Note: The Company is a member of an affiliated group filing consolidated federal income tax returns. Because intragroup dividends are eliminated from taxable income, 85% of dividends received from companies outside the group are deductible, and of other factors, there is no predictable relationship between the company's future earnings and its future federal income tax accruals. Moreover, substantial net operating losses have been reported in federal income tax returns for prior years which are available as offsets to future income, and at this time there is still available to the Company, and to the former The Pennsylvania Railroad Company and its affiliated companies, the election to adopt guideline lives for depreciable property for 1962 and subsequent years, thereby increasing operating loss carryovers. No final determination has been made of the group's tax liabilities subsequent to 1953. In the case of the former New York Central kailroad Company, which became a member of the group effective with the date of the merger, February 1, 1968, no final determination has been made of its federal income tax liability for years subsequent to 1955. The Statute of Limitations bars any deficiencies in tax for the former New York Central or its affiliated companies for years prior to 1968, although adjustments may be made to the net operating loss carryovers.

#### SUMMARY OF ACCOUNTING POLICIES: -

#### Statement Presentation:

Because of the uncertainties surrounding the Company resulting from the reorganization proceedings of its parent company, Penn Central Transportation Company (transportation company), which may result in the divestiture of its nonrail assets, the investments in affiliated companies as well as all other investments have been classified in the accompanying schedules of investments as rail or nonrail assets as such terms are defined in the settlement agreement (now expired) with the banks which hold a pledge on the Company's common stock as described in Note 1.

#### Quasi-reorganization:

as described in Note 2, the Board of Directors, with the consent of the Company's common shareholder, adopted a "quasi-reorganization" as of December 31, 1971. In connection therewith, some of the asset revaluations involved significant uncertainties. Accordingly, any material gains and losses in regard to those assets, which are not clearly attributable to events occurring or circumstances arising subsequent to December 31, 1971, will not be reported in the income statement but rather as adjustments to capital surplus. It is the intention of the present Board to report, as adjustments to capital surplus, gains or losses relating to the rail assets, which may arise as a consequence of the reorganization of the transportation company, or gains or losses on disposition or nonrail assets, which derive from the use of appraised values in the restatement in connection with the quasi-reorganization.

#### Investments:

The investment in the Company's majority-owned nonrail companies with the exception of Great Southwest Corporation are carried at the Company's equity in the underlying net assets in these companies as of December 31, 1971. However, the carrying value of Clearfield Bituminous Coal Corporation has been adjusted as described in Note 3b. Because Great Southwest Corporations' liabilities exceed its assets as reflected in its financial statements the investment in common and preferred stock of Great Southwest Corporation is carried at nominal value. Other investments are generally carried at fair market value at December 31, 1971 based on quoted market prices or as determined by independent appraisers in connection with the quasi-reorganization and are further described in Note 2.

#### NOTE 1 - PENN CENTRAL TRANSPORTATION COMPANY REORGANIZATION

The transportation company, the Company's parent, entered into reorganization proceedings in June 1970 under Section 77 of the Federal Bankruptcy Act. These proceedings have had a significant effect on the financial position and operations of the Company and its subsidiaries relating to the availability of credit and other matters.

#### Dividend Restriction

In response to a petition in 1970 by the banks which hold the pledge of the Company's common stock, the reorganization court ordered that the transportation company as shareholder may not cause the Company to pay any dividends on common stock, or to cause advances or transfers of property, from the Company to the transportation company.

#### Divestiture

The Trustees of the transportation company, appointed in 1970, received Congressional approval for a Department of Transportation guarantee of Trustees' certificates to obtain funds necessary for the continued operation of the transportation company. A condition of such guarantee, when issued, was that the Trustees file a plan with the Secretary of Transportation for the divestiture of the nonrail assets of the transportation company.

#### Divestiture (continued)

All of the Company's common stock is held in pledge to secure a \$300,000,000 loan made by a group of banks to the transportation company in 1969. A petition has been filed in the reorganization court by certain security holders of the transportation company's parent (Penn Central Company) which seeks to have the pledge of the Company's stock to the banks declared invalid. There have been hearings with respect to this petition, but no ruling on this question has been made by the reorganization court.

On the assumption that the pledge is valid, the Trustees entered into a settlement agreement dated as of February 25, 1972 with substantially all of such banks.

The settlement agreement is subject to approval by the reorganization court and applicable regulatory agencies. In July 1972 the Trustees filed a petition in the reorganization court seeking approval of the bank settlement agreement, and there have subsequently been numerous hearings on this petition. Certain creditors and security holders of the transportation company and its parent, a preferred stockholder of the Company, and the United States Government, including the Interstate Commerce Commission have objected to the approval of this transaction.

On April 16, 1973 the reorganization court issued its decision stating that it declined to approve the settlement agreement at that time, but without prejudice to further consideration of it after a hearing scheduled for July 2, 1973 at which the Trustees' plan for reorganization or liquidation of the transportation company is scheduled to be filed.

The settlement agreement between the banks and the Trustees has expired by its terms. The Company cannot predict whether or not it will be extended and presented for further consideration by the reorganization court, nor the result if this occurs. Further, the Company cannot predict the policy which the Trustees will follow with respect to the Company in any reorganization or liquidation plan which is filed with the reorganization court on July 2, 1973.

The following are the principal provisions of the expired agreement between the Trustees and the banks, as amended:

(a) This agreement defines and requires the segregation of the Company's assets into two categories entitled "rail" and "nonrail," as detailed in the accompanying statement of investments.

The rail assets include the Company's investment in various operating railroads and leased lines, all of which constitute a part of the Penn Central transportation system, including three rail investments of Clearfield Bituminous Coal Corporation (Clearfield). All other assets, including securities of Norfolk and Western Railway Company and Wabash Railroad Company, are classified as nonrail. A certain note and certain mortgage bonds of the transportation company, an advance and certain bonds of one of its subsidiaries and the common stock of, or any significant asset owned by, Clearfield are designated as "special" assets and are included in the nonrail category. The Trustees of the transportation company have a right of first refusal to purchase those special assets if such assets are offered for sale.

(b) Prior to the consummation of the agreement, the Company will cause Clearfield to transfer its rail assets to the Company and, in turn, the Company will transfer the stock it owns in each of the rail companies to a wholly-owned subsidiary of the transportation company in exchange for a series of that subsidiary's preferred stock. This preferred stock will be classified as a rail asset and, after the consummation of the agreement, the Company may not sell, pledge, or dispose of such stock or of its other remaining rail assets. All or any portion of this preferred

#### Divestiture (continued)

stock may be redeemed by the transportation companys' subsidiary at any time prior to ultimate distribution following settlement of this agreement.

- (c) Prior to consummation of the agreement the Secretary of Transportation of the United States will be granted two liens on the Company's rail assets, each of which shall be subject and subordinate to any rights of holders of the Company's debt obligations and preferred stock outstanding on the date of such consummation, to secure the Secretary of Transportation's guarantee of \$100,000,000 in principal amount of certificates issued by the Trustees. The amount of the guarantee secured by such liens is determined on the basis of a formula, but provides that the maximum amount covered will be \$13,010.000.
- d) The banks will cancel \$287,000,000 of the claim against the transportation company in exchange for 95-2/3% of the common stock of the Company. The banks will agree not to dispose of the common stock of the Company, without the consent of the Trustees of the transportation company, or cause the Company to make any dividend or other distribution to its common stockholders, for a period of five years following the closing.
- (e) The banks will provide up to \$150,000,000 in equipment financing to the transportation company.
- (f) Prior to the settlement date (the tenth anniversary of the closing), if distributions to the banks have aggregated \$287,000,000, further distributions will be shared equally by the banks and the transportation company.
- (g) At the settlement date, the Company's stock will be valued (excluding any value attributable to rail assets). If the value of the Company's shares transferred to the banks plus distributions theretofor made to the banks exceeds \$287,000,000, the transportation company will receive one-half of the excess over \$287,000,000 (less amounts theretofor paid to the transportation company) and all rail assets.
- (h) After settlement, if the transportation company receives no payment, the rail assets will be valued and conveyed in a manner to be agreed upon, whereby the banks shall receive rail assets having a dollar value equal to the lesser of (i) the arount by which the value of the Company's stock (excluding any value attributable rail assets) at the settlement date plus distributions to the banks is less than \$287,000,000 or (ii) \$50,000,000; and the transportation company shall receive the remainder of the rail assets.

#### NOTE 2 - QUASI-REORGANIZATION:

The changes in nature and composition of a substantial portion of the Company's operations resulting from the reorganization proceedings of the transportation company have led to significant reductions in the carrying values of certain of the Company's investments in 1970 and 1971. The aggregate effect of the aforementioned write-downs would have resulted in adeficit in the retained earnings account. However, in view of these circumstances, the Board of Directors, with the consent of the Company's common shareholder, adopted a "quasi-reorganization" as of December 31, 1971. This is an accounting procedure whereby companies can achieve a "fresh start" for accounting purposes. The procedure involves a revaluation of a company's assets and liabilities, including increases as well as decreases, and the elimination of retained earnings by a transfer from (or to) capital surplus. While the aggregate effect of the aforementioned write-downs would have caused a deficit, the revaluation of all the assets, some of which were increased, caused a balance to remain in the retained earnings account. Accordingly, the balance remaining after the net write-down from revaluation of assets in connection with the quasi-reorganization was transferred to capital surplus.

## NOTE 2 - QUASI-REORGANIZATION (continued)

As a part of the quasi-reorganization, each of the Company's investments was revalued as of December 31, 1971. The following describes the method of valuation used in connection with the respective investment categories:

(a) Investments in Arvida Corporation, Buckeye Pipe Line Company, and Clearfield Bituminous Coal Corporation, majority-owned nonrail subsidiaries of the Company, were revalued at the Company's equity in the underlying net assets of these companies as reflected in their audited financial statements for the year ended December 31, 1971. Because Great Southwest Corporations' liabilities exceed its assets as reflected in its financial statements, the investment in the common and preferred stocks of Great Southwest is reflected at nominal value.

This method of establising the carrying values for these majority-owned companies does not purport to reflect realizable value in the event such investments should be sold or otherwise disposed of.

- (b) The Company's investment in the common stock of Norfolk and Western Railvyy Company, (excluding shares required to be exchanged for Norfolk and Western debentures) and the preferred stock of Wabash Railroad Company, have been revalued at the closing prices of such stock on the New York Stock Exchange on December 31, 1971. The Norfolk and Western debentures and shares of common stock required to be exchanged for such debentures have been revalued at appraised value at December 31, 1971 as determined by Lehman Brothers, who was acting as the Company's financial advisor.
- (c) The Company's investments in other nonrail assets, except as indicated in (e) below, have been revalued at appraised values as determined by Lehman Brothers at December 31, 1971.
- (d) With respect to the rail assets which are involved directly or indirectly in the reorganization proceedings, it is extremely difficult to determine an appropriate carrying value for such investments since a comprehensive plan of reorganization has not been presented as yet to the reorganization court by the Trustees. On the other hand, it seems inappropriate to carry these investments at full historical cost. Appraisals of the fair market values of these assets at December 31, 1971 were obtained from Lehman Brothers, and in certain instances from other independent appraisers. Other estimates of value also exist, but these are based on various assumptions as to the ultimate results of reorganization of the transportation company. Because it is impossible to predict the outcome of the reorganization proceedings and because no other reliable estimate of value was available, the Company's investments in rail assets were revalued on the basis of fair market value at December 31, 1971 as determined by such independent appraisers. It should be noted, however, that there is no market for such interests and, during the pendency of the reorganization proceedings, it is extremely unlikely that such assets could be sold even if there were a willing buyer.
- (e) Prior to the reorganization proceedings of the transportation company, the Company had loaned it \$49,000,000, had advanced \$20,305,000 to American Contract Company, a wholly-owned subsidiary of the transportation company, and had advanced \$33,174,000 to The Philadelphia, Baltimore & Washington Railroad Company, approximately one-third of which is owned by the Company and the remainder by the transportation company. During 1970, provision for loss was made in the entire amount of these advances. Because of the continuing uncertainties involved, no value has been attributed to these advances in connection with the quasi-reorganization. The Company's investments in certain other railroad securities, have been revalued at market value at December 31, 1971.

#### NOTE 2 - QUASI-REORGANIZATION (continued)

Management cautions that the values reflected for both nonrail and rail assets should not be construed as necessarily representative of realizable values either at December 31, 1971 or at the present time, or of ultimate values upon the sale or other disposition of those assets, including any realization on the rail assets in connection with any plan of reorganization of the transportation company.

As a result of the quasi-reorganization, the accounting policies of the Company have been revised from those of prior years. The related accounting and the effect on income and capital surplus in the 1972 accounts are indicated below:

- (a) As described in Note 3d, the difference between the book value and the par value of the Norfolk and Western Railway Company debentures is not being amortized to income. Under pre-quasi accounting, \$1,082,716, reflecting such amortization, would have been recorded in income during 1972.
- (b) Due to the revaluation of the carrying value of the Norfolk and Western Railway Company common stock in connection with the quasi-reorganization, the carrying value of the 21,373 shares exchanged for the Company's preferred stock, as described in Note 6, exceeded the market value at the time of exchange by \$20,247. Under pre-quasi accounting, the market value of such stock would have exceeded the carrying value by \$198,805.
- (c) As described in Note 3b, the Company received cash dividends of \$1.072,500 during 1972 from Clearfield Bituminous Coal Corporation. Under pre-quasi accounting, the entire \$1,072,500 would have been credited against the carrying value of Clearfield as Clearfield has had negative earnings since the Company acquired it in March of 1970. Due to the revaluation of the carrying value of Clearfield in connection with the quasi-reorganization, dividends amounting to \$715,500 have been recognized as income during 1972.
- (d) During 1972, capital surplus has been increased by \$2,734,000 reflecting an increase in the carrying value of Buckeye Pipe Line Company, as described in Note 3a. The cummulative effect of the quasi-reorganization as of December 31, 1972 has been an additional \$13,525,877 credited to capital surplus.

#### NOTE 3 - INVESTMENTS AND ADVANCES

#### (a) Buckeye Pipe Line Company

Certain of the long-term debt agreements of Buckeye Pipe Line Company, the common stock of which is wholly-owned, contain provisions which, among other things, restrict the use of retained earnings, under certain conditions, for the declaration of dividends (other than stock dividends). At December 31, 1971 Buckeye's retained earnings were fully restricted for such purposes, thereby prohibiting the payment of dividends to the Company. In 1972, Buckeye refinanced its most restrictive loan agreement and under the new agreement Buckeye is permitted to pay a maximum of \$6,000,000 annually in cash dividends from earnings accumulated since December 31, 1971.

In 1972, Buckeye changed its tax policy and extended the lives it used for computing the depreciation deduction reported for 1971 Federal income tax purposes. Accordingly Buckeye's provision for deferred taxes for 1971 has been restated in its financial statements reducing it by \$2,734,000. The Company's investment in Buckeye has therefore been adjusted during 1972 to reflect this increase in the Company's equity in the underlying net assets of Buckeye as of December 31, 1971. Because this adjustment related to the Company's quasi-reorganization, capital surplus has been increased by the same amount.

#### NOTE 3 - INVESTMENTS AND ADVANCES (continued)

#### (b) Clearfield Bituminous Coal Corporation

During 1972, the Company received cash dividends amounting to \$1,072,500 from Clearfield. These dividends, however, exceeded Clearfield's 1972 earnings by \$357,000. This excess has been credited against the carrying value of Clearfield as it is the intention of the Company that only dividends out of earnings after the quasi-reorganization are to be recognized as income when received.

#### (c) Great Southwest Corporation

By reason of the reorganization of the transportation company and for other reasons, Great Southwest was unable to obtain sufficient financing to support fully all of its projects and operations, as a result of which various projects and operations were discontinued in 1970 and 1971 and defaults occurred on substantial debt obligations. Substantially all of the debt obligations were refinanced in 1972 and at December 31, 1972 Great Southwest was not in default on any of its debt obligations.

During 1971, the Company advanced \$12,000,000 to Great Southwest and received demand notes. The advance was reduced to \$10,000,000 by a repayment of \$2,000,000 on February 29, 1972. On that date, the Company and Great Southwest entered into an agreement whereby the unpaid balance was exchanged for a convertible subordinated note maturing December 31, 1978. The new note is convertible into 5,714,285 shares of Great Southwest common stock at an initial conversion price of \$1.75 per share at any time from March 1, 1973 to an including December 31, 1978. The price and number of shares are subject to change pursuant to antidilution provisions in the note. This note is carried at full value because, in the opinion of management, nothing has occurred which would permanently impair its collectibility. Interest for the year 1972 and the first six months of 1973 is deferred and payable in 18 equal monthly installments commencing July 31, 1973. Consistent with the policy of not recognizing earnings of Great Southwest Corporation until its deficiency in shareholders' equity is eliminated, interest is being recognized as income by the Company only to the extent cash is received.

#### (d) Norfolk and Western Railway Company Securities

The securities of Norfolk and Western Railway Company owned by the Company are subject to various pledges, restrictions, and agreements as noted below:

On October 16, 1964, the Norfolk and Western - Nickel Plate - Wabash Unification Plan became effective pursuant to an order of the Interstate Commerce Commission. As ordered by the Commission, voting rights of the Norfolk and Western common stock have been placed with voting trustees until completion of the Company's divestiture of its Norfolk and Western common stock, which is required by October 15, 1974. During 1969, the Commission approved an extension to the original divestiture period until October 15, 1979 as to the shares reserved for exchange of the 9% debentures as described in Note 5. The Company intends to apply to the Interstate Commerce Commission for modification of the requirement for divestment.

Under on April 1966 agreement with Norfolk and Western, the Company agreed to exchange 800,000 shares of Norfolk and Western common stock which it owned in stipulated installments through June 1974 for \$104,000,000 principal amount of Norfolk and Western 4-5/8% debentures, convertible into Norfolk and Western common stock by any holder other than the transportation company or its affiliates (including the Company). The difference between the cost of the common stock and the

par value of the debentures was being amortized to income ratably over the 15 year life of the debentures following each exchange. In 1971, income of \$867,924 was recognized under this agreement. At December 31, 1971, the \$22,500,000 par value of debentures and the shares remaining to be exchanged under the agreement were restated in the accounts at appraised value in connection with the quasi-reorganization and accordingly, the related amortization has been discontinued. At December 31, 1972 the Company's remaining obligation was to exchange 80,000 shares on June 1, 1973 and a similar amount on June 1, 1974.

The following shares of Norfolk and Western common stock (including shares reserved under the above exchange agreement) were pledged, deposited, or held in escrow at December 31, 1972.

# Obligation Shares restricted 5-1/4% collateral trust bonds 9% sinking fund debentures 4-5/8% cumulative preferred stock (as adjusted for the change in the exchange ratio described in note 7) 156,421 1,384,057

In addition to the above shares of Norfolk and Western common stock, \$9,526,000 par value of the Norfolk and Western 4-5/8% debentures were pledged as security for the Company's Collateral trust serial bonds at December 31, 1972.

At December 31, 1972 there were 15,943 shares of Norfolk and Western common stock and \$23,374,000 par value of the Norfolk and Western 4-5/8% debentures owned by the Company and not pledged or in escrow for exchange.

In order to meet the obligation to exchange 80,000 Norfolk and Western shares on June 1, 1973 referred to above, during the first quarter of 1973 the Company purchased \$2,499,000 in principal amount of its 5-1/4% bonds which will release 99,960 Norfolk and Western shares from pledge.

The closing prices on the New York Stock Exchange at the end of December 1971, December 1972, and March 1973 for the Norfolk and Western shares were \$75.25, \$70.50 and \$66. Drespectively. In connection with the quasi-reorganization, the Company's investment in Norfolk and Western common stock (other than shares reserved for the 1966 exchange agreement) was revalued, to equal the closing price at the end of December 1971.

#### (e) Other Securities Pledged

Other securities pledged as security for obligations of the Company at December 31, 1972 were as follows:

The 22,836 shares of Wabash Railroad Company preferred stock are also required to be divested by the Company by October 1, 1974 pursuant to the aforementioned 1964 order of the Interstate Commerce Commission. The Company also intends to seek modification of this requirement for divestment.

#### (f) Other Securities

The 1,462,109 shares of Madison Square Garden Corporation owned by the Company were appraised at a value of \$3.00 per share at December 31, 1971 in conjunction with the quasi-reorganization, resulting in their being carried at a value of \$4,400,000 on the Company's statements. The closing price of such shares on the New York Stock Exchange was \$3.625 per share on such date and was \$2.375 per share at the end of March 1973.

The Company's investment in Strick, Inc. preferred stock and warrants was appraised at a value of \$6,050,000 at December 31, 1971 in conjunction with the quasi-reorganization. Of this, \$1,000,000 is attributed to a warrant to purchase 375,000 shares of Strick, Inc. common stock at a price of \$6.67 per share, which expires December 31, 1973. The Company does not know whether it will exercise this warrant, or, if it does not, whether or at what price it will be able to sell the warrant.

#### (g) Penn Towers, Inc.

The Company's investment of 9,600 shares or 66-2/3% of the common stock of Penn Towers, Inc. which is carried at nominal value is considered to be temporary and, therefore, is not classified as a majority-owned company. The Company had guaranteed \$5,000,000 of debt of Penn Towers, Inc. As a result of a default on such debt in 1971 by Penn Towers, Inc., a provision was made in the 1971 financial statements for \$3,900,000 to reflect the Company's estimated losses in connection with satisfaction of the guarantee, if ultimately required. In 1972 such debt was refinanced and the Company has guaranteed \$3,900,000 of the new debt.

#### (h) Rail Assets

The reorganization court may permit the Trustees to disaffirm certain leases, including leases of properties of railroad companies owned by the Company. It is not possible to determine the effect, if any, disaffirmation of such leases would have on the carrying value of the Company's investments in such leased lines.

Certain rail assets of the Company currently are under effective control of, and are operated by, the transportation company. Because of their integral relationship to the Penn Central transportation system and to the reorganization proceedings, the Company believes such assets will continue to be effectively controlled by the transportation company.

#### NOTE 4 - PAYABLE TO BANK

The Company failed to pay a \$50,000,000 bank loan due in June 1970, a portion of the proceeds of which was loaned to a subsidiary of the transportation company and the remainder used to purchase Clearfield Bituminous Coal Corporation. The reduction of the principal amount to the present balance of \$45,200,000 resulted from the lenders offsetting funds of the Company on deposit with them. Two pending actions, instituted by security holders of the Company in which the Company is a nominal defendant, seek to have the loan declared not to be an obligation of the Company. The Company is paying interest currently on the loan, without prejudice to its rights as ultimately determined in such litigation.

#### NOTE 5 - LONG-TERM DEBT

Principal payments and sinking fund requirements (after deducting bonds which have been repurchased as of December 31, 1972) for the next five years are as follows:

| 1973 | \$2,000,000 |
|------|-------------|
| 1974 | 1,800,000   |
| 1975 | 4,400,000   |
| 1976 | 2,000,000   |
| 1977 | 3,000,000   |

Investments with a carrying value of \$188,459,202 have been pledged as security for loans or are otherwise restricted (see note 3).

At the option of the holders of the 9% sinking fund debentures, each \$1,000 debenture may be exchanged for 12.2 shares of Norfolk and Western Railway Company common stock until April 15, 1979. This exchange rate is subject to adjustment under certain conditions specified in the indenture. In the opinion of counsel, no such adjustment is required. The Company is required under the terms of the indenture to maintain net tangible assets, as defined, of at least 300% of all funded debt which is not subordinated to such debentures. Net tangible assets at December 31, 1972 exceeded the amount which the Company was required to maintain.

The 4-5/8% cumulative preferred stock similarly limits the amount of funded debt which may be incurred by the Company, but in an amount which at December 31, 1972 was less restrictive than that described above.

#### NOTE 6 - PREFERRED STOCK

Beginning in 1974, the Company will be required to provide as an Annual Retirement Fund, a fund sufficient to retire 35,295 shares annually of its 4-5/8% cumulative preferred stock, \$100 par value at par plus unpaid dividends and a premium of \$5.00 per share in 1974, which decreases in equal annual amounts to \$2.50 per share in 1979. The Company is allowed a credit (at such redemption price) against any Annual Retirement Fund payment for any shares of preferred stock reacquired or redeemed which have not theretofor been used for such purpose. As of December 31, 1972, the accumulated credit was equivalent to 501,847 shares of preferred stock. In addition, the preferred stock is redeemable at the option of the Company at any time at par plus unpaid dividends and a premium of \$8.50 per share to July 1, 1973 which decreases in equal annual amounts to \$5.00 per share in 1979.

At the option of the holder, the preferred stock is exchangeable into shares of Norfolk and Western Railway Company common stock. The initial exchange rate was .7299 of a share of Norfolk and Western for each share of preferred stock. Pursuant to the anti-dilution provisions contained in the Company's certificate of incorporation, in June 1972 the Company's Board of Directors adjusted the exchange ratio (because of certain actions taken by Norfolk and Western in 1968) to .7663 of a share of Norfolk and Western for each share of preferred stock. This adjustment was based on an opinion of the Company's counsel, which reached a different conclusion than opinions previous counsel had given to the Company. The Company has placed an additional 6,704 shares of Norfolk and Western common stock into an escrow to satisfy future exchange requirements. Provision was made in 1971 for the estimated liability to shareholders who exchanged shares prior to December 31, 1971.

#### NOTE 6 - PREFERRED STOCK (continued)

During 1972, 28,478 (162,136 in 1971) shares of preferred stock were exchanged for 21,373 (118,212 in 1971) shares of Norfolk and Western common stock. A loss of \$20,247 was recognized through this exchange, which loss represents the aggregate amount by which the carrying value of the Norfolk and Western common stock exceeded the market value at the time of exchange. In 1971 a gain of \$1,220,297 was recognized. Additionally, the aggregate difference, \$1,255,257 (\$7,298,345 in 1971), between the par value of preferred shares tendered and the market value of Norfolk and Western common shares given in exchange was credited to capital surplus.

Five regular quarterly dividends on the Company's preferred stock were omitted commencing with the dividend payable on October 15, 1970. Dividends in arrears amounted to \$1,179,670 (\$5.78 per share) at December 31, 1972. In 1972, the Company paid the dividends on preferred stock when due. On March 1, 1973, the Company's Directors voted to make up one of the five quarterly dividends in arrears. It is the Board of Directors intention, insofar as the Company's situation permits, to make up one past dividend with each subsequent regular quarterly dividend until dividends in arrears have been made up.

Whenever dividends payable on preferred stock are in default for a total of six quarters, the holders of preferred shares then outstanding will have the right to elect two new members to the Board of Directors. This right shall continue until such time as all dividends accumulated on preferred stock are paid in full. As long as the Company is in arrears on dividends payable on preferred stock, no dividends, other than stock dividends, may be paid on common stock.

#### NOTE 7 - LITIGATION AND CONTINGENT LIABILITIES

The Company is a defendant in numerous lawsuits instituted since the transportation company entered into reorganization proceedings. In certain of these suits, Penn Central Company, the transportation Company, other affiliated companies, and certain majority-owned companies are also defendants. There are generally four categories of legal actions in which the Company is a party: (a) actions by preferred shareholders or debt holders of the Company, some derivative and in effect on behalf of the Company, and others against it, charging that the former management of the Company, the transportation company, and others caused the Company to enter into various transactions which did not serve any proper Company purpose or wrongfully disadvantaged the Company; (b) actions against the Company, the transportation company, and others based on alleged misrepresentations or omissions in financial and other published information; (c) actions against the Company and others alleging improper conduct in connection with the Company's exercise of control over a majority-owned company to the detriment of such company and its minority stockholders or alleging that the Company is obligated to pay claims made against a majority-owned company; and (d) actions against the Company, a majority-owned company and others alleging misrepresentations or omissions in financial and other information furnished in connection with the offering of certain limited partnership interest and breach of contract. The aggregate amount of damages claimed against the Company substantially exceeds its total shareholders' equity.

The Company is aware of the possibility that claims may be asserted against it in connection with the nonpayment by The Pittsburgh, Youngstown & Ashtabula Railway Company of interest on its debt and dividends on its preferred stock. Such interest and dividends may be claimed to be payable out of funds allegedly owing to The Pittsburgh, Youngstown & Ashtabula by the Company. No suits have as yet been filed, and it is the Company's intention, based upon advice of counsel, to aggressively defend any such suits which may be filed.

#### NOTE 7 - LITIGATION AND CONTINGENT LIABILITIES (continued)

Investigations into a number of transactions and activities of Penn Central Company, its affiliates, its former officers and directors, and others, some of which relate to the Company and certain of its majority-owned companies, are being conducted by certain governmental agencies, including the Securities and Exchange Commission, and/or the Trustees of the transportation company.

There presently is not sufficient information to predict whether additional claims will be made against the Company based on actions by its former management or by the former management of its majority-owned companies or to predict the likely ultimate outcome of the litigation and investigations, or to determine the effect, if any, of such outcome on the financial condition of the Company. Consequently, no provision has been made therefor in the accompanying financial statements.

## NOTE 8 - COMMISSION APPROVAL

By letter dated June 21, 1972 the Company requested approval of the Commission, Accounting and Valuation Board, for the following items in connection with its 1971 annual report:

- 1. Include a net adjustment from revaluation of assets in connection with a quasi-reorganization in the amount of (\$90,150,863) in account 570 extra-ordinary items.
- 2. Debit account 798 retained income unappropriated by an amount of \$10,791,877 (leaving a balance of zero as of the beginning of 1972) and credit account 795 paid in surplus to affect the quasi-reorganization.

The 1971 annual report was prepared and filed incorporating the above request and was subject to the Commission's approval.

The Commission, Accounting and Valuation Board, voted on August 16, 1972, to approve the Company's request subject to certain conditions. The Company is presently discussing these conditions with the Commission.

This 1972 Annual Report has been prepared assuming the Commission's approval of the values determined in connection with the quasi-reorganization.

#### 201. ITEMS IN SELECTED CURRENT ASSET ACCOUNTS

Give brief description for each item or class of items of like description in accounts Nos. 702, "Temporary cash investments"; 703, "Special deposits"; 704, "Loans and notes receivable"; 709, "accrued accounts receivable"; 711, Prepayments; and 712, "Other current assets," at the close of the year. Show description of the temporary cash investments, the names of depositaries for the special deposits, the character of loans and notes, with name of debtor (or class of debtors), dates of issue and maturity, and appropriate description for each class of accrued accounts receivable and for the other current assets. Show each item (or

Funds representing net credit balances of earmarked incentive per diem

should be reported separately for each year. The amount of income earned on these funds should be reported in footnote to this schedule. Wholly owned Canadian subsidiary lines should subdivide the earmarked funds between monies received from Canadian parent companies as a result of incentive charges and the carrier's own credit balances.

#### GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 206 AND 206

- 1. Schedules 205 and 206 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year specifically as investments including obligations of the United States, of a State or local government, or of an individual, so held; investments made, disposed of, or written down during the year; and dividends and interest credited to income. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing account No. 721, "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.
- 2. These investments should be subdivided to show the par value pledged, unpledged, and held in fund accounts. Under "pledged" include the par value of securities recorded in accounts Nos. 721, "Investments in affiliated companies," and 722, "Other investments," which are deposited with some pledgee or other trustee, or held subject to the lien of a chattel mortgage, or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction, recorded in the accounts mentioned above. Under "In sinking, insurance, and other funds" include the par value of securities recorded in accounts Nos. 715, "Sinking funds"; 716, "Capital and other reserve funds"; and 717, "Insurance and other funds."
  - 3. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order;
    - (A) Stocks:
      - (1) Carriers -active.
      - (2) Carriers-inactive.
      - (3) Noncarriers-active.
      - (4) Noncarriers-inactive.
    - (B) Bonds (including U. S. Government Bonds):
    - (C) Other secured obligations:
    - (D) Unsecured notes:
    - (E) Investment advances:
  - 4. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A),
- 5. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:
  Symbol Kind of industry

Kind of industry Agriculture, forestry, and fisheries. Mining. H III Construction. IV Manufacturing. V Wholesale and retail trade. VI Finance, insurance, and real estate. Transportation, communications, and other public utilities. VII VIII Services. IX Government, All other.

- 6. By carriers, as the term is here used, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 7. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 8. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

9. Any balance in account 723, Reserve for adjustment of investment in securities - Credit, shall be disclosed by footnote to the securities against which such reserves were established.

#### 205. INVESTMENTS IN AFFILIATED COMPANIES-Continued

6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.

7. For nonpar stock, show the number of shares in lieu of the par value

in columns (f), (g), (h), (i), (k), and (m).

8. In reporting advances, columns (f), (g), (h), (h), (h), and (m) should be left blank. If any advances are pledged, give particulars in a footnote.

9. Particulars of investments made, disposed of, or written down during

the year should be given in columns (k) to (o), inclusive. If the cost of any investment made during the year differs from the book value reported in column (l), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments was other than cash, describe the transaction in a footnote. Identify all entries in column (n), which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

 This schedule should not include securities issued or assumed by espondent.

#### 206. OTHER INVESTMENTS-Continued

in common use in standard financial publications may be used where necessary on account of limited space.

- 6. For nonper stock, show the number of shares in lieu of the par value in columns  $(\epsilon)$ , (f), (g), (h), (f), and (f).
- 7. In reporting advances, cosumns (e), (f), (g), (h), (f), and (f) should be left blank. If any advances are pledged, give particulars in a footnote.

8. Particulars of investments made, disposed of, or written down during the year should be given in columns (j) to (n), inclusive. If the cost of any investment made during the year differs from the book value reported in column (k), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such investments was other than cash, describe the transaction in a footnote. Identify all entries in column (m) which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 211 ON PAGES 30 and 31

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should, insofar as known, be stated in column (h) and all changes made during the year should be analyzed in columns (h) to (h), inclusive. Column (j) is the aggregate of columns (h) to (h), inclusive. Grand totals of columns (h) and (j) should equal the sum of accounts 731 and 732 for the respective periods; if not, full expanation should be made in a footnote.
- 2. It column (c) are to be shown discursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.
- 3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
- In columns (e) and (f), should be included all entries covering expensitures for additions and betterments, as defined, whether replacing other property or not,
- 5, in column (/) show particulars for improvements made on property held under lease or other form of long-term contract and not charged to the owning company,
- In columns (y) and (h) should be entered all credits representing property sold, abandoned, or otherwise retired.

- 7. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 8. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.
- 9. Report on line 35 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.
- 10. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 11. If an amount of less than \$500 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

#### 211A. OTHER ELEMENTS OF INVESTMENT

"Other elements of investment," during the year.

2. In column (b) show the account number to which the entries in column (c) were credited and the account number to which the entries in

1. Give particulars and explanation of all entries in account No. 80, column (d) were charged. If more than one contra account is involved in an item, the amount applicable to each account and total for the item should be shown.

## 211B. DEPRECIATION BASE AND RATES-ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

1. Show in columns (b) and (e), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (c) and (!) show the depreciation base used in computing the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment, used but not owned, when the rents therefor are included in the rent for equipment accounts Nos, 536 to 540, inclusive. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment accounts Nos, 503 to 507, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be

shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

 All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account 542. Report data applicable to improvements to such property, the cost of which is included in account 732, in columns (b), (c) and (d).

4. If the depreciation base for accounts 1, 21/2, 3, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals

should be shown in a footnote indicating the account(s) affected.

#### 211C. DEPRECIATION BASE AND RATES-BOAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in account No. 509.

2. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used in computing the depre-

ciation for the Sonth of December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used in computing the depreciation for December and dividing the total so computed by the depreciation base.

4. If the depreciation base for accounts 1, 2½, 3, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in aupport of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

## 211D. DEPRECIATION REMERVE-ROAD AND EQUIPMENT OWNED AND USED

1. Give the particulars called for hereunder with respect to credits and debits to account No. 735, "Accrued depreciation—Read and Equipment," during the year relating to road and equipment owned and used. This schedule should not include any entries for depreciation of equipment, used but not owned, when the rents therefor are included in the rent for equipment accounts Nos. 536 to 540, inclusive. It should include entries for depreciation of equipment owned but not used when the rents thereform are included in the rent for equipment accounts Nos. 503 to 507, inclusive. (See schedule 211F for the reserve relating to road and equipment owned but not used by the respondent.) If any

entries are made for "Other credits" or "Other debits," state the facts occasioning such entries. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."

 If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

3. All credits or debits to the reserve representing amortization other than for defense projects, if a general amortization program bas been authorized, should be entered on line 29.

#### 211F. DEPRECIATION RESERVE-ROAD AND EQUIPMENT LEASED TO OTHERS

1. This schedule is to be used in cases where the depreciation reserve is tarried in the accounts of the respondent, and the rent therefrom is included in account No. 509.

2. Give the particulars called for hereunder with respect to credits and debits to account No. 735, "Accrued depreciation—Road and Equipment," during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses

of the respondent. (See schedule 211D for the reserve relating to road and equipment owned and used by the respondent.)

3. If any entries are made for "Other credits" and "Other debits," state the facts occasioning such entries. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."

#### 216. OTHER ASSETS AND DEFERRED CHARGES

Give description and particulars for each item or class of items of like description in a socients Nos. 741, "Other assets," and 743, "Other deferred charges," at the close of the year. Show debtor (or class of debtors) for deferred assets and appropriate description for items or class of items of like description) amounting to \$100,000 or more. Each item or class of items of like description amounting to less than \$100,000 may be

combined into a single entry designated "Other items, each less than \$100,000." The entries for each account shall be listed and the account number and the total for each account shall be shown corresponding to the amounts in Schedule 200A. In case the character of any item is not fully disclosed by the entries in the columns hereunder, make a full explanation in a footnote.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 218 ON PAY ES 48, 49, 50 AND 51

Give particulars of the various issues of securities in accounts Nos. 765, "Funded debt unmatureá," 768, "Debt in default," 767, "Receivers' and trustees' securities," 766, "Equipment obligations," and 764, "Equipment obligations and other debt due within 1 year," at the close of the year, together with interest accrued and interest paid during the year and total amount of matured interest in default. Include receipts outstanding for funded debt with their respective issues. List entries under captions of account numbers and titles, and insert total for each account.

In column (a) show the symbol and name, and account number of each bond or other obligation according to the following designations in the numerical order given, and give a total for each such numerical alphabetical and each numerical group and for each account:

- (1) MORTGAGE BONDS:
  - (6) With fixed interest.
  - (b) With contingent interest.
- (2) COLLATERAL TRUST BONDS:
  - (c) With fixed interest.
  - (b) With contingent interest.
- (3) Unsecured Bonds (Debentures):
  - (a) With fixed interest.
  - (b) With contingent interest.
- (4) EQUIPMENT OBLIGATIONS:
  - (a) Equipment securities (Corporation).
  - (b) Equipment securities (Receivers' and Trustees').
  - (c) Conditional or deferred payment contracts.
- (5) MISCELLANEOUS OBLIGATIONS.
- (6) RECEIVERS' AND TRUSTEES' SECURITIES (Other than equipment obligations).
- (7) SEORT-TERM NOTES IN DEFAULT.

Columns (f), (g), (h), (i), and (j) are intended further to classify the obligations of the company and are to be answered "yes" or "no." If an issue is a cerial issue, the last date of maturity should be shown in column (c) preceded by the letter "S." If the payments required in the

contracts for equipment obligations are unequal in amount (except for the last payment) or are to be made at irregular intervals, show a symbol against the entry made in column (c) opposite the name of such obligations and give particulars in a footnote.

If the issue is an income bond, the entry in column (d) should be the annual maximum rate of interest specified by the indenture. In column (k) show the approximate number of miles of road on which the mortgage is a direct first lien and in column (l) the approximate number of miles of road on which the mortgage is a direct junior lien. Do not consider any road or other property indirectly subject to either a first or junior lien through the pledge of collateral, leaseholds, or other contractual rights in making the returns required in columns (i), (j), (k), and (l).

In column (m) enter the amount of debt both nominally and actually issued up to the date of the report and not the amount authorized. In the event debt is assumed, column (m) should include the amount of debt issued by the original debtor.

No entries shall be made in this schedule with respect to issues of matured obligations nominally issued or nominally outstanding when no parts of such issues are actually outstanding.

For definitions of "nominally issued," "nominally outstanding," "actually issued," and "actually outstanding," see schedule 228.

Entries in columns (v) and (w) should include interest accrued on funded debt reacquired, matured during the year, even though no portion of the issue is outstanding at the close of the year.

In column (y) enter the total in account No. 781, "Interest in default," at the close of the year.

The grand totals of columns (n) and (r), when combined, should equal the sum of the amounts stated in short column (b<sub>2</sub>) for accounts Nos. 764, 765, 766, 767, and 768 in schedule 200L, "Comparative General Balance Sheet—Liabilities and Shareholders' Equity."

On page 51 give particulars of changes during the year in funded debt and other obligations. In column (z), state whether issued for construction of new properties, for additions and betterments, for purchase of railroad or other property, for conversion, for acquisition of securities, for reorganization, or for other corporate purposes. Also, give the number and date of authorization by the public authority under whose control such issue was made, naming such authority. For nominally issued securities, show returns in columns (z) and (aa) only.

For each class of securities actually issued, the sum of the entries in columns (bb) and (cc), plus discounts or less premiums, such discounts or premiums to be shown in a footnote applicable to each issue, should equal the entry in column (aa). For definition of expense, reportable in column (cc), see Definition 10 in the Uniform System of Accounts for Railroad Companies.

For each class of securities actually issued or assumed, the sum of the entries in columns (bb) and (cc), plus discounts or less premiums, such discounts or premiums to be shown in a footnote applicable to each issue, should equal the entry in column (aa). For definition of expense, reportable in column (cc), see Definition 10 in the Uniform System of Accounts for Railroad Companies.

Particulars concerning the reacquirement of securities that were actually outstanding should be reported on pages 50 and 51, columns (a), (dd), and (ee). Include those securities that have been called for payment during the year for which liability has been transferred to account No. 763, "Other current liabilities."

accruels.

1. Give particulars concerning interest payable, accrued, paid, and accumulated and unpaid on the securities having contingent interest provisions classified as (1) Mortgage Bonds, (2) Collateral Trust Bonds, and (3) Unsecured Bonds (Debenbures), in schedule 218, "Funded Debt and Other Obligations,"

2. In columns (a), (b), and (c) state the name, amount, and nominal rate of interest shown in columns (a), (v), and (d), respectively, in schedule 218, for each security of the kind indicated. List the names of such securities in the same order as in schedule 218.

3. In column (d) show the amount of interest payable for the year at the nominal rate, if earned, on all of the bonds outstanding at the close of the year plus those retired during the year.

4. In column (e) show the amount of interest charged to the income, account for the year.

5. In column (f) show the difference between columns (d) and (e).
6. In columns (h), (i), and (j) show the amounts of interest actually paid during the year, segregated in columns (h) and (i) between payments applicable to the current year's accruals, and those applicable to past

7. In column (k) enter the maximum accumulation of unpaid interest as provided for in the bonds.

8. In column (1) show the sum of unearned interest accumulated under the provisions of the security plus the earned interest unpaid at the close of the year.

9. In the second section of this schedule show the particulars of the several items on the same line and in the same order as in the first section.

#### 222. AMOUNTS PAYABLE TO AFFILIATED COMPANIES

Give full particulars of amounts payable by the respondent to affiliated companies, as defined in connection with account No. 769, "Amounts payable to affiliated companies." in the Uniform System of Accounts for Railroad Companies. If any such amounts are evidenced by notes, each note should be separately shown in column (a). Entries in columns (c) and (f) should include interest accruals and interest payments on debt retired during the year, even though no portion of the debt remained outstanding at the close of the year. Show, also, in a footnote, particulars of interest charged to cost of property.

NOTES AND REMARKS RAILBOAD CORPORATIONS-OPERATING-A.

# 228. CAPITAL STOCK

Give particulars of the various issues of capital stock of the ! respondent, distinguishing separate issues of any general class, if different in any respect.

In the second section list particulars of the various issues on the same lines and in the same order as in the first section.

Identify the entries in columns (m) to (s), inclusive, in a manner which will indicate whether par value or the number of shares is shown.

In stating the date of an authorization the date of the latest assent or ratification necessary to its validity should be shown; e. g., in case an authorization is required to be ratified by stock-holders after action by the board of directors, but is not required to be approved by any State or other governmental board or officer, give the date of approval by stockholders; if the assent

of a State railroad commission or other public board or officer is necessary, give the date of such assent, or if subsequent to such assent notice has to be filed with a secretary of state or other public officer and a tax or other fee has to be paid as a condition precedent to the validity of the issue, give the date of such payment. In case some condition precedent has to be complied with after the approval and ratification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith.

For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually

issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent under such circumstances as require them to be considered as held alive, and not canceled or retired, they are considered to be nominally outstanding.

Column (d) refers to the initial preference dividend payable before any common dividend; columns (k) and (l) to participations in excess of initial preference dividend; at a specified percentage or amount (nonpar stock) (column (k)) or a percentage or proportion of the profits (column (1)).

#### 233. CONTINGENT ASSETS AND LIABILITIES

1. Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with Instruction 6—6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the accounts of the respondent and the value of the item amounts to \$100,000 or more. If an actual monetary amount is not known and an estimate of the amount of any item involved is not feasible, disclosure should be made describing the contingency and explaining why an estimate is not determinable.

Examples of contingent liabilities are items which may become obligations as a result of pending or threatened litigation, assessments or possi-

# 300. INCOME ACCOUNT FOR THE YEAR-Continued

"proprietary" company for which no separate operating report is rendered, appropriate entries in column (4) should be made by road (C). If a leased road is assigned to another company for operation, the rent paid should be offset by the rent received. The examples indicated should not taken to exclude others of a similar nature.

3. Returns for the year reported on lines it or 25, inclusive, should be analyzed in columns (c) to (k) in accordance with the Commission's rules governing the separation of operating

expenses between freight and passenger service, rathroads.
4. Any unusual accruals involving substantial amounts included in column (b) on lines 9 to 63, inclusive, should be fully explained in a footnote.
5. All contra entries bereunder should be indicated in parenthesis.

NOTES AND REMARKS

## INCOME ACCOUNT FOR THE YEAR-EXPLANATORY NOTES

The space below is provided for the purpose of disclosing additional information concerning items of income for the current year. Each carrier shall give the particulars of items herein. Enter in separate notes with suitable explanation, amounts included in income accounts in in connection with any unusual and material accrual or changeover in accounting practice, and other matters of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles. Minor items which have no consequential

effect on net income for the year need not be reported. If carrier has nothing to report, insert the word "None". The tax consequences of use of accelerated depreciation and tax guideline service lives, the investment tax credit, as well as other unusual and significant tax items and matters, are to be disclosed in Schedule 350, under Section C pertaining to analysis of Federal income taxes. The explanation of items included in accounts 570, "Extraordinary items"; 580, "Prior period items"; and 590, "Federal income taxes on extraordinary and prior period items" are to be disclosed in Schedule 396, page 92.

## 308. DIVIDEND APPROPRIATIONS

i. Give particulars of each dividend declared. For par value or nonpar stock, show in column (d) the respective total par value or total number of shares on which dividend was declared and the corresponding rate percent or per share in column (b) or (c). If any such dividend was payable in anything other than cash, explain the matter fully in a footnote.

If an obligation of any character has been incurred for the purpose of procuring funds for the payment of any dividend or for the purpose of replenishing the treasury of the respondent after payment of any dividend, give full particulars in a footnote. If any class of stock received a return not reportable in this schedule, state the particulars of the case in a footnote.

3. The sum of the dividends stated in column (e) should equal the amount shown in schedule No. 305.

## 310. RAILWAY OPERATING REVENUES

- 1. State the railway operating revenues of the respondent for the year classifying them in accordance with the Uniform System of Accounts for Railroad Companies and distribute the amounts among the classes of service as indicated. In the absence of records separating revenues between freight and passenger trains, the distribution should be estimated on the basis of the best data available.
- 2. Assign rail-line revenues, including revenues from water transfers and highway motor vehicle operations, to "Freight service" or to "Passenger and allied services" according to the type of train (or other equipment) by which the traffic moved.
- 3. Incidental revenues should be assigned as provided for in the schedule.
- 4. Revenues which are not assignable to freight service or to passenger and allied services are includible in column (s) only in cases where the related operating expenses are reportable in column (i) of schedule No. 320. If the expenses are assigned to the classes of service mentioned, the revenues, likewise, should be distributed on an equitable basis.
- Any unusual accruals involving substantial amounts included in column (b) should be fully explained in a footnote.

## 351. RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report hereunder a reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruais. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount.

3. If the respondent is a member of a group which files a consolidated Federal tax return, reconcile reported new income with taxable net income as if a separate return were to be filed, indicating however, intercompany amounts to be eliminated in such consolidated return.

#### 371. INCOME FROM LEASE OF ROAD AND EQUIPMENT

- 1. Give particulars called for with respect to road and equipment leased to others during the year, the rent of which is includible in account No. 509, "Income from lease of road and equipment."
- 2. If the respondent leased to others during all or any part of the year any road and equipment upon which no rent receivable accrued, give particulars in a footnote. Properties leasing at less than \$100,000 per annum may be combined under a single entry designated, "Minor items, each less than \$100,000 per annum."

#### 371A. ABSTRACT OF TERMS AND CONDITIONS OF LEASES

Give brief abstracts of the terms and conditions of the leases under which the above-stated rents are derived, showing particularly (1) the date of the grant. (2) the chain of title (in case of assignment or subletting) and dates of transfer connecting the original parties with the present parties, (3) the basis on which the amount of the annual rent is determined, and (4) the date when the lease will terminate, or, if the date of termination has not yet been fixed, the provisions governing the termination of the lease. Also give reference to the Interstate Commerce Commission's authority for the lease, if any. If none, state the reasons therefor.

Copies of leases may be filed in lieu of abstracts above called for. References to copies filed in prior years should be specific.

If the respondent has any reversionary interest in railroad property from which it derives no rent, pive the particulars hereunder; if it has no such reversionary interest, state that fact.

Note.—Only changes during the year are required.—Indicate the year in which reference was made to the original lease, and also the year or years in which any change in lease was mentioned.

#### 372. MISCELLANEOUS RENT INCOME

Give particulars of rents receivable accrued for use of all properties not otherwise specified under rents receivable. This account is for rent income from property not operated by the respondent but the cost of winch is properly included in cost of road and equipment. It should not be confused with operating revenue account No. 142, "Rents of buildings and other property", which is for rent revenue from operated property

in road and equipment the cost of operation of which cannot be separately stated.

Properties renting at less than \$100,000 per annum may be combined under a single entry designated "Minor items, each less than \$100,000 per annum."

## 375. SEPARATELY OPERATED PROPERTIES-PROFIT OR LOSS

Give particulars of the several separately operated properties of companies having a corporate existence separate and distinct from that of the respondent, the profits or losses resulting from the operation of which are receivable or payable in whole or in part by the respondent, and for each such separately operated property state the amount of such profits or losses accrued to the respondent during the year. Separately operated property

erties, each having a profit or loss accrued to respondent of less than \$100,000 during the year, may be combined under a single entry designated "Minor items, each less than \$100,000."

No dividends or other returns on securities held by or for the respondent should be shown hereunder nor any interest on construction advances or other leaves.

# 376. HIRE OF FREIGHT CARS

1. Show a recapitulation of the total amounts credited and charged during the year to hire of freight cars on account of freight cars leased, freight cars interchanged, private and individual cars, auto racks and highway trailers. The difference between the total amount receivable and the total amount payable should be entered as a balance, receivable or payable as the case may be, and should be consistent with the entry for hire of freight cars in the Income Account, on page 300.

2. In column (b) show the total car-miles, both loaded and empty whether paid for on loaded and empty basis or loaded basis only. Car-miles, loaded and empty, reported in column (b), lines 1 through 4, relate to total car-miles incurred on lines of respondent by cars rented on a mileage basis, for which payments are reported in columns (d) and (f). Exclude from lines 1 through 4, data applicable to TOFC and COFC cars and cars rented on a combination mileage and per diem\* basis. These exclusions should be reported in lines 5 and 6 through 16.

3. On line 5, column (b), enter the total miles 5 and 6 through 16. incurred on lines of respondent by TOFC and COFC cars for which payments are reported in columns (d) and (f). In columns (c) through (f), as applicable, enter the rentals paid for TOFC and COFC cars regardless of basis for charges.

4. On lines 6, 7, and 8 report data applicable to all cars the rentals for which are charged only on a combination mileage and per diemebasis. Car-miles loaded and empty, reported in column (b), lines 6, 7, and 8, relate to total car-miles incurred on lines of respondent by cars rented on a combination mileage and time basis for which payments are reported in columns (d) and (f). Exclude from lines 6, 7, and 8, data reported on lines 1 through 5 and 9 through 16.

5. On lines 9 through 14 report the per diem (time portion) charges applicable to cars rented on a combination mileage and per diem\* basis for which the mileage portion was reported on lines 6, 7, and 8. Report on line 15, columns (c) and (d), the car-days paid for and for which payments were received applicable to the unequipped boxcar charges reported on lines 9 through 12. Report on line 16, columns (c) and (d), the car-days paid for and for which payments were received applicable to cars, other than unequipped box cars, for which charges are reported on line 13.

6. Amounts payable to insurance companies and to other non-carrier companies for lease rental of cars should be included on line 17, column (f). Amounts receiveable from railroads or other carriers for per diem rental of these cars should be reported on lines 6 through 16, column (c).

7. Line 21 refers to the auto racks separate and apart from the cars on which the racks are installed.

\*Combination mileage and per diem refers to cars moving at rates per mile and per day prescribed by the Commission in Docket No. 31358 or updated computations thereof.

## 397. STATEMENT OF CHANGES IN FINANCIAL POSITION

Give the information as requested concerning the source and application of funds during the year. Funds for the purpose of this schedule shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for investment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

#### INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 411

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

- (1) Line owned by respondent;
- (2) Line owned by proprietary companies;
- (3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;
- (4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;
- (5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths should be stated to the nearest hundredth of a mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distances between termini of single or first main track), and in the following columns the lengths of second main track; all other main tracks; passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

Running tracks.—Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.

Way switching tracks.—Station, team, industry and other switching tracks for which no separate service is maintained.

Yard switching tracks.—Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc., not classifiable under "branch lines" as defined below. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

In classifying line between main and branch (column (c)), use the distinction usually followed by respondent. Branch lines are distinguished from industrial tracks or yard tracks and sidings in that branch lines serve one or more stations beyond the point of junction with the main line or another branch line and to or from which stations train service, or its equivalent, is performed.

Class (2) includes each line full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent; but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the eccurities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither sperates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3) except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights but only the rights of a licensee. Include in this class, also, all main tracks, industrial racks and sidings own if by noncarrier companies and individuals when the respondent operates over them, but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

# 414. TRACKS OPERATED AT CLOSE OF YEAR

(For switching and terminal companies only)

Give particulars of all tracks operated by the respondent at the close of the year.

Classify the tracks as follows:

(1) Tracks owned by the respondent;

(2) Tracks operated by the respondent but owned by the respondent's proprietary corporations;

(3) Tracks operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;

(4) Tracks operated under contract or agreement, or where the rent is contingent upon earnings or other consideration, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent;

(5) Tracks operated under trackage rights. Name all the tracks of each class before any of a later class, and insert in column (a) before the name of each owner the figure (and letter, if any) indicating its class in accordance with the preceding classification.

Give subtotals for each of the several numbered classes. Class (1) includes all tracks operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line full title to which is in an inactive proprietary corporation of the respondent (i. e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent; but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (%) except that the rent reserved is conditioned upon earnings or other fact.

Class (5) includes all tracks operated and maintained by another company but over which the respondent has the right to operate some or all of its trains. In the tracks of this class the respondent has no proprietary rights but only the rights of a licensee. Include in this class, also, all main tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them.

Lengths should be stated to the nearest hundredth of a mile. Tracks belonging to an industry for which no rent is payable should not be reported.

Tracks held by the respondent as joint or common owner or a joint lesses or under any joint arrangement should be shown in its appropriate class and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached, and full particulars showing all of the joint or common title holders, and the extent of their respective interests should be shown in a memorandum attached to the schedule.

# 417. INVENTORY OF EQUIPMENT

Instructions for reporting locomotive and passenger-train car data, pages 100 and 101:

 Give particulars of each of the various classes of equipment which respondent owned or lessed during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (1); units temporarily out of respondent's service and rested to others for less than one year are to be included in column (h); units rested from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a selfpropelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hosiler controls for independent operating at terminals.

S. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are selfpropelled are to be included as self-propelled equipment.

6. A "Diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power from an overhead contact wire of third rail, and use the power to drive one or more electric motors that propel the vehicle. An "Other" unit includes all units other than die-

sel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification.

7. Column (k) should snow aggregate capacity for all units reported in column (j), as follows: For locemotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes), or tractive effort of steam locomotive units; for passenger-train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

6. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.

NOTES AND REMARKS

## 421. HICHWAY MOTOR VEHICLE OPERATIONS

Give particulars of highway motor vehicles operated by respondent in revenue and nonrevenue service and of revenue traffic handled for the respondent by others under contractual arrangements,

In reporting highway motor vehicle miles in line-haul service, show the mileage of buses and combination bus-trucks on line 8; the mileage of trucks and of bogies, trailers and semitrailers with trucks on line 9; and the mileage of tractors and of bogies, trailers and semitrailers with tractors on line 10. Vehicle miles in terminal service should be reported on lines 12 and 13.

In reporting traffic carried and traffic handled 1 mile on lines 14 to 21, and on lines 40 to 45, both inclusive, show the total number of ions and ton-miles of revenue freight in column (i) and the total number of passengers carried and passenger-miles in column (c), regardless of the class of vehicle used to perform the transportation service.

In reporting highway motor vehicles in nonrevenue service include those used in maintenance, shops, and storehouses, and transportation of company material; also buses used for transportation of company employees. Exclude automobiles used by officials and employees.

ANNUAL REPORT 1972 FORM E 3 OF 3 PENNA. CO. 310040

- 1. A highway grade crossing is to be regarded as a single crossing of all of the tracks when the adjacent owned or leased right(s) of way of the railroad(s) at the point of intersection with a publicly maintained highway, street or avenue at the same grade to the extent that the tracks are located within the limits of a single set of grade crossing signs or protective devices having an integrated set of actuating circuits.
- 2. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads or driveways not dedicated to public use. All crossings of tracks at grade with public roads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not have track is located on railroad right-of-way.
- 3. A private grade crossing which becomes public during the pair should be reported as a new grade crossing. A grade crossing of a dual or multi-lane highway should be reported as one crossing, in the classification of protection, a crossing having more than one of the classes of protection listed below should be reported once only, using the furthest left column that

applies. To avoid duplicate reporting of jointly owned, jointly maintained or jointly used crossings, one railroad shall be designated the reporting road by mutual agreement of the interested parties.

4. In columns (b) and (c) include grade crossings with or without audible signals. In columns (d) and (e) include grade crossings with or without any type of audible or visible supplemental device. Exclude from columns (f) and (g) those crossings where train movement is protected only by a member of the train crew. Audible signals reportable in column (h) include any train-actuated bell, whistle, siren or other audible device located adjacent to the crossing. Other automatic signals reportable in column (i) include wigwags, Highway Traffic Signals or special types of train-activated devices with or without audible supplements. Include in column (l), in addition to "Railroad Crossing" crossbuck, any other static sign (except "Number of Tracks" sign) or any non-train-actuated signal such as amber continuous-flashing lights. In column (m) report other than railroad crossbuck. Totals in column (o), lines 38 and 39, should be equal, resulting in no change in the total number of crossings.

#### 511. GRADE SEPARATIONS

## HICHWAY-RAILROAD

1. (a) A highway-railroad grade separation is to be regarded as a single crossing of all of the tracks within the owned or leased rightof-way or contiguous rights-of-way of the railroad(s) at the point of intersection with a publicly maintained highway, street or avenue at separate grades.

(b) Not to be included are structures which grve some major purpose other than the avoidance of conflict of railway movements with highway movements and which contain no design features required for accommodation of the intersecting traffic flow as in the case of major tunnels.

(c) In order to avoid duplicate reporting and possible confusion, in reporting grade separations used or maintained by more than one railroad, the interested parties in each case should designate one line to be the reporting railroad,

2. All separated crossings of tracks with public roads and streets should be included if any railroad operations are conducted thereover by the reporting company whether or not the 'rack is located on railroad owned right-of-way.

3. Not to be included are crossings of tracks with private roads leading to or within industrial plants, or with other roads not dedicated to public use.

4. A private crossing which becomes public during the year should be reported as a new crossing.

5. A crossing of a dual or multi-lane highway should be reported as one crossing.

<sup>1</sup> Total in column (d) should correspond to total number of grade crossings eliminated "By separation of grades", Schedule 510-B, line 36, column (o).

## 513. TIES LAID IN REPLACEMENT

Give particulars of ties laid during the year in previously constructed tracks maintained by the respondent. Do not include any ties used in any new tracks or in track extensions.

In columns (d) and (g) should be shown the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage, and seasoning

In column (a) classify the ties as follows:

- (U) Wooden ties untreated when applied.
- (T) Wooden ties treated before application.
- (S) Ties other than wooden (steel, concrete, etc.), Indicate type in column (h).

Report new and second-hand (relay) ties separately, indicating in column (h) which ties are new.

In columns (d) and (g) should be shown the total cost, including transportation charges on foreign lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage, and seasoning yards; and, in the case of treated ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines and placing the ties in track, and of train service, there than that necessary in connection with loading or treatment, should not be included in this schedule.

The sum of entries on lines 21, 22, and 23 should equal the total of columns (d) and (g),

Any material difference between the return on line 22 and the charge to operating expense account No. 212, or between the sum of charges to additions and betterments shown in schedules Nos. 513 and 514 and the related charge to investment account No. 8, should be explained in a footnote.

# 515. RAILS LAID IN REPLACEMENT

Give particulars of all rails applied during the year in connection with replacement of rails in previously constructed tracks maintained by the respondent.

In column (a) classify the kind of rail applied as follows:

(1) New steel rails, Bessemer process.

(2) New steel rails, open-hearth process.

(3) New rails, special alloy (describe more fully in a footnote).

(4) Relay rails.

Returns in columns (c) and (g) should be reported in whole numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more reckoned as one.

The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks, and of train service in connection with the distribution of the rails, should not be included in this schedule.

The sum of entries on lines 22, 2%, and 24 should equal the total of columns (d) and (h).

Any material difference between the return on line 23 and the charge to operating expense account No. 214, or between the sum of charges to additions and betterments shown in schedules Nos. 515 and 516 and the related charge to investment account No. 9, should be explained in a footnote.

## 517. GAGE OF TRACK AND WEIGHT OF RAIL

Give the particulars below called for concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly-owned mileage should be included. Under "Weight of rail," the various weights of rails should be given. If any part of the road operated at the close of the year is other than standard

gage, 4 feet  $8\frac{1}{2}$  inches, show the gage of each part in column (d). Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

#### 531. STATISTICS OF RAIL-LINE OPERATIONS

1. Give the various statistical items called for concerning the rail-line operations of respondent's road during the year. Trainmiles, car-miles and other particulars are to be reported in accordance with the classification of train-miles and car-miles prescribed in the Uniform System of Accounts for Railroad Companies (Mileage Accounts 800 to 805 and 820 to 825). Locomotive unit-miles should include all miles made by each locomotive unit.

2. Per diem cars, as used herein, refers to freight cars other than cabooses owned or held under lease arrangement by U.S. class I line-haul railroads, whose interline rental is settled on a per diem basis under the code of per diem rules, or would be so settled if

used by another railroad.
3. Item No. 1 includes miles of road operated under trackage

rights.

4. For gross ton-miles compute from conductors' or dispatchers' train reports weight in tons (2,000 pounds). Item 27 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 28 and 29 represent tons behind locometive units (cars and contents, company-service equipment and cabooses) moved one mile in transportation trains, include ton-miles of exclusive work service equipment and

average weight per passenger and four tons as the average weight of contents of each head-end car.

5. Item No. 35 should represent the ton-miles of revenue freight in water transfer service on the Great Lakes involving a rail-line haul, the revenue from which is includible in account No. 101, "Freight." Ton-miles of revenue freight in water transfer service which was moved on the basis of lawful local tariff rates, the revenue from which is creditable to account No. 113, "Water transfers," should be excluded. Item 36, Total ton-miles-Revenue freight, should correspond to the ton-miles reported on Form OS-B, Item 2.

8. Item 2.
6. For net ton-miles, Item 40, compute from conductors' train reports. This item represents the number of tons of revenue and non-revenue freight moved one mile in transportation trains. Include reasonable proportion of the weight of exclusive work equipment moved one mile. Include net ton-miles in motorcar trains. Exclude LCL shipments handled in mixed baggage-express cars.

7. The mileage of company service equipment, designed exclu-

sively for work service and moved in transportation trains, should be classed as loaded freight car-miles. 8. Highway vehicle operations should not be included in Sched-

# 532. SWITCHING AND TERMINAL TRAFFIC AND CAR STATISTICS

(For switching and terminal companies only)

1. Give particulars of cars handled during the year. For descriptions of kinds of services included in switching operations, and in terminal operations, reference is made to the "Notice" on the inside of the front cover of this form. With respect to the term "cars handled" it should be observed that, when applied to switching operations, the movement of a car from the point at which a switching company receives it, whether loaded or empty, to the point where it is loaded or unloaded or delivered to another connecting line is to be counted as one car handled. The return of a car, whether loaded or empty, from the point where it is loaded or unloaded, to

the point of delivery is to be counted as one car handled. No incidental movement is to be considered, unless such incidental movement involves the receipt of additional revenue. When applied to 'erminal operations, such as union station, bridge, ferry, or other joint fact ty terminal operations, the term "cars handled" includes all cars for which facilities are furnished.

2. The number of locomotive-miles in yard switching arrice should be computed in accordance with account No. 316, "Yard Switching Locomotive-miles."

# 561C. COMPENSATION APPLICABLE TO PRIOR YEARS

Show hereunder, for each group of employees, the amount of compensation applicable to prior years, which was paid or is payable under labor awards of the current year or for other reasons. Additional compensation for the current year under labor awards or for other reasons is includible in I.C.C. Wage Statistics Form A and B, "Report of Employees, Service, and Compensation," for the calendar year. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto. Explain the nature of any amounts in excess of \$10,000 included in column (c) in a footnote.

# 562. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

1. In columns (a) and (b) enter the name and position of each of the five persons named in Schedules 102 and 103 of this report to whom the respondent paid the largest amount during the year as compensation for current or past service over and above necessary expenses incurred in discharge of duties. In addition, list all other officers, directors, pensioners or employees, if any, to whom the respondent paid \$40,000 or more in total compensation during the year.

2. The salary per annum to be entered in column (c) is the annual rate at which an employee is paid rather than the amount actually paid for a part of a year. If the salary of an individual was increased or decreased during the year, show salary before each change as well

as at close of year.

3. If an officer, director, etc., receives compensation from one or more of the affiliated companies listed in Schedule 104, reference to this fact should be made if the aggregate compensation from all companies amounts to \$40,000 or more. The detail as to division of the compensation should be reported in schedule 564.

4. Other compensation to be entered in column (d) includes, but is not limited to, commissions; bonuses; shares in profits; contingent compensation; moneys paid, set aside or accrued pursuant to any pension, retirement, savings, deferred compensation, or similar plan including premiums paid for retirement annuities, or life insurance where the respondent is not the beneficiary (Premiums on group life insurance for benefits less than \$50,000 need not be reported.), or any other arrangement which constitutes a form of compensation. Give the details of any plan not previously reported, the basis of determining the ultimate benefits payable, and the payments or provisions made during the year.

5. Also include in column (d) all remuneration paid, directly or indirectly, in the form of securities, options, warrants, rights or other property. Furnish particulars concerning any options, warrants, or rights issued or granted during the year including prices, expiration dates and other information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so

entitled to be purchased by each officer, director, etc.

## 563. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

- 1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate to \$50,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:
  - (a) Payments to employees of the respondent shall be reported in Schedule 562.
  - (b) Payments for services rendered by affiliates shall be reported in Schedule 564,
- The aggregate of payments to be reported in column (c) shall include amounts paid and/or accrued during the year which are applicable to the year.
- 3. When contributions under \$50,000 are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$100,000 or more.
- 4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax-advice. All carriers, whether payments aggregate more or less than \$50,000, shall answer the following question.

Did the independent accountant reporting on the respondent's annual report provide any management services other than auditing?

Specify. Yes... No...

See item #5 below

- 5. To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers, trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers, Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.
- 6. To be exclude: are: Rent of buildings or other property, taxen payable to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$50,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.
- 7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads.
- If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report,

# 564. TRANSACTIONS BETWEEN RESPONDENT AND COMPANIES OR PERSONS AFFILIATED WITH RESPONDENT FOR SERVICES RECEIVED OR PROVIDED

1. Furnish the information called for below concerning each contract, agreement or arrangement (written or unwritten) in effect at any time during the year between the respondent and the affiliated companies listed in Schedule 104, or persons affiliated with the respondent including officers, directors, stockholders, owners, partners or their wives and other close relatives, or their agents. Examples of examples of examples of structures, land and equipment, legal, accounting, purchasing or other type of service including the furnishing of materials, supplies, purchase of equipment, leasing of structures, land and equipment, and agreements relating to allocation of officers salaries and other common costs between affiliated companies.

To be excluded are payments for the following types of services:

(a) Lawful tariff charges for transportation services.

(b) Payments to or from other railroads for inter ine services and interchange of equipment.

(c) Payments to or from other railroads for services which may reasonably be regarded as ordinarily connected with routine operation, maintenance, or construction of a railroad, but any special or unusual transactions should be reported.

(d) Agreements relating to allocation of Federal income taxes between affiliated companies should be reported in Schedule 353 (p. 85)

(e) Agreements relating to joint pension plans with affiliated companies should be reported in explanatory notes section of Schedule 200 (p. 13)

2. In column (a) enter the name of the affiliated company, person, or agent with which respondent received or provided services aggregating \$30,000 or more for the year. If an affiliated company provides services to more than one affiliate, and the aggregate compensation amounts to \$30,000 or more for the year, list all the affiliates included in the agreement and describe the allocation of charges in column (d). If the respondent provides services to more than one affiliate, and the aggregate compensation amounts to \$30,000 or more for the year, reference to this fact should be made and the detail as to the allocation of charges should be stated. For those affiliates providing services to the respondent, also enter in column (a) the percent of affiliate's gross income derived from transactions with respondent.

Attach a balance sheet and income statement for each affiliate with which respondent had reportable transactions during the year. These statements should be prepared on the same accounting year basis and in conformity with the balance sheet and income statement in annual report form A, and should be noted to indicate method of depreciating property, if any, furnished to the respondent. Balance sheet and income statement are not required for affiliated carriers filing annual reports with the Commission.

3. In column (b) indicate form of affiliation or control between the respondent and the company or person identified in column (a) as follows:

(a) If respondent directly controls affiliate insert the word "direct".

(b) If respondent controls through another company insert the word "indirect".

(c) If respondent is under common control with affiliate insert the word "common".

(d) If respondent is controlled directly or indirectly by the company listed in column (a) insert the word "controlled".

(e) if control is exercised by other means such as a management contract or other arrangement of whatever kind insert the word "other" and footnote to describe such arrangements.

4. In column (c) fully describe the character of service involved such 22 management fees, lease of building, purchase of material, etc. When the affiliate listed in column (a) provides more than one type of service in column (c), list each type of service separately and show total for the affiliate. When services are both provided and received between the respondent and an affiliate they should be listed separately and the amounts shown separately in column (g).

5. In colurn (d) fully describe the basis for computing charges under each contract, agreement, etc.

6. In columns (e) and (f) indicate the date and term of each contract or arrangement. If oral contract, indicate with symbol "O".

7. In co'amn (g) report the total amount received, paid, or accrued during the year which is applicable to the year, for each type of service listed in column (c). Indicate purchase items with the symbol "P" and sales items with the symbol "S". Do not report net figures when services are both provided and received between the respondent and an affiliate.

## 566 B. OTHER TRANSACTIONS BETWEEN NONCARRIER SUBSIDIARIES OF RESPONDENT AND OTHER AFFILIATED COMPANIES OR PERSONS

- 1. Furnish the information called for below concerning other transactions between noncarrier subsidiaries of the respondent and other affiliated companies in accord with instruction No. 1 to Schedule 565.
- 2. In column (a) enter the name of the noncarrier subsidiary of respondent.
- 3. In column (b) enter the name of other affiliated company with which the noncarrier subsidiary transacted a purchase, sale or transfer of equipment, land, structures, securities or other assets aggregating \$30,000 in value for the year.
- 4. In column (c) indicate form of affiliation or control between noncarrier subsidiary and other affiliated company identified in column (b) in accord with instruction No. 3 to Schedule 564.
- 5. In column (d) briefly describe the kind of asset purchased, sold or transferred.
- 6. In column (e) report the total of all purchases, sales or transfers of property with a value of \$30,000 or more. If individual items are less than that amount, report the total of all purchases or sales when the aggregate of such items is \$30,000 for the year. Indicate purchase items with the symbol "P" and sales items with the symbol "S".
- 7. In column (f) summarize the book cost, less accrued depreciation if applicable, for each item reported in column (e).
- 8. In column (g) report the net profit or loss for each item (column (e) less column (f)).
- 9. Answer all questions at bottom of schedule.

With respect to the transactions listed above, were any gains or losses incurred by other affiliated companies in the six (6) accounting years preceding this report year on the transfer of the item to the company or individual named in column (b)? Specify. Yes.... No.... If yes, give particulars of prior transaction such as sales price, and gain or loss.

Were any services provided or assets transferred between noncarrier subsidiaries of respondent and other affiliated companies or individuals for which no charges were assessed? If so, explain.

#### 571. CONSUMPTION OF FUEL BY MOTIVE-POWER UNITS

Show hereunder the amounts of the various kinds of fuel consumed by locomotive units and motor or other self-propelled rail cars in the service of the respondent during the year, and the number of kilowatthours for such tractive equipment as was propelled by electricity. The ton of 2,000 pounds should be used.

Kilowatt-hours, for entry in column (c) of section A, and column (A) of section B, are to be figures at high-tension taps (point of production or point of purchase), and divided among the several classes of service, the division being made on the respondent's best estimate if actual figures are not available.

NOTES AND REMARKS

### 581, CONTRACTS, AGREEMENTS, ETC.

- 1. Hereunder give a concise statement of each important contract, agreement, arrangement, etc., with other companies or persons, together with important revisions, modifications, terminations, and other changes thereof, which became effective during the year, and concerned in any way the transportation of persons or things at other than tariff rates, or the purchase of equipment under conditional sales plans without the issuance of securities by respondent, making such statements in the following order:
  - (a) Express companies.
  - (b) Mail.
  - (c) Sleeping, parlor, and dining-car companies.
  - (d) Freight or transportation companies or lines.
  - (e) Other railway companies.
  - (f) Steamboat or steamship companies.
  - (g) Telegraph companies.
  - (h) Telephone companies.
  - (i) Equipment purchased under conditional sales contracts.
  - (i) Routing traffic of affiliated companies.
  - (k) Other contracts.
- 2. Under item 1(e), include particulars of joint facility arrangements entered into during the year by the respondent, including those maintained or operated by other carriers as well as those maintained or operated by respondent. For each joint facility, give a brief statement of the basis or bases on which revenues, expenses, taxes, interest on investment, a other items, if any, related to the facility are apportioned among the carriers using the facility or otherwise deriving benefit therefrom.
- 3. Under item 1(i), give particulars of conditional sales agreements, lease or rental contracts, and other similar instruments, entered into by respondent for the purchase of equipment, which provide for payment in installments and do not involve the issuance of securities by respondent. State the names of the parties to the contracts or agreements, the num-

ber of units of each class of equipment covered, and the terms and conditions of payment.

- 4. Under item 1(j) give particulars of arrangements, written or oral with affiliated companies for routing of traffic. Through route arrangements for handling of traffic interchanged with carrier affiliates should not be reported.
- 5. Under item 1(k), Other contracts, describe briefly the particulars of all contracts or agreements, including estimated amounts receivable, under which a government agency, or instrumentality thereof, seeks to assist respondent with grants or aid for providing passenger commuter or other passenger-train services.
- 6. Information concerning contracts of minor importance may be omitted, A contract of minor importance is defined as one involving receipts or payments of less than \$25,000 per year, and which, by its terms, is otherwise unimportant.
- 7. In lieu of giving abstracts, copies of contracts may be filed. Every copy of a contract furnished in connection with the foregoing requirement should be listed hereunder.
- 8. The basis for computing receipts and payments should be fully stated in the case of each such contract, agreement, or arrangement.

  3. Compliance with the requirements of this schedule does not relieve
- the respondent of the duty placed upon common carriers by section 6(5), Part I, of the Interstate Commerce Act, which reads as follows:
- "Every common carrier subject to this part shall also file with said Commission copies of all contracts, agreements, or arrangements with other common carriers in relation to any traific affected by the provisions of this part to which it may be a party. Provided, however, that the Commission, by regulations, may provide for exceptions from the requirements of this paragraph in the case of any class or classes of contracts, agreements, or arrangements, the filing of which, in its opinion, is not necessary in the public interest."

#### 591. CHANGES DURING THE YEAR

Hereunder state the matters called for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest hundereth of a mile

dredth of a mile.

1. For each railroad property used in respondent's transportation service, show all increases and decreases in mileage, classifying the changes snow all increases and decreases in mileage, classifying the changes in the tables below as follows:

(Class 1) Line owned by respondent.

(Class 2) Line owned by proprietary companies.

(Class 3) Line operated under lease for a specified sum.

(Class 4) Line operated under contract or agreement for contingent

rent.

(Class 5) Line operated under trackage rights.

2. For changes in miles of road, give dates of beginning or abandonment of operations. If any changes reportable in this schedule occurred

under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket

number or otherwise, as may be appropriate.

3. All consolidations, mergers, and reorganizations effected, giving

particulars.

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior companies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

Other important changes not elsewhere provided for involving more than \$50,000, giving full particulars.
