted as one car handled. No incidental movement is to be considered, unless such incidental movement involves the receipt of additional revenue. When applied to terminal operations, such as union station, bridge, ferry, or other joint facility terminal operations, the term "cars handled" includes all cars for which facilities are furnished.

2. The number of locomotive-miles in yard switching service should be computed in accordance with account No. 816, "Yard Switching Locomotive-miles."

## NOTES AND REMARKS

## 750. CONSUMPTION OF FUEL BY MOTIVE-POWER UNITS

Show hereunder the amounts of the various kinds of fuel consumed by locomotive units and motors or other self-propelled rail cars in the service of the respondent during the year, and the number of kilowatt-hours for such tractive equipment as was propelled by electricity. The ton of 2,000 pounds should be used.

Kilowatt-hours, for entry in column (c) of section A, and column (h) of section B, are to be figures at high tension taps (point of production or point of purchase), and divided among the several classes of service, the division being made on the respondent's best estimate if actual figures are not available.

# 850. COMPETITIVE BIDDING-CLAYTON ANTITRUST ACT

Section 10 of the Clayton Antitrust Act (15 U.S.C. 20) states that "no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, in any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, firm, partnership or association, unless and

except such purchases shall be made from, or such dealings shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission." The specification for competitive bids is found in the Code of Federal Regulations, Part 1010-Competitive Bids through Part 1010.7 - Carriers Subject to the Interstate Commerce Act.

In column (g), identify the company awarded the bid by including company name and address, name and title of respondent officers, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.

ADDRESS

[illegible]

## 900. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the persons named in Schedule B of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$50,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more affiliated companies, reference to this fact should be made if the aggregate compensation from all companies amounts to \$50,000 or more.

4. Report in column (d) the total amount of compensation other than annual salary paid to each listed employee during the year. This includes forms of nonmonetary compensation given which directly benefits each employee. Examples:

Fair value of property given, such as exclusive use of an automobile;

Amounts paid for membership of the employee in nonbusiness associations, private clubs, etc.;

Commissions, bonuses, shares in profits;

Contingent compensation plans;

Monies paid or accrued for any pension, retirement, savings, retirement annuities, deferred compensation, or similar plan;

Premiums on life insurance where the respondent is not the beneficiary. Do not report premiums or group life insurance for benefits less than \$50,000.

Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

## 905. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscription, allowance for expenses, or any form of payments amounting in the aggregate to \$20,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:

(a) Payments to employees of the respondent.

(b) Payments for services rendered by affiliates.

(c) Payments for accounting and audit fees must be reported in full regardless of the \$20,000 limitation. These fees must not be included with management fees paid to parent companies.

2. The aggregate of payments to be reported in column (c) shall include amounts paid and/or accrued during the year which are applicable to the year.

3. When contributions under \$20,000 are made in common with other carriers under a joint arrangement in payment for the performance of service, or as a donation, each such contribution shall be reported, irrespective of the amount thereof, as the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$20,000 or more.

4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax advice. All carriers, whether payments aggregate more or less than \$20,000, shall answer the following question.

Did the independent accountant reporting on the respondent's annual report provide any management services other than auditing? Specify. Yes No

5. To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charita-

ble, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services, payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

6. To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$20,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.

7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. When the respondent is reporting on a system basis, audit fees must be reported separately for each individual railroad included in the system.

8. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

## 910. EMPLOYEES, SERVICE, AND COMPENSATION

1. Give particulars of the average number of employees of various classes in the service of the respondent, of service rendered by such employees, and of compensation paid therefor during the year. Employees are to be counted and classified and their service and compensation reported in accordance with the Commission's Rules Governing the Classification of Railroad Employees and Reports of their Service and Compensation, effective January 1, 1951.

2. Averages called for in column (b) should be the average of twelve middle-of-month counts.

3. Pensioners rendering no service are not to be included in the count, nor is any compensation paid them to be included hereunder.

4. If any of the general officers served without compensation or were carried on the payrolls of another company, those facts should be stated in a footnote.

5. If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident hereto.

6. This schedule does not include old-age retirements, and unemployment insurance taxes.
