

## NOTICE

1. This report is required for every class I railroad operating within the United States. Three copies of this Annual Report should be completed. Two of the copies must be filed with the Surface Transportation Board Office of Economics, Environmental Analysis and Administration, 395 E St. N.W., Washington, DC 20423, by March 31 of the year following that for which the report is made. One copy should be retained by the carrier.
2. Every inquiry must be definitely answered. Where the word "none" truly and completely states the fact, it should be given as the answer. If any inquiry is inapplicable, the words "not applicable" should be used.
3. Wherever the space provided in the schedules is insufficient to permit a full and complete statement of the requested information, inserts should be prepared and appropriately identified by the number of the schedule.
4. All entries should be made in permanent black ink or typed. Those of a contrary character must be indicated in parentheses. Items of an unusual character must be indicated by appropriate symbols and explained in footnotes.
5. Money items, except averages, throughout the Annual Report should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of $\$ 500$ but less than $\$ 1,000$ should be raised to the nearest thousand dollars and amounts of less than $\$ 500$ should be lowered.
6. Except where the context clearly indicates some other meaning, the following terms when used in this report have the following meanings:
a) Board means Surface Transportation Board.
b) Respondent means the person or corporation on whose behalf the report is made.
c) Year means the year ended December 31 for which the report is being made.
d) Close of the year means the close of business on December 31 for the year for which the report is being made. If the report is made for a shorter period than one year, it means the close of the period covered by the report.
e) Beginning of the year means the beginning of business on January 1 of the year for which the report is being made. If the report is made for a shorter period than one year, it means the beginning of that period.
f) Preceding year means the year ended December 31 of the year preceding the year for which the report is made.
g) The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulation, as amended.
7. The ICC Termination Act of 1995 abolished the Interstate Commerce Commission and replaced it with the Surface Transportation Board. Any references to the Interstate Commerce Commission or Commission contained in this report refer to the Surface Transportation Board.
8. Any references to the Bureau of Accounts or the Office of Economics contained in this report refer to the Office of Economics, Environmental Analysis and Administration of the Surface Transportation Board.

## SPECIAL NOTICE

Docket No. 38559 Railroad Classification Index, served January 20, 1983, modified the reporting requirements for class II, III and all Switching and terminal companies. These carriers will notify the Board only if the calculation results in a different revenue level than its current classification.

The dark border on the schedules represents data that are captured for processing by the Surface Transportation Board.

It is estimated that an average of 800 burden hours per response are required to complete this collection of information. This estimate includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Comments concerning the accuracy of this burden estimate or suggestions for reducing this burden should be directed to the Office of the Secretary, Surface Transportation Board and the Office of Information and Regulatory Affairs, Office of Management and Budget.

## B. IDENTITY OF RESPONDENT

Answers to the questions asked should be made in full, without reference to data returned on the corresponding page of previous reports. In case any changes of the nature referred to under inquiry 4 on this page have taken place during the year covered by this report, they should be explained in full detail.

1. Give in full the exact name of the respondent. Use the words "The" and "Company" only when they are parts of the corporate name. Be careful to distinguish between railroad and railway. The corporate name should be given uniformly throughout the report, notably on the cover, on the title page and in the "Verification." If the report is made by receivers, trustees, a committee of bondholders or individuals otherwise in possession of the property, state names and facts with precision. If the report is for a consolidated group, pursuant to Special Permission from the Board, indicate such fact on line 1 below and list the consolidated group on page 4.
2. If incorporated under a special charter, give date of passage of the act; if under a general law, give date of filing certificate of organizations; if a reorganization has been effected, give date of reorganization. If a receivership or other trust, give also date which such receivership or other possession began. If a partnership, give date of formation and also names in full of present partners.
3. State the occasion for the reorganization, whether by reason of foreclosure of mortgage or otherwise, according to the fact. Give date of organization of original corporation and refer to laws under which organized.
4. Exact name of common carrier making this report The Kansas City Southern Railway Company See note on page 4.
5. Date of incorporation March 19, 1900
6. Under laws of what Government, State or Territory organized? If more than one, name all. If in bankruptcy, give court of jurisdiction and dates of beginning of receivership or trusteeship and of appointment of receivers or trustees

## State of Missouri

Article II Chapter XII Revised Statutes of Missouri 1899
4. If the respondent was reorganized during the year, involved in a consolidation or merger, or conducted its business under a different name, give full particulars
$\qquad$
$\qquad$
$\qquad$

## STOCKHOLDERS' REPORTS

5. The respondent is required to send to the Bureau of Accounts, immediately upon preparation, two copies of its latest annual report to stockholders.
Check appropriate box:

X Two copies are attached to this report.
$\square$ Two copies will be submitted $\qquad$
(date)
$\square$ No annual report to stockholders is prepared.

1. State the par value of each share of stock: Common, $\$$ No Par per share; first preferred, $\$ 350,000$ per share; second preferred, \$ None per share; debenture stock, \$ None per share.
2. State whether or not each share of stock has the right to one vote; if not, give full particulars in a footnote__ Yes
3. Are voting rights proportional to holdings? Yes If not, state in a footnote the relation between holdings and corresponding voting rights.
4. Are voting rights attached to any securities other than stock? No if so, name in a footnote each security, other than stock to which voting rights are attached (as of the close of the year), and state in detail the relation between holdings and corresponding voting rights, stating whether voting rights are actual or contingent, and if contingent, showing the contingency.
5. Has any class or issue of securities any special privileges in the election of directors, trustees or managers or in the determination of corporate action by any method? No If so, describe fully in a footnote each such class or issue and give a succinct statement showing clearly the character and extent of such privileges.
6. Give the date of the latest closing of the stock book prior to the actual filing of this report, and state the purpose of such closing $\qquad$ Stock book last closed April 3, 1981.
7. State the total voting power of all security holders of the respondent at the date of such closing, if within one year of the date of such filing; if not, state as of the close of the year 9,841,057 votes, as of December 31, 2011 (Date)
8. State the total number of stockholders of record, as of the date shown in answer to inquiry No. 7. 1 stockholder.
9. Give the names of the thirty security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent (if within 1 year prior to the actual filing of this report), had the highest voting powers in the respondent, showing for each his address, the number of votes to which he was entitled, which respect to securities held by him, such securities being classified as common stock, second preferred stock, first preferred stock and other securities, stating in a footnote the names of such other securities (if any). If any such holder held in trust, give (in a footnote) the particulars of the trust. In the case of voting trust agreements, give as supplemental information the names and addresses of the thirty largest holders of the voting trust certificates and the amount of their individual holdings. If the stock book was not closed or the list of stockholders compiled within such year, show such thirty security holders as of the close of the year.

## NOTES AND REMARKS

*Column (c), Balance at beginning of year, includes a reclassification of $\$ 12,733$ from Account 775 to Account 783 to conform with the current year presentation.
*Column (c), Balance at beginning of year, includes a reclassification of $\$ 10,096$ from Account 759 to Account 775 to conform with the current year presentation.

## 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES

(Dollars in Thousands)

The notes listed below are provided to disclose supplementary information on matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none"; and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting and reporting principles, except as shown in other schedules. This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads; (2) particulars concerning obligations for stock purchase options granted to officers and employees; and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

1. Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking and other funds pursuant to provisions of reorganization plans, mortgages, deeds of trust or other contracts \$_None
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of year following that for which the report is made $\quad \$ \quad 110,236$
3. (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year _Not Applicable
(b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund
(c) Is any part of pension plan funded? Specify. Yes $\qquad$ No $\qquad$
(i) If funding is by insurance, give name of insuring company

If funding is by trust agreement, list trustee(s)
Date of trust agreement or latest amendment
If respondent is affiliated in any way with the trustee(s), explain affiliation:
(d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement
(e) (i) Is any part of the pension plan fund invested in stock or other securities of the respondent or any of its affiliates? Specify. Yes $\qquad$ No $\qquad$
If yes, give number of the shares for each class of stock or other security:
(ii) Are voting rights attached to any securities held by the pension plan? Specify. Yes $\qquad$ No $\qquad$ If yes, who determines how stock is vote $\qquad$
4. State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U.S.C. 610 ). Yes X _ No $\qquad$
5. (a) The amount of employers contribution to employee stock ownership loans for the current year was $\$$ $\qquad$ None
(b) The amount of investment tax credit used to reduce current income tax expense resulting from contributions to qualified employee stock ownership plans for the current year was \$ None
6. In reference to Docket No. 37465 specify the total amount of business entertainment expenditures charged to the non-operating expense account. \$ None

## 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

The Kansas City Southern Railway Company ("KCSR") is a wholly-owned subsidiary of Kansas City Southern. KCSR, which was founded in 1887, is a U.S. Class I railroad. KCSR serves a ten-state region in the midwest and southeast regions of the United States and has the shortest north/south rail route between Kansas City, Missouri and several key ports along the Gulf of Mexico in Alabama, Louisiana, Mississippi, and Texas. As used herein, "KCSR" or the "Company" may refer to The Kansas City Southern Railway Company or, as the context requires, to one or more subsidiaries and affiliated companies of The Kansas City Southern Railway Company.

## Note 9. Derivative Instruments

The Company does not engage in the trading of derivative financial instruments except where the Company's objective is to manage the variability of forecasted interest payments attributable to changes in interest rates or fuel price risk. In general, the Company enters into derivative transactions in limited situations based on management's assessment of current market conditions and perceived risks. However, management intends to respond to evolving business and market conditions and in doing so, may enter into such transactions more frequently as deemed appropriate.

Credit Risk. As a result of the use of derivative instruments, the Company is exposed to counterparty credit risk. The Company manages the counterparty credit risk by entering into contracts with large financial institutions with which the Company has an established banking relationship.

Interest Rate Swaps. During 2008, the Company entered into five forward starting interest rate swaps with an aggregate notional amount of $\$ 250.0$ million, which were designated as cash flow hedges. The forward starting interest rate swaps effectively converted interest payments from variable rates to fixed rates. The swaps were highly effective and as a result there was minimal earnings impact associated with ineffectiveness of these hedges. Four of the five interest rate swaps with an aggregate notional amount of $\$ 175.0$ million expired during 2010. The remaining hedging instrument with an aggregate notional amount of $\$ 75.0$ million expired in March of 2011. The Company's interest rate hedging activity resulted in an increase in interest expense of $\$ 0.4$ million and $\$ 5.1$ million for the years ending December 31, 2011 and 2010, respectively.

Fuel Derivative Transactions. During the year ended December 31, 2011, the Company did not enter into any fuel swap agreements. In the first quarter of 2010, the Company entered into fuel swap agreements to hedge 16.0 million gallons of diesel fuel purchases through the end of 2010 at an average swap price per gallon of $\$ 2.25$, which were not designated as hedging instruments. The Company's fuel hedging activity resulted in an increase in fuel expense of \$1.4 million for the year ending December 31, 2010.

Fair Value Measurements. The Company determines the fair values of its derivative financial instrument positions based upon pricing models using inputs observed from actively quoted markets. Pricing models take into consideration the contract terms as well as other inputs, including forward interest rate curves. The liability position of outstanding interest rate swaps was $\$ 0.4$ million at December 31, 2010.

## 10. Postemployment Benefits

Health and Welfare. Certain employees that have met age and service requirements are eligible for medical benefits and life insurance coverage during retirement. The retiree medical plan is contributory and provides benefits to retirees, their covered dependents and beneficiaries. The plan provides for annual adjustments to retiree contributions, and also contains, depending on the coverage selected, certain deductibles, copayments, co-insurance, and coordination with Medicare. Certain management employees also maintain their status under a collective bargaining agreement, which permits them access to post-retirement medical under the multi-employer plan described below. The life insurance plan is noncontributory and covers union retirees only. The Company's policy, in most cases, is to fund benefits payable under these plans as the obligations become due. On October 22, 2010, the Company paid $\$ 1.5$ million to irrevocably transfer a portion of its obligation to provide certain retiree life insurance benefits to MetLife.

The Company uses December 31 as the measurement date for its post-employment benefit obligations.

## Net Periodic Benefit Cost, Plan Obligations and Funded Status

Components of the net cost (benefit) were as follows for the years ended December 31 (in millions):

Service cost
Interest cost
Actuarial (gain) loss (i)
Prior service credit (ii)
Net periodic cost (benefit) recognized

| Health and Welfare |  |  |  |
| :---: | :---: | :---: | :---: |
| 2011 |  | 2010 |  |
| \$ | 0.1 | \$ | 0.1 |
|  | 0.3 |  | 0.3 |
|  | 1.6 |  | 0.7 |
|  | (0.2) |  | (0.2) |
| \$ | 1.8 | \$ | 0.9 |

(i) Net benefit costs above do not include a component for the amortization of actuarial gains or losses as the Company's policy is to recognize such gains and losses immediately.
(ii) During 2005, the Company revised its medical plan to exclude prescription drug coverage available under Medicare part D. This negative plan amendment generated an unrecognized prior service benefit of $\$ 2.3$ million which is being amortized over the estimated remaining life of the affected participants of 9.5 years.

## 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

The following table reconciles the change in the benefit obligation, fair value of plan assets, change in the funded status, and the accrued benefit cost as of and for each of the years ended December 31 (in millions):

Benefit obligation at beginning of year

| Health and Welfare |  |  |  |
| :---: | :---: | :---: | :---: |
| 2011 |  | 2010 |  |
| \$ | 4.9 | \$ | 6.0 |
|  | 0.1 |  | 0.1 |
|  | 0.3 |  | 0.3 |
|  | 1.6 |  | 0.7 |
|  | (0.8) |  | (2.2) |
|  | 6.1 |  | 4.9 |
|  | - |  | 0.1 |
|  | - |  | - |
|  | - |  | (0.1) |
|  | - |  | - |
| \$ | (6.1) | \$ | (4.9) |

(i) Benefits paid reflected in the reconciliation of the benefit obligation include both medical and life insurance benefits, whereas benefits paid reflected in the reconciliation of the funded status include only life insurance benefits. Plan assets relate only to life insurance benefits. Medical benefits are funded as obligations become due.

## Assumptions

The assumptions used to determine benefit obligations and costs are selected based on current and expected market conditions. Discount rates are selected based on low risk government bonds with cash flows approximating the timing of expected benefit payments. The bond market is utilized for the health and welfare obligation. The expected rate of return on life insurance plan assets is determined using historical and forward looking returns for similar investments over the period that the benefits are expected to be paid.

Weighted average assumptions used to determine benefit obligations were as follows for the years ended December 31:
Discount rate $\quad \frac{\text { Health and Welfare }}{\frac{\mathbf{2 0 1 1}}{4.00 \%} \frac{\mathbf{2 0 1 0}}{5.25 \%}}$

Weighted average assumptions used to determine net benefit cost for the periods were as follows for the years ended December 31:

|  | Health and Welfare |  |
| :---: | :---: | :---: |
|  | 2011 | 2010 |
| Discount rate | 5.25\% | 5.25\% |
| Expected long-term rate of return on plan assets | n/a | n/a |
| The following table presents the assumed health care cost trends: |  |  |
|  | 2011 | 2010 |
| Health care trend rate for next year | 8.50\% | 9.00\% |
| Ultimate trend rate | 5.00\% | 5.00\% |
| Year that rate reaches ultimate rate | 2020 | 2020 |

## Cash Flows

The following table represents benefit payments expected to be paid, which reflect expected future service, as appropriate, for each of the next five years and the aggregate five years thereafter (in millions):

| Year | Health and |
| :--- | :---: |
| 2012 | Welfare |
| 2013 | $\$ 0.6$ |
| 2014 | 0.6 |
| 2015 | 0.5 |
| 2016 | 0.6 |
| $2017-2021$ | 0.5 |

Multi-Employer Plan. Under collective bargaining agreements, the Company participates in a multi-employer benefit plan, which provides certain post-retirement health care and life insurance benefits to eligible union employees and certain retirees. Premiums under this plan are expensed as incurred and were $\$ 4.6$ million and $\$ 4.2$ million for the years ended December 31, 2011 and 2010, respectively.

## 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES - Continued

401(k) and Profit Sharing Plan. The Company sponsors the KCS 401(k) and Profit Sharing Plan (the "401(k) plan"), whereby participants can choose to make contributions in the form of salary deductions pursuant to Section 401(k) of the Internal Revenue Code. The Company matches $401(\mathrm{k})$ contributions up to a maximum of $5 \%$ of compensation. The Company recognized expense of $\$ 2.2$ million and $\$ 1.8$ million for the years ended December 31, 2011 and 2010, respectively, related to the KCS 401(k) and Profit Sharing Plan. The 401(k) plan includes the Company's common stock as an investment option. The common stock is acquired by the $401(\mathrm{k})$ plan trustee through open market transactions of previously registered shares.

## 11. Commitments and Contingencies

Litigation. The Company is a party to various legal proceedings and administrative actions, all of which are of an ordinary, routine nature and incidental to its operations. Included in these proceedings are various tort claims brought by current and former employees for job-related injuries and by third parties for injuries related to railroad operations. The Company aggressively defends these matters and has established liability provisions, which management believes are adequate to cover expected costs. Although it is not possible to predict the outcome of any legal proceeding, in the opinion of management, such proceedings and actions should not, individually, or in the aggregate, have a material adverse effect on the Company's financial statements.

Environmental Liabilities. The Company's operations are subject to extensive federal, state and local environmental laws and regulations. The major environmental laws to which the Company is subject include, among others, the Federal Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA," also known as the Superfund law), the Toxic Substances Control Act, the Federal Water Pollution Control Act, and the Hazardous Materials Transportation Act. CERCLA can impose joint and several liabilities for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for the disposal of, hazardous substances. The Company does not believe that compliance with the requirements imposed by the environmental legislation will impair its competitive capability or result in any material additional capital expenditures, operating or maintenance costs. The Company is, however, subject to environmental remediation costs as described below.

The risk of incurring environmental liability is inherent in the railroad industry. As part of serving the petroleum and chemicals industry, the Company transports hazardous materials and has a professional team available to respond to and handle environmental issues that might occur in the transport of such materials.

The Company performs ongoing reviews and evaluations of the various environmental programs and issues within the Company's operations, and, as necessary, takes actions intended to limit the Company's exposure to potential liability. Although these costs cannot be predicted with certainty, management believes that the ultimate outcome of identified matters will not have a material adverse effect on the Company's financial statements.

Personal Injury. Due to the nature of railroad operations, claims related to personal injuries and third party liabilities resulting from crossing collisions and derailments are a substantial expense to the Company. Claims are estimated and recorded for known reported occurrences as well as for incurred but not reported ("IBNR") occurrences. Consistent with general practices within the railroad industry, the estimated liability is actuarially determined on an undiscounted basis. The actuarial analysis is performed semi-annually by an independent third party actuarial firm and reviewed by management. In estimating the liability, the actuarial study calculates an estimate using historical experience and estimates of claim costs as well as numerous assumptions regarding factors relevant to the derivation of an estimate of future claim costs.

Personal injury claims are subject to a significant degree of uncertainty, especially estimates related to incurred but not reported personal injuries for which a party has yet to assert a claim. In deriving an estimate of the provision for personal injury claims, management must make assumptions related to substantially uncertain matters (injury severity, claimant age and legal jurisdiction). Changes in the assumptions used for actuarial studies could have a material effect on the estimate of the provision for personal injury claims. The most sensitive assumptions for personal injury accruals are the expected average cost per claim and the projected frequency rates for the number of claims that will ultimately result in payment. Management believes that the accounting estimate related to the liability for personal injuries claims is critical to the Company's results of operations.

Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Adjustments to the liability are reflected within operating expenses in the period in which changes to estimates are known. Personal injury claims in excess of self-insurance levels are insured up to certain coverage amounts, depending on the type of claim and year of occurrence. The personal injury liability as of December 31, 2011 is based on an updated study of personal injury claims through November 30, 2011 and review of the last month's experience. For the years ended December 31, 2011 and 2010, the Company recorded a $\$ 19.3$ million and $\$ 21.2$ million reduction in personal injury liability, respectively, due to changes in estimates as a result of the Company's continuing favorable claims development and settlement experience.

The personal injury liability activity was as follows (in millions):

Balance at beginning of year
Accruals
Change in estimate
Payments
Balance at end of year

| 2011 |  | 2010 |  |
| :---: | :---: | :---: | :---: |
| \$ | 61.4 | \$ | 81.0 |
|  | 10.7 |  | 14.9 |
|  | (19.3) |  | (21.2) |
|  | (12.7) |  | (13.3) |
| \$ | 40.1 | \$ | 61.4 |

Contractual Agreements. In the normal course of business, the Company enters into various contractual agreements related to commercial arrangements and the use of other railroads' or governmental entities' infrastructure needed for the operations of the business. The Company is involved or may become involved in certain disputes involving transportation rates, product loss or damage, charges, and interpretations related to these agreements. While the outcome of these matters cannot be predicted with certainty, the Company does not believe, when finally resolved, that these disputes will have a material effect on its results of operations or financial condition. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

## 210. RESULTS OF OPERATIONS

## (Dollars in Thousands)

1. Disclose the requested information for the respondent pertaining to the results of operations for the year.
2. Report total operating expenses from Schedule 410 of this report. Any disparities in expense amounts shown in this schedule and expense amounts reported in Schedule 410 must be fully explained on page 18.
3. List dividends from investments accounted for under the cost method on the appropriate line No. 19 for Account No. 513. "Dividend Income." List dividends accounted for by the equity method on the appropriate dividend line No. 25 under the "Income from Affiliated Companies" subsection of this schedule.
4. All contra entries hereunder should be indicated in parentheses.
5. Cross checks:

## 230. CAPITAL STOCK

## PART I. CAPITAL STOCK

(Dollars in Thousands)

1. Disclose in column (a) the particulars of the various issues of capital stock of the respondent, distinguishing separate issues of any general class, if different in any respect
2. Present in column (b) the par or stated value of each issue. If none, so state.
3. Disclose in columns (c), (d), (e) and (f) the required information concerning the number of shares authorized, issued, in treasury and outstanding for the various issues.
4. For the purpose of this report, capital stock and other securities are considered to be nominally issued when certificates are signed and sealed and placed with the proper officer for sale and delivery or are pledged or otherwise placed in some special fund of the respondent. They are considered to be actually issued when sold to a bona fide purchaser who holds them free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually outstanding. If reacquired by or for the respondent, and not cancelled or retired, they are considered to be nominally outstanding.

# PART II. SUMMARY OF CAPITAL STOCK CHANGES DURING YEAR 

(Dollars in Thousands)

1. The purpose of this part is to disclose capital stock changes during the year
2. Column (a) presents the items to be disclosed.
3. Columns (b), (d) and (f) require the applicable disclosure of the number of preferred, common and treasury stock, respectively, applicable to the items presented in column (a).
4. Columns (c), (e) and (g) require the applicable disclosure of the book values of preferred, common and treasury stock.
5. Disclose in column (h) the additional paid-in capital realized from changes in capital stock during year.
6. Unusual circumstances arising from changes in capital stock changes shall be fully explained in footnotes to this schedule.

| Line No. | Items <br> (a) | Preferred Stock |  | Common Stock |  | Treasury Stock |  | Additional Capital \$ (h) | Line <br> No. |

## 240. STATEMENT OF CASH FLOWS

## (Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers as cash paid to suppliers and employees, the sum of which is net cash flow from operating activities. The indirect method starts with net income and adjusts it for revenue and expense items that were not the result of operating cash transactions in the current period to reconcile it to net cash flow from operating activities. If direct method is used complete lines 1-41: indirect method complete lines 10-41. Cash for the purpose of this schedule shall include cash and cash equivalents which are short-term, highly liquid investments readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Information about all investing and financing activities which do not directly affect cash shall be separately disclosed in footnotes to this schedule. They shall clearly relate the cash (if any) and non cash aspects of transactions. Examples of noncash investing and transactions include converting debt to equity acquiring assets by assuming directly related liabilities, such as purchasing a building by incurring a mortgage to the seller; obtaining an asset by entering into a capital lease; and exchanging noncash assets or liabilities for other noncash assets or liabilities. Some transactions are part cash and part noncash; only the cash portion shall be reported directly in the statement of cash flows. Refer to FAS Statement No. 95, Statement of Cash Flows, for further details.

| 28 | TOTAL WORKING CAPITAL | Line 24 + line 27 | 73,782 | 28 |

Notes:
(A) Use common carrier portion only. Common carrier refers to railway transportation service.
(B) Rent Income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, $210,212,227,229,231,312,314$ and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.
(C) If result is negative, use zero.

## NOTES AND REMARKS

THIS PAGE INTENTIONALLY LEFT BLANK

## GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310 AND 310A

1. Schedule 310 should give particulars of stocks, bonds, other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at close of year. Also, disclose the investments made, disposed of and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments and advances; affiliated companies," in the Uniform System of Accounts for Railroad Companies.
2. List the investments in the following order and show a total for each group and each class of investments by accounts in numerical order:
(a) Stocks
1) Carriers - active
2) Carriers - inactive
3) Noncarriers - active
4) Noncarriers - inactive
(b) Bonds (including U. S. Government Bonds)
(c) Other secured obligations
(d) Unsecured notes
(e) Investment advances
3. The subclassification of classes (b), (c), (d) and (e) should be the same as that provided for class (a).
4. The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations, the symbols and industrial classifications to be as follows:
Symbol Kind of Industry

I Agriculture, forestry and fisheries
II Mining
III Construction
IV Manufacturing
V Wholesale and retail trade
VI Finance, insurance and real estate
VII Transportation, communications and other public utilities
VIII Services
IX Government
X All other
5. By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, ferries, union depots and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, highway motor vehicles, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
6. Noncarrier companies should, for the purpose of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or entirely those issued or assumed by carriers.
7. By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
8. Combine, in one amount, investments in which the original cost or present equity in total assets is less than $\$ 10,000$.
9. Include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis.
10. Do not include the value of securities issued or assumed by respondent.
11. For affiliates which do not report to the Surface Transportation Board and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities.

## 310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

1. Give particulars of investments in stocks, bonds, other secured obligations, unsecured notes and investment advances of companies affiliated with respondent, included in accounts Nos. 715, "Sinking Funds", 716, "Capital Funds", 721, "Investments and Advances Affiliated Companies", and 717, "Other Funds."
2. Entries in this schedule should be made in accordance with the definitions and general instructions given on page 25 , classifying the investments by means of letters, figures and symbols in columns (a), (b) and (c).
3. Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.
4. Give totals for each class and for each subclass and a grand total for each account.
5. Entries in column (d) should show date of maturity of bonds and other evidences of indebtedness. In case obligations of the same designation mature serially, the date in column (d) may be reported as "Serially 19__ to 19__." Abbreviations in common use in standard financial publications may

| Line No. | Account No. <br> (a) | Class No. (b) | Kind of Industry <br> (c) | Name of issuing company and also lien reference, if any (include rate for preferred stocks and bonds) <br> (d) | Extent of control <br> (e) | Line No. |

(Dollars in Thousands)
be used to conserve space
6. If any of the companies included in this schedule are controlled by respondent the percent of control should be shown in column (e). In case any company listed is controlled other than through actual ownership of securities, give particulars in a footnote. In cases of joint control, give names of other parties and particulars of control.
7. If any advances reported are pledged, give particulars in a footnote
8. Investments in companies in which neither the original cost or present equity in total assets are less than $\$ 10,000$ may be combined in one figure.
9. Also included should be investments in unincorporated entities such as lessee organizations (exclusive of amounts nominally settled on a current basis).
10. This schedule should not include securities issued or assumed by respondent.
11. For affiliates which do not report to the Interstate Commerce Commission and are jointly owned, give names and extent of control of other entities by footnotes.

Kansas City Southern Holdings 70.78\%
Norfolk Southern Railway $\quad 29.22 \%$

## Undistributed Earnings from Certain Investments in Affiliated Companies

1. Report below the details of all investments in common stocks included in Account 721 , Investments and Advances Affiliated Companies. 2. Enter in column (c) the amount necessary to retroactively adjust those investments. (See instruction 5-2, Uniform System of Accounts.) 3. Enter in column (d) the share of undistributed earnings (i.e., less dividends) or losses.
. Enter in column (e) the amortization for the year of the excess of cost over equity in net assets (equity over cost) at date of acquisition
2. For definitions of "carrier" and "noncarrier," see general instructions.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

1. Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No. 731, "Road and Equipment Property," and Account No. 732, "Improvements on Leased Property," classified by primary accounts in accordance with the Uniform System of Accounts for Railroad Companies. The balances, by primary accounts, should insofar as known, be stated in column (b) and all changes made during the year should be analyzed in columns (c) to (f), inclusive. Column (g) should be the net of the amounts in columns (c) through (f). Column (h) is the aggregate of columns (b) to (f), inclusive. Grand totals of columns (b) and (h) should equal the sum of Accounts 731 and 732 for the respective periods; if not, full explanation should be made in a footnote.
2. In column (c) are to be shown disbursements made for the specific purpose of purchasing, constructing and equipping new lines and for the extension of old lines, as provided for in instruction 2-1, "Items to be charged," of the Uniform System of Accounts for Railroad Companies for such items.
3. In column (d) is to be shown the cost of a railway or portion thereof, acquired as an operating entity or system by purchase, merger, consolidation, reorganization, receivership sale or transfer or otherwise.
4. In column (c) and (e) should be included all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property.
5. In column (f) should be entered all credits representing property sold, abandoned or otherwise retired.
6. Both the debit and credit involved in each transfer, adjustment or clearance, between road and equipment accounts, should be included in the column in which the item was initially included; also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment or clearance should be fully explained when in excess of $\$ 100,000$.
7. If during the year an individual charge of $\$ 100,000$ or more was made to Account No. 2, "Land for Transportation Purposes," state in a footnote the cost, location, area and other details which will identify the property.
8. Report on line 29 amounts not includible in the primary road accounts. The items reported should be briefly identified and explained under "Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.
9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired and the date of acquisition, giving termini and the cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
10. If an amount of less than $\$ 2,000$ is used as the minimum for additions and betterments to property investment accounts as provided for in Instruction $2-2$ of the Uniform System of Accounts for Railroad Companies, state in a footnote the amount used.

## 332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND USED AND LEASED FROM OTHERS

## (Dollars in Thousands)

1. Show in columns (b) and (e), for each primary account, the depreciation base used to compute the depreciation charges for the month of January, and in columns (c) and ( $f$ ) show the depreciation base used to compute the depreciation charges for the month of December; in columns (d) and (g) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. The depreciation base should not include the cost of equipment used, but not owned, when the rents therefore are included in the rent for equipment and Account Nos. 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00 35-23-00, 35-22-00 and 35-25-00. It should include the cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment Accounts Nos. 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00 and 36-25-00, inclusive. The composite rates used should be those prescribed or otherwise authorized by the Board, except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give full particulars in a footnote
2. All leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.
3. Show in columns (e), (f) and (g) data applicable to Lessor property, when the rent therefore is included in Account Nos. 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00 and 31-23-00, inclusive
4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) effected.
5. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than $5 \%$ of total road owned or total equipment owned, respectively.

## 335. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT OWNED AND USED

## Dollars in Thousands)

1. Disclose the required information in regard to credits and debits to Account No. 735. "Accumulated depreciation: Road and Equipment Property," during the year relating to owned and used road and equipment. Include entries for depreciation of equipment owned but not used when the resulting rents are included in the "Lease Rentals--Credit--Equipment" accounts and "Other Rents--Credit--Equipment" accounts. Exclude any entries for depreciation of equipment that is used but not owned when the resulting rents are included in "Lease Rental--Debit--Equipment" account and "Other Rents--Debit--Equipment" accounts.
(See Schedule 351 for the accumulated depreciation to road and equipment owned and leased to others.)
2. If any data are included in columns (d) or (f), explain the entries in detail.
3. A debit balance in columns (b) or (g) for any primary account should be designated "Dr."
4. If there is any inconsistency between the credits to the reserve as shown in column (c) and the charges to operating expenses, a full explanation should be given.
5. Enter amounts representing amortization under an authorized amortization program other than for defense projects on lines 29 and 39.

* To be reported with equipment expenses rather than W \& S expenses.
**Column (c) Changes to Operating Expense (reported on schedules 335 and 342 differs from Schedule 410 reported charges by $\$ 2.8 \mathrm{M}$. This difference is driven primarily by the allocation of overhead credits to depreciation expense for roadway machines and other equipment used in the construction of capital projects.
***Column (d), Other Credits to Accumulated Depreciation, primarily includes transactions for proceeds from sales of assets.

## 339. ACCRUED LIABILITY - LEASED PROPERTY

(Dollars in Thousands)

1. Disclose the required information relating to credits and debits of Account 772, "Accrued Liability Leased Property," during the year concerning road and equipment leased from others.
2. In column (c), enter amounts charged to operating expenses; in column (e), enter debits to account arising from retirements; in column (f), enter amounts paid to lessor
3. Any inconsistencies between credits to account, charges to operating expenses and payments to lessors should be fully explained
4. Required disclosure may be omitted if leased road and equipment property represents $5 \%$ or less of total property owned and used
5. If settlement for depreciation is made currently between lessee and lessor, and no debits or credits to Account No. 772 are made by the accounting company, show in column (c) the charges to operating expenses, and in column (f) show payments made to the lessor in settlement thereof.

## 340. DEPRECIATION BASE AND RATES - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERs

## (Dollars in Thousands)

1. Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month of January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used in computing the depreciation charges for the month of December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the for the same month. This schedule should include only improvements to leased property charged to Account 732, "Improvements on Leased Property." The composite rates used should be those prescribed or otherwise authorized by the Board except that where the use of component rates has been authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any charges in rates were effective during the year, give full particulars in a footnote. 2. All improvements to leased properties may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property.
2. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected
3. Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than $5 \%$ of total road owned or total equipment owned, respectively. However, line 41, Grand Total, should be completed.

## 350. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT LEASED TO OTHERS

## Dollars in Thousands)

1. This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00. 32-12-00. 32-13-00. 32-21-00. 32-22-00. and 32-23-00.
2. Show in columns (b) and (c) for each primary account, the depreciation base used in computing the depreciation for the months of January and December. respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not includible in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent. If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment, a full explanation should be given
3. In column (d) show the composite rates used to compute the depreciation for the month of December and on lines 29 and 38 of this column show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary accounts composite rates to the depreciation base used to compute the depreciation for December and dividing the total also computed by the depreciation base.
4. If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for the discontinuance of accruals should be shown in a footnote indicating the account(s) affected.
5. If total road leased to others is less than 5\% of total road owned; omit. If total equipment leased to others is less than 5\% of total equipment owned; omit. However, Line 39, Grand Total, should be completed.

*As of presented reporting period, respondent has no leases where the rent is included in Accounts 32-11-00. 32-12-00. 32-13-00. 32-2100. 32-22-00. and 32-23-00

## 351. ACCUMULATED DEPRECIATION - ROAD AND EQUIPMENT LEASED TO OTHERS

(Dollars in Thousands)

1. This schedule is to be used in cases where the depreciation reserve is carried in the accounts of the respondent and the rent therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00 and 32-23-00.
2. Disclose credits and debits to Account 735, "Accumulated Depreciation--Road and Equipment Property," during the year relating to road and equipment leased to others, the department charges for which are not includible in operating expenses of the respondent. (See Schedule 330 for the reserve relating to road and equipment owned and used by the respondent).
3. If any entries are made for "Other Credits" and "Other Debits," state the facts occasioning such entries. A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr."
4. Details in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased from others represents less than $5 \%$ of the total road owned or total equipment owned, respectively. However, line 39, Grand Total, should be completed.

[^1]32-22-00. and 32-23-00
Railroad Annual Report R-1

## 352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE - BY COMPANY

 (Dollars in Thousands)1. Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by the respondent and used in the respondent's transportation service. Such property includes (a) the investment reported in Accounts 731 "Road and Equipment Property," and 732, "Improvements on Leased Property," of the respondent, less any 731 or 732 property leased to others for their exclusive use of road, track or bridges (including equipment or other railway property covered by the contract). Equipment leased to others under separate distinct contracts shall not be deducted from the respondent's 731 or 732 property, and (b) the investment of other companies 731 or 732 property (including operating and lessor railroads) used by the respondent when the lease is for exclusive use or control of roads, tracks or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property jointly used by the respondent.
2. In column (a), classify each company in this schedule as respondent (R), lessor railroad (L), inactive or proprietary company ( P ) and other leased properties ( O ).
3. In column (a) to (e), inclusive, first show the data requested for the respondent (R); next the data for companies whose entire properties are used in transportation service of the respondent, divided between lessor $(L)$ and proprietary ( $P$ ) companies; followed by data for carriers and others ( $O$ ), portions of whose property are used in transportation service of the respondent. Show a total for each class of company in column (d) and (e). Then show, as deductions, data for transportation property leased to carriers and others
4. In column (c), line-haul carriers report the miles of road used in line-haul service. Report miles in whole numbers.
5. In column (d), show the amount applicable in Accounts 731 and 732 on the books of the companies whose names appear in column (b). Values of property of other carriers segregated by estimate or otherwise should correspond in amount to the deductions made by the owners in their reports. If separate value is not available, explanations should be given. Differences between the amounts in column (d) of this schedule and the amounts shown in column (c), line 24 , on the asset side of the comparative general balance sheet of each individual railway, should be explained in a footnote. Book value included in Accounts 731 or 732 of the owner should be reported in column (d) in reference to the investment of the respondent in the securities of the owner unless a good reason can be given for the contrary. Methods of estimating (by capitalizing rentals at 6 percent or otherwise) value of property of private owners, or portions of property of of other carriers should be explained
6. In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736 and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where the reserves therefore are recorded.

## 352B. INVESTMENT IN RAILWAY PROPERTY USED IN TRANSPORTATION SERVICE - BY PROPERTY ACCOUNTS

 (Dollars in Thousands)1. In columns (b) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties
2. The amounts for respondent and for each group or class of companies and properties on line 44 herein, should correspond with the amounts for each class of company and properties shown in schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in the schedule
3. Report on line 29 amounts representing capitalization of rentals for leased property based on 6 percent per year where property is not classified by accounts by non-carrier owners, or where cost of property leased from other carriers is not ascertainable. Identify non-carrier owners and briefly explain on page 37 methods of estimating value of property of non-carriers or property of other carriers.
4. Report on line 30 amounts not includible in the accounts shown, or in line 29. The items reported should be briefly identified and explained. Also include here those items after permission is obtained from the Commission for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Commission.

## 414. RENTS FOR INTERCHANGED FREIGHT TRAIN CARS AND OTHER FREIGHT - CARRYING EQUIPMENT

(Dollars in Thousands)

1. Report freight expenses only.
2. Report in this supporting schedule rental information by car type and other freight-carrying equipment relating to the interchange of railroad, owned or leased equipment and privately owned equipment (reporting for leased equipment covers equipment that carrier on railroad markings).
3. The gross amounts receivable and payable for freight-train cars (line 19, columns (b) through (d) and line 19, columns (e) through (g), respectively) should balance with Schedule 410 , column (f), lines 231 (credits) and 230 (debits). Trailer and container rentals in this schedule are included in Schedule 410, column (f), lines 315 and 316 . However, the trailer and
container rentals in this schedule will not balance to lines 315 and 316 of Schedule 410 because those lines include rents for "Other Equipment" which is reported in Schedule 415 , column
(e). The balancing of Schedule 410, 414 and 415 "Other Equipment" is outlined in note 6 to Schedule 415
4. Report in columns (b) and (e) rentals for private-line cars (whether under railroad control or not) and shipper-owned cars.
5. Report in columns (c), (d), (f) and (g) rentals for railroad owned cars prescribed by the Commission in Ex Parte No. 334, for which rentals are settled on a combination mileage and
time basis (basis per diem). Include railroad owned per diem tank cars on line 17.
NOTES: Mechanical designations for each car type are shown in Schedule 710.

## GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 415

1. Report Freight expenses only.
2. Report by type of equipment all natural expenses relating to the equipment functions (salaries and wages, materials, tools, supplies, fuels and lubricants, purchased services and general).
3. Report in column (b) net repair expense excluding the cost to repair damaged equipment.

Schedule 415, column (b), will balance to Schedule 410, column (f), as follows:
(a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202, 203 plus 216 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 204.
(b) Freight Cars, line 24 plus line 39 compared to the sum of Schedule 410, lines 221, 222 plus 235 (excluding wreck repairs). Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223.
(c) Sum of Highway Equipment (line 32), Floating Equipment (line 35), Passenger and Other Revenue Equipment (line 36), Computer and Data Processing Equipment (line 37), Machinery-Other Equipment (line 40), plus Work and Other Non-Revenue Equipment (line 41 compared to Schedule 410, the sum of lines 302 through 307, inclusive, plus line 320 (excluding wreck repairs). Do not report in Schedule 415. Equipment Damaged from Schedule 410, line 308.

Note: Lines 216, 235 and 320 of Schedule 410 are credit amounts.

The allocation of freight car repair expense reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight train repair costing 49 CFR 1201.
4. Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d). For improvements on leased property, Accounts 732 and 733 , use a supplementary Schedule 415 , which will relate to Schedules 340 and 342.

Depreciation charges reported on columns (c) and (d) will balance to Schedule 410, column (f), as follows:
(a) Locomotives, line 5 plus line 38 compared to Schedule 410, line 213
(b) Freight Cars, line 24 plus line 39 compared to Schedule 410, line 232
(c) Sum of Highway Equipment (line 32); Floating Equipment (line 35); Passenger and Other Revenue Equipment (line 36); Computer and Data Processing Equipment (line 37); Machinery-Other Equipment (line 40); and Work and Other Non-Revenue Equipment (line 41) compared to Schedule 410, line 317.
5. Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item; the net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 38 , column (c), schedule 335.
6. Lease/Rentals reported in column (f) should balance to column (f) of Schedule 410 as follows:
(a) Locomotives, line 5 plus line 38 compared with Schedule 410, lines 207, 208, 211 and 212.
(b) Freight Cars, line 24 plus line 39 compared with Schedule 410, lines 226 plus 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 414 and are not to be included in Schedule 415).
(c) Sum of Lease/Rentals for All Other Equipment, lines 32, 35, 36, 37, 40 and 41, will balance to Schedule 410, lines 311, 312, 315 and 316 , except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing Lease/Rentals Other Equipment to Schedule 410. Do not report in Schedule 415 the Trailer and Container rentals reported in Schedule 414.
7. Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of Equipment Used But Not Owned when the rents therefore are included in the rent for equipment and Account Nos. 31-21-00, 31-22-00, 31-23-00, 35-21-00, 35-22-00 and 35-23-00. It should include the Cost of Equipment Owned and Leased to Others when the rents are included in the rent for Equipment Account Nos. 32-21-00, 32-22-00, 32-23-00, 36-21-00, 36-22-00 and 36-23-00.

Property Used But Not Owned should also be included when the rent is included in Account Nos. 31-12-00, 31-13-00, 31-22-00 and 31-23-00, inclusive.

The grand total of each equipment account in column $(\mathrm{h})$ of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h), of schedule 415.
8. Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j). The grand total of each equipment reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415.

## 417. SPECIALIZED SERVICE SUBSCHEDULE - TRANSPORTATION

1. Report freight expenses only.
2. Report in lines $1,2,3,4$ and 10 the total of those natural expenses (salaries and wages, material, tools, supplies, fuels and lubricants, purchases services and general) incurred in the operation of each type of specialized service facility. This schedule does not include switching services performed by train and yard crews in connection with or within specialized service facilities
3. When it is necessary to apportion expenses, such as administrative expenses to two or more services, they shall be apportioned on the most equitable basis available to the respondent and only to the services they support. The total expenses in column (j) should balance with the respective line items in Schedule 410, Railway Operating Expenses.
4. Report in column (b), line 2, the expenses incurred in highway movements of trailers and containers performed at the expense of the reporting railroad within a terminal area for the purpose of pick-up,
delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See schedule 755 , delivery or highway interchange service. Report in column (b), line 3, the expenses incurred in operating facilities for handling trailers and/or containers, including storage expenses. See schedule 755 , note $R$.
5. The operation of floating equipment in line-haul service (between distinct terminals) should be reported in column (c) on line 2. Floating operations conducted within a general terminal or harbor area
should be reported in column (c), line 3.
6. Report in column (g), line 3, the expenses incurred by the railroad in loading and unloading automobiles, trucks, etc., to and from bi-level and tri-level auto rack cars. Report on line 2 , column (g), the expense incurred by the railroad in moving automobiles, etc., between bi-level and tri-level loading and unloading facilities over the highway to shippers, receivers or connecting carriers. Report in column (f) operating expenses for land facilities in support of floating operations, including the operation of docks and wharves.
7. Report on line 4, column (b), the expenses related to heating and refrigeration of TOFC/COFC trailers and containers (total debits and credits). The expenses on line 4 , column (h), relate to refrigerator cars only.
8. Report in column (i) total expenses incurred in performing rail substitute service, other highway revenue service, LCL terminal operations, warehouse operations, freight car transloading, grain elevator terminal operations and livestock feeding operations only.

## NOTES AND REMARKS

THIS PAGE INTENTIONALLY LEFT BLANK

## B. Adjustments to Federal Income Taxes

1. In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under the caption Other (Specify), including State and other taxes deferred if computed separately. Minor items each less than $\$ 100,000$, may be combined in a single entry under Other (Specify).
2. Indicate in column (b) the beginning of the year total of accounts $714,744,762$ and 786 applicable to each particular item in column (a)
3. Indicate in column (c) the net change in accounts $714,744,762$ and 786 for the net tax effect of timing differences originating and reversing in the curren accounting period.
4. Indicate in column (d) and adjustments, as appropriate, including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back.
5. The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provisions for Deferred Taxes, and Account 591, Provisions for Deferred Taxes - Extraordinary Items, for the current year.
6. Indicate in column (e) the cumulative total of columns (b), (c) and (d). The total of column (e) must agree with the total of accounts $714,744,762$ and 786.

Railroad Annual Report R-1

## 450. ANALYSIS OF TAXES - Concluded

(Dollars in Thousands)
Footnotes

1. If flow-through method was elected, indicate net decrease (or increase) in tax accrual because of investment tax credit

NONE
If deferral method for investment tax credit was elected:
(1) Indicate amount of credit utilized as a reduction of tax liability for current year
(2) Deduct amount of current year's credit applied to reduction of tax liability but deferred for accounting purposes
(3) Balance of current year's credit used to reduce current year's tax accrual
(4) Add amount of prior year's deferred credits being amortized to reduce current year's tax accrual
(5) Total decrease in current year's tax accrual resulting from use of investment tax credits
2. Estimated amount of future earnings which can be realized before paying Federal income taxes because of unused and available net operating loss carryover on January 1 of the year following that for which the report is made

110,236
3. Meridian Speedway, LLC is treated as a partnership for income tax purposes. Therefore, the taxes are recorded
at the partner level. Since the partner is not an includible entity in the R1, the income taxes related to Meridian Speedway, LLC are not reflected in this report.

Give a brief description for all items, regardless of amount, included during the year in Accounts 555, Unusual or Infrequent Items; 560, Income or Loss from Operations of Discontinued Segments; 562, Gain or Loss on Disposal of Discontinued Segments; 570, Extraordinary Items; 590, Income Taxes on Extraordinary Items; 592, Cumulative Effect of Changes in Accounting Principles; 603, Appropriations Released; 606, Other Credits to Retained Earnings; 616, Other Debits to Retained Earnings; 620, Appropriations for Sinking and Other Funds; and 621, Appropriations for other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.
For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10\% of net income before extraordinary items, describe the three largest items in the account and any other items in excess of $10 \%$ of net income.

## 502. COMPENSATING BALANCES AND SHORT-TERM BORROWING ARRANGEMENTS

 (Dollars in Thousands)Using the following notes as a guideline, show the requirements compensating balances and short-term borrowing arrangements. Footnote disclosure is required even though the arrangement is not reduced to writing.

1. Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings.
2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed.
3. Compensating balance arrangements need only be disclosed for the latest fiscal year.
4. Compensating balances included in Account 703, Special Deposits, and in Account 717, Other Funds, should also be separately disclosed below
5. Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral agreement balances amount to 15 percent or more of liquid assets (current cash balances, restricted and unrestricted plus marketable securities)
6. When a carrier is not in compliance with a compensating balance requirement, the fact should be disclosed along with stated and possible sanctions whenever such possible sanctions may be immediate (not vague or unpredictable) and material.
7. The Company has a $\$ 200$ million revolving line of credit with a syndicate of various lenders and The Bank of Nova Scotia as the administrative agent. As of December 31, 2011, there was $\$ 50$ million outstanding balance on this line of credit. The maximum outstanding at any one time was $\$ 50$ million and the weighted average interest rate was $1.80 \%$ for 2011. The Company also maintained a revolving line of credit with Kansas City Southern de Mexico, which is secured by certain Company assets. There was no outstanding balance on this line of credit as of December 31, 2011. The maximum outstanding at any one time was $\$ 10$ million and the weighted average interest rate was $3.25 \%$ for 2011.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 512

1. Furnish the information called for below between the respondent and the affiliated companies or persons affiliated with the respondent, including officers, directors, stockholders, owners, partners or their wives and other close relatives, or their agents. Examples of transactions are, but are not restricted to, management, legal, accounting, purchasing or other type of service including the furnishing of materials, supplies, purchase of equipment, leasing of structures, land and equipment, and agreements relating to allocation of officers' salaries and other common costs between affiliated companies.
To be excluded are payments for the following types of services:
(a) Lawful tariff charges for transportation services
(b) Payments to or from other carriers for interline services and interchange of equipment
(c) Payment to or from other carriers which may reasonably be regarded as ordinarily connected with routine operation or maintenance, but any special or unusual transactions should be reported. (d) Payments to public utility companies for rates or charges fixed in conformity with government authority.
2. In column (a) enter the name of the affiliated company, person or agent with which respondent received or provided services aggregating $\$ 50,000$ or more for the year. If an affiliated company provides services to more than one affiliate, and the aggregate compensation amounts to $\$ 50,000$ or more for the year, list all the affiliates included in the agreement and describe the allocation of charges. If the respondent provides services to more than one affiliate, and the aggregate compensation amounts to $\$ 50,000$ or more for the year, reference to this fact should be made and the detail as to the allocation of charges should be stated. For those affiliates providing services to the respon dent, also enter in column (a) the percent of affiliate's gross income derived from transactions with respondent.
The respondent may be required to furnish as an attachment to Schedule 512 a balance sheet and income statement for each affiliate with which respondent carrier had reportable transactions during the year, or alternatively, attach a "Pro forma" balance sheet and income statement for that portion or entity of each affiliate which furnished the agreed to services, equipment, or other reportable trans-
action. The statements, if required, should be prepared on a calendar year basis in conformity with the prescribed schedules for the balance sheet and income statement in Annual Report Form R-1 and should be noted (1) to indicate the method used for depreciating equipment or other property furnished the carrier, and (2) whether the affiliate's Federal income tax return for the year was filed on a consolidated basis with the respondent carrier.
3. In column (b) indicate nature of relationship or control between the respondent and the company or person identified in column (a) as follows:
(a) If respondent directly controls affiliate, insert the word "direct"
(b) If respondent controls through another company, insert the word "indirect"
(c) If respondent is under common control with affiliate, insert the word "common"
(d) If respondent is controlled directly or indirectly by the company listed in column (a), insert word controlled"
(e) If control is exercised by other means such as a management contract or other arrangement of whatever kind, insert the word "other" and footnote to describe such arrangements.
4. In column (c) fully describe the transactions involved such as management fees, lease of building, purchase of material, etc. When the affiliate listed in column (a) provides more than one type of service in column (c), list each type of service separately and show total for the affiliate. When services are both provided and received between the respondent and an affiliate they should be listed separately and the amounts shown separately in column (e).
5. In column (d) report the dollar amounts of transaction shown and the effect of any change in the method of establishing the terms from that used in the preceding period.
6. In column (e) report the dollar amounts due from or to related parties and, if not otherwise apparent, the terms and manner of settlement. Insert $(P)$ paid and $(R)$ received by the amount in column (e).

|  |  |  |  |  |  |  |  |

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classifications:
(1) Line owned by respondent.
(2) Line owned by proprietary companies.
(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.
(4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with respondent.
(5) Line operated under trackage rights.

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes.

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e., counting one-half mile and over as a whole mile and disregarding any fraction less than one-half mile.

In column (a) insert the figure (and letter, if any) indicating its class in accordance with the preceding classification.
In column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping. Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in column (d) give its entire length (the distances between termini of single or first main track), and in the following columns the lengths of second main track; all other main tracks, passing tracks, cross-overs and turn-outs; way switching tracks; and yard switching tracks. These classes of tracks are defined as follows:

Running tracks: Running tracks, passing tracks, cross-overs, etc., including turn-outs from those tracks to clearance points.
Way switching tracks: Station, team, industry and other switching tracks for which no separate service is maintained.
Yard switching tracks: Yards where separate switching services are maintained, including classification, house, team, industry and other tracks switched by yard locomotives.

The returns in columns (h) and (i) should include tracks serving industries, such as mines, mills, smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included.

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included

Class (1) includes all lines operated by the respondent at the close of the year to which it has title in perpetuity.
Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rest in a corporation controlled by or controlling the respondent, but in the case of any such inclusion, the facts of relation to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs, if it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as class (3), except that the rent reserved is conditional upon earnings or other fact.
Class (5) includes all tracks operated and maintained by others, but over which the respondent has the right to operate some or all of its trains. In the road of this class the respondent has no proprietary rights, but only the rights of a licensee. Include in this class, also, all main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them, but does not have exclusive possession of them.

Road held by the respondent as joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class, and the entry of length should be of the entire length of the portion jointly held. The class symbol should have the letter (J) attached.

Road operated by the respondent as agent for another carrier should not be included in this schedule.

702. MILES OF ROAD AT CLOSE OF YEAR - BY STATES AND TERRITORIES (SINGLE TRACK)

Give particulars, as of the close of the year, of all road operated and of all owned but not operated. The respondent's proportion of operated road held by it as joint or common owner, or under a joint lease or under any joint arrangement, should be shown in columns (b), (c), (d) or (e), as may be appropriate. The remainder of jointly operated mileage should be shown in column (f). Respondent's proportion of road priate. Mileage which has been permanently abandoned should not be included in column (h).
Mileage should be reported to the nearest WHOLE mile adjusted to accord with footings; i.e. counting one-half mile and over as a whole mile and disregarding and fraction less than one-half mile.

## NOTES AND REMARKS

THIS PAGE INTENTIONALLY LEFT BLANK

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 710

1. Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
2. In column (c) give the number of units purchased new or built in company shops. In column (d) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.
3. Units leased to others for a period of one year or more are reportable in column (I). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (h). Units rented from others for a period less than one year should not be included in column (i).
4. For reporting purposes, a "locomotive unit" is a self-propelled vehicle generating or converting energy into motion, and designed solely for moving other equipment. An "A" unit is the least number of wheel bases with superstructure designed for use singly or as a lead locomotive unit in combination with other locomotive units. A " B " unit is similar to an " A " unit, but not equipped for use singly or as a lead locomotive unit. A "B" unit may be equipped with hostler controls for independent operation at terminals.
5. A "self-propelled car" is a rail motor car propelled by electric motors receiving power from a third rail or overhead, or internal combustion engines located on the car itself. Trailers equipped for use only in trains of cars that are self-propelled are to be included as self-propelled equipment.
6. A "diesel" unit includes all units propelled by diesel internal combustion engines irrespective of final drive or whether power may at times be supplied from an external conductor. Units other than diesel-electric, e.g., diesel-hydraulic, should be identified in a footnote giving the number and a brief description. An "electric" unit includes all units which receive electric power from an overhead contact wire or a third rail, and use the power to drive one or more electric motors that propel the vehicle. An "other self-powered unit" includes all units other than diesel or electric, e.g., steam or gas turbine. Show the type of unit, service and number, as appropriate, in a brief description sufficient for
positive identification. An "auxiliary unit" includes all units used in conjunction with locomotives, bu which draw their power from the "mother" unit, e.g., boosters, slugs, etc. For reporting purposes, indicate radio-controlled self-powered diesel units on lines 1 through 8, as appropriate. Radiocontrolled units that are not self-powered, i.e., those without a diesel, should be reported on line 13 under "auxiliary units."
7. Column (k) should show aggregate capacity for all units reported in column (j), as follows: For locomotive units, report the manufacturers' rated horsepower (the maximum continuous power output from the diesel engine or engines delivered to the main generator or generators for tractive purposes). Exclude capacity data for steam locomotives. For passenger-train cars report the number o passenger seats available for revenue service, counting one passenger to each berth in sleeping cars.
8. Passenger-train car types and service equipment car types correspond to AAR Mechanical Division designations. Descriptions of car codes and designations are published in The Official Railway Equipment Register.
9. Cross checks

| Schedule 710 | Schedule 710 |
| :--- | :--- |
| Line 5, column (j) | $=$ Line 11, column (I) |
| Line 6, column (j) | $=$ Line 12, column (I) |
| Line 7, column (j) | $=$ Line 13, column (I) |
| Line 8, column (j) | $=$ Line 14, column (I) |
| Line 9, column (j) | $=$ Line 15, column (I) |
| Line 10, column (j) | $=$ Line 16, column (I) |

When data appear in column (j) lines 1 thru 8, column (k) should have data on same lines.
When data appear in columns $(k)$ or $(\mathrm{I})$ lines 36 thru 53 and 55 , column ( m ) should have data on same lines

## 710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight-train car data:
Give particulars of each of the various classes of equipment which respondent owned or leased during the year.
2. In column (d) give the number of units purchased or built in company shops. In column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.
3. Units leased to others for a period of one year or more are reportable in column (n). Units temporarily out of respondent's service and rented to others for less than one year are to be included in column (i). Units rented from others for a period less than one year should not be included in column (j).

Railroad Annual Report R-1

## 710. INVENTORY OF EQUIPMENT - Continued

4. Column ( m ) should show aggregate capacity for all units reported in columns (k) and (I), as follows. For freight-train cars, report the nominal capacity (in tons of $2,000 \mathrm{lbs}$ ) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car is intended to carry customarily
5. Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease agreement, whose interline rental is settled on a per diem and line haul mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad

|  |  |  |  | NOTES | ND REMARK |  |  |  |  |

1. Give particulars as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at time of filing of report, the units should be omitted, but reference to the number of units omitted should be given in footnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C) or built or rebuilt in company or system shops $(S)$ including units acquired through capitalized leases (L)
2. In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units freight cars or other equipment adopted by the Association of American Railroads, and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement and horsepower per unit, such as aluminum-covered hopper car (LO), steel boxcars-special service (XAP), etc. For TOFC/COFC show type of equipment as enumerated in Schedule 710 .
3. In column (c) show the total weight in tons of 2,000 pounds. The weight of the equipment acquired should be the weight empty.
4. The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges.
5. Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars and company service cars and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule and in the lower section disclose rebuilt units acquired or rewritten into the respondent's accounts. The term "new" as used herein shall mean a unit or units placed in service for the first time on any railroad
6. All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and appropriately identified by footnote or sub-heading.

| 6 | TOTAL | 4,005 | 18.42 | 39.57 | 12.20 | 6 |
| 7 | F | - | - | - | - | 7 |
| 8 | Potential abandonments | - |  |  |  | 8 |

To determine average density, total track miles (route miles times number of tracks) rather than route miles shall be used.

## 721. TIES LAID IN REPLACEMENT

1. Furnish the requested information concerning ties laid in replacement.
2. In column (j), report the total board feet of switch and bridge ties in replacement
3. The term "spot maintenance" in column (k) means repairs to track components during routing inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "Percent of spot maintenance" refers to the percentage of total ties or board feet laid in replacement considered to be spot maintenance.
4. In No. 9 , the average cost per tie should include transportation charges on foreign lines, tie trains, loading, inspection and the cost of handling ties in general supply storage and seasoning yards and in the case of treating ties, also the cost of handling at treating plants and the cost of treatment. The cost of unloading, hauling over carrier's own lines, and placing the ties in tracks and of train service other than that necessary in connection with loading or treatment should not be included in this schedule.

## 723. RAILS LAID IN REPLACEMENT

1. Furnish the requested information concerning rails laid in replacement.
2. The term "spot maintenance" in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks. "Percent of spot maintenance" refers to the percentage of total rails laid in replacement considered to be spot maintenance
3. In No. 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines and placing the rails in tracks and of train service in connection with the distribution of rails should not be ncluded in this schedule.

| Line No. | Track category <br> (a) | Miles of rail laid in replacement (rail-miles) |  |  |  | Total |  | Percent of spot maintenance <br> (h) | Line No. |

## 724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

1. Give particulars of all rails applied during the year in connection with the construction of new track. In column (a) classify the kind of rail applied as follows
(1) New steel rails, Bessemer process.
(2) New steel rails, open-hearth process
(3) New rails, special alloy (describe more fully in a footnote). (4) Relay rails.
2. Returns in columns (c) and (g) should be reported in WHOLE numbers. Fractions of less than one-half should be disregarded, and fractions of one-half or more should be counted as one
3. The returns in columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carrier's own lines, and placing the rails in tracks and of train service in connection with the distribution of the rail should not be included in this schedule.

[^2]725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by the respondent at the close of the year. Only the respond ent's proportion of jointly owned mileage should be included. Under "Weight of rail," the various weights of rails should be given. Road and track occupied under trackage right or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

| Line <br> No. | Weight of rails per yard (a) | Line-haul companies (miles of main track) <br> (b) | Switching and terminal companies (miles of all tracks) <br> (c) | Remarks <br> (d) | Line No. |

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train and Through Train data under items 2, 3, 4, 6 and 12 shall be obtained from conductor's wheel reports (freight) or similar records. Unit train service is a specialized scheduled shuttle type service in equipment (Railroad or privately owned) dedicated to such service, moving between origin and destination. The applicable tariffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted detention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way Trains are defined as trains operated primarily to gather and distribute cars in road service and move them between way stations or way points. Through Trains are those trains operated between two or more major concentration or distribution points. Do not include Unit Train statistics in Way and Through Train statistics. A Work Train is a train operated solely or preponderantly for the purpose of transporting company freight, work equipment or company employees. Statistics for Work Trains should be reported under item 11 only. Statistics related to company equipment, company employees and company freight moving in transportation trains are not to be reported in item 11, but are to be reported in Items 4-17, 6-04, 7-02, 8-04 and 8-05 as instructed in notes $\mathrm{I}, \mathrm{K}$ and L .
(A) Report miles of road operated at close of year, excluding industrial tracks, yard tracks and sidings.
(B) A train-mile is the movement of a train a distance of 1 mile. In computing train-miles, fractions representing less than one-half mile shall be disregarded and other fractions considered as 1 mile. Train-miles - Running shall be based on the actual distance run between terminals and/ or stations and shall be computed from the official time tables or distance tables. Train-miles shall not be increased to cover the running of locomotives from shops to terminals, doubling hills, switching, or other work at way stations, or for the service of helper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carrier's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles actually run and in accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by motorcars.
(C) A motorcar is a self-propelled unit of equipment designed to carry freight or passenger traffic, and is not considered a locomotive.
(D) A locomotive is self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of 1 mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.
(E) All locomotives unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instructions (B) regarding fractions and official time tables for computing locomotive-miles.
(F) Train switching locomotive-miles shall be computed at the rate of 6 miles per hour for the time actually engaged in such service. Include miles allowed train locomotives for performing switching service at terminals and way stations.
(G) Yard switching locomotive-miles shall be computed at the rate of 6 miles per hour for the time actually engaged in yard switching service. Include miles allowed to yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service.
(H) A car-mile is a movement of a unit of car equipment a distance of one mile. Use car designations shown in Schedule 710. Under Railroad Owned and Leased cars, Items 4-01 and 4-11, report both foreign cars and respondents' own cars while on the line of the respondent railroad. In items 4-13 and 4-15, report private-line cars and shipper owned cars. Loaded and empty miles should be reported whether or not the railroad reimbursed the owner on a loaded and/or empty mile basis. Report miles made by flatcars carrying empty highway trailers that are not moving under revenue billings as empty freight car-miles. Do not report miles made by motorcars or business cars.
(I) Exclude from Items 4-01, 4-11, 4-13 and 4-15 car-miles of work equipment, cars carrying company freight and non-revenue private line cars moving in transportation trains. Include such car-miles in Items 4-17, 4-18 and 4-19. If private line cars move in revenue service, the loaded and empty miles should not be considered no-payment or non-revenue car miles.
(J) Report miles actually run by passenger-train cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied; miles run by combination passenger and baggage, passenger and mail, passenger and express; miles run by sleeping, parlor and other cars for which an extra fare is charged; miles run by dining, cafe and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars; and miles run by other passenger-train cars where services are combined such as baggage, express and mail.
(K) From conductors' or dispatchers' train reports or other appropriate source, compute weight in tons, 2,000 pounds. Item 6-01 includes weight of all locomotive units moved 1 mile in transportation trains. Ton miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation trains (excluding non-revenue gross ton-miles). Non-revenue gross ton-miles in transportation trains include work equipment and cars carrying company freight (and their contents). Use 150 lbs . as the average weight per passenger, and 4 tons as the average weight of contents of each head-end car.

## INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - Concluded

(L) From conductors' train reports or other appropriate sources, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and non-revenue freight moved one mile in transportation train. Include net ton-miles in motorcar trains. Exclude I.C.I. shipment of freight handled in mixed baggage express cars. Total Ton-Miles Revenue Freight should correspond to the Ton-Miles reported on Form CBS.
(M) Road service represents elapsed time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at the final terminals, including trains switching at way stations and delays on road as shown by conductors' or dispatchers' train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02 train switching hours included in item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.
( N ) Yard switching hours are hours expended in switching service performed by yard crews in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.
(O) Work-train miles inside the miles run by trains engaged in company service such as official inspection; inspection trains for railway commissioners for which no revenue is received; trains running special with fire apparatus to save carrier's property destruction; trains run for transporting the carrier's employees to and from work when no transportation charge is made, wrecking trains; trains run solely for the purpose of transporting company material; trains run for distributing material and supplies for use in connection with operations; and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs in between yards and shops.
(P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way train to the destination point, the total count of loaded cars would be four; two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondents lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car.
(Q) Report vehicle (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense.
(R) Report the number of loaded revenue trailers/containers picked up, plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroads' expense. (Performed at railroads' expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service). Do not include those trailer/containers which are picked up or delivered by shipper or motor carrier etc. when a tariff provision requires the shipper-motor carrier etc. and not the railroad perform that service. Note: The count should reflect the trailer/containers for which expenses is reported in Schedule 417 Line 2 Column (b).
(S) Report under Marine Terminals, Item 16, the tons loaded onto and unloaded from marine vessels at the expense of the reporting railroad.
(T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below). Foreign railroad cars refers to freight cars owned by other railroads whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the Code of Car Hire Rules.

Carriers will be governed by local conditions in determining whether a car at an interchange point, should be considered "on line". Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yard (excluding cars which are to be repaired in train and without loss of time), car moving empty in trains en route to shop, and cars stored awaiting disposition.

Surplus cars are cars which are in serviceable condition for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.
(U) Flat-TOFC/COFC Car-miles reported in lines 25 (4-020), 41 (41-120), 57 (4-140) and 75 (4-160) will be computed using cars rather than constructed container platforms. For example, an articulated car consisting of five platforms moved one mile will be counted as one car-mile, not five car-miles.
(V) The intermodal Load Factor reported on Line 134 will be calculated for the average number of intermodal (TOFC/COFC) units loaded on the average intermodal car. Units are to be calculated in the same manner as Line 123 (13 TOFC/COFC - No. of Revenue Trailers \& Containers Loaded and Unloaded $(\mathrm{Q})$ ). Intermodal cars will be calculated in accordance with instruction $U$ for reporting Flat-TOFC/COFC Car-miles. Both Intermodal (TOFC/COFC) units and intermodal cars are to be calculated using actual units and not constructed intermodal (TOFC/COFC) units of cars.
