2. The instructions in this Form should be carefully observed and each question should be answered fully and accurately, except where otherwise noted to the contrary, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like, should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page \_\_\_\_\_, schedule (or line) number \_\_\_\_\_" should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, type-written or other, in a report, they should be legibly made on durable paper, and wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margins; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink, except those of a contrary character, which should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

6. Money items, except averages, throughout the annual report form should be shown in WHOLE DOLLARS adjusted to accord with footings, except Schedule 541-Freight Carried During the Year. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

8. The respondent is further required to send to the Bureau of Accounts, immediately upon publication, two copies of its latest printed annual report to stockholders. See page 1.

9. Water carriers are, for the purpose of report to the Interstate Commerce Commission, divided into three classes in accordance with the following definitions:

Class A carriers are those carriers by water having average annual operating revenues exceeding \$500,000.

Class C carriers are those carriers by water having average annual operating revenues of \$100,000 or less.

The annexed Form is prescribed for use by water carriers of Classes A and B. Class B carriers are permitted to use the condensed schedules of operating revenues and operating expenses appearing on pages 36 and 39, respectively. In other respects the requirements of the Form are identical for water carriers of both Classes A and B.

A separate Form, designated "Form W-3," is provided for water carriers of Class C.

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 217 AND 218

1. Schedules 217 and 218 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments including obligations of the United States, of a State or local government, or of an individual, so held; investments made, disposed of, or written down during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing account No. 130, "Investments in affiliated companies," in the Uniform System of Accounts.

2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 130, "Investments in affiliated companies," and 131, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other special funds" include the par value of securities recorded in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; and 124, "Other special funds."

3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:

## (A) Stocks:

- (1) Carriers—active
- (2) Carriers—inactive
- (3) Noncarriers—active
- (4) Noncarriers—inactive.

## (B) Bonds (including U.S. Government Bonds):

## (C) Other secured obligations:

## (D) Unsecured notes:

## (E) Investment advances:

4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

5. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of industry
I.	Agriculture, forestry, and fisheries.
II	Mining.
III	Construction.
IV	Manufacturing.
V	Wholesale and retail trade.
VI	Finance, insurance, and real estate.
VII	Transportation, communications, and other public utilities.
VIII	Services.
IX	Government.
X	All other.

6. By carriers, as the term is here used, is meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

7. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

8. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

## 217. INVESTMENTS IN AFFILIATED COMPANIES

Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 122, "Insurance funds"; 123, "Sinking funds"; 124, "Other special funds"; and 130, "Investments in affiliated companies."

Entries in this schedule should be made in accordance with the definitions and general instructions given on page 15, classifying the investments by means of letters, figures, and symbols in columns (a), (b) and (c).

Indicate by means of an arbitrary mark in column (d) the obligation in support of which any

security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

Give totals for each class and for each subclass, and a grand total for each account.

Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the name in column (d) may be reported as "Serially 19\_\_ to 19\_\_". In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

## 217. INVESTMENTS IN AFFILIATED COMPANIES—Concluded

If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.

For nonpar stock, show the number of shares in lieu of the par value in columns (f), (g), (h), (i), (k), and (m).

In reporting advances, columns (f), (g), (h), (i), (k), and (m) should be left blank. If any advances are pledged, give particulars in a footnote. Particulars of investments made, disposed of, or written down during the year should be given in columns (k) to (o), inclusive. If the cost of any

investment made during the year differs from the book value reported in column (f), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments was other than cash, describe the transaction in a footnote. Identify all entries in column (n), which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

This schedule should not include securities issued or assumed by respondent.

## Schedule 250.—RENTAL EXPENSE OF LESSEE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Otherwise, show total rental expense (reduced by rentals from subleases) entering into the determination of results of operations for each period for which an income statement is presented. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based on usage or sales, shall be reported separately from the basic or minimum rentals.

NOTE: As used in schedules 250 through 254, a "financing lease" is defined as a lease which, during the noncancellable lease period, either (a) covers 75% or more of the economic life of the property or (b) has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investments) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans.

\*Parker Towing Company, Inc. revenues are less than \$10.0 million.

## Schedule 251.—MINIMUM RENTAL COMMITMENTS

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Show the minimum rental commitments under all noncancellable leases, as of the date of the latest balance sheet presented, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (a) each of the five succeeding fiscal years, (b) each of the next three five-year periods; and, (c) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancellable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancellable lease is defined as one that has an initial or remaining term of more than one year and is noncancellable, or is cancellable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

## Schedule 252.—LEASE DISCLOSURE

Complete this schedule only if carrier operating revenues are \$10 million or more.

Relate in general terms: (a) the basis for calculating rental payments if dependent upon factors other than the lapse of time; (b) existence and terms of renewal or purchase options, escalation clauses, etc.; (c) the nature and amount of related guarantees made or obligations assumed; (d) restrictions on paying dividends, incurring additional debt, further leasing, etc.; and, (e) any other information necessary to assess the effect of lease commitments upon the financial position, results of operations, and changes in financial position of the lessee.

## Schedule 253.—LEASE COMMITMENTS—PRESENT VALUE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if the present value of the minimum lease commitments are more than five percent of the sum of the long-term debt, stockholders' equity and the present value of the minimum lease commitments, or if the impact on net income (as computed in schedule 254, Income impact—Lessee) is three percent or more of the average net income for the most recent three years.

Show all noncapitalized financing leases, the present value of the minimum lease commitments in the aggregate and by major categories of properties. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated, or actual amounts, if any, applicable to taxes, insurance, maintenance and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease.

Complete this schedule only if carrier operating revenues are \$10 million or more.

If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

This schedule should include all such direct investments in physical property as are includible in account No. 160, "Noncarrier physical property," in the Uniform System of Accounts. The description of the property in column (a) should give the location and other identification of it with a reasonable degree of particularity.

Each item amounting to \$10,000 or more should be stated, items less than \$10,000 may be combined in a single entry designated "Minor items, each less than \$10,000."

the year, state on page 31 the purposes for which such issues were authorized, as expressed in the resolution of the final authority passing on the matter.

5. Entries in column (e) should include funded debt nominally issued, nominally outstanding, and actually outstanding.

6. Entries in columns (f), (g) and (h) should be appropriately footnoted to show (1) Total par value nominally but not actually issued, and (2) Total par value reacquired after actual issue and held alive at close of year.

7. Entries should conform to the definitions of "nominally issued," "actually issued," etc., as given in the fifth paragraph of instructions on page 32.

8. If the items of interest accrued during the year as entered in columns (i) and (m) do not aggregate the total accrual for the year on any security, explain the discrepancy.

Entries in these columns should include interest accrued on funded debt reacquired or retired during the year although no portion of the issue is actually outstanding at the close of the year.

9. In determining the entries for column (n), do not treat any interest as paid unless the liability of the respondent in respect to it is extinguished. Deposits of cash with banks and other fiscal agents for the payment of interest coupons should not be reported as payments of such interest until actually paid to coupon holders or others under such circumstances as to relieve the respondent from further liability. List entries under captions giving account numbers and titles and insert total for each account. In column (c) state whether issued for construction of new properties, for additions and betterments, for purchase of vessels, boats, or other property, for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. Also give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. In column (e) include as cash all money, checks, drafts, bills of exchange, and other commercial paper payable at par on demand. For nominally

issued securities, show returns in columns (a), (b), (c), and (d) only.

For definition of expense, reportable in column (h), see Special Instruction No. 27, "Discount, expense, and premium on long-term debt," in the Classification of Balance Sheet Accounts.

In case some condition precedent has to be complied with after the approval and ratification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith.

5. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities actually issued and not acquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be

nominally outstanding.

6. Column (d) refers to the initial preference dividend payable before any common dividend, columns (k) and (l) to participations in excess of initial preference dividend, at a specified percentage or amount (nonpar stock) (column (k)) or a percentage or proportion of the profits (column (l)).

7. "Authenticated" as applied to column (n) of this schedule means the total par value of certificates of par value stock or total number of shares of nonpar stock that have been signed and sealed and placed with the proper officer of the carrier for sale or other disposition. The amount stated in this column is the sum total of the amounts stated as nominally issued and actually issued stock.

8. In column (s) show the actual consideration received for the stock whether in cash or other property.

## 372. ABSTRACT OF TERMS AND CONDITIONS OF LEASES

1. Give brief abstracts of the terms and conditions of leases under which the above-listed rents are derived, showing particularly (1) the date of the grant, (2) the chain of title (in case of assignment or subletting) and dates of transfer connecting the original parties with the present parties, (3) the basis on which the amount of the annual rent is determined, and (4) the date when the lease will terminate, or, if the date of termination has not yet been fixed, the provisions governing the termination of the

lease

2. Copies of leases may be filed in lieu of abstracts above called for. References to copies filed in prior years should be specific.

Barges may be reported in groups according to type and size, so long as such groupings also reflect the year built and the year acquired, columns (b) and (c).

2. In column (d) show (by use of the letters indicated) whether the vessel or other equipment is fully owned (O), acquired under the terms of an equipment trust (E), held under lease from others (L), or chartered from others for a period not greater than one year (C). Do not include equipment leased or chartered to others as this equipment is not available for use at the close of the year.

3. In column (e), if adapted solely to transportation of freight, enter the symbol (F); if solely to passenger transportation, (P); if principally for freight, incidentally for passenger, (FP); if principally for passenger, incidentally for freight, (PF); if for towing, (T); if for lightering, (L), etc.

4. In column (f) show the cargo deadweight tonnage capacity of the ship in tons of 2,240 pounds by deducting the weight of the fuel, water, stores, and dunnage from the gross weight of the vessel, i.e., show the difference between the displacement light and the displacement loaded after subtracting the weight of the fuel, stores, etc.

## SCHEDULE 541. FREIGHT CARRIED DURING THE YEAR

## INSTRUCTIONS

Under the Commission's order of September 13, 1963, effective January 1, 1964, all carriers by water subject to the provisions of Parts I and III of the Interstate Commerce Act assigned to Class A and B are required to compile and report freight commodity statistics annually. Reports shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, by March 31 of the year following that for which the report is made.

Tonnage and revenue should be on a billed basis. Classify the commodities carried by the respondent in its water-line and motortruck operations and for the respondent in the vessels and motortrucks of other companies (carriers) under contract, in revenue service, the domestic revenues from which are includible in accounts No. 301, "Freight revenue" and 351 "Motor-Carrier revenue" in accordance with the order of this Commission dated September 31, 1963. Maritime carriers should classify commodities the revenue from which are includible in account No. 605, "Freight-Coastwise and intercoastal". Separate the tonnage and revenue for each commodity code between "Joint rail and water traffic" and "All other traffic". The separation as to joint rail and water traffic and all other traffic may be omitted for commodity code 471, "Small packaged freight shipments".

Include under "Joint rail and water traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are being transported partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment such as traffic moving on joint rail-water and rail-motor-water rates.

Include under "All other traffic" all shipments that, so far as apparent from the information on the waybills or abstracts thereof, are transported from point of origin to point of destination solely by water, solely by truck, partly by water and partly by truck, or by any other combination which does not involve the interchanging of traffic with a railroad company; also, shipments moving on water rates when the carrier by water absorbs out of its port-to-port rates certain charges for switching, terminal, drayage, or other services within a port terminal district.

"Passenger cars, assembled" is confined to vehicles carried as revenue freight on freight rates and does not include those carried as an adjunct to passenger business.

Fuel and stores carried on any vessel for the purpose of operating and maintaining it should not be included in this schedule.

Include under "Joint rail and water traffic" and "All other traffic", the revenues that are applicable to the tonnage.

"Gross freight revenue" means reporting carrier's gross revenue from freight without adjustment for absorption or corrections.

In the "Note" on page 55 show the extent of joint motor-water traffic included in columns (e) and (f).

Commodity codes 01 through 462 shall include shipments weighing 10,000 pounds or more. Shipments of less than 10,000 pounds of one commodity shall be reported under commodity code 471, "Small packaged freight shipments" unless the reporting carrier elects to distribute all revenue freight among the other designated classes.

"Classify" means to assign an article of freight to its appropriate commodity class which may be a 3, 4, or 5-digit number. Always classify an article in the highest digit level possible. Use a 5-digit code if the article may be properly assigned to it. If there is no applicable 5-digit code, use a 4-digit code if available. If there is no applicable 4-digit code, then the article is classified at the 3-digit level.

For a 5-digit code, report the sum of all freight classified thereunder. For a 4-digit code, report the sum of all freight classified thereunder plus the sum of all 5-digit codes where the first four digits match. For a 3-digit code, report the sum of all 4-digit code numbers where the first three digits match, plus 5-digit code numbers where the first three digits match (provided they are not included in 4-digit codes), plus any articles classified at the 3-digit level. Generally the 3-digit codes are used as summaries. The 2-digit level is a summary of 3-digit codes where the first two digits match.

Commodities must not be classified to the codes with a "T" designation. Codes at the 2 and 3 digit level followed by a "T" always are totals of the related higher level codes shown on the report form; codes not so designated may include commodities classified directly thereunder and may not total.

"Piggyback traffic" is classified in the applicable commodity code if the commodity can be identified; where the commodity cannot be identified, classify in code 461 and summarize in code 46.

Codes 44 and 441, "Freight Forwarder Traffic" includes freight traffic shipped by or consigned to any forwarder holding a permit under Part IV of the Interstate Commerce Act.

"Shipper Association or Similar Traffic" Codes 45 and 451, include freight traffic shipped by a non-profit shipper association where the commodity cannot be identified; where the commodity can be identified, classify in the applicable commodity code.

REMARKS

## 542. FREIGHT AND PASSENGERS CARRIED DURING THE YEAR (DOMESTIC AND FOREIGN)

1. Give particulars called for hereunder with respect to domestic and foreign freight and passengers carried during the year. Tonnage and revenue should be on a billed basis.

2. The term "regulated" in column (c) refers to traffic transported by the respondent in service subject to the Interstate Commerce Act.

3. The terms as herein used, (a) "Foreign traffic" means traffic trans-

ported by water between a United States port and a foreign port without transshipment at a United States port, and (b) "Domestic traffic" means traffic transported by water between two United States ports, including transshipped traffic contemplated by section 392 (1) and (3) of the Interstate Commerce Act.

## 561. EMPLOYEES, SERVICE AND COMPENSATION

1. Give particulars of persons employed by the respondent during the year (or during any portion thereof) in connection with its common and/or contract carrier operations, including incidental construction and auxiliary operations.

2. In classifying employees among the classes listed in column (a), where any individual is properly classifiable in two or more classes, assign him to that class in which the principal portion of his service was rendered at the time of the count. If any persons in the regular service of the respondent were serving without compensation, they should nevertheless be included in the returns in column (b) and the matter should be fully explained in a footnote.

3. In column (b) show, properly classified with respect to occupation, the average number of employees in the service of the respondent during the year for classes in service the year round, and during the period of navigation for classes in service only during that period. Under "Remarks" state the methods by which these averages are determined. The numbers shown in this column should include only persons directly employed by the respondent; it should not include

employees of a company or person with whom the respondent has contracts for certain classes of work, as, for example, stevedoring at a given port, etc.

4. In column (c) show the total number of hours worked (or held for work) by employees compensated on an hourly basis. This number should be accurately stated and should exclude time allowed for lunch hours, half holidays, holidays, vacations, sick leave, etc., even though full compensation or part compensation is allowed for such time. It should include all overtime actually spent in work for the respondent even though no additional compensation is paid for such work. If the duties of certain general officers, traveling agents, solicitors, and other classes of employees compensated on other than an hourly basis are of such a nature that it is impracticable to record accurately the number of hours during which they are on duty, such number may be fairly estimated and the estimate number included in the return, in which case the basis for the estimate for each class is to be shown in a footnote.

5. In column (d) include the total compensation paid employees for the work represented in

If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. ## 562. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 104, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more.

4. Other compensation to be entered in column (d) includes, but is not

limited to, commissions; bonuses; shares in profits; contingent compensation; moneys paid, set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by each officer, director, etc.

## 563. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES

In the form below give information concerning fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions allowance for expenses, or other amounts payable aggregating \$10,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in Schedule 562 in this annual report) for services or as a donation. In the case of contributions of under \$10,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespectively of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$10,000 or more.

To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trus-

tees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a waterline, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.
