# **`** To The Surface Transportation Board

For the Year Ending December 31, 2005

# NOTICE

1. This report is required for every class I railroad operating within the United States. Three copies of this Annual Report should be completed. Two of the copies must be filed with the Surface Transportation Board, Office of Economics, Environmental Analysis, and Administration, The Mercury Building, 1925 K St. N.W., Suite 500, Washington, DC 20423, by March 31 of the year following that for which the report is made. One copy should be retained by the carrier.

2. Every inquiry must be definitely answered. Where the word "none" truly and completely states the fact, it should be given as the answer. If any inquiry is inapplicable, the words "not applicable" should be used.

3. Wherever the space provided in the schedules in insufficient to permit a full and complete statement of the requested information, inserts should be prepared and appropriately identified by the number of the schedule.

4. All entries should be made in a permanent black ink or typed. Those of a contrary character must be indicated in parenthesis. Items of an unusual character must be indicated by appropriate symbols and explained in footnotes.

5. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.

6. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the following meanings:

(a) Board means Surface Transportation Board.

(b) Respondent means the person or corporation in whose behalf the report is made.

(c) Year means the year ended December 31 for which the report is being made.

(d) Close of the Year means the close of business on December 31 for the year in which the report is being made. If the report is made for a shorter period than one year, it means the close of the period covered by the report.

(e) Beginning of the Year means the beginning of business on January 1 of the year for which the report is

being made. If the report is made for a shorter period than one year, it means the beginning of that period. (f) Preceding Year means the year ended December 31 of the year preceding the year for which the report

is made.

(g) The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.

7. The ICC Termination Act of 1995 abolished the Interstate Commerce Commission and replaced it with the Surface Transportation Board. Any references to the Interstate Commerce Commission-or Commission contained in this report refer to the Surface Transportation Board.

8. Any references to the Bureau of Accounts or the Office of Economics contained in this report refer to the Office of Economics, Environmental Analysis, and Administration of the Surface Transportation Board.

9. NOTE - An additional line has been added to Schedule 755 (Line 134) effective with the 2004 R-1. Also note that the instructions for completion of Schedule 755 now have two additional items (Instructions U and V).

10. NOTE - The columns in Schedule 710-Distribution of Locomotive Units In Service of Respondent At Close Of Year, Disregarding Year Of Rebuilding have been revised to reflect new five year periods.

11. NOTE - The following supplemental information about STB information collections is provided in compliance with OMB requirements and pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. 3501<u>et seq.</u>:

Supplemental Information about the Annual Report (R-1)

This information collection is mandatory pursuant to 49 U.S.C. 11145.

The estimated hour burden for filing this report is less than 800 hours.

Information in the Annual Reports is used to monitor and assess railroad industry growth, financial stability, traffic, and operations and to identify industry changes that may affect national transportation policy. In addition, the Board uses data from these reports to more effectively carry out regulatory responsibilities, such as acting on railroad requests for authority to engage in Board regulated financial transactions (for example, mergers, acquisitions of control, consolidations, and abandonments); conducting investigations and rulemakings; conducting rail revenue adequacy proceedings; developing rail cost adjustment factors; and developing the URCS, which is a cost measurement methodology. URCS was developed by the Board pursuant to 49 U.S.C. 11161 and is used as a tool in rail rate proceedings to calculate the variable costs associated with providing a particular service in accordance with 49 U.S.C. 10707(d). The Board also uses URCS to analyze the information that it obtains through the annual railroad industry waybill sample, see 49 CFR 1244, and in railroad abandonment proceedings to measure off-branch costs, pursuant to 49 U.S.C. 10904(a) and in accordance with 49 CFR 1152.32(n).

The information in this report is ordinarily maintained by the agency in hard copy for 10 years, after which it is transferred to the National Archives, where it is maintained as a permanent record. These reports are also maintained by the agency indefinitely on microfiche. In addition, some of this information is posted on the Board's website, <u>www.stb.dot.gov</u>, where it may remain indefinitely. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0009. The display of a currently valid OMB control number is required by law.

#### Supplemental Information about the Quarterly Condensed Balance Sheet (CBS)

This information collection is mandatory under 49 CFR 1243.2.

The estimated hour burden for filing this report is six hours per report.

The Board uses the information in this report to ensure competitive, efficient, and safe transportation through general oversight programs that monitor and forecast the financial and operating condition of railroads, and through specific regulation of railroad-rate and service issues and rail-restructuring proposals, including railroad mergers, consolidations, acquisitions of control, and abandonments. Information from the reports is used by the Board, other Federal agencies, and industry groups, including the Association of American Railroads, to assess industry growth and operations, detect changes in carrier financial stability, and identify trends that may affect the national transportation system.

Information from these reports is compiled by the Board and published on its website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. The compilation report is entitled<u>Class I Railroads. Selected</u> <u>Earnings Data</u>. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The display of a currently valid OMB control number for this collection is required by law.

### Supplemental Information about the Quarterly Report of Revenues, Expenses, and Income (Form RE&I)

This information collection is mandatory pursuant to 49 U.S.C. 11164 and 49 CFR 1243.1.

The estimated hour burden for filing this report is six hours per report.

The Board uses the information in this report to ensure competitive, efficient, and safe transportation through general oversight programs that monitor and forecast the financial and operating condition of railroads, and through regulation of railroad rate and service issues and rail restructuring proposals, including railroad mergers, consolidations, acquisitions of control and abandonments. Information from the reports is used by the Board, other Federal agencies and industry groups to monitor and assess industry growth and operations, detect changes in carrier financial stability, and identify trends that may affect the national transportation system. Individual and aggregate carrier information is needed in our decision making process.

Information from these reports is compiled by the Board and published on its website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. The compilation report is entitled<u>Class I Railroads</u>, <u>Selected</u> <u>Earnings Data</u>. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The display of a currently valid OMB control number for this collection is required by law.

# Supplemental Information about the Report of Railroad Employees, Service, and Compensation (Wage Forms A & B)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1245.2.

The estimated hour burden for filing this report is 30 hours per quarterly report and 40 hours per annual report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. The information is also used by the Board to evaluate proposed regulated transactions that may impact rail employees. These transactions include mergers and consolidations, acquisitions of control, purchases, and abandonments. Other Federal agencies and industry groups, including the Railroad Retirement Board, the Bureau of Labor Statistics, and the Association of American Railroads, depend on the information contained in the reports to monitor railroad operations.

Certain information from the reports is compiled and published on the Board's website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0004. The display of a currently valid OMB control number is required by law.

# Supplemental Information about the Monthly Report of Number of Employees of Class I Railroads (Wage Form C)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1246.1.

The estimated hour burden for filing this report is 1.25 hours per monthly report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. The information is also used by the Board to evaluate proposed regulated transactions that may impact rail employees, including mergers and consolidations, acquisitions of control, purchases, and abandonments. Other Federal agencies and industry groups, including the Railroad Retirement Board, the Bureau of Labor Statistics, and the Association of American Railroads, depend on the information contained in the reports to monitor railroad operations.

The information in this report is compiled and published on the Board's website, <u>www.stb.dot.gov</u>, where it may be maintained indefinitely. In addition, paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed. All information collected through this report is available to the public.

The OMB control number for this collection is 2140-0007. The display of a currently valid OMB control number is required by law.

#### Supplemental Information about the Annual Report of Cars Loaded and Cars Terminated (Form STB-54)

This information collection is mandatory pursuant to 49 U.S.C. 11162 and 49 CFR 1247.

The estimated hour burden for filing this report is four hours per report.

The Board uses information in this report to forecast labor costs and measure the efficiency of the reporting railroads. Information in this report is entered into the Board's URCS. In addition, many other Federal agencies and industry groups, including the Department of Transportation and the Association of American Railroads (AAR), depend on Form STB-54 for information regarding the number of cars loaded and terminated on the reporting carrier's line.

All information collected through this report is available to the public. Paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed.

The OMB control number for this collection is 2140-0011. The display of a currently valid OMB control number is required by law.

#### Supplemental Information about the Quarterly Report of Freight Commodity Statistics (Form QCS)

This information collection is mandatory pursuant to 49 U.S.C. 11145 and 49 CFR 1248.

The estimated hour burden for filing this report is 217 hours per report.

Information in this report is entered into the Board's URCS.

All information collected through this report is available to the public. Paper copies of individual reports are maintained by the Board for ten years, after which they are destroyed.

The OMB control number for this collection is 2140-0001. The display of a currently valid OMB control number is required by law.

Road Initials NS Rail

#### SPECIAL NOTICE

Docket No. 38559, Railroad Classification Index, (ICC served January 20, 1983), modified the reporting requirements for Class II, Class III, and Switching and Terminal Companies. These carriers will notify the Board only if the calculation results in a different revenue level other than its current calculation

The dark borders on the schedules represent data that are captured by the Board

It is estimated that an average of 800 burden hours per response are required to complete this collection of information. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be directed to the Office of the Secretary, Surface Transportation Board

Railroad Annual Report R-1

#### **B. IDENTITY OF RESPONDENT**

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 on this page have taken place during the year covered by this report, they should be explained in full detail.

- 1 Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page, and in the "Venfication." If the report is made by receivers, trustees, a committee of bondholders, or individuals otherwise in possession of the property, state names and facts with precision. If the report is for a consolidated group, pursuant to Special Permission from the Board, indicate such fact on line 1 below and list the consolidated group on page 4.
- 2 If incorporated under a special charter, give date of passage of the act, if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date when such receivership or other possession began If a partnership, give date of formation and also names in full of present partners.
- 3 State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.
- 1 Exact name of common carrier making this repo Norfolk Southern Combined Railroad Subsidianes\* (NS Rail) is comprised principally of Norfolk Southern Railway Consolidated.
- 2 Date of incorporation Norfolk Southern Railway Company was incorporated June 18, 1894, under the name Southern Railway Company
- 3 Under laws of what Government, State, or Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership and of appointment of receivers or trustees Norfolk Southern Railway Company - Organized under and by virtue of an act of Assembly of the State of Virginia, approved February 20, 1894.

4 If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give full particulars - On June 1, 1982, Southern Railway Company (SR) and Norfolk and Western Railway Company (NW) became subsidiaries of Norfolk Southern Corporation (NS), a transportation holding company incorporated in Virginia. Effective December 31, 1990, NS transferred all the common stock of NW to SR, and SR's name was changed to Norfolk Southern Railway Company (NSR). Effective September 1, 1998, NW was merged with and into NSR. In August 1998, the STB's decision approving the joint application of NS, NSR and other parties to control Conrail (which owns Consolidated Rail Corporation) became final NSR and CSX Transportation began operating their respective portions of Conrail's routes and assets on June 1, 1999. See also note 10 to Schedule 200.

\* See note on page 4 "Principles of Combined Reporting."

#### STOCKHOLDERS REPORTS

5 The respondent is required to send the office of Economic and Environmental Analysis, immediately upon preparation, two copies of its latest annual report to stockholders

Check appropriate box:

Two copies are attached to this report.

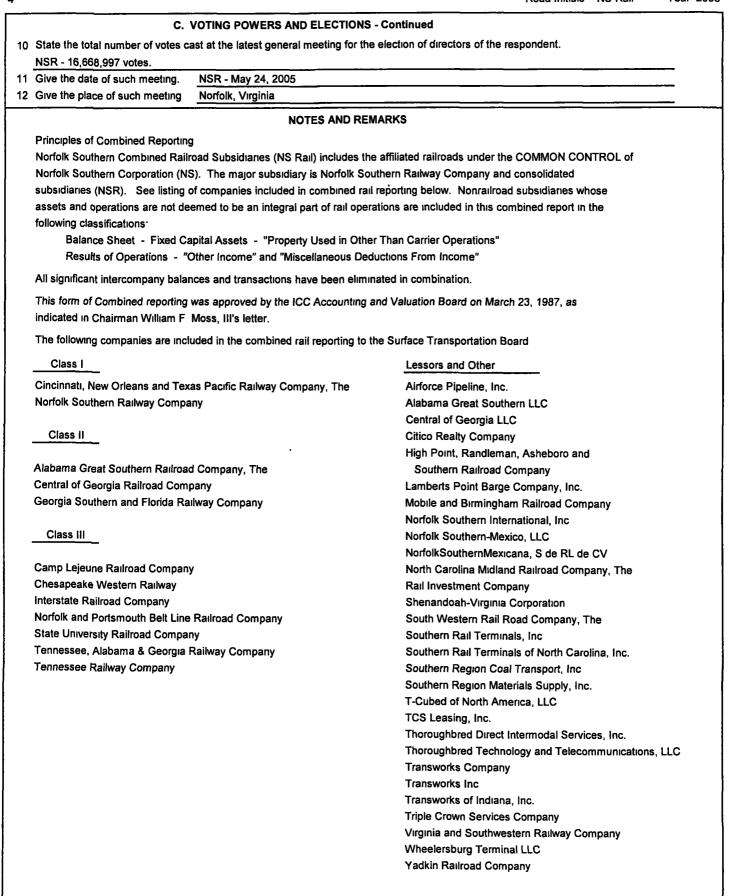

Two copies will be submitted

X No annual report to stockholders is prepared Not applicable for "Norfolk Southern Combined Railroad Subsidiaries " Enclosed with this Report Form R-1 is a copy of Annual Report on Form 10-K for year ended December 31, 2005, filed with the Securities and Exchange Commission by Norfolk Southern Corporation

#### COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

The notes listed below are provided to disclose supplementary information on matters that have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none"; and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees, and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

- 1 Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts NONE
- 2 Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made NONE
  - Explain the procedure in accounting for pension funds and recording in the accounts the current and past (a) service pension costs, indicating whether or not consistent with the prior year SEE NOTE 3, PAGE 9
    - State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the (b) NONE FOR FUNDED PLANS pension fund
    - Is any part of pension plan funded? Specify Yes X No\_ (c)

7. Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with Instruction 5-6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the amounts of the respondent

Disclose the nature and amount of contingency that is material

Example of contingent liabilities are items which may become obligations as a result of pending or threatened litigation, assessments or possible assessments of additional taxes and agreements or obligations to repurchase securities or property Additional pages may be added if more space is needed (Explain and/or reference to the following pages.)

| (Previous Yr.) | Current Portfolio    |      |        | N/A                  | N/A                                |
| as of //       | Noncurrent Portfolio |      |        | N/A                  | N/A                                |

At //, gross unrealized gains and losses pertaining to marketable equity securities were as follows:

|            | Gains   | Losses         |
|------------|---------|----------------|
| Current    | \$<br>_ | \$<br><u> </u> |
| Noncurrent | \$<br>  | \$<br>         |

A net unrealized gain (loss) of \$\_\_\_\_\_\_ on the sale of marketable equity securities was included in net income for \_\_\_\_\_ (year) The cost of securities sold was based on the \_\_\_\_\_\_ (method) cost of all the shares of each security held at time of sale

Significant net realized and net unrealized gains and losses arising after date of the financial statements but prior to the filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below

NOTE: / / (date) Balance sheet date of reported year unless specified as previous year

#### 3. Pensions and Other Postretirement Benefits

Norfolk Southern and certain subsidiaries have both funded and unfunded defined benefit pension plans covering principally salaried employees NS and certain subsidiaries also provide specified health care and death benefits to eligible retired employees and their dependents. Under the present plans, which may be amended or terminated at NS' option, a defined percentage of health care expenses is covered, reduced by any deductibles, copayments, Medicare payments and, in some cases, coverage provided under other group insurance policies. The following relates to the combined NS plans.

#### Asset Management

Eleven investment firms manage NS' defined benefit pension plan's assets under investment guidelines approved by the Board of Directors. Investments are restricted to domestic fixed income securities, international fixed income securities, domestic and international equity investments and unleveraged exchange-traded options and financial futures. Limitations restrict investment concentration and use of certain derivative instruments. The target asset allocation for equity is 75% of the pension plan's assets. Fixed income investments must have an average rating of "AA" or better and all fixed income securities must be rated "A" or better except bond index funds. Equity investments must be in liquid securities listed on national exchanges. No investment is permitted in the securities of NS or its subsidiaries (except through commingled pension trust funds). Investment managers' returns are expected to exceed selected market indices by prescribed margins

NS' pension plan weighted-average asset allocations at Dec 31, 2005 and 2004, by asset category, are as follows

|  | Percenta<br>plan asso | - | -           |   |
|--|-----------------------|---|-------------|---|
| Asset Category   | <u>2005</u>           |   | <u>2004</u> |   |
| Equity securities  | 76                    | % | 76          | % |
| Debt securities  | 24                    | % | 24          | % |
| Total  | 100                   | % | 100         | % |
| International equity securities<br>included in equity securities above | 11                    | % | 10          | % |

The postretirement benefit plan assets consist primarily of trust-owned variable life insurance policies with an asset allocation at Dec. 31, 2005, of 66% in equity securities and 34% in debt securities compared with 67% in equity securities and 33% in debt securities at Dec 31, 2004. The target asset allocation for equity is between 50% and 75% of the plan's assets

The plans' assumed future returns are based principally on the asset allocation and on the historic returns for the plans' asset classes determined from both actual plan returns and, over longer time periods, market returns for those asset classes.

#### Medicare Changes

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (the Act) was signed into law in December 2003 The Act introduced a new prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The actuary for NS' medical plan has determined that NS' medical plan's prescription drug benefit for 2006 is actuarially equivalent to the new prescription drug benefit under Medicare Part D. In accordance with Financial Accounting Standards Board Staff Position No 106-1, NS elected to take into account these legislative changes in the measurement of its postretirement benefit obligations, which resulted in a reduction of \$15 million in the net benefit cost in 2005, \$9 million in 2004 and no effect on the net benefit cost in 2003

During 2005, NS distributed split dollar life insurance policies to eligible retired employees, which resulted in a \$12 million reduction of the postretirement benefits obligation.

Following is information for NS' unfunded pension plans which in all cases have no assets and therefore have an accumulated benefit obligation in excess of plan assets.

|   |                   | 200                     | :. 31,<br><u>5</u><br>n million | ıs)        | <u>200</u> | 4         |            |           |

#### Pension Assumptions

Pension and other postretirement benefit costs are determined based on actuarial valuations that reflect appropriate assumptions as of the measurement date, ordinarily the beginning of each year. The funded status of the plans is determined using appropriate assumptions as of each year end. A summary of the major assumptions follows.

|                           | 2005  | <u>2004</u> | <u>2003</u> |
|---------------------------|-------|-------------|-------------|
| Funded status:            |       |             |             |
| Discount rate             | 5 50% | 5 75%       | 6 25%       |
| Future salary increases   | 4 5%  | 4 5%        | 4.5%        |
| Pension cost:             |       |             |             |
| Discount rate             | 5.75% | 6.25%       | 6.75%       |
| Return on assets in plans | 9%    | 9%          | 9%          |
| Future salary increases   | 4 5%  | 4 5%        | 4 5%        |

#### Health Care Cost Trend Assumptions

For measurement purposes at Dec 31, 2005, increases in the per capita cost of covered health care benefits were assumed to be 9% for 2005 and 8% for 2006. It is assumed the rate will decrease gradually to an ultimate rate of 5% for 2009 and remain at that level thereafter

Assumed health care cost trend rates have a significant effect on the amounts reported in the financial statements. To illustrate, a one-percentagepoint change in the assumed health care cost trend would have the following effects

|  | Inc      | ONE PERCENTAGE POINT<br>Increase Decrease<br>(\$ in millions) |          |             |  |
|--|----------|---|----------|-------------|--|
| Increase (decrease) in.<br>Total service and interest cost components<br>Postretirement benefit obligation | \$<br>\$ | 7<br>81   | \$<br>\$ | (6)<br>(69) |  |

#### Contributions and Estimated Future Benefit Payments

In 2006, NS expects to contribute approximately \$8 million to its unfunded pension plans for payments to pensioners and \$44 million to its other postretirement benefit plans for retiree health benefits

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows.

|                 | Pen<br><u>Ben</u><br>(\$ // |     | Oth<br><u>Ber</u> | ier<br><u>nefits</u> |
|-----------------|-----------------------------|-----|-------------------|----------------------|
| 2006            | \$                          | 116 | \$                | 44                   |
| 2007            |                             | 113 |                   | 45                   |
| 2008            |                             | 111 |                   | 46                   |
| 2009            |                             | 110 |                   | 47                   |
| 2010            |                             | 111 |                   | 49                   |
| Years 2011-2015 |                             | 587 |                   | 262                  |

Beginning in 2006, the other benefit payments include an estimated annual \$4 million reduction due to the Medicare Part D Subsidy.

#### Other Postretirement Coverage

Under collective bargaining agreements, NS and certain subsidiaries participate in a multi-employer benefit plan, which provides certain postretirement health care and life insurance benefits to eligible union employees. Premiums under this plan are expensed as incurred and amounted to \$26 million in 2005, \$20 million in 2004 and \$18 million in 2003.

#### Section 401(k) Plans

NS and certain subsidiaries provide Section 401(k) savings plans for employees. Under the plans, NS matches a portion of employee contributions, subject to applicable limitations. NS' expenses under these plans were \$13 million in 2005 and \$12 million in each of 2004 and 2003.

#### 7. Commitments and Contingencies

#### <u>Lawsuits</u>

NS Rail and certain subsidiaries are defendants in numerous lawsuits and other claims relating principally to railroad operations. When management concludes that it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, it is accrued through a charge to earnings. While the ultimate amount of liability incurred in any of these lawsuits and claims is dependent on future developments, in management's opinion, the recorded liability is adequate to cover the future payment of such liability and claims. However, the final outcome of any of these lawsuits and claims cannot be predicted with certainty, and unfavorable or unexpected outcomes could result in additional accruals that could be significant to results of operations in a particular year or quarter. Any adjustments to the recorded liability will be reflected in earnings in the periods in which such adjustments are known

#### Casualty Claims

Casualty claims include employee personal injury and occupational claims as well as third-party claims, all exclusive of legal costs. NS Rail engages an independent consulting actuarial firm to aid in valuing its liability for these claims. Job-related accidental injury and occupational claims are subject to the Federal Employers' Liability Act (FELA), which is applicable only to railroads. FELA's fault-based system produces results that are unpredictable and inconsistent as compared with a no-fault workers' compensation system. The variability inherent in this system could result in actual costs being very different from the liability recorded. While the ultimate amount of claims incurred is dependent on future developments, in management's opinion, the recorded liability is adequate to cover the future payments of claims and is supported by the most recent actuarial study. In all cases, NS Rail records a liability when the expected loss for the claim is both probable and estimable

In 2005, NS Rail recorded a liability related to the Jan. 6, 2005 derailment in Graniteville, SC. The liability, which includes a current and long-term portion, represents NS Rail's best estimate based on current facts and circumstances. The estimate includes amounts related to business property damage and other economic losses, personal injury and individual property damage claims as well as third-party response costs. NS Rail's commercial insurance policies are expected to cover substantially all expenses related to this derailment above NS Rail's self-insured retention, including NS Rail's response costs and legal fees. Accordingly, the Consolidated Balance Sheet reflects a current and long-term receivable for estimated recoveries from NS Rail's insurance carriers. The \$41 million expense recorded in 2005 related to this incident represents NS Rail's retention under its insurance policies and other uninsured costs. While it is reasonable to expect that the liability for covered losses could differ from the amount recorded, such a change would be offset by a corresponding change in the insurance receivable. As a result, NS Rail does not believe that its reasonably likely that its net loss (the difference between the liability and future recoveries) will be materially different than the loss recorded in 2005. NS Rail expects at this time that insurance coverage is adequate to cover potential claims and settlements above its self-insurance retention.

Employee personal injury claims – The largest component of casualties and other claims expense is employee personal injury costs. The actuarial firm engaged by NS Rail provides quarterly studies to aid in valuing its employee personal injury liability and estimating its employee personal injury expense. The actuarial firm studies NS Rail's historical patterns of reserving for claims and subsequent settlements, taking into account relevant outside influences. The actuary uses the results of these analyses to estimate the ultimate amount of the liability, which includes amounts for incurred but unasserted claims. NS Rail adjusts its liability to the actuarially determined amount on a quarterly basis. The estimate of loss liabilities is subject to inherent limitation given the difficulty of predicting future events such as jury decisions, court interpretations or legislative changes and as such the actual loss may vary from the actuarial estimate

Occupational claims – Occupational claims (including asbestosis and other respiratory diseases, as well as repetitive motion) are often not caused by a specific accident or event but rather result from a claimed exposure over time. Many such claims are being asserted by former or retired employees, some of whom have not been actively employed in the rail industry for decades. The actuarial firm provides an estimate of the occupational claims liability based upon NS Rail's history of claim filings, severity, payments and other pertinent facts. The liability is dependent upon management's judgments made as to the specific case reserves as well as judgments of the consulting actuarial firm in the periodic studies The actuarial firm's estimate of ultimate loss includes a provision for those claims that have been incurred but not reported. This provision is derived by analyzing industry data and projecting NS Rail's experience into the future as far as can be reasonably determined. NS Rail adjusts its liability to the actuarially determined amount on a quarterly basis. However, it is possible that the recorded liability may not be adequate to cover the future payment of claims. Adjustments to the recorded liability are reflected in operating expenses in the periods in which such adjustments become known.

Third-party claims – NS Rail records a liability for third-party claims including those for highway crossing accidents, trespasser and other injuries, automobile liability, property damage and lading damage. The actuarial firm assists with the calculation of potential liability for third-party claims, except lading damage, based upon NS Rail's experience including number and timing of incidents, amount of payments, settlement rates, number of open claims and legal defenses. The actuarial estimate includes a provision for claims that have been incurred but have not yet been reported. Each quarter NS Rail adjusts its liability to the actuarially determined amount. Given the inherent uncertainty in regard to the ultimate outcome of third-party claims, it is possible that future settlement costs may differ from the estimated liability recorded.

#### Environmental Matters

NS Rail is subject to various jurisdictions' environmental laws and regulations. It is NS Rail's policy to record a liability where such liability or loss is probable and its amount can be estimated reasonably. Claims, if any, against third parties for recovery of cleanup costs incurred by NS Rail are reflected as receivables (when collection is probable) on the balance sheet and are not netted against the associated NS Rail liability. Environmental engineers regularly participate in ongoing evaluations of all known sites and in determining any necessary adjustments to liability estimates. NS Rail also has an Environmental Policy Council, composed of senior managers, to oversee and interpret its environmental policy.

NS Rail's Combined Balance Sheets included liabilities for environmental exposures in the amount of \$58 million at Dec. 31, 2005, and \$64 million at Dec. 31, 2004 (of which \$12 million was accounted for as a current liability at Dec. 31, 2005 and 2004). At Dec. 31, 2005, the liability represented NS Rail's estimate of the probable cleanup and remediation costs based on available information at 189 known locations. On that date, 16 sites accounted for \$30 million of the liability, and no individual site was considered to be material. NS Rail anticipates that much of this liability will be paid out over five years; however, some costs will be paid out over a longer period

At some of the 189 locations, NS Rail and certain of its subsidiaries, usually in conjunction with a number of other parties, have been identified as potentially responsible parties by the Environmental Protection Agency (EPA) or similar state authorities under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, or comparable state statutes, which often impose joint and several liability for cleanup costs.

With respect to known environmental sites (whether identified by NS Rail or by the EPA or comparable state authorities), estimates of NS Rail's ultimate potential financial exposure for a given site or in the aggregate for all such sites are necessarily imprecise because of the widely varying costs of currently available cleanup techniques, the likely development of new cleanup technologies, the difficulty of determining in advance the nature and full extent of contamination and each potential participant's share of any estimated loss (and that participant's ability to bear it), and evolving statutory and regulatory standards governing liability.

The risk of incurring environmental liability – for acts and omissions, past, present and future – is inherent in the railroad business. Some of the commodities in NS Rail's traffic mix, particularly those classified as hazardous materials, can pose special risks that NS Rail and its subsidiaries work diligently to minimize In addition, several NS Rail subsidiaries own, or have owned, land used as operating property, or which is leased and operated by others, or held for sale Because environmental problems may exist on these properties that are latent or undisclosed, there can be no assurance that NS Rail will not incur environmental liabilities or costs with respect to one or more of them, the amount and materiality of which cannot be estimated reliably at this time. Moreover, lawsuits and claims involving these and potentially other unidentified environmental sites and matters are likely to arise from time to time. The resulting liabilities could have a significant effect on NS Rail's financial condition, results of operations or liquidity in a particular year or quarter.

However, based on its assessment of the facts and circumstances now known, management believes that it has recorded the probable costs for dealing with those environmental matters of which the Corporation is aware Further, management believes that it is unlikely that any known matters, either individually or in the aggregate, will have a material adverse effect on NS Rail's financial position, results of operations or liquidity.

#### Insurance

NS obtains on behalf of itself and its subsidiaries commercial insurance for potential losses for third-party liability and first-party property damages Specified levels of risk are retained on a self-insurance basis (up to \$25 million per occurrence for bodily injury and property damage to third parties and \$12 5 million per occurrence for property owned by NS Rail or in NS Rail's care, custody or control)

#### Purchase Commitments

NS Rail had outstanding purchase commitments of approximately \$341 million in connection with its 2006 and 2007 capital programs, including 133 locomotives in 2006 and 63 locomotives in 2007.

#### Change-In-Control Arrangements

NS has compensation agreements with officers and certain key employees that become operative only upon a change in control of NS, as defined in those agreements The agreements provide generally for payments based on compensation at the time of a covered individual's involuntary or other specified termination and for certain other benefits

#### **Guarantees**

In a number of instances, NSR has agreed to indemnify lenders for additional costs they may bear as a result of certain changes in laws or regulations applicable to their loans. Such changes may include impositions or modifications with respect to taxes, duties, reserves, liquidity, capital adequacy, special deposits, and similar requirements relating to extensions of credit by, deposits with, or the assets or liabilities of such lenders Similar provisions exist in NSR's accounts receivable sales program. The nature and timing of changes in laws or regulations applicable to NSR's financings are inherently unpredictable, and therefore NSR's exposure in connection with the foregoing indemnifications cannot be quantified. No liability has been recorded related to these indemnifications. In the case of one type of equipment financing, NSR's Japanese leveraged leases, NSR may terminate the leases and ancillary agreements if such a change-in-law indemnity is triggered. Such a termination would require NSR to make early termination payments that would not be expected to have a material adverse effect on NS Rail's financial condition, results of operations or liquidity

NSR has indemnified parties in a number of transactions for U.S. income tax withholding imposed as a result of changes in U.S. tax law In all cases, NSR has the right to unwind the related transaction if the withholding cannot be avoided in the future Because these indemnities would be triggered and are dependent upon a change in the tax law, the maximum exposure is not quantifiable. Management does not believe that it is likely that it will be required to make any payments under these indemnities.

NSR has outstanding warranty liabilities primarily related to work performed at its locomotive facilities. NSR has recorded a reserve of less than \$1 million as of Dec 31, 2005 and 2004, for these warranties

As of Dec. 31, 2005, NSR and subsidiaries are contingently liable as guarantors with respect to \$8 million of indebtedness of an entity in which they have an ownership interest, the Terminal Railroad Association of St Louis, due in 2019 Six other railroads are also jointly and severally liable as guarantors for this indebtedness. No liability has been recorded related to this guaranty.

#### 8. Marketable Equity Securities

|        |   |             | Dec 31,                  |             |
|--------|---|-------------|--------------------------|-------------|
|        |   | <u>2005</u> |                          | <u>2004</u> |
| Market | able equity securities, principally 20,833,125 shares |             | (in millions of dollars) |             |
| of NS  | Common Stock at fair value                            | \$ 935      |                          | \$ 758      |
|        |   |             |                          |             |

Carrying value adjustments, which are noncash transactions, are not included in the Combined Statement of Cash Flows. The gross unrealized holding gain was \$916 million on Dec 31, 2005, and \$738 million at Dec 31, 2004 Sales of "available-for-sale-securities" were immaterial for years ended Dec. 31, 2005 and 2004

#### 9 Required Accounting Changes

In August 2001, the FASB issued Statement No. 143 "Accounting for Asset Retirement Obligations," (SFAS No. 143). Pursuant to SFAS No. 143, the cost to remove crossties must be recorded as an expense when incurred; previously these removal costs were accrued as a component of depreciation STB accounting rules require that railroads accrue the cost of removing crossties over the expected useful life of these assets NS Rail has not implemented SFAS No. 143 for STB reporting purposes. As a result, these financial statements do not reflect generally accepted accounting principles with regard to the removal of crossties.

NS Rail also adopted Financial Accounting Standards Board Interpretation No 46, "Consolidation of Variable Interest Entities," (FIN No 46) effective Jan. 1, 2003, and recorded a \$4 million net adjustment (\$6 million before taxes) for the cumulative effect of this change in accounting on years prior to 2003 Pursuant to FIN No. 46, NS has consolidated a special-purpose entity that leases certain locomotives to NS. This entity's assets and liabilities at Jan. 1, 2003, included \$169 million of locomotives and \$157 million of debt related to their purchase as well as a \$6 million minority interest liability. This change in accounting increased depreciation and interest expense (to reflect the locomotives as owned assets) and lowered lease expense. The net effect to total railway operating expenses and net income was not material.

#### **Reclassifications**

Certain amounts have been reclassified to conform to current presentation Specifically, \$112 million of auction rate securities held at Dec 31, 2004, previously classified as cash equivalents, have been reclassified as short-term investments. These securities were sold in the first quarter of 2005 at market value, which was equal to their carrying cost.

#### 10. Related Parties

#### <u>General</u>

Norfolk Southern Corporation (NS) is the parent holding company of NSR. Rail operations are coordinated at the holding company level by the NS Vice Chairman and Chief Operating Officer NS charges NS Rail a fee for management services it performs for NS Rail (which totaled \$673 million, including a \$42 million markup, in 2005, \$606 million, including a \$38 million markup, in 2004; and \$686 million, including a \$43 million markup, in 2003). In addition, NS charges NS Rail a revenue-based licensing fee (which totaled \$123 million in 2005, \$107 million in 2004 and \$93 million in 2003) for use of certain intangible assets owned by NS.

#### Noncash Dividends

NSR declared and issued to NS noncash dividends of \$667 million in 2005, \$450 million in 2004 and \$767 million in 2003, which were settled by reduction of NSR's interest-bearing advances due from NS. In 2004, NSR declared and issued to NS a noncash dividend of \$858 million of all the shares of Pennsylvania Investment Company, Inc., whose principal asset is an interest-bearing loan due from NSR Noncash dividends are excluded from the Combined Statements of Cash Flows

#### Sale of Accounts Receivable

NS Rail sells, without recourse, to a bankruptcy-remote special-purpose NS subsidiary, a pool of accounts receivable NS Rail services and collects the sold receivables; however, no servicing asset or liability has been recognized because the benefits of servicing are estimated to be just adequate to compensate NS Rail for its responsibilities. Payments collected from sold receivables are remitted to the special-purpose NS subsidiary, which, in turn, reinvests the amounts by purchasing new receivables from NS Rail. NS Rail has no retained interest in the sold receivables. Under the terms of the sale agreement, the receivables are treated as sold and, accordingly, \$680 million at Dec. 31, 2005, and \$599 million at Dec. 31, 2004, of sold receivables are not included on the balance sheet of NS Rail. Fees associated with the sale, which are based on historical dilution and prevailing interest rates, are included in Account 551.

#### Intercompany Federal Income Tax Accounts

In accordance with the NS Tax Allocation Agreement, intercompany federal income tax accounts are recorded between companies in the NS consolidated group. NS Rail had long-term intercompany federal income tax payables (which are included in Account 786 in the Combined Balance Sheets) of \$1,188 million at Dec 31, 2005, and \$1,014 million at Dec 31, 2004.

#### Cash Required for NS Debt

To finance the cost of the original Conrail transaction, NS issued and sold commercial paper and \$4.3 billion of unsecured notes. A significant portion of the funding for the interest and repayments on this and other NS debt is expected to be provided by NS Rail.

NS is subject to various financial covenants with respect to its debt and under its credit agreement, including a minimum net worth requirement, a maximum leverage ratio restriction and certain restrictions on issuance of further debt. As a major NS subsidiary, NS Rail is subject to certain of those covenants

#### 11. Operations Over Conrail's Lines

Through a limited liability company, NS and CSX Corporation (CSX) jointly own Conrail Inc. (Conrail), whose primary subsidiary is Consolidated Rail Corporation (CRC). NS has a 58% economic and 50% voting interest in the jointly owned entity, and CSX has the remainder of the economic and voting interests

On Aug 27, 2004, NS, CSX and Conrail completed a reorganization of Conrail (Conrail Corporate Reorganization), which established direct ownership and control by NSR and CSXT of two former CRC subsidiaries, Pennsylvania Lines LLC (PRR) and New York Central Lines LLC (NYC), respectively Prior to the Conrail Corporate Reorganization, NSR operated the routes and assets of PRR and CSXT operated the routes and assets of NYC, each in accordance with operating and lease agreements Pursuant to the Conrail Corporate Reorganization, the operating and lease agreements were terminated and PRR and NYC were merged into NSR and CSXT, respectively. The reorganization did not involve the Shared Assets Areas and did not affect the competitive rail service provided in the Shared Assets Areas. Conrail continues to own, manage and operate the Shared Assets Areas as approved by the Surface Transportation Board (STB).

As a part of the Conrail Corporate Reorganization, Conrail restructured its existing unsecured and secured public indebtedness, with the consent of Conrail's debtholders. Prior to the restructuring, there were two series of unsecured public debentures with an outstanding principal amount of approximately \$800 million and 13 series of secured debt with an outstanding principal amount of approximately \$300 million. Guaranteed debt securities were offered in an approximate 58%/42% ratio in exchange for Conrail's unsecured debentures. Of the \$800 million unsecured public debentures, \$779 million were tendered and accepted for exchange, and NS Rail issued unsecured public debentures with a total principal of \$452 million and an issue-date fair value of \$595 million. Conrail's secured debt and lease obligations remain obligations of Conrail and are supported by leases and subleases which are the direct lease and sublease obligations of NSR or CSXT Substantially all of these NS Rail obligations are capital lease obligations

On Aug 27, 2004, NS made a contribution of capital of the assets and liabilities of PRR to NS Rail The assets and liabilities of PRR are reflected in their respective line items in NS Rail's Combined Balance Sheet and amounts due to PRR were extinguished The following summarizes the effect of the transaction on NS Rail's Combined Balance Sheet as of Dec 31, 2004 (\$ in millions):

| Properties                                   | \$<br>8,368 |
|--|-------------|
| Note due to PRR                              | 870         |
| Other assets and liabilities, net            | 177         |
| Deferred income taxes                        | (3,113)     |
| Long-term debt, including current maturities | (734)       |
| Net assets received                          | \$<br>5,568 |

The amounts shown above for the net assets received are at NS' basis and reflect the fair value of such assets Properties have been valued based on information received from an independent valuation consultant Debt has been recorded at fair value based on interest rates at the time of the Conrail Corporate Reorganization

#### 12 Derivative Financial Instruments

On Jan 1, 2001, NS Rail adopted Statement of Financial Accounting Standards No 133, "Accounting for Derivative Instruments and Hedging Activities" (SFAS No 133), as amended by Statement of Financial Accounting Standards No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities" (SFAS No 138) The Statements establish accounting and reporting standards for derivative instruments and hedging activities, requiring that all derivatives be recognized in the financial statements as either assets or liabilities and that they be measured at fair value Changes in fair value are recorded as adjustments to the assets or liabilities being hedged in Account 796, or in current earnings, depending on whether the derivative is designated and qualifies for hedge accounting, the type of hedge transaction represented and the effectiveness of the hedge The settlement of the hedges will result in the reclassification into diesel fuel expense of the related gains or losses recorded as a component of Account 796

NS Rail uses derivative financial instruments to reduce the risk of volatility in its diesel fuel costs and to manage its overall exposure to fluctuations in interest rates. NS Rail does not engage in the trading of derivatives. Management has determined that its derivative financial instruments qualify as either fair-value or cash-flow hedges, having values that highly correlate with the underlying hedged exposures, and has designated such instruments as hedging transactions. Credit risk related to the derivative financial instruments is considered to be minimal and is managed by requiring high credit standards for counterparties and periodic settlements.

#### Diesel Fuel Hedging

NS Rail has hedged a portion of its diesel fuel consumption The intent of the hedges is to assist in the management of NS Rail's aggregate risk exposure to fuel price fluctuations, which can significantly affect NS Rail's operating margins and profitability. In order to minimize this risk, NS Rail

has entered into a series of swaps in order to lock in the purchase prices of some of its diesel fuel. Management has designated these derivative instruments as cash-flow hedges of the exposure to variability in expected future cash flows attributable to fluctuations in diesel fuel prices.

Following is a summary of NS Rail's diesel fuel swaps:

|   | <u>2005</u> | <u>2004</u> |
|---|-------------|-------------|
| Number of swaps entered into during the year    | -           | 120         |
| Approximate number of gallons hedged (millions) |             | 157         |
| Approximate average price per gallon of Nymex   |             |             |
| No. 2 heating oil                               | n/a         | \$0.86      |

#### NS Rail has 4% of estimated 2006 future diesel fuel consumption covered as of Dec. 31, 2005

Hedges are entered into periodically by competitive bid among selected counterparties, however, no hedges have been placed since May 2004 The goal of this hedging strategy is to reduce the variability of fuel costs over an extended period of time while minimizing the incremental cost of hedging. The program provides that NS Rail will not enter into any fuel hedges with a duration of more than 36 months, and that no more than 80% of NS Rail's average monthly fuel consumption will be hedged for each month within any 36-month period. After taking into account the effect of the hedging, diesel fuel costs represented 11% of NS Rail's operating expenses for the year ended Dec. 31, 2005, 8% for the year ended Dec. 31, 2004, and 7% for the year ended Dec. 31, 2003

NS Rail's fuel hedging activity resulted in decreases in diesel fuel expenses of \$148 million, \$140 million and \$59 million for 2005, 2004 and 2003, respectively. Ineffectiveness, or the extent to which changes in the fair value of the heating oil contracts do not offset changes in the fair values of the expected diesel fuel transaction, was a \$5 million expense in 2005, a \$5 million benefit in 2004 and less than a \$1 million benefit in 2003.

#### Interest Rate Hedging

NS Rail manages its overall exposure to fluctuations in interest rates by issuing both fixed and floating-rate debt instruments, and by entering into interest rate hedging transactions. NS Rail had \$116 million, or 12%, and \$151 million, or 14%, of its fixed rate debt portfolio hedged at Dec 31, 2005, and Dec 31, 2004, respectively, using interest rate swaps that qualify for and are designated as fair-value hedge transactions. NS Rail's interest rate hedging activity resulted in decreases in interest expense of \$2 million, \$6 million and \$10 million for 2005, 2004 and 2003, respectively. These swaps have been effective in hedging the changes in fair value of the related debt arising from changes in interest rates and there has been no impact on earnings resulting from ineffectiveness associated with these derivative transactions.

#### Fair Values

The fair values of NS Rail's diesel fuel derivative instruments at Dec 31, 2005 and 2004, were determined based upon current market values as quoted by an independent third party Fair values of interest rate swaps were determined based upon the present value of expected future cash flows discounted at the appropriate implied spot rate from the spot rate yield curve. Fair value adjustments are noncash transactions and, accordingly, are excluded from the Combined Statement of Cash Flows. Account 796, a component of "Stockholder's equity," included unrealized gains of \$20 million (pretax) at Dec. 31, 2005, and \$75 million (pretax) at Dec. 31, 2004, related to the fair value of derivative fuel hedging transactions that will terminate within twelve months of the respective dates Any future gain or loss actually realized will be based on the fair value of the derivative fuel hedges at the time of termination

The asset and liability positions of NS Rail's outstanding derivative financial instruments were as follows

| Dec 31,<br><u>2005</u> 2005<br>(\$ in millions) |    |       | 2004     |  |
|---|----|-------|----------|--|
|   |    |       |          |  |
| 3   | \$ | 9     |          |  |
|   |    |       |          |  |
|   |    |       |          |  |
| 20  |    | 81    |          |  |
|   |    | -     |          |  |
| 23  | \$ | 90    |          |  |
|   | 23 | 23 \$ | 23 \$ 90 |  |

#### 13 Freight Rates

In 2005, NS Rail continued its reliance on private contracts and exempt price quotes as the predominant pricing mechanism. Thus, a major portion of NS Rail's freight business is not currently economically regulated by the government. In general, market forces have been substituted for government regulation and now are the primary determinant of rail service prices. In 2005, coal movements that had been moving under common carrier (tariff) rates to Duke Energy and Carolina Power and Light power plants began moving under contract rates as part of the settlement agreements resolving the rail transportation rate cases brought by each of the utilities. In 2004 there were significant coal movements moving under common carrier (tariff) rates that had previously moved under rates contained in transportation contracts.

In 2005, NS Rail was found by the STB to be "revenue adequate" based on results for the year 2004. A railroad is "revenue adequate" under the applicable law when its return on net investment exceeds the rail industry's composite cost of capital This determination is made pursuant to statutory requirement

#### 210. RESULTS OF OPERATIONS

(Dollars in Thousands)

1 Disclose the requested information for the respondent pertaining to the results of operations for the year

2. Report total operating expenses from Schedule 410 of this report. Any dispanties in expense amounts shown in this schedule and expense amounts reported in Schedule 410 must be fully explained on page 18.

3. List dividends from investments accounted for under the cost method on the appropriate line No. 19 for Account No. 513, "Dividend Income." List dividends accounted for by the equity method on the appropriate dividend line No 25 under the "Income from Affiliated Companies" subsection of this schedule.

### 220. RETAINED EARNINGS

(Dollars in Thousands)

- 1 Show below the items of Retained Earnings Accounts of the respondent for the year, classified in accordance with the Uniform System of Accounts for Railroad Companies
- 2 All contra entries hereunder should be shown in parentheses
- 3 Show under "Remarks" the amount of assigned Federal income tax consequences for Account 606 and 616
- 4 Segregate in column (c) all amounts applicable to the equity in undistributed earnings (losses) of affiliated companies based on the equity method of accounting
- 5. The total of column (b) and (c), lines 3 and 7, should agree with line 61 column (b), Schedule 210
- 6 Include in column (b) only amounts applicable to retained earnings exclusive of any amounts included in column (c).

#### 240. STATEMENT OF CASH FLOWS

(Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers as cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period, to reconcile it to net cash from operating activities. If direct method is used complete lines 1-41; indirect method complete lines 10-41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller, obtaining an asset by entering into a capital lease, and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash, only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of Cash Flows, for further details.

Notes. (A) Use common carrier portion only Common carrier refers to railway transportation service.

(B) Rent Income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.

(C) if result is negative, use zero.

Railroad Annual Report R-1

#### **GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310 AND 310A**

 Schedule 310 should give particulars of stocks, and other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at the close of the year Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No 721 "Investments and Advances, Affiliated Companies", in the Uniform System of Accounts for Railroad Companies

2 List the investments in the following order and show a total for each group and each class of investment by accounts in numerical order

- (A) Stocks
  - (1) Carriers-active
  - (2) Carriers-inactive
  - (3) Noncarriers-active
  - (4) Noncarrriers-inactive
- (B) Bonds (including US government bonds)
- (C) Other secured obligations
- (D) Unsecured notes
- (E) Investment advances

#### 3 The subclassification of classes (B), (C), (D), (E) should be the same as those provided for class (A)

- 4. The kinds of industry represented by the respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations The symbols and industrial classifications are as follows
  - Symbol Kind of Industry
    - I Agriculture, forestry, and fisheries
    - 11 Mining
    - III Construction
    - IV Manufacturing
    - V Wholesale and retail trade
    - VI Finance, insurance, and real estate
    - VII Transportation, communications, and other public utilities
  - VIII Services
  - IX Government
  - X All other
- 5 By carriers, as the term is used here, is meant by companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express services and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included
- 6 Noncarrier companies should, for purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classified as noncarrier companies, even though the securities held by such companies are largely or entirely issued or assumed by carriers.
- 7 By an active corporation is meant one which maintains an organization for operating or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs. If it maintains an organization it does so only for the purposes of complying with legal requirements and maintaining title to property or franchises.
- 8 Combine in one account investments in which the original cost or present equity in total assets is less than \$10,000
- 9 Include investments in unincorporated entities such as lessee organizations Exclude amounts normally settled on a current basis
- 10 Do not include the value of securities issued or assumed by respondent
- 11 For affiliates which do not report to the Surface Transportation Board are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities

#### **310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES**

 Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos 715, "Sinking Funds"; 716, "Capital Funds", 721, "Investments and Advances Affiliated Companies", and 717, "Other Funds "

2 Entries in this schedule should be made in accordance with the definitions and general instructions given on page 18, classifying the investments by means of letters, figures, and symbols in columns (a), (b) and (c)

 Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

4. Give totals for each class and for each subclass and a grand total for each account

5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness In case

obligations of the same designation mature serially, the date in column (d) may be reported as "Serially \_\_\_\_\_ to

\_\_\_\_ Abbreviations in common use in standard financial publications may be used to conserve space

## 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES-Continued

(Dollars in Thousands)

6 If any of the companies in this schedule are controlled by respondent the percent of control should be shown in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control

7. If any advances reported are pledged, give particulars in a footnote

8. Investments in companies in which neither the original cost or present equity in total assets are less than \$10,000 may be combined in one figure.

9 Also included should be investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis)

10. This schedule should not include securities issued or assumed by respondent

11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, give names and

and extent of control of other entities by footnotes

#### INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

1 Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No 731, "Road and Equipment Property", and Account No 732, "Improvements on Leased Property", classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies The balances, by primary accounts, should insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive Column (h) is the aggregate of columns (b) to (f), inclusive Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods, if not, full explanation should be made in a footnote

2 In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged", of the Uniform System of Accounts for Railroad Companies for such items 3 in column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation,

s in column (c) is to be shown the cost of a raiway of portion intereor, acquired as an operating entity of system by purchase, merger, consolidatio reorganization, receivership sale of transfer, or otherwise

4 in columns (c) and (e) should be included all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property

5 In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired

6 Both the debit and credit involved in each transfer, adjustment, or clearance between road and equipment accounts, should be included in the column in which the item was initially included, also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000

7 If during the year an individual charge of \$100,000 or more was made to Account No 2, "Land for Transportation Purposes", state in a footnote the cost, location, area, and other details which will identify the property

8 Report on line 29 amounts not includible in the primary road accounts The items reported should be briefly identified and explained under "Notes and Remarks" below Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting Reference to such authority should be made when explaining the amounts reported Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission

9 If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.

10 If an amount of less than \$2,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used

#### 332 DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS (Dollars in Thousands)

Show in columns (b) and (a), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December, in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-22-00, and 35-25-00.
 It should include the cost of equipment owned and leased to others when the rents thereform are included in the rent for equipment Accounts Nos 32-25-00, and 36-25-00, and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise autionized by the Commission, except that where the use of component rates has been autionized, the composite rates to be shown for the respective during the year, give full particulars in a foolnote
 All leased properties may be combined and ne composite rate computed for each primary account, or a separate schedule may be included for each such property.
 Show in columns (e), (f), and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos 31-12-00, 31-12-00, 31-12-00, 31-12-00, 31-12-00,

31-22-00, and 31-23-00, inclusive

4 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves

Authority for the discontinuance of accruais should be shown in a footnote indicating the account(s) effected

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased from other or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively

## 335 ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT OWNED AND USED (Dollars in Thousands)

1 Disclose the required information in regard to credits and debits to Account No 735, "Accumulated Depreciation, Road and Equipment Property," during the year relating to owned and used road and equipment include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credits - Equipment" accounts and "Other Rents - Credits - Equipment" accounts Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental -Debit - Equipment" accounts (See Schedule 351 for the accumulated depreciation to road and equipment owned and leased to others).

2 If any data are included in columns (d) or (f), explain the entries in detail.

3 A debit balance in columns (b) or (g) for any primary account should be designated "Dr "

4 If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given

5 Enter amounts representing amortization under an authorized amortization program other than for defense projects on lines 29 and 39

## 339. ACCRUED LIABILITY -- LEASED PROPERTY (Dollars in Thousands)

1 Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property," during the year concerning road and equipment leased from others

2 In column (c), enter amounts charged to operating expenses, in column (e), enter debits to account arising from retirements, in column (f), enter amounts paid to lessor

3 Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained

4 Required disclosure may be omitted if leased road and equipment property represents 5% or less of total property owned and used

5 If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account No. 772 are made by the accounting

company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof

# 340. DEPRECIATION BASE AND RATES -- IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

1 Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charges to Account 732, "Improvements on Leased Property." The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any charges in rates were effective during the year, give full particulars in a footnote

2 All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property

3 If depreciation accruals have been discontinued for any account, the depreciation base should be reported nevertheless, in support of depreciation reserves Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected

4 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively However, line 41, Grand Total, should be completed

\*To be reported with equipment expenses rather than W & S expenses

Railroad Annual Report R-1

## 342. ACCUMULATED DEPRECIATION -- IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

1 Enter the required information concerning debits and credits to Account 733, "Accumulated Depreciation --- Improvements of Leased Property," during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent

2 If any entries are made for column (d) "Other credits" or column (f) "Other debits," state the facts occasioning such entries on page 39 A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr "

3 Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained on page 39

4 Show in column (e) the debits to the reserve ansing from retirements These debits should not exceed investment, etc

5 Details in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from

others represents less than 5% of total road owned or total equipment owned, respectively However, line 39, Grand Total should be completed

Year 2005

## SCHEDULE 332

Amounts in Columns (b) and (c) reflect reclassification of PRR asset values by ICC consistent with Column (d) per Schedule 330. NS whole life rates are disclosed per Column (d).

During 2004, NS discontinued depreciation accruals on \$38,166,131 of investment in ICC 7 account because the facility at Kopperston, WV was fully depreciated.

# 350. DEPRECIATION BASE AND RATES -- ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

1 This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00

2 Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not included in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis, brought to a current date by the respondent from its Order No 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given

3 In column (d) show the composite rates used to compute the depreciation for the month of December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.

4 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves Authority for the discontinuance of accruals should be shown in a footnote indicating the accounts affected

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively However, Line 39, Grand Total, should be completed

#### 351. ACCUMULATED DEPRECIATION -- ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

1 This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-22-00, and 32-23-00

2 Disclose credits and debits to Account 735, "Accumulated Depreciation -- Road and Equipment Property," during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent (See Schedule 330 for the reserve relating to road and equipment owned and used by the respondent)

3 If any entries are made for column (d) "Other credits" or column (f) "Other debits," state the facts occasioning such entries on page 39 A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr"

4 Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed

Railroad Annual Report R-1

## 352A INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company) (Dollars in Thousands)

1 Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by respondent and used in respondent's transportation service. Such property includes (a) investment reported in Accounts 731, "Road and Equipment Property" and 732, "Improvements on Leased Property" of respondent, less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by respondent when the lease is for exclusive use or control of roads, tracks or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other contracts and the investment of other railway property jointly used by respondent.

2 In column (a), classify each company in this schedule as "R" for respondent, "L" for lessor railroad, "P" for inactive or proprietary company or "O" for other leased properties

3 In column (a) to (e), inclusive, first show the data requested for respondent (R), next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies, followed by data for carriers and others (O), portions of whose property are used in transportation service of respondent. Show a total for each class of company in column (d) and (e) Then show, as deductions, data for transportation property leased to carriers and others

4 In column (c), ine-haul camers report the miles of road used in line-haul service Report miles in whole numbers

5 In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b) Values of property of other carners segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, an explanation should be provided. Differences between amounts shown in column (d) of this schedule and column (c), line 24, on the asset side of the general balance sheet of each individual railway should be explained in a footnote. Book values included in Accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of respondent in securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 % or otherwise) value of property of private owners, or portions of property of other carners should be explained.

6 In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded

## 352B INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Accounts) (Dollars in Thousands)

1 In column (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties

2 The amounts for respondent and for each group or class of companies and properties on line 44 should correspond with the amounts for each class of company and property shown in Schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in this schedule

 Report on line 29 amounts representing capitalization or rentals for leased property based on 6% per year where property is not classified by accounts by noncarrier owners, or where cost of property leased from other carriers is not ascertainable. Identify noncarrier owners, and briefly explain on page 39 the methods of estimating value of property of noncarriers or property of other carriers.
 Report on line 30 amounts not included in the accounts shown, or in line 29. The items reported should be briefly identified and explained.

Also include here those items after permission is obtained from the Board for exceptions to prescribed accounting Reference to such authority should be made when explaining amounts reported Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board

Road Initials. NS Rail Year 2005

Railroad Annual Report R-1

-

## 412. WAY AND STRUCTURES (Dollars in Thousands)

1. Report freight expenses only

- 2 The total depreciation expense reported in column (b), line 29, should balance to the sum of the depreciation expense reported in Schedule 410, column (f), lines 136, 137, and 138.
- 3 Report in column (c) the lease/rentals for the various property categories of Way and Structures. The total net lease/rental reported in column (c), line 29, should balance to the net amount reported in Schedule 410, column (f), lines 118 through 123, plus lines 130 through 135 If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases to the depreciation bases for all categories of depreciable leased property. Use Schedule 352B of this report for obtaining the depreciation bases of the categories of leased property
- 4 Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item, the net adjustment on line 29 shall equal the adjustment reported on line 29 of Schedule 335.
- 5 Report on line 28 all other lease rentals not apportioned to any category listed on lines 1-27.
- 8. Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of Schedule 415.

- 3. Report in column (b) net repair expense, excluding the cost to repair damaged equipment Schedule 415, column (b) will balance to Schedule 410, column (f) as follows
  - (a) Locomotives, line 5 plus line 38, compared to the sum of Schedule 410, lines 202, 203, and 216 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 204
  - (b) Freight cars, line 24 plus line 39, compared to the sum of Schedule 410, lines 221, 222, and 235 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
  - (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41), compared to Schedule 410, the sum of lines 302 through 307, plus line 320 (excluding wreck repairs) Do not report in Schedule 415, equipment damaged from Schedule 410, line 308 ,
  - Note. Lines 216, 235, and 320 of Schedule 410 are credit amounts
  - The allocation of freight car repair expenses reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201
- 4 Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d) For improvements on leased property, Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342 Depreciation charges reported in columns (c) and (d) will balance to Schedule 410, column (f) as follows
  - (a) Locomotives, lines 5 and 38, compared to Schedule 410, line 213.
  - (b) Freight cars, lines 24 and 39, compared to Schedule 410, line 232.
  - (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41), compared to Schedule 410, line 317
- 5 Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item. The net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335

6 Lease/rentals reported in column (f) should balance to column (f) of Schedule 410 as follows

(a) Locomotives, lines 5 and 38, compared to Schedule 410, lines 207, 208, 211, and 212

(b) Freight cars, lines 24 and 39, compared to Schedule 410, lines 226 and 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 415, and are not included in Schedule 415)

- (c) Sum of lease/rentals for all other equipment, lines 32, 35, 36, 37, 40, and 41, will balance to Schedule 410, lines 311, 312, 315, and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing lease/rentals other equipment to Schedule 410. Do not report in Schedule 415, the trailer and container rentals reported in Schedule 414.
- 7 Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of equipment used but not owned when rents therefore are included in the rent for equipment and Account Nos 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00, and 35-23-00 It should include the cost of equipment owned and leased to others when the rents are included in the rent for Equipment Account Nos 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00, and 36-23-00

Property used but not owned should also be included when the rent is included in Account Nos 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h) of Schedule 415

8 Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j) The grand total of each equipment reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415

**B.** Adjustments to Federal Income Taxes

1.In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income Other particulars which cause such a differential should be listed under the caption Other (Specify), including State and other taxes deferred if computed separately. Minor items, each less than \$100,000, may be combined in a single entry under Other (Specify)

2.Indicate in column (b) the beginning of the year total of Accounts 714, 744, 762 and 786 applicable to each particular item in column (a)

3.Indicate in column (c) the net change in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes - Extraordinary Items, for the current year.

6 Indicate in column (e) the cumulative total of columns (b), (c), and (d) The total of column (e) must agree with the total of Accounts 714, 744, 762 and 786.

# 502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS (Dollars in Thousands)

Using the following notes as a guideline, show the requirements of compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing

1 Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings

- 2 Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed
- 3 Compensating balance arrangements need only be disclosed for the latest fiscal year

4 Compensating balances included in Account 703, Special Deposits, and in Account 717, Other Funds, should also be separately disclosed below

5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities)

6 When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material

The Company has outstanding letters of credit in the amount of \$15 million, with various banks, under which no borrowings were outstanding as of December 31, 2005

Railroad Annual Report R-1

# ----

State particulars of all tracks operated by the respondent at the close of the year, according to the following classifications (1) Line owned by respondent

(2) Line owned by proprietary companies

(2) Line owned by proprietary companies

(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with the respondent.

(4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with the respondent

(5) Line operated under trackage rights

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings, i.e., counting one-half mile or over as a whole mile and disregarding any fraction less than one-half mile

In Column (a) insert the figure (and letter, if any) indicating its class in accordance with the above list of classifications

In Column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing in Column (d) give its entire length (the distances between terminals of single or first main track), and in the following columns the lengths of second main track, all other main tracks, passing tracks, cross-overs and turn-outs, way switching tracks, and yard switching tracks. These classes of tracks are defined as follows

RUNNING TRACKS - Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points WAY SWITCHING TRACKS - Station, team, industry, and other switching tracks for which no separate service is maintained

YARD SWITCHING TRACKS - Yard where separate switching services are maintained, including classification, house, team, industry, and other tracks switched by yard locomotives

The returns in Columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included,

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent. But in the case of any such inclusion, the facts of the relationship to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs. If it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as Class (3), except that the rent reserved is conditional upon earnings or some other fact

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class, the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also on main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Road held by respondent as a joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be the entire length of the portion jointly held The class symbol should have the letter (J) attached Road operated by the respondent as an agent for another carrier should not be included in this schedule

#### 710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight-train car data 1 Give particulars of each of the various classes of equipment which respondent owned or leased during the year

2 In column (d) give the number of units purchased or built in company shops In column (e) give the number of new units leased from others The term "new"

means a unit placed in service for the first time on any railroad 3 Units leased to others for a period of one year or more are reportable in column (n) Units temporanily out of respondent's service and rented to others for less than one year are to be included in column (i) Units rented from others for a period less than one year should not be included in column (j)

#### 710. INVENTORY OF EQUIPMENT - Continued

4 Column (m) should show aggregate capacity for all units reported in columns (k) and (l), as follows For freight-train cars, report the nominal capacity (in tons

of 2,000 (bs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange Convert the capacity of tank cars to capacity in tons of the

commodity which the car is intended to customarily carry 5 Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad

#### 710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

(Dollars in Thousands)

1 Give particulars, as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of this report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S) including units acquired through capitalized leases (L)

2 In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710 Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP) For TOFC/COFC, show type of equipment as enumerated in Schedule 710

3 In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty

4 The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges

5 Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule. Disclose rebuilt units acquired or rewritten into the respondent's accounts in the lower section. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.

6 All unequipped boxcars acquired in whole or part with incentive per diem funds should be reported on separate lines and be appropriately identified by footnote or sub-heading

1 Furnish the requested information concerning ties laid in replacement.

2 In column (), report the total board feet of switch and bridge ties laid in replacement

upgrading the general condition of the tracks. 'Percent of spot maintenance' refers to the percentage of total ties or board feet laid in replacement considered to 3 The term 'spot maintenance' in column (k) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at be spot maintenance.

unloading, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in connection with loading or treatment 4 In line 9, the average cost per tie should include transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply storage and seasoning yards, and in the case of treating ties, also the cost of handling at treating plants and the cost of treatment. The cost of should not be included in this schedule.

Year 2005

722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

Give particulars of ties laid in new construction during the year.

U - Wooden ties untreated when applied. In column (a) classify the ties as follows:

Railroad Annual Report R-1

T - Wooden ties treated before application.

S - Ties other than wooden (steel, concrete, etc ). Indicate type in column (h),

Report new and second-hand (relay) ties separately, indicating in column (h) which ties are new

and seasoning yard. In the case of treated ties, also show the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines In columns (d) and (g) show the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage, and placing the ties in tracks, and of train service, other than that necessary in connection with loading or treatment, should not be included in this schedule.

- 1. Furnish the requested information concerning rails laid in replacement
- 2. The term 'spot maintenance' in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. 'Percent of spot maintenance' refers to the percentage of total rails laid in replacement considered to be spot maintenance
- in general supply and storage yards. The cost of unloading, hauling over carrier's own lines and placing rails in tracks and of train service in connection with the distribution of rails should not be 3. In line 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails included in this schedule.

Road Initials NS Rail

Year 2005

# 724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

- 1 Give particulars of all rails applied during the year in connection with the construction of new track In column (a) classify the kind of rail applied as follows.
  - (1) New steel rails, Bessemer process
  - (2) New steel rails, open-hearth process
  - (3) New rails, special alloy (describe fully in a footnote)
  - (4) Relay rails

2. Returns in columns (c) and (g) should be reported in WHOLE numbers Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one.

3 The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks and of train service in connection with the distribution of the rail should not be included in this schedule.

Railroad Annual Report R-1

## 725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail", the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

#### Road Initials NS Rail Year 2005 INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - (Concluded)

(M) Road service represents elapse time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at final terminals, including trains switching at way stations and delays on road as shown by conductor's or dispatcher's train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02, train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.

(N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used

(O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for railway commissioners for which no revenue is received, trains running special with fire apparatus to save carrier's property from destruction trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains run solely for the purpose of transporting company material, trains run for distributing material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in connection with regular yard switching service or in switching equipment for repairs between yards and shops

(P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way-train to the destination point, the total count of loaded cars would be four two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondent's lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car

(Q) Report vehicles (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense

(R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroad's expense (Performed at railroad's expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc when a tariff provision requires that the shipper or motor carrier, etc , and not the railroad, perform that service Note The count should reflect the trailers/containers for which expenses are reported in Schedule 417, line 2, column (b)

(S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad

(T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below) Foreign railroad cars refers to freight cars owned by other railroads whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the Code of Car Hire Rules

Carriers will be governed by local conditions in determining whether a car at an interchange point should be considered "on-line " Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yards (excluding cars which are to be repaired in the train yard without loss of time), cars moving empty in trains en route to shop, and cars stored awaiting disposition

Surplus cars are cars which are in serviceable condition for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.

(U) Flat-TOFC/COFC Car miles reported in lines 25 (4-020), 41 (4-120), 57 (4-140), and 75 (4-160) will be computed using cars rather than constructed container platforms. For example, an articulated car consisting of five platforms moved one mile will be counted as one car-mile, not five car-miles.

(V) The intermodal Load Factor reported on Line 134 will be calculated for the average number of intermodal (TOFC/COFC) units loaded on the average intermodal car Units are to be calculated in the same manner as Line 123, (13 TOFC/COFC - No of Revenue Trailers & Containers Loaded and Unloaded (Q)) Intermodal cars will be calculated in accordance with instruction U for reporting Flat-TOFC/COFC Car-miles Both intermodal (TOFC/COFC) units and intermodal cars are to be calculated using actual units and not constructed intermodal (TOFC/COFC) units or cars

\* Total number of loaded miles <u>245,305</u> and empty miles <u>185</u> by roadrailer reported above on lines 29 and 45 respectively, rather than line 84

.

Note Line 88, total car miles, is equal to the sum of lines 30, 46, 64, 82, 83 and 84. Accordingly, the car miles reported on lines 83 and 84 are to be allocated to lines 85, 86 and 87, and included in the total shown on line 88.

#### 755. RAILROAD OPERATING STATISTICS

Railroad Annual Report R-1

130

131

132

133

134

#### Year 2005

#### VERIFICATION

The foregoing report shall be verified by the oath of the officer having control of the accounting of the respondent. This report shall also be verified by the path of the president or other chief officer of the respondent, unless the respondent states that such officer has no control over the respondent's accounting and reporting.

> OATH (To be made by the officer having control of the accounting of the respondent)

#### Commonwealth of Virginia City of Norfolk

Marta R. Stewart makes oath and says that she is Vice President and Controller of Norfolk Southern Combined Railroad Subsidiaries (see page 4 of STB Annual Report R-1); that it is her duty to have supervision over the books of accounts of the respondent and to control the manner in which such books are kept; that she knows that such books have been kept in good faith during the period covered by this report; that she knows that the entries contained in this report relating to accounting matters have been prepared in accordance with the provisions of the Uniform System of Accounts for Railroads and other accounting and reporting directives of the Surface Transportation Board; that she believes that all other statements of fact contained in this report are true, and that this report is a correct and complete statement, accurately taken from the books and records, of the business and affairs of the above-named respondent during the period of time from and including January 1, 2005, to and including December 31, 2005.

Alewan

Subscribed and sworn to before me a Notary Public in and for the State and City above named, this 30th day of March, 2006. My commission expires March 31, 2007.

(Signature of officer authorized to administed

SUPPLEMENTAL OATH (By the president or other chief officer of the respondent)

**Commonwealth of Virginia City of Norfolk** 

Charles W. Moorman makes oath that says that he is President and Chief Executive Officer of Norfolk Southern Combined Railroad Subsidiaries (see page 4 of STB Annual Report R-1); that he has carefully examined the foregoing report; that he believes that all statements of fact contained in the said report are true, and that the said report is a correct and complete statement of the business and affairs of the above-named respondent and the operations of its property during the period of time from and including January 1, 2005, to and including December 31, 2005.

Charles W. Moom-

Subscribed and sworn to before me a Notary Public in and for the State and City above named, this 30th day of March, 2006. My commission expires March 31, 2007.

Use an L.S. impression seal

Road Initials: NS Rail Year 2005

ŗ

۰,

### REVISED

#### Road Initials NS Rail Year 2005

1

١

#### 332 DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS (Dollars in Thousands)

Show in columns (b) and (e) for each primary account the depreciation base used to compute the depreciation charges for the month of January and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December and on times 30 and 39 of these columns show the composite purcentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total depreciation base to the same month. The depreciation base should not include the cost of equipment used but nor owned, when the rents therefore are included in the rent for equipment and Account Nos 31 72-00 31-72-00 31-72-00 31-72-00 35 22-00 35 22-00 and 35-72-00 and 35-75-00 32-72-00 32-7

31-22-00 and 31-73-00 inclusive

4 If depreciation accruals have been discontinuou for any account, the depreciation base should be reported nevertheless, in support of depreciation reserves Authority for the discontinuance of accruals should be shown in a triotinoto indirating the account(s) effected

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased from other or lotal equipment loased from others represents less than 5% of total road owned or total equipment owned, respectively

# NORFOLK SOUTHERN COMBINED RAILROAD SUBSIDIARIES

### SCHEDULE 250 – PART B Year 2005 Determination of Nonrail Taxes

This table is designed to facilitate the calculation of taxes that are not rail-related, the amount to be reported on Schedule 250, Line 3.

### PART I – DETERMINE TAXES ON NONRAILROAD INCOME FOR ALL COMBINED/CONSOLIDATED RAILROADS (EXCLUDES ALL RAIL-RELATED AFFILIATES)

.

.

| (1) | Determine Combined/Consolidated Adjusted income from continuing operations (before taxes) for all affiliated railroads (all classes). Do <u>not</u> include rail-related affiliates that are not railroads in this part. This represents the total combined/ consolidated amounts for all items listed below for all railroads in the reporting entity. | \$000's              |
|-----|---|----------------------|
|     | Income from continuing operations (before taxes) should be the equivalent of the  |                      |
|     | numbers contained in the R-1 Schedule 210, Line 46 adjusted to include all railroads in the reporting entity.   | \$ 1,412,758         |
|     | - Equity in undistributed earnings, which represents the total Schedule 210, Line 26 for all railroads in the reporting entity.   | (262)                |
|     | - Dividends in affiliated companies. (If the affiliate is 80% or more controlled by the parent railroad, then deduct 100% of the affiliate's dividend. If the affiliate is less than 80% controlled by the parent railroad, then deduct 80% of the affiliate's dividend   | 7,322                |
|     | <ul> <li>Adjusted income from continuing operations (before taxes). This represents "A" in item (3) below.</li> </ul>   | <u>\$_1,405,698</u>  |
| (2) | Determine Combined/Consolidated Adjusted Pretax NROI for all railroads in the reporting entity  |                      |
|     | Combined/Consolidated Pretax NROI for the entire entity, which equals the amount shown on Schedule 250, Line 1  | \$ 1,607,800         |
|     | + Current provision for taxes, which represents the consolidated amounts of Schedule 210,<br>Line 51 for all railroads in the reporting entity. (This figure includes <u>both</u> Account 556,<br>Income Taxes on Ordinary Income and Account 557, Provision for Deferred Taxes   | 325,485              |
|     | + Interest income on working capital allowance, which represents the total consolidated interest income relative to the working capital component of the net investment base and should equal the amount shown in Schedule 250, Line 2 for all railroads in the reporting entity.   | 2,627                |
|     | + Release of premiums on funded debt, which represents the consolidated total of release of premiums on funded debt as shown on Schedule 210, Line 22 for all railroads in the reporting entity.  |                      |
|     | - Total fixed charges, which represents the consolidated total of fixed charges as shown on schedule 210, Line 42 for all railroads in the reporting entity.  | 190,100              |
|     | - Railroad-related income from affiliates (other than railroads) which was included in consolidated NROI (Schedule 250, Line 1)   |                      |
|     | = Combined/Consolidated Pretax Adjusted NROI for all railroads. This represents "B" in Item (3) below   | <u>\$ 1,745,8</u> 12 |

,

| (3)  | Calculate the railroad-related tax ratio: "B/A"  | <u>_100.00%</u> |
|------|--|-----------------|
| (4)  | Compute the nonrailroad-related complement: (1 – Railroad-related income ratio) which equals the nonrailroad-related tax ratio.  |                 |
| (5)  | Compute the nonrailroad portion of the total provisions for both taxes. This equals:   |                 |
|      | The nonrailroad-related tax ratio (Item (4) above) times the total current income taxes accrued on ordinary income (Account 556) which represents the consolidated amounts of Schedule 210, Lines 47, 48 and 49 for all railroads in the reporting entity.   | <u>s</u>        |
| PART | II – DETERMINE NONRAILROAD-RELATED TAXES FOR ALL RAIL-RELATED<br>AFFILIATES ( <u>EXCLUDES ALL AFFILIATED RAILROADS</u> )   |                 |
| (6)  | This is calculated by dividing the nonrailroad-related income for combined rail-related affiliates by the total pretax net income for all combined rail-related affiliates and multiplying this result by the total taxes (current provision plus deferred). This equals the taxes on nonrailroad income for all affiliated companies. | <u>s</u>        |
| PART | III – DETERMINE TOTAL NONRAILROAD-RELATED TAXES  |                 |
| (7)  | This is determined as follows:   |                 |
|      | Total income taxes on nonrailroad-related income for all railroads in the reporting entity (Item 5 above)  | \$              |
|      | + Total nonrailroad-related taxes for rail-related affiliates (Item 6 above)   |                 |
|      | Equals total nonrailroad-related taxes. (This amount should be transferred to<br>Schedule 250, Part A, Line 3)   | <u>s</u>        |
