Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 1995

#### **NOTICE**

- 1. This Form for annual report should be filled out in implicate and two copies returned to the Interstate Commerce Commission, Office of Economics, Washington, D.C. 20423, by March 31 of the year following that for which the report is made. One copy should be retained in respondent's files. Attention is specially directed to the following provisions of Part 1 of the Interstate Commerce Act:
- (49) U.S.C. 11145, Reports by carriers, leasors, and associations
- (a) The Interstate Commerce Commussion may require-
- (1) carriers, brokers, lessors, and associations, or classes of them as the Commission may prescribe, to file annual, periodic, and special reports with the Commission containing answers to questions asked by it; and
- (2) a person furnishing cars or protective services against heat or cold to a rail or express carrier providing transportation subject to this subtitle, to file reports with the Commission containing answers to questions about those cars or services
- (b)(1) An annual report shall contain an account, in as much detail as the Commission may require, of the affairs of the carrier, broker, lessor, or association for the 12-month period ending on the 31st day of December of each year. However, when an annual report is made by a motor carrier, a broker, or a lessor or an association maintained by or interested in one of them, the person making the report may elect to make it for the 13-month period accounting year ending at the close of one of the last 7 days of each calendar year if the books of the person making the report are kept by that person on the basis of that accounting year.
- (2) An annual report shall be filed with the Commussion by the end of the 3rd month after the end of the year for which the report is made unless the Commission extends the filing date or changes the period covered by the report. The annual report and, if the Commission requires, any other report made under this section, shall be made under oath.
- (c) The Commission shall streamline and simplify, to the maximum extent practicable, the reporting requirements applicable under this subchapter to motor common carriers of property with respect to transportation provided under certificates to which the provisions of section 10922(b)(4)(E) of this title apply and to motor contract carriers of property with respect to transportation provided under certificates to which the provisions of section 10923(b)(5) of this title apply Pub. L. 95-473, Oct. 17, 1978, 92 Stat. 1427, Pub. L. 96-296 § 5(b), July 1, 1980, 94 Stat. 796.
- (49) U.S.C. 11941 (g) A person required to make a report to the Commission, answer a question, or make, prepare, or preserve a record under this subtitle concerning transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this trite, or an officer, agent, or employee of that person that (1) does not make the report, (2) does not specifically, completely, and truthfully answer the question, (3) does not make, prepare, or preserve the record in the form and manner prescribed by the Commission, or (4) does not comply with section 10921 of this title, is liable to the United States Government for a civil penalty of not more the \$500 for each violation and for not more the \$250 for each additional day the violation continues. After the date of enactment of this sentence, no penalties shall be imposed under this subsection for a violation relating to the transportation of household goods. Any such penalties that were imposed prior to such date of enactment shall be collected only in accordance with the provisions of subsection (b) of this section.

The term "carrier" means a Common carrier subject to this part, and includes a receiver or trustee of such carrier, and the term "lossor" means a person owning a rauroad, a water line or a pipe line, leased to and operated by a common carrier subject to this part, and includes a receiver or trustee of such leasor.\*\*

The respondent is further required to send to the Office of Economics immediately upon preparation, two copies of its latest annual report to stockholders. See schedule B page 2

2 The instructions in this Form should be carefully observed, and each queezon should be survered fully and accurately, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks and the like should not be used either as partial or as caure answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form is, because of the answer rendered to such preceding inquiry.

inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable, see page \_\_\_\_\_\_, schedule (or line) number \_\_\_\_\_\_ should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states that fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

- 3 Every consual report should, in all particulars, be complete in uself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.
- 4 If it be necessary or descrable to meen additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attacked, preferable at the unner margin: attackments by pres or cluss is sanificient.
- 5. All entries should be made in a permanent black ink. Those of a contrary character should be inducated in parenthesis.
- 6. Money nems, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting achedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1000 should be raised to the searest thousand dollars, and amounts of less than \$500 should be lowered.
- 7. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts, a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts.

Operating companies are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having operating revenues of \$250,000,000 or more. For this class, Annual Report Form R-1 is provided.

Class II companies are those having annual operating revenues less than \$250,000,00 but in excess of \$20,000,000

Class III companies are those having annual operating revenues of \$20,000,000 or less.

All switching and terminal companies will be designated class III railroads.

8. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings stated below:

Commission means the Interstate Commerce Commission Respondent means the person or corporation in whose behalf the report is made. Your means the year ended December 31 for which the report is made. The Close of the Your means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. The Boginning of the Year means the beginning of business on January 1 of the year for which the report is made, or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. The Preceding Year means the year ended December 31 of the year preceding the year for which the report is made. The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 or Title 49, Code of Federal Regulations, as amended.

#### SPECIAL NOTICE

Docket No. 38559 Railroad Classification Index, served January 20, 1983, modified the reporting requirements for class II, III and all Switching and terminal companies. These carriers will notify the Commission only if the calculation results in a different revenue then its current classification.

The dark border on the schedules represents data that are captured for processing by the Commission.

It is estimated that an average of 800 burden hours per response are required to complete this collection. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be directed to the Section of Administrative Services, Interstate Commerce Commission and the Office of Information and Regulatory Affairs, Office of Management and Budget.

#### A. SCHEDULES OMITTED BY RESPONDENT

1

The respondent, at its option, may omit pages from this report provided there is nothing to report or the schedules are not applicable.
 Show below the pages excluded and indicate the schedule number and title in the space provided below.
 If no schedules were omitted, indicate "NONE."

the close of the year.

C. VOTING POWERS AND ELECTIONS State the par value of each share of stock: Common \$ 3-1/3 per share, first preferred \$ N/A per share, second 1. preferred \$ N/A per share, debenture stock \$ N/A per share. State whether or not each share of stock has the right to one vote. If not, give full particulars in a foomote 3. Are voting rights proportional to holdings: If not, state in a footnote the relation between holdings and corresponding voting rights. Are voting rights attached to any securities other than stocks No. If so, name in a footnote each security other than stock to which voting rights are attached as of the close of the year, and state in detail the relation between holdings and corresponding voting rights, stating whether voting rights are actual or contingent, and if contingent, showing the contingency. Has any class or issue of securities any special privileges in the election of directors, trustees, or managers, or in the determination of corporate action by any method No . If so, describe fully in a footnote each such class or issue and give a succinct statement showing clearly the character and extent of such privileges. Give the date of the latest closing of the stock book prior to the actual filing of this report, and state the purpose of such closing Stock books not closed, last compiled December 31, 1984. State the total voting power of all security holders of the respondent at the date of such closing if within one year of the date of December 31, 1995 8. State the total number of stockholders of record as of the date shown in answer to inquiry No. 7: One (1) Give the names of the thirty security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent (if within one year prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each his address, the number of votes which he would have had a right to cast on that date had a meeting then been in order, and the classification of the number of votes to which he was entitled, with respect to securities held by him, such securities being classified as common stock, second preferred stock, first preferred stock, and

other securities, stating in a footnote the names of such other securities (if any). If any such holder held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements, give as supplemental information the names and addresses of the thirty largest holders of the voting trust certificates and the amount of their individual holdings. If the stock book was not closed or the list of stockholders compiled within such year, show such thirty security holders as of

#### NOTES AND REMARKS

# 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES (Dollars in thousands)

The notes listed below are provided to disclose supplementary information on matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none", and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

|    |     | concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been et income or retained income restricted under provisions of mortgages and other arrangements.   |
|----|-----|---|
| 1. |     | Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust, or other contracts: \$_N/A  |
| 2. |     | Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made: <u>See Schedule 450 Footnotes, Page 64.</u>   |
| 3. | (a) | Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year:  See Note 11 on Pages 9 and 10.   |
|    | (b) | State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund: See Note 11 on Pages 9 and 10.   |
|    | (c) | Is any part of pension plan funded? Specify: Yes X No No  |
|    |     | (i) If funding is by insurance, give name of insuring companyN/A  |
|    |     | If funding is by trust agent, list trustee(s) First Bank National Association   |
|    |     | Date of trust agreement or latest amendment A. February 17, 1988; B. February 6, 1996   |
|    |     | If respondent is affiliated in any way with the trustee(s), explain affiliation   |
|    | (d) | List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement. A. Delaware & Hudson Corporation and Canadian Pacific (U.S.) Finance Inc., common affiliates, are charged the increased proportional costs of including their respective employees in the pension plan. |
|    | (e) | (i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify: Yes No _X_  |
|    |     | If yes, give number of the shares for each class of stock or other security N/A   |
|    |     | (ii) Are voting rights attached to any securities held by the pension plan? Specify: Yes X No   |
|    |     | If yes, who determines how stock is voted? <u>Trustee</u>   |
| 4. |     | State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610): Yes NoX  |
| 5. | (a) | The amount of employers contribution to employee stock ownership plans for the current year was: \$ N/A   |
|    | (b) | The amount of investment tax credit used to reduce current income tax expense resulting from contributions to qualified employee stock ownership plans for the current year was: \$_N/A_  |
| 6. |     | In reference to Docket No. 37465, specify the total amount of business entertainment expenditures charged to the non-operating expense account: \$N/A   |
|    |     | Continued on following page   |

#### 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

 Give particulars with respect to contingent assets and liabilities at the close of the year, in accordance with instructions 5-6 in the Uniform System of Accounts for Railroad Companies, that are not reflected in the amounts of the respondent.

Disclose the nature and amount of contingency that is material.

Examples of contingent liabilities are items which may become obligations as a result of pending or threatened litigation, assessments or possible assessments of additional taxes and agreements or obligations to repurchase securities or property. Additional pages may be added if more space is needed. (Explain and/or reference to the following pages.)

See Footnote 9 on Page 9.

#### NOTES TO FINANCIAL STATEMENTS

#### 9. COMMITMENTS AND CONTINGENT LIABILITIES

Under the requirements of the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 (Superfund) and comparable state laws, Soo Railroad is potentially liable for the cleanup cost of various contaminated sites identified by the U.S. Environmental Protection Agency (EPA) and comparable agencies. Soo Railroad has been notified by the EPA and state agencies that it is a Potentially Responsible Party (PRP) for study and cleanup costs at a number of sites. In most of these instances, Soo Railroad is one of numerous PRP's. In certain cases, future environmental—related expenditures cannot be quantified due to the uncertainty of the cleanup standards, methods to be used, and the number of other PRP's involved. Soo Railroad believes its December 31, 1995 accruals are adequate to cover known liabilities which are probable and estimatable.

#### 10. MARKETABLE EQUITY SECURITIES

Not applicable.

#### 11. PENSION AND OTHER EMPLOYEE BENEFITS

Soo Railroad provides noncontributory defined benefit plans covering substantially all non-union employees Benefits are based on final average pay and years of service. Benefits are funded by Soo Railroad contributions and plan earnings consistent with minimum funding requirements of federal law and regulations. Plan assets consist principally of listed equity securities and U.S. Government and corporate obligations.

Net pension cost consists of the following (dollars in thousands):

|   | 1995            | 1994            |
|---|-----------------|-----------------|
| Service cost-benefits earned during the year  | \$ 649          | \$ 811          |
| Interest cost on projected benefit obligation | 5,842           | 5,642           |
| • • •   | 6,491           | 6,453           |
| Actual (gain)/loss on plan assets             | (9,632)         | 697             |

# 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued NOTES TO FINANCIAL STATEMENTS

#### 11. PENSION AND OTHER EMPLOYEE BENEFITS (Continued)

On January 16, 1995, Soo Railroad established a non-contributory defined benefit retirement plan for eligible United Transportation Union (UTU) employees. Eligible UTU employees who elected a buyout of certain compensation based workrule payments became participants in the plan on that date. The election period during which eligible employees could join the plan expired on December 31, 1995.

Under terms of the plan, upon retirement, eligible employees may elect payments in either a lump sum or an annuity. Payment is based on the eligible employee's total Annual Benefit Credits when they terminate employment with Soo Railroad and its affiliates.

A present value liability of \$4.9 million was recorded at the date of inception of this plan to cover all future payments. The liability was originally included in a special charge related to the anticipated UTU contract agreement in 1992.

Benefits are funded by Soo Railroad contributions and plan earnings consistent with minimum funding requirements of federal law and regulations. Plan assets consist of temporary cash investments at December 31, 1995.

1005

The net pension consists of the following (dollars in thousands):

| Service cost — benefits earned during the year<br>Interest cost on projected benefit obligation | \$ 1,069<br>0 |
|---|---------------|
| Actual (gain) on plan assets  | 1069          |
| Net amortization Net pension expense  | s <u>456</u>  |

The funded status of the plan and the amount recognized on Schedule 200 are as follows: (dollars in thousands):

| A struction account ambigues of base of the children           |      | 1333  |
|--|------|-------|
| Actuarial present value of benefit obligation: Vested benefits | S    | 1,035 |
| Non-vested benefits  |      | 44    |
| Projected benefit obligation                                   | •    | 1,079 |
| Plan assets at fair value                                      | •    | 207   |
| Unfunded status  | •    | 872   |
| Deferred credit to be amortized over plan life                 |      | 4,234 |
| Accrued pension liability                                      | \$ ( | 5,106 |

The discount rate used for valuing the projected obligation was 7.25% at December 31, 1995.

Soo Railroad provides defined contribution savings plans to several groups of employees. Participants are fully vested in Soo Railroad's contribution. Participants may contribute certain percents of their annual compensation to the plans and Soo Railroad in some cases will also make a contribution on the participant's behalf. The total annual expense for all such plans for 1995 and 1994 was \$886,000 and \$876,000, respectively.

Soo Railroad makes loans to certain employees as part of its relocation policy. As of December 31, 1995 and 1994, \$1.9 million and \$2.0 million of these loans were outstanding, respectively.

Effective in 1992, the majority of Soo Railroad's active and retired employees were converted from multi-employer insured health care and death benefit coverage to Soo Railroad's self-funded coverage. Certain train crew members continue to be covered under multi-employer insurance programs. Benefits for retired employees generally include major medical coverage to age 65 and a small lump sum death benefit, both based on certain age and service requirements. Post retirement benefits other than pensions are accounted for as shown below for all employees.

The net periodic cost consists of the following (dollars in thousands):

|  |   | 1333                           |        | 1994                           |

11

#### 11. PENSION AND OTHER EMPLOYEE BENEFITS (Continued)

Accumulated post retirement benefit obligation (in thousands):

|  |            | 19 <del>9</del> 5 |    | 1994    |
|--|------------|-------------------|----|---------|
| Retirees   | \$         | 11,167            | \$ | 12,024  |
| Fully eligible active plan participants          |            | 2,470             |    | 2,456   |
| Other active plan participants                   |            | 24,424            |    | 21,841  |
| Net unrecognized (loss)                          | _          | (8,488)           | _  | (7,894) |
|  | s <u> </u> | 29,573            | \$ | 28,427  |
| Next year's expected health care cost trend rate |            | 10.0%             |    | 11.0%   |
| Overall expected health care cost trend rate     |            | 6.0%              |    | 6.0%    |
| Discount rate                                    |            | 7.25%             |    | 8.5%    |

The impact of a 1% increase in the health care cost trend rate would increase the accumulated post retirement benefit obligation by approximately \$3.5 million at year end 1995 and the net periodic cost by approximately \$.4 million for the year.

#### 12. TRANSACTIONS WITH RELATED PARTIES

Advances payable to Parent totalled \$280.4 million and \$178.6 million at December 31, 1995 and 1994, respectively.

In December 1995 and 1994 Soo Railroad sold a portion of its accounts receivable to Canadian Pacific Securities (Ontario)
Limited, a subsidiary of CP. As a result of these sales, Soo Railroad recorded a pretax loss in Schedule 210 (the income statement).
Soo Railroad serves as collection agent and remits funds to the purchaser as collected through February 1996 and 1995, and also indemnifies for any collection losses. Selected data regarding these sales is as follows (dollars in millions):

|                            |   | 1995 |   | 1994 |
|----------------------------|---|------|---|------|
| Amount of receivables sold | s | 72.0 | S | 85.0 |
| Proceeds from sale         |   | 71.5 |   | 84.2 |
| Pretax loss                |   | 0.5  |   | 0.8  |
| Contingent liability       |   | 1.3  |   | 2.2  |

Refer also to Schedule 512

#### 13. ACCOUNTS RECEIVABLE

Soo Railroad sold 65% and 80% of its accounts receivable as of December 31, 1995 and 1994, respectively. The balances which were not sold are presented net of allowances of \$541,000 and \$557,000, respectively.

#### 14. HEDGING

Soo Railroad uses futures as hedges in its diesel fuel purchasing program. Gains and losses on such transactions are matched to specific inventory purchases and are charged or credited to operating expenses when such inventory is used. Deposits with futures brokers are included in other current assets.

Soo Railroad also used Canadian currency futures contracts in order to lock in its purchase price in fixed U.S. dollars on its 1995 and 1994 covered hopper acquisition program with Canadian car building companies. Since the futures contracts were used in relation to capital acquisitions, all gains and losses associated with the Canadian dollar currency futures contract transactions were capitalized as a component of the assets acquired.

### 210. RESULTS OF OPERATIONS (Dollars in thousands)

- Disclose the requested information for the respondent pertaining to the results of operations for the year.
- Report total operating expenses from Schedule 410 of this report. Any
  disparities in expense amounts shown in this schedule & expense
  amounts reported in Sch. 410 must be fully explained on pg. 18.
- List dividends from investments accounted for under the cost method
  on the appropriate line No. 19 for account No. 513, "Dividend
  Income". List dividends accounted for by the equity method on
  on the appropriate dividend line No. 25 under the "Income from
  Affiliated Companies" subsection of this schedule.
- 4. All contra entries hereunder should be indicated in parenthesis.

#### **NOTES AND REMARKS FOR SCHEDULES 210 AND 220**

#### 1. SPECIAL CHARGES

In 1995 Canadian Pacific announced a corporate restructuring program to improve the performance of the railway business and achieve increased returns for shareholders. This program also impacted Soo Railroad, and the following operating expense special charges were recorded in the fourth quarter 1995 as shown below (dollars in thousands):

|                                       |                |         | Schedule 410 |        | Schedule 410         |
|---------------------------------------|----------------|---------|--------------|--------|----------------------|
|                                       |                | Amount  | Line         | Column | Line Description     |

| Total                                 | s <sup>—</sup> | 289,700 |              |        |                      |

#### 2. TRANSACTIONS WITH RELATED PARTIES

Soo Railroad is being charged the full impact on Schedule 210 (the income statement) for all transactions effected by Parent since Soo Railroad is the only active subsidiary of Parent. Interest expense, net pushed down to Soo Railroad earnings in 1995 and 1994 was \$30.4 million and \$16.5 million. In addition, Soo Railroad was charged in 1995 for Parent's \$3.1 million after tax extraordinary loss for early extinguishment of debt.

#### 3. SHAREHOLDER'S EQUITY

In accordance with FAS 87, "Employers Accounting for Pensions", Soo Railroad reported a \$1.2 million reduction of equity at December 31, 1995 related to its unfunded pension liabilities.

#### 220. RETAINED EARNINGS

(Dollars in thousands)

- Show below the items of Retained Earnings Accounts of the respondent for the year, classified in accordance with the Uniform System of Accounts for Railroad Companies.
- 2. All contra entries hereunder should be shown in parentheses.
- 3. Show under 'Remarks' the amount of assigned Federal income tax consequences for Accounts 606 and 616.
- 4. Segregate in column (c) all amounts applicable to the equity in undistributed earnings (losses) of affiliated companies based on the equity method of accunting.
- 5. Line 3 (line 7 if debit balance), column (c), should agree with line 26, column (b), Schedule 210. The total of columns (b) and (c), lines 3 and 7, should agree with line 61, column (b), Schedule 210.
- 6. Include in column (b) only amounts applicable to retained earnings exclusive of any amounts included in column (c).

If any dividends have not been declared on cumulative preferred stock, give cumulative undeclared dividends at beginning of year and ead of year.

#### ŠĘ. ŠĘ. 2 12 12 For the purposes of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from controls by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent, and not canceled or retired, they are considered to be nominally outstanding. Additional Capital In Treasury Book Value at End of Year $\in$ $\epsilon$ Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues. Outstanding The purpose of this part is to disclose capital stock changes during the year. Column (a) presents the items to be disclosed. Columns (b), (d) and (f) require disclosures of the number of preferred, common and treasury stock, respectively, applicable to the items presented in column (a). Columns (b), (e) and (g) require the applicable disclosure of the book values of preferred, common and treasury stock. Disclose in column (h) the additional paid—in capital realized from changes in capital stock during year. Unusual circumstances arising from changes in capital stock changes shall be fully explained in footnotes to this schedule. 246,176 246.176 Amoun 8 8 Treasury Stock Outstanding 7,586,283 Number of Shares 7,586,283 $\boldsymbol{\varepsilon}$ $\boldsymbol{\varepsilon}$ SUMMARY OF CAPITAL STOCK CHANGES DURING YEAR In Treasury 246,176 246,176 Amount ၜ 9 Number of Shares Common Stock 7.586.283 Number of Shares 7.586.283 586 28 586.28 ssued PART I. #### 240. STATEMENT OF CASH FLOWS

1;

(Dollars in thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers and cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If direct method is used, complete lines 1-41; indirect method, complete lines 10-41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller; obtaining an asset by entering into a capital lease; and exchanging noncash assets or liabilities. Some transactions are part cash and part noncash; only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of Cash Flows, for further details.

<sup>\*</sup> See Schedule 200, Footnotes 12 and 13 Page 10, regarding accounts receivable sale.

Notes: (A) Use common carrier portion only. Common carrier refers to railway transportation service.

- (B) Rent income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 314, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.
- (C) If result is negative, use zero.

<sup>\*\*</sup> See Schedule 210, Footnote 1 Page 10, regarding restructuring charges.

#### GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A

- 1. Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721, "Investments and advances, affiliated companies", in the Uniform System of Accounts for Railroad Companies.
- 2. List the investments in the following order and shows total for each group and each class of investments by accounts in numerical order:
  - (A) Stocks
    - (1) Carriers active
    - (2) Carriers-inactive
    - Noncarriers—active
    - Noncarriers—inactive
  - Bonds (including U.S. Government bonds)
  - Other secured obligations
  - Unsecured notes
  - Investment advances
- The subclassification of classes (B), (C), (D) and (E) should be the same as that provided for class (A). The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporation, the symbols and industrial classification to be as follows:

  Symbol Kind of Industry Symbol
  - Agriculture, forestry, and fisheries
  - Mining П
  - Ш Construction
  - IV Manufacturing
  - Wholesale and retail trade
  - VI Finance, insurance, and real estate
  - VΠ Transportation, communications, and other public utilities
  - Services
  - IX Government
  - All other
- 5. By carriers, as the term is used here, is mean toompanies owning or operating railroads, facilities auxiliary there to such as bridges, ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transports fon equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.

  6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining
- companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classed as noncarrier
- companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.

  7. By an active corporation is mean tone which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it main mins an organization it does so only for the purpose of complying with legal requirements and main mining title to property or franchises.
- 8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.
- 9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current
- 10. Do not include the value of securities issued or assumed by respondent.
- 11. For affilia tes which do not report to the Interstate Commerce Commission and are jointly owned, disclose in foo tnotes the name and extent of control of the other controlling entities.

#### SCHEDULE OF CONTROLLED COMPANIES (See footnotes on page 25)

Name of Controlled Company

Other Controlling Companies

MT Properties, Inc.

BNSF - 37.78%; UP - 36.72%; Whirlpool - 12.75%

Belt Railway Company of Chicago

CSXT-25%; BNSF, Conrail-16.67% each: GTW, ICG, N&W, and UP - 8.33% each

Indiana Harbor Belt Railroad Company

Conrail - 51%

Kansas City Terminal Railway Company

UP - 33.33%; BNSF - 25%; CM&W,

SSW, KCS, N&W - 8.33% each

Trailer Train

Various others

#### 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

- Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking Funds", 716, "Capital Funds", 721, "Investments and Advances Affiliated Companies", and 717, "Other Funds".
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on Page 25, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).
- 3. Indicate by means of an arbitrary mark in column (d) the obligations in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.
- 4. Give totals for each class and for each subclass and a grand total for each account.
- 5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19\_\_\_\_ to 19\_\_\_". Abbreviations in common use in standard financial publications may be used to conserve space.

# 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES - Continued (Dollars in thousands)

July 20 14 14

- 6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be shown in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.
- 7. If any advances reported are pledged, give particulars in a footnote.
- 8. Investments in companies in which neither the original cost or present equity in total assets are less than \$10,000 may be combined in one figure.
- Also included should be investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis).
- 10. This schedule should not include securities issued or assumed by respondent.
- 11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, give names and extent of control of other entities by footnotes.

#### INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

10.

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property", and Account No. 732, "Improvements on Leased Property", classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.
- 2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged", of the Uniform System of Accounts for Railroad Companies for such items.
- In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
- In columns (c) and (e) should be included all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
- 5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.
- 6. Both the debit and credit involved in each transfer, adjustment, or clearance between road and equipment accounts, should be included in the column in which the item was initially included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- If during the year an individual charge of \$100,000 or more was made to Account No. 2, "Land for Transportation Purposes", state in a footnote the cost, location, area, and other details which will identify the property.
- 8. Report on line 29 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks" below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$2,000 is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

**NOTES AND REMARKS**

(Dollars in thousands)

1. Show in columns (b) and (e), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and (f) show the depreciation base used to compute the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-22-00, 35-22-00, and 35-25-00. It should include the cost of equipment and leased to others when the rents therefrom are included in the rent for equipment Accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, and 36-25-00, inclusive. The composite rates used should be those presribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos.

3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.

5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

| <del></del> | leased from others represents less than 5% of total road owned or total equipment owned, respectively.  OWNED AND USED  LEASED FROM OTHERS |              |             |              |  |  |              |  |

Road Initials: SOO Year: 1995

# 335. ACCUMULATED DEPRECIATION - ROAD AND EUIPMENT OWNED AND USED (Dollars in thousands)

- 1. Disclose the required information in regard to credits and debits to Account No. 735, "Accumulated Depreciation: Road and Equipment Property", during the year relating to owned and used road equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals—Credit—Equipment" accounts and "Other Rents—Credit—Equipment" accounts. Exclude any entries of depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental—Debit—Equipment" accounts and "other Rents—Debit—Equipment" accounts. (See Schedule 351 for the accumulated depreciation to road and equipment owned and leased to others.)
  - 2. If any data are included in columns (d) or (f), explain the entries in detail.
  - 3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."
- 4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.
  - 5. Enter amounts representing amortization under an authorized program other than for defense projects on lines 29 and 39.

### 339. ACCRUED LIABILITY - LEASED PROPERTY (Dollars in thousands)

- 1 Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property", during the year concerning road and equipment leased from others.
- 2. In column (c), enter amounts charged to operating expenses; in column (e), enter debits to account arising from
- retirements; in column (f), enter amounts paid to lessor.

  3. Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained.
- 4. Required disclosure may be omitted if leased road and equipment property represents 5% or less of total property owned and used.
- 5. If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account 772 are made by the accounting company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof.

# 340. DEPRECIATION BASE AND RATES-IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to account 732, "Improvements on Leased Property". The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

4. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of the total road owned or total equipment owned, respectively. However, line 41, Grand Total, should be completed.

# 342. ACCUMULATED DEPRECIATION - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in thousands)

1. Enter the required information concerning debits and credits to account 733, "Accumulated Depreciation-Improvements on Leased Property", during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent.

2. If any entries are made for column (d) "Other credits" or column (f) "Other debits", state the facts occasioning such entries on page 35. A debit balance in column (b) or (g) for any primary account should be shown in parenthesis or designated "Dr".

3. Any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses should be fully explained on page 35.

4. Show in column (e) the debits to the reserve arising from retirements. These debits should not exceed investment, etc.

5. Details in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39 Grand Total, should be completed.

Road Initials: SOO Year: 1995

### 40

# 350. DEPRECIATION BASE AND RATES-ROAD AND EQUIPMENT LEASED TO OTHERS (Dollars in thousands)

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00 and 32-23-00.

2. Show in columns (b) and (c), for each property account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Commission's Bureau of Accounts, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given.

3. In column (d) show the composite rates used to compute the depreciation for December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also

computed by the depreciation base.

4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

5. If the total road leased to others is less than 5% of the total road owned; omit. If total equipment leased to others is less than 5% of total equipment owned; omit. However, line 39, Grand Total, should be completed.

Note 1: Total road and equipment leased to others is less than 5% of total owned.

# 351. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT LEASED TO OTHERS (Dollars in thousands)

- This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00.
   Disclose credits and debits to Account 735, "Accumulated Depreciation-Road Equipment Property", during the year
- 2. Disclose credits and debits to Account 735, "Accumulated Depreciation—Road Equipment Property", during the year relating to road and equipment leased to others, the depreciation charges for which are not includible in operating expenses of the respondent. (See Schedule 330 for the reserve relating to road and equipment owned and used by the respondent).

į

- 3. If any entries are made for "Other credits", and "Other debits", state the facts occasioning such entries. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr".
- 4. Details in the respective sections of this achedule may be omitted if either total road leased to others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

### 352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company) (Dollars in thousands)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment 1. Disclose the investment in raitway property used in transportation service at the close of the year. This investment represents the aggregate of the property owned or leased by the respondent and used in the respondent's transportation service. Such property includes (a) the investment reported in Accounts 731, "Road and Equipment Property", and 732, "Improvements on leased property", of the respondent, less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent. used by the respondent.

2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company (P), and other leased properties, (O).

3. In columns (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company in column (d) and (e). Then show as deductions, data for transportation property leased to carriers and others.

to carriers and others.

4. In column (c), line – haul carriers report the miles of road used in line – haul service. Report miles in whole numbers.

5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 24, on the asset side of the comparative general balance sheet of each individual railway, should be explained in a footnote. Book value included in Accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

reserves therefor are recorded.

### 352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE

 $\cdot \cdot \cdot \cdot \cdot \cdot \cdot$ 

(By Property Accounts)
(Dollars in thousands)

- 1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.
- 2. The amounts for respondent and for each group or class of companies and properties on line 44 herein, should correspond with the amounts for each class of company and properties shown in schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.
- 3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners, and briefly explain on page 37 methods of estimating value of property of non-carriers or property of other carriers.
- 4. Report on line 30 amounts not includible in the accounts shown, or in line 29. The items included should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

# 412. WAY AND STRUCTURES (Dollars in thousands)

1. Report freight expenses only.

2. The total depreciation expense reported in column (b), line 29, should balance to the sum of the depreciation expense reported in schedule 410, column (f) lines, 136, 137 and 138.

3. Report in column (c) the lease/rentals for the various property categories of Way and Structures. The total net lease/rental reported in column (c), line 29 should balance to the net amount reported in schedule 410, column (f), lines 118 through 123, plus lines 130 through 135.

If an entire road or segment of track is leased and if the actual breakdown of lease/rentals by property category is not known, apportion the lease/rentals based on the percentage of the categories' depreciation bases for all categories of depreciable leased property. Use schedule 352B of this report for obtaining the depreciation bases of the categories of leased property.

4. Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a

- 4. Amortization adjustment of each road property type which is included in column (b) shall be repeated in column (d) as a debit or credit to the appropriate line item: the net adjustment on line 29 shall equal the adjustment reported on line 29 of schedule 335.
  - 5. Report on line 28 all other lease rentals not apportioned to any category listed on lines 1 through 27.
  - 6. Line 11, account 16, should not include computer and data processing equipment reported on line 37 of schedule 415.

<sup>\*</sup> Refer to Schedule 210, footnote 1.

# 114. RENTS FOR INTERCHANGED FREIGHT TRAIN CARS AND OTHER FREIGHT-CARRYING EQUIPMENT

(Dollars in thousands)

1. Report freight expenses only

2. Report in this supporting schedule rental information by car type and other freight—carrying equipment relating to the interchange of railroad, owned or leased equipment and privately owned equipment (reporting for leased equipment covers equipment that carrier on railroad markings).

3. The gross amounts receivable and payable for freight—train cars (line 19, columns (b) through (d), and line 19, columns (e) through (g), respectively should balance with Schedule 410, column (f), lines 231 (credits) and 230 (debits). Trailer and container rentals in this schedule 410, column (f), lines 315 and 316. However, the trailer and container rentals in this schedule will not balance to lines 315 and 316 of schedule 410 because those lines include rents for "Other Equipment" which is reported in Schedule 415, column (c). The balancing of schedule 410, 414 and 415 "Other Equipment" is outlined in note 6 to Schedule 415.

Report in columns (b) and (c) rentals for private – line cars (whether under railroad control or not) and shipper – owned cars.
 Report in columns (c), (d), (f) and (g) rentals for railroad owned cars prescribed by the Commission in EX Parte no. 334, for which rentals are settled on a combination mileage and time basis (basic per diem). Include railroad owned per diem tank cars on line 17.
 NOTES: Mechanical designations for each car type are shown in Schedule 710.

### GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

- 1. Report freight expenses only.
- Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general).
- 3. Report in column (b) net repair expense excluding the cost to repair damaged equipment.

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows:

- (a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202,203 plus 216 (excluding wreck repairs). Do not report in schedule 415, Equipment Damaged from Schedule 410, line 204.
- (b) Freight Cars, line 24 plus line 39 compared to the sum of Schedule 410, lines 221, 222 plus 235 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
- (c) Sum of Highway Equipment (line 32), Floating Equipment (line 35), Passenger and Other Revenue Equipment (line 36), Computer and Data Processing Equipment (line 37), Machinery—Other Equipment (line 40), plus Work and Other Non—Revenue Equipment (line 41) compared to Schedule 410, the sum of lines 302 through 307, inclusive, plus line 320 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 308.

Note: Lines 216, 235 and 320 of Schedule 410 are credit amounts.

The allocation of freight car repair expense reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing, 49 CFR 1201.

4. Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d). For improvements on leased property, Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342.

Depreciation charges reported on columns (c) and (d) will balance to Schedule 410, column (f), as Follows:

- (a) Locomotives, line 5 plus 38 compared to Schedule 410, line 213.
- (b) Freight Cars, line 24 plus line 39 compared to schedule 410, line 232.
- (c) Sum of Highway Equipment (line 32); Floating Equipment (line 35); Passenger and Other Revenue Equipment (line 36); Computer and Data Processing Equipment (line 37); Machinery—Other Equipment (line 40); and Work and Other Non—Revenue Equipment (line 41) compared to Schedule 410, line 317.
- 5. Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item; the net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335.
- 6. Lease/Rentals reported in column (f) should balance to column (f) of Schedule 410 as follows:
  - (a) Locomotives, line 5 plus 38 compared with Schedule 410, lines 207, 208, 211 and 212.
  - (b) Freight Cars, line 24 plus 39 compared with Schedule 410, lines 226 plus 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414 and are not to be included in Schedule 415).
  - (c) Sum of Lease/Rentals for All Other Equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing Lease/Rentals Other Equipment to Schedule 410. Do not report in Schedule 415 the Trailer and Container rentals reported in Schedule 414.
- 7. Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of Equipment Used But Not Owned when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the Cost of Equipment Owned and Leased to Others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00, and 36-23-00.

Property Used But Not Owned should also be included when the rent is included in Account Nos. 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h), of Schedule 415.

Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j). The grand total of each equipment
reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items
constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415.

<sup>1</sup> The data to be reported on lines 38, 39 and 40 in columns (g) and (h) is the investment recorded in Property Account 44, allocated to Locomotives, Freight Cars, and Other Equipment.

to Locomotives, Freight Cars, and Other Equipment.

The depreciation to be reported on lines 38, 39 and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for Property Account 44, and then adding or subtracting the adjustment reported in column (e). This calculation should equal the amount shown in column (c), Schedule 335.

# 417. SPECIALIZED SERVICE SUBSCHEDULE – TRANSPORTATION

(Dollars in thousands)

1. Report freight expenses only

incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or 2. Report in lines 1, 2, 3, 4 and 10 the total of those natural expenses (salaries and wages, material, tools, supplies, fuels and lubricants, purchased services and general) within specialized service facilities.

respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410. Railway Operating Expenses. 4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal 3. When necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the

area for the purpose of pick - up, delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See schedule 755, note R.

5. The operation of floating equipment in line - haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a

Report on line 2, column (g), the expense incurred by the railroad in moving automobiles, etc., between bi-level and tri-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and 6. Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. general terminal or harbor area should be reported in column (c), line 3.

7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/OOFC trailers and containers (total debits and credits). The expenses on line 4. column (h), relate to refigerator cars only,

8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations and livestock feeding operations only.

Road Intials: SOO Year: 1995

### Schedule 418

### Instruction:

This schedule will show the investment in capitalized leases in road and equipment by primary account.

### **Column**

- (a) = primary account number and title for which capital lease amounts are included therein.
- (b) = the total investment in that primary account.
- (c) = the investment in capital leases at the end of the year.
- (d) = the current year amortization.
- (e) = the accumulated amortization relating to the leased properties.

## 418. SUPPORTING SCHEDULE - CAPITAL LEASES

(Dollars in thousands)

| 10          |                | Total - U.S. Government Taxes       | 50,042     | 10          |
| 11          |                | Total Railway Taxes                 | 59,727     | 11          |

### B. Adjustments to Federal Income Taxes

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption Other (Specify), including State and other taxes deferred if computed separately. Minor items, each less than \$100,000, may be combined in a single entry under Other (Specify).

2. Indicate in column (b) the beginning of the year total of Accounts 714, 744, 762 and 786 applicable to each particular item in

column (a).

3. Indicate in column (c) the net change in Accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects

(credits or debits) due to applying or recognizing a loss carry-forward or loss carry-back.

5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557,

Provision for Deferred Taxes, and Account 591, Provision for Deferred Taxes – Extraordinary Items, for the current year.

6. Indicate in column (e) the cumulative total of columns (b), (c) and (d). The total of column (e) must agree with the total of Accounts 714, 744, 762 and 786.

| Line<br>No. | Particulars (a)  | Beginning<br>of year<br>balance<br>(b) | Net credits<br>(charges) for<br>current year<br>(c) | Adjustments<br>(d) | End of year balance (e) | Line<br>No. |

# 450. ANALYSIS OF TAXES - Continued (Dollars in thousands)

### \*Footnotes:

| If deferral method for investment tax credit was elected:                                     |                    |
|---|--------------------|
| (1) Indicate amount of credit utilized as a reduction of tax liability for current year       | \$ N/A             |
| (2) Deduct amount of current year's credit applied to a reduction of tax liability but deferr | red for accounting |
| purposes  | \$ N/A             |
| (3) Balance of current year's credit used to reduce current year's tax accrual                | S N/A              |
| (4) Add amount of prior year's deferred credits being amortized to reduce current year's t    | ax accrual \$ N/A  |
| (5) Total decrease in current year's tax accrual resulting from use of investment tax credits |                    |

In January 1993, Soo Railroad adopted Statement of Financial Accounting Standards No. 109 (FAS 109), Accounting for Income Taxes, which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of other assets and liabilities.

The computation of deferred taxes under FAS 109 provides for the inclusion of judgments about future taxable income, other than temporary item reversals, in the determination of the valuation allowance required. The net change in the valuation allowance for deferred tax assets was an increase of \$48.7 million in 1995 related to net operating loss carryforwards. This increase and Soo Railroad's limitation on recognizing deferred income tax expense credits in 1995 was a result of Parent's net deferred tax liability position at December 31, 1995.

Soo Railroad is included in a federal consolidated tax return with Parent. As of December 31, 1995, Parent and subsidiaries had investment tax and other tax credits and federal tax net operating loss carryforwards (a significant part of which were derived from Soo Railroad) for tax return purposes expiring as follows (dollars in thousands):

|                    |                   | Federal Net Operating Losses |                    |  |

As of December 31, 1995, Soo Railroad had federal and state minimum tax credit carryforwards in the amount of \$4.2 million These credits are available to be carried forward indefinitely without expiration.

### 460. ITEMS IN SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS FOR THE YEAR (Dollars in thousands)

Give a brief description for all items, regardless of amount, included during the year in Accounts 555, Unusual or Infrequent Items; 560, Income or Loss From Operations of Discontinued Segments; 562, Gain or Loss on Disposal of Discontinued Segments; 570, Extraordinary Items; 590, Income Taxes on Extraordinary Items; 592, Cumulative Effect of Changes in Accounting Principles; 603, Appropriations Released; 606, Other Credits to Retained Barnings; 616, Other Debits to Retained Earnings; 620, Appropriations for Sinking Funds; 621, Appropriations for Other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.

For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10%

of net income before extraordinary items, describe the three largest items in the account and any other items in excess of 10% of

net income.

# 502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS (Dollars in thousands)

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short—term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.

2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.

3. Compensating balance arrangements need only be disclosed for the latest fiscal year.

- 4. Compensating balances included in Account 703, Special Deposits and in Account 717, Other Funds, should also be separately disclosed below.
- 5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written or oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).

6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Soo Railroad has a \$5 million bank credit line, which remained unused throughout 1995.

## SCHEDULE 510 SEPARATION OF DEBTHOLDINGS BETWEEN ROAD PROPERTY AND EQUIPMENT (Dollars in thousands)

The principal use of this schedule is to determine the average embedded rate of debt capital.

## I. Debt Outstanding at End of Year:

Note 1: Directly related means the purpose which the funds were used when the debt was issued.

Note 2: Line 16 plus Line 17 must equal Line 9.

Note 3: Line 21 includes interest on debt in Account 769——Accounts Payable; Affiliated Companies.

Note 4: This interest relates to debt reported in Lines 10 and 11, respectively. Note 5: Line 25 plus Line 26 must equal Line 21.

<sup>\*</sup> Excludes interest expense 'pushed down' from Parent for income purposes with no related Soo Railroad debt on balance sheet.

<sup>\*\*</sup> Use of yearend debt balances for determining these interest rates may not be meaningful.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 512

1. Furmish the information called for below between the respondent and the affiliated companies or persons affiliated with the respondent, including officers, directors, stockholders, owners, partners or their wives and other close relatives, or their agents. Examples of transactions are, but are not restricted to, management, legal, accounting, purchasing or other type of service including the furnishing of materials, supplies, purchase of equipment, leasing of structures, land and equipment, and agreements relating to allocation of officers' salaries and other common costs between affiliated

To be excluded are payments for the following types of services:

- (a) Lawful tariff charges for transportation services.
- (b) Payments to or from other carriers for interline services and interchange of (c)
- (c) Payment to or from other carriers which may reasonably be regarded as ordinarily connected with routine operation or maintenance, but any special or unusual transactions should be reported.
  - (d) Payments to public utility companies for rates or charges fixed in conformity with government authority.
- 2. In column (a) enter the name of the affiliated company, person, or agent with which respondent received or provided services aggregating \$50,000 or more for theyear. If an affiliated company provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, list all the affiliates included in the agreement and describe the affocation of the charges. If the respondent provides services to more than one affiliate, and the aggregate compensation amounts to \$50,000 or more for the year, reference to this fact should be made and the detail as to the allocation of charges should be stated. For those affiliate's gross income derived from transactions with the respondent.

The respondent may be required to furnish as an attatchment to Schedule 512 a halance sheet and income statement for each affiliate with which respondent carrier had reportable transactions during the year, or alternatively, attatch a "Pro forma" balance

sheet and income statement for that portion or entity of each affiliate which furnished the agreed to services, equipment, or other reportable transaction. The statements, if required, should be prepared on a calendar year basis in conformity with the prescribed schedules for the balance sheet and income statement in Annual Report Form R-1, and should be noted (1) to indicate the method used for depreciating equipment or other property furnished the carrier, and (2) whether the affiliate's Federal income tax return for the year was filed on a consolidated basis with the respondent carrier.

- 3. In column (b) indicate nature of relationship or control between the respondent and the company or person identified in column (a) as follows:
  - (a) If respondent directly controls affiliate, insert word "direct".
- (b) If respondent controls through another company, insert the word "indirect".
- (c) If respondent is under common control with affiliate, insert the word "common".
- (d) If respondent is controlled directly or indirectly by the company listed in column (a), insert the word "controlled".
- (e) If control is exercised by other means such as a management contract or other arrangement of whatever kind, insert the word "other" and footnote to describe such arrangements.

  4. In column (c) fully describe the transactions involved such as management fees,
- 4. In column (c) fully describe the transactions involved such as management fees, lease of building, purchase of material, etc. When the affiliate listed in column(a) provides more than one type of service in column (c), list each type of service separately and show total for the affiliate. When services are both provided and received between the respondent and an affiliate they should be listed separately and the amounts shown separately in column (e).
- In column (d) report the dollar amounts of the transaction shown and the effect of any change in the method of establishing the terms from that used in the preceding period.
- 6. In column (e) report the dollar amounts due from or to related parties and, if not otherwise apparent, the terms and manner of settlement. Insert (P) paid and (R) received by the amount in column (e).

Road Initials: SOO Year: 1995

## 515. RAILS LAID IN REPLACEMENT

(Dollars in thousands)

Give particulars of all rails applied during the year in connection with replacement of rail in previously constructed tracks maintained by the respondent.

In column (a) classify the kind of rail applied as follows:

New steel rails, Bessemer process.
 New steel rails, open – hearth process.
 New rails, special alloy (describe more fully in a footnote).
 Relay rails.

Returns in columns (c) and (g) should be reported in whole numbers. Fractions of less than one—half should be disregarded, and fractions of one—half or more should be counted as one.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classification:

(1) Line owned by respondent

(2) Line owned by proprietary companies

(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent

(4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent

(5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes. Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one—half mile and over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.

In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distance between termini of single or first main track), and in the following columns the lengths of second main track; all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks; and yard swirthing tracks. These classes of tracks are defined as follows:

Running tracks: Running tracks, passing tracks, cross—overs, etc., including turn—outs from those tracks to clearance points. Way switching tracks: Station, team, industry and other switching tracks for which no separate service is maintained.

Yard switching tracks: Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included.

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e. one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rest in a corporation controlled by or controlling the respondent, but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a botmote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs: if it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property,

with a specific and unconditional rent reserved. The fact that the lessor does not maintain an independent organization for

financial purposes is immaterial in this connection.

Class (4) is the same as class (3), except that the rent reserved is conditional upon earnings or other fact.

Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also all main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them, but does not have exclussive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class, and the entry of length should be the entire length of the portion jointly held. The class symbol should have

the letter (j) attatched.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

Year: 1995

Road Initials: SOO Year: 1995

# 702. MILES OF ROAD AT CLOSE OF YEAR – BY STATES AND TERRITORIES (SINGLE TRACK)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease, or under any joint arrangement, should be shown in column (b), as may be appropriate. The remainder of jointly operated mileage should be shown in column (f). Respondent's proportion of road jointly owned, not operated, should be shown in column (h), as may be appropriate. Mileage which has been permanently abandoned should not be included in column (h).

Mileage should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one—half mile and over as a whole mile and disregarding any fraction

less than one—half mile.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 710

Instructions for reporting becomo tive and passenger-train cardata.

1. Give particulars of each of the various classes of equipment which respondent owned or lessed during the year.

2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (1). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "bocomotive unit" is a self—propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead tocomotive unit in combination with other locomotive units. A "B" unit to an "A" unit, but not equipped for use singly or as a lead bocomotive unit. A "B" unit may be equipped with hostler controls for independent operation at terminals.

final to equipped with notice of the properties

increased and proposed specifications.

A "diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive or whether power may at times be supplied from an external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "electric" unit includes all units which receive electric power from an overhead contact wire or a third rail, and use the power to drive one or more electric motors that propel the vehicle. An "other self-powered unit" includes all units other than diesel, or electric, e.g., steam, gas urbine. Show type of unit, service and number, as appropriate, in a brief description sufficient for positive identification. An "auxiliary unit" includes all units used in conjunction with becomptives, but which draw their power from the "mother" unit, e.g.,

boosters, shigs, etc. For reporting purposes, indicate radio—controlled self—powered diesel units on lines 1 through 8, as appropriate. Radio—controlled units that are not self—powered, i.e., those without a diesel, should be reported on line 13 under "auxiliary units".

follows: For boomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the maximum generator or generators for tractive purposes). Exclude capacity data for steam boomotives. For passenger—train cars report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

8. Passenger—train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Officeial Railway Equipment Register.

9. Cross-checks

Schedule 710 Schedule 710

Line 5, column (j) = Line 11, column (l)

Line 6, column (j) = Line 13, column (l)

Line 8, column (j) = Line 14, column (l)

Line 9, column (j) = Line 15, column (l)

Line 10, column (j) = Line 15, column (l)

When data appear in column (j) lines 1 thru 8, column (k) should have data on lines.

When data appear in columns (k) or (l) lines 36 thru 53, and 55, column (m) should have data on same lines.

## 710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight—train car data.

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are reportable in column (n). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i). Units rented from others for a period less than one year should not be included in column (j).

## 710. INVENTORY OF EQUIPMENT - Continued

4. Column (m) should show the aggregate capacity for all units reported in columns (k) and (l), as follows. For freight—train cars, report the nominal capacity (in tons of 2,000 lbs.) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily.

5. Time mileage cars refer to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another

railroad.

NOTES AND REMARKS

710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR (Dollars in thousands)

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S) including units acquired through capitalized leases (L).

2. In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger—train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad.

6. All unequipped boxcars acquired in whole or part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

# BENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULES 720, 721, 723 AND 726

For purposes of these schedules, the track categories are defined as follows:

Track category'

A - Freight density of 20 million or more gross ton-miles per track mile per year (include passing tracks, turnouts and crossovers).

B - Freight density of less than 20 million gross ton - miles per track mile per year, but at least 5 million (include passing tracks, turnouts and crossovers).

C - Freight density of less than 5 million gross ton - miles per track mile per year, but at least 1 million (include passing tracks, turnouts and crossowers).

D - Freight density of less than 1 million gross ton-miles per track mile per year (include passing tracks, turnouts and crossovers).

E - Way and yard switching tracks (passing tracks, crossovers and turnouts shall be in category A, B, C, D, F and potential abandonments, as appropriate).

F - Track over which any passenger service is provided (other than potential abandonments). Mileage should be included within track categories A through

E unless there is dedicated entirely to passenger service F.

Potential abandonments - Route segments identified by railroads as potentially subject to abandonment as required by Section 10904 of the Interstate Commerce Act.

This schedule should include all class 1, 2, 3 or 4 track from schedule 700 that is maintained by the respondent (class 5 is assumed to be maintained by others). If, for two consecutive years, a line segment classified in one track category maintains a traffic density which would place it in another, it shall be reclassified into that category as of the beginning of the second year. 4 6

Traffic density related to passenger service shall not be included in the determination of the track category of a line segment.

## 20. TRACK AND TRAFFIC CONDITIONS

Disclose the requested information pertaining to track and traffic conditions. \_;

| Line<br>No. | Track category           | Mileage of tracks at end of period (whole numbers) | Average annual traffic density in millions of gross ton – miles per track mile (use two decimal places) | Average running speed limit (use two decimal places) | Track miles under slow orders<br>at end of period | Line<br>No. |

| 7           | ů.                       | 541  | XXXXXXXX  | XXXXXXX  | 0.00  | 7           |
| 80          | 8 Potential abandonments | 205  | N/A   | A/N  | 00:0  | œ           |
|             |                          |  |   |  |   | _           |

\* To determine average density, total track miles (route miles times number of tracks) rather than route miles shall be used.

(1) Total excludes 142 miles of Class 1 and J-1 track that is maintained by others.

## 721. TIES LAID IN REPLACEMENT

- 1. Furnish the requested information concerning ties laid in replacement.

  2. In column (j), report the total board feet of switch and bridge ties laid in replacement.
- 3. The term "spot maintenance" in column (k) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "Percent of spot maintenance" refers to the percentage of total ties or board feet laid in replacement considered to be spot maintenance.
  - 4. In No. 9, the average cost per tie should include transportation charges on foriegn lines, tie trains, loading, inspection and the cost of handling ties in general supply storage and seasoning yards, and in the case of treated ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in connection with loading or treatment should not be included in this schedule.

## 722. TIES LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in thousands)

Give particulars of ties laid during the year in new construction during the year.

In column (a) classify the ties as follows:

U - Wooden ties untreated when applied.

T - Wooden ties treated before application.
S - Ties other than wooden (steel, concrete, etc.). Indicate type in column (h).

In columns (d) and (g) show the total cost, including transportation charges on foriegn lines, tie trains, loading, inspection, and the cost of handling ties in general supply, storage and seasoning yard. In the case of treated ties, also show the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines and placing the ties in tracks, and of train service, other than that necessary in connection with loading and treatment, should not be included in this schedule. Report new and second-hand (relay) ties separately, indicating in column (h) which ties are new.

## 723. RAILS LAID IN REPLACEMENT

- 1. Furnish the requested information concerning rails laid in replacement.
- 2. The term "spot maintenance" in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading
- the general condition of the tracks. Percent of spot maintenance" refers to the percentage of total rails laid in replacement considered to be spot maintenance.

  3. In No. 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, the freight charges paid on foriegn lines and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines and placing the rails in tracks and of train service in connection with the distribution of rails should not be included in this schedule.

## 724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS (Dollars in thousands)

1. Give particulars of all rails applied during the year in connection with the construction of new track. In column (a) classify the kind of rail applied as follows:

(1) New steel rails, Bessemer process.

(2) New steel rails, open-hearth process.

(3) New rails, special alloy (describe more fully in a footnote).

(4) Relay rails.

2. Returns in columns (c) and (g) should be reported in WHOLE numbers. Fractions of less than one—half should be disregarded, and fractions of one - half or more should be counted as one.

3. The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foriegn lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks and of train service in connection with distribution of the rail should not be included in this schedule.

## 725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail" the various weights of rails should be given. Road and track occupied under trackage right or other form of licease should not be included herein, but all road and track held under any form of lease (granting exclusive possesion to the lessee) should be included.

| Line<br>No. | Weight of<br>rails per<br>yard | Line—haul<br>companies (miles<br>of main track) | Switching and ter—<br>minal companies<br>(miles of all tracks) | Remarks      | Line<br>No. |

## 726. SUMMARY OF TRACK REPLACEMENTS

- 1. Furnish the requested information concerning the summary of track replacements.
  2. In columns (d), (e), (g) and (j) give the percentage of replacements to units of property in each track category at year end.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under Items 2, 3, 4, 6, and 12 shall be obtained from conductor's wheel reports (freight) or similar records. Unit train service is a specialized scheduled shuttle type service in equipment (Railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way Trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through Trains are those trains operated between two or more major concentration or distribution points. Do not include Unit Train statistics in Way and Through Train statistics. A Work Train is a train operated solely or preponderantly for the purpose of transporting company freight, work equipment or company employees. Statistics for Work Trains should be reported under Item 11 noty. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, and 8-04 and 8-05 as instructed in notes, I, K, and L.

- (A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks, and sidings.
- (B) A train-mile is the movement of a train a distance of one mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as one mile. Train Miles-Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the offical time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars.
- (C) À motorcar is a self-propelled unit of equipment designed to carry freight or passenger traffic, and is not considered a locomotive.
- (D) A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of one mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
- (E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instructions (B) regarding fractions and official time tables for computing locomotive-miles.
- (F) Train switching locomotive—miles shall be computed at the rate of six miles per hour for the time actually engaged in such service. Include miles allowed train locomotives for performing switching service at terminals and way stations.
- (G) Yard switching locomotive—miles shall be computed at the rate of six miles per hour for the time actually engaged in yard switching service. Include miles allowed to yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
- (H) Use car designations shown in Schedule 710. Under Railroad Owned and Leased cars, Items 4-01 and 4-11, report both foreign cars and respondents' own cars while on the line of the respondent railroad. In Items 4-13 and 4-15, report the private-line categories, miles for private-line cars (whether or not under railroad control) and shipper-owned cars. A car-mile is a movement of a unit of car equipment a distance of one mile. Report miles made by flatcars carrying loaded highway trailers or empty highway trailers moving under revenue billings as loaded freight car-miles a miles made by flatcars carrying other empty highway trailers as empty freight car-miles. Exclude miles made by motorcars and report miles made by business cars of other than reporting carrier as sleeping car miles in Item 5-03. Report mail, express baggage cars and combination cars other than 5-02 combination cars, in Item 5-05.
- (I) Exclude from Item 4-10, 4-11, 4-13, and 4-15 car-miles of work equipment, cars carrying company freight and no-payment cars moving in transportation trains. Include such car-miles in Item 4-17, 4-18, and 4-19. No payment car-miles are miles made by private-line cars (other than railroad controlled) and shipper-owned cars for which the railroad does not reimburse the owner on a loaded and/or empty miles basis. If the payment for the loaded miles includes the empty miles, the loaded and empty miles should not be considered no-payment car miles.
- (J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express; miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe, and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars; and miles run by other passenger-train cars where services are combined such as baggage, express and mail.
- (K) From conductors' or dispatchers' train reports or other appropriate source, compute weight in tons (2,000 lbs). Item 6-01 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles). Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight (and their contents). Use 150 lbs. as the average weight per passenger, and four tons as the average weight of contents of each head-end car.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - Concluded

- (L) From conductors' train reports or other appropriate source, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and non-revenue freight moved one mile in transportation train. Include net ton-miles in motorcar trains. Exclude i.e.i. shipment of freight handled in mixed baggage express cars. Total Ton-Miles Revenue Freight should correspond to the Ton-Miles reported on Form CBS.
- (M) Road service represents elapsed time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at the final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02 train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.
- (N) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including terminal switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.
- (O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for Railway Comissioners for which no revenue is received, trains running special with fire apparatus to save carrier's property from destruction, trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains, trains run solely for the purpose of transporting company material, trains run for distribting material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives which engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.
- (P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four. two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondents lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
- (Q) Report vehicle (TOFC trailers/containers, automotives and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
- (R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroads' expense. (Performed at railroads' expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service.) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc., when a tariff provision requires the shipper—motor carrier, etc., and not the railroad to perform that service. Note: the count should reflect the trailer/containers for which expenses is reported in Schedule 417 Line 2 Column (b).
- (S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
- (T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below). Foreign railroad Cars refers to freight cars owned by other railroads, whose interline rental is settled on time (by hour) and actual line—haul mileage charges under the code of car hire rules.

Carriers will be governed by local conditions in determining whether a car at an interchange point should be considered "on line". Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awiating switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yard (excluding cars which are to be repaired in train yard without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.

Surplus cars are cars which are in serviceable condition available for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.
