FOR THE

YEAR ENDED DECEMBER 31, 1970

- 1. This form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C., 20423, by March 31 of the year following that for which the report is made. Attention is specially directed to the following provisions of Part 1 of the Interstate Commerce Act:
- SEC. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, \* \* \* (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, \* \* \* as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, \* \* \* in such form and detail as may be prescribed by the Commission.
- (2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission. \* \* \*
- (7) (b). Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, \* \* \* or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: \* \* \*
- (7) (c). Any carrier, or lessor, \* \* \* or any of cer, agent, employee, or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto. \* \*
- (8) As used in this section \* \* \* the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier; and the term "lessor" means a person owning a rail-rad, a water line, or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor. \* \* \*

Each respondent is further required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders. See schedule 108, page 100.

2. The instructions in this form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page ... schedule (or line) number ....." should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

- 3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.
- 4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the form. Inserted sheets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.
- 5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

Money items (except averages) throughout this annual report form should be shown in units of dollars adjusted to accord with footings.

- 6. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the form are supplied.
- 7. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; and a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. (In making reports, lessor companies use Annual Report Form E.)

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$5,000,000 or more. (For this class, Annual Report Form A is provided.)

Class II companies are those having annual operating revenues below \$5,000,000. (For this class, Annual Report Form C is provided.)

In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the sum of the annual railway operating revenues, the joint facility rent income, and the returns to joint facility credit accounts in operating expenses, shall be used in determining its class.

8. Except where the context clearly indicates some other meaning, the following terms when used in this form have the meanings below stated:

Commission means the Inters'ate Commerce Commission. Respondent means each person or corporation in whose behalf the report is made. The year means the year ended December 31 for which the report is made. The close of the year means the close of business on December 31 of the year for which the report is made; or, in the case the report is made for a shorter period than one year, it means the close of the period covered by the report. The beginning of the year means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. The preceding year means the year ended December 31 of the year next preceding the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49. Code of Federal Regulations, as amended.

#### GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218

- 1. Schedules 217 and 218 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies and other investments held, by the lessor companies included in this report, at the close of the year, specifically as investments, including the obligations of a State or local government, or of an individual, so held; investments made, disposed of, or written down during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondents. For definition of affiliated companies, see the rules governing account No. 721, "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.
- 2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 721, "Investments in affiliated companies," and 722, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other funds" include the par value of securities recorded in accounts Nos. 715, "Sinking funds"; 716, "Capital and other reserve funds"; and 717, "Insurance and other funds."
- 3. For each lessor company, list the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

Telegraph and telephone companies are not meant to be included.
- 7. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

#### 218. OTHER INVESTMENTS-Concluded

6. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "serially 19 ...... to 19 ....... In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

7. For nonpar stock, show the number of shares in lieu of the par value in columns  $(\epsilon)$ , (f), (g), (h), (j), and (l).

8. In reporting advances, columns  $(\epsilon)$ , (f), (g), (h), (j), and (l) should be left blank. If any advances are piedged, give particulars in a footnote.

9. Particulars of investments made, disposed of, or written down during the year should be given in columns (j) to (n), inclusive. If the cost of any investment made during the year differs from the book value reported in column (k), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments was other than cash, describe the transaction in a footnote. Identify all entries in column (m) which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

to such assent notice has to be filed with a secretary of state or other public officer and a tax or other fee has to be paid as a condition precedent to the validity of the issue, give the date of such payment. In case some condition precedent has to be complied with after the approval and ratification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith. It should be noted that section 20a of the Interstate Commerce Act makes it unlawful for a carrier to issue or assume any securities, unless and until, and then only to the extent that, the Commission by order authorizes such issue or assumption.

Entries in columns (f) and (n) should include stock nominally issued,

nominally outstanding, and actually outstanding. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

#### INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 261 ON PAGES 228A, 228B, 228C, AND 228D

Give particulars of the various issues of securities in accounts Nos. 765, "Funded debt unmatured," 768, "Debt in default," 767, "Receivers' and trustees' securities," 766, "Equipment obligations," and 764, "Equipment obligations and other debt due within 1 year," at the close of the year, together with interest accrued and interest paid during the year and total amount of matured interest in default. Include receipts outstanding for funded debt with their respective issues.

In column (a) enter the name of a reporting lessor company and give, thereunder, the name of each of its bonds or other obligations is fore listing those of a second lessor. The names of the lessors should be listed in the order in which they appear on the balance sheet. Classify the funded debt and securities of each lessor by accounts and according to the following designations in the numerical order given:

- (I) Mortgage bonds:
  - (a) With fixed interest.
  - (b) With contingent interest.
- (2) Collateral trust bonds:
  - (a) With fixed interest.
  - (b) With contingent interest.
- (3) Unsecured bonds (Debentures):
  - (a) With fixed interest.
  - (b) With contingent interest.
- (4) Equipment obligations (Corporation):
  - (a) Equipment securities.
  - (b) Conditional or deferred payment contracts.
- (5) Miscellaneous obligations.
- (6) Receivers' and trustees' securities:
  - (a) Equipment obligations.
  - (b) Other than equipment obligations.
- (7) Short-term notes in default.

Give totals for each group and subgroup of bonds or other obligations. Columns (f), (g), (h), (i), and (j) are intended further to classify the obligations of the company and are to be answered "Yes," or "No."

If an issue is a serial issue, the last date of maturity should be shown in column (c) preceded by the letter "S." If the payments required in the contracts for equipment obligations are unequal in amount (except for the last payment) or are to be made at irregular intervals, show a symbol against the entry made in column (c) opposite the name of such obligation and give particulars in a footnote.

If the issue is an income bond, the entry in column (d) should be the annual maximum rate of interest specified by the indenture. In column (k) show the approximate number of miles of road on which the mortgage is a direct first lien and in column (l) the approximate number of miles of road on which the mortgage is a direct junior lien. Do not consider any road or other property indirectly subject to either a first or junior lien through the pledge of collateral, leaseholds, or other contractual rights in making the returns required in columns (i), (j), (k), and (l).

In column (n) enter the amount of bonds both nominally and actually issued up to the date of the report and not the amount authorized.

Matured obligations amounting to less than \$50,000 which have not been presented for payment may be combined into a single entry designated "Minor items of matured obligations, each less than \$50,000," and the total of such items shown in a footnote.

No entries shall be made in this schedule with respect to issues of matured obligations nominally issued or nominally outstanding when no parts of such issues are actually outstanding.

For definitions of "nominally issued," "nominally outstanding," "actually issued," and "actually outstanding," see Schedule 251.

Entries in columns (v) and (w) should include interest accrued on funded debt reacquired, matured during the year, even though no portion of the issue is outstanding at the close of the year.

In column (y) enter the total in account No. 781, "Interest in default," at the close of the year.

On page 228D, give particulars of changes during the year in funded debt and other obligations, following the same order in which they appear in the prior pages of this schedule.

In column (z) state whether issued for construction of new properties, for additions and betterments, for purchase of railroad or other property for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. Also give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. For nominally issued securities, show returns in columns (z) and (aa) only.

For each class of securities actually issued, the sum of the entries in columns (bb) and (cc), plus discounts or less premiums, such discounts or premiums to be shown in a footnote applicable to each issue, should equal the entry in column (aa). For definition of expense, reportable in column (cc), see Definition 10 in the Uniform System of Accounts for Railroad Companies.

Particulars concerning the reacquirement of securities that were actually outstanding should be reported in columns (a), (dd), and (ee).

Include those securities that have been called for payment during the year for which liability has been transferred to account No. 763, "Other current liabilities."
