1. Average of three monthly mid-month counts for quarterly report.  
2. Average of twelve mid-month counts for annual report.
1. By Docket No. 37728, served November 16, 1962, Rule 66 of the Preliminary Report of Employees of Class I Railroads and the Reports of Employees, Service, and Compensation filed by Class I Railroads (STB 110-63), Class I Railroads are required to tender to the Commissioner quarterly and annual summary reports of employees, service, and compensation, and for that purpose this form of report is provided.

2. Form A should show the number of employees in various reporting groups, the hours in the service of the employee, and the compensation paid for such service. Employees are to be counted and classified and their service reported as required by the rules governing the classification of railroad employees and reports of their service and compensation contained in Docket No. 37728.

3. Form B should include information with respect to employees in the train and engine group of the quarter to which they relate, and the annual summaries shall be filed within 45 days following the close of the quarter for which they are compiled.

4. The reports shall be filed in duplicate in the Surface Transportation Board, Office of Economics, ATTN: AUDIT & ACCOUNTING, Washington, DC 20523, within 30 days after the close of the quarter to which they relate. Annual summaries shall be filed within 45 days following the close of the period for which they are compiled.

5. The caption of column 2 reads, "average number of employees who worked any pay during month." This means the average number of employees who worked time during the month to meet a work duty, classified by service division. The average shall be a simple average of the monthly figure. The annual average shall be a simple average of the quarterly figure. Employees who worked more than one occupation during the month should be assigned according to the proportion of their duties.

It is estimated that forms of 120 need 7.00 hours per report. An estimate of the collection of information, this estimate includes time for reviewing instructions, searching existing sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of the burden estimate or suggestions for reducing the burden should be directed to both the Surface Transportation Board, Information Resources Management Unit, Attn: Forms 605, Washington, DC 20523, and to the Office of Management and Budget, Office of Information and Regulatory Affairs, OMB No. 3112-0074, Washington, DC 20523.

I, the undersigned, Stephen Halsley of the NPPC, state that the report was prepared by me or under my supervision, that I have carefully reviewed it, and on the basis of my knowledge, belief and verification (whichever necessary) I declare it to be a full, true and correct statement of the operating statistics named and that the various items have reported were determined in accordance with effective rules promulgated by the Surface Transportation Board.
