FOR THE YEAR ENDED DECEMBER 31, 1979

# NOTICE

1. This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D. C., 20423, by March 31 of the year following that for which the report is made. Attention is specifically directed to the following provisions of Part I of the Interstate Commerce Act:

SEC. 20. (1) The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, \* \* \* (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, \* \* \* as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, \* \* \* in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission. \* \* \*

(7) (b). Any person who shall knowingly and willfully make, cause to be made, or participate in the making of, any false entry in any annual or other report required under this section to be filed, \* \* \* or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: \* \* \*

(7) (c). Any carrier or lessor, \* \* \* or any officer, agent, employee, or representative thereof, who shall fail to make and file an annual or other report with the Commission within the time fixed by the Commission, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto.

(8) As used in this section \* \* \* the term "carrier" means a common carrier subject to this part, and includes a receiver or trustee of such carrier; and the term "lessor" means a person owning a railroad, a water line or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such lessor, \* \* \*

The respondent is further required to send to the Bureau of Accounts, immediately upon publication, two copies of its latest printed annual report to stockholders. See schedule 108, page 5.

2. The instructions in this Form should be carefully observed, and each question should be answered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page , schedule (or line) number " should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of

an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, type-written or other, in a report, they should be legibly made on durable paper and, whenever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

6. Money items, except averages, throughout the annual report form should be shown in WHOLE DOLLARS adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

8. Provision is made in this Form for the returns of both operating and lessor companies. By an operating company should be understood one whose officers direct a business of transportation and whose books contain operating as well as financial accounts. For such a company an *Operating Report* should be rendered. By a lessor company should be understood one which, although merged in an operating system by means of a lease, or an operating contract or agreement, yet maintains separate accounts and an independent organization for financial purposes. For such a company a *Financial Report* should be rendered. Companies of both classes should make returns in the various schedules of this Form as they may be applicable. Operating companies are further divided into Classes I, II, and III, according to the amounts of their operating revenues, as provided in the Uniform System of Accounts for Electric Railways, and alternative schedules of operating expense accounts are correspondingly provided on pages 303 to 305. Each operating company should make its returns for operating expenses on the pages provided for companies of its class, I, II, or III, as indicated by the amount of its annual operating revenues, notwithstanding the fact that it may, for its own purposes, keep its accounts according to the list provided for companies of a higher class.

9. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the Interstate Commerce Commission. RESPONDENT means the person or corporation in whose behalf the report is made. THE YEAR means the year ended December 31 for which the report is made. THE CLOSE OF THE YEAR means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. THE BEGINNING OF THE YEAR means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. THE PRECEDING YEAR means the year ended December 31 of the year next preceding the year for which the report is made. THE UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC RAILWAYS means the system of accounts in Part 1202 of Title 49, Code of Federal Regulations, as amended.

## 101. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 or 5, on this page, have taken place during the year covered by this report, they should be explained in detail on page 38.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between *railroad* and *railway*. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Verification" (p. 39). If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision.

2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organization; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other

possession began. If a partnership, give date of formation and also names in full of present partners.

3. Give specific reference to laws of each State or Territory under which organized, citing chapter and section. Include all grants of corporate powers by the United States, or by Canada or other foreign country; also, all amendments to charter.

4. Give specific reference to special or general laws under which each consolidation or merger or combination of other form was effected, citing chapter and section. Specify Government, State, or Territory under the laws of which each company consolidated or merged or otherwise combined into the present company was organized; give reference to the charters of each, and to all amendments of them.

5. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.

1. Exact name of common carrier making this report Middletown & Hummelstown Railroad Company

2. Date of incorporation November 16, 1950

3. Under laws of what Government, State, or Territory organized? If more than one, name all. Give specific reference to each charter or statute and all amendments thereof, effected during the year. If previously effected show the year (s) of the report(s) setting forth details. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership or trusteeship and of appointment of receivers or trustees

Organized under the laws of Iowa. Details reported in 1976 annual report.

4. If the respondent was formed as the result of a consolidation or merger during the year, name all constituent and all merged companies

Not Applicable

5. If the respondent was reorganized during the year, give name of original corporation and state the occasion for the reorganization

Not Applicable

6. State whether or not the respondent during the year conducted any part of its business under a name or names other than that shown in response to inquiry No. 1, above; if so, give full particulars

No

7. Give name of operating company, if any, having control of the respondent's property

No

## NOTES AND REMARKS

1. Give particulars of the various directors and officers of the respondent at the close of the year.
2. State in column (c) of Schedule No. 102 and column (d) of Schedule No. 103, the number of voting shares of the respondent, other than directors' qualifying shares, that were beneficially owned, directly or indirectly, by each director or principal general officer at the close of the year. This includes shares owned of record, shares owned through holding companies, trusts or other mediums, and shares owned but held in the names of brokers or other nominees. Insert the word "None" where applicable.
3. In schedule No. 103 give the title, name, and address of the principal general officers having

system jurisdiction by departments, as follows: Executive, Legal, Fiscal and Accounting, Purchasing, Operating (including heads of Construction, Maintenance of Way, Mechanical and Transportation departments), and Traffic. If there are receivers, trustees, or committees, who are recognized as in the controlling management of the carrier or of some department of it, give also their names and titles, and the location of their offices.

4. If the duties of an officer extend to more than one department, or if his duties are not in accordance with the customary acceptance of his given title, state the facts briefly in a note attached to this page.

## Schedule 215A.—RENTAL EXPENSE OF LESSEE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Otherwise, show total rental expense (reduced by rentals from subleases) entering into the determination of results of operations for each period for which an income statement is presented. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based on usage or sales, shall be reported separately from the basic or minimum rentals.

NOTE: As used in schedules 215A through 215E, a "financing lease" is defined as a lease which, during the noncancellable lease period, either (a) covers 75% or more of the economic life of the property or (b) has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans.

## Schedule 215B.—MINIMUM RENTAL COMMITMENTS

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Show the minimum rental commitments under all noncancellable leases, as of the date of the latest balance sheet presented, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (a) each of the five succeeding fiscal years; (b) each of the next three five-year periods; and, (c) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancellable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancellable lease is defined as one that has an initial or remaining term of more than one year and is noncancellable, or is cancellable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

## Schedule 215C.—LESSEE DISCLOSURE

Complete this schedule only if carrier operating revenues are \$10 million or more.

Relate in general terms: (a) the basis for calculating rental payments if dependent upon factors other than the lapse of time; (b) existence and terms of renewal or purchase options, escalation clauses, etc.; (c) the nature and amount of related guarantees made or obligations assumed; (d) restrictions on paying dividends, incurring additional debt, further leasing, etc.; and, (e) any other information necessary to assess the effect of lease commitments upon the financial position, results of operations, and changes in financial position of the lessee.

## Schedule 215D.—LEASE COMMITMENTS—PRESENT VALUE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if the present value of the minimum lease commitments are more than five percent of the sum of the long-term debt, stockholders' equity and the present value of the minimum lease commitments, or if the impact on net income (as computed in schedule 215E, Income Impact—Lessee) is three percent or more of the average net income for the most recent three years.

Show all noncapitalized financing leases, the present value of the minimum lease commitments in the aggregate and by major categories of properties. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated, or actual amounts, if any, applicable to taxes, insurance, maintenance and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease.

Show either the weighted average interest rate (based on present value) and range of rates or specific interest rates for all lease commitments.

## Schedule 215E.—INCOME IMPACT—LESSEE

Complete this schedule only if carrier operating revenues are \$10 million or more.

If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218.

1. Schedules 217 and 218 should give particulars of stocks, bonds, notes, advances, and miscellaneous securities of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments; investments made or disposed of during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definitions of affiliated companies, see the rules governing account No. 405, "Investments in affiliated companies," in the Uniform System of Accounts for Electric Railways.

2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 405, "Investments in affiliated companies," and 409, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other funds" include the par value of securities recorded in accounts Nos. 402, "Sinking funds"; 403, "Deposits in lieu of mortgaged property sold"; and 414, "Insurance and other funds."

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

(A) Stocks:

- (1) Carriers—active.
- (2) Carriers—inactive.
- (3) Noncarriers—active.
- (4) Noncarriers—inactive.

(B) Bonds (including U. S. Government Bonds):

(C) Notes:

(D) Advances:

(E) Miscellaneous securities:

4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. By carriers, as the term is here used, is meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

6. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

8. In case any adjustments in book values thereof have been made during the year, a detailed statement thereof should be given on page 408 of this form.

9. Classify the securities according to the classification given above, showing the subclass by means of letters and figures in columns (a) and (b). Indicate by means of an arbitrary mark in column (c) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

10. Entries in column (c) should show date of maturity of bonds and other evidences of indebtedness. Obligations of the same designation which mature serially may be reported as "Serially 19\_\_\_\_ to 19\_\_\_\_."

11. For nonpar stock, show the number of shares in lieu of the par value in columns (e), (f), (g), (h), (j), and (l) of schedule No. 217 and in columns (d), (e), (f), (g), (i), and (k) of schedule No. 218. In reporting advances, the columns mentioned should be left blank. If any advances are pledged, give particulars in a footnote.

12. If the cost of any investment made during the year differs from the book value reported, explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein.

13. Give totals for each class and for each subclass, and a grand total for each account.

14. These schedules should not include any securities issued or assumed by respondent.

15. In the case of jointly-owned companies show names and percentages of other owners.

16. In all cases, report dollars in thousands.

217.A. INVESTMENTS IN COMMON STOCKS OF AFFILIATED COMPANIES  
Undistributed Earnings From Certain Investments in Affiliated Companies

1. Report below the details of all investments in common stocks included in Account 405, Investments in Affiliated Companies, which qualify for the equity method under instruction 05-7 in the Uniform System of Accounts for Electric Railways.  
2. Enter in column (c) the amount necessary to retroactively adjust those investments qualifying for the equity method of

accounting in accordance with instruction 05-7 (b)(11) of the Uniform System of Accounts for Electric Railways.  
3. Enter in column (d) the share of undistributed earnings (i.e., less dividends) or losses.  
4. Enter in column (e) the amortization for the year of the excess of cost over equity in net assets (equity over cost) at date

of acquisition. See instruction 05-7 (f)(4).

NOTES AND REMARKS

## Schedule 225.—COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

Using the following notes as a guideline, show the requirements of compensating balances and short-term borrowing arrangements if operating revenues are \$10 million or more. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.

\*2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.

3. Compensating balance arrangements need only be disclosed for the latest fiscal year.

4. Compensating balances under an agreement which legally restricts the use of such funds, and which constitute support for short-term borrowing arrangements, should be included in Schedule 226, account 408, Special deposits.

5. Compensating balances under an agreement which legally restricts the use of such funds and which constitute support for long-term borrowing arrangements and are reported in account 414, Insurance and other funds, should also be separately disclosed below.

6. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).

7. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

*Not Applicable*

Schedule 226.—SPECIAL DEPOSITS

For other than compensating balances, state separately each item of \$10,000 or more reflected in account 408, Special deposits, at the close of the year. Items of less than \$10,000 may be combined in a single entry and described as "Minor items less than \$10,000". For compensating balances, state separately the total amounts held on behalf of respondent and held on behalf of others.

Give an analysis of the balance in account No. 415, "Other deferred assets," at the close of the year, showing in detail each item or subaccount amounting to \$50,000 or more. Items less than \$50,000 may be combined into a single entry designated "Minor items, each less than

\$50,000." In case the character of any item is not fully disclosed by the entries in the columns hereunder, make a full explanation in a footnote.

acter of any item is not fully disclosed by the entries in the columns hereunder, make a full explanation in a footnote.

## 251. CAPITAL STOCK

Give particulars of the various issues of capital stock of the respondent in color any "Preferred" or "Debenture" stock outstanding the rate of dividend required to be paid thereon in column (a) and it should be stated whether the dividend is cumulative or non-cumulative.

In stating the date of an authorization the date of the latest assent or ratification necessary to its validity should be shown. If, in case an authorization is required to be ratified by stockholders after action by the board of directors, but is not required to be approved by any State or other governmental board or officer, give the date of approval by stockholders; if the assent of a State railroad commission or other public board

or officer is necessary, give the date of such assent, or if subsequent to such assent notice has to be filed with a secretary of state or other public officer and a tax or other fee has to be paid as a condition precedent to the validity of the issue, give the date of such payment. In case an authorization is required to be ratified by stockholders, the particulars of such condition and of the respondent's compliance therewith and as fully outstanding. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed

and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser is not bound to see that the respondent is duly authorized to issue the same. If securities are issued by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

## 261. FUNDED DEBT

Give particulars of the various bonds and other evidences of funded debt of the respondent which were in existence at the close of the year under accounts 427 and 434, respectively, showing a total for each account.

In column (a) show the name of each bond or other obligation as it is designated in the records of the respondent, classifying each obligation under the appropriate subhead as defined in the Uniform System of Accounts for Electric Railways under account 427.

In case obligations of the same designation mature serially or otherwise

at various dates, enter in column (c) the latest date of maturity and explain the matter in a footnote.

Column (d) calls for the par value of the amount of debt authorized to be incurred, as determined by the final authority whose assent is necessary to the legal validity of the issue. In case such final authority is some public officer or board, state in a footnote the name of such officer or board and the date when assent was given.

Entries in column (e) should include funded debt nominally issued, nominally outstanding, and actually outstanding.

## 261. FUNDED DEBT—Concluded

Entries should conform to the definitions of "nominally issued," "actually issued," etc., as given in the fourth paragraph of instructions on page 17.

If the items of interest accrued during the year as entered in columns (l) and (m) do not aggregate the total accrual for the year on any security, explain the discrepancy. Entries in these columns should include interest accrued on funded debt reacquired or retired during the year although no portion of the issue is actually outstanding at the close of the year.

In determining the entries for column (n), do not treat any interest as paid unless the liability of the respondent in respect to it is extinguished. Deposits of cash with banks and other fiscal agents for the payment of interest coupons should not be reported as payments of such interest until actually paid to coupon holders or others under such circumstances as to relieve the respondent from further liability. In accordance with the Uniform System of Accounts for Electric Railways, interest falling due on January 1 is to be treated as matured on December 31.

Items reportable in schedule 110 must not be included in this schedule.

In column (a) give a description of each item of contingent assets and liabilities under an inserted caption "CONTINGENT ASSETS" or "CONTINGENT LIABILITIES," as appropriate, and in column (b) show the amount of each item; if unknown, so state and explain by footnote.

NOTES AND REMARKS

**350. TAXES ASSIGNABLE TO TRANSPORTATION OPERATIONS**

Give the various particulars called for with respect to the taxes accrued assignable to transportation operations of the respondent and charged to account No. 215 during the year.

Taxes are those annual or other payments exacted by governments (Federal, State, county, municipal, school, and other tax-district authorities) for the purpose of raising funds for public uses. They do not include payments exacted for special benefits conferred on the payor, such as special assessments for street improvements, etc.

Railway properties on which taxes are paid should be classified and grouped as follows:

(A) All railway properties owned by the respondent and its proprietary companies (showing these as a whole or in detail as the respondent may prefer).

(B) Properties held under any form of lease from other than proprietary companies and upon which respondent is required to pay the taxes in addition to the stipulated rent, showing such properties in detail.

(C) Properties held under any form of lease from other than proprietary companies and upon which the respondent is required to pay the taxes as a part of the stipulated rent, showing such properties in detail.

With respect to each of the groups or detailed properties above specified show in the upper section:

(a) The name of the road (or group).

(b) The State (or States or Federal Government) to which taxes are paid.

(c) Taxes accrued which were levied on the carrier by State Governments (or governments other than the United States) on the basis of a percentage of the compensation of employees, such as taxes for unemployment insurance under State Social Security Acts.

(d) Taxes of all other kinds accrued which were levied on the carrier by State Governments (or governments other than the United States).

(e) The sum of the returns in columns (c) and (d).

In the lower section, show separately the various kinds of U.S. Government taxes. In column (c), include taxes accrued which are payable to the U.S. Government for old-age retirement and unemployment insurance. Taxes of all other kinds accrued, such as income tax, surtax on undistributed profits, stamp tax on sale or issue of capital stock, etc., should be included in column (d). Enter totals in column (e).

This schedule should, so far as possible, be restricted to taxes on properties used in transportation operations.

This schedule should not include taxes on joint facilities not maintained by the respondent.

## C. Analysis of Federal Income and Other Taxes Deferred

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year balance of accumulated deferred tax credits (debits) applicable to each particular in column (a).

3. Indicate in column (c) the net change in accounts 413-5, 420-5, 436-5, and 447 for the net tax effect of timing difference originating and reversing in the current accounting period.

4. The total of net credits (charges) for the current year in column (c) should agree with the contra charges (credits) to account 215-5, Provision for deferred taxes, and account 291, Provision for deferred taxes - extraordinary items, for the current year.

5. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carryforward or a loss carry-back.

6. Indicate in column (e) the cumulative total of columns (b), (c), and (d). The total of column (e) must agree with the balances in accounts 413-5, 420-5, 436-5 and 447.

## NOTES AND REMARKS

## 411-A. MILEAGE OPERATED AT CLOSE OF YEAR

Give particulars of all tracks operated by the respondent at the close of the year.  
Classify the roads as follows:

- (1) Line owned by the respondent—(A) main line, (B) branches and spurs,
- (2) Line operated by the respondent but owned by the respondent's proprietary corporations and not formally leased to the respondent,
- (3) Line operated under lease for a specified term, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent,
- (4) Line operated under contract or agreement, or where the rent is contingent upon earnings or other consideration, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent,
- (5) Line operated under trackage rights.

Name all the roads of each class before any of a later class, and insert in column (a) before the name of each road the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the name of the road as it is designated on the records of the respondent. For each road name its termini, and give its entire length (single or first track) and the lengths of second main track, all other main tracks, sidings, turn-outs, switches, spurs, etc. The mileage to be returned in column (d) hereunder is the single-track mileage or distance between the termini named, two or more tracks lying in the same street

being considered parts of the same portion of road, and the length of but one track being used as the length of road. If the same tracks were placed in different streets, the length of each should be taken in determining the length of road. Give also subtotals for the several numbered classes, as well as the total for all classes.

The spurs mentioned under (1B) include only those used for traffic purposes, as, e.g., a spur running from a main line to a quarry or a factory. Spurs in the nature of sidings should be shown under the head of sidings, in column (g).

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes every line full title to which is in a proprietary corporation of the respondent is, one all of whose capital stock is owned either directly or indirectly by the respondent, and which the respondent has seized and still holds wholly by virtue of such ownership of stock in the proprietary corporation and without any formal or express grant of the road, and which is operated by the respondent without any accounting to the said proprietary corporation. It may also include such line where the line is in a merely controlled corporation if there is no formal or express grant and no accounting to the controlled corporation, but in case of any such inclusion the facts of title and a statement showing the extent and character of the respondent's interest in the controlled corporation in which is the actual legal title to the road should be attached as a memorandum to this schedule.

Class (3) includes all road operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3) except that the rent reserved is conditioned upon earnings or other fact.

Class (5) includes every line operated and maintained by another company but over which the respondent has the right to operate some or all of its trains. In the case of this class the respondent has no proprietary rights but only the rights of a licensee. Include in this class, also, all main tracks and sidings owned by non-carrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Lengths should be stated to the nearest hundredth of a mile.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached, and full particulars showing all of the joint or common title holders and the extent of their respective interests should be shown as a memorandum attached to the schedule.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

## 411-B. MILES OF ROAD AT CLOSE OF YEAR—BY STATES AND TERRITORIES (SINGLE TRACK)

(For companies making operating reports)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in columns (b), (c), (d), or (f), as may be appropriate. The remainder of jointly operated mileage should be shown in column (g). Respondent's proportion of road

### NOTES AND REMARKS

### 416. REVENUE FREIGHT CARRIED DURING THE YEAR

Include all commodities carried by the respondent during the year, the revenue from which is includible in account No. 107, "Freight Revenue." In stating the number of tons received from connecting carriers, include all connecting carriers, whether rail or water, and whether the

freight is received directly or indirectly (as through elevators).

Include forwarder traffic and traffic moved in lots of less than 10,000 pounds.

### 416A. REVENUE FREIGHT CARRIED DURING THE YEAR—LARGE ELECTRIC RAILWAYS

NOTE: Copies of Schedule 416A, Revenue Freight Carried during the Year—Large Electric Railways, are supplied carriers unbound for use in reporting as provided by order of September 13, 1963 as amended De-

cember 20, 1963, Docket No. 34206, Commodity classification for Reporting Purpose and by order of August 10, 1964, Docket No. 34316, Commodity Statistics Reporting—Extent and Disclosure

## 416P. STATISTICS OF RAIL-LINE OPERATIONS—LARGE ELECTRIC RAILWAYS

Carriers by electric railway reported more than 1,000,000, freight, mail, and express car-miles in rail-line operations during the year 1946 should show hereunder the details of rail-line operating statistics recorded for the year in accordance with the provisions of the Interstate Commerce Commission's Order of November 25, 1946, in the Matter of Freight Commodity Statistics and Operating Statistics of Electric Railways, effective on January 1, 1947.

"Freight train-miles" include miles run by all trains between terminals or stations for the transportation of revenue and company freight; also miles run by trains consisting of empty freight cars, and by trains consisting of a locomotive and caboose running light in connection with such service. Trains which contain passenger-train cars shall be classed as freight trains whenever the number of freight-train cars is in excess of the number of passenger-train cars in them. Freight train-miles should be subdivided as follows: Ordinary freight train-miles which includes miles run by trains consisting of a locomotive, with or without caboose, with other equipment; light freight train-miles which includes miles run by trains consisting of a locomotive and caboose, running light in connection with freight-train service. Motorcar train-miles should be included.

"Freight locomotive-miles" include miles run by locomotives in freight-train service. Miles of motorcars (propelling units) should not be classed as locomotive-miles. Locomotive-miles should be subdivided as follows: Principal freight locomotive-miles, including miles run by locomotives principal to the train, between terminals or stations, with freight

trains; also miles run by locomotives between terminals or stations, with cabooses, going to or returning from such service; and miles run in hauling the second cut of freight trains doubled over grades; helper freight locomotive-miles, including miles run by locomotives as helpers over the division or that portion covered by the run, or on important grades including double-headers, triple-headers, and pushers, regardless of whether on the head end, in the middle, or on the rear of the train; light freight locomotive-miles, including miles run by locomotives light between terminals or stations in connection with freight-train service on account of unbalanced traffic; miles run light for hauling second cuts of trains doubled; miles run light between freight trains and next coaling station or water tank for coal or water; miles run light to pick up or assist freight trains between terminals; miles run light by grade helpers in returning from assisting freight trains as pushers or double-headers; and miles run light by locomotives coming from or going to engine houses or turntables from freight-train service.

"Freight-train car-miles" include the miles run by freight-train cars (including caboose cars) in transportation service. Such car-miles should be subdivided as follows: Loaded, empty and caboose. The mileage of company service equipment, designed exclusively for work service and moved in transportation trains, should be classed as loaded freight car-miles. Car mileage of motorcar trains should be included.

## METHODS OF OBTAINING AVERAGES INDICATED BY NUMBERED ITEMS

100. Miles per revenue ton.—Divide "14. Tons of revenue freight carried one mile" by "13. Number of revenue tons carried."

## NOTES AND REMARKS

## 417. EMPLOYEES

This table should show the average number of employees of each class in service based on monthly counts and the aggregate of salaries and wages paid for the year covered by the report. The average number of employees in service for entry in column (b) is obtained by adding the number of employees on the payroll in each of the stated classes during the payroll period containing the 12th day of each month and dividing by 12. Every count should cover not only employees actually on duty during the period of the count, but also employees under pay not so on duty if absent from service on sick or other leave or held subject to call for duty.

If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (c) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto. This schedule does not include old-age retirement, and unemployment insurance taxes. See schedule 350 for such taxes.

## NOTES AND REMARKS

## 418. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 104, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more. The detail as to division of the compensation should be reported in Schedule 564.

4. Other compensation to be entered in column (d) includes, but is not limited to, commissions,

bonuses, shares in profits, contingent compensation, moneys paid, set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

## 419. PAYMENTS FOR SERVICES NOT RENDERED BY EMPLOYEES

In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses or any form of payment amounting in the aggregate to \$5,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in schedule 418, or management fees and expenses covered in schedule 127 in this annual report) for services or as a donation. In the case of contributions of under \$5,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$5,000 or more.

To be included are, among others, payments directly or indirectly for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and effi-

ciency engineers. Payments to the various railway associations should also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments; payments for heat, light, power, telegraph, and telephone services; and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

## EXPLANATORY REMARKS

## 591. CONTRACTS, AGREEMENTS, ETC.

Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, which became effective during the year, and concerned in any way the transportation of persons or things, at other than tariff rates, making such statements in the following order:

1. Express companies.
2. Mail.
3. Sleeping, parlor, and dining car companies.
4. Freight or transportation companies or lines.
5. Other railway companies.
6. Steamboat or steamship companies.
7. Telegraph companies.

8. Telephone companies.

9. Other contracts.

Information concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$1,000 per year, and which by its terms is otherwise unimportant.

In lieu of giving abstracts, copies of contracts may be filed. Every copy of a contract furnished in connection with the foregoing requirement should be listed hereunder.

The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

## 592. CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Where the particulars called for under any item are numerous, the minor particulars may be summarized by classes.

## Schedule 595.—COMPETITIVE BIDDING — CLAYTON ANTITRUST ACT

Section 10 of the Clayton Antitrust Act (15 U.S.C. 20) states that "no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, in any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, firm, partnership or association, unless and except such purchases shall be made from, or such

dealings shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission." The specification for competitive bids is found in the Code of Federal Regulations, Part 1010-Competitive Bids through Part 1010.7-Carriers Subject to the Interstate Commerce Act.

In column (g), identify the company awarded the bid by including company name and address, name and title of respondent officers, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.
