Re: STB Docket No. EP 724-3 - United States Rail Service Issues- Data Collection

Dear Chairman Miller and Vice Chairman Begeman:

I am writing to provide comment on the service data that we are filing contemporaneous herewith in response to the Board's data collection order of October 8, 2014.

CP's US network continues to be fluid and in good operating condition, as it has for months. Again this week, system average train speed, weekly average terminal dwell, and cars on line data are all good.

Our outstanding grain car orders remain at zero this reporting week, as they have for the previous fourteen weeks. We spotted a total of 930 grain cars this week, which total includes single cars and cars in dedicated trains, and we received 318 new grain car orders. From a grain order perspective, we continue to be current in the United States.

The Rapid City, Pierre & Eastern Railroad (RCP&E) did not request any grain cars this week. On average there was a plus ten CP/RCP&E locomotive balance this reporting week, meaning there were ten more CP locomotives on RCP&E than RCP&E locomotives on CP.

Sincerely,

Robert Johnson

**Senior Vice President Operations**
