Re: *STB Docket No. EP 724-3 - United States Rail Service Issues- Data Collection*
2016 Reporting Week Thirteen

Dear Mr. Elliott, Ms Miller and Ms Begeman:

I am writing to provide comment on the service data that we are filing contemporaneous herewith in response to the Board's data collection order of October 8, 2014.

CP's US network continues to be fluid and in good operating condition, as it has for many months. Again this week, system average train speed, weekly average terminal dwell, and cars on line data are all good.

The number of outstanding grain car orders remains at zero this reporting week, where it has been for all but four of the last 59 weeks. We spotted a total of 1097 grain cars this week, which total includes single cars and cars in dedicated trains, and we received 377 new grain car orders. From a grain order perspective, we remain current in the United States.

Sincerely,

Robert Johnson
Senior Vice President Operations
