Dear Representatives Shuster, DeFazio, Denham, and Capuano,

I am writing to transmit a series of reports pertaining to the implementation of the 
Surface Transportation Board Reauthorization Act of 2015, Pub. L. No. 114-110
(“Reauthorization Act” or “Act”). With this letter, please find a status chart of the major actions
that the Board is undertaking to execute these requirements. I also include the fourth quarter
reports on rate case review metrics, formal service complaints, and informal service complaints,
which have been prepared pursuant to Section 6(b) of the Act and posted on the Board’s website.
Finally, enclosed is the fourth quarter report on unfinished regulatory proceedings pursuant to
Section 15 of the Act.

Our first year of reauthorization has been a successful one with the Board meeting all
deadlines and making significant progress in fulfilling all mandates of the Act. I will continue to
send you monthly updates until all relevant provisions of the Reauthorization Act are completed.

Investigative Authority. The Board issued final rules implementing our new investigative
authority on December 14, 2016. 

Rate Cases. As you will recall, in August the Board issued an advance notice of
proposed rulemaking for small, streamlined rate reasonableness cases, intended for use by small
shippers. We received reply comments in *Expanding Access to Rate Relief*, Docket No. EP 665 (Sub-No. 2), a few weeks ago. We will be working hard to meet our next action date of June 2017.

As a follow-up to the economic roundtable the Board held this past October to discuss the rate case methodology report conducted by independent consultants InterVISTAS Consulting LLC, the Board plans to hold a hearing in April 2017 to provide an opportunity for public comment and reaction to the issues raised at the roundtable and in the report.

**Regulatory Proceedings.** As I stated previously, given that our agency is in a time of transition as we await potential changes to our Board membership, I recognize that it may be appropriate to make some adjustments to our forecasted target dates for some of the items the Board has been working to address. For instance, the Board announced an extension of the time for ex parte meetings in *Reciprocal Switching*, Docket No. EP 711 (Sub-No. 1).

Similarly, the Board previously had forecasted target dates of January 2017 for Review of Commodity, Boxcar, and TOFC/COFC Exemptions, Docket No. EP 704 (Sub-No. 1), and for Rail Fuel Surcharges (Safe Harbor), Docket No. EP 661 (Sub-No. 2). In an effort to ensure a smooth transition, and as provided in the quarterly unfinished regulatory proceedings report, the Board has adjusted both of the target dates to “to be determined.” I am certain that once we are farther along in our transition efforts, we will be able to provide target dates once again.

Thank you for your thoughtful oversight and ongoing interest in the Board. Please do not hesitate to contact me with any questions about this letter or any other matter before the Board.

Sincerely,

[Signature]

Chairman
