Re: *STB Docket No. EP 724-3 - United States Rail Service Issues- Data Collection*

Dear Mr. Elliott, Ms Begeman and Ms Miller:

I am writing to provide comment on the service data that we are filing contemporaneous herewith in response to the Board's data collection order of October 8, 2014.

CP's US network continues to be fluid and in good operating condition, as it has for months. Again this week, system average train speed, weekly average terminal dwell, and cars on line data are all good.

The number of outstanding grain car orders is again at zero this reporting week. We spotted a total of 1507 grain cars this week, which total includes single cars and cars in dedicated trains, and we received 752 new grain car orders. From a grain order perspective, we continue to be current in the United States.

The Rapid City, Pierre & Eastern Railroad (RCP&E) did not request any grain cars this week. On average there was an even locomotive balance this reporting week, meaning that over the course of the week there were as many RCP&E locomotives on CP as CP locomotives on RCP&E.

Sincerely,

Robert Johnson  
Senior Vice President Operations
