#### NOTICE

All switching and terminal companies will be designated class III railroads.

Switching and terminals companies are further classified as:

Class 1, Exclusively switching. This class of companies includes all those performing switching service only, whether for joint account or for revenue.

Class S2, Exclusively terminal. This class of companies includes all companies furnishing terminal trackage or terminal facilities only. Such as union passenger or freight stations, stockyards, etc., for which a charge is made, whether operated for joint account or for revenue. In case a bridge or ferry is part of the facilities operated by a terminal company, it should be include under this heading.

Class S3. Both switching and terminal. Companies which perform both a switching and a terminal service. This class of companies includes all companies whose operations cover both switching and terminal service, as defined above.

Class S4, Bridge and ferry. This class of companies is confined to those whose operations are limited to bridges and ferries exclusively. Class S5, Mixed. Companies performing primarily a switching or a terminal service, but which also conduct a regular freight or passenger traffic. The revenues of this class of companies include, in addition to switching or terminal revenues, those derived from local passenger service, local ireight service, participation in through movement of freight or passenger traffic, other transportation operations, and operations other than transportation.

### 200, COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

The notes listed below are provided for the purpose of disclosing supplementary information concerning matters which have an important cheek on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes explanatory statements explaining (1) service interruption insurance policies and indicate the amount of indemnity to the event such losses are sustained by other tailroads. (2) particulars concerning obligations for stock purchase options granted to officers and employees, and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

- 1. Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts.
- 2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is reade.
- 3 (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year. None
- (b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension
  - (c) Is any part of pension plan funded? Specify Yes No.
    - (i) If funding is by insurance, give name of insuring company
    - (ii) If funding is by trust agreement list trustee(s)
      Date of trust agreement or latest amendment
      - If respondent is affiliated if any way with the trustee(s), explain affiliation
- (d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement
- (e)(i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates. Specify.
  - If yes, give number of the shares for each class of stock or other security.
- (ii) Are voting rights attached to any securities held by the pension plan? Specify Yes No If yes, who determines how stock is voted?
- 4 State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610). YES NO See footnote on Page 7 of Southern Railway Company

| Road                   |                        |        |  |
| Yard                   | NOT APPLICABLE TO RESI | ONDENT |  |
| Other Transportation . |                        |        |  |

2. Depreciation Expense - way and structures - running
Depreciation Expense - way and structures - switching
Depreciation Expense - way and structures - others
All other way and structures operating expenses

Total Way and Structures Operating Expenses

NOT APPLICABLE TO RESPONDENT

Depreciation Expense - locomotives

Depreciation Expense - freight cars

Depreciation Expense - other equipment

3. \*Number of locomotive-miles in yard switching service: Freight

Passenger

\*Number of locomotive-miles in yard switching service should be computed in accordance with OS-A report note F

#### 330. ROAD AND EQUIPMENT PROPERTY

1. Give particulars of changes during the year in Road and Equipment property, and Improvements on leased property.

2. Gross charges during the year should include disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, extensions of old lines, and for additions and betterments. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in columns (c) and (d), as may be appropriate, depending on the nature of the itme. Adjustments in excess of \$100,000 should be explained

3. Report on line 32 amounts not includable in the primary road accounts.

#### 705. IMPORTANT CHANGES DURING THE YEAR.

Hereunder state the following matters, numbering the statements in accordance with the inquiries, and it no changes of the character below indicated occurred during the year, state that fact. Changes in indicage should be stated to the nearest bundredth of a mile. It any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity issued under paragraphs (18) to (22) of section 3 of the Interstate Commerce Vetor otherwise, specific reference to such authority should in each case be made.

2. All other important physical changes, including herein all new tracks built

All leaseholds acquired or surrendered, giving (a) dates, (b) length of jerms, (c) names of parties, (d) reals, and (e) other conditions,

4. All agreements for trackage rights acquired or surrendered, giving (a) dates, (b) length of terms, (e) names of parties, (d) rents, and (e) other

5 All consolidations mergers and reorganizations effected giving particulars

6. All stocks issued, giving (a) purposes for which issued, (b) names of stocks, and (c) amounts issued, and describing (d) the actual consideration

realized, giving (e) amounts and (f) values, give similar information concerning all stocks retired (if any).

7. All funded debt issued, giving (iii) purposes for which issued. (b) names of securities and (e) amounts issued, and describing (d) the actual acquired (b) date retired or canceled, (c) par value of amount retired. 8. All other important financial changes

(Ros

None

The item Miles of road constructed is a tended to show the indeage of first norm track land to extend respondent's road, and should not include tracks relocated and tracks land to shorten the distance between two points, without serving any new territory,

#### 710. INVENTORY OF EQUIPMENT

#### INSTRUCTIONS

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year

2. In column (c) give the number of units of equipment purchased, built in company shops, or otherwise acquired

3. Units leased to others for a period of one year or more are reportable in column (i), units temporarily out of respondent's service and rented to others for less than one year are to be included in column (e), units rented from others for a period less than one year should not be included in column (f). Units installed during the year and subsequently leased to others for a year or more should be shown as added in column (c), as retired

in column (d), and included in column (i). 4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operating at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled

6. A "Diesel" unit ) cludes all units propelled by diesel internal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power from an overhance contact wire or third rail, and use the power to drive one or more electric motors that present the vehicle. An "Other self-powered unit" includes all units other than diesel or electric. e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An 'Auxiliary unit" inleudes all units used in conjunction with locomotives but which draw their powr from the "mother" unit, e.g., boosters, slugs.

7. Column (h) should show aggregate capacity for all units reported in column (g), as follows: For locomotive units, report the manufacturers rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes), or tractive effort of steam locomotive units, for freight-train cars report the nominal capacity (in tons of 2,000 lbs.) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.
