## BEFORE THE SURFACE TRANSPORTATION BOARD

STB EX PARTE NO. 724 (Sub-No. 2)

### UNITED STATES RAIL SERVICE ISSUES--GRAIN

## WEEKLY REPORT OF BNSF RAILWAY COMPANY

BNSF Railway Company ("BNSF") provides the following fifteenth weekly status report in response to the Board's Order of June 20, 2014 in the above referenced sub-docket. The Board's Order requested weekly status reports containing the following metrics by state: (a) running total of outstanding grain car orders at the end of the week; (b) total number of new orders for the week; (c) total number of orders filled for the week; (d) number of orders cancelled by shippers for the week; (e) number of orders cancelled by BNSF for the week; and (f) average number of days late for all outstanding grain car orders. The Board's Order also asked for the number of cars allocated to grain car service each week, including private cars in service. In a subsequent decision issued on August 18, 2014, the Board asked for plan versus performance information for grain shuttle trips, by region, for the most recent four weeks.

Included herein is the weekly update on the performance measures contained in: (i)

Attachment A reflecting our efforts to resolve the backlog of grain orders from the prior harvest;

(ii) Attachment B reflecting BNSF's progress as measured against the past due glide path previously provided, (iii) Attachment C showing the distribution of past due shipments based on the number of days delayed beyond the want date; and (iv) Attachment D containing the shuttle trips-per-month (TPM) figures for the overall system and for the five destination regions

reported to our customers. All data in Attachments A, B and C has been updated through the morning of October 2, 2014, and Attachment D covers the most recent four weeks of information reported in our weekly customer TPM communications.

We will continue to provide weekly updates of Attachments A, B, C and D pursuant to the schedule in the Board's June 20, 2014 order and to communicate frequently with our customers to ensure that they understand our service situation and that we hear specific feedback.

Respectfully submitted,

Richard E. Weicher
