17.--COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

Using the following notes as a guideline, show the requirements of compensating balances and short-term borrowing arrangements if operating revenues are \$10 million or more. Footnote disclosure is required even though the arrangement is not reduced to writing

- 1. Disclose compensating halances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at halance sheet date, maximum amount of outstanding horrowings during the period and the weighted average rate of those borrowings
- 2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed
- 3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
- 4. Compensating balances under an agreement which legally restricts the use of such funds, and which constitute support for short-term borrowing arrangements, should be included in section 18, account 101, Special cash deposits.
- 5. Compensating balances under an agreement which legally restricts the use of such funds and which constitute support for long-term borrowing arrangements and are reported in account 121. Special deposits, should also be separately disclosed below.
- 6. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oraagreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities).
- 7. When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material

"The Compositions not have short-term borrowing arrangements with a financial institution. Although there are no formal agreements regarding the maintenance of compensating balances, an average of approximately \$655,000 of the Company's 1978 collected bank balances were used as compensating balances in connection with the lines of credit of Transway International Corporation and Transway Finance Company."

"The Company's 1978 pension expenses relating to the Transway International Corporation Pension Plan and union administered plans aggregated \$251,000. Past service costs are not allocated to the individual subsidiary companies participating in the Transway Plan."

18.—SPECIAL CASH & EPOSITS

For other than compensating balances, state separately each item of \$10,000 or more reflected in account 101. Special cash deposits, at this close of the year Items of less than \$10,000 may be combined in a single entry and described as "Minor items less than \$10,000". For compensating balances, state separately the total amounts held on behalf of respondent and held on behalf of others.

19. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption "Other", including State and other taxes deferred if computed separately. Minor items each less than \$100,000 may be combined in a single entry under "Other".

ledicate in column (b) the beginning of the year balance of accumulated deferred tax credits (debits) applicable to each particular in column (s).

Indicate in column (c) the net change in accounts 110, 173, 208 and 232 for the net tax effect of timing difference originating and reversing in the current accounting period.

The total of net credits (charges) for the current year in column (c) should agree with the contra charges (credits) to account 432, Provision for deferred taxes, and account 451, Provision for deferred taxes. Extraordinary and prior period items, for the current year.

Indicate in column (d) any adjustment as appropriate, including adjustments to eliminate or reinstate deferred tax effect (credits or debits) due to applying or recognizing a loss carryforward or a loss carryback.

Indicate in column (e) the cumulative total of column (b), (c) and (d). The total of column (e) must agree with the balances in accounts 110, 173, 208 and 232 in Section 16.

24.—RENTAL EXPENSE OF LESSEE

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) if gross rental expense in the most recent fiscal

Otherwise, show total rental expense (reduced by rentals from subleases) entering into the determination of results of operations for each period for which an income statement is presented. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contigent rentals, such as those based on usage or sales, shall be reported separately from the basic or minimum rentals.

NOTE. As used in sections 24 through 28, a "financing lease" is defined as a lease which, during the noncancellable lease period, either (a) covers 75% or more of the economic life of the property or (h) has terms which assure the lessor a full recovery of the fair market value (which would normally be expresented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans.

25.-MINIMUM RENTAL COMMITMENTS

Complete this schedule only if (a) carrier operating revenues are \$10 million or more and (b) gross rental expense in the mist recent fiscal year exceeds one percent of operating revenue.

Show the minimum rental commitments under all noncancellable leases, as of the date of the latest balance sheet presented, in the aggregate (with disclosure of the amounts applicable to noncapital zed financing leases) for (a) each of the five succeeding fiscal years, (b) each of the next three five year periods, and, (c) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancellable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancellable lease is defined as one that has an initial or remaining term of more than one year and is noncancellable, or is cancellable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

28,-INCOME IMPACT-LESSEE

Complete this schedule only if carrier operating revenues are \$10 million or more.

If the impact on net income is less than three percent of the average net income for the most recent three years, a statement to that effect will suffice to complete this schedule. Otherwise, show the impact on net income for each period for which an income statement is presented if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost shall be separately identified.

In calculating average net income, loss-years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.
