NOTES AND REMARKS

### Schedule 201.—COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

Using the following notes as a guideline, show the requirements of compensating balances and short-term borrowing arrangements if operating revenues are \$10 million or more. Footnote disclosure is required even though the arrangement is not reduced to writing.

- I. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding horrowings during the period and the weighted average rate of those borrowings.
- 2. Time deposits and certificates of deposit constituting compensating halances not legally restricted should be disclosed.

3. Compensating balance arrangements need only be disclosed for the latest fiscal year.

- 4. Compensating balances under an agreement which legally restricts the use of such funds, and which constitute support for short-term borrowing arrangements, should be included in Schedule 202, account 115, Special deposits.
- 5. Compensating balances under an agreement which legally restricts the use of such funds and which constitute support for long-term borrowing arrangements and are reported in account 310. Restricted funds, should also be separately disclosed below.
- b. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
- 7. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.

Duence 1979 The Company has unused lines of credit.

With Various banks totalling 3 million Dollars. The Company
Maintained componenting balances against these lines of credit

### SCHEDULE 219. OTHER INVESTMENTS (ACCOUNT 328) - Concluded

For nonpar stock, show the number of shares in lieu of the par value in columns (d), (e), (f), (g), (i), and (k).

In reporting advances, columns (d), (e), (f), (g), (i) and (k) should be left blank. If any advances are pledged, give particulars in a footnote.

Particulars of investments made, disposed of, or written down during the year should be given in columns (i) to (m), inclusive. If the cost of any investment made during the year differs from the book value re-

ported in column (j), explain the matter in a footnote. By "cost" is meant the consideration given minus accrued interest or dividends included therein. If the consideration given or received for such invectiments was other than cash, describe the transaction in a footnote. Identify all entries in column (l) which represent a reduction in the book value of securities by symbol and give full explanation in a footnote in each case.

#### Schedule 125.—RENTAL EXPENSE OF LESSEE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if gross rental expense in the most recent flacal year exceeds one percent of operating revenue.

Otherwise, show total rental expense (reduced by rentals from subleases) entering into the determination of results of operations for each period for which an income statement is presented. Rental paymens under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based on usage or sales, shall be reported separately from the basic or minimum rentals.

NOTE As used in schedeles 225 through 229 a linaneing lease is defined us a lease which, during the noncancellable lease period, either (a) envers 75 or more of the economic life of the property or thi has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured linans.

See Schepule Attaches

#### (10) Lease Commitments

Rental expense (including vessel charter hire) charged to income amounted to \$42,179,000 in 1979 and \$43,626,000 in 1978, net of sublease rental income of \$2,286,000 in 1979 and \$2,311,000 in 1978.

The Company, over the years, has entered into lease agreements for containers and chassis, certain of which are capitalized, while others are accounted for by the operating method. In November 1976, the Financial Accounting Standards Board issued Statement No. 13, "Accounting for Leases". The statement was effective in 1977 for lease agreements entered into on or after January 1, 1977, and for leases entered into prior to January I, 1977 the provisions of FASB 13 will have to be applied retroactively not later than 1981 by restating the Company's financial statements for amounts deemed to be material. Certain leases in effect at December 31, 1976 which are now being accounted for by the operating method would be classified and accounted for as "capitalized leases" under Statement No. 13. If the Company had adopted the retroactive provisions of Statement No. 13 and accounted for these agreements as capitalized leases, assets would have increased by \$5,587,000 and \$7,866,000, and liabilities would have increased by \$6,590,000 and \$9,214,000 at December 31, 1979 and 1978, respectively. Net income for 1979 and 1978 would not have changed significantly. These leases are considered as operating leases in the schedule shown below.

At December 31, 1979, the Company was obligated under capital and non-cancellable operating leases to make future minimum lease payments as follows:

Operating leases

		O P	ierarring rea

The commitments for terminal facilities include wharfage and dockage payable under the terms of preferential berth assignment agreements at three ports. Such commitments also include the Howland Hook Staten Island, New York terminal lease which has an initial term of 30 years expiring on August 30, 2004. This lease, which includes in the annual rental an amount equal to 8.2% of the cost of the improvements reimbursed to the Company by The City of New York (9.4% in the case of certain cranes), provides for a series of renewal options extending the lease to a total of ninety-nine years, with a rental increase for each renewal term of approximately 5.25% of the rental during the immediately preceding period. During the remainder of the initial term of this lease, approximately fifty percent of the Company's rental payments, or \$54,243,000, which has been deducted in computing the above lease commitments, will be recovered through a sublease.

Certain of the other operating leases also contain renewal options and provisions for cost increases and adjustments of rentals based upon usage of facilities.

#### Schedule 226 .- MINIMUM RENTAL COMMITMENTS

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) gross rental expense in the most recent fiscal year exceeds one percent of operating revenue.

Show the minimum rental commitments under all noncancellable leases, as of the date of the latest balance sheet presented, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (a) each of the five succeeding fiscal years; (b) each of the next three five-year periods; and, (c) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancellable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancellable lease is defined as one that has an initial or remaining term of more than one year and is noncancellable, or is cancellable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

#### Schedule 227.--LESSEE DISCLOSURE

Complete this schedule only if carrier operating revenues are \$10 million or more.

Relate in general terms: (a) the basis for calculating rental payments if dependent upon factors other than the lapse of time; (b) existence and terms of renewal or purchase options, escalation clauses, etc.; (c) the nature and amount of related guarantees made or obligations assumed; (d) restrictions on paying dividends, incurring additional debt, further leasing, etc.; and, (e) any other information necessary to assess the effect of lease commitments upon the financial position, results of operations, and changes in financial position of the lessee.

#### Schedule 128.-LEASE COMMITMENTS-PRESENT VALUE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if the present value of the minimum lease commitments are more than five percent of the sum of the long-term debt, stockholders' equity and the present value of the minimum lease commitments, or if the impact on net income (as computed in schedule 229, Income impact—Lessee) is three percent or more of the average net income for the most recent three years.

Show all noncapitalized financing leases, the present value of the minimum lease commitments in the aggregate and by major categories of properties. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated, or actual amounts, if any, applicable to taxes, insurance, maintenance and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease.

Show either the weighted average interest rate (based on possent value) and range of rates or specific interest rates for all lease commitments.

#### Schodule 229.—INCOME IMPACT-LESSEE

Complete this schedule only if carrier operating revenues are \$10 million or more.

If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to this effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

#### SCHEDULE 251. LONG-TERM DEBT (ACCOUNTS 527 AND 530)

Give particulars of the various unmatured mortgage bonds and debentures of the respondent which were in existence at the close of the period. Entries in this schedule should be confined to those includible in the above account.

In column (4) show the name of each bond or other obligation as it is designated in the records of the respondent as defined in the Uniform System of Accounts.

In case obligations of the same designation mature serially or otherwise at various dates, enter in column (c) the latest date of maturity

and explain the matter in a footnote.

Column /d/ calls for the par value of the amount of debt authorized to be incurred, as determined by the final authority whose assent is necessary to the legal validity of the issue. In case such final authority is some public officer or board, attach a footnote showing such officer or board and the date when assent was given. In all cases where any issues were made during the period, state on page 50 the purposes for which such issues were authorized, as expressed in the resolution of the final authority passing on the matter.

#### SCHEDULE 260. CAPITAL STOCK (ACCOUNTS 581, 585 AND 587)

Give particulars of the various issues of capital stock of the respondent

In case any "Preferred" or "Debenture" stock is outstanding the rate of dividend requirements should be shown in column (a) and it should be stated whether the dividends are cumulative or noncumulative.

In stating the date of an authorization the date of the latest assent or ratification necessary to its validity should be shown; e.g., in case an authorization is required to be ratified by stockholders after action by the board of directors, but is not required to be approved by any State or other governmental board or offices, give the date of approval by stockholders; if the assent of a public board or officer is necessary, give the date of such assent, or if subsequent to such assent notice

has to be filed with a secretary of state or other public officer and a tax or other fee has to be paid as a condition precedent to the validity of the issue, give the date of such payment. In case some condition precedent has to be complied with after the approval and tatification of the stockholders has been obtained, state, in a footnote, the particulars of such condition and of the respondent's compliance therewith.

It is considered to be actually issued when sold to a bons fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually our sanding.

### (9) Contingent Liabilities

- On June 8, 1979, the Company, along with other shipping companies, pleaded nolo contendere to charges arising from a grand jury investigation commenced in 1976 that the Company and other defendants had violated Section 1 of the Sherman Act. A fine of \$1,000,000 was imposed on the Company and charged to 1979 operations, and fines of \$50,000 each were imposed on two officials of the Company.
- During 1979, the Company was named as a defendant in 36 separate private treble damage actions which have been consolidated and transferred to the Southern District of New York for pre-trial and trial proceedings. Each of the actions (except one) purports to be a class action and alleges that the Company conspired with other defendant shipping companies to illegally fix rates. The total amount of damages claimed or to be claimed by the plaintiffs has not been stated, but they may be significant.

#### (9) Contingent Liabilities, cont.

Antitrust Actions, cont.

The cases are in their early stages of discovery and the Company and its counsel are not able to estimate the probable ultimate outcome of the actions.

On August 17, 1979, a private treble damage action, Yellow Forwarding Co. v. Atlantic Container Line, et al., was filed in the Eastern District of Mississippi against the Company and several other ocean shipping lines. The complaint charges, in essence, a violation of Section 1 of the Sherman Act (15 U.S.C. Sec. 1) in that the Company conspired with defendants and others to deprive plaintiff of its right to compete with defendants. The complaint seeks damages in an unspecified amount and injunctive relief. On November 13, 1979, the defendants, including USL, moved to dismiss the complaint. That motion is presently pending before the Court.

The case is in its early stages of discovery and the Company and its counsel are not able to estimate the probable ultimate outcome of the action.

On August 14, 1979, an Order of Investigation was issued by the Federal Maritime Commission. The Order of Investigation institutes a proceeding to determine: (1) whether certain FMC-approved agreements, of which USL is a member, should be approved, disapproved, modified or canceled; (2) whether respondents violated the Shipping Act by taking action beyond the scope of approved agreements or by failing to file true and complete reports of meetings held pursuant to such agreements; or (3) whether penalties should be assessed against respondents and, if so, the amount thereof. The Order of Investigation explicitly stays any further proceedings in this matter until further Order of the Commission.

Because of this stay, the Company and its counsel are not able to estimate the probable ultimate outcome of this investigation.

#### Southern District of New York and Florida Grand Jury Investigations

- A grand jury investigation is being conducted by the United States Attorney's Office for the Southern District of New York. The Company has delivered documents to the United States Attorney's Office in response to grand jury subpoense duces tecum (calling for the production of documents) dated June 6, 1977 and November 20, 1978. The grand jury proceedings apparently involve an investigation into, among other things, alleged improper payments to union officials. It is not likely that any adverse determination to the Company will be found in this investigation.
- On January 26, 1977, a Federal grand jury for the Southern District of Florida issued a subpoena duces tecum to the Company requesting broad categories of financial, accounting, and other documents. To date, no documents have been furnished to the grand jury. The Company believes the subject matter and the outcome of this investigation is similar to that of the Southern District of New York investigation.

#### (9) Contingent Liabilities, cont.

Southern District of New York and Florida Grand Jury Investigations, cont.

The foregoing Southern District of New York and Florida grand jury investigations may give rise to liabilities of various kinds, including liabilities for civil damages, including possible double or treble damages, by third parties claiming injury from the alleged practices, for civil penalties or fines and for criminal penalties. Management is of the opinion, however, that the ultimate outcome of these investigations will not have a material adverse effect on the Company's financial position or operations.

#### MARAD Claims for Construction Differential Subsidy Repayments

MARAD has asserted claims for repayment of a construction differential subsidy as a result of operation of the vessels chartered to the U.S. Government in the carriage of domestic cargo during the years 1971 through 1977. The Company is contesting the right of MARAD to assert such claims as well as the method of calculating such claims, and management believes that adequate provision has been made in the accompanying financial statements for this potential liability.

#### Other Legal Matters

On February 22, 1980, USL was served with a complaint, American Pacific Container Line, Inc. et al v. National Marine Engineers Beneficial Association, et al. Plaintiffs have alleged violations of the Labor Management Relations Act and the Sherman Act as well as common law violations, and are seeking substantial monetary damages. It is too early to ascertain the extent of the Company's liability, if any; however, management believes that there is no basis in fact for the amount of damages claimed and that the complaint will have no material adverse effect on the financial condition of the Company.

The Company is a party to, or its property is involved in, certain other legal matters, the results of which cannot be foreseen at this time. Based upon information available at this time, however, management is of the opinion that adequate provision has been made in the accompanying financial statements for the probable liability which may result from these matters.

### SCHEDULE 350. WATER LINE TAXES

1. Give the particulars called for with respect to the taxes charged during the year to accounts Nos. 708 and 808, "Payroll taxes", 989 "Other taxes", 985 "Income taxes accrued on ordinary income", and those taxes charged direct to operating expense accounts for terminal expense, container and barge expense and administrative and general expense.

2. Taxes are those annual or other payments exacted by governments (Federal, State, county, municipal, school, and other tax district authorities) including foreign governments for the surpose of raising funds for public uses. They do not include payments exacted for constitution on the payor, such as special assessments for street

improvements, etc.

3. Proporties on which taxes are paid should be classified and grouped as follows:

(A) All properties owned by the respondent and its proprietary companies (showing these as a whole or in detail as the respondent may prefer);

(B) Properties held under any form of lease from other than proprietary companies and upon which respondent is required to pay the taxes in addition to the stipulated rent, showing such properties in detail;

(C) Properties held under any form of lease from other than proprietary companies and upon which the respondent is required to pay the taxes as a part of the stipulated rent, showing such properties in detail.

 With respect to each of the groups or detailed proporties above specified, show the amounts charged to the accounts as indicated by

the column headings and account numbers.

## SCHEDULE 505. EMPLOYEES, SERVICE AND COMPENSATION

1. Give particulars of persons employed by the respondent during the year (or during any portion thereof) in connection with its common and/or contract carrier operations, including incidental construction and auxiliary operations.

L in classifying employees among the classes listed in column (a). where any individual is properly classifiable in two or more classes. assign him to that class in which the principal portion of his service was rendered at the time of the count. If any persons in the regular service of the respondent were serving without compensation, they should nevertheless be included in the returns in column (b) and the matter should be fully explained in a footnote.

3. In column (b) show, properly classified with respect to occupadon, the average number of employees in the service of the respondent during the year for classes in service the year round, and during the

period of navigation for classes in service only during that period. Under "Remarks" state the methods by which these averages are determined. The numbers shown in this column should include only persons directly employed by the respondent; it should not include employees of a company or person with whom the respondent has contracts for certain classes of work, as, for example, stevedoring at a given part, etc.

4. In column (c) show the total number of hours worked (or held for work) by employees compensated on an hourly basis. This number should be accurately stated and should exclude time allowed for lunch hours, half holidays, holidays, vacations, sick leave, etc., even though full compensation or part compensation is allowed for such time. It should include all overtime actually spent in work for the respondent even though no additional compensation is paid for such work. If the

duties of certain general officers, traveling agents, solicitors, and other classes of employees compensated on other than an hourly basis are of such a nature that it is impracticable to record accurately the number of hours during which they are on duty, such number may be fairly estimated and the estimated number included in the return, in which case the basis for the estimate for each class is to be shown in a footnote.

5. In column (d) include the total compensation paid employees for the work represented in column (c). If any compensation was paid or is payable under labor awards of the current year, include the amount applicable to the current year in column (d) and show the portion applicable to prior years (back pay) in a footnote, by groups of employees. For purposes of this report, labor awards are intended to cover adjustments resulting from the decisions of Wage Boards and voluntary awards by the respondent incident thereto.

Maritime Annual Report W-4

6. If any person is employed by two or more carriers jointly, he should be reported in column (b) by the carrier on whose pay roll he is carried; if on the pay rolls of more than one of the joint employent he should be reported by each carrier on whose pay roll he was, and full particulars should be given in order to permit the elimination of duplications. If an officer serves two or more corporations and receives no salary from any of them he should be reported in column (b) only by the controlling or highest ranking of such corporations reporting to the Commission.

7. This return need not include any employees engaged solely on the construction of new property: if any such are included, that fact should be stated and particulars should be given in a footnote.

8. This schedule does not include old-age retirement, and unemployment insurance taxes. See schedule 350 for such taxes.

## SCHEDULE 510. PAYMENTS FOR SERVICES RENDERED BY OTHER THAN EMPLOYEES

In the form below give information concerning payments, fees, retainers, commissions, gifts, contributions, assessments, bonuses, pensions, subscriptions, allowance for expenses, or any form of payments amounting in the aggregate of \$5,000 or more during the year to any corporation, institution, association, firm, partnership, committee, or any person (other than one of respondent's employees covered in Schedule No. 508 in this armual report) for services or as a donation, in the case of contributions of under \$10,000 which are made in common with other carriers under a joint arrangement in payment for the performance of services or as a donation, each such contribution shall be reported, irrespectively of the amount thereof, if the total amount paid by all contributors for the performance of the particular service is equal to the sum of \$10,000 or more.

To be included are, among others, payments, directly or indirectly, for legal, medical, engineering, advertising, valuation, accounting, statistical, financial, educational, entertainment, charitable, advisory, defensive, detective, developmental, research, appraisal, registration, purchasing, architectural, and hospital services; payments for expert testimony and for handling wage disputes; and payments for services of banks, bankers, trust companies, insurance companies, brokers.

trustees, promoters, solicitors, consultants, actuaries, investigators, inspectors, and efficiency engineers. The enumeration of these kinds of payments should not be understood as excluding other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a water line, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of companies considered as one system and shown only in the report of the principal company in the system, with references thereto in the reports of the other companies.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filling this report.

FEDERAL MARITIME COMMISSION

FOR THE PERIOD 1979

## NOTICE

## APPLICABLE TO COMPANIES REPORTING TO THE INTERSTATE COMMERCE COMMISSION

1. This Form for annual report should be filled out in triolicate and two copies seturned to the Interstate Commerce Commission, Bureau of Accounts, Washington, D.C., 20423, by March 31 of the year following that for which the report is made. Attention is especially directed to the following provisions of Part III of the Interstate Commerce Act.

SEC. 11145. The Commission is hereby authorized to require annual periodical, or special reports from water carriers, lessors \*\* \* (as defined in this section), and to prescribe the manner and form in which such reports shall be made, and to require from such carriers, lessors \* \* \* specific and full, true, and correct answers to all questions upon which the Commission may deem information to be necessary. Such annual reports shall give an account of the affairs of the carrier, lessor \* \* \* in such form and detail as may be prescribed by the Commission. Said annual reports shall contain all the required information for the period of 12 months ending on the 31st day of December in each year, unless the Commission shall specify a different date, and shall be made out under oath and filed with the Commission at its office in Washington within 3 months after the close of the year for which the report is made, unless additional time be granted in any case by the Commission. \* \* \*

SEC. 11909. Any water carrier or other person, or any officer, agent. employee, or representative thereof, who shall willfully fail or refuse to make a report to the Commission as required by this part, or to make specific and full, true, and correct answer to any question within 30 days from the time it is lawfully required by the Commission so to do, or to keep accounts, records, and memoranda its the form and manner prealter any report, account, record, memorandum, book, correspondence, or other document, required under this part to be kept, or who shall willfully neglect or fail to make full, true, and correct entries in such acunder this part, or shall willfully keep any accounts, records, or memowith respect thereto, or shall knowingly and willfully file with the Comcourt of the United States of competent jurisdiction within the district in which such offense was in whole or in part committed, be subject for each offense to a fine of not more than \$5,000. As used in this subsection. the word "keep" shall be construed to mean made, prepared, or compiled, as well as retained.

SEC. 11102. The term "water carrier" means a common carrier by water or a contract carrier by water.

SEC. 11141. As used in this section - - the term "lessor" means a lessor of any right to operate as a water carrier; and the term "water carrier" or "lessor" includes a receiver or trustee of such water carrier, lessor."

2. The instructions in this Form should be carefully observed and each question should be answered fully and accurately, except where otherwise noted to the contrary, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like, should not be used either as partial or as entire answers to inquiries. If any inquiry, basen on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, mapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page\_\_\_\_\_ schedule (or line) number\_\_\_\_\_ used in answer thereto, giving precise reference to the portion of the report showing the facts which make the inquiry mapplicable. Where the word "none" trui, and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

3. Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

4. If it be necessary or desirable to insert additional statements, type-written or other, in a report, they should be legibly made on durable paper, and wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margins, attachment by pins or clips is insufficient.

5. All entries should be made in a permanent black ink, except those of a contrary character, which should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and foot-

note.

6. Money items, except averages, throughout the annual report form should be shown in WHOLE DOLLARS adjusted to accord with feotings, except Schedule 541-Freight Carried During the Year. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts.

7. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each corporation concerned.

8. The respondent is further required to send to the Bureau of Accounts, immediately upon publication, two copies of its latest printed annual report to stockholders. See page 1

9. Water carriers are, for the purpose of report to the Interstate Commerce Commission, divided into three classes in accordance with the following definitions:

Class A carriers are those carriers by water having average annual operating revenues exceeding \$500,000.

Class B carriers are those carriers by water having average annual operating revenues exceeding \$100,000 but not more than \$500,000.

Class C carriers are those carriers by water having average annual operating revenues of \$100,000 or less.

The annexed Form is prescribed for use by water carriers of Classes A and B. Class B carriers are permitted to use the condensed schedules of operating revenues and operating expenses appearing on pages 36 and 39, respectively. In other respects the requirements of the Form are identical for water carriers of both Classes A and B.

A separate Form, designated "Form W-3," is provided for water carriers of Class C.

10. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the meanings below stated:

COMMISSION means the Interstate Commerce Commission. RESPONDENT means the person or corporation in whose behalf the report is made. THE YEAR means the year ended December 31 for which the report is made. THE CLOSE OF THE YEAR means the close of business on December 31, of the year for which the report is made, or, in case the report is made for a shorter period than one year, it means the close of the period covered bythe report THE BEGINNING OF THE YEAR means the beginning of business on January 1 of the year for which the report is made; or, in case the report is made for a shorter period than one year, it means the beginning of the period covered by the report. THE PRECEDING YEAR means the year ended December 31 of the year next preceding the year for which the report is made. THE UNIFORM SYSTEM OF ACCOUNTS means the system of accounts published as Part 1209 of Title 49. Code of Federal Regulations, as amended. WATER CARRIERS as referred to herein means Carriers by Inland and Coastal Waterways.

## NOTICE

## APPLICABLE TO COMPANIES REPORTING TO THE FEDERAL MARITIME COMMISSION

## CITATIONS FROM INTERCOASTAL SHIPPING ACT, 1933

SEC 5. The provisions of this Act are extended and shall apply to every common carrier by water in interstate commerce, as defined in section 1 of the Shipping Act, 1916.

SEC. 7. The provisions of the Shipping Act, 1916, as amended, shall in all respects, except as amended by this Act, continue to be applicable to every carrier subject to the provisions of this Act.

## CITATIONS FROM SHIPPING ACT, 1916

SEC. 1. Definitions (in part) — The term "common carrier by water in interstate communities" means a common carrier engaged in the transportation by water of passengers or property on the high seas or the Great Lakes on regular routes from port to port between one State, Territory, District, or possession of the United States and any other State, Territory, District, or possession of the United States, or between places in the same Territory, District, or possession.

The term "common carrier by water" means a common carrier by water in foreign commerce or a common carrier by water in interstate commerce on the high seas or the Great Lakes on regular routes from port to port.

SEC. 21. That the Board may require any common carrier by water, or other person subject to this Act, or any officer, receiver, trustee, lessee, agent, or employee thereof, to file with it any periodical or special report, or any account, record, rate, or charge, or any memorandum of any facts and transactions appertaining to the business of such carrier or other person subject to this Act. Such report, account, record, rate, charge, or memorandum shall be under oath whenever the Board so requires, and shall be furnished in the form and within the time prescribed by the Board. Whoever fails to file any report, account, record, rate, charge, or memorandum as required by this section shall forfeit to the United States the sum of \$100 for each day of such default. Whoever willfully falsifies, destroys, mutilates, or alters any such report, account, record, rate, charge, or memorandum or willfully files a false report, account, record, rate, charge, or memorandum shall be guilty of a misdemeanor, and inject upon conviction to a fine of not more than \$1,000, or imprisonment for not more than 1 year, or to both such fine and imprisonment

## GENERAL INSTRUCTIONS

1. The instructions in this Form should be carefully observed and each question should be answered fully and accurately, except where other-

wise noted to the contrary, whether it has been answered in a previous annual report or not. Except in cases where they are specifically authorized, cancellations, arbitrary check marks, and the like, should not be used either as partial or as entire answers to inquiries. If any inquiry, based on a preceding inquiry in the present report form, is, because of the answer rendered to such preceding inquiry, inapplicable to the person or corporation in whose behalf the report is made, such notation as "Not applicable; see page \_\_\_\_\_, schedule (or line) number \_\_\_\_\_' should be used in answer thereto, giving precise referenceto the portion of the report showing the facts which make the inquiry inapplicable. Where the world "none" truly and conspletely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Where dates are called for, the month and day should be stated as well as the year. Customary abbreviations may be used in stating dates.

2 Every annual report should, in all particulars, be complete in itself, and references to the returns of former years should not be made to take the place of required entries except as herein otherwise specifically directed or authorized.

3 If it be necessary or desirable to insert additional statements, type-written or other, in a report, they should be legibly made on durable paper, and wherever practicable, on sheets not larger than a page of the Form. Inserted sheets should be securely attached, preferably at the inner margins, attachment by pins or clips is insufficient.

4. All entries should be made in a permanent black ink, except those of a contrary character, which should be indicated in parenthesis. Items of an unusual character should be indicated by appropriate symbol and footnote.

5. Each respondent should make its annual report to this Commission in triplicate, retaining one copy in its files for reference in case correspondence with regard to such report becomes necessary. For this reason three copies of the Form are sent to each coporation concerned.

6. Money items, except average, throughout the annual report form should be shown in WHOLE DOLLARS adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts.

7. The respondent is further required to send to the Federal Maritime Commission, immediately upon publication, two copies of its latest printed annual report to stockholders. See item 9, page 1.

8. Should there be doubt as to the reporting of any item or items or parts thereof, or advice is desired relative to the preparation of this report, address an inquiry to the Bureau of Financial Analysis, Federal Maritime Commission for consideration and decision.
