## 371. RENT REVENUE

1. Give particulars concerning transportation water-line floating equipment, property, or equipment, that respondent leased or rented to others for a period of one year or more, the revenue from which was included in account No. 342, "Other rent revenue."

2. Floating equipment, property and equipment, renting at less than

\$10,000 per annum may be combined under a single entry with respect to each primary account, such entry to be designated "Minor items, each less than \$10,000 per annum."

## 372. ABSTRACT OF TERMS AND CONDITIONS OF LEASES

1. Give brief abstracts of the terms and conditions of leases under which the above-listed rents are derived, showing particularly (1) the date of the grant, (2) the chain of title (in case of assignment or subletting) and dates of transfer connecting the original parties with the present parties, (3) the basis on which the amount of the annual rent is determined, and (4) the date when the lease will terminate, or, if the date of termination has not yet been fixed, the provisions governing the termination of the

lease.

2. Copies of leases may be filed in lieu of abstracts above called for. References to copies filed in prior years should be specific.

3. If the respondent has any reversionary interest in water-line property from which it derives no rent, give the particulars hereunder; if it has no such reversionary interest, state that fact.

NOTE.—Only changes during the year are required. If there were no changes, state that fact. None

**381. OTHER OPERATING RENTS**

1. Give particulars of transportation water-line floating equipment, property or equipment, that the respondent leased or rented from others for a period of one year or more, the rent payable and expenditures for which were included in account No. 483, "Other operating rents."
2. Floating equipment, property and equipment, rented for less than

\$10,000 per annum, may be combined in a single entry under the appropriate primary account designated "Minor items, each less than \$10,000 per annum."

**382. ABSTRACTS OF LEASEHOLD CONTRACTS**

1. Give brief abstracts of the terms and conditions of leases under which the respondent holds the properties above named, showing particularly (1) the date of the lease, (2) the chain of title and dates of transfers connecting the original lessee with the respondent in case of assignment or subletting, (3) the basis on which the amount of the annual rent is de-

termined, and (4) the date when the lease is to terminate, or, if such date has not yet been determined, the provisions governing its determination.

2. In lieu of the abstracts here called for, the respondent may file copies of lease agreements and give references to copies heretofore filed with the Commission. Such references should be specific.

NOTE.—Only changes during the year are required. If there were no changes, state that fact.

### 396. MISCELLANEOUS ITEMS IN INCOME AND RETAINED INCOME ACCOUNTS FOR THE YEAR

Give a detailed analysis of each item in accounts 508, "Profits from sale or disposition of property"; 283, "Miscellaneous credits"; 285, "Miscellaneous debits"; 286, "Miscellaneous reservations of retained income"; 570, "Extraordinary items"; and 590, "Income taxes on extraordinary items". Entries should be grouped by number with respect

to each account, and a total should be stated for each group. For accounts 508, 283, 285, and 286, each item amounting to \$10,000 or more should be stated; items less than \$10,000 in any account may be combined in a single entry under the appropriate account designated "Minor items, each less than \$10,000".

## 413. FLOATING EQUIPMENT

Give particulars of each mode of floating equipment which the respondent had available for use in his operations at the close of the year. Hours may be reported in groups according to river and state, so long as such groupings also reflect the year built and the year acquired, columns (a) and (b).

In column (d), show, if one of the letters indicated, whether the vessel or other equipment is fully independent, acquired under the terms of an equipment lease (PL), held under lease from others (L), or borrowed from others for a period not greater than one year. Do not include equipment leased or borrowed from others if this equipment is not available for use at the close of the year.

In column (f), if adapter solely to transportation of freight, enter the symbol (F); if solely air passenger transportation, (P); if principally for freight, incidentally for passengers, (PF); if principally for passengers, incidentally for freight, (PP); if for towing, (T); if for lightering, (L); etc.

In column (f), show the cargo deadweight tonnage capacity of the ship in tons in (g), obtained by deducting the weight of the fuel, water, stores, and provisions from the gross weight of the vessel, i.e., show the difference between the displacement light and the displacement loaded after subtracting the weight of the fuel, stores, etc.

## SCHEDULE 541. FREIGHT CARRIED DURING THE YEAR

## INSTRUCTIONS

Under the Commission's order of September 13, 1963, effective January 1, 1964, all carriers by water subject to the provisions of Parts I and III of the Interstate Commerce Act assigned to Class A and B are required to compile and report freight commodity statistics annually. Reports shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, by March 31 of the year following that for which the report is made.

Tonnage and revenue should be on a billed basis. Classify the commodities carried by the respondent in its water line and motortruck operations and for the respondent in the vessels and motortrucks of other companies (carriers) under contract, in revenue service, the domestic revenues from which are includable in accounts No. 301 "Freight revenue" and 351 "Motor-Carrier revenue" in accordance with the order of this Commission dated September 13, 1963. Maritime carriers should classify commodities the revenue from which are includable in account No. 605 "Freight Coastwise and intercoastal". Separate the tonnage and revenue for each commodity code between "Joint rail and water traffic" and "All other traffic". The separation as to joint rail and water traffic and all other traffic may be omitted for commodity code 471 "Small packaged freight shipments".

Include under "Joint rail and water traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are being transported partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment such as traffic moving on joint rail-water and rail-motor water rates.

Include under "All other traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are transported from point of origin to point of destination solely by water, solely by truck, partly by water and partly by truck, or by any other combination which does not involve the interchanging of traffic with a railroad company, also shipments moving on water rates when the carrier by water absorbs out of its port-to-port rates certain charges for switching, terminal, fraying, or other services within a port terminal district.

Passenger cars, assembled, is confined to vehicles carried as revenue freight on freight rates and does not include those carried as an adjunct to passenger business.

Fuel and stores carried on any vessel for the purpose of operating and maintaining it should not be included in this schedule.

Include under "Joint rail and water traffic" and "All other traffic" the revenues that are applicable to the tonnage.

"Gross freight revenue" means reporting carrier's gross revenue from freight without adjustment for absorption or corrections.

In the "Note" on page 55 show the extent of joint motor-water traffic included in columns (c) and (f).

Commodity codes 01 through 462 shall include shipments weighing 10,000 pounds or more. Shipments of less than 10,000 pounds of one commodity shall be reported under commodity code 471 "Small packaged freight shipments" unless the reporting carrier elects to distribute all revenue freight among the other designated classes.

"Classify" means to assign an article of freight to its appropriate commodity class, which may be a 3-, 4-, or 5-digit number. Always classify an article in the highest digit level possible. Use a 5-digit code if the article may be properly assigned to it. If there is no applicable 5-digit code, use a 4-digit code if available. If there is no applicable 4-digit code, then the article is classified at the 3-digit level.

For a 5-digit code, report the sum of all freight classified therunder. For a 4-digit code, report the sum of all freight classified therewith plus the sum of all 5-digit codes where the first four digits match. For a 3-digit code, report the sum of all 4-digit code numbers where the first three digits match, plus 5-digit code numbers where the first three digits match (provided they are not included in 4-digit code), plus any articles classified at the 3-digit level. Generally the 3-digit codes are used as summaries. The 2-digit level is a summary of 3-digit codes where the first two digits match.

Commodities must not be classified to the codes with a "T" designation. Codes at the 2 and 3 digit level followed by a "T" always are totals of the related higher level codes shown on the report form; codes not so designated may include commodities classified directly therewith and may not total.

"Piggyback traffic" is classified in the applicable commodity code if the commodity can be identified; where the commodity cannot be identified, classify in code 461 and summarize in code 46.

Codes 44 and 441, "Freight Forwarder Traffic" includes freight traffic shipped by or consigned to any forwarder, during a permit under Part IV of the Interstate Commerce Act.

"Shipper Association or Similar Traffic" Codes 45 and 451, include freight traffic shipped by a non profit shipper association where the commodity cannot be identified, where the commodity can be identified, classify in the applicable commodity code.

	REMARKS						

## 542. FREIGHT AND PASSENGERS CARRIED DURING THE YEAR (DOMESTIC AND FOREIGN)

1. Give particulars called for hereunder with respect to domestic and foreign freight and passengers carried during the year. Tonnage and revenue should be on a billed basis.
2. The term "regulated" in column (c) refers to traffic transported by the respondent in service subject to the Interstate Commerce Act.
3. The terms as herein used, (a) "Foreign traffic" means traffic trans-

ported by water between a United States port and a foreign port without transhipment at a United States port, and (b) "Domestic traffic" means traffic transported by water between two United States ports, including transhipped traffic contemplated by section 392 (1) and (3) of the Interstate Commerce Act.

## 561. EMPLOYEES, SERVICE AND COMPENSATION

1. Give particulars of persons employed by the respondent during the year (or during any portion thereof) in connection with its common and/or contract carrier operations, including incidental construction and auxiliary operations.
2. In classifying employees among the classes listed in column (a), where any individual is properly classifiable in two or more classes, assign him to that class in which the principal portion of his service was rendered at the time of the count. If any persons in the regular service of the respondent were serving without compensation, they should nevertheless be included in the returns in column (b) and the matter should be fully explained in a footnote.
3. In column (b) show, properly classified with respect to occupation, the average number of employees in the service of the respondent during the year for classes in service the year round, and during the period of navigation for classes in service only during that period. Under "Remarks" state the method by which these averages are determined. The numbers shown in this column should include only persons directly employed by the respondent; it should not include

employees of a company or person with whom the respondent has contracts for certain classes of work, as, for example, stevedoring at a given port, etc.

4. In column (c) show the total number of hours worked (or held for work) by employees compensated on an hourly basis. This number should be accurately stated and should exclude time allowed for lunch hours, half holidays, holidays, vacations, sick leave, etc., even though full compensation or part compensation is allowed for such time. It should include all overtime actually spent in work for the respondent even though no additional compensation is paid for such work. If the duties of certain general officers, traveling agents, solicitors, and other classes of employees compensated on other than an hourly basis are of such a nature that it is impracticable to record accurately the number of hours during which they are on duty, such number may be fairly estimated and the estimate number included in the return, in which case the basis for the estimate for each class is to be shown in a footnote.

5. In column (d) include the total compensation paid employees for the work represented in

## 561. EMPLOYEES, SERVICE AND COMPENSATION—Concluded

column (c). If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto.

6. If any person is employed by two or more carriers jointly, he should be reported in column (b) by the carrier on whose payroll he is carried, if on the payrolls of more than one of the joint employers he should be reported by each carrier on whose payroll he was, and full particulars should be given in order to permit the elimination of duplications. If an officer serves two or more

corporations and receives no salary from any of them he should be reported in column (b) only by the controlling or highest ranking of such corporations reporting to the Commission.

7. This return need not include any employees engaged solely on the construction of new properties; if any such are included, that fact should be stated and particulars should be given in a footnote.

8. This schedule does not include old age retirement, and unemployment insurance taxes. See schedule 350 for such taxes.

## 562. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 104, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more.

4. Other compensation to be entered in column (d) includes, but is not

limited to, commissions, bonuses, shares in profits, contingent compensation, money paid set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

## 563. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES

Column (d)-Based on formula of company performance.

In the form below give information concerning fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions allowance for expenses, or other amounts payable aggregating \$10,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in Schedule 562 in this annual report) for services or as a donation. In the case of contributions of under \$10,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespectively of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$10,000 or more.

To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trus-

tees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a waterline, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

## 591. CONTRACTS, AGREEMENTS, ETC.

Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, together with important revisions, modifications, terminations, and other changes thereto, which became effective during the year, and concerned in any way the transportation of persons or things, at other than tariff rates, making such statements in the following order:

1. Express companies
2. Mail
3. Trucking companies
4. Freight or transportation companies or lines
5. Railroad companies
6. Other steamboat or steamship companies
7. Telegraph companies

OBL entered into an agreement of short term charter of towboats transferred to River and Gulf Transportation Company under plan of reorganization and provides transportation service for that company on basis of varying rates per barge mile.

## 8. Telephonic companies

## 9. Other contractors

Information concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$1,000 per year, and which by its terms is otherwise unimportant.

The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

Instead of concise statements as above directed, the respondent may, if it so desires, furnish copies of the contracts, agreements, etc., in which case the titles thereof should be listed hereunder in the order above indicated.

## 592. IMPORTANT CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Where the information here called for is given elsewhere in this report, it will be sufficient for the respondent to give detailed reference hereunder to the page, schedule, line, and item containing such information.

1. All new lines put in operation, giving—
    - (a) Terminals
    - (b) Points of call, and
    - (c) Dates of beginning operation
  2. All lines abandoned, giving particulars as above
  3. All other important physical changes, including *b. rent all new terminal properties and floating equipment built*, giving for each portion of such new terminal property—
    - (a) Location
    - (b) Extent
    - (c) Cost
 For each item of new self-propelling floating equipment built give—
    - (a) Its name
  4. All leaseholds acquired or surrendered, giving—
    - (a) Dates
    - (b) Lengths of terms
  - 5) Names of parties
  - 6) Rents, and
  - 7) Other conditions
- Furnish copies (if in print) of all contracts made during the year in connection with the acquisition of leasehold interests.
8. All consolidations, mergers, and reorganizations effected, giving particulars
- This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.
9. Adjustments in the book value of securities owned, and reasons therefor
  10. Other financial changes of more than \$50,000, not elsewhere provided for, giving full particulars

## Schedule 595.—COMPETITIVE BIDDING—CLAYTON ANTITRUST ACT

Section 10 of the Clayton Antitrust Act (5 U.S.C. 20) states that "no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, in any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, firm, partnership or association, unless and except such purchases shall be made from, or such

dealing shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission." The specification for competitive bids is found in the Code of Federal Regulations, Part 1010, Competitive Bids through Part 1010.7.

In carriers subject to the Interstate Commerce Act:

In column (g), identify the company awarded the bid by including company name and address, name and title of respondent officers, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.

## 216. INSURANCE, SINKING, AND OTHER SPECIAL FUNDS

1. Give the particulars called for with respect to funds included in accounts Nos. 122 - Insurance funds, 123 - Sinking funds, and 124 - Other special funds.  
 In the second section of the schedule show the particulars of the several funds on the same lines and in the same order as in the first section.  
 In column (g) give the name by which the fund is designated in the respondent's records, the kind of fund, such as sinking, savings, hospital, insurance, pension, and tell the rate of interest if any, and the date of maturity.  
 2. Enter funds separately for each account. If any such totals of columns (d) and (e) are not

the same as those stated in columns (f) and (g), respectively, in the general balance sheet statement, full explanation of the differences should be made by footnote.  
 3. Totals in column (g) should be the sum of corresponding entries in columns (d) and (e). See above. Check in column (f), and the sum of entries in columns (d), (e), and (f) should equal those in column (g).  
 4. All conversions of cash and securities, or vice versa, shall be treated as withdrawals from the fund in column (f) and as additions to the fund in column (e).

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218

1. Schedules 217 and 218 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments including obligations of the United States, of a State or local government, or of an individual, so held; investments made, disposed of, or written down during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing account No. 130, "Investments in affiliated companies," in the Uniform System of Accounts.

2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 130, "Investments in affiliated companies," and 131, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other special funds" include the par value of securities recorded in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; and 124, "Other special funds."

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

- (A) Stocks
  - (1) Carriers—active
  - (2) Carriers—inactive
  - (3) Noncarriers—active
  - (4) Noncarriers—inactive
- (B) Bonds (including U.S. Government Bonds)
- (C) Other secured obligations
- (D) Unsecured notes
- (E) Investment advances

4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

<i>Symbol</i>	<i>Kind of industry</i>
I	Agriculture, forestry, and fisheries
II	Mining
III	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other

6. By carriers, as the term is here used, is meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

7. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

8. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

## 217. INVESTMENTS IN AFFILIATED COMPANIES

Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; 124, "Other special funds"; and 130, "Investments in affiliated companies".

Entries in this Schedule should be made in accordance with the definitions and general instructions given on page 15, classifying the investments by means of letters, figures, and symbols in columns (a), (b) and (c).

Indicate by means of an arbitrary mark in column (d) the obligation in respect of which any

security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

Give totals for each class and for each subclass, and a grand total for each account. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19\_\_\_\_ to 19\_\_\_\_\_. In making entries in this column, abbreviations commonly used in standard financial publications may be used where necessary on account of limited space.

## 217. INVESTMENTS IN AFFILIATED COMPANIES—Concluded

If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in column (1). In case any company listed is controlled other than through active membership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.

For member stock, show the number of shares in lieu of the par value in columns (1), (2), (3), (4), and (5).

In reporting advances, columns (1), (2), (3), (4), and (5) should be left blank. If any advances are pledged, give particulars in a footnote. Particulars of investments made, disposed of, or written down during the year should be given in columns (6) to (10) inclusive. If the cost of any

investment made during the year differs from the book value reported in column (6) against the assets in a business, by "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments is another than cash, describe the transaction in a footnote. Item(s) of entries in column (6) which represent a reduction in the book value of securities has symbol and give full explanation in a footnote on each item.

This schedule should not include securities issued or acquired by respondent.

## SCHEDULE 220. -- ANALYSIS OF FEDERAL INCOME AND OTHER TAXES DEFERRED

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

2. Indicate in column (b) the beginning of the year balance of accumulated deferred tax credits (debits) applicable to each particular in column (a).

3. Indicate in column (c) the net change in accounts 117, 176, 207 and 233 for the net tax effect of timing difference originating and reversing in the current accounting period.

4. The total of net credits (charges) for the current year in column (c) should agree with the contra charges (credits) to account 511, Provision for deferred taxes, and account 591, Provision for deferred taxes-extraordinary and prior period items, for the current year.

5. Indicate in column (d) any adjustments as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carryforward or a loss carryback.

6. Indicate in column (e) the cumulative total of columns (b), (c) and (d). The total of column (e) must agree with the balances in accounts 117, 176, 207 and 233.

## 218. OTHER INVESTMENTS

1. Description of investments in stocks, bonds, other securities, obligations, certificates of deposit, and investment interests of other than affiliated companies, including in amounts: New York State, U.S. and foreign.

2. Notes on this schedule should be made in accordance with the definitions and general instructions given in page 10, classifying the investments in terms of their nature, term, number of accounts, and other characteristics. Investments held by pension and profit sharing plans should be included in this schedule.

3. Indicate by checkmark if the above items are subject to fluctuation in value or to periodic revaluation, or if they are held as long-term investments.

4. Indicate whether the above items are held as equity, debt, or derivative instruments.

5. Indicate in terms of balance sheet date of maturity of bonds and other evidences of indebtedness, because obligations of the same organization mature serially, the date of maturity should be indicated.

**221. SECURITIES, ADVANCES, AND OTHER INTANGIBLES OWNED OR CONTROLLED THROUGH  
NONREPORTING CARRIER AND NONCARRIER SUBSIDIARIES**

Give particulars of investments represented by securities and advances (including securities owned or assumed by respondent) and of other intangible property, interests owned or controlled by respondent through any subsidiary which does not report to the Commission under the provisions of Part I or Part III of the Interstate Commerce Act, without regard to any question of whether the company issuing the securities or the obligor is controlled by the subsidiary.  
 This schedule should include all securities, open account advances, and other intangible property.

Owned or controlled by nonreporting companies shown in schedules 104A, 104B, and 217, as well as those owned or controlled by any other organization or individual whose action response and is enabled to determine.

Investments in U.S. Treasury obligations may be combined in a single item.

## 222. PROPERTY AND EQUIPMENT

*Give particulars of balances at the beginning and close of the year and of all changes during the year in the book cost and depreciation reserve for property and equipment. The balances by primary accounts should be stated in columns (ii), (iii), (iv), and (v); and all changes made during the year should be analyzed in columns (c) to (e) and (f) to (i), inclusive.*

The entries made in column (c) of this schedule should be as follows: Under section A - Owned property, there should be reported the amounts which represent the costs to the reporting carrier of constructing or acquiring transportation property and equipment during the year and of making additions thereto and improvements thereto, as well as the cost during the year of making reductions and improvements to physical property owned by the carrier and used for transportation purposes at, or before, the beginning of the year. Under section B - Leased property, there should be reported the amounts which represent the cost to the reporting carrier during the year of additions and improvements to transportation property leased from others under long-term contracts, in cases where such cost is not chargeable to the lessing companies.

In Section A, Account No. 149, "Construction work in progress," should be subdivided as applicable by account numbers 141 to 148, and by subaccount letters (a) to (d).

In Section B, Account No. 158, "Improvements on leased property," should be subdivided as applicable according to the account numbers 141 to 149, and subaccount letters (a) to (d), as shown in Section A, owned property.

Both the debits and credits applicable to the book cost and the depreciation reserve for property involved in each transfer, adjustment, or clearance between transportation property and equipment accounts should be included in the columns designated "Transfers during year." Also, one transfer of prior year's debits or credits from investment in transportation property and equipment or operating expenses to other accounts, or vice versa, should be included in the columns designated "Transfers during year." Important adjustment items should be fully explained and citations of the Interstate Commerce Commission's authority for acquisitions should be given in footnotes.

**Schedule 250.—RENTAL EXPENSE OF LESSEE**

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Otherwise, show total rental expense (reduced by rentals from subleases) entering into the determination of results of operations for each period for which an income statement is presented. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based on usage or sales, shall be reported separately from the basic or minimum rentals.

NOTE: As used in schedules 250 through 254, a "financing lease" is defined as a lease which, during the noncancelable lease period, either (a) covers 75% or more of the economic life of the property or (b) has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investments) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans.

This schedule not applicable as total lease rentals for a period exceeding one month does not exceed 1% of Gross Revenue.

**Schedule 25L—MINIMUM RENTAL COMMITMENTS**

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Show the minimum rental commitments under all noncancelable leases, as of the date of the latest balance sheet presented, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (a) each of the five succeeding fiscal years, (b) each of the next three five-year periods, and (c) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancelable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancelable lease is defined as one that has an initial or remaining term of more than one year and is noncancelable, or is cancelable only upon the occurrence of some remote contingency, or upon the payment of a substantial penalty.

**Schedule 252.—LEASE DISCLOSURE**

Complete this schedule only if carrier operating revenues are \$10 million or more.

Relate in general terms: (a) the basis for calculating rental payments if dependent upon factors other than the lapse of time; (b) existence and terms of renewal or purchase options, escalation clauses, etc.; (c) the nature and amount of related guarantees made or obligations assumed; (d) restrictions on paying dividends, incurring additional debt, further leasing, etc., and, (e) any other information necessary to assess the effect of lease commitments upon the financial position, results of operations, and changes in financial position of the lessee.

## Schedule 253.—LEASE COMMITMENTS—PRESENT VALUE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if the present value of the minimum lease commitments are more than five percent of the sum of the long-term debt, stockholders' equity and the present value of the minimum lease commitments, or if the impact on net income (as computed in schedule 254, Income Impact—Lessee) is three percent or more of the average net income for the most recent three years.

Show all noncapitalized financing leases, the present value of the minimum lease commitments in the aggregate and by major categories of properties. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated, or actual amounts, if any, applicable to taxes, insurance, maintenance and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease.

Show either the weighted average interest rate (based on present value) and range of rates or specific interest rates for all lease commitments.

**Schedule 254.—INCOME IMPACT—LESSEE**

Complete this schedule only if carrier operating revenues are \$10 million or more.

If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

In calculating average net income, loss years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

## 286. ACQUISITION ADJUSTMENT

Give particulars of all changes included in account No. 151, "Acquisition adjustment," during the year and citation of the Interstate Commerce Commission's authority therefor.

In column (b) show the account number to which the entries in column (c) were credited and the account number to which the entries in column (d) were charged. If more than one contra account is involved in an item, the amount applicable to each account and total for the item should be

shown.

Items amounting to less than \$50,000 for class A carriers by water or less than \$10,000 for class B carriers by water may be combined in a single entry designated "Minor items, \_\_\_\_\_ in number, each less than \$50,000 or \$10,000," as may be appropriate to the class of carrier.

## 287. INVESTMENTS IN NONCARRIER PHYSICAL PROPERTY

Give particulars of all investments of the respondent in physical property other than its waterway lines and other than property used in auxiliary or "outside" operations collateral to its waterway operations. This schedule should include all such direct investments in physical property as are includable in account No. 160, "Noncarrier physical property," in the Uniform System of Accounts. The description of the property in column (a) should give the location and other identification of it with a reasonable degree of particularity.

Each item amounting to \$10,000 or more should be stated. Items less than \$10,000 may be combined in a single entry designated "Minor items, each less than \$10,000."

If any of the property herein provided for was acquired in consideration of

stocks, or of bonds or other evidences of debt, or in exchange for other property enter in column (c) only the actual cash or money paid, and in a note attached to this sheet describe fully the consideration actually given.

In column (e) give an analysis of the amounts included (in respect of the properties in this schedule) in the item shown on the Balance Sheet as of the close of the year against account No. 161, "Depreciation reserve—Noncarrier physical property."

If any property of the character provided for in this schedule, amounting to \$10,000 or more, was disposed of during the year, give particulars in a footnote.

## 261. FUNDED DEBT AND RECEIVERS' AND TRUSTEES' SECURITIES

1. Give particulars of the various unmatured bonds and other evidences of funded debt of the respondent (except equipment obligations, for which see schedule No. 263, p. 30), which were in existence at the close of the year. Entries in this schedule should be confined to those includable in accounts Nos. 211, "Funded debt unmatured," and 212, "Receivers' and trustees' securities."

2. In column (a) show the name of each bond or other obligation as it is designated in the records of the respondent, classifying each obligation under the appropriate following subheading as they are defined in the Uniform System of Accounts.

1. Mortgage Bonds
2. Collateral Trust Bonds
3. Income Bonds

the year, state on page 11 the purposes for which such issues were authorized, as expressed in the resolution of the final authority passing on the matter.

5. Entries in column (e) should include funded debt nominally issued, nominally outstanding, and actually outstanding.

6. Entries in columns (f), (g) and (h) should be appropriately footnoted to show (1) Total par value nominally but not actually issued, and (2) Total par value reacquired after actual issue and held alive at close of year.

7. Entries should conform to the definitions of "nominally issued," "actually issued," etc., as given in the fifth paragraph of instructions on page 12.

8. If the items of interest accrued during the year as entered in columns (l) and (m) do not aggregate the total accrual for the year on any security, explain the dis-

crepancy. Entries in these columns should include interest accrued on funded debt reacquired or retired during the year although no portion of the issue is actually outstanding at the close of the year.

9. In determining the entries for column (m), do not treat any interest as paid unless the liability of the respondent in respect to it is extinguished. Deposits of cash with banks and other fiscal agents for the payment of interest coupons should not be reported as payments of such interest until actually paid to coupon holders or others under such circumstances as to relieve the respondent from further liability. Interest falling due on January 1 is to be treated as matured on December 31.

## 265. FUNDED DEBT AND OTHER OBLIGATIONS (MATURED AND UNMATURED) CHANGES DURING THE YEAR

1. Give particulars of changes during the year in funded debt and other obligations included in accounts Nos. 211, "Funded debt unexpired," and 212, "Receivers' and trustees' securities." List entries under captions giving account numbers and titles and insert total for each account. In column (c) state whether issued for construction of new properties; for additions and betterments; for purchase of vessels, boats, or other property; for conversion; for acquisition of securities; for reorganization; or for other corporate purposes. Also give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. In column (e) include as cash all money, checks, drafts, bills of exchange, and other commercial paper payable at par on demand. For nominally

issued securities, show returns in columns (a), (b), (c), and (d) only.

2. For each class of securities actually issued, the sum of the entries in columns (e), (f), and (g), plus discounts or less premiums in column (g), should equal the entry in column (d). For definition of expense, reportable in column (h), see Special Instruction No. 27, "Discount, expense, and premium on long-term debt," in the Classification of Balance Sheet Accounts.

3. Particulars concerning the reacquisition of securities that were actually outstanding should be given in columns (a), (b), and (c).

## 380. WATER-LINE TAXES

1. Give the particulars called for with respect to the taxes charged to accounts Nos. 485, "Payroll taxes"; 486, "Water-line tax accruals"; and 532, "Income taxes on income from continuing operations" during the year.

2. Taxes are those annual or other payments exacted by governments (Federal, State, county, municipal, school, and other tax district authorities) for the purpose of raising funds for public uses. They do not include payments exacted for special benefits conferred on the payor, such as special assessments for street improvements, etc.

3. Properties on which taxes are paid should be classified and grouped as follows:

(A) All properties owned by the respondent and its proprietary companies (showing these as a whole or in detail as the respondent may prefer).

(B) Properties held under any form of lease from other than proprietary companies and upon which respondent is required to pay the taxes in addition to the stipulated rent, showing such properties in detail.

(C) Properties held under any form of lease from other than proprietary companies and upon which the respondent is required to pay the taxes as a part of the stipulated rent, showing such properties in detail.

4. With respect to each of the groups or detailed properties above specified, show in the upper section:

(a) The name of the company (or group).

(b) The State (or States) or governments other than the United States to which taxes are paid.

(c) to (e), inclusive: The amounts charged to the accounts as indicated by the column headings. In column (f), show totals of the entries on each line.

5. In the lower section show:

(a) The name of the company (or group).

(b) Separately, the various kinds of U. S. Government taxes.

(c) to (e), inclusive: The amounts charged to the accounts as indicated by the column headings. In column (f), show totals of the entries on each line.

6. The grand totals of columns (c), (d), and (e) should be the same as in the operating expense and income schedules of this report, for the respective accounts.

## 372. ABSTRACT OF TERMS AND CONDITIONS OF LEASES

1. Give brief abstracts of the terms and conditions of leases under which the above-listed rents are derived, showing particularly (1) the date of the grant, (2) the chain of title (in case of assignment or subletting) and dates of transfer connecting the original parties with the present parties, (3) the basis on which the amount of the annual rent is determined, and (4) the date when the lease will terminate, or, if the date of termination has not yet been fixed, the provisions governing the termination of the

lease.

2. Copies of leases may be filed in lieu of abstracts above called for. References to copies filed in prior years should be \_\_\_\_\_.

3. If the respondent has any reversionary interest in water-line property from which it derives no rent, give the particulars hereunder; if it has no such reversionary interest, state that fact.

NOTE.—Only changes during the year are required. If there were no changes, state that fact. None

## 381. OTHER OPERATING RENTS

1. Give particulars of transportation water-line floating equipment, property or equipment, that the respondent leased or rented from others for a period of one year or more, the rent payable and expenditures for which were included in account No. 483, "Other operating rents."
2. Floating equipment, property and equipment, rented for less than

1. Give brief abstracts of the terms and conditions of leases under which the respondent holds the properties above named, showing particularly (1) the date of the lease, (2) the chain of title and dates of transfers connecting the original lessee with the respondent in case of assignment or subletting, (3) the basis on which the amount of the annual rent is de-

termined, and (4) the date when the lease is to terminate, or, if such date has not yet been determined, the provisions governing its determination.

2. In lieu of the abstracts here called for, the respondent may file copies of lease agreements and give references to copies heretofore filed with the Commission. Such references should be specific.

NOTE.—Only changes during the year are required. If there were no changes, state that fact.

### 396. MISCELLANEOUS ITEMS IN INCOME AND RETAINED INCOME ACCOUNTS FOR THE YEAR

Give a detailed analysis of each item in accounts 508, "Profits from sale or disposition of property"; 283, "Miscellaneous credits"; 285, "Miscellaneous debits"; 286, "Miscellaneous reservations of retained income"; 570, "Extraordinary items"; and 590, "Income taxes on extraordinary items". Entries should be grouped by number with respect

to each account, and a total should be stated for each group. For accounts 508, 283, 285, and 286, each item amounting to \$10,000 or more should be stated; items less than \$10,000 in any account may be combined in a single entry under the appropriate account designated "Minor items, each less than \$10,000".

## 413. FLOATING EQUIPMENT

Give no. & dollars of each piece of floating equipment which the respondent had available for use in its operations at the close of the year. Barges may be reported in groups according to type and size, so long as such groupings also reflect the year built and the year acquired, customize this column.

In column (d) show the use of the letters indicated whether the vessel or other equipment is still owned (F), acquired under the terms of an equipment lease (L), held under lease from others (H), or transferred from others for a period not greater than one year (T). Do not include equipment leased or chartered to others as this equipment is not available for use at the close of the year.

In column (e), if adapter solely to transportation of freight, enter the symbol (F); if solely on passenger transportation, (P); if principally for freight, incidentals for passengers, (PF); if principally for passenger incidentals for freight, (PP); if for loading, (L); if for lightering, (LL) etc.

In column (f) show the cargo deadweight tonnage capacity of the ship in tons of 2,340 pounds by deducting the weight of the fuel, water, stores, and damage from the gross weight of the vessel, i.e., show the difference between the displacement light and the displacement loaded after subtracting the weights of the fuel, stores, etc.

## SCHEDULE 541. FREIGHT CARRIED DURING THE YEAR

## INSTRUCTIONS

Under the Commission's order of September 13, 1963, effective January 1, 1964, all carriers by water subject to the provisions of Parts I and III of the Interstate Commerce Act assigned to Class A and B are required to compile and report freight commodity statistics annually. Reports shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, by March 11 of the year following that for which the report is made.

Tonnage and revenue should be on a billed basis. Classify the commodities carried by the respondent in its water line and motortruck operations and for the respondent in the vessels and motortrucks of other companies (carriers) under contract, in revenue service. The domestic revenues from which are includable in accounts No. 401, "Freight revenue" and 351, "Motor Carrier revenue," in accordance with the order of this Commission dated September 13, 1963. Maritime carriers should classify commodities the revenue from which are includable in account No. 605, "Freight-Coastwise and intercoastal." Separate the tonnage and revenue for each commodity code between "Joint rail and water traffic" and "All other traffic." The separation as to joint rail and water traffic and all other traffic may be omitted for commodity code 471, "Small packaged freight shipments."

Include under "Joint rail and water traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are being transported partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment such as traffic moving on joint rail-water and rail-motor water rates.

Include under "All other traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are transported from point of origin to point of destination solely by water; solely by truck; partly by water and partly by truck; or by any other combination which does not involve the interchanging of traffic with a railroad company; also shipments moving on water rates when the carrier by water absorbs out of its port-to-port rates certain charges for switching, terminal, drayage, or other services within a port terminal district.

"Passenger cars assembled" is confined to vehicles carried as revenue freight on freight rates and does not include those carried as an adjunct to passenger business.

Fuel and stores carried on any vessel for the purpose of operating and maintaining it should not be included in this schedule.

Include under "Joint rail and water traffic" and "All other traffic" the revenues that are applicable to the tonnage.

"Gross freight revenue" means reporting carrier's gross revenue from freight without adjustment for absorption or corrections.

In the "Note" on page 55 show the extent of joint motor-water traffic included in columns (c) and (f).

Commodity codes 01 through 462 shall include shipments weighing 10,000 pounds or more. Shipments of less than 10,000 pounds of one commodity shall be reported under commodity code 471, "Small packaged freight shipments," unless the reporting carrier elects to distribute all revenue freight among the other designated classes.

"Classify" means to assign an article of freight to its appropriate commodity class which may be a 3, 4, or 5 digit number. Always classify an article in the highest digit level possible. Use a 5-digit code if the article may be properly assigned to it. If there is no applicable 5-digit code, use a 4-digit code if available. If there is no applicable 4-digit code, then the article is classified at the 3-digit level.

For a 5-digit code, report the sum of all freight classified therunder. For a 4-digit code, report the sum of all freight classified thereunder plus the sum of all 5-digit codes where the first four digits match. For a 3-digit code, report the sum of all 4-digit code numbers where the first three digits match, plus 5-digit code numbers where the first three digits match (provided they are not included in 4-digit code), plus any articles classified at the 3-digit level. Generally the 3-digit codes are used as summaries. The 2-digit level is a summary of 3-digit codes where the first two digits match.

Commodities must not be classified to the codes with a "T" designation. Codes at the 2 and 3 digit level followed by a "T" always are totals of the related higher level codes shown on the report form. Codes not so designated may include commodities classified directly therunder and may not total.

"Piggyback traffic" is classified in the applicable commodity code if the commodity can be identified; where the commodity cannot be identified, classify in code 461 and summarize in code 46.

Codes 44 and 441, "Freight Forwarder Traffic" includes freight traffic shipped by or consigned to any forwarder holding a permit under Part IV of the Interstate Commerce Act.

"Shipper Association or Similar Traffic" Codes 45 and 451, include freight traffic shipped by a non profit shipper association where the commodity cannot be identified; where the commodity can be identified, classify in the applicable commodity code.

## 542. FREIGHT AND PASSENGERS CARRIED DURING THE YEAR (DOMESTIC AND FOREIGN)

1. Give particulars called for hereunder with respect to domestic and foreign freight and passengers carried during the year. Tonnage and revenue should be on a billed basis.

2. The term "regulated" in column (c) refers to traffic transported by the respondent in service subject to the Interstate Commerce Act.

3. The terms as herein used, (a) "Foreign traffic" means traffic trans-

ported by water between a United States port and a foreign port without transhipment at a United States port; and (b) "Domestic traffic" means traffic transported by water between two United States ports, including transhipped traffic contemplated by section 392 (1) and (3) of the Interstate Commerce Act.

## 561. EMPLOYEES, SERVICE AND COMPENSATION

1. Give particulars of persons employed by the respondent during the year for during any portion thereof) in connection with its common and/or contract carrier operations, including incidental construction and auxiliary operations.

2. In classifying employees among the classes listed in column (a), where any individual is properly classifiable in two or more classes, assign him to that class in which the principal portion of his service was rendered at the time of the count. If any persons in the regular service of the respondent were serving without compensation, they should nevertheless be included in the returns in column (b) and the matter should be fully explained in a footnote.

3. In column (b) show, properly classified with respect to occupation, the average number of employees in the service of the respondent during the year for classes in service the year round, and during the period of navigation for classes in service only during that period. Under "Remarks" state the methods by which these averages are determined. The numbers shown in this column should include only persons directly employed by the respondent; it should not include

employees of a company or person with whom the respondent has contracts for certain classes of work, as, for example, stevedoring at a given port, etc.

4. In column (c) show the total number of hours worked (or held for work) by employees compensated on an hourly basis. This number should be accurately stated and should exclude time allowed for lunch hours, half-holidays, holidays, vacations, sick leave, etc., even though full compensation or part compensation is allowed for such time. It should include all overtime actually spent in work for the respondent even though no additional compensation is paid for such work. If the duties of certain general officers, traveling agents, solicitors, and other classes of employees compensated on other than an hourly basis are of such a nature that it is impracticable to record accurately the number of hours during which they are on duty, such number may be fairly estimated and the estimate number included in the return, in which case the basis for the estimate for each class is to be shown in a footnote.

5. In column (d) include the total compensation paid employees for the work represented in

column (c). If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto.

6. If any person is employed by two or more carriers jointly, he should be reported in column (b) by the carrier on whose payroll he is carried; if on the payrolls of more than one of the joint employers he should be reported by each carrier on whose payroll he works, and full particulars should be given in order to permit the elimination of duplications. If an officer serves two or more

corporations and receives no salary from any of them, he should be reported in column (b) only by the controlling or highest ranking of such corporation reporting to the Commission.

7. This return need not include any employees engaged solely on the construction of new property; if any such are included, that fact should be stated and particulars should be given in a footnote.

8. This schedule does not include old age retirement, and unemployment insurance taxes. See Schedule 350 for such taxes.

## 562. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 104, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more.

4. Other compensation to be entered in column (d) includes, but is not

limited to, commissions; bonuses; shares in profits; contingent compensation; moneys paid, set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

## 563. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES

Column (d)-Based on formula of company performance.

In the form below give information concerning fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions allowance for expenses, or other amounts payable aggregating \$10,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in Schedule 562 in this annual report) for services or as a donation. In the case of contributions of under \$10,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespectively of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$10,000 or more.

To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trus-

tees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a waterline, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

## 991. CONTRACTS, AGREEMENTS, ETC.

Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, together with important revisions, modifications, terminations, and other changes thereto, which became effective during the year, and concerned in any way the transportation of persons or things, or other than tariff rates, making such statements in the following order:

1. Express companies
2. Mail
3. Trucking companies
4. Freight or transportation companies or lines
5. Railway companies
6. Other steamboat or steamship companies
7. Telegraph companies

OBL entered into an agreement of short term charter of towboats transferred to River and Gulf Transportation Company under plan of reorganization and provides transportation service for that company on basis of varying rates per barge mile.

## 8. Telephone companies

## 9. Other contracts

Reference concerning contracts of minor importance may be omitted. A contract of minor importance is defined as one involving receipts or payments of less than \$1,000 per year, and which by its terms is otherwise unimportant.

The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

Instead of giving statements as above directed, the respondent may, if it so desires, furnish copies of the contracts, agreements, etc., in which case the titles thereto should be listed hereunder in the order above indicated.

## 992. IMPORTANT CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Where the information here called for is given elsewhere in this report, it will be sufficient for the respondent to give detailed reference hereunder to the page, schedule, line, and item containing such information.

1. All new lines put in operation, giving—
  - (a) Terminals
  - (b) Points of call, and
  - (c) Dates of beginning operation
2. All lines abandoned, giving particulars as above
3. All other important physical changes, including herein all new terminal properties and floating equipment built, giving for each portion of such new terminal property—
  - (a) Location
  - (b) Extent
  - (c) Cost

For each item of new self-propelling floating equipment built give—

  - (a) Its name
  - (b) Dates
  - (c) Length of terms,
4. All leaseholds acquired or surrendered, giving—
  - (a) Dates
  - (b) Length of terms,

## (e) Name of parties

## (f) Rents, and

## (g) Other conditions

Furnish copies (if in point) of all contracts made during the year in connection with the acquisition of leasehold interests.

## 5. All consolidations, mergers, and reorganizations effected, giving particulars

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

## Schedule 598.—COMPETITIVE BIDDING.—CLAYTON ANTITRUST ACT

Section 10 of the Clayton Antitrust Act (15 U.S.C. 20) states that no common carrier engaged in commerce shall have any dealings in securities, supplies or other articles of commerce, or shall make or have any contracts for construction or maintenance of any kind, to the amount of more than \$50,000, in the aggregate, in any one year, with another corporation, firm, partnership or association when the said common carrier shall have upon its board of directors or as its president, manager or as its purchasing or selling officer, or agent in the particular transaction, any person who is at the same time a director, manager, or purchasing or selling officer of, or who has any substantial interest in, such other corporation, firm, partnership or association, unless and except such purchases shall be made from, or such

dealing shall be made with, the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission. The specification for competitive bids is found in the Code of Federal Regulations, Part 1010, Competitive Bids through Part 1010.7.

**Carriers Subject to the Interstate Commerce Act**

In column (g), identify the company awarded the bid by including company name and address, name and title of respondents officers, directors, selling officer, purchasing officer and/or general manager that has an affiliation with the seller.
