6. In reference to Docket No. 37465 specify the total amount of business entertainment expenditures charged to the non-operating expense account.  S None
3(a) and (b) Respondent has pension plans for certain employees, principally salaried personnel. The policy is to fund current pension costs on the trusteed plan, including the amortization of prior service cost over periods not exceeding forty years. Pension expense was \$6,009 in 1983 and \$12,014 in 1982. As of January 1, 1983, the actuarial present value of vested accumulated plan benefits was \$151,534 (1982 - \$101,324); the actuarial present value of non-vested accumulated plan benefits was \$3,664 (1982 - \$3,220); the net assets available for benefits were \$168,809 (1982 - \$135,354). The assumed rate of return used in determining the actuarial present values of vested and non-vested accumulated plan benefits decreased from 11% at January 1, 1982 to 9.6% at January 1, 1983. Effective January 1, 1983, certain amendments were made to the pension plans and various changes were made in actuarial methods and assumptions. These revisions decreased pension expense by \$2.8 million after taxes and increased the present value of accumulated plan benefits by \$26.1 million

Significant net realized and net unrealized gains and losses arising after date of the financial statements but prior to their filing, applicable to marketable equity securities owned at balance sheet date shall be disclosed below:

١.	r	v	T	

(date) Balance sheet date of reported year unless specified as previous year.

- 3. (d) Atlanta and West Point RR Co.; The Atlantic Land & Improvement Co.; The Carrollton RR Co.; Columbia, Newberry & Laurens RR Co.; Cybernetics and Systems, Inc.; Gainesville Midland RR Co.; High Point, Thomasville & Denton RR Co.; Holston Land Co.; The Seacoast Transportation Co.; The Western Rwy. of Alabama, and the Winston-Salem Southbound Rwy. Co. Charges are actuarially allocated between affiliates based on salaries of members.
- 7. Marketable equity securities, which are immaterial, other than those accounted for by the equity method, are carried at lower of cost or realizable value (market value not readily available).
- 8. This annual report includes financial and statistical data of Seaboard System Railroad, Inc. (SBD). (SBD was formed in December 1982 upon merger (pooling of interests) of Louisville and Nashville Railroad Company (L&N) and Seaboard Coast Line Railroad Company (SCL), with SCL changing its name to SBD. Clinchfield Railroad Company, lessee organization of L&N and SCL was also merged into SBD.) Prior year data has been restated.
- 9. In the fourth quarter of 1983 SBD changed to depreciation accounting for railroad track structures from the retirement-replacement-betterment method (RRB) as mandated by the Interstate Commerce Commission. Prior year data has also been restated due to this change in accounting method (See schedules 205, 205-A, 205-B and 205-C). In addition retained earnings was decreased by \$34,884 for previously unidentified conforming and other adjustments as a result of the Seaboard Coast Line Industries, Inc. and Chessie System, Inc. merger into CSX Corporation. No changes have been made to previously issued results of operations due to immateriality.

- 10. Account 702 "Temporary Cash Investments" represents SBD's net participation in the CSX cash management plan of \$216,000 and \$291,179 at December 31, 1983 and 1982, respectively. Under this cash management plan, excess cash is advanced to CSX for investment and CSX makes cash funds available to its subsidiaries as needed for use in their operations and is committed to repay all amounts due on a current basis should circumstances require. The companies are compensated for advances at interest rates earned by CSX on its short-term investment portfolio.
- 11. Interest costs incurred during the construction of capital projects amounting to \$6,714 and \$9,626 in 1983 and 1982 respectively, were capitalized.
- 12. Federal income tax returns of SBD (including predecessor companies) have been examined by the Internal Revenue Service through the year 1977 and certain proposed adjustments are being contested. In the opinion of management, adequate provision has been made for additional federal income taxes and interest which might be assessed for all years through 1983.
- 13. SBD carries a service interruption policy with the Imperial Insurance Company, Limited, indemnifying it against loss of freight revenue and reimbursement of fixed and continuing expenses during certain work stoppages. SBD may be obligated to pay additional premiums, subject to a maximum of \$53,237 in the event such losses are sustained by other railroads holding similar policies.

'If any dividends have not been declared on cumulative preferred stock, give cumulative undeclared dividends at beginning of year and end of year.

Respondent is subject to restrictive covenants under a bond purchase agreement and a loan agreement which limits the payment of common dividends. As of December 31, 1983, \$224,856 of retained earnings was available for dividends under the most restrictive covenant.

#### PART 1. CAPITAL STOCK

(Dollars in Thousands)

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect.

Present in column (b) the par or stated value of each issue. If none, so state.

Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.

4. For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent, and not canceled or retired, they are considered to be nominally outstanding.

## 240. STATEMENT OF CHANGES IN FINANCIAL POSITION

(Dollars in Thousands)

Give the information as requested concerning the source and application of funds during the year. Funds for the purpose of this schedule shall include all assets of financial resources even though a transaction may not directly affect eash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for investment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

Notes: (A) Use common carrier portion only. Common carrier refers to railway transportation service.

- (B) Rent Income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.
- (C) If result is negative, use zero.

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

- 1. Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments and advances; affiliated companies," in the Uniform System of Accounts for Railroad Companies.
  - 2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
    - Stocks (A)
      - (1) Carriers-active
      - (2) Carriers-inactive
      - (3) Noncarriers-active
      - (4) Noncarriers-inactive
    - Bonds (including U.S. Government Bonds) (B)
    - Other secured obligations (C)
    - Unsecured notes (D)
    - Investment advances (E)

3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).

4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
1	Agriculture, forestry, and fisheries
11	Mining
iii	Construction
IV	Manufacturing
V	Wholesale and retail trade
VI	Finance, insurance, and real estate
VII	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other
	the state of the s

5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots. and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transports on of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not in. Qua to be included.

6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

- 8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.
- 9. Include in estments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
- 10. Do not include the value of securities issued or assumed by respondent.
- 11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

## 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

- 1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking Funds"; 716, "Capital Funds"; 721, "Investments and Advances Affiliated Companies"; and 717, "Other
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 18, classifying the investments by means Funds.
- of letters, figures, and symbols in columns (a), (b), and (c). 3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered. giving names and other important particulars of such obligations in footnotes
  - 4. Give totals for each class and for each subclass and a grand total for each account.
- 5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. ## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330 AND 330A

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property." and Account No. 732. "Improvements on Leased Property." classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If the amount in Account 732 for road or for equipment is less than 5% of the amount in Account 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b), and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods; if nor, full explanation should be made in a footnote.

2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies for such items

3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise

4. In column (c) and (e) should be included all entries covering expenditures for additions and betterments, as defined, whether or not replacing other

5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.

6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to cuirent items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000

7. If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes," state in a footnote the

cost, location, area, and other details which will identify the property

8. Report on line 29 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the micrage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing

such property acquired, referring to the column or columns in which the entries appear.

10. If an amount of less than \$2,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

## 340. DEPRECIATION BASE AND RATES—IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS

(Dollars in Thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to Account 732, "Improvements on Leased Property." The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any charges in rates were effective during the year, give full particulars in a footnote.

2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included

for each such property.

3. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

4. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

#### NOTES AND REMARKS

## Notes to Page 33, Schedule 335:

- Amounts shown in Column (d) represent acquisition of Haysi Railroad 1. Co. under I.C.C. Finance Docket No. 30182, effective September 6, 1983.
- 2. Credits to the reserve in Column (c) and the charge to operating expenses differ by a ratable depreciation adjustment of \$2,235 credit to operating expenses which did not affect the reserve.

## Notes to Page 34, Schedule 339:

- Column (d), Lines 18 and 22 Depreciation of property north of Delton Jct. charged to joint maintenance account.
- Column (d), Line 28 Net charges billed from Belt Railway of Chicago.
- Column (f) Depreciation on Glasgow Railway credited Account 754. 3.

# Notes to Pages 40 and 41, Schedules 352A and 352B:

- Page 40, Lines 24, 25, 26, Column (d), and Page 41, Line 29, Column (e) - Rental for 1983 capitalized at 6%.
- Page 40, Line 21, Column (d) Lessor's investment at date of lease. 2.
- Page 41, Line 30, Columns (b) and (c) Estimates for material and labor recorded in December accounts and not identifiable by primary 3. accounts at this time.

## 350. DEPRECIATION BASE AND RATES—ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.

2. Snow in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used to compute the depreciation for the month of December and on lines 29 and 37 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

5. If total road leased to others is less than 5% of total road owned; omit. If total equipment leased to others is less than 5% of total equipment owned; omit.

## 352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)

(Dollars in Thousands)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes (a) the investment reported in Accounts 731 "Road and Equipment Property," and 732. "Improvements on Leased Property," of the respondent, less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.

2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company (P), and other leased

properties (O).

3. In column (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company. Then show, as deductions, data for transportation property leased to carriers and others.

4. In column (c), line-haul carriers report the miles of road used in line-haul service, and switching and terminal companies should report the miles of all tracks

5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 33, on the asset side of the comparative general balance sheet of each individual railway, should be explained in a footnote. Book value included in Accounts 731 or 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is appli-

able to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

#### GENERAL INSTRUCTIONS AND DEFINITIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 361

#### A. General Instructions

Disclose the required information concerning the respondent's leases, in Schedule 361, Parts I, II, and III.

A general description of the lessee's leasing arrangements shall be included to effect full and complete disclosures. Among the items to be disclosed are:

- The basis on which contingent rental payments are determined.
- -The existence and terms of renewal or purchase options and escalation clauses.
- -Restrictions imposed by lease agreements, such as those concerning dividends, additional debt, and further leasing.

#### **B.** Definitions

- (1) Capital Leases are those leases which meet one or more of the following four criteria:
  - -The lease transfers ownership of the property to the lessee by the end of the lease term.
  - -The lease contains a bargain purchase option.
  - -The lease term is equal to 75 percent or more of the estimated economic life of the property.
  - —The present value at the beginning of the lease term of the minimum lease payments equals or exceeds 90 percent of the fair value of the leased property to the lessor at the inception of the lease less any related investment tax credit retained by the lessor.
- (2) Operating leases are those leases which do not meet any of the four criteria pertaining to capital leases.
- (3) Minimum lease payments are the payments that the lessee is obligated to make or can be required to make in connection with the leased property. Executory costs such as insurance, maintenance and taxes in connection with the leased property shall be excluded from minimum lease payments.
- (4) Present value minimum lease payments are lease payments that the lessee is obligated to make or can be required to make, exclusive of executory cost. Moreover, these payments are reduced by amounts representing interest, calculated at the companies' incremental borrowing rate or the implicit rate computed by the lessor.
- (5) Noncancelable lease/sublease is one that has an initial or remaining term of one year or more and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.
- (6) Contingent rentals, for the purposes of this report, are rentals paid during the reporting year which depend on some factor other than the passage of time such as rentals based on usage or sales.

#### 361. CAPITALIZED CAPITAL LEASES

(Dollars in Thousands)

#### PART I. PRESENT VALUE OF MINIMUM LEASE PAYMENTS

Disclose total lease payments for the years shown. Then, disclose amounts representing (1) executory costs and (2) interest to derive the present value of minimum lease payments. An explanation indicating how the rate of interest was derived for computing present value shall be included.

## 412. WAY AND STRUCTURES

(Dollars in Thousands)

1. Report freight expenses only.

- 2. The total depreciation expense reported in column (b), line 31, should balance to the sum of the depreciation expense reported in schedule 410, column (f) lines, 136, 137, and 138.
- 3. Report in column (c) the lease/rentals for the various property categories of Way and Structures. The total net lease/rentals reported in column (c), line 31 should balance the net amount reported in schedule 410, column (f), lines 118 through 123, plus lines 130 through 135.

If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases to the depreciation bases for all categories of depreciable leased property. Use Schedule 350 of this report for obtaining the depreciation bases of the categories of leased property.

- 4. Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item; the set adjustment on line 31 shall equal the adjustment reported on line 29 of schedule 335.
  - 5. Report on line 30 all other lease rentals not apportioned to any category listed on lines 1-30.
  - 6. Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of Schedule 415.

If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property categories is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases to the depreciation bases for all categories of depreciable leased property. Use Schedule 350 of this report for obtaining the depreciation bases of the categories of leased property.

- 4. Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item; the net adjustment on line 31 shall equal the adjustment reported on line 29 of schedule 335.
- 5. Report on line 30 all other lease rentals not apportioned to any category listed on lines 1-30.
- 6. Line 11, Account 16, should not include computer and data processing equipment reported on line 37 of Schedule 415
