Interstate Commerce Commission

FOR THE YEAR ENDED DECEMBER 31, 1980

This Form for annual report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C. 20423, by March 31 of the year following that for which the report is made. Attention is specially directed to the following provisions of Part I of the Interstate Commerce Act:

Interstate Commerce Act:

Sec. 18145 The Commission is hereby authorized to require annual, periodical, or special reports from carriers, lessors, * * * (as defined in this section), to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors, * * * specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary, classifying such carriers, lessors, * * * as it may deem proper for any of these purposes. Such annual reports shall give an account of the affairs of the carrier, lessor, * * * in such form and detail as may be prescribed by the Commission.

(2) Said annual reports shall contain all the required information for the period of twelve months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which report is made, unless additional time be granted in any case by the Commission.

(7) (c) Any person who shall knowingly and willfully make, cause to be rade, or participate in the making of, any false entry in any annual or other report required under the section to be filled, * * * or shall knowingly or willfully file with the Commission any false report or other document, shall be deemed guilty of a misdemeanor and shall be subject, upon conviction in any court of the United States of competent jurisdiction, to a fine of not more than five thousand dollars or imprisonment for not more than two years, or both such fine and imprisonment: * * *.

(7) (c) Any carrier or lessor, * * * or any officer, agent, employee, or representative thereof, who shall fall to make and file an annual or other report with the Commission within the time it is lawfully required by the Commission so to do, shall for feit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default

The respondent is further required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest

annual report to stockholders. See schedule D, page 7.

2. The instructions in this Form should be carefully observed, and each question should b aswered fully and accurately, whether it has been answered in a p vious annual report or not. Except in cases where they are specif. 'ly authorized, cancellations, arbitrary check marks, and the like should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as , schedule (or line) number "Not applicable; see page

should be used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry inapplicable. Where the word "none" truly and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein

otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, typewritten or other, in a report, they should be legibly made on durable paper and, wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margin; attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink. Those of a contrary character should be indicated in parentheses. Items of an unusual character should be indicated by appropriate symbol and footnote.

6. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each

corporation concerned.

8. Railroad corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to the Interstate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation and whose books contain operating as well as financial accounts; and, a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. In making reports, lessor companies use Annual Report Form R-4

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues of \$50,000,000, or more. For this class, Annual Report Form R-1 is

provided.
Class II companies are those having annual operating revenues less than \$50,000,000 but in excess of \$10,000,000. For this class, Annual Report Form R-2 is provided.

Class III companies are those having annual operating revenues of \$10,000,000, or less. For this class, Annual Report Form R-3

All switching and terr inal companies are designated class III

9. Except where the context clearly indicates some cener meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the Interstate Commerce Commission. RESPONDENT means the person or corporation in whose behalf the report is made. THE YEAR means the year ended December 31 for which the report is made. THE CLOSE OF THE YEAR means the close of business on December 31 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the close of the period covered by the report. THE BEGINNING OF THE YEAR means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. THE PRECEDING YEAR means the year ended December 31 of the year next preceding the year for which the report is made. THE UNIFORM System in Part 1201 of Title 49, Code of Federal Regulations, as amended.

10. Railroads and all companies considered to be carriers under Section 5(3) of the Interstate Commerce Act having gross carrier operating revenues of \$20 million or more shall file hie Annual Report Supplement Corporate Disclosure. This supplement is an integral part of the annual report and shall be submitted concurrently. Subject railroads are not required to file Schedules 380, 381,

Railroads with carrier operating revenues less than \$20 million shall complete all applicable schedules in this report.

NOTES AND REMARKS

On July 20, 1979, The Atchison, Topeka and Santa Fe Railway Company a fifty percent stockholder of the Company and a wholly-owned subsidiary of Santa Fe Industries, Inc., acquired the remaining fifty percent of the outstanding stock held by the Pennsylvania Company (Pennco). Upon execution of the agreement between ATSF and Pennco, ATSF deposited the shares in an independent voting trust pending approval of the transaction by the ICC.

On December 17, 1980, the ICC approved (on Finance Docket No. 29217) the proposed acquisition and authorized consummation of the transaction on or after February 11, 1981. On March 1, 1981, the acquisition was completed and the independent voting trust was liquidated.

240. STATEMENT OF CHANGES IN FINANCIAL POSITION

Give the information as requested concerning the source and application of funds during, the year. Funds for the purpose of this schedule shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for invest-

ment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements.

301. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

- 1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
 - 2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
 - 3. Compensating balance arrangements need only be disclosed for the latest fincal year.
- 4. Compensating balances included in account 703, Special deposits, and in account 717, Other funds, should also be separately disclosed below.
- 5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
- 6. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Compensating Balances

The Railroad does not maintain any compensating balance arrangements either on a formal or an informal basis.

Short-Term Borrowings

As of December 31, 1980 short-term borrowings consisted of a \$750,00 unsecured note with the Commercial National Bank of Peoria, Illinois, interest rate of 14.0% payable with principal on January 26, 1981.

the

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310, 310A and 315

- 1. Schedules 310 and 315 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated and nonaffiliated companies held by respondent at close of year. Specifically, the disclosures should include the investments in the obligations of Federal, state and local governments, and the obligation of individuals. Also, disclose the investments made, disposed of, and written down during the year, and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments in affiliated companies," in the Uniform System of Accounts for Railroad Companies.
- 2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
 - (A) Stocks:
 - (1) Carriers active.
 - (2) Carriers inactive.
 - (3) Noncarriers active
 - (4) Noncarriers inactive.
 - (B) Bonds (including U.S. Government Bonds)
 - (C) Other secured obligations:
 - (D) Unsecured rotes:
 - (E) Investment advances:
 - 3. The subclassification of classes (B), (C), (D), and (E) should be the same as that provided for class (A).
- 4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:

Symbol	Kind of Industry
1	Agriculture, forestry, and fisheries
II	Mining
Ш	Construction
IV	Manufacturing
v	Wholesale and retail trade
V1	Finance, insurance, and real estate
·/II	Transportation, communications, and other public utilities
VIII	Services
IX	Government
X	All other

- 5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges ferries, union depots, and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
- 7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
 - 8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than \$10,000.
 - 9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
 - 10. Do not include the value of securities issued or assumed by respondent.
- 11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.
 - 12. Report dollars in thousands.

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

- 1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes, and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking funds"; 716, "Capital funds"; 721, "Investments advances in affiliated companies"; and 717, "Other funds."
- 2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 21, classifying the investments by means of letters, figures, and symbols in columns (a), (b), and (c).
- 3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged,

- or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.
- Give totals for each class and for each subclass and a grand total for each account.
- 5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19__ to 19__." Abbreviations in common use in standard financial publications may be used to conserve space.
- 6. If any of the companies included in this schedule are controlled by respondent, the percent of control should be given in

Railroad Annual Report R-2

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330 AND 330A

- 1. Give particulars of balances at the beginning and close of the year and of all changes during the year in account No. 731, "Road and Equipment Property," and account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. If account No. 732 for road or for equipment is less than 5% of account No. 731 at the beginning and end of year, the corresponding portion of Schedule 330A may be omitted. The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.
- 2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing, and equipping new lines, and for the extension of old lines, as provided for in Instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies, for such items.
- 3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer, or otherwise.
- 4. In columns (c) and (e), should be included all entries covering expenditures for additions and betterments, as defined, whether replacing other property or not.
- 5. In column (f) should be entered all credits representing property sold, abandoned, or otherwise retired.
- 6. Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts, should be included in the column in which the item was initially

- included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 7. If during the year an individual charge of \$100,000 or more was made to account No. 2, "Land for transportation purposes," state in a footnote the cost, location, area, and other details which will identify the property.
- 8. Report on line 34 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$2000 is used as the minimum debit or credit for additions and betterments to property investment accounts as provided for in Instruction 2-2, of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.
 - 11. Show dollars in thousands.

332. DEPRECIATION BASE AND RATES-ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

1. Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation charges for the month of January and in columns (c) and (f) show the depreciation base used in computing the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December; and on lines 28 and 36 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base account Nos. 218 and 221. It should include the cost of equipment owned, when the rents therefrom are included in the rent for equipment and account Nos. 219 and 221. The composite rates used should be those prescribed or otherwise authorized by the Commission, except that where the use of component rates has been authorized to the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote.

2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.

3. Show in columns (e), (f), and (g), data applicable to property, used but not owned, when the rent therefor is included in account Nos. 207 and 221.

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property a datament to that effect should be read in a count of the property and account to the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property a datament to that effect should be read in account to the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable pro

4. If the depreciation base for accounts 1, 3, 4, 5, and 39 includes nondepreciable property, a statement to that effect should be made in a

footnote.

5. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.

6. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively.

335. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT - OWNED AND USED

1. Disclose the required information in regard to credit; and debits to Account No. 735, "Accumulated depreciation; road and equipment property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals - Credit - Equipment" accounts and Other Rents - Credit - Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental - Debit - Equipment" account and "Other Rents - Debit - Equipment" accounts (See Schedule 342 for the accumulated depreciation relating to road and equipment owned but not used by respondent.)

2. If any data are included in columns (d) or (f), explain the entries ir detail.

3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."

4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.

5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on line 27.

6. Thousand dollar Reporting Rule.

3524. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company)

1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes (a) the investment reported in accounts 731. "Road and equipment property", and 732. "Improvements on leased property", of the respondent less any 731 or 732 property leased to others for their exclusive use of road, tracks, or bridges (including equipment or other railway property covered by the contract). Equipment companies 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment or other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in proper — jointly used by the respondent.

2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or propriets, company (F), and other leased properties (O).

3. In columns (a) to (e), inclusive, Out them the deservation of the contract of the column (a), and other company in this schedule as respondent (R), lessor railroad (L), inactive or propriets, company (F), and other

leased properties (0).

3. In column (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies; followed by data for carriers and others (O), portions of whose property are used in transportation service of the respondent. Show a total for each class of company. Then show, as deductions, data for transportation property lessed to carriers and others.

4. In column (c), line-haul carriers report the miles of youd used in line-haul service, and switching and terminal companies should report the miles of the second of

4. In column (c), line-haul carriers report the miles of voad used in line-haul service, and switching and terminal companies should report the miles of all tracks owned.

5. In column (d), show the simount applicable in accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segrigated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. It separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 33, on the asset side of the comparative general balance sheet of each individual railway should be explained in a footnote. Book value in studed in accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (b) capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of other carriers, should be explained.

6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in accounts 735, 736, and 785, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefor are recorded.

352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE (By Property Accounts)

1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties.

2. The amounts for respondent and for each group or class of companies and properties on line 50 herein, should correspond with the amounts for each class of company and properties shown in schedule 335. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule.

Report on line 32 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where

cost of property leased from other carriers is not ascertainable Identify non-carrier owners, and briefly explain methods of estimating value of property of non-carriers or property of other carriers.

4. Report on line 33 amounts not includible in the accounts shown, or in line 32. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribe accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

360. LEASES-GENERAL INSTRUCTIONS AND DEFINITIONS

A. General Instructions

Disclose in the following schedules the required information concerning leases of the respondent:

Schedule 361 - Capitalized Capital Leases

362 - Noncapitalized Capital Leases

363 - Operating Leases

364 - Lessee Disclosures

Under Docket No. 36604, "Accounting for Leases," the Commission established guidelines for capitalizing all leases entered into after 1/1/77, which meet the criteria of a capital lease. (See 49 CFR 1201, Instruction 2-26). These leases shall be properly disclosed in Schedule 361, "Capitalized Capital Leases." However, for all leases in effect on 12/31/76, respondents may either capitalize these leases immediately or phase in the capitalization requirements through 12/31/80. Thereafter, all capital leases must be capitalized. Noncapitalized capital leases, if any, for this reporting year shall properly be disclosed in Schedule 362, "Noncapitalized Capital Leases."

A general description of the lessee's leasing arrangements shall be included to effect full and complete disclosures. Among the items to be disclosed are:

- The basis on which contingent rental payments are determined.
- The existence and terms of renewal or purchase options and escalation clauses.
- Restrictions imposed by lease agreements, such as those concerning dividends, additional debt, and further leasing.

These and other disclosures shall be included in Schedule 364 and attachments thereto, if necessary.

B. Definitions

- (1) Capital Leases are those leases which meet one or more of the following four criteria:
 - The lease transfers ownership of the property to the lessee by the end of the lease term.
 - The lease contains a bargain purchase option,
 - The lease term is equal to 75 percent or more of the estimated economic life of the property, and
 - The present value at the beginning of the lease term of the minimum lease payments equals or exceeds 90 percent of the fair value of the leased proper y to the lessor at the inception of the lease less any related investment tax credit retained by the lessor.
- (2) Operating leases are those leases which do not meet any of the four criteria pertaining to capital leases.
- (3) Minimum lease payments are the payments that the lessee is obligated to make or can be required to make in connection with the leased property. Executory costs such as insurance, maintenance and taxes in connection with the leased property shall be excluded from minimum lease payments.
- (4) Present value minimum lease payments are lease payments that the lessee is obligated to make or can be required to make, exclusive of executory cost. Moreover, these payments are reduced by amounts representing interest, calculated at the companies' incremental borrowing rate or the implicit rate computed by the lessor.
- (5) Noncancelable lea.e/sublease is one that has an initial or remaining term of one year or more and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.
- (6) Contingent rentals, for the purposes of this report, are rentals paid during the reporting year which depend on some factor other than the passage of time such as rentals based on usage or sales.

450. ANALYSIS OF FEDERAL INCOME TAXES

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the coption "Other", including State and other taxes deferred if competed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other"

2. Indicate in column (b) the beginning of the year total of accounts 714, 744, 762 and 786 applicable to each particular item.

in column (a).

3. Indicate in column (c) the not change in accounts 714, 744, 762 and 786 for the net tax effect of timing differences originating and reversing in the current accounting period.

4. Indicate in column (d) any adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.

5. The total of line 10 in columns (c) and (d) should agree with the total of the contra charges (credits) to account 557, provision for deferred taxes, and account 591, provision for deferred

taxes-extraordinary items, for the current year.

6. Indicate in column (e) the cumulative total of columns (1), (c), and (d). The total of column (e) must agree with the total of accounts 714, 744, 762 and 786.

NOTES AND REMARKS

705. CHANGES DURING THE YEAR

Hereundar state the matters alled for. Make the statements explicit and precise, and number them in accordance with the inquiries; each inquiry should be fully answered, and if the word "none" truly states the fact it may be used in answering any particular inquiry. Changes in mileage should be reported by classes and stated to the nearest whole mile adjusted to accord with footings, i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

1. For each railroad property used in respondent's transportation service, soow all increases and decreases in mileage, classifying the changes in the tables below as follows:

(Class 1) Line owned by respondent,

(Class 2) Line ow ted by proprietary companies.

(Class 3) Line operated under lease for a specified sum,

(Class 4) Line operated under contract or agreement for contingent rent.

(Class 5) Line operated under trackage rights.

2. For changes in miles of road, give dates of beginning or abandonment of operations. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket number or otherwise, as may be appropriate.

3. All consolidations, mergers, and reorganizations effected, giving particulars.

This statement should show the mileage, equipment, and cash value of property of each company as well as the consideration received by each company party to the action. State the dates on which consolidated, etc., and whether the prior com-panies have been dissolved. Copies of the articles of consolidation, merger, or reorganization should be filed with this report.

4. Other important changes not elsewhere provided for involving more than \$50,000, giving full particulars.

INSTRUCTIONS CONCERNING RETURNS IN SCHEDULE 710

Instructions for reporting locomotive and passenger-train car data

Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
 In column (c) give the number of units purchased new or

built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in

units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3. Units leased to others for a period of one year or more are

reportable in column (1) units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h); units rented from others for a period less than one year should not be included in column (i).

4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solety for anoving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A "B" unit is similar to an "A" unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent oberating at terminals.

5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.

6. A "Diesel" unit includes all units propelled by diesel utternal combustion engines irrespective of final drive, and whether power may at times be supplied from external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "Electric" unit includes all units which receive electric power figure an overhead contact wire or third rail, and use the power to drive one or note electric motors that proped the vehicle. An "Other zelf-powered unit" includes all units other than diesel or electric, e.g., steam, gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for positive identification An "Auxiliary unit" includes all units used in conjunction with locomotives but which draw their power from the "mother" unit, e.g., boosters,

stugs, etc. For reporting purposes indicate radio-controlled self-powered diesel units on lines I through 8, as appropriate. Radio-controlled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "Auxiliary units".

7. Column (k) should how aggregate capacity for all units reported in column (f), as follows. For locemetive units, report the manufacturers' rated horsepower (the maximum confinuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cas report the number of passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.

8. Passenger 1, am car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations ase published in The Official Railway Equipment Register.

710. INVENTORY OF EQUIPMENT-Continued

Instructions for reporting freight-train car data:

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.

2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad. 3. Units leased to others for a period of one year or more are reportable in column (n); units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i); units rented from others for a period less than one year should not be included in column (j).

4. Column (m) should show aggregate capacity for all units reported in columns (k) and (l), as follows: for freight-train cass, report the nominal capacity (in tons of 2.000 lbs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in ons of the commodity which the car is intended to carry customarily.

5. Time-mileage cars refers to freight cars, other than calooses, owned or held under lease arrangement, whose interline tental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad.

710-S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by Respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be comitted, but reference to the number of units omitted should be given in a footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased, (P): built or rebuilt by contract in outside railroad shops, (C): or built or rebuilt in company or system shops, (S).

2. In column (a) list each class or type of locomotive unit, car, or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars or other equipment adopted by the Association of American Railroads: and should include physical characteristics requested by Schedule 710: locomotive units should be identified as to power source, wheel arrangement, and horsepower per unit: such as Multiple purpose diesel locomotive A units (B-B), 2500 HP; and cars should be identified as to special construction or service characteristics such as Aluminum covered hopper cars, LO: Steel boxcars-special service, XAP, etc., for TOFC/COFC show type of equipment as enumerated in Schedule 710.

3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.

4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.

5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger train cars and company service cars; columns (d) and (f) for freight train cars

Report dollars in thousands.

730. REVENUE FREIGHT CARRIED DURING THE YEAR (For Road Haul Traffic Only)

Give the particulars called for concerning the commodities carried by the respondent during the year, the revenue from which is includible in account No. 101 Freight, on the basis of the 2-digit codes name: in 19 C.F.R. 123.52, by Order of September 13, 1963. In stating the number of ions received from connecting carriers (c), include all commencing carriers whether rail or water and whether

the freight is received directly or indirectly (as through elevators). 2. Under Order of December 16, 1964, traffic involving less than three shippers reportable in any one commodity class may be excluded from this schedule, but must be submitted unbound in a separate schedule supplemental to this one and marked Supplemental.

Extra copies of Schedule 2602 may be obtained upon request to the Interstate Commerce Commission, Bureau of Accounts, Washington,

D.C., 20423. If a supplemental schedule is filed, check the space provided at the bottom of this schedule, Supplemental reports will be 3. Particulars for Codes 01 to 46 inclusive, should include all traffic moved in lots of 10,000 pounds or more. Forwarder traffic inwithheld from public inspection. cludes freight traffic shipped by or consigned to any forwarder holding a permit under part IV of the Interstate Commerce Act. Code 47 should include all traffic moved in lots of less than 10,000 pounds.

905. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES AND AFFILIATES

1. In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscription, allowance for expenses, or any form of payments amounting in the aggregate to \$20,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person, except:

(a) Payments to employees of the respondent.(b) Payments for services rendered by affiliates.

(c) Payments for accounting and audit fees must be reported in full regardless of the \$20,000 limitation. These fees must not be included with management fees paid to parent companies.

2. The aggregate of payments to be reported in column (c) shall include amounts paid und/or accrued during the year which are

applicable to the year.

3. When contributions under \$20,000 are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespective of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$20,000 or more.

4. Payments to the independent public accountant reporting on the respondent's annual report shall be subdivided to show separately the amount paid for auditing and the total amount paid for other types of management services such as, but not limited to, compensation plans, pension plans, forecasts and budgets, and tax-advice. All carriers, whether payments aggregate more or less than \$20,000, shall answer the following question.

Did the independent accountant reporting on the respondent's annual report provide any management services other than auditing?

Specify. Yes No

5. To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charita-

ble, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services, payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. Payments to the various railroad associations, commissions, committees, bureaus, boards, and other organizations maintained jointly by railroads shall also be included. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

F To be excluded are: Rent of buildings or other property, taxes ale to the Federal, State, or local Governments, payments for heat, light, power, telegraph, and telephone services, and payments to other ouriers on the basis of lawful tariff charges or for the interch. ge of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported. Payments of \$20,000 or more to organizations maintained jointly by railroads with other railroads are not to be excluded even if their services are regarded as routine.

7. If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads. When the respondent is reporting on a system basis, audit fees must be reported separately for each individual ralroad included in the system.

8. If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

910. EMPLOYEES, SERVICE, AND COMPENSATION

- 1. Give particulars of the average number of employees of various classes in the service of the respondent, of service rendered by such employees, and of compensation paid therefor during the year. Employees are to be counted and classified and their service and compensation reported in accordance with the Commission's Rules Governing the Classification of Railroad Employees and Reports of their Service and Compensation, effective January 1, 1951.
- Averages called for in column (b) should be the average of twelve middle-of-month counts.
- Pensioners rendering no service are not to be included in the count, nor is any compensation paid them to be included hereunder.
- 4. If any of the general officers served without compensation or were carried on the payrolls of another company, those facts should be stated in a footnote.
- 5. If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident hereto.
- 6. This schedule does not include old-age retirements, and unemployment insurance taxes.
